

CrystalsDrop

WE ARE CRYSTALS DROP

Our mission

Our sole focus is on “To serve you” and that makes our mission unchangeable; To offer the finest, purest and natural oils which will be fulfilling to our customers’ need and give them maximum profit potential.

Discover our roots

Crystals Drop founded by Ms. Himauni Jain with only one aim to launch a community where the world can see the purpose of Essential oil and Plant Extracts in daily life and also can get fine quality essential oils and other Natural Raw materials.

Crystals Drop’s roots were even got more solidified when, Mr Ajaay K Jain, now president of Crystals Drop. and Founder/ Director of Virat Exports Pvt Ltd, a leading supplier of mint oil and its derivatives for the past 30 years in this industry, also the two-time president of the Essential Oil Association of India (EOAI) and member of the Executive Committee of Asian Aroma Ingredients Council, where he promotes the Indian Essential oil industry on Asian level decided to join the company. He brings all of his experience and knowledge to the ground which makes our company’s sourcing and distribution process much more planned.

Why Us?

We ensure only the highest quality and purity of products are maintained. Our suppliers consistently meet our stringent quality standards as per international standard specifications

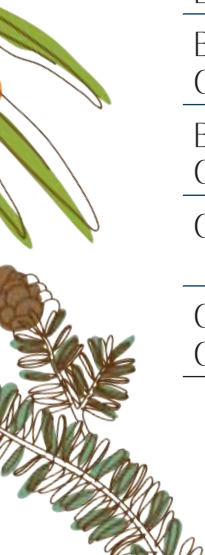

We provide our own packaging materials for some of our products directly to our supplying distilleries to avoid potential contamination at field level.

Soaps

Our ethical and environmental policy:

SUSTAINABILITY

We support farms and distilleries that prioritize people over profit. Every decision we make is evaluated to see if it is the best option for both people and the environment.

We are part of the farmer's welfare association and distribute seeds and resources for plantation.

We are part of the BLSP (Bharat Lok Shiksha) association, where family members especially children receive free education.

We donate to The MAKAM Initiative, an organization for women's Farmer's Rights whose sole goal is to encourage every one of the female farmers in their struggle for food security. Wherever possible, we incorporated ecological features into our packaging, even if it means paying a higher price.
