

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

CAMPYLOCENTRUM GRISEBACHII

Origin: Brazil

Temperatures: Cool to warm growing small size leafless orchid species

Light: Bright shade

Watering & Fertilizing: Regular watering and fertilizing year-round

General care: Rare in cultivation, this is another cool leafless orchid species. Grows best under cool to warm conditions, in bright shade, high humidity and good air movement. Can be grown mounted. To help with good humidity, you can hang some Spanish moss over it. Great plant for terrariums, indoor growing on windowsills or greenhouses and outdoors in proper zones.
