SAP is the short form of Systems, Applications & Products in Data Processing. It is one of the largest business process related software. This software focused on business processes on ERP & CRM. What is transaction code in SAP? Transaction code shortly known as tcode, is a shortcut code to access different functional areas in SAP. It avoid users from long menu path to reach a report. Instead of that users can type the corresponding transaction code and press enter, the corresponding SAP page will load.

TCODE	NAME	DESCRIPTION
FDI1	Customer Aging Report	Customer Aging Report
FKI1	Vendor Aging Report	Vendor Aging Report
FDI5	Customer Aging Report (Drill Down)	Customer Aging Report (Drill Down)
