Extinction is a natural process. Today, however, plant and animal species are disappearing world-wide at an accelerated pace. Based on current trends, half of the species on earth will be extinct within the next 100 years. The major cause of this phenomenon is large-scale destruction of native habitats, which has increased since European settlement began in the mid 1800's - in Oregon and throughout the New World.

Once lost, a species can never be recovered, and there is no way of knowing how useful it may have been. We do know that human beings and many of their industries depend on plant and animal products. About 50% of all pharmaceuticals have a natural component as an active ingredient, yet less than one percent of the world's species have been chemically analyzed and tested. Many invertebrates and plants contain undescribed and highly functional compounds. *Limnanthes floccosa* subsp. *grandiflora*, or woolly meadow-foam, a rare plant that grows in southwest Oregon, has been recently found to produce a hybrid with the more common member of the genus, *Limnanthes alba*. This hybrid grows well in the poorly drained soils of the Willamette Valley and produces a valuable oil used for soaps, plastic and rubber production. In addition, the new hybrid meadow-foam does not require the field burning necessary for other crops. This species, and many other Oregon natives, will be lost without intervention. The purpose of this book is to provide land managers, owners and interested parties with a list of those species in Oregon which are in greatest jeopardy.

Oregon State Endangered Species Programs

In 1987, the Oregon Legislature passed an Endangered Species Act which gave the Oregon Department of Agriculture responsibility and jurisdiction over threatened and endangered plants, and reaffirmed the Oregon Department of Fish and Wildlife's responsibility for threatened and endangered fish and wildlife. Both of these agencies have entered into cooperative (Section 6) agreements with the United States Fish and Wildlife Service for the purpose of carrying out research and conservation programs for animal and plant species under the auspices of the federal Endangered Species Act. The Oregon Natural Heritage Program (ORNHP) has a similar agreement with the Fish and Wildlife Service for invertebrates. More information on the state endangered species programs can be found at the beginning of the animal and plant sections of this book.

Oregon Natural Heritage Program (ORNHP)

ORNHP maintains comprehensive data bases for Oregon biodiversity, concentrating on the rare and endangered plants, animals and ecosystems. Site specific information is available at ORNHP. The program is a partnership between The Nature Conservancy of Oregon and the State of Oregon, currently supported primarily by federal natural resource agencies. Biologists working for these agencies, together with the state's herbaria and museums, provide most of the information that comprise ORNHP's databases. The Natural Heritage Advisory Council oversees the registration and dedication of ecologically significant natural areas and the creation of Oregon's Natural Heritage Plan.

This book has been compiled using the most current information available on the distribution and abundance of plants and animals native to Oregon. Although based on a large volume of information, it is by no means complete. Much is known about some species, very little about others. ORNHP welcomes additional information or recommendations regarding any of the taxa listed herein. Such information, as well as data requests, should be directed to:

Oregon Natural Heritage Program
821 SE 14th Avenue
Portland, Oregon 97214
(503) 731-3070

This book will be reprinted every third year. It will be updated at least once a year, with updates posted on the ORNHP Home Page (www.abi.org/nhp/us/or). Copies may be obtained at cost (\$6.00 per copy + \$2.00 for shipping and handling, prepaid) from ORNHP.

Outline

The book is divided into animal and plant sections. The sections begin with a description of the animal and plant programs in the state and are followed by the main list of animals and plants. For animals, the list is divided into major groups: fish, amphibians, reptiles, mammals, birds, and invertebrates and then arranged alphabetically by scientific name. The plant list is first divided into four groups: vascular plants, non-vascular plants, lichens and fungi, and then alphabetized by scientific name. The information for each taxa includes 1) scientific and common names with authorities for plants, along with synonymy if the name is new; 2) county, ecoregion, and adjacent state distribution information, and 3) the state and federal status, as well as the ORNHP list and The Nature Conservancy's (TNC) Heritage Network Global and State ranks. Distribution abbreviations are listed and explained on the next page.

Criteria and Definitions

Inclusion of any given taxon on these lists is based on several specific criteria. The most important factors are the total number of known, extant populations in Oregon and world-wide, and the degree to which they are potentially or actively threatened with destruction. Other criteria include the number of known populations considered to be securely protected, the size of the various populations, and the ability of the taxon to persist at known sites. The taxonomic distinctness of each species also has been considered. Hybrids or questionable, undescribed species have not been included; although undescribed taxa recognized by the

scientific community in Oregon are included.

Taxonomic experts who were consulted are listed in the acknowledgments on the page 90. All of these criteria are considered in the development of TNC Heritage Network species rank as well.

Definitions and explanations of the various ranks and federal and state status are included on page 4 and summarized on the back inside cover, along with a list of abbreviations. A number of definitions and criteria specific to animals (wintering or breeding ranks in birds) are discussed in detail at the beginning of the animal section of this book.

DISTRIBUTION INFORMATION

Distribution Information

Distribution information is included on the lists in the following format: Ecoregion; State (and/or Canadian Province); and County. Out-of-state distribution information is complete for plant and animal taxa on ORNHP List 1 (which are usually Oregon or regional endemics). For all other taxa, all adjacent states or the closest state with occurrences will be listed; a plus (+) signifies that the taxa is found in additional states. Taxa with no other states noted are Oregon endemics. For the most part, the Ecoregion, County and State distribution is based on both historic and current information. Any additional input on distribution will be incorporated in future updates of this book. The Ecoregions and Counties are shown in the map on page 3.

Ecoregions

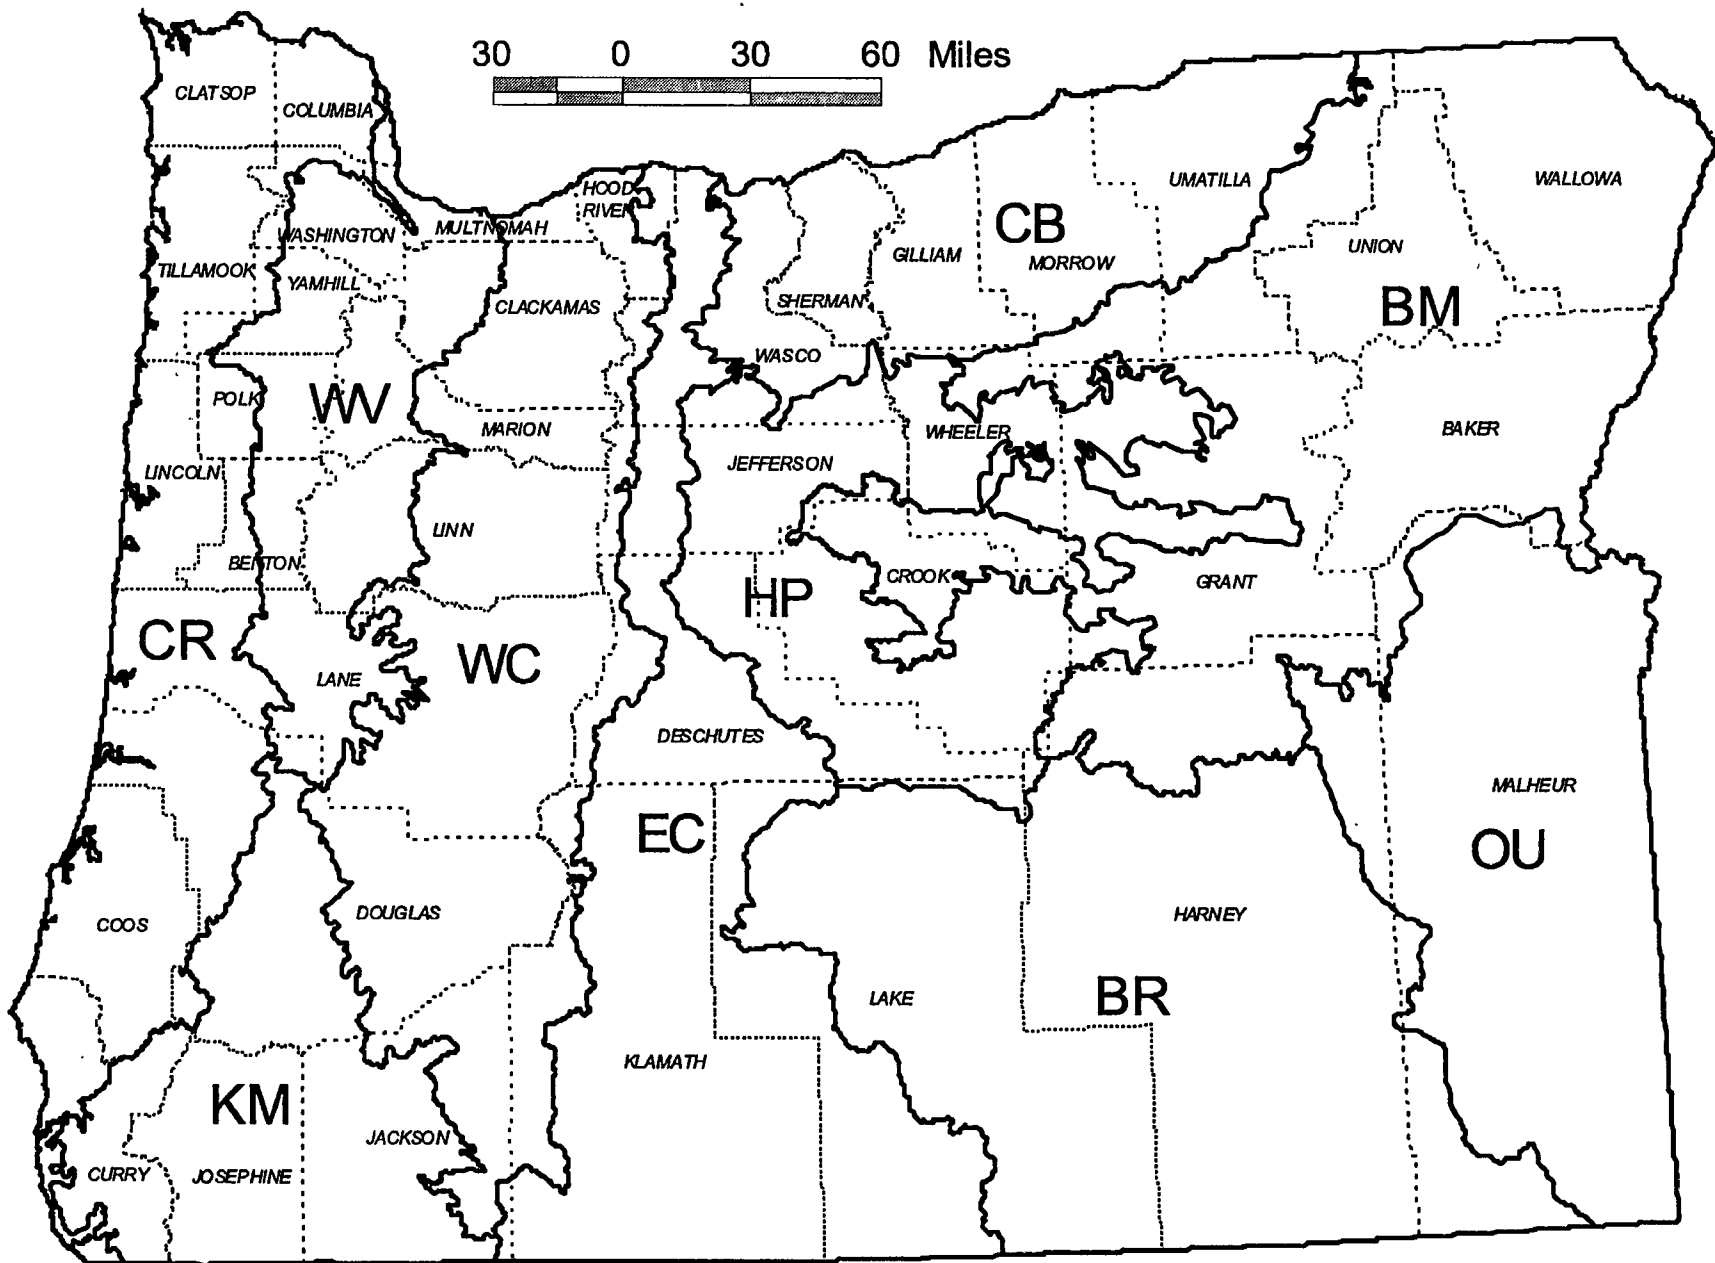

The map on the following page divides the state into ten distinct regions based on geologic and vegetative patterns. The Ecoregions are CR=Coast Range, WV=Willamette Valley, KM=Klamath Mountains, WC=West Cascade Range & Crest, EC=East Cascade Range, BM=Ochoco, Blue & Wallowa Mountains, BR=Basin and Range, HP=High Lava Plains, OU=Owyhee Uplands, and CB=Columbia Basin.

Counties

County distribution is keyed to the base map on the following page. The abbreviations used in the book are made from the first four letters of each county name. The county names are: Baker, Benton, Clackamas, Clatsop, Columbia, Coos, Crook, Curry, Deschutes, Douglas, Gilliam, Grant, Harney, Hood River, Jackson, Jefferson, Josephine, Klamath, Lake, Lane, Lincoln, Linn, Malheur, Marion, Morrow, Multnomah, Polk, Sherman, Tillamook, Umatilla, Union, Wallowa, Wasco, Washington, Wheeler, Yamhill. The county information included is based on data from ORNHP files. Please notify us of mistakes or omissions.

States and Canadian Provinces

State and province distribution is included on the lists primarily to alert biologists to the distribution of these rare, threatened, and endangered taxa in adjacent states. The distribution for the more wide ranging species in states not adjacent to Oregon is primarily based on published information and may not be complete. The two-letter postal abbreviation is used to identify states. The adjacent states include: CA=California, ID=Idaho, NV=Nevada, and WA=Washington. Seven Canadian provinces were abbreviated in the lists: AB=Alberta, BC=British Columbia, MB = Manitoba, NB=New Brunswick, ON=Ontario, PQ=Quebec, and SK=Saskatchewan.

OREGON MAP WITH ECOREGIONS AND COUNTIES

DEFINITIONS

Endangered taxa are those which are in danger of becoming extinct within the foreseeable future throughout all or a significant portion of their range.

Threatened taxa are those likely to become endangered within the foreseeable future.

LE = Listed Endangered. Taxa listed by the U.S. Fish and Wildlife Service (USFWS) or the National Marine Fisheries Service (NMFS) as Endangered under the Endangered Species Act (ESA), or by the Departments of Agriculture (ODA) and Fish and Wildlife (ODFW) of the state of Oregon under the Oregon Endangered Species Act of 1987 (OESA).

LT = Listed Threatened. Taxa listed by the USFWS, NMFS, ODA, or ODFW as Threatened.

PE = Proposed Endangered. Taxa proposed by the USFWS or NMFS to be listed as Endangered under the ESA or by ODFW or ODA under the OESA.

PT = Proposed Threatened. Taxa proposed by the USFWS or NMFS to be listed as Threatened under the ESA or by ODFW or ODA under the OESA.

C = Candidate taxa for which NMFS or USFWS have sufficient information to support a proposal to list under the ESA, or which is a candidate for listing by the ODA under the OESA.

SoC = Species of Concern. Former C2 candidates which need additional information in order to propose as Threatened or Endangered under the ESA. These are species which USFWS is reviewing for consideration as Candidates for listing under the ESA.

Lists Following Animal and Plant Sections

In addition to the main lists summarizing information on animals and plants, this booklet includes the agency lists compiled from the most recent information available (January 1998):

- Federal and State, listed and proposed animals (USFWS, NMFS, ODFW)

- Federal candidate (USFWS, NMFS) and species of concern (USFWS) animals

- State sensitive animals (ODFW)

- Federal listed, proposed and candidate plants, and species of concern (USFWS)

- State listed and candidate plants (ODA)

- Heritage Program Lists (ORNHP). The criteria for the Heritage Program lists are as follows:

List 1 contains taxa that are threatened with extinction or presumed to be extinct throughout their entire range.

List 2 contains taxa that are threatened with extirpation or presumed to be extirpated from the state of Oregon. These are often peripheral or disjunct species which are of concern when considering species diversity within Oregon's borders. They can be very significant when protecting the genetic diversity of a taxon. ORNHP regards extreme rarity as a significant threat and has included species which are very rare in Oregon on this list.

List 3 contains species for which more information is needed before status can be determined, but which may be threatened or endangered in Oregon or throughout their range.

List 4 contains taxa which are of conservation concern but are not currently threatened or endangered. This includes taxa which are very rare but are currently secure, as well as taxa which are declining in numbers or habitat but are still too common to be proposed as threatened or endangered. While these taxa currently may not need the same active management attention as threatened or endangered taxa, they do require continued monitoring.

Taxa Considered but Rejected contains all taxa deleted from any of the above lists in previous editions of this booklet. Taxa dropped from the list since the last book (1995) are also included in the main list.

TNC - Natural Heritage Network Ranks

ORNHP participates in a national system for ranking rare, threatened and endangered species throughout the world. The system was developed by TNC and is used in Heritage Programs or Conservation Data Centers (CDCs) in all 50 states, in 4 Canadian provinces, and in 13 Latin American countries. The ranking is a 1-5 scale, primarily based on the number of known occurrences, but also including threats, sensitivity, area occupied, and other biological factors. In this book, the ranks occupy two lines. The top line is the Global Rank and begins with a "G". If the taxon has a trinomial (a subspecies, variety or recognized race), this is followed by a "T" rank indicator. A "Q" at the end of this line indicates the taxon has taxonomic questions. The second line is the State Rank and begins

with the letter "S". The ranks are summarized below (see page 6 for migratory bird ranks):

1 = Critically imperiled because of extreme rarity or because it is somehow especially vulnerable to extinction or extirpation, typically with 5 or fewer occurrences.

2 = Imperiled because of rarity or because other factors demonstrably make it very vulnerable to extinction (extirpation), typically with 6-20 occurrences.

3 = Rare, uncommon or threatened, but not immediately imperiled, typically with 21-100 occurrences.

4 = Not rare and apparently secure, but with cause for long-term concern, usually with more than 100 occurrences.

5 = Demonstrably widespread, abundant, and secure.

H = Historical Occurrence, formerly part of the native biota with the implied expectation that it may be rediscovered.

X = Presumed extirpated or extinct.

U = Unknown rank.

? = Not yet ranked, or assigned rank is uncertain.

SPECIAL ANIMALS

Information on Oregon's rare, threatened and endangered animal species is presented here in two formats. The first is a list summarizing the distribution, federal and state status, and Heritage Program rank of the species as described on pages 4 and 5. The second format breaks the species into lists based on their status.

In both formats, the special animals are divided into major groups (fish, amphibians, reptiles, birds, mammals, invertebrates), then listed alphabetically by scientific name. The exception is the invertebrate summary list which is further subdivided into class and order.

The animals included in our book are those rare, threatened and endangered vertebrate and invertebrate species that are native to Oregon and have (or have had) sustained breeding populations within the state. We have not included open-ocean mammals or sea turtles which generally occur offshore and do not breed in Oregon. Wintering bird species and those which occur on an accidental or occasional basis present special problems which are described below.

Animal Species Tracked

A key objective of the ORNHP is to serve as a clearinghouse of information regarding site-specific locations of rare, threatened and endangered species in Oregon. We have placed an asterisk (*) adjacent to those species on the summary list for which site-specific computerized information is maintained.

Our intent is to obtain and computerize locational information for all state and federal listed animal species, as well as all federal candidate species and species of concern (SoC). We do not currently have the

resources to track certain species of concern which, while they have conservation concerns, are relatively widely distributed. Neither can we track all State sensitive species, especially those of undetermined status or species currently at risk over a limited portion of their range.

Location data is computerized for other animal species that we believe are rare (of limited abundance or restricted distribution), threatened, endangered or otherwise vulnerable in Oregon, based on the TNC-Natural Heritage Network ranks defined on pages 4 and 5. We make ranking decisions based on the best available information. Comments on our ranks or on the inclusion or exclusion of taxa are welcome.

Generally, ORNHP maintains computerized information for all animal species on ORNHP Lists 1 and 2, as well as selected species on lists 3 and 4 that are federal Species of Concern or that we believe are otherwise rare or of special concern in Oregon. There are several accidental or occasional breeding birds that we have chosen not to track, even though they rank out highly. These species are well outside their normal range, and we feel our efforts are better spent on species which are part of Oregon's usual fauna.

Additionally, we maintain manual files for all animal species noted herein. We encourage the submission of information, reports and observations on all of the special animal species, especially information pertaining to trends over time. As additional resources become available, we will incorporate information from manual files into electronic format. A sample animal field survey form is included on page 91. Information need not be limited to this format.

Bird Lists and Natural Heritage State Ranks

Avian species are usually placed on the ORNHP Lists based on breeding populations. Some species may be common in winter or migration but rare as breeders in Oregon, and in these instances it is only the breeding populations that are of concern (i.e. harlequin duck, bufflehead, common loon). Species that occur in Oregon in migration or as winter residents only are not considered here, except for especially sensitive species with critical staging or wintering locations in Oregon (i.e. Aleutian Canada goose, brown pelican). There are several bird species that have nested in Oregon on occasion (semipalmated plover, black-chinned sparrow), but may not yet be considered established breeders. For now, these species are not included on the list pending more accurate determination of their breeding status. Those species of accidental occurrence are not included (snowy owl, red-shouldered hawk).

The TNC State ranks for migratory birds require greater explanation than those included on pages 4 and 5. State ranks for long-distance migrants are separated by the breeding and nonbreeding components of the population. State ranks followed by a 'B' refer to breeders, while ranks followed by an 'N' refer to a nonbreeding (wintering) population. Thus a State rank of S1B,S2N indicates that the breeding portion of the population is extremely rare, and the wintering portion is slightly more common. If a species occurs in the state only during the breeding season, it will only have a S#B rank. Similarly, if a species only occurs in Oregon during the nonbreeding season, it will have an S#N rank. Species which are not long-distance migrants are ranked without the B or N modifiers.

Invertebrates

Compilation of the invertebrate lists has been especially difficult. Little is known about the status and distribution of most invertebrate taxa found in Oregon, particularly those which may be rare, threatened or otherwise vulnerable. Many invertebrate groups are under collected. As a result, State ranks may not accurately reflect the true population status for some species. We believe it is useful to assign these species a State ranking number, but have used the '?' modifier to indicate species that may be rarely collected as opposed to truly rare. The Oregon Natural Heritage Program has been granted limited authority for invertebrates through a cooperative agreement with the U.S. Fish and Wildlife Service. It is our hope that in cooperation with State and Federal agencies we can assist and coordinate efforts to gather information and better ascertain the status of rare, threatened and endangered invertebrate populations in Oregon.

Oregon's Threatened and Endangered Species Program - ODFW

Claire Puchy, Wildlife Diversity Program Coordinator
Martin Nugent, T & E Wildlife Program Coordinator

The Oregon Department of Fish and Wildlife (ODFW) maintains a list of threatened and endangered species under the authority of ORS 496.172, the Oregon Endangered Species Act, 1987. The list included in this booklet reflects ODFW's revisions as of December 1995. There are currently 35 species on the list. The Act requires state agencies to develop programs for the management and protection of endangered species, and requires agencies to comply with guidelines adopted by the Oregon Fish and Wildlife Commission for threatened species. The Oregon Fish and Wildlife Commission has adopted administrative rules, OAR 635-100-100 to 130, which clarify the Act and provide criteria for listing, delisting and protection of listed species. It is in the process of amending these rules to reflect modifications to the state Endangered Species Act adopted by the 1995 Oregon Legislature.

The Oregon Fish and Wildlife Commission has also adopted a rule requiring the department to develop and maintain a state list of Sensitive Species for vertebrates in the state. The rule is OAR 635-100-040. Sensitive species constitute naturally-reproducing native vertebrates which are likely to become threatened or endangered throughout all or a significant portion of their range in Oregon. The Sensitive Species list is for the express purpose of encouraging actions that will prevent further decline in species' populations and/or habitats and thus avoiding the need for listing. This list is updated biennially. The list used here is from December 1998. Anyone may request that a species be added to or removed from the list by writing to the department and providing justification for the requested action.

Sensitive species are broken into four categories defined as follows:

CRITICAL (SC) - Species for which listing as threatened or endangered is pending; or those for which listing as threatened or endangered may be appropriate if immediate conservation actions are not taken. Also considered critical are some peripheral species which are at risk throughout their range, and some disjunct populations.

VULNERABLE (SV) - Species for which listing as threatened or endangered is not believed to be imminent and can be avoided through continued or expanded use of adequate protective measures and monitoring. In

some cases the population is sustainable, and protective measures are being implemented; in others, the population may be declining and improved protective measures are needed to maintain sustainable populations over time.

PERIPHERAL OR NATURALLY RARE (SP) -

Peripheral species refer to those whose Oregon populations are on the edge of their range. Naturally rare species are those which had low population numbers historically in Oregon because of naturally limiting factors. Maintaining the status quo for the habitats and populations of these species is a minimum requirement. Disjunct populations of several species which occur in Oregon should not be confused with peripheral.

UNDETERMINED STATUS (SU) - Animals in this category are species for which status is unclear. They may be susceptible to population decline of sufficient magnitude that they could qualify for endangered, threatened, critical or vulnerable status, but scientific study will be required before a judgement can be made.

All efforts towards management and protection of threatened, endangered and sensitive species in Oregon will be coordinated with other state and federal agencies and private conservation organizations. Copies of the Oregon Endangered Species Act or administrative rules, or the Sensitive Species rule, or lists of the threatened and endangered or sensitive species may be requested from the department by writing to:

FEDERAL AND STATE LISTED AND PROPOSED ANIMAL TAXA *

Scientific name	Common Name	Federal Status	State Status
Fish			
<i>Catostomus warnerensis</i>	Warner sucker	Threatened	Threatened
<i>Chasmistes brevirostris</i>	shortnose sucker	Endangered	Endangered
<i>Deltistes luxatus</i>	Lost River sucker	Endangered	Endangered
<i>Gila bicolor</i> ssp.	Hutton tui chub	Threatened	Threatened
<i>Gila boraxobius</i>	Borax Lake chub	Endangered	Endangered
<i>Oncorhynchus clarki clarki</i>	Umpqua cutthroat trout	Endangered	Sensitive/Vulnerable
<i>Oncorhynchus clarki henshawi</i>	Lahontan cutthroat trout	Threatened	Threatened
<i>Oncorhynchus keta</i>	chum salmon, lower Columbia R.	Proposed Threatened	Sensitive/Critical
<i>Oncorhynchus kisutch</i>	coho salmon (S OR/N CA)	Threatened	Sensitive/Critical
<i>Oncorhynchus mykiss</i>	lower Columbia River steelhead	Threatened	Sensitive/Critical
<i>Oncorhynchus mykiss</i>	middle Columbia River steelhead	Proposed Threatened	Sensitive/Vulnerable
<i>Oncorhynchus mykiss</i>	Snake River steelhead	Threatened	Sensitive/Vulnerable
<i>Oncorhynchus mykiss</i>	upper Willamette River steelhead	Proposed Threatened	Sensitive/Critical
<i>Oncorhynchus nerka</i>	sockeye salmon (Snake River)	Endangered	migratory only
<i>Oncorhynchus tshawytscha</i>	fall chinook salmon, lower Columbia	Proposed Threatened	Sensitive/Critical
<i>Oncorhynchus tshawytscha</i>	fall chinook salmon, south coast	Proposed Threatened	Sensitive/Critical
<i>Oncorhynchus tshawytscha</i>	spring chinook salmon, south coast	Proposed Threatened	--
<i>Oncorhynchus tshawytscha</i>	fall chinook salmon (Snake River) (to include Deschutes R)	Threatened	Threatened
<i>Oncorhynchus tshawytscha</i>	spring/summer chinook, Snake River	Threatened	Threatened
<i>Oncorhynchus tshawytscha</i>	spring chinook, upper Willamette R.	Proposed Threatened	--
<i>Oregonichthys crameri</i>	Oregon chub	Endangered	Sensitive/Critical
<i>Rhinichthys osculus</i> ssp.	Foskett speckled dace	Threatened	Threatened
<i>Salvelinus confluentus</i>	bull trout, Columbia River Basin	Proposed Threatened	Sensitive/Critical
<i>Salvelinus confluentus</i>	bull trout, Klamath River Basin	Proposed Endangered	Sensitive/Critical
Birds			
<i>Brachyramphus marmoratus</i>	marbled murrelet	Threatened	Threatened
<i>Branta canadensis leucopareia</i>	Aleutian Canada goose	Threatened	Endangered
<i>Charadrius alexandrinus nivosus</i>	western snowy plover (coastal)	Threatened	Threatened
<i>Charadrius alexandrinus nivosus</i>	western snowy plover (inland)	--	Threatened
<i>Falco peregrinus anatum</i>	American peregrine falcon	Endangered	Endangered
<i>Falco peregrinus tundrius</i>	Arctic peregrine falcon	--	Endangered
<i>Gymnogyps californianus</i>	California condor	Endangered (extirpated)	--
<i>Haliaeetus leucocephalus</i>	bald eagle	Threatened	Threatened
<i>Pelecanus occidentalis</i>	brown pelican	Endangered	Endangered
<i>Strix occidentalis caurina</i>	northern spotted owl	Threatened	Threatened
Mammals			
<i>Canis lupus</i>	gray wolf	Endangered (extirpated)	Endangered
<i>Enhydra lutris nereis</i>	southern sea otter	Threatened (extirpated)	Threatened
<i>Eumetopias jubatus</i>	Steller (=northern) sea-lion	Threatened	Sensitive/Vulnerable
<i>Gulo gulo</i>	wolverine	Species of Concern	Threatened
<i>Odocoileus virginianus leucurus</i>	Columbian white-tailed deer	Endangered	Sensitive/Vulnerable
<i>Ursus arctos</i>	grizzly bear	Threatened (extirpated)	--
<i>Vulpes macrotis</i>	kit fox	--	Threatened
Invertebrates			
<i>Branchinecta lynchi</i>	vernal pool fairy shrimp	Threatened	--
<i>Icaricia icarioides fenderi</i>	Fender's blue (butterfly)	Proposed Endangered	--
<i>Speyeria zerene hippolyta</i>	Oregon silverspot butterfly	Threatened	--

* Does not include sea turtles, whales or accidental species

FEDERAL ANIMAL CANDIDATES AND SPECIES OF CONCERN

Candidates

Oncorhynchus clarki clarki - sea-run cutthroat trout
Oncorhynchus kisutch - coho salmon, lower Columbia River
Oncorhynchus kisutch - coho salmon, Oregon coastal runs
Oncorhynchus mykiss - Klamath Mountains Province steelhead
Oncorhynchus mykiss - Oregon coastal steelhead
Rana luteiventris - Columbia spotted frog
Rana pretiosa - Oregon spotted frog
Lynx canadensis - Canada lynx

Fish Species of Concern

Acipenser medirostris - green sturgeon
Catostomus occidentalis lacusanserinus - Goose Lake sucker
Catostomus rimiculus ssp. - Jenny Creek sucker
Catostomus snyderi - Klamath largescale sucker
Cottus bairdi ssp. - Malheur mottled sculpin
Cottus marginatus - margined sculpin
Cottus tenuis - slender sculpin
Gila alvordensis - Alvord chub
Gila bicolor ssp. - Catlow tui chub
Gila bicolor ssp. - Summer Basin tui chub
Gila bicolor eurysoma - Sheldon tui chub
Gila bicolor oregonensis - Oregon Lakes tui chub
Lampetra ayresi - river lamprey
Lampetra tridentata - Pacific lamprey
Lampetra tridentata ssp. - Goose Lake lamprey
Lavinia (Hesperoleucus) symmetricus mitrulus - California roach
Oncorhynchus clarki lewisi - westslope cutthroat trout
Oncorhynchus mykiss ssp. - inland/interior redband trout
Oncorhynchus mykiss ssp. - Catlow Valley redband trout
Oncorhynchus mykiss ssp. - Goose Lake redband trout
Oncorhynchus mykiss ssp. - Warner Valley redband trout
Oregonichthys kalawatseti - Umpqua chub
Rhinichthys cataractae ssp. - Millicoma dace

Amphibian Species of Concern

Ascaphus truei - tailed frog
Plethodon elongatus - Del Norte salamander
Plethodon larselli - Larch Mountain salamander
Plethodon stormi - Siskiyou Mountains salamander
Rana aurora aurora - northern red-legged frog
Rana boylei - foothill yellow-legged frog
Rana cascadae - Cascades frog
Rhyacotriton variegatus - southern torrent (seep) salamander

Reptile Species of Concern

Clemmys marmorata marmorata - northwestern pond turtle
Sceloporus graciosus graciosus - northern sagebrush lizard

Bird Species of Concern

Accipiter gentilis - northern goshawk
Agelaius tricolor - tricolored blackbird
Athene cunicularia hypugea - western burrowing owl
Buteo regalis - ferruginous hawk
Centrocercus urophasianus phaios - western sage grouse
Chlidonias niger - black tern
Contopus cooperi (=borealis) - olive-sided flycatcher
Empidonax traillii brewsteri - little willow flycatcher
Histrionicus histrionicus - harlequin duck
Ixobrychus exilis hesperis - western least bittern
Plegadis chihi - white-faced ibis
Tympanuchus phasianellus columbianus - Columbian sharp-tailed grouse

Mammal Species of Concern

Arborimus (=Phenacomys) albipes - white-footed vole
Brachylagus idahoensis - pygmy rabbit
Corynorhinus (=Plecotus) townsendii palescens - Pale Townsend's (=western) big-eared bat
Corynorhinus (=Plecotus) townsendii townsendii - Pacific Townsend's (=western) big-eared bat
Euderma maculatum - spotted bat
Gulo gulo luteus - California wolverine
Martes pennanti pacifica - Pacific fisher
Myotis ciliolabrum - Small-footed myotis (bat)
Myotis evotis - long-eared myotis (bat)
Myotis thysanodes - fringed myotis (bat)
Myotis volans - long-legged myotis (bat)
Myotis yumanensis - Yuma myotis (bat)
Ovis canadensis californiana - California bighorn sheep
Sorex preblei - Preble's shrew
Spermophilus washingtoni - Washington ground squirrel
Thomomys mazama helleri - Gold Beach W. pocket gopher
Thomomys umbrinus (=bottae) detumidus - Pistol R. pocket gopher

Invertebrate Species of Concern

Acneus beeri - Beer's false water penny (beetle)
Acneus burnelli - Burnell's false water penny (beetle)
Agapetus denningi - Denning's agapetus caddisfly
Agonum belleri - Beller's ground beetle
Algamorda newcombiana - Newcomb's littorine snail
Anodonta californiensis - California floater (mussel)
Apatania (=Radema) tavala - Cascades apatanian caddisfly
Apochthonius malheuri - Malheur pseudoscorpion
Bombus franklini - Franklin's bumblebee
Ceraclea vertreesi - Vertrees's ceracleon caddisfly
Chloelalis aspasma - Siskiyou chloelalis grasshopper
Cryptochia neosa - Blue Mountains cryptochian caddisfly
Discus shimkei cockerelli - Cockerell's striate disc (snail)
Driloleirus (=Megascolides) macelfreshi - OR giant earthworm
Eobranchycentrus gelidae - Mt. Hood brachycentrid caddisfly
Farula davisii - Green Springs Mountain farulan caddisfly
Farula jewetti - Mt. Hood farulan caddisfly
Farula reapii - Tombstone Prairie farulan caddisfly
Fluminicola columbianus - Columbia pebblesnail
Goeracea oregona - Sagehen Creek goeracean caddisfly
Gomphus lynnae - Lynn's clubtail dragonfly
Homoplectra schuhi - Schuh's homoplectran caddisfly
Hydropsyche abella - Abellan hydropsyche caddisfly
Kenkia rhynchida - planarian, no common name
Lepidostoma goedeni - Goeden's lepidostoman caddisfly
Limnephilus atercus - Fort Dick limnephilus caddisfly
Monadenia fidelis minor - Dalles sideband snail
Nebria gebleri siskiyouensis - Siskiyou carabid beetle
Neothremma andersoni - Columbia Gorge neothremman caddisfly
Ochrotrichia phenosa - Deschutes ochrotrichian micro caddisfly
Ochrotrichia vertreesi - Vertrees's ochrotrichian micro caddisfly
Oligophlebodes mostbento - Tombstone Prairie caddisfly
Philocasca oron - Clatsop philocascan caddisfly
Pisidium ultramontanum - montane peaclam
Polites mardon - Mardon skipper butterfly
Pterostichus rothi - Roth's blind ground beetle
Rhyacophila colonus - O'Brien rhyacophilan caddisfly
Rhyacophila haddocki - Haddock's rhyacophilan caddisfly
Rhyacophila unipunctata - one-spot rhyacophilan caddisfly
Stygobromus hubbsi - Malheur Cave amphipod
Tinodes siskiyou - Siskiyou caddisfly
Zapada wahkeena - Wahkeena Falls flightless stonefly

ODFW SENSITIVE ANIMAL SPECIES LIST

Fish

Catostomus occidentalis lacusanserinus - Goose Lake sucker -C
Catostomus rimiculus ssp. - Jenny Creek sucker -P
Catostomus tahoensis - Tahoe sucker -P
Cottus bairdi ssp. - Malheur mottled sculpin -C
Cottus marginatus - margined sculpin -V
Cottus pitensis - Pit sculpin -P
Gila alvordensis - Alvord chub -V
Gila bicolor ssp. - Catlow tui chub -V
Gila bicolor ssp. - Summer Basin tui chub -C
Gila bicolor ssp. - Warner Basin tui chub -P
Gila bicolor eurysoma - Sheldon tui chub -C
Gila bicolor oregonensis - Oregon Lakes tui chub -V
Gila bicolor thalassina - Goose Lake tui chub -P
Lampetra tridentata - Pacific lamprey -V
Lampetra tridentata ssp. - Goose Lake lamprey -C
Lavinia (Hesperoleucus) symmetricus mitrulus - California (pit) roach -P
Oncorhynchus clarki clarki - coastal cutthroat trout; lower Columbia River anadromous runs -C
Oncorhynchus clarki clarki - coastal cutthroat trout; entire coast, below impassable natural barriers -V
Oncorhynchus clarki lewisi - westslope cutthroat trout -V
Oncorhynchus keta - chum salmon -C
Oncorhynchus kisutch - coho salmon -C
Oncorhynchus mykiss - coastal steelhead; entire coast -V
Oncorhynchus mykiss - coastal steelhead; lower Columbia River, including Hood River -C
Oncorhynchus mykiss - coastal steelhead; upper Willamette Basin, above Willamette Falls -C
Oncorhynchus mykiss ssp. - inland steelhead/redband trout; all groups east of Cascades -V
Oncorhynchus tshawytscha - fall chinook salmon, lower Columbia River runs below Bonneville -C
Oncorhynchus tshawytscha - fall chinook, south coast runs south of Bandon -C
Oregonichthys crameri - Oregon chub -C
Oregonichthys kalawatseti - Umpqua chub -V
Rhinichthys cataractae ssp. - Millicoma dace -P
Richardsonius egregius - Lahontan redband shiner -P
Salvelinus confluentus - bull trout -C

Amphibians

Ambystoma tigrinum melanostictum - blotched tiger salamander -U
Aneides ferreus - clouded salamander -U
Aneides flavipunctatus - black salamander -P
Ascaphus truei - tailed frog -V
Batrachoseps attenuatus - California slender salamander -P
Batrachoseps wrighti - Oregon slender salamander -U
Bufo boreas - western toad -V
Bufo woodhousii - Woodhouse's toad -P
Dicamptodon copei - Cope's giant salamander -U
Plethodon elongatus - Del Norte salamander -V
Plethodon larselli - Larch Mountain salamander -V
Plethodon stormi - Siskiyou Mountains salamander -V
Rana aurora - red-legged frog (WV) -V
Rana aurora - red-legged frog (CR, WC, KM) -U
Rana boylei - foothill yellow-legged frog -V
Rana cascadae - Cascades frog -V
Rana pipiens - northern leopard frog -C
Rana luteiventris - Columbia spotted frog -U

Rana pretiosa - Oregon spotted frog -C
Rhyacotriton cascadae - Cascade seep salamander -V
Rhyacotriton kezeri - Columbia seep salamander -C
Rhyacotriton variegatus - southern seep salamander -V

Reptiles

Chrysemys picta - painted turtle -C
Clemmys marmorata - western pond turtle -C
Contia tenuis - sharp-tail snake -V
Crotalus viridis - western rattlesnake (WV) -V
Crotaphytus insularis (bicinctores) - desert-collared lizard -V
Gambelia wislizenii - long-nose leopard lizard -U
Lampropeltis getula - common kingsnake -V
Lampropeltis zonata - California mountain kingsnake -V
Phrynosoma platyrhinos - desert horned lizard -V
Sceloporus graciosus - sagebrush lizard (CB) -V
Sonora semiannulata - western ground snake -P

Birds

Accipiter gentilis - northern goshawk -C
Aegolius funereus - boreal owl -U
Agelaius tricolor - tricolored blackbird -P
Ammodramus savannarum - grasshopper sparrow (CB) -V
Ammodramus savannarum - grasshopper sparrow (WV) -P
Amphispiza belli - sage sparrow (CB) -C
Amphispiza bilineata - black-throated sparrow -P
Athene (=Speotyte) cunicularia - burrowing owl (WV, KM, BM, HP, CB) -C
Bartramia longicauda - upland sandpiper -C
Bucephala albeola - bufflehead (breeding) -U
Bucephala islandica - Barrow's goldeneye (breeding) -U
Buteo regalis - ferruginous hawk -C
Buteo swainsoni - Swainson's hawk -V
Centrocercus urophasianus - sage grouse (EC, BM, CB) -V
Chordeiles minor - common nighthawk (WV) -C
Coccyzus americanus - yellow-billed cuckoo -C
Contopus cooperi (=borealis) - olive-sided flycatcher -V
Coturnicops noveboracensis - yellow rail -C
Cypseloides niger - black swift -P
Dolichonyx oryzivorus - bobolink -V
Dryocopus pileatus - pileated woodpecker -V
Egretta thula - snowy egret (breeding) -V
Empidonax adastus - willow flycatcher (EC, BM, BR, HP, OU, CB) -U
Empidonax brewsteri - willow flycatcher (CR, WV, KM, WC) -V
Eremophila alpestris strigata - streaked horned lark -C
Falcipecten (=Dendragapus) canadensis - spruce grouse -U
Glaucidium gnoma - northern pygmy owl (BM) -C
Grus canadensis tabida - greater sandhill crane -V
Histrionicus histrionicus - harlequin duck (breeding) -U
Icteria virens - yellow-breasted chat (WV) -C
Ixobrychus exilis - least bittern -P
Lanius ludovicianus - loggerhead shrike (HP, CB) -V
Larus pipixcan - Franklin's gull -P
Leucosticte atrata - black rosy finch (BR) -P
Melanerpes lewis - Lewis woodpecker (WV, KM, WC, EC, CB) -C
Numenius americana - long-billed curlew (CB) -V
Oceanodroma furcata - fork-tailed storm-petrel (breeding) -V
Oreortyx pictus - mountain quail (EC, BM, HP) -U

ODFW SENSITIVE ANIMAL SPECIES LIST (Cont.)

Otus flammeolus - flammulated owl -C
Pelecanus erythrorhynchos - American white pelican (breeding) -V
Picoides albolarvatus - white-headed woodpecker -C
Picoides arcticus - black-backed woodpecker -C
Picoides tridactylus - three-toed woodpecker -C
Podiceps auritus - horned grebe (breeding) -P
Podiceps grisegena - red-necked grebe (breeding) -C
Poocetes gramineus affinis - Oregon vesper sparrow -C
Progne subis - purple martin -C
Riparia riparia - bank swallow -U
Sialia mexicana - western bluebird (western Oregon) -V
Sitta pygmaea - pygmy nuthatch (BM) -C
Sitta pygmaea - pygmy nuthatch (KM, EC, HP) -V
Sphyrapicus thyroideus - Williamson's sapsucker -U
Strix nebulosa - great gray owl -V
Sturnella neglecta - western meadowlark (WV) -C

Mammals

Ammospermophilus leucurus - white-tailed antelope squirrel -U
Antrozous pallidus - pallid bat -V
Arborimus (=Phenacomys) albipes - white-footed vole -U
Bassariscus astutus - ringtail -U
Brachylagus idahoensis - pygmy rabbit -V
Corynorhinus (=Plecotus) townsendii - Townsend's big-eared bat -C
Eumetopias jubatus - northern (Steller) sea lion -V
Lasionycteris noctivagans - silver-haired bat -U
Lepus townsendii - white-tailed jackrabbit -U
Martes americana - marten -V
Martes pennanti - fisher -C
Myotis ciliolabrum - western small-footed bat -U
Myotis evotis - long-eared bat -U
Myotis thysanodes - fringed myotis (bat) -V
Myotis volans - long-legged bat -U
Odocoileus virginianus leucurus - Columbian white-tailed deer (CR) -V
Sciurus griseus - western gray squirrel -U
Spermophilus washingtoni - Washington ground squirrel -C

C = Critical

V = Vulnerable

P = Peripheral or Naturally Rare

U = Undetermined Status

BM = Blue Mountains

BR = Basin and Range

CB = Columbia Basin

CR = Coast Range

EC = East Cascades

HP = High Lava Plains

KM = Klamath Mountains

OU = Owyhee Uplands

WC = West Cascades

WV = Willamette Valley

(for further explanation of status, see pages 6 and 7. The Ecoregional map is on page 3)

LIST 1 (Threatened or Endangered Throughout Range)

Fish

- Catostomus warnerensis* - Warner sucker
Chasmistes brevirostris - shortnose sucker
Deltistes luxatus - Lost River sucker
Gila bicolor ssp. - Hutton tui chub
Gila bicolor ssp. - Summer Basin tui chub
Gila boraxobius - Borax Lake chub
Lampetra minima - Miller Lake lamprey
Oncorhynchus clarki ssp. - Alvord cutthroat trout
Oncorhynchus clarki clarki - Umpqua cutthroat trout
Oncorhynchus clarki henshawi - Lahontan cutthroat trout
Oncorhynchus clarki lewisi - westslope cutthroat trout
Oncorhynchus kisutch - coho salmon, lower Columbia R./ southwest Washington coast
Oncorhynchus kisutch - coho salmon, Oregon coastal runs north of Cape Blanco
Oncorhynchus kisutch - coho salmon, N. Calif./ S. Oregon south of Cape Blanco
Oncorhynchus mykiss - Klamath Mountains Province steelhead, south of Cape Blanco
Oncorhynchus mykiss - lower Columbia River steelhead
Oncorhynchus mykiss - Oregon Coast steelhead, north of Cape Blanco
Oncorhynchus mykiss - Snake River steelhead
Oncorhynchus nerka - sockeye salmon, Snake River runs
Oncorhynchus tshawytscha - fall chinook salmon, Snake River runs (to include Deschutes River)
Oncorhynchus tshawytscha - spring/summer chinook salmon, Snake River runs
Oncorhynchus tshawytscha - spring chinook salmon, upper Willamette River runs
Oregonichthys crameri - Oregon chub
Rhinichthys osculus ssp. - Foskett speckled dace
Salvelinus confluentus - bull trout, Columbia River Basin
Salvelinus confluentus - bull trout, Klamath River Basin

Amphibians

- Rana pretiosa* - Oregon spotted frog

Birds

- Brachyramphus marmoratus* - marbled murrelet
Branta canadensis leucopareia - Aleutian Canada goose
Charadrius alexandrinus nivosus - western snowy plover (coastal populations)
Falco peregrinus anatum - American peregrine falcon
Gymnogyps californianus - California condor
Haliaeetus leucocephalus - bald eagle
Strix occidentalis caurina - northern spotted owl
Tympanuchus phasianellus columbianus - Columbian sharp-tailed grouse

Mammals

- Odocoileus virginianus leucurus* - Columbian white-tailed deer
Ursus arctos - grizzly bear

Invertebrates

- Acetropis americana* - American acetropis grass bug
Algamorda newcombiana - Newcomb's littorine snail
Anodonta wahlametensis - Willamette floater (mussel)
Apochthonius malheuri - Malheur pseudoscorpion
Bombus franklini - Franklin's bumblebee
Branchinecta lynchi - vernal pool fairy shrimp
Cicindela columbica - Columbia River tiger beetle
Cryptomastix hendersoni - Columbia Gorge oregonian (snail)
Cryptomastix populi - Hell's Canyon land snail
Cryptomastix sp. nov. - disc oregonian (snail)
Deroceras hesperium - evening fieldslug
Driloleirus (=Megascolides) macelfreshi - Oregon giant earthworm
Euphydryas editha taylori - Taylor's checkerspot butterfly
Fluminicola turbiniformis - turban pebblesnail
Fluminicola sp. nov. - Casebeer pebblesnail
Fluminicola sp. nov. - Crooked Creek pebblesnail
Fluminicola sp. nov. - diminutive pebblesnail
Fluminicola sp. nov. - Fall Creek pebblesnail
Fluminicola sp. nov. - Keene Creek pebblesnail
Fluminicola sp. nov. - Klamath pebblesnail
Fluminicola sp. nov. - Klamath Rim pebblesnail
Fluminicola sp. nov. - Lake of the Woods pebblesnail
Fluminicola sp. nov. - Lost River pebblesnail
Fluminicola sp. nov. - Malheur pebblesnail
Fluminicola sp. nov. - Metolius pebblesnail
Fluminicola sp. nov. - Nerite pebblesnail
Fluminicola sp. nov. - Odessa pebblesnail
Fluminicola sp. nov. - Ouxy Spring pebblesnail
Fluminicola sp. nov. - tall pebblesnail
Fluminicola sp. nov. - tiger lily pebblesnail
Fluminicola sp. nov. - toothed pebblesnail
Fluminicola sp. nov. - Tuscan pebblesnail
Fluminicola sp. nov. - Wood River pebblesnail
Grylloblatta sp. nov. - Mary's Peak ice cricket
Helisoma (Carinifex) newberryi newberryi - Great Basin ramshorn (snail)
Helminthoglypta hertleini - Oregon shoulderband (snail)
Hemphillia malonei - Malone jumping-slug
Hochbergellus hirsutus - Sisters hesperian (snail)
Icaricia icarioides fenderi - Fender's blue butterfly
Juga acutifilosa - scalloped juga (snail)
Juga bulbosa - bulb juga (snail)
Juga hemphilli ssp. nov. - Indian Ford juga (snail)
Jula hemphilli dallesensis - Dalles juga (snail)
Juga hemphilli hemphilli - barren juga (snail)
Juga hemphilli maupinensis - purple-lipped (=Deschutes) juga (snail)
Juga sp. nov. - basalt juga (snail)
Juga sp. nov. - Blue Mountains juga (snail)
Juga sp. nov. - Crooked River juga (snail)
Juga sp. nov. - Opal Springs juga (snail)
Juga sp. nov. - purple juga (snail)
Lanx klamathensis - scale lanx (snail)
Lanx subrotundata - rotund lanx (snail)
Lyogyrus sp. nov. - Blue Mountains duskysnail
Lyogyrus sp. nov. - Columbia duskysnail
Lyogyrus sp. nov. - Klamath duskysnail

Lyogyrus sp. nov. - Link River duskysnail
Lyogyrus sp. nov. - mare's egg duskysnail
Lyogyrus sp. nov. - nodose duskysnail
Megomphix hemphilli - Oregon megomphix (snail)
Micracanthia fennica - Harney Hot Spring shore bug
Monadenia fidelis sp. nov. - Deschutes sideband (snail)
Monadenia fidelis beryllica - green sideband (snail)
Monadenia fidelis celeuthia - travelling sideband (snail)
Monadenia fidelis columbiana - Columbia sideband (snail)
Monadenia fidelis minor - Oregon snail (Dalles sideband)
Monadenia sp. nov. - Modoc sideband (snail)
Neothremma andersoni - Columbia Gorge caddisfly
Ogaridiscus subrupicola - southern tightcoil (snail)
Oncopodura mala - Malheur Cave springtail
Oreohelix variabilis - Dalles mountainsnail
Oreohelix variabilis subsp. nov. - Deschutes mountainsnail
Physella columbiana - rotund physa (snail)
Physella sp. nov. - hot spring physa (snail)
Pisidium ultramontanum - montane peaclam
Pisidium sp. nov. - Modoc peaclam
Planorbella oregonensis - Borax Lake ramshorn snail
Plebejus saepiolus insulanus - insular blue butterfly
Pristiloma arcticum crateris - Crater Lake tightcoil (snail)
Pterostichus rothi - Roth's blind ground beetle

Pyrgulopsis archimedes - Archimedes springsnail
Pyrgulopsis hendersoni - Harney Lake springsnail
Pyrgulopsis intermedia - Crooked Creek springsnail
Pyrgulopsis sp. nov. - Big Spring springsnail
Pyrgulopsis sp. nov. - Columbia springsnail
Pyrgulopsis sp. nov. - Klamath Lake springsnail
Pyrgulopsis sp. nov. - Lake Abert springsnail
Pyrgulopsis sp. nov. - Malheur springsnail
Pyrgulopsis sp. nov. - Owyhee hot springsnail
Pyrgulopsis sp. nov. - XL springsnail
Rhyacophila colonus - Obrien rhyacophilan caddisfly
Speyeria callippe ssp. - Willamette callippe butterfly
Speyeria zerene hippolyta - Oregon silverspot butterfly
Vespericola columbianus depressa - Columbia Gorge hesperian (snail)
Vespericola sp. nov. - Oak Springs hesperian (snail)
Vorticifex effusus dalli - Dall's ramshorn (snail)
Vorticifex effusus diagonalis - lined ramshorn (snail)
Vorticifex klamathensis klamathensis - Klamath ramshorn (snail)
Vorticifex klamathensis sinitsini - Sinitsin ramshorn (snail)
Zapada (=Neomura) wahkeena - Wahkeena Falls flightless stonefly

LIST 2 (Threatened, Endangered or Extirpated from Oregon, Secure Elsewhere)

Fish

Catostomus occidentalis lacusanserinus - Goose Lake sucker
Catostomus tahoensis - Tahoe sucker
Cottus pitensis - Pit sculpin
Gila alvordensis - Alvord chub
Gila bicolor eurysoma - Sheldon tui chub
Oncorhynchus keta - chum salmon, coastal runs
Oncorhynchus keta - chum salmon, lower Columbia River
Richardsonius egregius - Lahontan redband shiner

Amphibians

Aneides flavipunctatus - black salamander
Batrachoseps attenuatus - California slender salamander
Dicamptodon copei - Cope's giant salamander
Plethodon larselli - Larch Mountain salamander
Plethodon stormi - Siskiyou Mountains salamander
Rana pipiens - northern leopard frog

Reptiles

Chrysemys picta - painted turtle
Clemmys marmorata marmorata - northwestern pond turtle

Birds

Agelaius tricolor - tricolored blackbird
Barramia longicauda - upland sandpiper
Bucephala albeola - bufflehead
Centrocercus urophasianus phaios - western sage grouse (northeast populations)
Charadrius alexandrinus nivosus - western snowy plover (interior populations)
Coccyzus americanus - yellow-billed cuckoo
Coturnicops noveboracensis - yellow rail

Egretta thula - snowy egret
Falco columbarius - merlin
Gavia immer - common loon
Histrionicus histrionicus - harlequin duck
Ixobrychus exilis hesperis - western least bittern
Larus pipixcan - Franklin's gull
Leucosticte tephrocotis wallowa - Wallowa rosy finch
Oceanodroma furcata - fork-tailed storm-petrel
Pelecanus erythrorhynchos - American white pelican
Pelecanus occidentalis - brown pelican
Podiceps grisegena - red-necked grebe

Mammals

Brachylagus idahoensis - pygmy rabbit
Canis lupus - gray wolf
Corynorhinus (=Plecotus) townsendii townsendii - Pacific western big-eared bat
Enhydra lutris nereis - southern sea otter
Euderma maculatum - spotted bat
Gulo gulo luteus - California wolverine
Lynx canadensis - Canada lynx
Martes pennanti pacifica - Pacific fisher
Spermophilus elegans nevadensis - Wyoming ground squirrel
Spermophilus washingtoni - Washington ground squirrel
Tadarida brasiliensis - Brazilian free-tailed bat
Vulpes macrotis - kit fox

LIST 2 (continued)

Invertebrates

Agonum belleri - Beller's ground beetle
Boloria bellona toddi - eastern meadow fritillary butterfly
Boloria selene tollandensis - silver-bordered fritillary butterfly
Derephysia foliacea - foliaceous lace bug
Fisherola nuttalli - shortface lanx (=giant Columbian River limpet)
Hebrus buenoi - Bueno's boreostolus hebrus (bug)
Hemphillia glandulosa - warty jumping-slug
Incisalia polia obscura - hoary elfin butterfly
Juga sp. nov. - brown juga (snail)
Juga sp. nov. - three-band juga (snail)
Lanx alta - highcap lanx (snail)
Lygus oregonae - Oregon lygus bug

Ochlodes yuma - Yuma skipper butterfly
Oreohelix sp. nov. - Hells Canyon mountainsnail
Phyciodes pallida barnesi - Barnes' crescent butterfly
Physa megalochlamys - large-mantle physa (snail)
Polites mardon - Mardon skipper butterfly
Polites mystic - long dash skipper butterfly
Prophysaon coeruleum - blue-grey tail-dropper (slug)
Prophysaon dubium - papillose tail-dropper (slug)
Saldula villosa - hairy shore bug
Speyeria coronis coronis - Coronis fritillary butterfly
Speyeria zerene bremneri - valley silverspot butterfly
Vanduzeeina borealis californica - California scutellerid (bug)
Vespericola sierranus - Siskiyou hesperian (snail)

LIST 3 (Review)

Fish

Acipenser medirostris - green sturgeon
Catostomus rimiculus ssp. - Jenny Creek sucker
Catostomus snyderi - Klamath largescale sucker
Cottus bairdi ssp. - Malheur mottled sculpin
Cottus marginatus - margined sculpin
Cottus princeps - Klamath Lake sculpin
Cottus tenuis - slender sculpin
Gila bicolor ssp. - Catlow tui chub
Gila bicolor ssp. - Warner Basin tui chub
Gila bicolor oregonensis - Oregon Lakes tui chub
Gila bicolor thalassina - Goose Lake tui chub
Lampetra tridentata - Pacific lamprey
Lampetra tridentata ssp. - Goose Lake lamprey
Lavinia (Hesperoleucus) symmetricus mitrulus - California (pit) roach
Oncorhynchus clarki clarki - coastal cutthroat trout, coastal anadromous runs
Oncorhynchus clarki clarki - coastal cutthroat trout, lower Columbia River runs
Oncorhynchus mykiss - middle Columbia River steelhead
Oncorhynchus mykiss - upper Willamette River steelhead
Oncorhynchus mykiss ssp. - inland/interior redband trout
Oncorhynchus mykiss ssp. - Catlow Valley redband trout
Oncorhynchus mykiss ssp. - Goose Lake redband trout
Oncorhynchus mykiss ssp. - Jenny Creek redband trout
Oncorhynchus mykiss ssp. - Warner Valley redband trout
Oncorhynchus tshawytscha - fall chinook salmon, lower Columbia River runs below Bonneville
Oncorhynchus tshawytscha - fall chinook salmon, south coast
Oncorhynchus tshawytscha - spring chinook, south coast
Oregonichthys kalawatseti - Umpqua chub
Rhinichthys cataractae ssp. - Millicoma dace

Amphibians

Aneides ferreus - clouded salamander
Ascaphus truei - tailed frog
Batrachoseps wrighti - Oregon slender salamander
Bufo boreas - western toad
Bufo woodhousii - Woodhouse's toad
Plethodon elongatus - Del Norte salamander

Rana aurora aurora - northern red-legged frog
Rana boylei - foothill yellow-legged frog
Rana cascadae - Cascades frog
Rana luteiventris - Columbia spotted frog
Rhyacotriton cascadae - Cascade seep salamander
Rhyacotriton kezeri - Columbia seep salamander
Rhyacotriton variegatus - southern seep salamander
Taricha granulosa mazama - Crater Lake newt

Reptiles

Crotaphytus bicinctores - Mojave black-collared lizard
Lampropeltis getula - common kingsnake
Lampropeltis zonata - California mountain kingsnake
Phrynosoma platyrhinos - desert horned lizard
Sonora semiannulata - western ground snake

Birds

Accipiter gentilis - northern goshawk
Aegolius funereus - boreal owl
Ammodramus savannarum - grasshopper sparrow
Amphispiza bilineata - black-throated sparrow
Ardea alba - great egret
Athene cucularia hypugea - western burrowing owl
Buteo regalis - ferruginous hawk
Buteo swainsoni - Swainson's hawk
Centrocercus urophasianus phaios - western sage grouse (southeast populations)
Chlidonias niger - black tern
Contopus cooperi (=borealis) - olive-sided flycatcher
Cypseloides niger - black swift
Elanus leucurus - white-tailed kite
Empidonax traillii brewsteri (=E. brewsteri) - little willow flycatcher (western Oregon)
Eremophila alpestris strigata - streaked horned lark
Falcapennis (=Dendragapus) canadensis - spruce grouse
Gymnorhinus cyanocephalus - pinyon jay
Leucosticte atrata - black rosy finch
Melanerpes formicivorus - acorn woodpecker
Melanerpes lewis - Lewis' woodpecker
Picoides albolarvatus - white-headed woodpecker
Pinicola enucleator - pine grosbeak

Poliophtila caerulea - blue-gray gnatcatcher
Poocetes gramineus affinis - Oregon vesper sparrow
Progne subis - purple martin
Ptychoramphus aleuticus - Cassin's auklet
Seiurus noveboracensis - northern waterthrush
Selasphorus platycercus - broad-tailed hummingbird
Sphyrapicus thyroideus - Williamson's sapsucker
Sterna forsteri - Forster's tern

Mammals

Ammospermophilus leucurus - white-tailed antelope squirrel
Antrozous pallidus - Pacific pallid bat
Arborimus (= *Phenacomys*) *albipes* - white-footed vole
Bassariscus astutus - ringtail
Corynorhinus (= *Plecotus*) *townsendii pallescens* - pale western big-eared bat
Eumetopias jubatus - northern sea lion
Lasionycteris noctivagans - silver-haired bat
Lepus townsendii - white-tailed jackrabbit
Martes americana - American marten
Myotis ciliolabrum - western small footed bat
Myotis thysanodes - fringed bat
Myotis volans - long-legged bat
Sciurus griseus - western gray squirrel
Sorex preblei - Preble's shrew

Invertebrates

Acalypta cooleyi - Cooley's acalypta lace bug
Acalypta lillianis - lillianis moss bug
Acupalpus punctulatus - marsh ground beetle
Agapetus denningi - Denning's agapetus caddisfly
Agriades glandon podarce - gray-blue butterfly
Amerigoniscus malheurensis - Malheur isopod
Anodonta californiensis - California floater (mussel)
Apatania (= *Radema*) *tavala* - Cascades apatanian caddisfly
Atrabonotus umbrinus - Umbrose seed bug
Bembidion tigrinum - cryptic beach carabid beetle
Boreostolus americanus - American boreostolus
Cardiastethus borealis - boreal cardiastethus pirate bug
Ceraclea vertreesi - Vertree's ceracleon caddisfly
Ceratocapsus oregana - Oregon acetropsis bug
Chloealetis aspasma - Siskiyou chloealetis grasshopper
Chorosoma sp. nov. - western chorosoma
Chrysobothris potentillae - potentilla root borer beetle
Cincindela hirticollis siuslawensis - Siuslaw sand tiger beetle
Colias occidentalis chrysomelas - western sulphur butterfly
Criocoris saliens - salien plant bug
Cryptochia neosa - Blue Mountains cryptochian caddisfly
Cryptomastix devia - Puget oregonian (snail)
Dendrocoris arizonensis - dendrocoris stink bug
Discus shimaki - Cockerell's striated disc (snail)
Eobrachycentrus gelidae - Mt. Hood brachycentrid caddisfly
Eurychlopterella sp. nov. - Oregon trunk-inhabiting plant bug
Eusattus reclus - sandbar darkening beetle
Farula davisi - Green Springs Mountain farulan caddisfly
Farula jewetti - Mt. Hood farulan caddisfly
Farula reaperi - Tombstone Prairie farulan caddisfly
Fluminicola columbiana (= *F. fuscus*) - Columbia pebblesnail (= great Columbia River spire snail)
Goeracea oregona - Sagehen Creek goeracean caddisfly
Gomphus kurilis - California clubtail dragonfly

Gomphus lynnae - Lynn's clubtail dragonfly
Gonidea angulata - western ridgemussel
Halticotoma sp. nov. - Oregon halitocoma plant bug
Hesperocimex coloradensis - Colorado hesperocimex
Hesperotingis sp. nov. - Klamath Marsh hesperotingis
Homoplectra schuhi - Schuh's homoplectran caddisfly
Hoplistoscelis heidemanni - Heidemann's nabid (bug)
Hydrometra martini - Martin's water-measurer
Hydroporus corvallis - Corvallis diving beetle
Hydropsyche abella - Abellan hydropsyche caddisfly
Kenkia rhynchida - planarian, no common name
Lepidostoma geodeni - Goeden's lepidostoman caddisfly
Limnephilus atercus - Fort Dick limnephilus caddisfly
Lycaena mariposa ssp. - Siskiyou copper butterfly
Macrotylus essigi - Essig's macrotylus plant bug
Malezonotus obrieni - Ashlock-Obrien's seed bug
Malthodes glyphidius - Malheur soldier beetle
Margaritifera falcata - western pearlshell
Megomphix leutarius - Umatilla megomphix (snail)
Mesocelia mulsanti - Mulsant's small water strider
Microranathia schuhi - Schuh's microranathia shore bug
Nabacula propinqua - marsh nabid (bug)
Nabacula subcoleoptera - black nabid (bug)
Nebria gebleri siskiyouensis - Siskiyou gazelle beetle
Nebria jeffreyi - Jeffrey's carabid beetle
Nebria labonteii - Labonte's carabid beetle
Nebria piperi - Piper's carabid beetle
Nebria steensensis - Steens Mountain carabid beetle
Nebria vandykei wyeast - Wyeast's carabid beetle
Nebria wallowae - Wallowa Mountains carabid beetle
Neominois ridingsii stretchii - Stretch's satyr butterfly
Oarisma garita - Garita skipper butterfly
Ochrotrichia alsea - Alsea ochrotrichian micro caddisfly
Ochrotrichia phenosa - Deschutes ochrotrichian microcaddisfly
Ochrotrichia vertreesi - Vertree's ochrotrichian microcaddisfly
Oligotrichia bodes mostbento - Tombstone Prairie microcaddisfly
Orectoderus schuhi - Schuh's orectoderus plant bug
Oreohelix strigosa delicata - Blue mountainsnail
Ostrea lurida - native oyster
Philocasca oron - Clatsop philocascan caddisfly
Philotiella speciosa - small blue butterfly
Pinalitus solivagus - true fir pinalitus
Platylygus pseudotsugae - Douglas-fir platylygus
Polites coras - Peck's skipper butterfly
Polygyrella polygyrella - humped coin (snail)
Polymerus castilleja - Indian paintbrush polymerus
Pristiloma wascoense - shiny tightcoil (snail)
Pristinicola (= *Bythinella*) *hemphilli* - pristine springsnail
Pronotocrepis clavicornis - thick antennaed current bug
Radiodiscus abietum - fir pinwheel (snail)
Rhyacophila haddocki - Haddock's rhyacophilan caddisfly
Rhyacophila unipunctata - one-spot rhyacophilan caddisfly
Satyrium auretteum - gold-hunter's hairstreak butterfly
Sixeonotus sp. nov. - Oregon sixeonotus plant bug
Stygobromus hubbsi - Malheur Cave amphipod
Stygobromus oregonensis - Oregon Cave amphipod
Teratocoris paludum - pale teratocoris sedge bug
Tinodes siskiyou - Siskiyou caddisfly
Vorticifex neritoides - nerite ramshorn (snail)

LIST 4 (Watch)

Fish

Lampetra ayresi - river lamprey
Lampetra lethophaga - Pit-Klamath brook lamprey

Amphibians

Ambystoma tigrinum melanostictum - blotched tiger salamander

Reptiles

Contia tenuis - sharptail snake
Crotalus viridis - western rattlesnake
Gambelia wislizenii - long-nose leopard lizard
Sceloporus graciosus graciosus - northern sagebrush lizard

Birds

Amphispiza belli - sage sparrow
Branta canadensis occidentalis - dusky Canada goose
Bucephala islandica - Barrow's goldeneye
Chordeilus minor - common nighthawk
Dolichonyx oryzivorus - bobolink
Dryocopus pileatus - pileated woodpecker
Empidonax traillii brewsteri (= *E. adastus*) - willow flycatcher (eastern Oregon)
Glaucidium gnoma - northern pygmy owl
Grus canadensis tabida - greater sandhill crane
Icteria virens - yellow-breasted chat
Lanius ludovicianus - loggerhead shrike
Numenius americanus - long-billed curlew
Oreortyx pictus - mountain quail
Otus flammeolus - flammulated owl
Picoides arcticus - black-backed woodpecker

Picoides tridactylus - three-toed woodpecker
Plegadis chihi - white-faced ibis
Podiceps auritus - horned grebe
Riparia riparia - bank swallow
Sayornis nigricans - black phoebe
Selasphorus sasin - Allen's hummingbird
Sialia mexicana - western bluebird
Sitta pygmaea - pygmy nuthatch
Strix nebulosa - great gray owl
Sturnella neglecta - western meadowlark
Tringa melanoleuca - greater yellowlegs
Tringa solitaria - solitary sandpiper

Mammals

Myotis evotis - long-eared bat
Myotis yumanensis - Yuma bat
Ovis canadensis californiana - California bighorn sheep
Ovis canadensis canadensis - Rocky Mt. bighorn sheep

Invertebrates

Acneus beeri - Beer's false water penny beetle
Acneus burnelli - Burnell's false water penny beetle
Archilestes californica - California giant damselfly
Lycaena phlaeas arctodon - beartooth copper butterfly
Nebria gebleri fragariae - Strawberry Mountains carabid beetle
Ochlodes agricola agricola - rural skipper butterfly
Pterostichus johnsoni - Johnson's waterfall carabid beetle
Rhyacophila fenderi - Fender's rhyacophilan caddisfly
Scaphinotus hatchi - Hatch's snail-eating carabid beetle
Tanypteryx hageni - montane bog dragonfly

Fish

Catostomus microps - Modoc sucker
Lampetra richardsoni - western brook lamprey
Ptychocheilus umpqua - Umpqua squawfish
Rhinichthys evermanni - Umpqua dace

Reptiles

Coluber constrictor - racer
Hypsiglena torquata - night snake
Masticophis taeniatus - striped whipsnake
Phrynosoma douglassii - short-horned lizard

Birds

Aegolius acadicus - saw-whet owl
Anser albifrons elgasi - tule white-fronted goose
Anthus spinoletta - water pipit
Aphelocoma coerulescens nevadae - Nevada scrub jay
Aphelocoma coerulescens oocleptica - Nicasio scrub jay
Archilochus alexandri - black-chinned hummingbird
Aythya affinis - lesser scaup
Aythya collaris - ring-necked duck
Branta canadensis minima - cackling Canada goose
Bubulcus ibis - cattle egret
Catharus fuscescens - veery
Chaetura vauxi - Vaux's swift
Cerorhinca monocerata - rhinoceros auklet
Charadrius semipalmatus - semipalmated sandpiper
Cygnus buccinator - trumpeter swan
Dumetella carolinensis - gray catbird
Empidonax alnorum - alder flycatcher
Empidonax minimus - least flycatcher
Falco rusticolus - gyrfalcon
Haematopus bachmani - black oystercatcher
Himantopus mexicanus - black-necked stilt
Parus inornatus zaleptus - Warner Valley titmouse
Phalaenoptilus nuttallii californicus - California dusky poorwill
Setophaga ruticilla - American redstart
Sialia currucoides - mountain bluebird
Spizella atrogularis - black-chinned sparrow
Sterna caspia - Caspian tern
Strix varia - barred owl
Thryomanes bewickii atrestrus - Warner Valley Bewick's wren
Tyto alba - barn owl

Mammals

Arborimus longicaudus - red tree vole
Bison bison athabasca - wood bison
Mirounga angustirostris - northern elephant seal
Ochotona princeps taylori - Taylor's pika
Perognathus longimembris - little pocket mouse
Sorex merriami - Merriam's shrew
Sorex trigonirostris - Ashland shrew
Thomomys bottae detumidus - Pistol River pocket gopher
Thomomys bottae laticeps - Pacific pocket gopher
Thomomys mazama helleri - Gold Beach pocket gopher
Thomomys mazama hesperus - pocket gopher
Thomomys mazama niger - pocket gopher

Invertebrates

Aegialites californicus - seacliff beetle
Brachypanorpa montanum - mountain scorpionfly
Ceuthophilus (=Centrophilus) perplexus - camel cricket
Charidryas acastus dorotheae - Dorothy's acastus checkerspot butterfly
Colias pelidne skinneri - Skinner's sulphur
Cryptocercus punctulatus - wood roach
Cychrus rickseckeri - Ricksecker's snail-eating carabid beetle
Dolophilodes oregona - Oregon dolophilodes caddisfly
Fluminicola seminalis - vagrant pebblesnail
Fluminicola sp. nov. - Three Forks pebblesnail
Haliotis rufescens - red abalone
Juga sp. nov. - striped juga (snail)
Lanx patelloides - kneecap lanx
Lepidostoma fischeri - Fischer's lepidostoman caddisfly
Limnephilusalconura - Klamath limnephilan caddisfly
Lyogyrus sp. nov. - topaz duskysnail
Nebria gyllenhali lassenensis - Mount Lassen carabid beetle
Nebria paradisi - Paradise carabid beetle
Physella sp. nov. - Borax Lake physellid snail (=P. gyrina)
Pyrgulopsis sp. nov. - Three Forks springsnail
Trimerotropis helferi - Helfer's trimerotropis
Triodopsis populi - Hell's Canyon land snail

SPECIAL PLANTS AND FUNGI

This plant list is an update of the 1995 edition of this book. All status changes for specific taxa reflect new information obtained since then. Both the format, definitions and categories of the lists are identical to the previous edition. The main body of the text is an alphabetical listing of all taxa on all the lists. Descriptions of the categories and lists can be found in the Introduction on page 2. State distribution is included for all taxa in this edition.

At the end of the main list, the various taxa included are listed again by status. These include a) The USFWS Listed, Candidate and Species of Concern lists; b) The ODA Candidate List with state listed taxa; c), List 1; d) List 2; e) List 3; f) List 4; and g) Taxa Considered but Rejected. Details on these lists are included below.

List 1 contains taxa which are endangered or threatened throughout their range or which are presumed extinct. The status of taxa on this list represents its status throughout its range. Species which are extirpated from Oregon are included with an -ex after the List number (1-ex). Taxa known or thought to be extinct throughout their range have an -X following the list number (1-X).

List 2 contains species which are threatened, endangered or possibly extirpated from Oregon, but are stable or more common elsewhere. Taxa extirpated from Oregon are included with an -ex after the List number (2-ex).

List 3 contains species for which more information is needed before status can be determined, but which may be threatened or endangered in Oregon or throughout their range.

List 4 contains taxa of concern which are not currently threatened or endangered. It includes taxa which are very rare but are currently secure, as well as taxa which are declining in numbers or habitat but are still too common to be proposed as threatened or endangered.

Included in the text as Considered but Rejected, are taxa which have been dropped since the 1993 edition. An entire list of Taxa Considered but Rejected is included as the last List in the plant section. These taxa have been dropped for one of three reasons, which are specified following each taxon's name: 1) they have taxonomic problems serious enough to warrant exclusion from the list -T; 2) they are considered at present to be too common or secure to warrant inclusion on this list -C; or 3) they were originally included on one of the lists because they were suspected to occur in the state, but were dropped because they have never been documented in Oregon -N.

In the vascular plants lists, we have made an effort to include the variety or subspecies which occurs in Oregon. Often this may be the only variety or subspecies from the state, and in the past these may have been included without a sub-specific or varietal name. In this edition, these taxa have been included with a diamond (◇) following the scientific name. ORNHP would like information regarding any occurrences of other subspecies or varieties of these taxa found in Oregon.

All of the fungi in the lists except for one are new and have therefore been placed on the Review List (List 3). These species are from recent work, which included extensive herbaria searches and fieldwork, by the U.S. Forest Service and Oregon State University staff. The heritage ranks are the best determination of their status, and we hope their inclusion on here will stimulate more research and survey, since many of these taxon may be among Oregon's rarest. A number of these taxa will likely be moved to List 1 or 2 at the end of the year when the next update to this list is prepared. Check the ORNHP Internet Home Page (www.abi.org/nhp/us/or/) to find the updates in January, 1999.

ORNHP is interested in obtaining and computerizing all location data for taxa on Lists 1 and 2. Manual files are maintained for those on List 3 and 4. It is critical that additional information be obtained for List 3 taxa so accurate status determinations can be made. Information on status or occurrences of any species included would be appreciated. Distribution information is based on historical and current reports and is included to aid in searches and to increase knowledge of these taxa.

The Oregon Checklist and Flora project, and the publication of new regional floras (the Jepson and Intermountain Flora) has resulted in a number of recent name changes, which have been included in this version. Whenever possible, we have used names and authorities provided by the Oregon Checklist Project at the Oregon State University herbarium. More information on this project is included on the following page.

State Endangered Plant Protection

Oregon Department of Agriculture
Plant Conservation Biology Program
Department of Botany and Plant Pathology
Oregon State University, 2082 Cordley Hall,
Corvallis, OR 97331-2902

Robert J. Meinke, Program Leader
Assistant Professor of Botany
(541) 737-2317

Thomas N. Kaye, Monitoring Specialist
Herbarium Research Associate
(541) 737-2346

Steven D. Gisler, Conservation Biologist
(541) 737-4420

In 1987, the Oregon Legislature passed Senate Bill 533 (unofficially the "*Oregon Endangered Species Act*") at the urging of the Native Plant Society of Oregon and others in the state's botanical community. This bill, and its accompanying statutes (ORS 564.100-564.135), direct the state Department of Agriculture (ODA) to maintain a strong program to conserve and protect native plant species threatened or endangered with extinction. The Endangered Species Program (now integrated into the Plant Conservation Biology Program in ODA's Natural Resources Division) was initiated in 1988.

With the exception of ODA's ability to regulate the import, export, and commercial trafficking of threatened and endangered plants (under ORS 564.120), the state's conservation authority concerning these species currently extends only to state-owned or state-leased lands. The statutes do not require private or federal land owners to safeguard species protected by state law, although ODA is willing to work with the owners or managers of these lands in conservation efforts if they request help. There continues to be excellent cooperation with federal agencies concerning the management of the 61 species currently listed as threatened and endangered by the State of Oregon. In addition, ODA contributes to the study and evaluation of many other candidate and sensitive taxa. These types of studies, focusing on systematics, reproductive biology, and demography (i.e., monitoring research), provide data that support or refute the state listing of candidate and sensitive taxa. Such biologically-based projects are critical for accurate status determinations of many rare species, and have contributed to the recent addition of 42 species to the state threatened and endangered list in July, 1995.

ODA has adopted administrative rules (OAR 603-73-001 through 603-73-110) that specify procedures pursuant to

the listing, reclassification, or delisting of plant species by the state as threatened or endangered; the development of regulations and programs intended to assist and direct state land management agencies in their important roles involving native plant protection; and the initiation of a system of permits for transplanting, reintroduction, scientific study, or collection of threatened or endangered plants. Any person or organization engaging in the collection, transplantation, reintroduction, or other studies of listed species must register with, and receive a permit from, ODA. If you are interested in reading the latest laws and regulations governing threatened and endangered plant studies and management requirements in Oregon, write to ODA and ask for a copy of the endangered species administrative rules revised in 1995 (address requests to the Natural Resources Division, Oregon Department of Agriculture, 635 Capitol Street NE, Salem, OR 97310-0110.)

Since 1991, the ODA Plant Conservation Biology Program has developed a joint research agreement with Oregon State University, and much of the ODA program activities are based at OSU. With the recent acquisition of the University of Oregon Herbarium, OSU is now the center of taxonomic research in the state. The ODA program provides collaborative opportunities for state scientists, faculty, and graduate students concerned with plant rarity and endangerment issues to work together towards common goals. Anyone interested in learning more about ODA's role in plant conservation, or graduate studies in this topic at OSU should contact Bob Meinke.

Native Plant Society of Oregon (NPSO) Plant Protection and Education Programs

NPSO has had a long history of working towards the protection of rare plants in Oregon. From involvement in the original Oregon Rare and Endangered Plant Project from 1972-1982 to work on passage of the Oregon Endangered Species Act, NPSO members have been at the forefront of plant conservation in Oregon.

In addition to sponsoring and supporting endangered species legislation, NPSO carries on its own rare plant protection program. Members in 11 chapters across the state monitor rare plants in each area, and report findings to the state R&E chair. This information is then incorporated into ORNHP's databases. In addition, each chapter has an active schedule of programs, workshops and field trips. New members are always welcome.

For information write to:

Membership Chair, NPSO
2584 NW Savier St.
Portland, OR 97210

Since the passage of the federal Endangered Species Law in 1973, great strides have been made in Oregon to understand and protect our state's rare plants. Starting two decades ago with the visionary efforts of Kenton Chambers and Jean Siddall, hundreds of individuals and organizations have taken part and still take part in this important effort. The book you hold in your hand represents the combined efforts of these Oregonians who have worked together for many years toward one goal – to save Oregon's beautiful and unique native flora and fauna from extinction.

Oregon Flora Project

The Oregon State University (OSU) Herbarium and Department of Botany and Plant Pathology is sponsoring the Oregon Flora Project. Its goal is to produce a *Flora of Oregon* and an *Oregon Vascular Plant Atlas* in printed and computerized forms.

The *Flora of Oregon* will be an illustrated manual of the vascular plants of Oregon, including identification keys and species descriptions. The first step in this project is to produce an up-to-date *Oregon Vascular Plant Checklist*. This is a list of all native and naturalized vascular plants of Oregon, with currently accepted names, synonyms, literature citations and plant origin (native or exotic) included. The goal is to complete the checklist around the end of 1996.

The *Oregon Vascular Plant Atlas* will contain distribution maps for all of Oregon's vascular plant species. Data for the distribution maps will come from herbarium specimens and species lists. The later are being gathered from a wide variety of sources from around the state. The atlas will include overlays for ecoregions, existing vegetation, potential vegetation, rainfall and climate zones.

The Flora project is being coordinated by three groups of professional and lay botanists from throughout Oregon. There are currently eleven Checklist Project Leaders, who meet monthly at OSU. The Checklist Advisory Board is currently made up of nine botanists, who review checklist entries. The Atlas project is led by a multi-disciplinary team of eleven people, including botanists, geographers, and Geographical Information System (GIS) specialists. Five undergraduate students provide basic support.

The *Oregon Flora Newsletter* is a quarterly publication to disseminate project news. To obtain more information, or to be added to the *Newsletter* mailing list, send a note to:

Scott Sundberg
Department of Botany and Plant Pathology
Oregon State University
2082 Cordley Hall
Corvallis, OR 97331-2902
(541) 737-4338 or 737-4106; fax: (541) 737-3573

To date, over 60 people have worked on the project, and over 780 volunteer hours have been recorded. The project has received funding from forty-eight private individuals and one corporation. To make a donation to the flora project, send a check made out to the OSU Foundation to Scott Sundberg at the address above. In addition to private funding, NPSO has provided seed money to the Flora Project, and designated a coordinator to guide the state-wide data collection efforts of the Atlas project. It is expected that hundreds of individuals will participate in this project by reporting plant localities and compiling species lists.

FEDERAL ENDANGERED SPECIES ACT STATUS

Plants Listed as Endangered

Arabis macdonaldiana
Astragalus applegatei

Lilium occidentale
Lomatium bradshawii

Stephanomeria malheurensis

Plants Listed as Threatened

Castilleja levisecta
Howellia aquatilis

Mirabilis macfarlanei

Sidalcea nelsoniana

Plants Proposed as Endangered

Erigeron decumbens var. *decumbens*

Plagiobothrys hirtus

Plants Proposed as Threatened

Lupinus sulphureus ssp. *kincaidii*

Thelypodium howellii ssp. *spectabilis*

Candidates

Calochortus umpquaensis
Fritillaria gentneri

Limnanthes floccosa ssp. *grandiflora*

Lomatium cookii

Species of Concern

Abronia umbellata ssp. *breviflora*
Agrostis howellii
Agrostis microphylla var. *hendersonii*
Amsinckia carinata
Arabis koehleri var. *koehleri*
Arabis suffrutescens var. *horizontalis*
Artemisia campestris var. *wormskioldii*
Artemisia ludoviciana ssp. *estesii*
Aster curtus
Aster gormanii
Aster vialis
Astragalus collinus var. *laurentii*
Astragalus diaphanus var. *diurnus*
Astragalus mulfordiae
Astragalus peckii
Astragalus solitarius
Astragalus sterilis
Astragalus tegetarioides
Astragalus tyghensis
Bensoniella oregona
Botrychium ascendens
Botrychium crenulatum
Botrychium lineare
Botrychium paradoxum
Botrychium pedunculatum
Botrychium pumicola
Calochortus coxii
Calochortus greenii
Calochortus howellii
Calochortus indecorus
Calochortus longebarbatus
var. *longebarbatus*
Calochortus longebarbatus var. *peckii*
Camassia howellii
Cardamine pattersonii
Castilleja chlorotica
Castilleja fraterna
Castilleja pilosa var. *steenensis*
Castilleja rubida
Chaenactis cusickii
Cimicifuga elata
Collomia mazama
Collomia renacta
Cordylanthus maritimus ssp. *palustris*

Corydalis aquae-gelidae
Cypripedium fasciculatum
Delphinium leucophaeum
Delphinium pavonaceum
Dodecatheon austrofrigidum
Epilobium oreganum
Erigeron howellii
Erigeron oreganus
Eriogonum chrysops
Eriogonum crosbyae
Eriogonum cusickii
Eriogonum prociduum
Erythronium elegans
Filipendula occidentalis
Frasera umpquaensis
Gentiana plurisetosa
Gentiana setigera
Hackelia cronquistii
Haplopappus radiatus
= *Pyrrocoma radiata*
Hastingsia atropurpurea
Hastingsia bracteosa
Horkelia congesta ssp. *congesta*
Horkelia hendersonii
Ivesia rhypara var. *rhypara*
Ivesia rhypara var. *shellyi*
Lasthenia macrantha ssp. *prisca*
Lepidium davisii
Leptodactylon pungens ssp. *hazeliae*
Lewisia cotyledon var. *howellii*
Lewisia cotyledon var. *purdyi*
Limbella fryei (moss)
Limnanthes floccosa ssp. *bellingiana*
Limnanthes floccosa ssp. *pumila*
Limnanthes gracilis var. *gracilis*
Lomatium erythrocarpum
Lomatium greenmanii
Lomatium suksdorfii
Luina serpentina
Lupinus aridus ssp. *ashlandensis*
Lupinus biddlei
Lupinus cusickii
Meconella oregana
Mentzelia mollis

Mentzelia packardiae
Microseris howellii
Microrseris laciniata ssp. *detlingii*
Mimulus hymenophyllus
Mimulus jungermannioides
Mimulus patulus
Mimulus pygmaeus
Mimulus washingtonensis var.
washingtonensis
Montia howellii
Myosurus minimus ssp. *apus*
= *M. sessilis*
Oenothera wolfii
Penstemon barrettiae
Penstemon glaucinus
Penstemon peckii
Perideridia erythrorhiza
Phacelia argentea
Phacelia minutissima

Carex backii
Carex comosa
Carex crawfordii
Carex diandra
Carex dioica var. *gynocrates*
Carex eleocharis
Carex gigas
Carex hystericina
Carex interior
Carex livida
Carex macrochaeta
Carex nardina ssp. *norvegica*
Carex nervina
Carex nova
Carex pluriflora
Carex pyrenaica
Carex retrorsa
Carex saxatilis var. *major*
Carex serratodens
Castilleja rupicola
Castilleja schizotricha
Castilleja thompsonii
Cephaloziella spinigera (liverwort)
Chaenactis xantiana
Cheilanthes feei
Cheilanthes intertexta
Chlorogalum angustifolium
Cicendia quadrangularis
Cicuta bulbifera
Clarkia heterandra
Clintonia andrewsiana
Cochlearia officinalis
Conostomum tetragonum (moss)
Coptis trifolia
Coryphantha vivipara
Crumia latifolia (moss)
Cryptantha leiocarpa
Cryptantha leucophaea
Cryptantha milobakeri
Cryptogramma stelleri
Cryptomitrium tenerum (liverwort)
Cupressus bakeri
Cymopterus nivalis
Cymopterus purpurascens
Cyperus acuminatus
Cyperus schweinitzii
Cypripedium calceolus var. *parviflorum*
Delphinium nudicaule
Delphinium nuttallii
Dicentra pauciflora
Diplophyllum plicatum (liverwort)
Draba howellii
Dryopteris filix-mas
Eleocharis bolanderi
Encalypta brevipes (moss)
Encalypta intermedia (moss)
Entosthodon fascicularis (moss)
Ericameria arborescens
Erigeron cervinus
Erigeron disparipilus
Erigeron engelmannii var. *davisii*
Erigeron peregrinus ssp. *peregrinus*
 var. *peregrinus*
Erigeron petrophilus
Erioderma sorediatum (lichen)
Eriogonum brachyanthum
Eriogonum lobbii
Eriophorum chamissonis
Erysimum menziesii ssp. *concinnum*
Eschscholzia caespitosa
Festuca elmeri
Fritillaria camschatcensis
Fritillaria glauca
Fritillaria purdyi
Funaria muhlenbergii (moss)
Gentiana newberryi var. *newberryi*
Gentiana plurisetosa
Gentiana prostrata
Gentianella tenella ssp. *tenella*
Geum rossii var. *turbinatum*
Geum triflorum var. *campanulatum*
Gymnomitrium concinnum
 (liverwort)
Hackelia ophiobia
Hazardia whitney var. *discoideus*
Helodium blandowii (moss)
Herbertus aduncus (liverwort)
Herbertus sakuraii (liverwort)
Horkelia tridentata ssp. *tridentata*
Hydrocotyle verticillata
Hymenoxys cooperii
Hypogymnia pulverata (lichen)
Hypogymnia subphysodes (lichen)
Iliamna latibracteata
Isopyrum stipitatum
Ivesia shockleyi
Iwatsukiella leucotricha (moss)
Juncus torreyi
Juncus triglumis var. *albescens*
Jungermannia polaris (liverwort)
Keckiella lemmonii
Kobresia bellardii
Kobresia simpliciuscula
Leioderma sorediatum (lichen)
Lewisia columbiana var. *columbiana*
Lewisia columbiana var. *rupicola*
Lewisia leana
Lilium kelloggii
Limonium californicum
Lipocarpa aristulata
Lipocarpa micrantha
Lipocarpa occidentalis
Listera borealis
Lobaria linita (lichen)
Lobelia dortmanna
Lomatium engelmannii
Lomatium farinosum var. *hambleniae*
Lomatium ravenii
Lomatium salmoniflorum
Lomatium tracyi
Lomatium watsonii
Lophozia laxa (liverwort)
Lotus stipularis
Lupinus sericeus var. *egglestonianus*
Lupinus tracyi
Lycopodiella inundata
Lycopodium complanatum
Marsupella emarginata var. *aquatica*
 (liverwort)
Meesia uliginosa (moss)

LIST 2 (continued)

- Metzgeria temperata* (liverwort)
Microseris bigelovii
Microseris douglasii ssp. *douglasii*
Mimulus bolanderi
Mimulus clivicola
Mimulus jepsonii
Mimulus latidens
Mimulus tricolor
Mirabilis bigelovii var. *retrorsa*
Monardella purpurea
Muhlenbergia minutissima
Navarretia heterandra
Nemacladus capillariss
Ophioglossum pusillum
Orthodontium gracile (moss)
Parvisedum pumilum
Pedicularis howellii
Pellaea andromedifolia
Pellaea bridgesii
Pellaea mucronata ssp. *mucronata*
Peltolepis quadrata (liverwort)
Phacelia gymnoclada
Phacelia inundata
Phacelia malvaefolia
Phlox hendersonii
Phlox multiflora
Pilophorus nigricaulis (lichen)
Pilularia americana
Plagiobothrys glyptocarpus
Plagiobothrys greenii
Plagiobothrys salsus
Plagiochila semidecurrans var. *alaskana* (liverwort)
Plantago macrocarpa
Platanthera obtusata
Poa unilateralis
Pohlia sphagnicola (moss)
Polystichum californicum
Polytrichum sphaerothecium (moss)
Polytrichum strictum (moss)
Porella vernicosa var. *fauriei* (liverwort)
Potamogeton diversifolius
Potamogeton foliosus var. *fibrillosus*
Potentilla villosa
Primula cusickiana
Pseudoleskeella serpentinese (moss)
Ptilidium pulcherrimum (liverwort)
Radula brunnea (liverwort)
Rhamnus ilicifolia
Rhynchospora capitellata
Rhytidium rugosum (moss)
Rotala ramosior
Salix bonplanidiana
Salix delnortensis
Salix farriae
Salix wolfii
Saxifraga adscendens var. *oregonensis*
Saxifragopsis fragarioides
Scapania gymnostomophila (liverwort)
Scheuchzeria palustris var. *americana*
Schistidium cinclidodonteum (moss)
Schistostega pennata (moss)
Scirpus pendulus
Scirpus subterminalis
Sedum laxum ssp. *heckneri*
Senecio dimorphophyllus
Senecio flettii
Senecio porteri
Sesuvium verrucosum
Sidalcea hendersonii
Sidalcea malachroides
Silene hookeri ssp. *bolanderi*
Splachnum ampullaceum (moss)
Stellaria humifusa
Stereocaulon spathuliferum (lichen)
Sticta arctica (lichen)
Streptopus streptopoides
Stylocline psilocarphoides
Suksdorfia violacea
Symphoricarpos longiflorus
Talinum spinescens
Tauschia stricklandii
Tayloria serrata (moss)
Teloschistes flavicans (lichen)
Tetraplodon mnioides (moss)
Texosporium sancti-jacobi (lichen)
Thalictrum alpinum var. *hebetum*
Thelypodium brachycarpum
Thelypodium howellii ssp. *howellii*
Townsendia montana
Townsendia parryi
Trematodon boasii (moss)
Trillium angustipetalum
Tripterocladium leucocladulum (moss)
Triquetrella californica (moss)
Triteleia ixioides ssp. *analina*
Triteleia laxa
Tritomaria exsectiformis (liverwort)
Tritomaria quinquedentata (liverwort)
Trollius laxus var. *albiflorus*
Utricularia gibba
Utricularia minor
Wolffia borealis
Wolffia columbiana

LIST 3 (Review)

- Adiantum jordanii*
Agrostis humilis
Albatrella avellaneus (fungus)
Albatrella caeruleoporus (fungus)
Albatrella dispansus (fungus)
Allium brandegei
Allium pleianthum
Allium sanbornii var. *sanbornii*
Allium tolmei var. *platyphyllum*
Alpova alexsmithii (fungus)
Amanita armillariformis (fungus)
Amanita malheurensis (fungus)
Amanita novinupta (fungus)
Ammania robusta
Anastrophyllum minutum (liverwort)
Anemone multifida var. *tetonensis*
Anomobryum filiforme (moss)
Anthelia julacea (liverwort)
Antirrhinum kingii
Arabis davidsonii
Arabis platysperma var. *platysperma*
Armillaria viscidipes (fungus)
Arrhenia lobatum (fungus)
Artemisia packardiae
Asarum caudatum
Aster breweri
Aster brickellioides
Asterophora parasitica (fungus)
Astragalus conjunctus var. *rickardii*
Astragalus gambelianus
Astragalus platytropis
Astragalus reventiformis
Astragalus salmonis
Balsamia alba (fungus)
Balsamia nigrens (fungus)
Balsamia platyspora (fungus)
Balsamorhiza hookeri var. *idahoensis*
Barbilophozia barbata (liverwort)
Bondarzewia mesenterica (fungus)
Botrychium sp. nov.
Brachythecium turgidum (moss)
Brauniellula albipes (fungus)
Brodiaea californica
Bryoria bicolor (lichen)
Bryoria subcana (lichen)
Buellia oidalea (lichen)
Buxbaumia aphylla (moss)
Callitriche marginata
Caloplaca stantonii (lichen)
Camissonia palmeri
Cardamine nuttallii var. *covilleana*
Cardamine nuttallii var. *dissecta*
Carex abrupta
Carex atherodes
Carex barbarae
Carex bebbii
Carex brevicaulis

- Carex capitata*
Carex gynodynamis
Carex integra
Carex lasiocarpa
Carex praeceptorium
Carex subnigricans
Carex vernacula
Carex sp. nov. "serpentinicola"
Castilleja ambigua ssp. *ambigua*
Castilleja "chambersii"
Castilleja flava var. *rustica*
Castilleja pallescens var. *inverta*
Castilleja viscidula
Cazia flexiascus (fungus)
Chamonixia caespitosa (fungus)
Choiromyces alveolatus (fungus)
Choiromyces venosus (fungus)
Chromatochlamys muscorum var. *octospora* (lichenicolous fungus)
Chroogomphus loculatus (fungus)
Cirsium ciliolatum
Cladidium bolanderi (lichen)
Clematis columbiana var. *columbiana*
Clitocybe senilis (fungus)
Clitocybe subditopoda (fungus)
Collema curtisporum (lichen)
Conocybe subnuda (fungus)
Corallorhiza wisteriana
Cortinarius boulderensis (fungus)
Cortinarius wiebeae (fungus)
Crassula solieri
Cryptantha humilis
Cryptantha simulans
Cryptantha spiculifera
Cryptantha thompsonii
Cymopterus ibapensis
Cyperus bipartitus
Dermocybe humboldtensis (fungus)
Destuntzia fusca (fungus)
Destuntzia rubra (fungus)
Dichostereum boreale (fungus)
Douglasia laevigata
Elaphomyces anthracinus (fungus)
Elaphomyces asperulus (fungus)
Elaphomyces decipiens (fungus)
Elaphomyces reticulatus (fungus)
Elaphomyces subviscidus (fungus)
Elatine brachysperma
Elodea nuttallii
Ephemerum crassinervium (moss)
Ephemerum serratum (moss)
Epilobium luteum
Eriogonum nudum var. *paralinum*
Eriogonum nutans var. *nutans*
Festuca brachyphylla
Fissidens grandifrons (moss)
Fissidens pauperulus (moss)
Galerina fuscobrunnea (fungus)
Gamundia leucophylla (fungus)
Gastroboletus imbellus (fungus)
Gautieria otthii (fungus)
- Gelatinodiscus flavidus* (fungus)
Genia compacta (fungus)
Gilia salticola
Gilia sinistra ssp. *sinistra*
Glomus pubescens (fungus)
Glomus radiatus (fungus)
Grimmia anomala (moss)
Gymnomyces monosporus (fungus)
Gymnopilus punctifolius (fungus)
Hackelia bella
Hackelia patens var. *patens*
Haplomitrium hookeri (liverwort)
Harpanthus flotovianus (liverwort)
Hebeloma occidentale (fungus)
Hebeloma oregonense (fungus)
Hebeloma parcielum (fungus)
Hebeloma pungens (fungus)
Helianthella californica var. *nevadensis*
Helianthella quinquinervis
Helianthella uniflora
Helianthus bolanderi
Heliotropium curassavicum
Helvella crassitunicata (fungus)
Helvella elastica (fungus)
Helvella maculata (fungus)
Hemimycena pseudocrispula (fungus)
Hesperovax sparsiflora var. *brevifolia*
Hieracium greenei
Hieracium horridum
Hierochloe odorata
Hydnotriza michaelis (fungus)
Hygrophorus albicarneus (fungus)
Hygrophorus albiflavus (fungus)
Hygrophorus caeruleus (fungus)
Jamesoniella autumnalis var. *heterostipa*
Juncus bryoides
Juncus capillaris
Juncus gerardii
Juncus hemiendytus var. *abjectus*
Juncus kelloggii
Juncus tiehmii
Langloisia setosissima ssp. *punctata*
Lathyrus lanzwertii var. *tracyi*
Lecanora caesiorubella ssp. *merrillii* (lichen)
Lecanora pringlei (lichen)
Lecidea dolodes (lichen)
Lepidium montanum var. *nevadense*
Leptonia caesiocincta (fungus)
Leptonia occidentalis var. *occidentalis* (fungus)
Leptonia rosea var. *marginata* (fungus)
Leptonia subeuchroa (fungus)
Leptonia violaceonigra (fungus)
Leucogaster citrinus (fungus)
Leucogaster odoratus (fungus)
Lesquerella douglasii
Leucothoe davisiae
Lilaea scilloides
- Linanthus bakeri*
Lithophragma heterophyllum
Lloydia serotina
Lomatium idahoensis
Lomatium roseanum
Lophotocarpus californicus
Lophozia gillmanii (liverwort)
Lupinus onustus
Lygodesmia juncea
Lyophyllum acutipes (fungus)
Lyophyllum chamaeleon (fungus)
Lyophyllum conoideospermum (fungus)
Lyophyllum furfurellum (fungus)
Lyophyllum gracile (fungus)
Lyophyllum lubricum (fungus)
Lyophyllum pallidum (fungus)
Lyophyllum piceum (fungus)
Lyophyllum rancidum (fungus)
Lyophyllum soldipes (fungus)
Macowanites mollis (fungus)
Malacothrix sonchoides
Malacothrix stebbinsii
Marsupella condensata (liverwort)
Marsupella sparsifolia (liverwort)
Martellia fragrans (fungus)
Martellia idahoensis (fungus)
Martellia medlockii (fungus)
Mertensia bella
Minuartia austromontana
Mnium blyttii (moss)
Monardella glauca
Mycena gaultheri (fungus)
Mycena quinaultensis (fungus)
Myosarus clavicaulis
Myrica gale
Myriophyllum sibiricum
Najas guadalupensis
Nardia japonica (liverwort)
Navarretia leucocephala ssp. *leucocephala*
Navarretia tagetina
Nephroma occultum (lichen)
Nicotiana quadrivalvis
Niebla cephalota (lichen)
Nolanea edulis var. *concentrica* (fungus)
Nolanea stauropora var. *incrustedata* forma *incrustedata* (fungus)
Nolanea verna var. *isodiametrica* (fungus)
Ochrolechia subplicans (lichen)
Octavianina macrospora (fungus)
Omphalina isabellina (fungus)
Orthotrichum epapillosum (moss)
Orthotrichum holzingeri (moss)
Orthotrichum pellucidum (moss)
Otidea leporina (fungus)
Oxytropis sericea var. *sericea*
Pannaria rubiginosa (lichen)
Pedicularis centranthera

LIST 3 (continued)

- Pediocactus* sp. nov.
Peltula euploca (lichen)
Penstemon deustus var. *variabilis*
Penstemon janishiae
Penstemon kingii
Penstemon perpulcher
Penstemon pratensis
Penstemon seorsus
Perideridia lemmonii
Phaeocollybia gregaria (fungus)
Phaeocollybia lilacifolia (fungus)
Phaeocollybia oregonensis (fungus)
Phaeocollybia radicata (fungus)
Physaria chambersii
Pinus sabiniana
Plagiobothrys austiniiae
Plantago eriopoda
Platyhypnidium riparioides (moss)
Plectanea milleri (fungus)
Poa bolanderi
Poa rhizomata
Poa suksdorfii
Polycytenium fremontii var. *bisulcatum*
Polygonum punctatum
Polypodium calirhiza
Polytrichum sexangulare (moss)
Potamogeton filiformis
Potamogeton latifolius
Potamogeton vaginatus
Preissia quadrata (liverwort)
Psathyrella gruberi (fungus)
Psathyrella oregonensis (fungus)
Psathyrella quercicola (fungus)
Psathyrella subcaespitosa (fungus)
Psathyrella wapinitaensis (fungus)
Pseudoaleuria quinaultiana (fungus)
Pseudocyphellaria rainierensis (lichen)
Pythia vulgaris (fungus)
Puccinellia pumila
Radiigera bushnellii (fungus)
Ramaria araiospora (fungus)
Ramaria gelatinaurantia (fungus)
Ramaria gracilis (fungus)
Ramaria stuntzii (fungus)
Rafinesquia californica
Ranunculus verecundus
Rhizomnium nudum (moss)
Rhizopogon abietis (fungus)
Rhizopogon bacillisporus (fungus)
Rhizopogon brunneiniger (fungus)
Rhizopogon brunneifibrillosus (fungus)
Rhizopogon chamalelotinus (fungus)
Rhizopogon clavitisporus (fungus)
Rhizopogon exiguus (fungus)
Rhizopogon flavofibrillosus (fungus)
Rhizopogon inquinatus (fungus)
Rhizopogon masonae (fungus)
Rhizopogon oswaldii (fungus)
Rhizopogon quercicola (fungus)
Rhizopogon rogersii (fungus)
Rhizopogon semireticulatus (fungus)
Rhizopogon semitectus (fungus)
Rhizopogon subcinnamomeus (fungus)
Rhizopogon subclavitisporus (fungus)
Rhizopogon subpurpureus (fungus)
Rhizopogon subradicatus (fungus)
Rhizopogon variabilisporus (fungus)
Rhynchospira alba
Ribes divaricatum var. *pubiflorum*
Ribes inerme var. *klamathense*
Romanzoffia sitchensis var. *suksdorfii*
Salix orestera
Samolus parviflorus
Sarcosoma latahense (fungus)
Scapania obscura (liverwort)
Schofieldia monticola (liverwort)
Scirpus heterochaetus
Scirpus pallidus
Sclerotinia veratri (fungus)
Scouleria marginata (moss)
Senecio sphaerocephalus
Senecio triangularis var. *angustifolius*
Sigridea californica (lichen)
Silene californica
Silene lemmonii
Solanum parishii
Sowerbyella rhenana (fungus)
Spirodela punctata
Squamanita paradoxa (fungus)
Stephensia bynumii (fungus)
Streptanthus glandulosus
Taraxacum ceratophorum
Tetraphis geniculata (moss)
Thamnobryum neckeroides (moss)
Tholurna dissimilis (lichen)
Tofieldia glutinosa ssp. *glutinosa*
Torreyochloa erecta
Tortula mucronifolia (moss)
Tortula subulata (moss)
Tricholomopsis fulvescens (fungus)
Triglochin striata
Trillium parviflorum
Triteleia ixioides ssp. *scabra*
Tuber asa (fungus)
Usnea hesperina (lichen)
Usnea rubicunda (lichen)
Usnea sphacelata (lichen)
Veizdaea stipitata (lichen)
Verbena hastata
Viola canadensis var. *rugulosa*
Viola langsdorfii
Zizia aptera

LIST 4 (Watch)

- Abronia latifolia*
Allium bisceptrum
Allium bolanderi var. *mirabile*
Allium douglasii var. *nevii*
Allium lemmonii
Allium unifolium
Antennaria aromatica
Arabis aculeolata
Arabis furcata
Arabis koehleri var. *stipitata*
Asarum wagneri
Astragalus alvordensis
Astragalus atratus var. *owyheensis*
Astragalus purshii var. *ophiogenes*
Astragalus robbinsii var. *alpiniformis*
Astragalus sclerocarpus
Astragalus solitarius
Astragalus succumbens
Astragalus tetrapterus
Astragalus umbraticus
Balsamorhiza sericea
Bergia texana
Bolandra oregana
Calochortus longebarbatus var. *longebarbatus*
Cardamine nuttallii var. *gemmata*
Carex capillaris
Carex concinna
Carex haydeniana
Carex macrocephala
Carex praticola
Castilleja glandulifera

Viola hallii -C
Viola howellii -C
Viola ocellata -C
Woodwardia fimbriata -C
Zauschneria latifolia -C

ACKNOWLEDGMENTS

ANIMALS:

Revisions to the 1998 edition were primarily status changes made by ODFW, USFWS and NMFS. Our thanks to these agencies for their continued efforts to protect Oregon's fauna. Our appreciation goes, as always, to the many vertebrate and invertebrate biologists whose comments and criticisms were incorporated into this book.

Invertebrates: Paul Hammond, Terrence Frest, James LaBonte, Jeff Miller, Bob Wisseman.

Vertebrates: Chris Carey, Bill Castillo, Alan Contreras, Char Corkran, Blair Csuti, Angie Hernandez, Jim Kirk, Dave Marshall, Russ Morgan, Harry Nehls, Martin Nugent, Mark Perkins, Claire Puchy, Alan St. John, Steve Stone, Ray Temple and Laura Todd.

PLANTS AND FUNGI:

Many of the changes made since the last edition of this book in 1993 resulted from comments received at the Rare and Endangered Plant Conference held in Bend in November, 1994, and hosted by the Native Plant Society of Oregon. We thank all conference participants and others who have contributed to this project. Many of the improvements in the information included in this booklet are a result of efforts by the professional botanists of the Oregon Department of Agriculture, the U.S. Forest Service and the Bureau of Land Management, and the amateur and professional botanists of the Native Plant Society of Oregon.

Michael Castellano of the U.S. Forest Service volunteered to compile the much-expanded list of fungi, coordinating input from numerous agency and university mycologists, as well as the Oregon Mycological Society.

Special thanks go to Kenton Chambers, Professor Emeritus at Oregon State University, who serves as the flowering plant taxonomic arbiter for ORNHP and for this publication. Peter Zika, our former staff botanist who now works out of OSU, has spent considerable time and energy working on this book.

Primary sources of expertise for this edition include:

Carex: Carex working group: Richard Brainerd, Francisco Camacho, Richard Halse, Manuela Huso, Keli Kuykendall, Teresa Magee, Bruce Newhouse, Jim Oliphant, Nick Otting, Barbara Wilson and Peter Zika.

Ferns: Ed Alverson, Frank Lang, David Wagner and Peter Zika.

Liverworts: John Christy (ORNHP) and David Wagner (Northwest Botanical Institute).

Mosses: John Christy (ORNHP), John Davis (U.S. Fish and Wildlife Service), Judith Harpel (U.S. Forest Service) and David Wagner (Northwest Botanical Institute).

Fungi: Compiled by Michael A. Castellano (U.S. Forest Service), with contributions from: Joseph Ammirati, Lorelei Norvell, and Judy Roger (University of Washington), Tom O'Dell (U.S. Forest Service), Cathy Cripps and Orson K. Miller Jr. (Virginia Polytechnic University), William Denison, Tina Driesbach, Efren Cazares, Dan Luoma, Joseph Spatafora, James Trappe, and Nancy Weber (Oregon State University), Dennis Desjardin (San Francisco State University), Robert Fogel (University of Michigan), Julie Kaltenecker and Marcia Wicklow-Howard (Boise State University), David Largent (Humboldt State University), Janet Lindgren (Oregon Mycological Society), Steve Miller (University of Wyoming), and Scott Redhead (Agriculture Canada).

Lichens: John Davis (U.S. Fish and Wildlife Service), Linda Geiser (U.S. Forest Service), Bruce McCune and Eric Peterson (Oregon State University), Roger Rosentreter (Bureau of Land Management), and Daphne Stone.

Mary Finnerty, GIS Technician

Rare Plant Field Survey Form

Please complete all entries in the top section above the heavy line. Please complete as much as possible the more detailed section below the heavy line. You may use the back for comments or additional space. If possible, please attach a map of the location, preferably something of the same quality as a USGS 7.5' map.

Scientific Name: _____

Date of Field Work: _____ County: _____ Collection: ___ Yes (_____), ___ No
mo. day year coll #, herbarium

Directions: _____

Reporter: _____ Phone: _____

Address: _____

1. LOCATION - Attach separate map or sketch a map indicating exact site, scale and proximity to prominent features.

- A. Is this a new location record? ___ Yes ___ No ___ Unknown. Is this a subsequent visit? ___ Yes ___ No
- B. Plant found? ___ Yes ___ No If no, reason: _____
- C. Location: T _____ R _____ Sec _____ 1/4 of _____ 1/4 (use back for more TRS)
- D. Owner/Manager: _____

2. SPECIES BIOLOGY

- A. Phenology: _____ % in flower, _____ % in fruit, _____ % in leaf
- B. Population size: Number of plants: _____ Area occupied: _____
- C. Age Class: _____ % seedlings, _____ % immature, _____ % 1st year, _____ % mature, _____ % senescent

3. HABITAT

- A. Plant communities/Habitat Description: _____

- B. Aspect: _____ (enter compass direction(s) or degrees)
- C. Slope: ___ slight (0°-20°), ___ moderate (20°-45°), ___ extreme (45°+), ___ vertical
- D. Topographic position: ___ crest, ___ upper slope, ___ mid-slope, ___ lower slope, ___ bottom
- E. Light: ___ open, ___ filtered, ___ shade
- F. Moisture: ___ inundated, ___ saturated, ___ moist, ___ dry
- G. Elevation range: _____ to _____ (choose unit: feet or meters)
- H. Substrate/soil: _____
- I. Associated species: _____

- J. Visible threats/potential disturbance: _____

4. DETERMINATION - How was plant identified? (choose one or more, please fill in the source for each choice)

- ___ keyed in flora, ___ compared with specimen, ___ compared with photo/drawing,
- ___ identified by someone else, ___ other.

Source (name of flora/which specimen/which drawing/name of identifier): _____

5. PHOTOGRAPHS/SLIDES

Did you take a print or slide: ___ Yes (specify which), ___ No. May we obtain duplicates at our cost? ___ Yes ___ No
