These types of contracts are commonly referred to as being “piggybackable.”

Region 4 ESC’s purchasing cooperative was established in 1997 as a means to increase their economic and operational efficiency. TCPN leverages one of the largest pools of purchasing potential. This is accomplished by competitively soliciting proposals and awarding contracts for commonly purchased products and services. Through the TCPN solicitation process, Region 4 ESC awards contracts covering Facilities, Furniture, Office Supplies & Equipment, Security Systems, and Technology and other goods and services industries.

- Provide quick and efficient delivery of goods and services.
- Equalize purchasing power for smaller agencies that are unable to command the best contracts for themselves.
- Help in assisting with use of best business practices.

### **IV. Customer Service**

- TCPN is dedicated to making our contracts successful for both our members and our awarded vendors.
- TCPN is committed to providing our members and awarded vendors with high quality service.
- TCPN has dedicated staff available to answer questions, offer guidance and help in any way possible.

**X. Withdrawal of Proposals:** Withdrawal of proposals prior to the opening date will be permitted. Withdrawal of response will not be allowed for a period of 120 days following the opening. In such case, Offeror must provide written notice of their desire to withdraw, along with supporting documents, within 3 business days of receiving the acceptance letter or of being requested by Region 4 ESC for clarification of the proposal, whichever is later. Any contracts entered into prior to Region 4 ESC receiving notice must be honored.

No Offeror should assume that their withdrawal request has been accepted unless, and until, they receive written acknowledgment and acceptance of their proposal withdrawal.

**XI. Clarifications:** Offeror may receive a written request to clarify, in writing, its proposal in order to determine whether a proposal should be considered for award. The process of clarification is not an opportunity for an Offeror to revise or modify its proposal, and any response by an Offeror to a written request for clarification that attempts to revise or modify its proposal shall be given no effect. The purpose of the request for clarification will be solely made for the purpose of eliminating minor irregularities, informalities, or apparent clerical mistakes in the proposal, which may be corrected or waived in the leading agency's sole discretion.

**XII. Non-Responsive Proposals:** All proposals will be reviewed for responsiveness to the material requirements of the solicitation. A proposal that is not materially responsive shall not be eligible for further consideration for award of the contract, and the Offeror shall receive notice of the rejection of its proposal.

**XIII. Negotiations:** Region 4 ESC shall determine which responsive proposals are in the competitive range and/or are reasonably susceptible of being selected for award. Proposals not in the competitive range may not be further evaluated. Proposals in the competitive range shall be evaluated on the basis of price and the other evaluation criteria set forth in the solicitation. In the event that Region 4 ESC decides to conduct negotiations, notice shall be provided to each Offeror whose proposal is being considered for award, which notice may identify, in general terms, the elements or factors upon which Region 4 ESC intends to base its negotiations. Offerors will not be assisted, in any way, to bring their proposal up to the level of other proposals through discussions. During the course of negotiations, no Offeror's technical proposal or pricing shall be revealed to any other Offeror or to any other person who is not involved with the evaluation process. Region 4 ESC will also not indicate to Offeror a cost or price that it must meet to either obtain further consideration nor will it provide any information about other Offerors' proposals or prices.

**XIV. Best and Final Offer:** Region 4 ESC, in its sole discretion, may request all Offerors in the competitive range to submit a Best and Final Offer. Offerors must submit their Best and Final Offers in writing. If

an Offeror does not respond to the request for a Best and Final Offer, that Offeror's most recent prior offer will be considered to be its Best and Final Offer.

- XV. Specifications:** When a solicitation contains a specification that states no substitutions, no deviation from this requirement will be permitted. Offeror must comply with the true intent of the specifications and drawings and not take advantage of any unintentional error or omission. In cases where no type and kind of product is specified, specifications have been developed to indicate minimal standards as to the usage, materials, and contents based on the needs of the members.

References to manufacturer's specifications (Design Guides), when used by Region 4 ESC, are to be considered informative to give the Offeror information as to the general style, type and kind requested. Responses proposing goods, materials or equipment regularly produced by a reputable manufacturer shall be evaluated by Region 4 ESC which will, in its sole discretion, determine whether such proposed goods, materials or equipment are substantially equivalent to the Design Guides, considering quality, workmanship, economy of operation, and suitability for the purpose intended. Offerors should include all documentation required to evaluate whether or not their proposed goods, materials or equipment are substantially equivalent to the Design Guides.

- XVI. Quality of Materials or Services:** Offeror shall state the brand name and number of the materials being provided. If none is indicated, then it is understood that the Offeror is quoting on the exact brand name and number specified or mentioned in the solicitation.

However, unless specifically stated otherwise, comparable substitutions will be permitted in cases where the material is equal to that specified, considering quality, workmanship, economy of operation and suitability for the purpose intended.

- XVII. Samples:** Upon request, samples shall be furnished, free of cost, within seven (7) days after receiving notice of such request. By submitting the proposal Offeror certifies that all materials conform to all applicable requirements of this solicitation and of those required by law. Offeror agrees to bear the costs for laboratory testing, if results show that the sample does not comply with solicitation requirements.

Submissions may be rejected for failing to submit samples as requested.

- XVIII. Deviations and Exceptions:** Deviations or exceptions stipulated in response may result in disqualification. It is the intent of Region 4 ESC to award a manufacturer's complete line of products, when possible.

- XIX. Formation of Contract:** A response to this solicitation is an offer to contract with Region 4 ESC based upon the terms, conditions, scope of work, and specifications contained in this request. A solicitation does not become a contract until it is awarded by Region 4 ESC. A contract is formed when Region 4 ESC's board signs the Vendor Contract Signature Form. The prospective vendor must submit a signed Vendor Signature Form with the response thus, eliminating the need for a formal signing process.

- XX. Estimated Quantities:** Region 4 ESC anticipates that a substantial number of participating members will enter into contracts resulting from this solicitation based on multiple surveys and usage of other contracts that may have included similar services; however, Region 4 ESC makes no guarantee or commitment of any kind concerning quantities or usage of contracts resulting from this solicitation. The volume for this contract is estimated to be from \$10 million to \$20 million a year. This information is provided solely as an aid to contract vendors in preparing proposals only. The successful Vendor(s) discount and pricing schedule shall apply regardless of the volume of business under the contract.

- XXI. Multiple Awards:** Membership includes a large number of potential entities which may utilize this contract throughout the nation. In order to assure that any ensuing contract(s) will allow Region 4 ESC to fulfill current and future needs, Region 4 ESC reserves the right to award contract(s) to multiple

vendors. The decision to award multiple contracts, award only one contract, or to make no awards rests solely with Region 4 ESC.

3.3. **Offeror's Promise:** Offeror agrees all prices, terms, warranties, and benefits granted by Offeror to Members through this contract are comparable to or better than the equivalent terms offered by Offeror to any present customer meeting the same qualifications or requirements.

- 4.5. **Novation:** If contractor sells or transfers all assets or the entire portion of the assets used to perform this contract, a successor in interest must guarantee to perform all obligations under this contract. Region 4 ESC reserves the right to accept or reject any new party. A simple change of name agreement will not change the contractual obligations of contractor.
- 4.6. **Contract Alterations:** No alterations to the terms of this contract shall be valid or binding unless authorized and signed by a Region 4 ESC staff member. Contract alterations will occur quarterly from the inception date of the contract. Contract updates include, but are not limited to: price changes, changes to product lines, dealer additions, etc.

Neither Region 4 ESC, TCPN, its agents, members and employees shall be made party to any claim for breach of such agreement.
- 4.9. **Adding authorized distributors/dealers:** Awarded vendors are prohibited from authorizing additional distributors or dealers, other than those identified at the time of submitting their proposal, to sell under their contract award without notification and prior written approval from TCPN. Awarded vendors must notify TCPN each time it wishes to add an authorized distributor or dealer. Purchase orders and payment can only be made to awarded vendor unless otherwise approved by TCPN. Pricing provided to members by added distributors or dealers must also be less than or equal to the pricing offered by the awarded contract holder, unless otherwise approved by TCPN.

## **ARTICLE 5- TERMINATION OF CONTRACT**

- 5.1. **Cancellation for Non-Performance or Contractor Deficiency:** Region 4 ESC may terminate any contract if Members have not used the contract, or if purchase volume is determined to be low volume in any 12-month period. Region 4 ESC reserves the right to cancel the whole or any part of this contract due to failure by contractor to carry out any obligation, term or condition of the contract. Upon cancellation under this paragraph, all goods, materials, work, documents, data and reports prepared by contractor under the contract shall become the property of the Member on demand.

5.2 **Termination for Cause:** If, for any reason, the Vendor fails to fulfill its obligation in a timely manner, or if the vendor violates any of the covenants, agreements, or stipulations of this contract Region 4 ESC reserves the right to terminate the contract immediately and pursue all other applicable remedies afforded by law. Such termination shall be effective by delivery of notice, to the vendor, specifying the effective date of termination. In such event, all documents, data, studies, surveys, drawings, maps, models and reports prepared by vendor for this solicitation may become the property of the participating agency or entity. 5.4 **Force Majeure:** If by reason of Force Majeure, either party hereto shall be rendered unable wholly or in part to carry out its obligations under this Agreement then such party shall give notice and full particulars of Force Majeure in writing to the other party within a reasonable time after occurrence of the event or cause relied upon, and the obligation of the party giving such notice, so far as it is affected by such Force Majeure, shall be suspended during the continuance of the inability then claimed, except as hereinafter provided, but for no longer period, and such party shall endeavor to remove or overcome such inability with all reasonable dispatch.

It is understood and agreed that the settlement of strikes and lockouts shall be entirely within the discretion of the party having the difficulty, and that the above requirement that any Force Majeure shall be remedied with all reasonable dispatch shall not require the settlement of strikes and lockouts by acceding to the demands of the opposing party or parties when such settlement is unfavorable in the judgment of the party having the difficulty.

5.5 **Standard Cancellation:** Region 4 ESC may cancel this contract in whole or in part by providing written notice. The cancellation will take effect 30 business days after the other party receives the notice of cancellation. After the 30th business day all work will cease following completion of final purchase order. Vendor may be requested to provide additional items not already on contract at any time.

Such records shall be made available to the New Jersey Office of the State Comptroller upon request. Region 4 ESC shall have the authority to conduct random audits of Vendor's pricing that is offered to eligible entities at Region 4 ESC's sole cost and expense. Notwithstanding the foregoing, in the event that Region 4 ESC is made aware of any pricing being offered to eligible agencies that is materially inconsistent with the pricing under this agreement, Region 4 ESC shall have the ability to conduct an extensive audit of Vendor's pricing at Vendor's sole cost and expense. Applicable laws and regulation must be followed even if not specifically identified herein.
- 13.8 **Open Records Policy:** Because Region 4 ESC contracts are awarded by a governmental entity, responses submitted are subject to release as public information after contracts are executed. If a vendor believes that its response, or parts of its response, may be exempted from disclosure, the vendor must specify page-by-page and line-by-line the parts of the response, which it believes, are exempt. In addition, the Offeror must specify which exception(s) are applicable and provide detailed reasons to substantiate the exception(s). Offeror must provide this information on the "Acknowledgement and Acceptance of Region 4 ESC's Open Records Policy" form found at the beginning of this solicitation. Any information that is unmarked will be considered public information and released, if requested under the Public Information Act.

The determination of whether information is confidential and not subject to disclosure is the duty of the Office of Attorney General (OAG). Region 4 ESC must provide the OAG sufficient information to render an opinion and therefore, vague and general claims to confidentiality by the Offeror are not acceptable. Region 4 ESC must comply with the opinions of the OAG. Region 4 ESC assumes no responsibility for asserting legal arguments on behalf of any vendor. C. KI used the following method to develop the subcontracting goals:

The full range of products and services as defined by the North American Industrial Classification System (NAICS) and authorized by the Regulatory and Statistical Analysis Division, Office of Information and Regulatory Affairs, Office of Management and Budget were used to develop the Small, Small Disadvantaged, Women-owned Small Business, HUBZone Small Business, Veteran-owned Small Business and Service-disabled Veteran-owned Small Business concerns subcontracting goals. We also based our goals on previous year's purchasing records and information and on previously approved subcontracting plans as well as direction from our administrative contracting officer.

D. KI identifies potential subcontractors using the following source lists and organizations:

We require that all suppliers complete a vendor registration and information form. We enter this information into our computer database, which enables us to analyze our purchases and which types of business concerns are involved as we purchase our goods and supplies for the manufacture of our products. We located potential suppliers through mass mailing lists of prime contractors, through lists of subcontractors published by State organizations, through business guides and trade journals, through industry trade shows, meetings, seminars, buyers and suppliers shows, through solicitations, request for quotations, and invitations to bid and by requesting sources from the Small Business Administration's Dynamic Small Business Search database ([http://dsbs.sba.gov/dsbs/dsp\\_dsbs.cfm](http://dsbs.sba.gov/dsbs/dsp_dsbs.cfm)).

E. Indirect and overhead costs  X  HAVE BEEN (or) \_\_\_\_\_ HAVE NOT BEEN included in the dollar and percentage subcontracting goals stated above.

In the same way that direct costs are reviewed for small business utilization planning, the method used to determine the proportion of indirect and overhead costs was to consider the full range of indirect and overhead products and services as defined by the North American Industrial Classification System (NAICS) and authorized by the Regulatory and Statistical Analysis Division, Office of Information and Regulatory Affairs, Office of Management and Budget, to develop the Small, Small Disadvantaged, Women-owned Small Business, HUBZone Small Business, Veteran-owned Small Business and Service-disabled Veteran-owned Small Business concerns subcontracting goals. Previous year's purchasing record information, previously approved subcontracting plans, and direction from our administrative contracting officer were also considered in developing the small business utilization goals and strategy.

2. **Brief history of your company, including the year it was established.**

At KI, we believe knowing our customers helps us serve you better. So we listen, observe and develop an understanding of your unique needs. Nothing gives us more satisfaction than helping you make smart furniture decisions.

### **Our foundation**

The metal chair was KI's flagship product in 1941. Innovative for its time, it brilliantly answered the call for seating that was portable, stackable, durable and affordable. KI recognized the market's need and responded with a welcome solution.

The KI folding chair symbolizes a long legacy of listening to our customers. Our insightful ability to solve problems through product design and space planning concepts has made us a respected leader in manufacturing furniture solutions – products that skillfully support the success of customers in the business, education and healthcare markets.

Today, we've grown well beyond our folding chair origins and offer a broad portfolio ranging from seating and tables to architectural walls and panel systems. Our award-winning innovations reflect a desire to meet your objectives, be your go-to resource and build an enduring relationship with you.

This foundation and a strong market understanding is why KI customers throughout the world continue to rely on our trusted expertise to create solutions that fit their environments. That's why we say we offer far more than furniture...We're Furnishing Knowledge.

### **History**

In 1941, when Krueger Metal Products, Inc. was founded in Aurora, Ill., the war effort made manufacturing resources scarce. On a daily basis, founder Al Krueger would call on steel companies to purchase materials to manufacture the company's first folding chairs. The scrap materials available determined what he could produce...a novel and flexible way of manufacturing. We continue that tradition today as an environmentally conscious corporate citizen.

- **Market Development Analysts** - The goal of the Market Development area is to generate thousands of "qualified" project opportunities with KI's core Market clients for our field sales representatives. These projects must be "new" to the field and not already registered in our internal database. Each analyst has a monthly goal to bring in "new" qualified projects per month. That total is broken down by market to mirror the sales reps face time. A qualified project requires the following:
  - The decision maker for the furniture has been identified and has confirmed or given the detail of the project.
  - A need for KI furniture exists.
  - The applications of the furniture are identified.
  - The construction timeline is no more than 2 years out.
  - The project was not already registered by the field rep.

The analysts have an average number of calls per day to potential customers. Of those calls, the analyst has an average number of "qualified" projects per day. The information is gathered and sent to the appropriate inside or outside sales representative to close.

- **Inside Sales Support** - KI has a dedicated Inside Sales Support area that work within a specific region to support customers, clients and sales representatives. 13. What differentiates your company from competitors?

**WHAT MAKES US DIFFERENT**

Even though we are a furniture manufacturer, it's not how we view ourselves. Rather, we believe our job is to bring knowledge to the table. By sharing our thought leadership and experience, we help you to make well-informed, educated decisions about your furniture investment as well as the overall space it will be in.

That's why we will lead with a question instead of a catalog. We want to hear what you have to say about your company's goals, how your employees or students want to work or learn, your expectations ... even what you want people to feel when they walk into your space. What is important to you is important to us.

We've made conscious decisions to structure our business – from the front office to the manufacturing floor – in a way that allows us to respond to you.

## Employee owned

Unlike the vast majority of furniture manufacturers, KI is 100% employee owned. And when you own something, you treat it differently. Everyone in the organization from the executive office to the production floor is a stakeholder in the company. And while the benefits of employee ownership for the company and the employee are well known, there are less visible advantages for the customer as well.

- Empowered Employees -- We encourage every single employee to view themselves as an owner and entrepreneur. Our employees have the autonomy and flexibility to streamline processes, implement innovative ideas and made decisions on behalf of what is best for the customer. They understand that your happiness leads to their success.
- Consistency – Mergers and acquisitions regularly occur in the furniture industry, distracting employees by disrupting culture and adversely affecting policies, procedures and employment. Employee ownership ensures continuity and stability for both employees and customers.
- Increased Investment – In addition to tax savings, the employee ownership structure can result in additional savings from having a workforce that is invested in being productive and finding innovative ways to save money and bring value to the customer. Those dollars can be reinvested into technology improvements, increased services and other initiatives that benefit our customers.

## Core market focus

The market is constantly shifting. Customer needs are ever changing. And KI is always there. We persistently grow our knowledge base and deepen our understanding to help shape and support your success. Whether you're furnishing a business, school, healthcare facility or government facility, each environment presents its own nuances and challenges. KI strategically targets furniture solutions in these core markets:

- College and University
- K-12
- Medium and Large Business
- Healthcare
- Federal and State Government

By zeroing in on these core markets, we are able to design furniture solutions and support services that address the needs specific to each.

## Market of One® philosophy

At KI, we believe that the only customer who matters is you. So we've structured everything from our service and support teams to the manufacturing floor to be nimble and adaptable to your needs. We're the right place for furniture, service and fulfillment options that align with your vision and budget.

- Product Portfolio – While we offer a robust line of furniture, we're also adept at customizing existing products to better fit your needs. We can also collaborate with you, your architect or interior designer to design a piece of furniture from scratch to meet very specific needs unique to your business.
- Dedicated Service – You will have a team of experienced professionals assisting you through the furniture procurement journey. In addition, you have 24/7/365 access to your order information from any electronic device via [ki.com/orderstatus](https://ki.com/orderstatus).
- Fulfillment Freedom – While we offer space planning, shipping and installation services, we will never limit you to working with agencies owned or affiliated strictly with KI. Rather, we will gladly collaborate and coordinate with any partner, dealer and/or installation entity you choose.

### **Personalized solutions**

While work tasks may be similar from business to business, we believe every customer is unique with its own brand, culture and ways of working. Since our company's inception, we've responded to customer requests to customize existing products or design new products to better fit their needs. That responsiveness shaped how we work with our customers as well as the physical layout of our manufacturing facilities. Today, more than 20 percent of all KI sales are personalized solutions compared to an industry standard of approximately 1 percent.

They also have collaborative technology to share information on opportunities and cases.

If the Region 4 ESC/TCPN contract number is noted on the order or on the quote from the sales rep, then that contract number is entered on the order.

KI's Process for tracking sales from distributors and/or dealers

- On a weekly basis, reports of orders (per market) that are entered during the previous week are printed.
- The end-user is determined on each order by checking the order notes, ship to address, purchase order or by e-mailing the sales rep/dealer for clarification.
- The end-user of each order is then checked against the Region 4 ESC/TCPN member list. If the end-user is listed on the membership lists, the contract number is added to the order.
- At the end of the month, the EDI report is run, which captures all orders during that month with the Region 4 ESC/TCPN contract number listed on it.
- When a dealer would have purchased for a member, the contract number is listed in the notes and all of the member information is then listed on the report, along with the Facility ID Number and GLN number.
- Showcase query is then used to put the EDI information into the Excel document, using the template furnished per the agreement.
- The report is then again checked one last time to make sure end-users are still an existing member of Region 4 ESC/TCPN. At this time the member's name, address and member numbers are also check for accuracy.
- The admin fee and letter is then sent at the end of the month to Region 4 ESC/TCPN.

## ■ Corporate Sustainability Policy

Approximately 74 years ago, KI made a promise: to act as a steward of the environment. Since then, KI has been dedicated to serving its customers, its community, and future generation in a way that will protect the world in which we live. KI believes that, big or small, every action that safeguards and restores the environment is significant. KI is committed to making this happen by creating and providing products that advance environmental and human health, social responsibility, and economic prosperity.

### 1.0 ECONOMIC SUSTAINABILITY

KI manufactures innovative furniture and movable wall system solutions for education, healthcare, government, and corporate markets. Our customers count on us for information in making smart decisions that support the way they work – and their bottom line. At KI, we believe that our commitment to customer satisfaction and our ability to listen, share expert advice, meet specific needs, and be flexible is what will keep us in business for decades to come.

As an employee-owned company with worldwide operations, economic sustainability is one of our primary goals. We also strive to establish long-term profitability while contributing to the financial welfare of our owners, employees, and to the communities where we are located.

As a part of our ISO 9001-2008 certification, KI has developed processes to identify various strategies that make it possible to utilize available resources to our best advantage. Efforts to promote usage of those resources are both efficient and responsible, which in turn, provides long-term benefits. These benefits include a profitable business model at KI, and moreover, lessen environmental concerns that could negatively impact the local community. To support this, we make sure every manufacturing process, whether it's constructing a chair or marketing our products, reduces or eliminates the impact on the environment. We incorporate renewable and recyclable materials, such as bio-based foam or recycled aluminum framework, in all of our products as much as we can, and we design all of products for longevity by using recyclable components that are easy to disassemble, repair, and recycle at the end of the life cycle. For the long haul, attention to this type of detail is intended to increase the strength of KI as a viable operation.

### 2.0 ENVIRONMENTAL SUSTAINABILITY

KI is committed to continually exploring viable product designs that will aid in the achievement of sustainable principles and provide customers with sustainable solutions as required for their workplace needs.

Representing the furniture manufacturing industry, KI, its leadership, and its employees work in cooperation with environmental professionals and their projects to examine how the company's product offerings embrace the following critical areas: energy efficiency, human and environmental health, durability, performance and maintenance, embodied energy and pollution, and resource limitation and waste management.

Through KI's *Design for the Environment* program (*DfE*), KI developed an approach which continually reinforces its commitment to sustainable design and manufacturing processes. This approach is as follows:

- KI regularly reviews all of its manufacturing facilities and continues to look at processes to be more environmentally friendly, including such things as painting processes, adhesives, metal cleaning, finishes, and packaging. This is intended to not only improve the indoor air quality to the end user, but also to address waste minimization, recycling and the use of alternative non-hazardous materials.
- KI purposely uses raw materials that have a positive and/or minimal impact on the environment. While many decisions may be motivated by a desire to protect the environment, KI takes into account the effects of raw materials on land use and substitution, as well as the broad range of environmental impacts inherent to the life cycle of its products.
- KI persistently pursues the development of products and constituents with the largest percentage of recycled content and those which can be easily repaired, disassembled, and recycled.
- KI continually searches for vendors and alternative options that offer the largest percentage of recycled content, utilizing both pre-consumer and post-consumer constituents.

At KI, we believe that quality products can be manufactured without sacrificing employee engagement, community support, corporate ethics or the health and safety of our employees. KI recognizes the importance of educating itself and its employees on inclusiveness and other aspects of social responsibility as a part of its commitment to the "triple bottom line" concept of sustainability.

KI's **environmental stewardship principles** are as follows:

***Design for the Environment.*** This program will be conducted at a minimum of two stages during product development: (1) during the feasibility stage and (2) during the business plan stage. KI will consider the following elements as part of the design process to improve products' recyclability and biodegradability, to minimize energy and water use, and to reduce the environmental impact at the end of the standard life cycle.

***Design for Durability and Non-Obsolescence.*** Design and manufacturing teams will ensure that all products have a long and useful life; can withstand repeated service, repair, and handling; and have standardized product parts and components available to facilitate maintenance, servicing and reassembly. KI products are built to last and are backed by warranty, which is valid for as long as the product is owned by the original buyer. The warranty covers defects in materials and craftsmanship found during normal usage.

***Harmful Chemicals.*** KI strives to minimize the impact of harmful chemicals associated within its manufacturing processes and products to safeguard the health of humans, wildlife and the greater environment. KI assesses and manages all chemicals associated with products, processes, and maintenance operations to comply with all applicable federal, state, and local environmental regulations. KI will also take additional steps to identify, reduce and eliminate chemicals of concern.

***Energy Conservation.*** KI's environmental mission involves efforts to minimize the embodied energy in its raw materials and to conserve energy in its manufacturing processes, its products and its transportation. Through a continuous improvement process, KI strives to advance energy efficiency, reduce cost, optimize capital investment, reduce environmental and greenhouse gas emissions, and conserve natural resources. KI will promote efficient use of energy while complying with relevant federal, state, and local regulations.

KI manages energy efficiency by adhering to the following initiatives:

- Establish and implement effective energy management programs that support the organization's strategic plan.
- Design, manufacture, and re-engineer products and processes to reduce our energy impact.
- Expect and encourage all employees to promote energy conservation while at work, home, and the communities where KI conducts business.
- Nurture relationships with government and utility companies on energy programs to reduce energy consumption and pollution.
- Set and use energy efficiency objectives and targets to drive performance improvements from a management, design, and operations perspective.

**Solid Waste Management.** KI strives to reduce 100% of its contribution to solid waste generated from fabrication or assembly of product components. Reductions in landfill waste will be achieved through increased material efficiency and the creation of value for waste materials through reuse of recycling efforts.

**Water Management.** KI's primary source of water is the municipal water systems where its facilities are located. KI continues to implement reductions in its annual water consumption and discharges by modifying or improving its manufacturing processes and implementing water efficiency technologies.

**Transportation.** KI has a Smart Way certified fleet and utilizes only Smart Way certified carriers. KI has an anti-idling policy in place stating that no diesel engine should idle for longer than five minutes, except by exception. By doing this, KI is lowering maintenance costs and reduces the carbon footprint of the KI Fleet.

### 3.0 SOCIAL RESPONSIBILITY

KI was founded on the belief that human-centered design can impact the lives of people and ultimately the world, including the lives of future generations. Today, KI is committed to incorporating a human-centered, socially responsible approach to everything it does: from hiring to manufacturing, from designing to purchasing, and from workforce engagement to community outreach. It is an ongoing process that requires the active, vigilant, and creative participation of all involved. KI set its standards and measures its success through social responsibility principles.

KI's social responsibility principles are as follows:

**Corporate Ethics Policy.** KI is committed to conducting business activities lawfully and with honest and integrity. To accomplish this goal, all employees receive training with regard to KI's position on basic ethical issues, so that they can act in accordance with those policies. KI's code of conduct specifies these standards and rules, which are designed to provide employees with guidelines for their business conduct.

**Insider Trader.** KI's assets are to be used solely for the company's benefit. These assets include physical assets and intangible assets, such as intellectual property, as well as all information about the company's business, including technologies, business strategies and plans, and financial data.

Employees shall not transfer the company's assets to others except in the ordinary course of business. Employees may have access to confidential information regarding the company's business, its customers, suppliers and competitors. Employees shall not use such information for personal financial gain through the trading of securities or other personal financial transactions. Employees shall not transfer company information onto any asset not owned by KI (i.e., home computer).

***Receipt of Money, Goods and Other Things of Value.*** KI gains and maintains its business because of the quality and value of its products and services and the respect and confidence instilled in its customers. The following policies are designed to ensure that this principle is followed:

#### *Gifts of Employees*

- Employees shall not accept gifts of money from any person or entity desiring to do business with KI.
- Employees shall not solicit non-monetary gifts, gratuities, tickets, entertainment or other personal benefits or favors from KI's customers or suppliers or those seeking such relationships.
- Employees and members of their immediate families are prohibited from soliciting or accepting any direct or indirect kickback, rebate or other benefit which results from the company's purchase of goods or other business action. If a supplier or carrier makes an offer of this type, employees are to decline it and report it to the materials manager at his/her plant for necessary follow-up. Occasionally, suppliers may offer advertising or promotional items of nominal value (less than \$10) where acceptance of the gift is required by applicable norms. If this situation occurs, employees are to promptly disclose the activity to their manager who will assist in determining the ultimate disposition of the item.

#### *Payments by Employees*

- Employees shall not directly or indirectly make or offer payments of money, gifts, services, entertainment or anything of value to any government official or employee.
- No employee or their party acting on behalf of KI may make any payment or offer any benefit of any kind, other than those included in the standard marketing policies of the company and which are available to all customers on an equal basis, to any customer or potential customer as an inducement to buy KI's products or services.
- Offering entertainment to individuals doing business or seeking to do business with the company must be reasonable and approved in advance by the employee's manager.
- All agreements with agents, sales representatives or consultants must be in writing and must clearly state the services to be performed, the basis for earning the commission or fee involved, the applicable rate or fee, and the fact that the agreement is subject to public disclosure.

***Health and Safety Policy.*** Because KI considers employees to be the company's most valuable asset, we maintain a high quality safety program for the protection of each employee. In keeping with this, KI is committed to maintaining compliance with all applicable local and national regulations that govern the company's performance in the area of employee health and safety.

The primary goal of KI's safety program is to prevent and eliminate serious injuries and consequences of all accidents. Efforts of the company alone will not prevent accidents. All KI employees receive general and specific training on various safety procedures, thus rendering safety the responsibility of every employee.

KI employees are required to follow safe practices and report any hazard directly and immediately to their department manager/facilitator. Any employee performing an unsafe act is a hazard and may be subject to disciplinary action.

**Labor and Human Rights Policy.** KI fosters a creative and stimulating work environment and empowers all employees to provide the highest possible level of service to the customer. Like the markets the company serves, KI encourages an innovative and entrepreneurial spirit. It is KI's commitment to provide employees with a competitive compensation and benefit package, career advancement opportunities, training programs, wellness activities, and a fun and exciting environment in which to work.

KI is dedicated to ensuring that the human rights of its employees are protected and respected, on a local and global scale, which includes the prohibition of forced, involuntary or child labor. In line with these guiding principles, KI expects the same level of responsibility to human rights protections from its global supply network.

**Inclusiveness Policy.** KI is committed to maintain a work environment that is characterized by mutual respect, professionalism, and absence of harassment and bullying. In keeping with this commitment, all managers, employees, vendors and customers are expected to adhere to a standard of conduct which exemplifies and supports a professional work environment free from all forms of discrimination.

It is KI's policy to provide equal employment opportunity for all qualified individuals without regard to race, color, religion, sex, gender identity, age, national origin, disability, veteran status, marital status, sexual orientation, military status, genetic information or any other protected class.

To this end, KI supports and cooperates with all applicable laws, regulations and executive orders in all of the company's employment policies, practices and decisions. KI takes affirmative action to assure that equal opportunity for employment is provided with regard to all personnel actions, including but not limited to:

- Recruiting, testing, selection, hiring, promotion and other employment decisions.
- Compensation, benefits, transfers, training, social and recreational programs, job assignments, layoffs, recalls, education and other terms and conditions of employment.

KI's Equal Employment Opportunity policy and affirmative action obligations include full support from Richard Resch, CEO and Chairman of the board. The corporate human resources business partner serves as the equal opportunity coordinator for KI and has the overall responsibility for training KI employees on this subject and assuring compliance with this policy. All employees are responsible for supporting the concept of equal opportunity and affirmative action and are expected to take prompt and appropriate action to prevent harassment or discrimination at KI, whether by company employees, customers or vendors.

**Community Outreach and Involvement.** KI is committed to being a good corporate citizen and will continue to give back to the communities in which it operates. KI's primary giving includes health and wellness-related organizations, as well as organizations that benefit youth and education. KI supports activities deemed worthwhile through time, talent, products and money as appropriate.

An annual budget is developed each year for charitable contributions. Each of the following areas will have budgets allocated accordingly: KI product requests, KI store merchandise requests, and monetary requests.

Key charities will be selected during the budgeting process, and funds or products will be identified as potential commitments for the upcoming year. KI makes a long-term commitment to support key charities for civic, social and public goodwill and will review this list annually as community priorities change.

By signing below, you acknowledge and accept the responsibility to adhere to the policies as outlined in this document.

KI is committed to continually exploring viable product designs that will aid in the achievement of sustainable principles and provide customers with sustainable solutions as required for their workplace needs.

Representing the furniture manufacturing industry, KI, its leadership, and its employees work in cooperation with environmental professionals and their projects to examine how the company's product offerings embrace the following critical areas: energy efficiency, human and environmental health, durability, performance and maintenance, embodied energy and pollution, and resource limitation and waste management.

Through KI's *Design for the Environment* program (*DfE*), KI developed an approach which continually reinforces its commitment to sustainable design and manufacturing processes. This approach is as follows:

- KI regularly reviews all of its manufacturing facilities and continues to look at processes to be more environmentally friendly, including such things as painting processes, adhesives, metal cleaning, finishes, and packaging. This is intended to not only improve the indoor air quality to the end user, but also to address waste minimization, recycling and the use of alternative non-hazardous materials.
- KI purposely uses raw materials that have a positive and/or minimal impact on the environment. While many decisions may be motivated by a desire to protect the environment, KI takes into account the effects of raw materials on land use and substitution, as well as the broad range of environmental impacts inherent to the life cycle of its products.
- KI persistently pursues the development of products and constituents with the largest percentage of recycled content and those which can be easily repaired, disassembled, and recycled.
- KI continually searches for vendors and alternative options that offer the largest percentage of recycled content, utilizing both pre-consumer and post-consumer constituents.

At KI, we believe that quality products can be manufactured without sacrificing employee engagement, community support, corporate ethics or the health and safety of our employees. KI recognizes the importance of educating itself and its employees on inclusiveness and other aspects of social responsibility as a part of its commitment to the "triple bottom line" concept of sustainability.

KI's **environmental stewardship principles** are as follows:

***Design for the Environment.*** This program will be conducted at a minimum of two stages during product development: (1) during the feasibility stage and (2) during the business plan stage. KI will consider the following elements as part of the design process to improve products' recyclability and biodegradability, to minimize energy and water use, and to reduce the environmental impact at the end of the standard life cycle.

***Design for Durability and Non-Obsolescence.*** Design and manufacturing teams will ensure that all products have a long and useful life; can withstand repeated service, repair, and handling; and have standardized product parts and components available to facilitate maintenance, servicing and reassembly. KI products are built to last and are backed by warranty, which is valid for as long as the product is owned by the original buyer. The warranty covers defects in materials and craftsmanship found during normal usage.

***Harmful Chemicals.*** KI strives to minimize the impact of harmful chemicals associated within its manufacturing processes and products to safeguard the health of humans, wildlife and the greater environment. KI assesses and manages all chemicals associated with products, processes, and maintenance operations to comply with all applicable federal, state, and local environmental regulations. KI will also take additional steps to identify, reduce and eliminate chemicals of concern.

***Energy Conservation.*** KI's environmental mission involves efforts to minimize the embodied energy in its raw materials and to conserve energy in its manufacturing processes, its products and its transportation. Through a continuous improvement process, KI strives to advance energy efficiency, reduce cost, optimize capital investment, reduce environmental and greenhouse gas emissions, and conserve natural resources. KI will promote efficient use of energy while complying with relevant federal, state, and local regulations.

KI manages energy efficiency by adhering to the following initiatives:

- Establish and implement effective energy management programs that support the organization's strategic plan.
- Design, manufacture, and re-engineer products and processes to reduce our energy impact.
- Expect and encourage all employees to promote energy conservation while at work, home, and the communities where KI conducts business.
- Nurture relationships with government and utility companies on energy programs to reduce energy consumption and pollution.
- Set and use energy efficiency objectives and targets to drive performance improvements from a management, design, and operations perspective.

**Solid Waste Management.** KI strives to reduce 100% of its contribution to solid waste generated from fabrication or assembly of product components. Reductions in landfill waste will be achieved through increased material efficiency and the creation of value for waste materials through reuse of recycling efforts.

**Water Management.** KI's primary source of water is the municipal water systems where its facilities are located. KI continues to implement reductions in its annual water consumption and discharges by modifying or improving its manufacturing processes and implementing water efficiency technologies.

**Transportation.** KI has a Smart Way certified fleet and utilizes only Smart Way certified carriers. KI has an anti-idling policy in place stating that no diesel engine should idle for longer than five minutes, except by exception. By doing this, KI is lowering maintenance costs and reduces the carbon footprint of the KI Fleet.

### 3.0 SOCIAL RESPONSIBILITY

KI was founded on the belief that human-centered design can impact the lives of people and ultimately the world, including the lives of future generations. Today, KI is committed to incorporating a human-centered, socially responsible approach to everything it does: from hiring to manufacturing, from designing to purchasing, and from workforce engagement to community outreach. It is an ongoing process that requires the active, vigilant, and creative participation of all involved. KI set its standards and measures its success through social responsibility principles.

KI's social responsibility principles are as follows:

**Corporate Ethics Policy.** KI is committed to conducting business activities lawfully and with honest and integrity. To accomplish this goal, all employees receive training with regard to KI's position on basic ethical issues, so that they can act in accordance with those policies. KI's code of conduct specifies these standards and rules, which are designed to provide employees with guidelines for their business conduct.

**Insider Trader.** KI's assets are to be used solely for the company's benefit. These assets include physical assets and intangible assets, such as intellectual property, as well as all information about the company's business, including technologies, business strategies and plans, and financial data.

Employees shall not transfer the company's assets to others except in the ordinary course of business. Employees may have access to confidential information regarding the company's business, its customers, suppliers and competitors. Employees shall not use such information for personal financial gain through the trading of securities or other personal financial transactions. Employees shall not transfer company information onto any asset not owned by KI (i.e., home computer).

***Receipt of Money, Goods and Other Things of Value.*** KI gains and maintains its business because of the quality and value of its products and services and the respect and confidence instilled in its customers. The following policies are designed to ensure that this principle is followed:

#### *Gifts of Employees*

- Employees shall not accept gifts of money from any person or entity desiring to do business with KI.
- Employees shall not solicit non-monetary gifts, gratuities, tickets, entertainment or other personal benefits or favors from KI's customers or suppliers or those seeking such relationships.
- Employees and members of their immediate families are prohibited from soliciting or accepting any direct or indirect kickback, rebate or other benefit which results from the company's purchase of goods or other business action. If a supplier or carrier makes an offer of this type, employees are to decline it and report it to the materials manager at his/her plant for necessary follow-up. Occasionally, suppliers may offer advertising or promotional items of nominal value (less than \$10) where acceptance of the gift is required by applicable norms. If this situation occurs, employees are to promptly disclose the activity to their manager who will assist in determining the ultimate disposition of the item.

#### *Payments by Employees*

- Employees shall not directly or indirectly make or offer payments of money, gifts, services, entertainment or anything of value to any government official or employee.
- No employee or their party acting on behalf of KI may make any payment or offer any benefit of any kind, other than those included in the standard marketing policies of the company and which are available to all customers on an equal basis, to any customer or potential customer as an inducement to buy KI's products or services.
- Offering entertainment to individuals doing business or seeking to do business with the company must be reasonable and approved in advance by the employee's manager.
- All agreements with agents, sales representatives or consultants must be in writing and must clearly state the services to be performed, the basis for earning the commission or fee involved, the applicable rate or fee, and the fact that the agreement is subject to public disclosure.

***Health and Safety Policy.*** Because KI considers employees to be the company's most valuable asset, we maintain a high quality safety program for the protection of each employee. In keeping with this, KI is committed to maintaining compliance with all applicable local and national regulations that govern the company's performance in the area of employee health and safety.

The primary goal of KI's safety program is to prevent and eliminate serious injuries and consequences of all accidents. Efforts of the company alone will not prevent accidents. All KI employees receive general and specific training on various safety procedures, thus rendering safety the responsibility of every employee.

KI employees are required to follow safe practices and report any hazard directly and immediately to their department manager/facilitator. Any employee performing an unsafe act is a hazard and may be subject to disciplinary action.

**Labor and Human Rights Policy.** KI fosters a creative and stimulating work environment and empowers all employees to provide the highest possible level of service to the customer. Like the markets the company serves, KI encourages an innovative and entrepreneurial spirit. It is KI's commitment to provide employees with a competitive compensation and benefit package, career advancement opportunities, training programs, wellness activities, and a fun and exciting environment in which to work.

KI is dedicated to ensuring that the human rights of its employees are protected and respected, on a local and global scale, which includes the prohibition of forced, involuntary or child labor. In line with these guiding principles, KI expects the same level of responsibility to human rights protections from its global supply network.

**Inclusiveness Policy.** KI is committed to maintain a work environment that is characterized by mutual respect, professionalism, and absence of harassment and bullying. In keeping with this commitment, all managers, employees, vendors and customers are expected to adhere to a standard of conduct which exemplifies and supports a professional work environment free from all forms of discrimination.

It is KI's policy to provide equal employment opportunity for all qualified individuals without regard to race, color, religion, sex, gender identity, age, national origin, disability, veteran status, marital status, sexual orientation, military status, genetic information or any other protected class.

To this end, KI supports and cooperates with all applicable laws, regulations and executive orders in all of the company's employment policies, practices and decisions. KI takes affirmative action to assure that equal opportunity for employment is provided with regard to all personnel actions, including but not limited to:

- Recruiting, testing, selection, hiring, promotion and other employment decisions.
- Compensation, benefits, transfers, training, social and recreational programs, job assignments, layoffs, recalls, education and other terms and conditions of employment.

KI's Equal Employment Opportunity policy and affirmative action obligations include full support from Richard Resch, CEO and Chairman of the board. The corporate human resources business partner serves as the equal opportunity coordinator for KI and has the overall responsibility for training KI employees on this subject and assuring compliance with this policy. All employees are responsible for supporting the concept of equal opportunity and affirmative action and are expected to take prompt and appropriate action to prevent harassment or discrimination at KI, whether by company employees, customers or vendors.

**Community Outreach and Involvement.** KI is committed to being a good corporate citizen and will continue to give back to the communities in which it operates. KI's primary giving includes health and wellness-related organizations, as well as organizations that benefit youth and education. KI supports activities deemed worthwhile through time, talent, products and money as appropriate.

An annual budget is developed each year for charitable contributions. Each of the following areas will have budgets allocated accordingly: KI product requests, KI store merchandise requests, and monetary requests.

Key charities will be selected during the budgeting process, and funds or products will be identified as potential commitments for the upcoming year. KI makes a long-term commitment to support key charities for civic, social and public goodwill and will review this list annually as community priorities change.

By signing below, you acknowledge and accept the responsibility to adhere to the policies as outlined in this document.

## A MESSAGE FROM THE CEO

**“While sustainable practices have always been a part of KI’s heritage, we’ve sharpened our environmental focus and set more aggressive goals.”**

**Richard J. Resch**  
CEO and Chairman, KI

At KI, the path to environmental sustainability is never ending. That's because sustainability is not about reaching a final destination. Rather, it's about striving for continual improvement every step of the way. To us, sustainability isn't just about "going green." It's a fundamental way of doing business—one that conserves natural resources and reduces waste, consumption and operating costs.

While sustainable practices have always been a part of KI's heritage, we've sharpened our environmental focus over the past 25 years and set more aggressive goals for the corporation. Today, we have clear sustainability objectives and metrics in place to ensure that we "walk the talk." More specifically, we've challenged all our manufacturing facilities to reduce consumption of energy, water, chemicals and CO2 emissions. Additionally, KI has implemented a Design for the Environment (DfE) program that sets guidelines for the engineering and manufacturing of more environmentally friendly products.

This commitment extends to recycling as well. We're pleased to report significant decreases in landfill materials due to KI's development of alternative recycling streams for items not typically recyclable, such as textile scraps. Our employees are doing their part as well by participating in KI-sponsored recycling initiatives targeting electronic equipment, batteries, eye glasses and more.

Underlying these efforts is an ongoing awareness program that seeks to educate and inform employees and the community on important sustainability practices for the home and office environments. But this is just the beginning. As we look to the future, we see countless opportunities to continue to do more by impacting the environment less. It's all part of our "Green Behind the Red" initiative.

We sincerely thank our employees, partners and local communities for supporting our vision for a healthy planet. We look forward to continuing down the path to a more sustainable future together.

Sincerely,

# ORGANIZATIONAL PROFILE

Since 1941, we have positioned KI as the manufacturer who knows the furniture industry and is committed to providing customers with the right solutions. By targeting specific core markets – healthcare, education, government and business – we can quickly respond to our customers’ unique needs. Our Go-To-Market strategy provides choices. Customers have the option to purchase furniture according to what fits their ordering and fulfillment process. That’s why we say we offer more than furniture. We furnish knowledge.

Our furniture innovations reflect a desire to be our customers’ market resource and to help them make smart furniture decisions. Our strong market understanding is why KI customers throughout the world continue to rely on our trusted expertise to create solutions that fit their environments, brilliantly.

## MANUFACTURING OVERVIEW

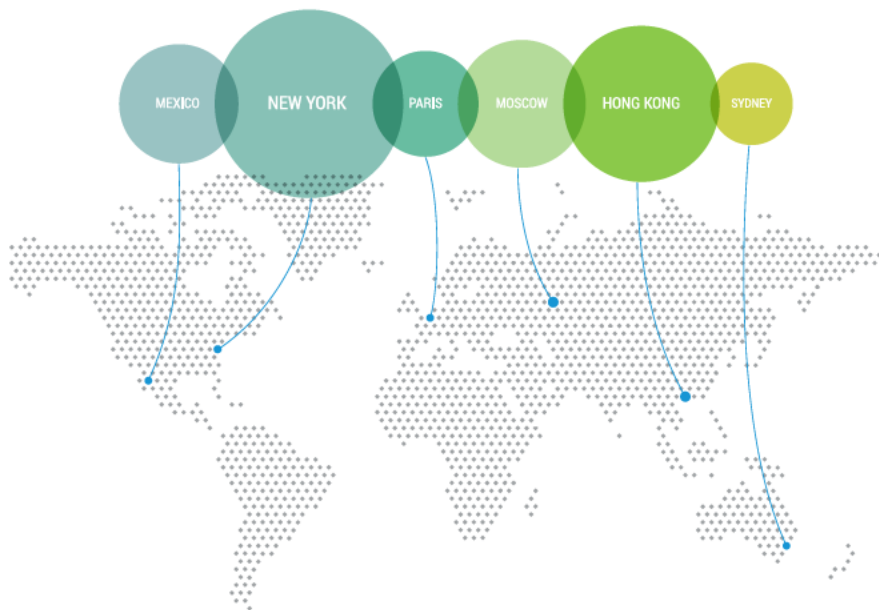

KI operates six manufacturing facilities in the United States and Canada and is the first furniture manufacturer to acquire ISO 9001:2008 certification. In fact, KI is part of the 0.5% of United States companies that are certified as a total corporation. KI views the ISO certification as a recognition of its commitment to the highest standards of quality, aesthetics and craftsmanship. KI’s manufacturing facility in Pembroke, Ontario, is also ISO 14001:2004 Certified for Environmental Management.

Our Quality Management System for all the manufacturing facilities and corporate functions completed the audit and certification process developed by the International Organization for Standardization (ISO). ISO guidelines are a standardized framework for building, operating and documenting a quality management system. Periodic audits and inspections from an outside firm are required. These ensure the quality system is maintained properly and allows for ongoing improvements in every facet of the company.

*KI Manufacturing Center  
Green Bay, WI*

With corporate headquarters in Green Bay, Wisconsin, KI is fully established throughout the United States and neighboring countries Canada and Latin America, as well as across Europe, the Middle East and Australia. KI's presence in these countries is supported by dedicated showrooms featuring furniture solutions uniquely designed for customer needs and local standards. KI global subsidiaries currently include KI Europe, KI Nova Scotia, KI Canada, KI India, KI China and KI Australia (Sebel). With more than 3,000 employees worldwide, KI continues to build relationships globally, extending its trusted expertise throughout the global marketplace.

KI's entries into foreign markets are varied. Entries include exporting, licensing, joint ventures, and foreign direct investments where appropriate. Services are provided through fulfillment partners in established and emerging markets. KI has been in Europe since 1990. Licensed manufacturing facilities extend from the UK through Benelux to Italy.

In addition, the UK acts as the E.M.E.A. (Europe, Middle East, Asia) headquarters with a central distribution hub. In September 2015, KI Europe revealed a stunning new headquarters in New Fetter Place, London.

KI has also been in Asia since 1988, with representation through China, Japan, Taiwan, Korea, Hong Kong and Southeast Asia. In late 2015, KI opened a sleek new showroom in Beijing, further expanding its presence in China.

KI continues to differentiate itself and establish enduring relationships throughout the world by personalizing products and service solutions to the specific needs of each customer through its unique design and "Market of One" manufacturing philosophy.

As an organization, KI has committed to transformational activities over the next several years, with the belief that incremental improvement will not align the business to the magnitude needed to drive KI into the future. KI is focusing its transformational activities on the capabilities needed to support its drive toward "One View of the Customer" and "One View of the Product," which will make it easier for customers to do business with KI—a primary focus within KI's culture.

### MANAGEMENT OVERVIEW

In addition to the core brand, KI owns and operates the following subsidiaries: Pallas Textiles, OEI, Corporate Services, Spacesaver and Sebel. While we strive to be as transparent as possible, we have chosen not to disclose information as it relates to the scale of our organization.

Managed through a traditional hierarchy of knowledgeable executives, KI is driven by the company's management committee, which is comprised of six executives, including the CEO. The purpose of the management committee is to set and measure core company strategies and oversee the greater success of the organization.

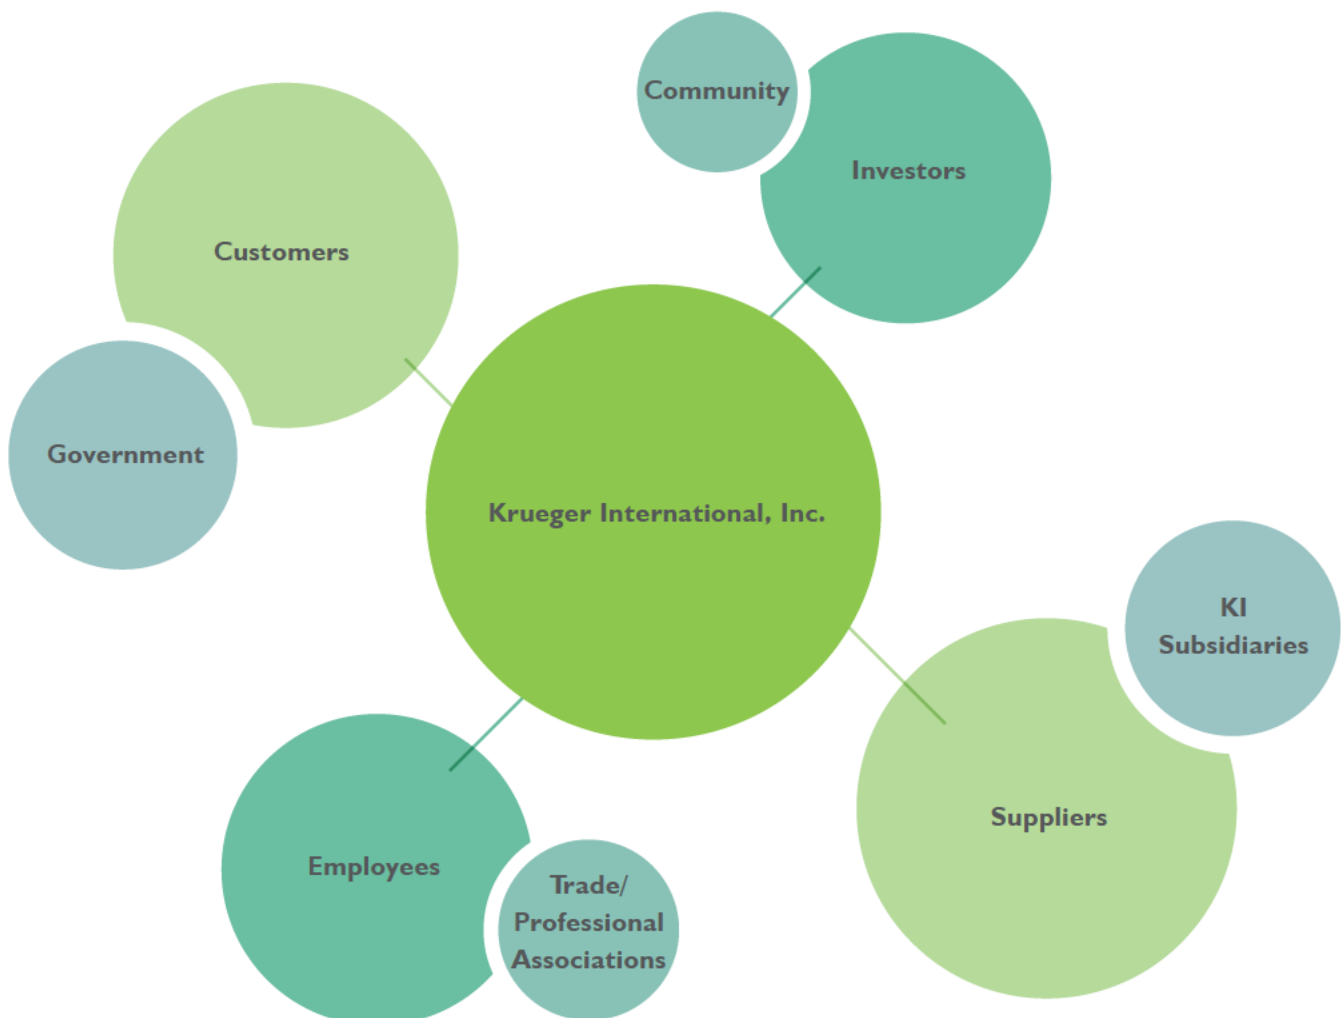

#### *KI Management Committee 2015*

KI's stakeholders are identified in the chart below. The process for identifying these stakeholder groups involved an analysis of which groups have the most influence over our operations and those who have the ability to impact or be impacted most by our operations, either directly or indirectly. This analysis helps identify how the interests of our stakeholders can best be addressed. The remaining content in this report provides examples of how we have worked toward meeting these interests in 2015.

## STAKEHOLDERS

# ENVIRONMENTAL STEWARDSHIP

We recognize and embrace our responsibility to safeguard human health, preserve natural resources and protect the environment. Sustainability is a strong part of who we are, and it starts with “the green behind the red” icon – a symbol of our ongoing mission to Impact Less. In fact, the more you look behind the red, the more you’ll find green in everything we do.

## ENVIRONMENTAL QUALITY POLICY

KI takes a three-pronged approach to our environmental efforts:

### 1. Manufacturing Processes

We make sure every process, whether it’s constructing a chair or marketing our products, reduces or eliminates the impact on the environment.

### 2. Material Selection

We incorporate renewable and recyclable materials, such as bio-based foam or recycled aluminum framework, in all of our products as much as we can.

### 3. Product Design

We design all of our products for longevity by using recyclable components that are easy to disassemble and repair and recycle at the end of the lifecycle.

By integrating sustainable efforts into our corporate culture, we:

- Limit our impact on the environment
- Reduce environmental risks to our employees and our communities
- Continually assess all of our environmental programs and performance
- Comply with environmental guidelines, ordinances and laws

We continually discover new ways to make our corporate headquarters and manufacturing facilities more environmentally-friendly. From turning down the heat on weekends to using alternative painting processes to monitoring our lights on timers and sensors, sustainable practices are part of our ongoing mission to conserve energy and water, reduce waste, increase use of recycled content, improve indoor air quality and more.

We expect our employees to perform their duties in an environmentally responsible manner at KI, but they've gone above and beyond with their efforts. Our employees are always on the lookout for ways to be good environmental stewards – from using less paper via encouraging electronic communications to turning off conveyor belts and lights when they leave for the day. In fact, the KI Conserves Campaign asks employees to commit to being a sustainable citizen both at work and at home.

While our goal is not solely to be recognized, our efforts in environmental initiatives have not gone unnoticed. We take pride when our efforts are acknowledged with various local or national awards in sustainability and environmental stewardship. In 2015, KI earned the following recognitions:

**Green Master Award** from the Wisconsin Sustainable Business Council. KI was one of a select group of companies in 2015 to earn the designation of "Green Master," the highest tier in the Green Masters Program established by the Wisconsin Sustainable Business Council. As a Green Master, KI has performed actions in each of nine sustainability areas and has scored in the top twenty percent of all participating companies. Applicants to the Green Masters Program are judged on a comprehensive range of sustainability issues, from energy to water use to educational outreach and governance.

KI achieved **level® certification** for 167 products of which 14 are level 3 certified, 100 are level 2 certified and 53 are level 1 certified under the Business and Institutional Furniture Manufacturers Association's (BIFMA) level sustainability program. This allows interior designers, architects, facility managers and others across industries to easily identify and confidently specify increasingly sustainable furniture manufactured by KI. Choosing level certified products assures that the product is produced in an environmentally and socially conscious manner and comes from a responsible manufacturer.

## AWARDS & RECOGNITION

## SUSTAINABLE PRACTICES

We've made a comprehensive effort to incorporate sustainable practices and policies into our manufacturing responsibilities. We continuously work toward the following goals:

- Eliminate solvent-based materials, replacing them with water-based or powder substitutes in all manufacturing facilities. This practice also reduces the need to use solvent-based cleaning materials.
- Incorporate the largest percentage of recycled content into our products, also making them easier to be recycled, disassembled and field repaired. We search for vendors and alternative materials that offer the largest recycled pre- and post-consumer content.
- Conserve fuel and energy. We select new processes and equipment based on a detailed analysis of environmental considerations, capital and operating costs. Energy and fuel conservation is an integral part of this process. We also offer incentives to employees to encourage carpooling with others to work.

Our Wisconsin facilities participate in a state program called Focus on Energy, which formalizes energy conservation goals, measurements and approaches. As part of this program, the facilities use energy-efficient lighting systems for offices and manufacturing areas. Automatic shut-off systems further conserve energy. Fuel conservation is addressed in the transportation of both raw materials and finished products as well as facility operations. Focus on Energy also provides financial assistance to KI to install energy efficient technologies.

To see KI's sustainable manufacturing efforts in action or to learn more about KI's environmental initiatives, watch the video at [ki.com/green/process](http://ki.com/green/process).

Part of being a good environmental steward is complying with environmental guidelines, ordinances and laws.

- ISO 9001:2008 — KI implemented a Quality Management System for its manufacturing plants and related corporate functions. These systems were audited and certified to the International Organization for Standardization (ISO). KI is among an elite group of United States manufacturers who have acquired ISO 9001:2008 certification.
- ISO 14001:2004 — KI's manufacturing facility in Pembroke, Ontario, is ISO 14001:2004 Environmental Management System certified. The system is audited and certified by an accredited certification body. Its purpose is to assist organizations (1) minimize negative environmental impacts; (2) comply with applicable environmental laws and regulations; and (3) continually improve environmental performance.
- CPSIA Compliance — The Consumer Product Safety Improvement Act (CPSIA), signed into law on August 14, 2008, provides regulations for the testing and certification of certain products. Among the items regulated by Section 102 of the Act is school furniture with painted finishes. All applicable KI products are tested by a third-party laboratory and certified to comply.
- Ontario Toxics Reduction Act, 2009 — The Toxics Reduction Act, 2009 and Ontario Regulation 455/09 came into force on January 1, 2010. The purpose of this Act is to prevent pollution and protect human health and the environment by reducing the use and creation of toxic substances and to inform Ontarians about toxic substances. KI Pembroke LP, Ontario Toxic Reduction Act, 2010 Public Report was prepared to comply with the regulation requirements and is available on the ki.com website.
- California Technical Bulletin 117-2013 — KI seating products with upholstery are manufactured to meet TB 117-2013 which was made effective as of January 2013. Upholstered products are labeled accordingly to indicate if any flame resistant chemicals are used in the fabrics and foams.

## COMPLIANCE STANDARDS

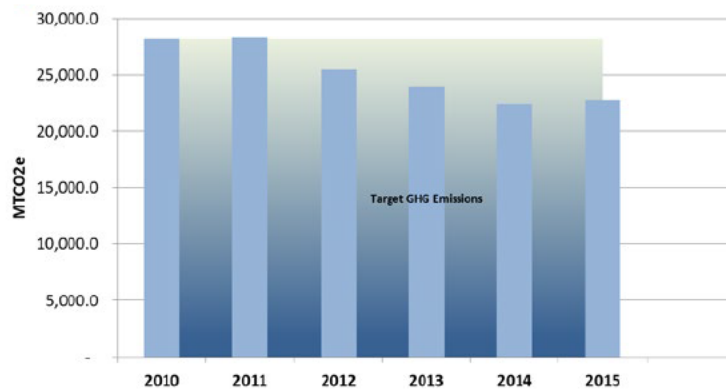

**In 2015, KI reduced its greenhouse gas emissions by nearly 20% and its energy use by nearly 25%.**

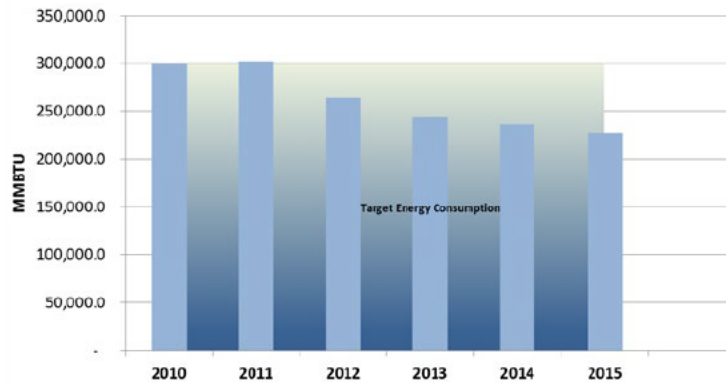

**AIR EMISSIONS**

Recognizing that climate change is a global environmental challenge, KI is tracking, setting reduction goals and reporting publicly about its direct and indirect greenhouse gas (GHG) emissions. In 2015, KI reduced its overall GHG emissions by 19.32% and energy use by 24.06% over its 2010 baseline year. KI is on its way to meet its 2020 goal of reducing its GHG emissions by 25%. To help reach its reduction goal, KI implemented energy-saving technologies, applied conservation measures and tightened building envelopes.

**KI North America - Absolute GHG Emissions**

**KI North America - Absolute Energy Consumption**

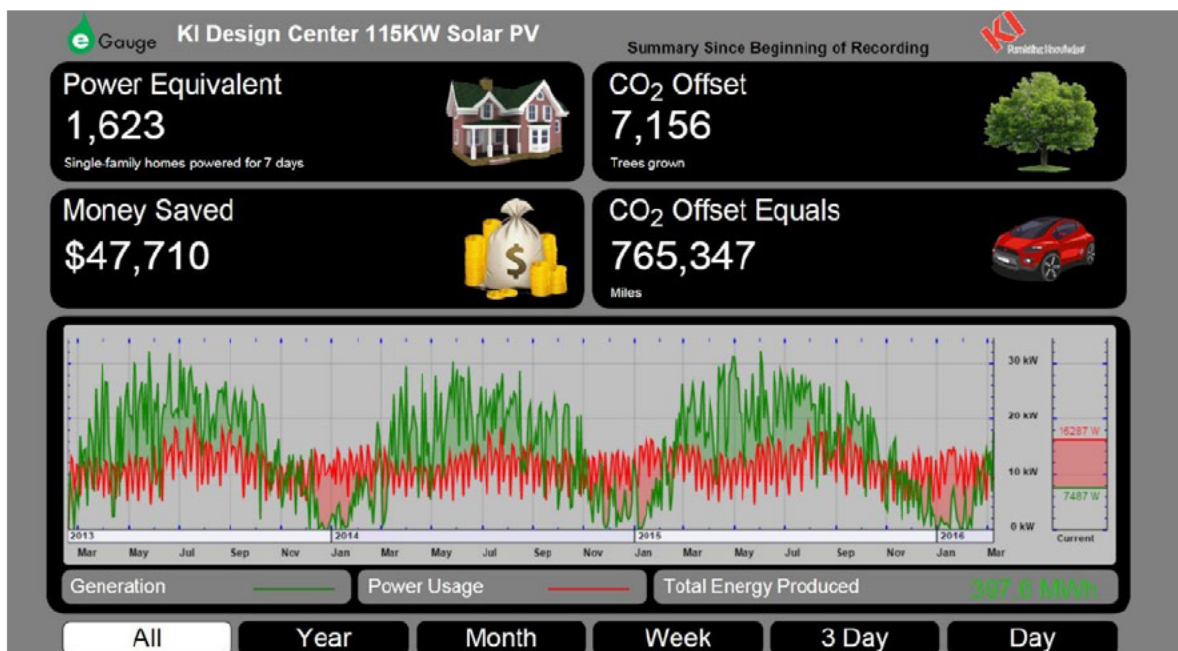

KI has made a commitment to publicly disclose its GHG emissions by voluntarily participating in the Carbon Disclosure Project. You can access KI's Carbon Disclosure Project report at [cdproject.net](http://cdproject.net).

KI is committed to the creation of renewable energy. In fact, KI is home to the largest solar photovoltaic (PV) system in Northeast Wisconsin. Installed on the rooftop of KI's corporate design and development center in Green Bay, the 115 kilowatt (kW) array is comprised of 480 PV solar panels and covers approximately 22,820 square feet of rooftop space. This sizable system converts sunlight into electricity, producing approximately 152,640 kilowatt hours (kWh) of clean energy annually while displacing 108 metric tons of carbon dioxide emissions.

RENEWABLE ENERGY

In 2015, KI's solar panel system produced more than 142,000 kWh or 142 megawatts (MWh) of energy. (By comparison, one megawatt is equivalent to the energy produced by 10 automobile engines!) As a result, the renewable energy gathered by this system offset more than 40% of the total electricity usage at KI's corporate design and development center.

The screen capture below shows the energy produced and money saved since the system was installed in 2013. KI's solar panel online monitoring system can be viewed at [ki.solar.egaug.es/kiosk2.html](http://ki.solar.egaug.es/kiosk2.html) and [ki.solar.egaug.es](http://ki.solar.egaug.es).

In further support of renewable energy, KI purchased **Green-e certified renewable energy certificates** for its manufacturing center in High Point, NC. Green-e Energy is a leading independent certification and verification program for renewable energy and supports new renewable energy projects such as wind, solar, geothermal, biomass or low-impact hydropower.

The Green-e certified renewable energy certificates at KI High Point offset 20% of its energy usage, representing nearly 280 MWh of electricity.

In 2015, KI also became a **Green Power Partner** with the Environmental Protection Agency (EPA). The Green Power Partnership is a voluntary program that encourages organizations to use green power as a way to reduce the environmental impacts associated with conventional electricity usage.

Members of the Green Power Partnership are supported by the EPA in terms of tailored education programs that assist in understanding the considerable influences and benefits of green. This program also assists in locating vendors and suppliers related to green power and helps with carbon footprint reduction instruments.

Together, KI believes these efforts in renewable energy will help the company be as environmentally conscious as possible while making diligent efforts to reduce our overall carbon footprint.

*KI's rooftop solar panel system  
Green Bay, WI*

Water use is an essential part of producing products. KI manages, monitors and works on reducing water use each year to lessen the burden on municipal water supplies. Since 2010, KI has decreased its water use by about 50% by improving processes, recycling water and reducing demand by installing water efficient technologies. These actions are taken so that water will be managed sustainably over the long-term for future generations.

Recycling is a big component of our manufacturing process. We do our best to reduce the amount of landfill waste generated to make our products. KI's six North American facilities and corporate office recycle wood, fabric, powder paint, light bulbs, aluminum, plastic, office paper, print cartridges, iron, nickel, cardboard, oil, steel, sawdust, batteries and electronics.

**In 2015, KI diverted 6,740,704 lbs. of materials from the landfill to recycling centers.**

Our goal is to achieve 100 percent recyclable packaging (recyclable at the job or installation site) to eliminate tons of unnecessary materials making way to landfills.

We are committed to reducing the use of packaging materials by finding alternative methods to safely ship and receive products to and from suppliers, end-users and other manufacturing locations. To reduce landfill waste, we reuse materials such as wood pallets wherever possible. We also incorporate the use of plastic totes, shrink-wrapping, blanket wrapping and racking of products to alleviate the amount of "box" materials used in the shipping process. Plus, all of the packages that leave KI are marked with the universal sign for recycling, encouraging recipients to also be environmentally responsible.

In essence, KI's sustainable approach to packaging is summarized by the following initiatives:

- 1. Reduce packaging materials.
- 2. Increase recycled content in packaging materials and reduce use of virgin materials.
- 3. Ensure that all materials can be easily recycled post shipment.

## TRANSPORTATION

We have our own private trucking fleet consisting of fuel-efficient vehicles and the smallest diesel engines available.

In fact, KI's fleet includes SmartWay Certified trucks. The fleet averages eight miles per gallon, resulting in less fuel usage, decreased exhaust output and economic savings. Currently, more than 50% of KI shipments are routed with SmartWay carriers.

Our other transportation-related initiatives include the following:

**Fuel Bonus**

KI drivers receive a fuel bonus for driving the vehicle in a manner that conserves fuel by increasing mileage, maximizing resources and minimizing waste and pollution.

**Scheduling**

By consolidating destinations for the fleet, KI dispatchers use the maximum amount of truck space available, reducing the number of trucks on the road. This saves on fuel usage and equipment wear and tear, all while reducing emissions.

**Packaging**

Various methods are used to increase space capacity, including palletizing, shrink wrapping and blanket wrapping products and eliminating space-consuming packaging.

**Ship Direct**

Because our main method of shipping is direct to the customer, we eliminate multiple stops and go directly to the final destination, reducing the number of trucks on the road, fuel usage, and equipment wear and tear.

**Intermodal Transportation**

We have increased the use of multiple modes of transportation—truck, railroad and ocean carrier—which help reduce greenhouse gas output.

**Anti-Idling Policy**

When docked, KI shippers are instructed to shut off their trucks while loading and unloading to save fossil fuel usage and reduce greenhouse gases.

# PRODUCT DESIGN & SUSTAINABILITY

It's important to us to produce sustainably-friendly furniture. Therefore, we design each product with longevity in mind, manufacturing with components that are easily field replaceable, should wear and tear occur or an aesthetic update be required.

Components are also recyclable whenever possible. When a product's lifecycle does end, it's then disassembled and recycled instead of dumped in a landfill. KI supports this initiative by making product disassembly instructions available to customers on [ki.com](http://ki.com).

## SUSTAINABLE DESIGN

An important part of responsible product design lies in material selection. Whenever possible, we use materials made with a high percentage of recycled content, as well as such renewable materials as wheat board, soy board, sunflower board, linoleum, cork, rubberwood, soy-blend foams and more. To further support sustainability initiatives, KI offers a PVC-free edge option for all applicable products.

By introducing more materials into recycling programs, KI has effectively reduced its waste stream. By focusing on emerging sustainable processes, we've been able to include significant amounts of foam, fabrics, plastic purgings and excess powder waste from the paint finishing process in recycling programs. Following a "reduce, reuse and recycle" design philosophy helps us lessen the impact on other natural resources as well — less water is used, there are fewer wastewater discharges, air emissions are controlled and solid/hazardous waste is reduced.

Design for the Environment (DfE) is an analysis that is conducted when KI is considering a new product or refining an existing product. A cross-sectional DfE team from design, procurement, manufacturing and environmental programs work together to find alternatives or materials that improve a product's recyclability and/or biodegradability, minimizes its energy and water use and reduces its environmental impact at the end of its lifecycle.

The DfE team reviews manufacturing facilities for their energy and water use and identifies processes that could be more environmentally friendly, including painting, adhesives, metal cleaning, finishes and packaging. This is intended to not only improve the indoor air quality for the end user but also to stress waste minimization, recycling and the use of alternative non-hazardous materials.

While many decisions may be motivated by a desire to protect the environment, we also take into account the effects of raw materials on land use and substitution as well as the broad range of environmental impacts inherent to the lifecycle of our products.

KI explores product solutions that aid in the achievement of principles upheld by the Leadership in Energy and Environmental Design (LEED) Green Building Rating System, a priority program of the U.S. Green Building Council. Representing the furniture manufacturing industry, KI LEED Accredited Professionals—both corporate and field-based—work in cooperation with environmental professionals to examine how the company's product offerings embrace such critical areas as energy efficiency; human and environmental health; durability, performance and maintenance; embodied energy and pollution; resource limitation; and waste management.

KI continually provides guidance and training programs to customers on how the company's products contribute to LEED criteria. Counsel is provided on key criteria areas, such as:

- materials and resources
- indoor environmental quality
- ergonomics
- sustainability
- design innovation
- low-emitting materials
- systems furniture
- level certified

## DESIGN FOR THE ENVIRONMENT

## KI & LEED

**In 2015, KI achieved certification for 167 products under BIFMA's level® program.**

## PRODUCT CERTIFICATIONS

KI designs and manufactures low-emission products to help improve indoor air quality for both our customers and employees, as well as for interiors catering to sensitive environments such as schools and healthcare facilities. We do not use chemicals that exceed any known federal, state or municipal government indoor air quality measurement; rather, we use materials that meet and exceed the requirements for indoor air quality standards.

SCS Global Services is a trusted leader in third-party environmental, sustainability certification, auditing, testing and standards development. We rely on this program to ensure our products meet the most stringent standards for indoor air quality – thus providing a better quality of life for the people using our products, because they are breathing cleaner indoor air.

KI products are tested to meet Indoor Advantage™ certification through SCS Global Services. This certification is imperative for those looking to achieve LEED Certification – especially in educational institutions and healthcare facilities where improved air quality is becoming a requirement rather than an option. View KI's list of Indoor Advantage Gold certified products at [scsglobalservices.com](http://scsglobalservices.com).

KI also complies with stringent standards for formaldehyde and other toxic emissions in order to keep air quality pure. In fact, KI follows California Air Resources Board's (CARB) standards for formaldehyde emissions from wood products, including HWPW, PB and MDF. Specifically, KI is CARB Phase 2 compliant for all wood composite products, which includes panels made from pieces, chips, particles or wood fibers bonded together with a resin.

The Healthier Hospitals Initiative (HHI) encourages manufacturers to provide information on furniture that meets the Healthy Interiors goals of the safer chemicals challenge. This challenge focuses on the reduction of energy consumption, reduction of chemical use in the hospital environment and increase in environmentally preferable purchasing. In 2015, KI offered nearly 50 furniture solutions that met the criteria outlined in the HHI Healthy Interiors challenge. This represents our goal to eliminate the intentional use of halogenated flame retardants, formaldehyde, perfluorinated compounds, antimicrobials and PVC (vinyl).

The Forest Stewardship Council® (FSC) is widely regarded as one of the most important initiatives of the last decade to promote responsible forest management worldwide – and we agree. We partner with many vendors who can provide wood components sourced from FSC-managed forests, which may contribute toward the use of certified wood. By special request, KI's wood-based products can be manufactured using FSC-certified wood. In support, KI operates manufacturing facilities that are certified and carry their own chain of custody (CoC) numbers.

In 2015, KI achieved level® certification for 167 products under the Business and Institutional Furniture Manufacturers Association's (BIFMA) level® Sustainability Program. As a result, interior designers, architects, facility managers and others across industries can easily identify and confidently specify increasingly sustainable furniture manufactured by KI.

Developed in accordance with the American National Standards Institute (ANSI) procedures, level® is the label awarded to office furniture products that meet multiple criteria of the stringent, multi-attribute ANSI/BIFMA e3 Furniture Sustainability Standard. Earning the level® mark requires validation by an approved third-party certification body.

Level establishes measurable performance criteria to address environmental and social aspects of product manufacturing throughout the supply chain, including the areas of materials, energy/atmosphere, human/ecosystem health and social responsibility. Choosing level® certified products assures that the product is produced in an environmentally and socially conscious manner and comes from a responsible manufacturer. A complete list of KI's level® certified products can be found at [levelcertified.org](http://levelcertified.org).

A PRACTICE GREENHEALTH PROGRAM

### PRODUCT DURABILITY

KI's products are designed to be durable, flexible (both in terms of physical rearrangement and also in terms of versatility and changeability) and repairable (in the event wearing occurs or a component needs to be replaced). When an item is no longer needed, products can be disassembled and recycled or reused. We often partner with vendors who assist in the refurbishing and resale of products and components on a per-project basis to extend product lifecycles.

Offering products that are durable, flexible and repairable encourage our customers to break their own cycle of unnecessary waste generation.

### PRODUCT BUY-BACK POLICY

At KI, we understand the way environments change and how the needs of our customers evolve. To support this continual evolution, we offer assistance in the removal, repurposing, resale or recycling of used or unneeded products. KI gladly coordinates this buy-back program and brokers products that would otherwise be discarded. KI can also assist with brokering furniture from other manufacturers.

Details of this service are given on a product-by-product basis and are tailored as needed. By producing products that are reconfigurable, such as architectural walls and panel systems, KI acts as a responsible steward of the environment, promoting the reuse of products rather than the proliferation of landfills.

### DISASSEMBLY DIAGRAMS

KI offers disassembly instructions for products to allow quick and simple identification of materials for recycling at the end of the product lifecycle. KI manufactures furniture with recyclable materials whenever possible so that the furniture components may be recycled instead of dumped in a landfill.

Environmental Data Sheets (EDS) are available for the majority of KI products and are posted on each respective product page at [ki.com](http://ki.com). These data sheets provide the information needed in selecting the most environmentally friendly products by communicating the material makeup and various certifications available for each product.

# SOCIAL RESPONSIBILITY

KI was founded on the belief that human-centered design can impact the lives of people and ultimately the world, including the lives of future generations. Today, KI is committed to incorporating a human-centered, socially responsible approach to everything we do—from hiring to manufacturing; from designing to purchasing; from workforce engagement to community outreach. It is an ongoing process that requires the active, vigilant and creative participation of all involved.

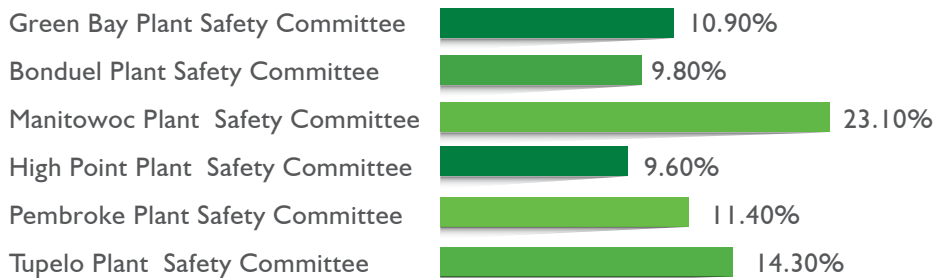

## EMPLOYEE SAFETY

Because KI considers employees to be our most valuable asset, we maintain a high quality safety program for the protection of each employee. In keeping with this, KI is committed to maintaining compliance with all applicable local and national regulations that govern our performance in the area of employee health and safety.

The primary goal of KI’s safety program is to prevent and eliminate serious injuries and consequences of all accidents. Efforts of the company alone will not prevent accidents. All KI employees receive general and specific training on various safety procedures, thus rendering safety the responsibility of every employee.

A health and safety committee with joint representation can facilitate a positive health and safety culture. The use of committees is one way to involve workers in driving the improvement of occupational health and safety in the workplace. The following chart indicates the extent to which the workforce is actively involved in health and safety.

**KI has committed to allow employees to enjoy a better quality of life both at work and at home.**

## HEALTH & WELL-BEING

KI's culture promotes a healthy lifestyle. In fact, KI has made a commitment to allow employees to enjoy a better quality of life both at work and at home. KI offers a company-wide wellness program and fitness center that is available to corporate employees and their families. KI encourages a healthy lifestyle and offers a flexible lunch schedule to encourage employees to maintain a healthy lifestyle through exercise. Furthermore, KI's health insurance coverage was formed in such a fashion to offer incentives to those individuals who adopt healthier lifestyles. This allows for a more productive workforce and reduces the cost of healthcare coverage, allowing us to pass on those savings to employees through reduced contribution rates.

Following are various programs and incentives that KI implements to promote health and wellness among employees:

- KI offers race sponsorships and payment of registration fees to local fitness races for employees.
- KI offers \$200 per family annually for a Stay Healthy benefit to use toward joining fitness centers, the YMCA or other wellness programs.
- KI uses an innovative approach based on employee empowerment that has kept healthcare costs well below national averages.
- KI provides its employees with a Health Savings Account that they use toward one of three health insurance plans. As part of the process, all employees and spouses annually take a Health Risk Assessment biometric evaluation that looks at a number of criteria, such as body mass index, cholesterol levels, blood pressure and more. The higher an employee's score, the lower the premium.
- KI regularly implements measures to help employees achieve the best health scores. In addition to providing ongoing information to raise awareness about healthy living, KI removed sugared sodas and high sugar fruit drinks from vending machines. The corporate cafeteria offers whole foods with low-calorie and low-fat menu items (i.e. skim is the only type of milk offered). In addition, smoking is prohibited anywhere on KI grounds.
- KI hosts annual health and wellness fairs on-site to offer insight and information to encourage employees to live healthier lifestyles and enhance their wellbeing.

KI's employee empowered healthcare plan has been in place for more than 20 years. It is based on KI's position that private employers are better suited to manage healthcare costs than state or federal governments. KI has actively opposed all proposals to implement state subsidized healthcare based on the success of its program. Since implementing consumer driven high-deductible healthcare plans in 2006, KI's annual healthcare costs have increased by 3% annually.

In 2015, KI received a Gold Fit-Friendly Worksite Award from the American Heart Association. The award honors KI for making the health and wellness of its employees a priority and serves as a catalyst for positive change in the workplace across America.

## 2015 HEALTH & WELLNESS STATISTICS (NATIONAL)

- KI employees pay \$1,437,000 less annually in premiums than the national average for employees working for companies with similar health insurance plans.
- KI contributes to employee HSA accounts \$586,000 more annually than the national average of employers who contribute to HSA accounts.
- The combined impact of lower premiums and higher HSA contributions is \$2,023,000 annually into the economy.

## LABOR &amp; HUMAN RIGHTS

KI fosters a creative and stimulating work environment and empowers all employees to provide the highest possible level of service to the customer. Like the markets we serve, KI encourages an innovative and entrepreneurial spirit. It is our commitment to provide our employees with a competitive compensation and benefits package, career advancement opportunities, training programs, wellness activities and a fun and exciting environment in which to work.

KI strives to reward employees for their hard-working contributions in many ways. Some of the innovative approaches KI has used in its recruitment and retention efforts are as follows:

- KI encourages employees to continue their education by attending seminars and taking courses through an accredited institution of higher learning. KI pays for business-related classes and seminars and reimburses for class expenses.
- KI actively recruits candidates from area colleges and provides an internship program, allowing students to learn the business from the ground up.
- KI actively participates in many area job fairs to select candidates for open positions.
- In its manufacturing facilities, KI uses a skill-based pay system (paid for applied knowledge) to recognize the efforts of employees. KI continues to develop its employees so they can add more value and better their earning potential.
- KI offers in-house hand weld certification classes and forklift training to enable employees to grow within the company.
- KI offers a state-sponsored apprenticeship program to allow selected employees to gain knowledge in highly skilled positions (tool electricians and die journeyman).

Programs for skills management allow KI to plan acquisitions that will equip employees to meet strategic targets in a changing work environment. A more skilled and aware workforce enhances our organization's human capital and contributes to employee satisfaction, which correlates with strong, improved performance. The goal of lifelong learning is to promote the development of knowledge and competencies that will enable each KI employee to adapt to a rapidly-changing labor market and to participate actively in all spheres of economic life.

KI offers the following internal educational programs for its employees:

- New hire orientation
- Manager training
- Manufacturing training
- Safety training

KI also provides funding support for external training and education:

- Off-site training and seminars
- Educational reimbursement
- Apprenticeship programs

KI provides wages that are comparable with other employers in our industry. On average, our entry level wage is 8% higher than the federal minimum wage.

Moreover, KI is dedicated to ensuring that the human rights of our employees are protected and respected on a local and global scale, which includes the prohibition of forced, involuntary or child labor. In line with these guiding principles, we expect the same level of responsibility to human rights protections from our global supply network.

## INCLUSIVENESS &amp; DIVERSITY

KI is committed to maintaining a work environment that is characterized by mutual respect, professionalism and absence of harassment and bullying. In keeping with this commitment, all managers, employees, vendors and customers are expected to adhere to a standard of conduct which exemplifies and supports a professional work environment free from all forms of discrimination.

KI's policy is to provide equal employment opportunity for all qualified individuals without regard to race, color, religion, sex, age, national origin, disability, veteran status, marital status, sexual orientation, military status, genetic information or any other protected class.

To this end, KI supports and cooperates with all applicable laws, regulations and executive orders in all of our employment policies, practices and decisions. KI will take affirmative action to assure equal opportunity for employment is provided with regard to all personnel actions, including but not limited to:

- Recruiting, testing, selection, hiring, promotion and other employment decisions.
- Compensation, benefits, transfers, training, social and recreational programs, job assignments, layoffs, recalls, education and other terms and conditions of employment.

To ensure we are walking our talk, KI sends job posting information for summer employment to various diversity organizations throughout the community, including the Multicultural Center, Hispanic Services, and the Hmong Association for employment within our corporate manufacturing facility.

KI has established and maintains contact with various organizations to support its outreach efforts to engage underrepresented groups, veterans and the disabled. Annually, a letter is sent to these organizations to remind them of KI's commitment to Equal Employment Opportunity and Affirmative Action.

In addition, KI largely recruits through an employee referral process, which helps guarantee that our manufacturing operations will continue to be a diverse environment. Because many different cultures are represented in our workplace, we are committed to accommodating different concerns, religious or otherwise, equally.

KI is committed to providing equal opportunities for personal and professional growth and development for the men and women that make up our organization.

The following charts show the range of demographic diversity employed by the KI family both within the United States and Canada.

**In 2015, KI's total charitable giving, including product donations, totaled \$104,000.**

## CHARITABLE GIVING

KI is committed to being a good corporate citizen and will continue to give back to the communities where we operate. KI's primary giving includes health and wellness related organizations as well as organizations that benefit youth and education. KI supports worthwhile activities through time, talent, products and money as appropriate.

An annual budget is developed each year for charitable contributions. Each of the following areas have budgeted amounts:

- KI product requests
- KI store merchandise requests
- Monetary requests

Key charities are selected during the budgeting process, and funds or products are identified as potential commitments for the upcoming year. KI has made a long-term commitment to support key charities for civic, social and public goodwill, and we review this list annually as community priorities change.

In 2015, KI's total charitable giving, including product donations, totaled \$104,000. A few key organizations and causes KI supported in 2015 include the following:

### BELLIN RUN (\$12K)

The Bellin Run is a 10-kilometer race held annually in Green Bay, and KI is a proud repeat sponsor. This run is one of the region's premier sporting events and has grown to be one of the largest 10-kilometer races in the nation. In its 38 years, the Bellin Run has grown to inspire a growing number of individuals to engage in healthy habits. In 2015, the event drew 16,539 walkers, runners and wheelchair participants. In addition to the participants, the other big winner of the Bellin Run is the Green Bay-based Bellin College, a renowned higher education institution for nursing and other healthcare majors.

### AMERICAN CANCER SOCIETY MAKING STRIDES FOR BREAST CANCER (\$10K)

The Making Strides Against Breast Cancer event is a powerful and inspiring opportunity to unite the community to honor breast cancer survivors, raise awareness and raise money to help the American Cancer Society fight the disease with breast cancer research, information and services, and access to mammograms for women who need them. Since Making Strides began 20 years ago, breast cancer death rates have declined more than 32 percent. KI has committed up to \$10K of its Pallas® Textiles Entwined Collection sales to benefit this event annually for the life of the collection.

#### COMMUNITY HEALTH CHARITIES (\$7.2K)

The mission of the Community Health Charities of Wisconsin is to unite caring donors in the workplace with our nation's most trusted health charities. The nonprofit organization's vision is to improve the lives of people affected by disability or chronic disease. Community Health Charities of America is one of the most cost-effective nonprofit organizations in the country, with Administrative and Fund Raising (AFR) expenses at just 2.2%. CHC's membership is made up of more than 60 of America's most recognized health charities. We work together to raise charitable contributions in the workplace. Employee donations are used to support CHC member charities that provide research, patient services, and outreach programming in the local community.

#### UNITED WAY OF BROWN COUNTY AND MANITOWOC COUNTY (\$24K)

Brown County United Way brings together thousands of donors and hundreds of partners in our community to research, raise and distribute funds and measure results. No other organization touches the lives of so many people right where we live—our friends, neighbors and coworkers. The Brown County United Way campaign assists in efforts to support local children and families; healthcare initiatives; self-sufficiency initiatives; crisis response efforts; local program partnerships; valuable research; and the 2-1-1 area hotline, which is a free and confidential 24-hour phone number for health and human services in Brown County. KI employees contribute each year during this campaign as they are able and, together with KI's corporate contribution, made a sizable donation to the local program in 2015.

#### KI JEAN DAY FUNDRAISING (\$4K)

KI donated approximately \$4,400 to various local and national organizations through the monthly collection of "jean day" contributions at KI in 2015. One Friday per month, employees are allowed to wear jeans to work if they make a donation to the designated monthly fundraising cause. The organizations that KI donated to in 2015 include the following: Rebuilding Together, Freedom House, Wounded Warrior Project, Hemophilia Outreach of Wisconsin, My Team Triumph, Bay Area Humane Society, Happily Ever After Animal Shelter, YMCA Strong Kids Campaign, Ovarian Cancer Community, Salvation Army, Paul's Pantry, American Heart Association and Big Brothers Big Sisters.

## COMMUNITY OUTREACH & INVOLVEMENT

As a company, we've extended our environmental stewardship beyond our four walls. Following are ways we've funded, initiated or participated in similar conservation efforts in our lives and communities:

**Earth Day Employee Awareness** — KI hosted an entire week of Earth Day activities to support environmental awareness in the workplace and encourage environmental responsibility at home. In addition to these activities, KI hosted an Earth Day Fair which featured local representatives from various energy and water conservation efforts and more.

**Car Pooling Program** — Many employees participate in this program to reduce local fuel consumption (and get a preferred parking spot at KI!).

**Landfill Reduction** — To reduce toxic waste in landfills, KI offers on-site recycling centers for items such as batteries, cell phones, computer equipment and eyeglasses. We continually look for ways to further reduce landfill waste with alternative recycling streams in both our corporate business practices and our manufacturing.

**Bay Beach Wildlife Sanctuary** — KI funded the Resch Conservation Wing and Resch Falls at this local wildlife sanctuary.

**Invasive Species** — KI works with local agencies on eradication of invasive plant species (purple loosestrife) found in wetlands around KI's Green Bay, Wisconsin, facility.

**Resch Family East River Trail** — With the generous financial support of KI CEO Dick Resch, this nature and fitness trail borders the East River in Allouez, Wisconsin, just behind KI's corporate headquarters. You can often find employees walking, running or biking the 6.28-mile trail during their lunch hour.

**Rebuilding Together** — KI is a corporate sponsor of the Rebuilding Together program, which provides extensive home rehabilitation and modification services to homeowners in need. Each year, KI employees volunteer their time and efforts to help rebuild homes for qualified individuals.

**Save-a-Sample!** — On a national level, KI is a sponsor of the Save-a-Sample! program, which offers a 'second life' for unused brochures, fabrics and finish cards. Materials are donated by some of the country's busiest design firms and are then delivered to local design schools by furniture providers such as KI. As a result, talented students have a much richer set of resources to choose from during the year and thousands of pounds of materials are saved from landfills.

In addition, KI's corporate "Green Team" led an initiative to Go Green in 2015. Part of this initiative included a promotion for the Nike Grind donation program, which collects old, worn-out shoes bound for the landfill and repurposes them. KI gathered nearly 400 shoes and sent them to the Nike Grind recycling center where these old shoes are sorted and processed to harvest the raw materials (rubber, foam, fabric fibers) they contain. These useful raw materials are then repurposed into sport courts, playground surfaces and other products that value such recycled or post-manufactured materials.

As a special community outreach project in 2015, KI was proud to support the construction of a memorial bench in honor of long-time City of Green Bay Planner Dale Preston. The Dale Preston Memorial Bench Project was born out of the spirit of fostering a more sustainable community. The bench was designed and crafted by students at the Prototype & Design Department of NWTC from recycled plastic lumber, recycled concrete (some of which was recycled from the Wisconsin Highway 41 construction project) and a recycled slab of granite, from which directional letters were cut out to form part of the compass rose. The nautical design was inspired by Mr. Preston's love of the water and sailing.

In addition to KI, "Team Bench" consisted of the Brown County Port & Resource Recovery, the City of Green Bay, Habitat for Humanity Restore of Green Bay, NEW Water, NWTC, and N.E.W. Plastics.

**In 2015, KI's total economic impact on the state of Wisconsin was valued at \$192,936,672.**

## COMMUNITY IMPACT

The influence an organization can have on a local economy goes beyond direct jobs and payment of wages and taxes. By supporting local businesses in the supply chain, KI has the ability to indirectly attract additional investments to the local economy.

Local sourcing is a strategy to help ensure, supply and support a stable local economy and can prove to be more efficient for remote settings. The proportion of local spending is also an important factor in contributing to the local economy and maintaining community relations.

KI's total economic impact on the state of Wisconsin in 2015 equaled \$192,936,672. This includes the figures and facts listed below.

KI has the freedom to partner with any dealers and/or installation entities chosen by the client and is not limited to agencies owned or affiliated strictly with KI. On the other hand, KI also has the ability to arrange all servicing logistics through a network of certified installers the company utilizes for on-site installation requirements. Each of these certified installation entities have proven warehousing, delivery and installation experience. KI certified installation groups are selected at time of order according to the ship to location. Please find the Dealer Listing by State enclosed for your review.

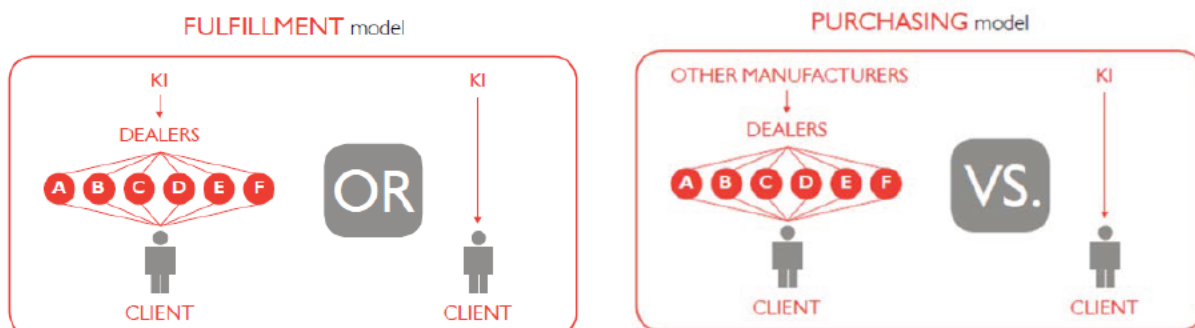

### Business Model: Different by Design

When evaluating prospective architectural wall suppliers, it's often difficult to identify meaningful differentiators. At KI, our differentiation is distinct and deliberate, featuring a go-to-market approach unlike any other in the industry.

We believe that traditional means of exchange have the potential to hinder – rather than help – our clients. Unlike our peers, KI does not prescribe to pre-set distribution channels.

Rather, we deploy more than 300 dedicated KI representatives internationally to work directly with clients. KI's approach provides alternative procurement methods that allow our clients, not the manufacturer, to determine the best means to manage ordering and fulfillment activities. It also provides clients the opportunity to reduce costs via bypassing the traditional dealer/"middleman" model if required.

This client-centric business model is the engine that continues to drive KI's growth and client satisfaction. Ultimately, clients appreciate the flexibility to make purchasing and fulfillment decisions according to their needs, versus what may be most expedient for the manufacturer.

# Implementation of House Bill 1295

## Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least \$1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

### Filing Process:

Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

Information regarding how to use the filing application will be available on this site starting on January 1, 2016.

## C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 ([http://www.nj.gov/dca/divisions/dlgs/resources/lfns\\_2006.html](http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html)). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of \$17,500 that are **not awarded** pursuant to a “fair and open” process (N.J.S.A. 19:44A-20.7).
2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
  - a. The Division has prepared model disclosure forms for each county. They can be downloaded from the “County PCD Forms” link on the Pay-to-Play web site at <http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12>. They will be updated from time-to-time as necessary.
  - b. A public agency using these forms **should edit them to properly reflect the correct legislative district(s)**. As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
  - c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
  - d. The form may be used “as-is”, subject to edits as described herein.
  - e. The “Contractor Instructions” sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
  - f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
5. **It is recommended that the contractor also complete a “Stockholder Disclosure Certification.” This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract**

(See Local Finance Notice 2006-7 for additional information on this obligation at [http://www.nj.gov/dca/divisions/dlgs/resources/lfns\\_2006.html](http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html)). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

## **C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM**

### **Contractor Instructions**

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a “fair and open” process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee\*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
  - of the public entity awarding the contract
  - of that county in which that public entity is located
  - of another public entity within that county
  - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed \$300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an “interest” ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, “a contribution by that person’s spouse or child, residing therewith, shall be deemed to be a contribution by the business entity.” [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor’s responsibility to identify the specific committees to

which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

\* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."
