PRODUCT AWARDS:

NTI SHADOW - EASY TO USE BACKUP SOFTWARE FOR WINDOWS AND MAC COMPUTERS

NTI Shadow for PC and Mac is an easy-to-use backup application that automatically protects your photo, music, video, and various data files. It makes data restoration as easy as dragging and dropping files from one place to another. For real-time, continuous data backup, set Shadow to save your files/folders every time they change. You can also specify your backup schedule by the minute, hour, day, week and start time(s) and also choose a specific or even a customized file type with Shadow's new advanced file filtering.

Not only does Shadow allow users to automatically copy files from their PCs to various devices in real time, but it also preserves the files in their native format - meaning no additional software is necessary to restore files. Shadow works transparently in the background without disturbing you while you work, and does not take up important system resources.

PACKAGE INCLUDES:

- Freecom Mobile Drive (FAT-32 pre-formatted (Win/Mac))
- USB cable (USB 2.0 & 1.1)
- Manual on CD
- Quick Install Guide
- Free unlimited helpdesk support
- 2 years manufacturers warranty
