## Watch Movies and Listen to Music with Wireless Headphones

The PLVWR1440 also has a built-in IR transmitter, which lets you watch movies with IR-compatible wireless headphones -- so everyone can enjoy the ride in peace and quiet.

A full-function wireless remote is included, so you can safely change channels and adjust settings without having to get out of your seat

A full-function wireless remote is included, so you can safely change channels and adjust settings without having to get out of your seat

## **Multiple RCA Connectors Lets You Design Your System the Way You Want**

The PLVWR1440 comes with one video input and a video and stereo output. The extra video input cable lets you use your in-dash DVD player to play movies through the PLVWR1440, so the entire vehicle can watch the same movie, while audio is played through the vehicle's speakers. You can also directly connect your player to the car's audio equipment using the audio output cables, and the video output cable lets you hook up an extra monitor to the player.

## **More Convenient Features**

### **Built-in Dual Dome Lighting**

Whether you're travelling through a dark tunnel or on the road at night, the PLVWR1440's powerful dome lights help you find and load movies easily with just a click of the button.

### **Swivel Screen**

The monitor swivels up to 45 degrees left and right, so you can adjust it to fit your viewing pleasure.

### **Built-in Monitor Controls**

You can also tweak your monitor's display using the built-in monitor controls. Too much contrast? Not enough saturation? No problem! Just use the included full-function remote to wirelessly adjust your monitor's settings so you can get a picture that's perfect for you.

## **Product Description**

This 14" Pyle high-resolution TFT roof mount monitor has a crystal-clear display to keep the back seat busy and entertained! This screen has a 4:3 display ratio at a resolution of 1024 x 768 for a beautiful image. The monitor swivels up to 45 degrees left and right, has dual-dome lighting for illumination, and is equipped with 2 AV inputs, so you can hook up multiple devices without having to worry about messy wires. Tweak your monitor's display using the built-in

controls, or use the included wireless remote control. The built-in IR transmitter can be used with wireless IR headphones to keep the noise low and the fun high! Requires 12 V.
