ADRENALIFT™

Liquid Compound

Made With

Maca
Magic®

General Information

The body naturally responds to physical and mental stressors. The more beneficial ingredients we give our body, the easier it is to reach a place of balance where our body does not have to deplete its own supply of nutrients in order to keep all of our systems working effectively.

The adrenal glands are made up of two parts:

- The adrenal cortex produces hormones (such as cortisol) which helps the body regulate its metabolism.
- The adrenal medulla, the core of the adrenal gland, produces nonessential hormones, such as adrenaline, which helps the body respond to stress.

We preform Third Party Laboratory Testing on all our herbs to ensure we are providing you with the highest quality available.

ORGANIC GELATINIZED MACA

Maca *Magic*[®]

General Information

Gelatinized Maca goes through an additional process after being dried that breaks down the starch from the maca root making it easier to digest. The gelatinization essentially provides a "predigested" energy source that is more readily absorbed in the gastrointestinal tract. Once this process is done it is no longer raw.

We perform Third Party Laboratory Testing on all our herbs to ensure we are providing you with the highest quality available.

ORGANIC RAW MACA

Lepidium meyenii

Maca *Magic*[®]

General Information

Maca root was domesticated during the pre-Inca around 3800 B.C. It continued to be cultivated by the Inca centuries ago as a valuable nutritious dietary staple and adaptogen.

For the Andean Indians today, Maca Root is still a valuable commodity. It is also an important staple in the diets of the indigenous people, because it has one of the highest nutritional values of any food crop grown in the region.*

We perform Third Party Laboratory Testing on all our herbs to ensure we are providing you with the highest quality available.

DRAGON'S BLOOD

Croton lechleri

Healing from the heart of the Jungle.™

SANGRE DE GRADO

WILD CRAFTED

Sangre de Grado, also known as Dragon's Blood, comes from a medium size tree that grows in the upper Amazon region of Peru, Ecuador, and Columbia. When the trunk of the tree is tapped, a dark red, sappy resin oozes out of the trunk earning its name. [Sergre de Grado is an amazing sustainable rainforest resource.]

Available In: 1 oz. Bottle (Wild Crafted)

Ingredients: 100% sap from the Croton lechleri

Suggested Uses: Take 1-2 drops daily, or as recommended by health care practitioner. Shake well before use.

DRAGON'S BLOOD

Croton lechleri
"Sangre de Grado"

General Information

The first recorded use of Dragon's Blood or Sangre de Grado, dates back to the 1600's, when Spanish naturalist and explorer Padre Bernabe Cobo found that the sap was widely known throughout the indigenous tribes of Mexico, Peru and Ecuador.

Scientists have attributed many of the biologically active properties of the sap to two main "active" constituents: an alkaloid named taspine, and lignan named dimethylcedrusine.*

We perform Third Party Laboratory Testing on all our herbs to ensure we are providing you with the highest quality available.

MACA HRT

Liquid Compound
Renowned Womans Tonic

Maca
Magic

General Information

Maca HRT is loaded with Maca alkaloids and specifically selected herbs that are know to support the healthy function of the endocrine system*. Maca itself does not contain any hormones. Instead, studies show it contains a unique set of nutrients that assist the endocrine system with its adaptogenic properties.

The endocrine system is a collection of organs that secret hormones into the circulatory system for transport to target organs. The major endocrine glands include the pineal gland, pituitary gland, pancreas, ovaries, testes, thyroid, parathyroid, hypthalamus, gastrointestinal tract and adrenal glands.

We preform Third Party Laboratory Testing on all our herbs to ensure we are providing you with the highest quality available.

CAMU CAMU

Myrciaria dubia
"Colorado" (Red)

General Information

Camu Camu grows wild in abundance in swamps along rivers and lakes of Peru, Amazonian Brazil, and Venezuela.

Our full flavored, organic, dark Camu Camu Mega-C Colorado™ Red powder is derived from the whole Camu Camu berry that has been harvested at maturity to pureed. The puree is then dehydrated in top quality stainless dehydrators to make the characteristic dark, reddish-brown powder. Typically it has a wild berry or orange-lemon flavor and is more tannic to taste than our Camu Camu Rosado™. An excellent source of natural vitamin C, it is perfect for use in juices, smoothies, teas and pastries or food bars.

We preform Third Party Laboratory Testing on all our herbs to ensure we are providing you with the highest quality available.

CAT'S CLAW

Uncaria tomentosa

General Information

Uncaria tomentosa is a woody vine found in the tropical jungles of South and Central America. In several languages it is known as Cat's Claw because of its claw-shaped thorns (English Cat's Claw, although that name is also used for other plants; Spanish Uña de Gato).

Uncaria tomentosa is a liana deriving its name from hook-like thorns that resemble the claws of a cat. *Uncaria tomentosa* can grow to a length of up to 30m (100 ft), climbing by means of these thorns. The leaves are elliptic with a smooth edge, and grow in opposing pairs. Cat's Claw is indigenous to the Amazon rainforest, with its habitat being restricted primarily to the tropical areas of South and Central America.

We perform Third Party Laboratory Testing on all our herbs to ensure we are providing you with the highest quality available.

*THIS STATEMENT HAS NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE OR PREVENT ANY DISEASE.
