Dear Cattle Enthusiasts,

It is with great excitement that we invite you to our annual female sale. We promise to show you an elite offering like NEVER before!

First of all, over the years many friends and colleagues have invested in our program or with us on elite females around the country. It's been a good and profitable ride for many. The only problem is these females reproduce, and so do their offspring, and before long much of everyone's time is spent managing partnerships. **All the spring-calving partnership cows and open donors will sell at this time.** The fall-calving partnership cows will likely sell at the conclusion of our February bull sale. We have and will continue to have a lot of fun and exciting times with some amazing breeders and business leaders from around the country.

The heifer calves are the most versatile, highest quality set we have EVER assembled...BAR NONE! We promise that every heifer calf is off the very top of our operation and our cooperators' operations as well. The one thing that we can always guarantee at Hoffman Ranch is that every heifer calf that sells is registered to her actual birthdate.

Every member of our ranch works extremely hard to make this sale happen. We always have a lot of other irons in the fire, but we never short anything to make this event a priority. We look forward to seeing you in September. Please let us know if you have any questions or if we can assist you with your accommodations.

My Best,

Jason

Hoffman Ranch Female Sale • 09/27/2021

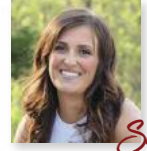

Special thanks to the Hoffman Ranch crew!

CODY Cody is probably the hardest worker we have ever had. He shows pure devotion to the show cattle, the operation, and the sale cattle preparation and is great at it. Cody is someone who just truly loves the industry. He's almost worthy of marrying my niece.

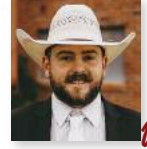

Cody

SHAYNE Shayne and Cody were married this summer, and I don't know of another pair like them when it comes to the show cattle. They quietly get so much done. They never have any issues, are very devoted to the cattle, and are excellent role models for the kids. They tend to business and know everything about it, and they are good to the people and customers. Shayne also sells lack of rain insurance, but I'm glad she can fill in here in her extra time.

Shayne

WADE Most people know that Wade has been here the longest of any of the crew, and we are very fortunate to have him. He plays a vital role in the day-to-day operation and keeps everything going. Wade can fix about anything, build many things, and is a pleasure to be around. He is extremely intelligent and can figure a lot of things out on his own. I'm glad he and his wife, Emilee, are setting some roots here in Thedford.

Wade

EMILEE Emilee is very bright and works extremely hard on the catalog, semen inventory, anything you ask her to do. She and Wade had to end up hauling the kids' heifers to Georgia, and that meant a great deal to us. Emilee is very organized and precise.

Emilee

RYAN Ryan has taken the lead as the cow man here in Thedford. He is extremely intelligent, learns fast, works hard, and is really good at what he does. You can tell that he cares and he tries extremely hard. Ryan is fun to be around.

Ryan

DYLAN Dylan is a very knowledgeable cattleman and does a really good job. He has many years of experience and is very particular about the cow herd in regards to care and maintenance. He knows the cattle as good as anyone you will ever be around. Dylan is a very vital key to keeping the ABC Ranch going.

Dylan

ALVIE Alvie replaced Tim who was at ABC, as Tim had to move back to New Mexico due to a death in his family. He was a tough loss, but Alvie has really filled in great. I like being around and working cattle with Alvie. He is one of those who sees a lot of things the same way I do when it comes to handling livestock. It doesn't take long for him to be on the same page when we are sorting, gathering, or anything involving cow work. He is very pleasant to be around and is upbeat. He is a great asset to have around.

Alvie

KYLE Kyle works good in the show barn under Cody's leadership. There's no telling how many cattle he's washed or blown out here this summer and he's always pleasant.

Kyle

MATT & BLAKE These boys are like family as far as we are concerned. They spend a great deal of time in the show barn, and it's hard to believe that they aren't in college yet with how hard they work. They are great role models for my kids, and I feel extremely blessed to be able to be part of them growing up. They are really a big factor here at the ranch.

Matt

Blake

DOUG Doug takes care of a lot of the day-to-day feedlot needs and does a good job. He is really good around the machinery and keeps a close eye on things. Doug always has a good attitude and a smile on his face. We're glad he's here.

Doug

Stacy Soper (515) 250-3080

PAYMENT

Payment must be made by cash or good check prior to load out, unless prior arrangements have been made with Hoffman Ranch. Registration papers will be transferred upon completion of payment for purchases. A 1.5% monthly interest rate will be applied to any invoices not paid within 30 days of sale date.

SEMEN & EMBRYOS

All frozen genetics will be released to the purchaser once payment is received. **It is the sole responsibility of the purchaser to arrange and pay for shipping.** **There will be no guarantee on embryos.** We feel that there are too many variables. We guarantee the embryos are good enough for us to put in ourselves, so there will be no guarantees on embryos sold in the sale as we get no guarantees when we buy these donors or if they will even make embryos. We will no longer be guaranteeing any pregnancies on embryos. You take the same risks we do when we flush or buy donors.

Hoffman Ranch reserves the right to two future flushes on any females selling at our expense and the buyer's convenience.

SALE TERMS & CONDITIONS

Cattle will sell under the suggested terms and conditions of the American Hereford Association, the American Angus Association or the American Simmental Association.

HERD HEALTH

All of the cattle selling will be ready for immediate shipment and accompanied by proper health certificates. Hoffman Ranch has a full vaccination program.

BREEDING GUARANTEE

We guarantee all livestock sold to be sound breeders. However, if we feel that a female has been fed to an extreme level of obesity for the show ring, we hold the feeder responsible for any reproductive problems and no longer feel responsible to guarantee said individual to breed. In the rare case that this should occur, Hoffman Ranch will still try and help the owner through two breeding seasons.

SUPPLEMENTAL INFORMATION

A supplement sheet and sale order will be available with up-to-date information a few days before the sale and will be posted online at hoffmanranch.com.

LIABILITY

All persons attending the sale and related functions do so at their own risk. Neither Hoffman Ranch nor any person associated with the sale assumes liability, legal or otherwise, for any accidents, loss of property or injuries that may occur.

If this is your child's first year to purchase a female, we will give them \$1,000 credit on a live lot in this sale. If they showed for the first time at the 2021 Junior National Hereford Expo, they will also get \$1,000 sale credit in this sale.

- Lot 1 is a true sale highlight. She could be the best heifer that we have offered in quite some time. She has been my dad's favorite since the day she showed up here. Unbelievably good up through her front third and exceptional in her chest. Usually the 231s don't get this deep bodied this early on, but I think it's a great sign. She is big legged and is perfect in the way she uses them. She has a huge foot under her and is so good over her top and in terms of muscling. In my mind, her kind is what we need to keep striving to raise. Far too often people try to describe flat muscled cattle as sound, but they are sound because they don't have any muscle. This heifer bucks that trend. She is outstanding on her feet and legs, is big and square through her pins, yet she puts it all together in as feminine of a package as you can find. This is a heifer that needs to start the next revolution in terms of putting true power back into these cattle.

- This is a phenomenal female with a unique pedigree—an Anodyne out of the true power cow 231. The Anodynes have exceptional udders. This heifer has a great deal of look to her and is extremely cowy. She's deep sided and exceptional on her feet and legs while still offering some look through her front one-third. She also has a lot of shape and volume to her. Just a good female.

• Probably as good a daughter as we have ever had out of 231. 231 has produced over \$1.5 million worth of females, and I think this one is right up there at the top. Haxton picked this heifer out on his own early on. She is just so complete, and all the fundamentals are there. She carries herself well, is awesome in terms of body, is good through her hip, and is ideal structured. I think you're going to get a lot of awesome traits from Dominate and Outcross as well (she is double bred Outcross). It is no secret what the Outcross daughters have done over time, and this one has two of the best in her pedigree. A phenomenal female. If I was going let my kids get serious about showing Herefords, this one would be in their string.

- I believe the best way to describe this heifer is "solid." She is so fault free and has all the right pieces. So good on her feet and legs and very feminine through her head and neck. She is a smooth polled heifer that I see just getting better and better with time. She is the type that is left in a judge's final top trio, and when he is trying to decide what he's going to use, she will surface because there is too much good in her not to. I just can't pick a hole in this heifer. She is one of my favorites.

- Another really green heifer whose best days are ahead of her. She is up headed, long spined, good on her feet and legs, and has a tremendous amount of foot and bone. I like this heifer a whole lot. She is a little more up headed than the others, but I think a heifer that will continue to get better as time goes on.
- Top 5% WW, top 5% YW, top 5% SC, top 20% Milk, top 5% M&G, top 20% CW, top 15% REA, top 20% \$CHB.
- Owned with Begalka Livestock.
- *Sells open.*

- Dart fronted, great in her rib, tons of shape over her top, and has an exceptional hind leg from the side. You get behind her, and she doesn't disappoint you at all and still moves so good. I think one major advantage the Hereford breed has going for it is structure. And when you can combine power and muscle with that structure the way his heifer does, that puts us in a league of our own.

Granddam of Lots 3-3G & dam of Lots 2-2I

- A definite sale highlight! Lot 3 is a Dominate out of a full sister to The Profit. Dominate and The Profit are probably two of the hottest breeding bulls we have right now. This heifer is just good. She is awesome in her mid-rib and is long and extended out through her front end. I love how she gets around as she is so sound on her feet and legs. Just a good type of heifer with extra depth and the right kind of muscle for a female.
- Top 5% WW, top 2% YW, top 20% Milk, top 5% M&G, top 15% Teat, top 2% CW, top 5% REA.

- I love the pattern of this heifer, who looks a lot like her mother. She's a maternal sister to the Annsley heifer that won just about everywhere that Vada Vickland showed two years ago. This maternal sister is really long bodied, long through her front end, and has a lot of shape. She has The Profit bone and structure, which is a big time bonus. I like this heifer quite a bit.
- Top 10% WW, top 5% YW, top 15% M&G, top 10% CW, top 20% REA.

- Proof that you *can* have it all when it comes to EPDs, genomics, quality and a top-notch cow family. Her grand dam that sold to Express ended up being a carrier, which is too bad because that's a cow that could have done the breed a lot of good. This heifer is clean of everything, and along with that she is exceptionally good. I love the EPD profile of this heifer, and phenotypically she is just as good as her paper.

- This heifer is a full sister to the May heifer Vada Vickland showed in 2020 that won her division everywhere. This is a better female in terms of having more power, substance and true mass. That May heifer got better and better as time went on, but I don't know if she ever got the credit she deserved, just because Vada was dragging those older heifers that had done a lot of winning also. This heifer has the same look and quality that Vada's had, but she is better because she combines it with more substance and mass.
- Top 15% WW, top 5% YW, top 15% M&G, top 10% CW, top 5% REA.

ABOUT SHOW EXPENSES...

Hoffman Ranch does not make money showing cattle that are purchased from Hoffman Ranch. However, we would like to cover our expenses. If Hoffman Ranch cares for and shows your animal(s), the cost will be \$8.00/day for calves and \$12.00/day for yearlings. In addition, Hoffman Ranch will charge a per head, per show amount for the following shows:

- Western Nugget — \$2,500
- Cattlemen's Congress — \$2,500
- National Western Stock Show — \$2,500
- Fort Worth Stock Show — \$2,500
- Junior National — \$2,500

- I called Ryan Johnson to see if he would mind going to look at these United heifers that came from Bones Herefords. He said that they were great, but there was another heifer that you wouldn't want to leave without, and she is this Bell Ringer daughter. The fact that it was Ryan Johnson looking at her made sense, because this heifer looks a lot like the Annsley heifer that he picked for the Vickland Family to show a couple years ago. This heifer has a shot more stifle and is wider pinned. Ryan is consistent in the pattern he likes, and this is a very high quality female that I think can run at any level. One that I don't think can be missed.

- A really unique breeding piece here. This is a carcass bred female that still has plenty of look to her. I love the design and youthfulness of this female, as she is angular through her front third, perfect in her body and ample in terms of muscle. She is good on her feet and legs and is a granddaughter of the high selling cow at Birdwell's a couple years ago that Churchill bought. Just a good, high quality female. You won't find another one like her that combines this type of phenotype and genotype.

- As elite as any heifer we have had in quite some time. This heifer has it all. She has the power, balance and added look. I love the way she is made through the front third of her body, and with that she has a ton of rib shape, is deep bodied, and has more than adequate muscle for an Angus heifer. She is exceptional when she gets out on the move as she steps down on plenty of bone. I think this heifer could be a tremendous amount of fun for whoever buys her. She could show all winter and still go on to make an awesome yearling.
- Top 15% DMI, top 25% MH, top 25% Fat.
- Owned with Harrell Cattle Company.

- This is the flashiest of the three Berwick x 34F flush sisters selling. She is extremely chiseled out through the front third of her body, ample in terms of muscle, and is still exceptional when you put her on the move. I love the depth of body she possesses and how good she is on her feet and legs. This heifer should be easy to find and will only get better with time. I would imagine this is the kind that will make an awesome yearling.

- Exquisite in terms of her structure, body and mass. She is wide pinned with unbelievable depth and carries her muscle down low. She is extremely sound for as much bone as she steps down on. 34F, a past Denver champion, has out produced herself. This is an excellent trio of heifers representing her in this sale.

- This is another Berwick daughter out of the Relentless female that won Denver in 2020. She reminds us of her mother but has a bit more mass everywhere. She's a bolder sprung, deeper sided version of 34F that just has more to her. Like her mother, she is cowy, awesome structured, and is a high-quality female that we think highly of.

...“over the years, many friends and colleagues have invested in our program or with us on elite females around the country. It’s been a good and profitable ride for many. The only problem is these females reproduce, and so do their offspring, and before long much of everyone’s time is spent managing partnerships. All the spring-calving partnership cows and open donors will sell at this time. The fall-calving partnership cows will likely sell at the conclusion of our February bull sale. We have and will continue to have a lot of fun and exciting times with some amazing breeders and business leaders from around the country.”

- We are probably selling this donor too young in her career. Her flush of DeBerdard heifers last year really rang the bell. This was the dam of the high selling heifer that went on to be the Supreme Champion at the Kansas Beef Expo, and another daughter was reserve in her division in Oklahoma City at Cattlemen's Congress. There is no telling what this cow has left to generate. She is really a phenomenal producer, and like I said, we are letting her go way too soon.

- 661 averages 7.9 conventional viable embryos.
- Top 3% Milk, top 10% M&G, top 10% Fat, top 10% REA, top 20% MCW.
- Owned with David Smith.
- Confirmed pregnancy due 4/19/22, sired by SR Dominate 308F ET.

- Pathfinder Dam.
- 3839 averages 10.7 conventional viable embryos.
- Owned with John Patterson.
- Sells open, ready to flush.

- This may be the most unique cow we have ever owned—in any breed. She has really done it in the last year between the female and bull sales. She has almost generated \$750,000 in progeny sales. This cow is right for yesterday and is right for tomorrow. She doesn't fall out bad anywhere, and her numbers will hold. She flushes well and makes every one of her offspring dog gentle no matter what bull you use on her. She is phenomenal and the main reason why we bought HA Value Added 7578. The Value Added daughters in production are ideal. This bull in my mind is the most underutilized bull that there is in the Angus breed, and people will see why over time.
- I think there is a lot of life left within this cow. She is a power cow that brings down birth weight on powerful bulls. Her progeny are phenotypic standouts that have unbelievable foot quality and substance to them. She takes marginal bulls and makes them look terrific in production, and I don't want that to sound insulting to anyone. She can work with anything. She brings down birth weight, improves disposition, and she maintains or improves carcass quality. She fills all of the holes.
- We own this cow with a great friend of ours, John Patterson, and if we didn't have so many partners, there is no way a cow like this would ever be for sale here. We have gone back and forth on what we should do, if we should do it, and why we should do it because there is a lot of life left in this cow, and you aren't going to find another one like her. She sells in her entirety.

... YOU AREN'T GOING TO FIND ANOTHER ONE LIKE HER

- The dam of Casino Bomber N33. I don't know what more you need to say about that. We have gone back and used Bomber some due to the fact that we like his daughters so well. This cow works and is a definite herd bull maker. I think you can use just about anything on her, and she will out produce herself every single time.
- Top 2% MH, top 3% CED, top 4% CEM, top 10% HPreg, top 10% MCW, top 15% SF, top 15% CW, top 20% BW.
- Pathfinder Dam.
- K48 averages 4.9 conventional viable embryos and 5.6 IVF embryos.
- Owned with Rancho Casino. Dam sells as Lot 202.
- Sells open, ready to flush.

- The grandmother of Casino Bomber N33. This cow is a huge egg giver. We have flushed her multiple times and sold flushes on her, and it seems as though we get a ton of pregnancies from her embryos. She is very youthful and is a more eye appealing cow than K48, the mother of Bomber. This cow's feet are excellent, and she is just a model Angus cow.
- Top 10% MH, top 20% DMI, top 20% HPreg.
- G64 averages 15.6 conventional viable embryos.
- Owned with Rancho Casino. Daughters sell as Lots 201 and 202A.
- Confirmed heifer calf pregnancy due 2/8/22, sired by HA Valued Added 7578.

• One of my two favorite cows out of the entire Sitz fall-calving herd when we bought them. This cow out produces science. If you want to be able to sell every son and daughter of a female, this is the cow to buy. She gives a lot of embryos, her daughters are excellent in production and have good udders, and she makes herd bulls—she can do it all. She is not as flashy when it comes to genomics and things like that, but she will out produce those cattle. If you want to stay in the cattle business and be able to sell all the progeny out of a donor cow, you need cows like Y2.

- Top 15% Claw, top 20% \$F.
- Y2 averages 11.8 conventional viable embryos.
- Owned with Triple L Cattle.
- *Sells open, ready to flush.*

If you want to stay in the cattle business...you need cows like Y2.

- Everything you would want in a Thunder daughter. She is very prolific but won't just blow you away with outlandish numbers. Her progeny don't genomic that way either; however, we have not used anything too radical on her. If you want to make good cattle all day long, sons that you can sell with no throwaways and daughters who are extra special in production, 342U would be worth your consideration.
- Top 2% Milk, top 15% Doc, top 20% Claw.
- 342U averages 12.4 conventional viable embryos.
- Owned with Triple L Cattle.
- Confirmed bull calf pregnancy due 3/11/22, sired by HA Valued Added 7578.

- This is a cow that you get drawn to, as she always catches your eye phenotypically. She could be a herd bull producing machine if she was used with the right bull. Her udder has stayed phenomenal, and her numbers are locked in and very solid. This is a cow that gives a high number of embryos when flushed. Really an elite cow.
- Top 3% Fat, top 15% CED, top 15% Doc, top 20% REA.
- 730U averages 15.5 conventional viable embryos.
- Owned with Triple L Cattle.

205A Heifer calf born 8/10/21, sired by TEX Scout 9001.

- A true power cow. I love our Big Sky daughters, and this is by far the most powerful one of them all. She will be a herd bull making machine when used right. She is extremely high quality and good uddered, and you can breed her to about anything. The only thing you need to hone down is the birth weight. This cow kind of has it all. Her Pathfinder mother lived until she was about 15 years of age, and this cow has a whole lot of life ahead of her. She also gives an unbelievable amount of eggs.
- Top 2% CEM, top 2% MCW, top 2% WW, top 2% YW, top 4% MH, top 4% RADG, top 10% CW, top 10% Doc, top 10% PAP, top 10% YH, top 15% SF, top 20% SW, top 20% Angle, top 20% SC.

- Very unique in the fact that she is a power cow that really brings down birth weight. I love these 004 daughters for obvious reasons, but 7374 is as unique as any of them. This cow family at Schaff's has out produced almost anything he has. This cow is the mother of Hoffman Iron Man. If Iron Man had more marbling, we would use him on every heifer at our place. He was our high selling Angus bull in 2019 that we sold to Kroupa Cattle Company in South Dakota.
- Top 2% Angle, top 10% HPreg, top 10% Milk, top 15% YH, top 20% \$F, top 20% \$W, top 20% MH.
- 7374 averages 5.4 conventional viable embryos.
- Owned with Flat Tail Ranch.
- Sells open, ready to flush.

- A Saras Dream S609 daughter that I think can out produce any of them that we have owned. This cow has more substance, mass and bone than the others. She works extremely well in both Angus and Simmental scenarios. Last year, our high selling Sim-Angus heifer that sold for \$35,000 was a Broker daughter of hers. This cow does a lot, and I think you can do a lot with her. We just have too many partners on her, so things have to be split up too many different ways. If you want to make Angus or Sim-Angus show cattle, this is a cow that you definitely need to look at.
- Top 2% Angle, top 2% MH, top 5% MCW, top 5% RADG, top 5% YH, top 20% YW.
- 6322 averages 14.4 conventional viable embryos.
- Owned with David Smith and Kemp Family Livestock.

SPECIAL HOFFMAN RANCH DONATION

**Five percent of the Sunday evening Frozen Genetics Sale proceeds
will benefit St. Jude Children's Research Hospital.**

**Hoffman Ranch and St. Jude Children's Research Hospital are partnering to help save the lives
of children suffering from childhood cancer and other life-threatening diseases.**

**Through their leadership, the Hoffman family is engaging in this cause
and encourages others in the cattle business to join them.**

"Give thanks for the healthy kids in your life, and give to those who are not."

Denny & Dixie Hoffman
Jason & Kaycee Hoffman,

- A good friend of ours tipped us off about her selling, and when we looked her up, I was thrilled with the quality and structure of her udder, her numbers and her unique pedigree. I knew she would have a lot to add to our operation. There's no telling how many times we could have sold her. We have had as many people call asking to buy a piece of her as much as any purchase we have ever made. I think she is extremely unique.

- Huge numbers, tons of quality, picture-perfect udder, outstanding milk flow. This is a cow that can be mated to every bull in our lineup. She is that good. On top of being awesome phenotypically, she is also a huge egg giver, and you can't beat that! DNA has moved her numbers in a very positive direction, so now more than ever, we feel this cow can fill a lot of holes, not just for us, but for the breed as well.
- Top 1% \$CHB, top 1% Marb, top 1% WW, top 1% YW, top 3% \$BII, top 3% M&G, top 4% CW, top 10% \$BMI, top 15% SC.

- This is the dam of Gerber High Time. They say there is a full sister to High Time at Gerber's that matches his quality as well as that of their mother. This tells me that this cow is a very prolific producer. Typically, it's hard to find a cow that has a birth weight as low as hers that comes with the kind of quality she does. She is one that gives so much flexibility with making power bulls and heifer bulls alike. It sounds like there needs to be more Excede daughters from the reports that I have heard. Dad really liked them at Tommy Mead's several years ago, and at that time we had some 719T influence and didn't really tie to Excede as much as we should have. However, this cow is a way of doing that now.

• Two very big numbered cattle who could each produce show cattle. An extremely high quality mating. I just can't say enough, other than I will probably mate this cow again to Entice, because I think there is so much good here to offer for the whole breed really. The daughters out of this mating should be phenomenal uddered, and the bulls should have all kinds of power. I don't know how you could mate either animal any better.

• I feel that these embryos are some of the very elites in the sale. I dang sure don't mind having carcass bred, number driven cattle if they can look like these two individuals. They won't sacrifice anything when people come to sort quality in our sales. I would look for their progeny to be right at the front end of quality. We would love to get a herd bull out of this mating, and I think the daughters will be second to none.

401 Selling 1 package of 4 conventional embryos.

GERBER HIGH TIME H65

• This mating could give it all to you. Zoey needs to be mated to a bull with pigment, and Distinct has that. These are two high quality, low birth weight type of cattle that have a lot of power to them. It's phenomenal what this mating could do. Distinct has all kinds of shape, he had 40 cm. testicles when we sold him, and he is very good structured. He is a low birth weight bull with unbelievable power, and you won't find many Historic sons that are even close to a 100 yearling weight EPD, but he has it. Along with that, Distinct is homozygous polled. There should be a lot of fertility and efficiency in this mating.

• These are full sibling embryos to SR Dominate, the most popular champion we have ever had. He is the reigning Supreme Champion of the Hereford breed at the National Western Stock Show. Whether you are a commercial bull producer, an Angus breeder, an auctioneer or a judge, it doesn't matter who you are, you gravitate to this bull. He hits you hard. Impeccable structure, great shape and unbelievable quality. He looks like what most people would call a show heifer maker, but we are going to use him to make bulls and replacement heifers just as much. These embryos speak for themselves really. You could go on and on, and you have good udders on both sides of the pedigree.

- Our good friends the Lewises and us purchased the pick of Connealy's cow herd this year. This cow just put together the most good for us. She is a phenotypical standout, has a lot to offer in terms of production records, she flushes good, and she is a direct daughter of 1209. Just like the Ellingson pick, it was easily her in our minds. A lot of people see things different, but for us and the Lewis family, it was definitely her.
- I think the Optimum deal is going to be really good. He is a high marbling Growth Fund son. The Growth Fund cattle have worked extremely well here for both bulls and females. His sons were so easy to sell in our last bull sale. People really came after them, and the Growth Fund daughters in production are very elite. I wish I would have used him more, and if he would have been a more proven bull at the time, we would have, so now we are trying to tie back to him through his sons. Optimum, Bond, Mighty and High Road are the ones we are going to do it with, but just really phenomenal types of bulls.

- 5169 was our pick of the cow herd at Ellingson's. She has a bull in the stud, Ellingson Authorize, that ABS owns who is doing an unbelievable job. This bull has done a phenomenal job at Ellingson's, and everything that I saw went back to 5169. When it was time to make the choice to pick, it was a no brainer to me. She was not the cow that I thought I was going to bring home with me, as there were a lot of cattlemen whom I really respect that were leaning me on another cow that I thought I was going to take, but I came out with 5169. She has it all... she is so angular, neat and awesome through her hip. She's attractive, and I just can't say enough good about her. Adding her to our program, I really wanted to mix her and the 3839 cow together, and that is one big reason that we mated her to Thedford. We had been saving the Thedford name forever for when I thought there was a bull that we would use for generations that I want to see in our catalog in front of our customers, it was going to be Thedford, and that is why I saved the name. This bull is the bull that I hope to see in generations—not only here but in other pedigrees—for years to come. You have the great 5169 cow and the immortal 3839 cow in the pedigree of this mating.

Dilly was my pick of bull calves in Oklahoma City at the Cattlemen's Congress this year. This bull is exceptional. Solid as can be, huge middled, sound structured and still has a lot of look, especially for a massive horned bull. He just has so much quality. I want to use this bull a great deal as we move forward. I think he is every bit as good phenotypically as The Profit or Dominate. In my opinion, he deserves to be compared to them, and if he breeds true to his own phenotype, look out! Owned with Dry Creek Farms and Buck Cattle Company.

The old standby. I can't think of another bull that can do the things that Outcross has accomplished over time. Look at all his progeny. Two Supreme Champions, Belle Air and Dominate, are out of Outcross daughters, along with numerous herd bulls and cows in production today. Outcross can do it all, and I still don't think there is a bull that can rival what he has done for the select amount of semen we have sold on him. The daughters have been extremely prolific.

• Selling 20 units of Outcross semen in 5 unit lots.

• Dominate is exceeding everything we thought that he would do. I think he is a tremendous and versatile breeding bull, making bulls and heifers alike. He's a bull that we will use a great deal. I look for the daughters to be exceptional. Dominate has a lot of good udders and power cows behind him. I think we will use this bull for a long time to come.

Check out these daughters of Dominate selling Monday...

• There isn't much left for Montgomery to prove, especially the way his numbers have adjusted and with the quality of cattle that he has sired, which includes several national champions. He's extremely complete, and the Montgomery daughters have had excellent udders, along with the DeBerards. The Montgomerys are softer hided cattle that are extremely easy fleshing, great on their feet and legs and have a lot of look to them.

• Selling 100 units of Montgomery semen in 10 unit lots.

• When people call and ask what bull they should be trying to get semen on, I tell them to wait until the next time we sell semen on The Profit. I don't know of another breeding bull currently like him. He's so unique. His sons and daughters are awesome. For as much bone as they have, they are exceptionally sound, smooth jointed cattle. The Profit's birth weight has gone down over time, and he fills in so many blanks that other bulls just can't. Someday we are going to get that high marbling son out of him, and that'll be the day! Because he is such a great asset to our program and many others. When people ask, "Well, what can he do?", I say he can do just about everything, and the proof is in the pudding. Just look at his daughters offered in this sale.

• Selling 200 units of The Profit semen in 10 unit lots.

• We bought the last of the Benton semen that ABS had due to his untimely death. His numbers and phenotype are almost unrivaled within the breed, and the first calf reports are very good at Atkins' and Delaney's. I think this will be a really good deal. I have had a lot of calls that I have had to put off about this semen until this sale. I think this is a bull that can be used for a variety of purposes. This will be the biggest offering of semen to date on him.

• Selling 100 units of Benton semen in 10 unit lots.

• A bull we bought with Genex but one we will not release semen on until spring, so our fall sale will be your only opportunity to get your hands on some at this time. He fills all the holes this breed needs filled. He is a heifer bull that does not give up performance or quality. He is just flat good. And I think if you saw his mother, you'd see the true significance and value in using him. She is picture perfect. She has a great udder and is so refined through her front third, but she still has plenty of rib and mass. She came from Doug Gerber, who in our minds is one of the most recognized breeders due to the fact that he breeds for science and quality. This bull has so much to offer. He is homozygous polled, fully pigmented, easy fleshing, sound structured and big testicled. He froze a huge amount of high quality semen at only 11 months of age.

• Selling 200 units of High Time semen in 10 unit lots.
