carahsoft®
SOLUTIONS FOR GOVERNMENT™

Carahsoft Technology Corp. is the trusted Government IT solutions provider, combining technological expertise with a thorough understanding of the government procurement process to help federal, state, and local government agencies select and implement the best solution at the best possible value. As a top-ranked GSA Schedule Contract holder, Carahsoft is the largest government partner and master government aggregator for many of its best-of-breed vendors, managing their public sector reseller networks and driving demand for their offerings.

Carahsoft is consistently recognized by its partners as a top revenue producer and is listed among the industry's fastest growing firms by CRN, Inc., Washington Technology, and the Washington Business Journal. For a complete list of Carahsoft's awards and recognition, visit our awards page.

vmware®
888-6VMWARE

VMware is the leader in virtualization and cloud infrastructure solutions that enable government to thrive in the Cloud Era. VMware virtualization solutions are run by all 15 Federal executive branch agencies; all Department of Defense agencies, services and joint commands; all 50 U.S. state governments; and throughout thousands of local government agencies. In government entities of all sizes, VMware is enabling cost savings, greater agility, increased efficiency, faster application development and deployment, decreased power and energy consumption, increased space savings and more.

Symantec™
877-GOV-SYMC

Symantec enables government agencies to have confidence in their IT infrastructure. Helping agencies protect and manage mission-critical information and interactions, Symantec delivers software and services that address risks to security, availability, compliance and performance. The Symantec umbrella includes all Symantec products and services, including MessageLabs and Vontu.

EMC²®
888-9-EMC-2-GO

EMC Corporation is a global leader in enabling businesses and service providers to transform their operations and deliver IT as a service. Fundamental to this transformation is cloud computing. Through innovative products and services, EMC accelerates the journey to cloud computing, helping IT departments to store, manage, protect and analyze their most valuable asset — information — in a more agile, trusted and cost-efficient way.

f5®
877-95-F5GOV

F5 Networks helps government organizations create an agile IT infrastructure that aligns with mission critical demands. With F5 solutions in place, organizations gain strategic points of control wherever information is exchanged, from client devices and the network to application servers, data storage, and everything in between.

redhat.
877-RHAT-GOV

Red Hat is more than a software company. Red Hat makes the rapid innovation of open source technology consumable in mission-critical, enterprise environments. Red Hat combines a superior development model with a customer-friendly business model that gives agencies the choice, flexibility, and power to build an IT infrastructure that solves their business problems and makes their IT a strategic advantage. By offering subscriptions for enterprise technology and services, Red Hat stands up for open source ideals, and fosters greater participation in the open source process. Red Hat is a catalyst for a technology movement that has already changed the world.

Adobe®
877-99ADOBE

Adobe revolutionizes how agencies engage with ideas and information, transforming and extending government services to provide a richer, more productive, and trusted experience with constituents, agency personnel, and the military. Adobe has the largest software footprint in the world, which uniquely positions us to help government deliver information to the edge - anytime, anywhere, and through any medium.

SAP®
888-SAP-1GOV

SAP sets a new standard for innovation and performance in the public sector with integrated solutions that apply database technology, business analytics, applications, cloud computing and mobility to solve their toughest challenges. Whether they are managing core government functions or delivering mission-critical operations, SAP brings intelligent ideas to the public sector with integrated solutions that deliver results.

hp
888-55-HPGOV

HP Software offers a comprehensive enterprise software portfolio to help government agencies optimize and secure their applications, information and infrastructure. The HP Software portfolio includes products and services from acquisitions such as ArcSight, Fortify, TippingPoint, Autonomy, OpenView, Mercury, Opsware, Peregrine and Vertica.
