Extinction is a natural process. Today, however, plant and animal species are disappearing world-wide at an accelerated pace. Based on current trends, half of the species on earth will be extinct within the next 100 years. The major reasons for this are human caused changes to the environment, which continue to increase - in Oregon and throughout the world.

Once lost, a species can never be recovered, and there is no way of knowing how useful it may have been. We do know that human beings and many of their industries depend on plant and animal products. About 50% of all pharmaceuticals have a natural component as an active ingredient, yet less than one percent of the world's species have been chemically analyzed and tested. Many insects and plants contain undescribed and highly functional compounds.

Limnanthes pumila subsp. *grandiflora*, or wooly meadow-foam, a rare plant that grows in southwest Oregon, has been found to produce a hybrid with the more common member of the genus, *Limnanthes alba*. This hybrid grows well in the poorly drained soils of the Willamette Valley and produces a valuable oil used for soaps, plastic and rubber production. In addition, the new hybrid meadow-foam does not require the field burning necessary for other crops. This species, and many other Oregon natives, will be lost without intervention. The purpose of this publication is to provide land managers, owners and interested parties with a list of those species in Oregon which are in greatest jeopardy.

Oregon State Endangered Species Programs

In 1987, the Oregon Legislature passed an Endangered Species Act which gave the Oregon Department of Agriculture (ODA) responsibility and jurisdiction over threatened and endangered plants, and reaffirmed the Oregon Department of Fish and Wildlife's (ODFW) responsibility for threatened and endangered fish and wildlife. Both of these agencies have entered into cooperative (Section 6) agreements with the United States Fish and Wildlife Service (USFWS) for the purpose of carrying out research and conservation programs for animals and plants under the auspices of the federal Endangered Species Act. Oregon Parks and Recreation Department (OPRD) has a similar agreement with USFWS for invertebrates. More information on the state endangered species programs can be found at the beginning of the animal and plant sections of this booklet.

Oregon Biodiversity Information Center

The Oregon Biodiversity Information Center (ORBIC) is part of the Institute for Natural Resources (INR) located at Portland State University (PSU). ORBIC maintains extensive databases of Oregon biodiversity, concentrating on rare and endangered plants, animals and ecosystems.

ORBIC is managed by PSU, but has been a cooperative project, with significant support from Oregon Parks and Recreation, the Department of State Lands, The Nature Conservancy in Oregon, U.S. Fish and Wildlife Service (USFWS), the Bureau of Land Management (BLM), the U.S. Forest Service (USFS) and Oregon State University. Biologists working for these agencies, together with the state's herbaria and museums, provide most of the information that comprise ORBIC's databases. ORBIC also manages the state Natural Areas Program, for OPRD, as well as their Section 6 invertebrate program. ORBIC is also affiliated with the Natural Heritage U.S. network with information being coordinated by the NatureServe organization.

This booklet has been compiled using the most current information available on the distribution and abundance of plants and animals native to Oregon. Although based on a large volume of information, it is by no means complete. Much is known about some species, very little about others. ORBIC welcomes additional information or recommendations regarding any of the taxa listed herein. Such information, as well as data requests, should be directed to:

Oregon Biodiversity Information Center
Institute for Natural Resources
Portland State University
Mail Stop: INR
PO Box 751
Portland, Oregon 97207-0751

Or, send an e-mail to inrdata@pdx.edu.

On-line versions of the booklet can be found at <http://orbic.pdx.edu>.

Outline

This booklet is divided into animal and plant (including fungi) sections. The sections begin with a description of the animal and plant programs in the state and are followed by the main list of animals and plants. For animals, the list is first divided into major groups (fish, amphibians, reptiles, mammals, birds,

and invertebrates) and then arranged alphabetically by scientific name. Invertebrates are further divided by class and order. The plant list is first divided into four groups (vascular plants, non-vascular plants, lichens and fungi) and then alphabetized by scientific name. The information for each taxa includes the scientific and common names with authorities for plants, county, ecoregion, and adjacent state distribution information; the state and federal status; and the NatureServe/Heritage Network Global and State ranks, as well as the ORBIC list. Distribution abbreviations are listed and explained below.

Criteria and Definitions

Inclusion of any given taxon on these lists is based on several specific criteria. The most important factors are the total number of known, extant populations in Oregon and world-wide, and the degree to which they are potentially or actively threatened with destruction. Other criteria include the number of

known populations considered to be securely protected, the size of the various populations, and the ability of the taxon to persist at known sites. The taxonomic distinctness of each species also has been considered. Hybrids or questionable, undescribed species have not been included, although undescribed taxa recognized by the scientific community in Oregon are included.

Taxonomic experts who were consulted are listed in the Acknowledgments section. All of these criteria are considered in the development of NatureServe/Heritage Network species ranks as well.

Definitions and explanations of the various ranks and federal and state status are included on page 4, and summarized on the back inside cover along with a list of abbreviations. A number of definitions and criteria specific to animals (wintering or breeding ranks in birds) are discussed in detail at the beginning of the animal section of this booklet.

DISTRIBUTION INFORMATION

Distribution Information

The distribution information included on the lists represents both the current and historic, documented distribution of the taxa.

The information is in the following format: Ecoregion; State (and/or Canadian Province); and County. Out-of-state distribution information is complete for plant and animal taxa on ORBIC List 1 (which are usually Oregon or regional endemics). For all other taxa, all adjacent states or the closest state with occurrences will be listed; a plus (+) signifies that the taxa is found in additional states. Taxa with no other states noted are Oregon endemics. For the most part, the Ecoregion, County and State distribution is based on both historic and current information. Any additional input on distribution will be incorporated in future updates of this publication.

Ecoregions

The map on the following page divides the state into nine distinct regions based on geologic and vegetative patterns. The map and the regions are based on EPA's Level 3 ecoregions. The Ecoregions are: CR = Coast Range, WV = Willamette Valley, KM = Klamath Mountains, WC = West Cascade Range and Crest, EC = East Cascade Range, BM = Blue Mountains, BR = Northern Basin and Range, CB = Columbia Basin, and ME=Marine & Estuarine.

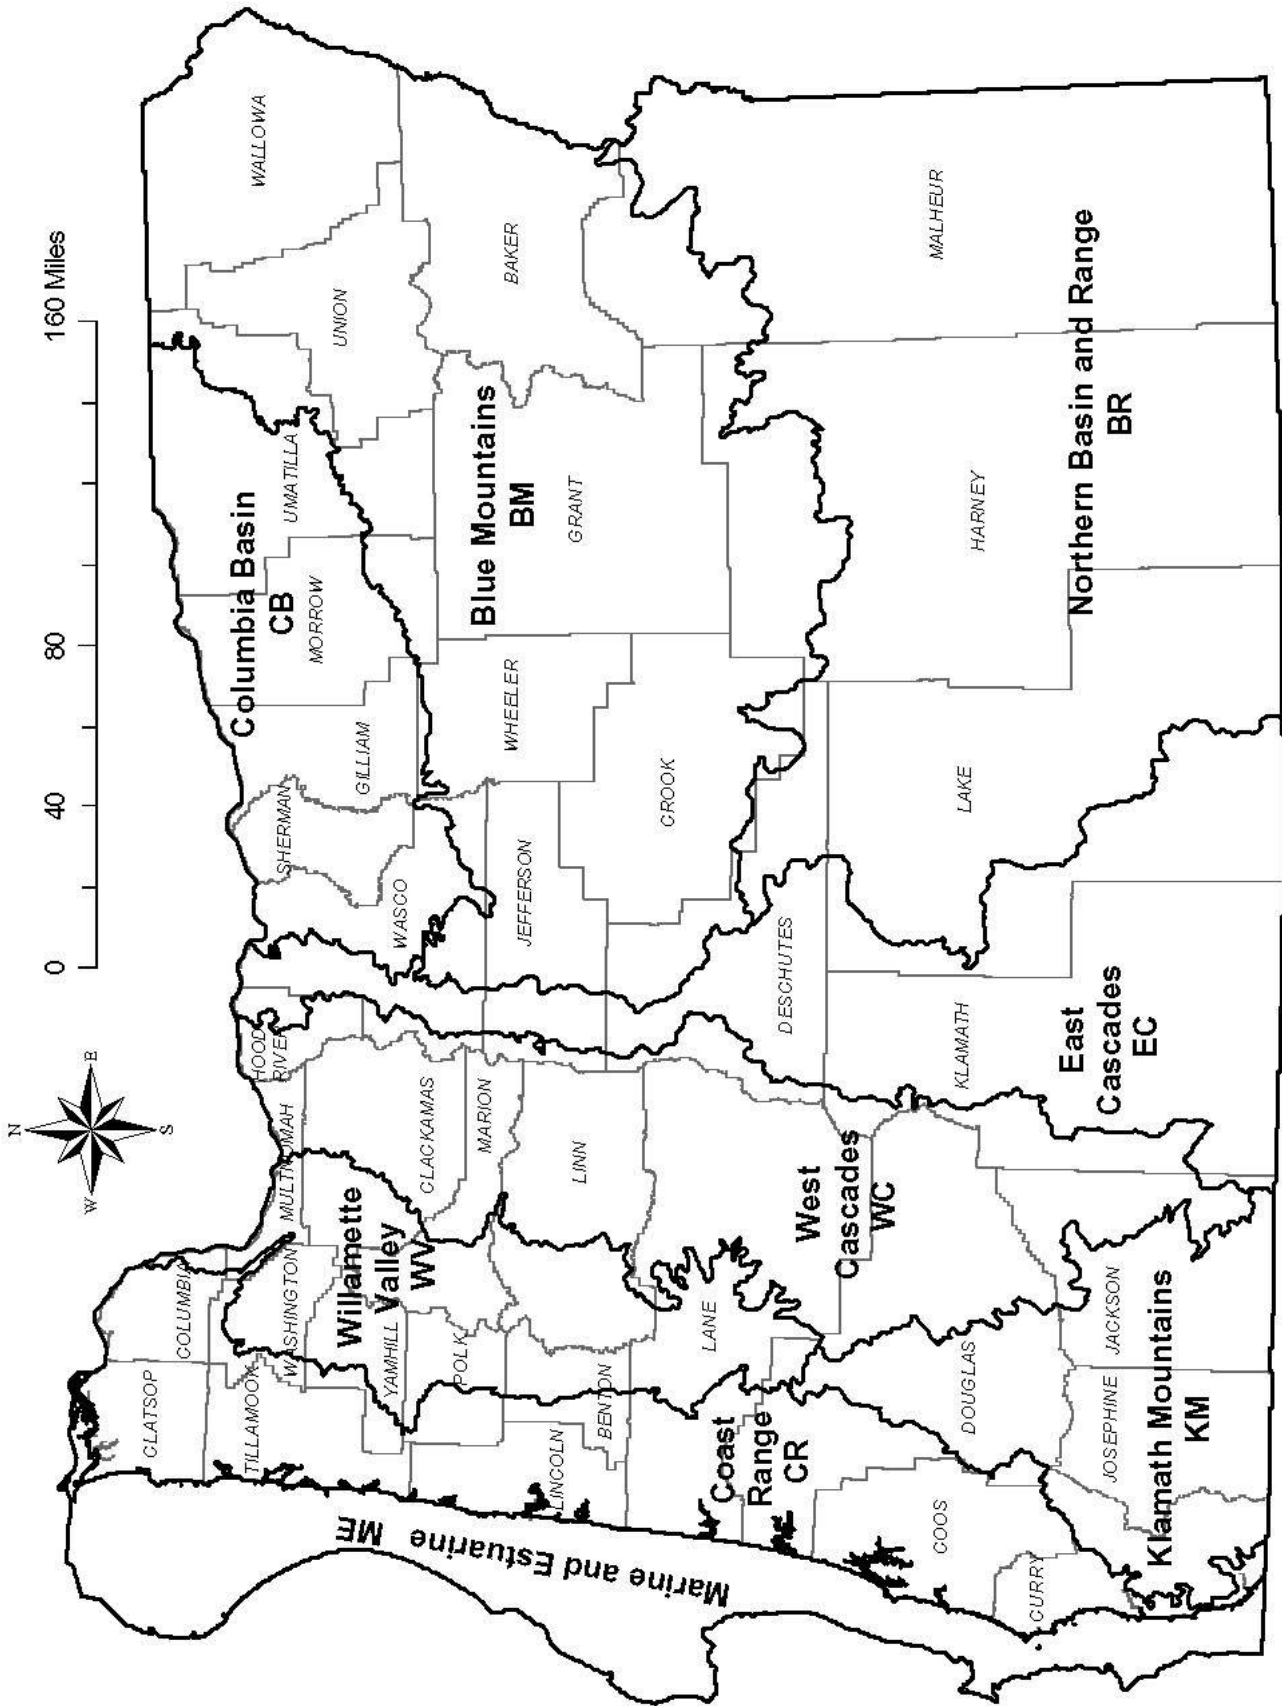

Counties

County distribution is keyed to the base map on the following page. The abbreviations used in the booklet are made from the first four letters of each county name. The county names are: Baker, Benton, Clackamas, Clatsop, Columbia, Coos, Crook, Curry, Deschutes, Douglas, Gilliam, Grant, Harney, Hood River, Jackson, Jefferson, Josephine, Klamath, Lake, Lane, Lincoln, Linn, Malheur, Marion, Morrow, Multnomah, Polk, Sherman, Tillamook, Umatilla, Union, Wallowa, Wasco, Washington, Wheeler, and Yamhill. The county information included is based on data from ORBIC files. Please notify us of mistakes or omissions.

States and Canadian Provinces and Territories

State, provincial, and territorial distribution is included on the lists primarily to alert biologists to the distribution of these rare, threatened, and endangered taxa in adjacent states. The distribution for the more wide ranging species in states not adjacent to Oregon is based on published information and may not be complete. Two-letter postal abbreviations are used to identify these regions. States adjacent to Oregon are: CA = California, ID = Idaho, NV = Nevada, and WA = Washington. Other state and province abbreviations can be found in the "Codes and Abbreviations" section.

OREGON MAP WITH ECOREGIONS AND COUNTIES

DEFINITIONS

Endangered taxa are those which are in danger of becoming extinct within the foreseeable future throughout all or a significant portion of their range.

Threatened taxa are those likely to become endangered within the foreseeable future.

LE = Listed Endangered. Taxa listed by the USFWS or the National Marine Fisheries Service (NOAA Fisheries) as Endangered under the Endangered Species Act (ESA), or by the ODA or ODFW under the Oregon Endangered Species Act of 1987 (OESA).

LT = Listed Threatened. Taxa listed by the USFWS, NOAA Fisheries, ODA, or ODFW as Threatened.

PE = Proposed Endangered. Taxa proposed by the USFWS or NOAA Fisheries to be listed as Endangered under the ESA or by ODFW or ODA under the OESA.

PT = Proposed Threatened. Taxa proposed by the USFWS or NOAA Fisheries to be listed as Threatened under the ESA or by ODFW or ODA under the OESA.

C = Candidate. Taxa for which NOAA Fisheries or USFWS have sufficient information to support a proposal to list under the ESA, or which is a candidate for listing by the ODA under the OESA.

SOC = Species of Concern. Taxa which the USFWS is reviewing for consideration as Candidates for listing under the ESA.

PS = Partial Status. Taxa for which some but not all infraspecific taxa have status.

Lists Following Animal and Plant Sections

In addition to the main lists summarizing information on animals and plants, this booklet includes the agency lists compiled from the most recent information available:

- Federal and State, listed and proposed animals (USFWS, NOAA Fisheries, ODFW)
- Federal candidate (USFWS, NOAA Fisheries) and species of concern (USFWS) animals
- State sensitive animals (ODFW)
- Federal listed, proposed and candidate plants, and species of concern (USFWS)
- State listed and candidate plants (ODA)

The criteria for the ORBIC lists are as follows:

List 1 contains taxa that are threatened with extinction or presumed to be extinct throughout their entire range.

List 2 contains taxa that are threatened with extirpation or presumed to be extirpated from the state of Oregon. These are often peripheral or disjunct species which are of concern when considering species diversity within Oregon's borders. They can be very significant when protecting the genetic diversity of a taxon. ORBIC regards extreme rarity as a significant threat and has included species which are very rare in Oregon on this list.

List 3 contains taxa for which more information is needed before status can be determined, but which may be threatened or endangered in Oregon or throughout their range.

List 4 contains taxa which are of conservation concern but are not currently threatened or endangered. This includes taxa which are very rare but are currently secure, as well as taxa which are declining in numbers or habitat but are still too common to be proposed as threatened or endangered. While these taxa may not currently need the same active management attention as threatened or endangered taxa, they do require continued monitoring.

Drops and Name Changes contains taxa deleted or had their names changed from the previous edition (October 2010).

NatureServe/Natural Heritage Network Ranks

ORBIC participates in an international system for ranking rare, threatened and endangered species throughout the world. The system was developed by The Nature Conservancy and is now maintained by NatureServe in cooperation with Heritage Programs and Conservation Data Centers in all fifty states (plus the Navajo Nation, Tennessee Valley Authority, Puerto Rico and the Virgin Islands), all of Canada except for two territories, and many Latin American countries.

Rank Definitions

The ranking is a 1-5 scale, based primarily on the number of known occurrences, but also including threats, sensitivity, area occupied, and other biological factors. In this booklet, the ranks occupy two lines. The top line is the Global Rank and begins with a "G". If the taxon has a trinomial (a subspecies, variety or recognized race), this is followed by a "T" rank indicator. The second line is the State Rank and begins with the letter "S". The ranks are summarized below (see page 6 for migratory bird ranks):

- 1 = Critically imperiled because of extreme rarity or because it is somehow especially vulnerable to extinction or extirpation, typically with 5 or fewer occurrences.
- 2 = Imperiled because of rarity or because other factors demonstrably make it very vulnerable to extinction (extirpation), typically with 6-20 occurrences.
- 3 = Rare, uncommon or threatened, but not immediately imperiled, typically with 21-100 occurrences.
- 4 = Not rare and apparently secure, but with cause for long-term concern, usually with more than 100 occurrences.
- 5 = Demonstrably widespread, abundant, and secure.

H = Historical Occurrence, formerly part of the native biota with the implied expectation that it may be rediscovered.

X = Presumed extirpated or extinct.

U = Unknown rank.

NR = Not yet ranked.

Rank Qualifiers

Q = Questionable taxonomy. Global ranks sometimes have a "Q" at the end. This indicates that there are questions related to the taxonomic validity of the taxon.

? = Inexact Numeric Rank. Taxa that can be ranked, but for which the rank is not certain. Ranks with a "?" indicate that the rank is probably correct, but that either documentation is lacking or there is still some uncertainty. Such ranks are always provisional.

Range Ranks = Ranks with more than one value. These can be G1G2, G1G3, etc. These indicate that the predicted final rank would be within the range, but with no indication of preference among the possibilities.

More details on the Heritage Ranking system and more definitions can be found at the NatureServe web site: <http://www.natureserve.org/explorer/ranking.htm>

SPECIAL ANIMALS

Information on Oregon's rare, threatened and endangered animal species is presented here in two formats. The first is a list summarizing the distribution, federal and state status, and Heritage Network rank of the species as described on pages 4 and 5. The second format breaks the species into lists based on their status.

In both formats, the special animals are divided into major groups (fish, amphibians, reptiles, birds, mammals, invertebrates), then listed alphabetically by scientific name. The invertebrate summary list is unique in being further subdivided into class and order.

The animals included in this booklet are those rare, threatened and endangered vertebrate and invertebrate species that are native to Oregon and have (or have had) sustained breeding populations within the state. Open-ocean mammals or sea turtles which generally occur offshore and do not breed in Oregon are not

included in this book. Wintering bird species and those which occur on an accidental or occasional basis present special problems which are described below.

Animal Species Tracked

ORBIC strives to serve as a clearinghouse of information regarding site-specific locations of rare, threatened and endangered species in Oregon. The goal is to obtain and computerize information for all locations of all state and federally listed animal species. Location data is also computerized for other animal species that are rare (of limited abundance or restricted distribution), threatened, endangered or otherwise vulnerable in Oregon, based on the NatureServe/Natural Heritage Network ranks. Locations for a species are tracked only if it is possible to track all sites in the state.

Ranking decisions are made based on the best available information. Comments on ranks or on the inclusion or exclusion of taxa are welcome. Funds are

not currently available to track all species of concern and all ODFW Sensitive Species, although ORBIC tracks as many of these as possible.

ORBIC maintains computerized information for all animal species on ORBIC Lists 1 and 2. There are several accidental or occasional breeding birds that are not tracked, even though they rank out highly. Since most of these species are well outside their normal range, effort is better spent on species which are part of Oregon's usual fauna. Additionally, ORBIC maintains manual files and observation data for all animal species in this booklet.

ORBIC encourages everyone to send in any information, reports or observations for the special animal species listed. A form for providing animal data is available at <http://orbic.pdx.edu/documents/animalform.pdf> Information need not be limited to this format to be considered for submission.

Animal Lists and Wildlife State Ranks

Fish

All vertebrate taxa in this booklet have published or soon to be published valid names, except for some fish taxa. These fish are represented on the lists by their Evolutionarily Significant Unit (ESU) designation. The ESU designations are defined by NOAA Fisheries under their ESA responsibility. ORBIC tracks and ranks all listed, proposed and candidate ESUs for anadromous fish. For listed or proposed anadromous fish, spawning and rearing areas are mapped as well as, but separately from, migratory corridors. As a result, there are a few listed salmon tracked which may never have spawned in Oregon, but which travel through the waters of the state. ODFW evaluates and manages anadromous and freshwater fish populations within areas defined as Species Management Units (SMU). For salmonids, these areas generally align with ESUs identified by NOAA. In cases of a sensitive fish species which has no NOAA-identified ESU, we track the SMU as identified by ODFW.

Birds

Avian species are usually placed on the ORBIC Lists based on breeding populations. Some species may be common in winter or migration but rare as breeders in Oregon. In these instances it is only the breeding populations that are of concern (e.g. horned grebe, bufflehead). Species that occur in Oregon in migration or as winter residents only are generally not

considered here, except for especially sensitive species with critical staging or wintering locations in Oregon (e.g. Aleutian Canada goose, California brown pelican). There are several bird species that have nested in Oregon on occasion (semipalmated plover, black-chinned sparrow) but are not yet considered established breeders. For now these species are not included on the list, pending more accurate determination of their breeding status. Species of accidental occurrence are not included either.

The NatureServe/ORBIC state ranks for migratory species (mainly birds) require further explanation. State ranks for long-distance migrants are separated by the breeding and nonbreeding components of the population. State ranks followed by a 'B' refer to breeding populations, while ranks followed by an 'N' refer to a nonbreeding (often wintering) population. Thus a state rank of S1B, S2N indicates that the breeding portion of the population is extremely rare and the wintering portion is slightly more common. If a species occurs in the state only during the breeding season it will only have an S#B rank. Similarly, if a species only occurs in Oregon during the nonbreeding season it will have an S#N rank. Species which are not long-distance migrants are ranked without the B or N modifier.

Invertebrates

Compilation of the invertebrate lists has been especially challenging. Little is known about the status and distribution of most invertebrate taxa found in Oregon, especially those which appear to be rare, threatened or otherwise vulnerable. Most invertebrate groups are under-collected and under-observed. As a result state ranks may not accurately reflect the true population status for some species. Currently ORBIC assigns these species a state ranking number but the "?" modifier is occasionally used to indicate species that may be rarely collected as opposed to truly rare.

The Natural Areas Program of the Oregon Parks and Recreation Department has been granted limited authority to assist in conserving invertebrates through a cooperative agreement with the USFWS via Section 6 of the Endangered Species Act. ORBIC provides staff to help manage this program. It is hoped that with the cooperation of conservation organizations, state agencies and federal agencies, additional information can be gathered to help understand and conserve rare, threatened and endangered invertebrates in Oregon.

Oregon Department of Fish and Wildlife's Threatened, Endangered and Sensitive Species Program – ODFW

Martin Nugent, Threatened, Endangered and Sensitive Species Coordinator

Eric Rickerson, Assistant Administrator, Wildlife Division

The Oregon Department of Fish and Wildlife (ODFW) maintains a list of threatened and endangered species under the authority of ORS 496.172, the Oregon Endangered Species Act, 1987. The list included in this booklet reflects ODFW's revisions as of October 2013. There are currently 32 taxa on the list. The list includes 12 marine animals (i.e. whales, sea turtles, pelagic birds) that are not included in this book. The Act requires state agencies to develop programs for the management and protection of endangered species, and requires agencies to comply with guidelines adopted by the Oregon Fish and Wildlife Commission for threatened species. The Oregon Fish and Wildlife Commission has adopted administrative rules, OAR 635-100-100 to 130, which clarify the Act and provide criteria for listing, delisting and protection of listed species.

Oregon Department of Fish and Wildlife maintains a Sensitive Species list in accordance with OAR 635-100-0040 which is designed to provide a positive, proactive approach to species conservation. The Sensitive Species list focuses fish and wildlife management and research activities on species that need conservation attention. Although the intent of the Sensitive Species list is to prevent species from declining to the point of qualifying as threatened or endangered, this list is not used as a "candidate" list for species to be considered for listing under the Oregon Threatened and Endangered Species rules. The Sensitive Species list serves as an early warning system for biologists, land managers, policy makers, and the public. It helps ensure that conservation actions are prioritized, cost-efficient, and effective. The sensitive species list is updated by ODFW every five years. The sensitive species list was last revised in 2008.

"Sensitive species" are those naturally-reproducing fish and wildlife species, subspecies, or populations which are facing one or more threats to their populations and/or habitats. Implementation of appropriate conservation measures to address the threats may prevent them from declining to the point of qualifying for threatened or endangered status.

Sensitive species categories are defined as follows:

“Critical” sensitive species (SC) are imperiled with extirpation from a specific geographic area of the state because of small population sizes, habitat loss or degradation, and/or immediate threats. Critical species may decline to point of qualifying for threatened or endangered status if conservation actions are not taken.

“Vulnerable” sensitive species (SV) are facing one or more threats to their populations and/or habitats. Vulnerable species are not currently imperiled with extirpation from a specific geographic area or the state but could become so with continued or increased threats to populations and/or habitats.

All efforts towards management and protection of threatened, endangered and sensitive species in Oregon will be coordinated with other state and federal agencies and private conservation organizations. The current threatened and endangered species list is available on ODFW's website at: http://www.dfw.state.or.us/wildlife/diversity/species/threatened_endangered_species.asp. The sensitive species list is available at: http://www.dfw.state.or.us/wildlife/diversity/species/sensitive_species.asp

Copies of the Oregon Endangered Species Act or administrative rules, or the Sensitive Species rule, or lists of the threatened and endangered or sensitive species may also be requested from the department by writing to:

FEDERAL ENDANGERED SPECIES ACT STATUS*

Animals Listed as Endangered

Fish

Catostomus microps - Modoc sucker
Chasmistes brevirostris - Shortnose sucker
Deltistes luxatus - Lost River sucker
Gila boraxobius - Borax Lake chub
Oncorhynchus nerka - Sockeye salmon (Snake River ESU)

Animals Listed as Threatened

Fish

Acipenser medirostris – Green sturgeon (Southern DPS)
Catostomus warnerensis - Warner sucker
Gila bicolor ssp. - Hutton tui chub
Oncorhynchus clarki henshawi - Lahontan cutthroat trout
Oncorhynchus keta - Chum salmon (Columbia River ESU)
Oncorhynchus kisutch - Coho salmon (Lower Columbia River/SW Washington Coast ESU)
Oncorhynchus kisutch - Coho salmon (Southern Oregon/Northern California Coasts ESU)
Oncorhynchus kisutch - Coho salmon (Oregon Coast ESU)
Oncorhynchus mykiss - Steelhead (Snake River Basin ESU)
Oncorhynchus mykiss - Steelhead (Lower Columbia River ESU, summer run)
Oncorhynchus mykiss - Steelhead (Lower Columbia River ESU, winter run)
Oncorhynchus mykiss - Steelhead (Middle Columbia River ESU, summer run)
Oncorhynchus mykiss - Steelhead (Middle Columbia River ESU, winter run)
Oncorhynchus mykiss - Steelhead (Upper Willamette River ESU, winter run)
Oncorhynchus tshawytscha - Chinook salmon (Snake River ESU, fall run)
Oncorhynchus tshawytscha - Chinook salmon (Lower Columbia River ESU, spring run)
Oncorhynchus tshawytscha - Chinook salmon (Lower Columbia River ESU, fall run)
Oncorhynchus tshawytscha - Chinook salmon (Upper Willamette River ESU, spring run)

Animals Proposed for Listing as Endangered

Invertebrates

Euphydryas editha taylori - Taylor's checkerspot butterfly

Animals Proposed for Listing as Threatened

Birds

Eremophila alpestris strigata - Streaked horned lark

Candidate Animals for Listing

Amphibians

Rana luteiventris - Columbia spotted frog
Rana pretiosa - Oregon spotted frog

Birds

Centrocercus urophasianus – Greater sage-grouse
Coccyzus americanus - Yellow-billed cuckoo

Birds

Gymnogyps californianus - California condor (extirpated)

Mammals

Canis lupus - Gray wolf (Western Oregon)
Odocoileus virginianus leucurus - Columbian white-tailed deer (Columbia River population)

Invertebrates

Icaricia icarioides fenderi - Fender's blue butterfly

Oncorhynchus tshawytscha - Chinook salmon (Snake River ESU, spring/summer run)
Oregonichthys crameri - Oregon chub
Rhinichthys osculus ssp. - Foskett Spring speckled dace
Salvelinus confluentus - Bull trout (Klamath River population)
Salvelinus confluentus - Bull trout (Columbia River population)
Salvelinus confluentus - Bull trout (Deschutes SMU)
Salvelinus confluentus - Bull trout (Grande Ronde SMU)
Salvelinus confluentus - Bull trout (Hells Canyon SMU)
Salvelinus confluentus - Bull trout (Hood River SMU)
Salvelinus confluentus - Bull trout (Imnaha SMU)
Salvelinus confluentus - Bull trout (John Day SMU)
Salvelinus confluentus - Bull trout (Malheur SMU)
Salvelinus confluentus - Bull trout (Odell Lake SMU)
Salvelinus confluentus - Bull trout (Umatilla SMU)
Salvelinus confluentus - Bull trout (Willamette SMU)
Thaleichthys pacificus - Eulachon

Birds

Brachyramphus marmoratus - Marbled murrelet
Charadrius nivosus nivosus - Western snowy plover (coastal population)
Strix occidentalis caurina - Northern spotted owl

Mammals

Eumetopias jubatus - Northern sea lion
Lynx canadensis - Canada lynx
Ursus arctos horribilis - Grizzly bear (extirpated)

Invertebrates

Branchinecta lynchi - Vernal pool fairy shrimp
Speyeria zerene hippolyta - Oregon silverspot butterfly

Mammals

Gulo gulo - Wolverine

Mammals

Arborimus longicaudus – Red tree vole (North Oregon Coast)
Pekania (Martes) pennanti - Fisher
Urocitellus washingtoni - Washington ground squirrel

Invertebrates

Polites mardon - Mardon skipper (butterfly)

*Does not include sea turtles, whales, or accidental species

Fish

Acipenser medirostris - Green sturgeon (Northern DPS)
Catostomus occidentalis lacusanserinus - Goose Lake sucker
Catostomus rimiculus - Jenny Creek sucker
Catostomus snyderi - Klamath largescale sucker
Cottus bendirei - Malheur mottled sculpin
Cottus marginatus - Margined sculpin
Cottus tenuis - Slender sculpin
Entosphenus tridentatus - Pacific lamprey
Entosphenus tridentatus ssp. - Goose Lake lamprey
Gila alvordensis - Alvord chub
Gila bicolor eury soma - Sheldon tui chub
Gila bicolor oregonensis - Oregon Lakes tui chub
Gila bicolor ssp. - Summer Basin tui chub
Gila bicolor ssp. - Catlow tui chub
Lampetra ayresi - River lamprey
Lavinia symmetricus mitrulus - Pit roach
Oncorhynchus clarki - Coastal cutthroat trout (OR Coast ESU)
Oncorhynchus clarki - Coastal cutthroat trout (Upper Willamette River ESU)
Oncorhynchus clarki - Coastal cutthroat trout (Southwestern WA/Columbia River ESU)
Oncorhynchus clarki - Coastal cutthroat trout (Southern Oregon/California Coasts ESU)
Oncorhynchus clarki lewisi - Westslope cutthroat trout
Oncorhynchus mykiss - Steelhead (OR Coast ESU, summer run)
Oncorhynchus mykiss - Steelhead (OR Coast ESU, winter run)
Oncorhynchus mykiss gairdneri (= *O. m. gibbsi*) - Inland Columbia Basin/Great Basin redband trout
Oncorhynchus mykiss - Catlow Valley redband trout
Oncorhynchus mykiss - Warner Valley redband trout
Oncorhynchus mykiss - Goose Lake redband trout
Oregonichthys kalawatseti - Umpqua chub
Rhinichthys cataractae ssp. - Millicoma dace

Amphibians

Ascaphus montanus – Rocky Mountain tailed frog
Ascaphus truei - Coastal tailed frog
Batrachoseps wrighti - Oregon slender salamander
Plethodon elongatus - Del Norte salamander
Plethodon larselli - Larch Mountain salamander
Plethodon stormi - Siskiyou Mountains salamander
Rana aurora - Northern red-legged frog
Rana boylei - Foothill yellow-legged frog
Rana cascadae - Cascades frog
Rhyacotriton variegatus - Southern torrent salamander

Reptiles

Actinemys marmorata – Western pond turtle
Lampropeltis getula - Common kingsnake
Lampropeltis zonata - California mountain kingsnake
Sceloporus graciosus graciosus - Northern sagebrush lizard

Birds

Accipiter gentilis - Northern goshawk
Agelaius tricolor - Tricolored blackbird
Athene cunicularia hypugaea - Western burrowing owl
Bartramia longicauda - Upland sandpiper
Buteo regalis - Ferruginous hawk
Chlidonias niger - Black tern
Contopus cooperi - Olive-sided flycatcher
Coturnicops noveboracensis - Yellow rail
Empidonax traillii adastus - Willow flycatcher
Haematopus bachmani – Black oystercatcher
Histrionicus histrionicus - Harlequin duck
Icteria virens - Yellow-breasted chat

Melanerpes formicivorus - Acorn woodpecker
Melanerpes lewis - Lewis's woodpecker
Oreortyx pictus - Mountain quail
Patagioenas fasciata - Band-tailed pigeon
Picoides albolarvatus - White-headed woodpecker
Plegadis chihi - White-faced ibis
Poocetes gramineus affinis - Oregon vesper sparrow
Progne subis - Purple martin
Tympanuchus phasianellus columbianus - Columbian sharp-tailed grouse

Mammals

Antrozous pallidus - Pallid bat
Arborimus albipes - White-footed vole
Brachylagus idahoensis - Pygmy rabbit
Corynorhinus townsendii - Townsend's big-eared bat
Euderma maculatum - Spotted bat
Lasionycteris noctivagans - Silver-haired bat
Myotis ciliolabrum - Western small-footed myotis
Myotis evotis - Long-eared myotis
Myotis thysanodes - Fringed myotis
Myotis volans - Long-legged myotis
Myotis yumanensis - Yuma myotis
Sorex preblei - Preble's shrew
Thomomys bottae detumidus - Pistol River pocket gopher
Thomomys bulbivorus - Camas pocket gopher
Thomomys mazama helleri - Gold Beach pocket gopher

Invertebrates

Acetropis americana - American grass bug
Agapetus denningi - Denning's agapetus caddisfly
Agonum belleri - Beller's ground beetle
Allomyia scotti - Scott's apatanian caddisfly
Anodonta californiensis - California floater (mussel)
Apatania tavalva - Cascades apatanian caddisfly
Apoththonius malheuri - Malheur pseudoscorpion
Bombus franklini - Franklin's bumblebee
Chloealetis aspasma - Siskiyou short-horned grasshopper
Cryptochia neosa – Blue Mountains cryptochian caddisfly
Driloleirus macelfreshi - Oregon giant earthworm
Eobrachycentrus gelidae - Mt. Hood brachycentrid caddisfly
Farula davisii - Green Springs Mountain farulan caddisfly
Farula jewetti - Mt. Hood farulan caddisfly
Farula reapiiri - Tombstone Prairie farulan caddisfly
Fluminicola fuscus - Columbia pebblesnail or spire snail
Goeracea oregona - Sagehen Creek goeracean caddisfly
Gomphus lynnae - Lynn's clubtail dragonfly
Homoplectra schuhi - Schuh's homoplectran caddisfly
Kenkia rhynchida - A flatworm (planarian)
Lepidostoma astaneum - Goeden's lepidostoman caddisfly
Littorina subrotundata - Newcomb's littorine snail
Monadenia fidelis minor - Oregon snail (Dalles sideband)
Nebria gebleri siskiyouensis - Siskiyou gazelle beetle
Neothremma andersoni - Columbia Gorge caddisfly
Oligophlebodes mostbento - Tombstone Prairie caddisfly
Pisidium ultramontanum - Montane peaclam
Plebeius saepiolus littoralis - Insular blue butterfly
Pterostichus rothi - Roth's blind ground beetle
Rhyacophila colonus - O'Brien rhyacophilan caddisfly
Rhyacophila haddocki - Haddock's rhyacophilan caddisfly
Rhyacophila unipunctata - One-spot rhyacophilan caddisfly
Stygobromus hubbsi - Malheur Cave amphipod
Zapada wahkeena - Wahkeena Falls flightless stonefly

STATE ENDANGERED SPECIES ACT STATUS

Animals Listed as Endangered

Fish

Chasmistes brevirostris - Shortnose sucker
Deltistes luxatus - Lost River sucker
Gila boraxobius - Borax Lake chub
Oncorhynchus kisutch - Coho salmon (Lower Columbia River/SW Washington Coast ESU)

Animals Listed as Threatened

Fish

Catostomus warnerensis - Warner sucker
Gila bicolor ssp. - Hutton tui chub
Oncorhynchus clarki henshawi - Lahontan cutthroat trout
Oncorhynchus tshawytscha - Chinook salmon (Snake River ESU, fall run)
Oncorhynchus tshawytscha - Chinook salmon (Snake River ESU, spring/summer run)
Rhinichthys osculus ssp. - Foskett Spring speckled dace

Birds

Pelecanus occidentalis californicus - California brown pelican

Mammals

Canis lupus - Gray wolf
Urocyon v. washingtoni - Washington ground squirrel

Birds

Brachyramphus marmoratus - Marbled murrelet
Charadrius nivosus nivosus - Western snowy plover
Strix occidentalis caurina - Northern spotted owl

Mammals

Enhydra lutris - Sea otter
Gulo gulo - Wolverine
Vulpes macrotis - Kit fox

ODFW SENSITIVE SPECIES LIST

Fish

Catostomus microps - Modoc sucker (C)
Catostomus occidentalis lacusanserinus - Goose Lake sucker (V)
Entosphenus minimus - Miller Lake lamprey (V)
Entosphenus tridentatus - Pacific lamprey (V)
Gila alvordensis - Alvord chub (V)
Gila bicolor ssp. - Summer Basin tui chub (C)
Lampetra richardsonii - Western brook lamprey (V)
Oncorhynchus clarki - Coastal cutthroat trout (Southwestern Washington/Columbia River ESU) (V)
Oncorhynchus clarki lewisi - Westslope cutthroat trout (C)
Oncorhynchus keta - Chum salmon (Columbia River ESU) (C)
Oncorhynchus keta - Chum salmon (Pacific Coast ESU) (C)
Oncorhynchus kisutch - Coho salmon (Southern Oregon/Northern California Coasts ESU) (V)
Oncorhynchus kisutch - Coho salmon (Oregon Coast ESU) (V)
Oncorhynchus mykiss gairdneri - Inland Columbia Basin redband trout (V)
Oncorhynchus mykiss - Steelhead (Snake River Basin ESU) (V)
Oncorhynchus mykiss - Steelhead (Klamath Mountains Province ESU, summer run) (V/C)
Oncorhynchus mykiss - Steelhead (Lower Columbia River ESU, summer run) (C)
Oncorhynchus mykiss - Steelhead (Lower Columbia River ESU, winter run) (C)
Oncorhynchus mykiss - Steelhead (Middle Columbia River ESU, summer run) (C)
Oncorhynchus mykiss - Steelhead (Oregon Coast ESU, summer run) (V)
Oncorhynchus mykiss - Steelhead (Oregon Coast ESU, winter run) (V)
Oncorhynchus mykiss - Steelhead (Upper Willamette River ESU, winter run) (V)
Oncorhynchus mykiss - Catlow Valley redband trout (C)
Oncorhynchus mykiss - Chewaucan redband trout (V)
Oncorhynchus mykiss - Fort Rock redband trout (C)
Oncorhynchus mykiss - Goose Lake redband trout (C)
Oncorhynchus mykiss - Klamath Basin redband trout (V)
Oncorhynchus mykiss - Malheur Lakes redband trout (V)
Oncorhynchus mykiss - Warner Valley redband trout (C)
Oncorhynchus tshawytscha - Chinook salmon (Lower Columbia River ESU, spring run) (C)

Oncorhynchus tshawytscha - Chinook salmon (Lower Columbia River ESU, fall run) (C)
Oncorhynchus tshawytscha - Chinook salmon (Middle Columbia River ESU, spring run) (V)
Oncorhynchus tshawytscha - Chinook salmon (Middle Columbia River ESU, fall run) (V)
Oncorhynchus tshawytscha - Chinook salmon (Oregon Coast ESU, spring run) (C)
Oncorhynchus tshawytscha - Chinook salmon (Southern Oregon/Northern California Coast ESU, fall run) (V)
Oncorhynchus tshawytscha - Chinook salmon (Southern Oregon/Northern California Coast ESU, spring run) (V)
Oncorhynchus tshawytscha - Chinook salmon (Upper Willamette River ESU, spring run) (C)
Oregonichthys crameri - Oregon chub (C)
Oregonichthys kalawatseti - Umpqua chub (C)
Rhinichthys cataractae ssp. - Millicoma dace (V)
Salvelinus confluentus - Bull trout (Klamath River population) (C)
Salvelinus confluentus - Bull trout (Deschutes SMU) (V)
Salvelinus confluentus - Bull trout (Grande Ronde SMU) (C)
Salvelinus confluentus - Bull trout (Hells Canyon SMU) (C)
Salvelinus confluentus - Bull trout (Hood River SMU) (C)
Salvelinus confluentus - Bull trout (Imnaha SMU) (C)
Salvelinus confluentus - Bull trout (John Day SMU) (C)
Salvelinus confluentus - Bull trout (Malheur SMU) (C)
Salvelinus confluentus - Bull trout (Odell Lake SMU) (C)
Salvelinus confluentus - Bull trout (Umatilla SMU) (C)
Salvelinus confluentus - Bull trout (Willamette SMU) (C)

Amphibians

Anaxyrus boreas - Western toad (V)
Aneides ferreus - Clouded salamander (V)
Aneides flavipunctatus - Black salamander (V)
Ascaphus montanus - Rocky Mountain tailed frog (V)
Ascaphus truei - Coastal tailed frog (V)
Batrachoseps wrighti - Oregon slender salamander (V)
Dicamptodon copei - Cope's giant salamander (V)
Lithobates pipiens - Northern leopard frog (C)
Plethodon elongatus - Del Norte salamander (V)
Plethodon larselli - Larch Mountain salamander (V)
Plethodon stormi - Siskiyou Mountains salamander (V)

ODFW SENSITIVE SPECIES LIST (continued)

Rana aurora - Northern red-legged frog (V)
Rana boylei - Foothill yellow-legged frog (C/V)
Rana cascadae - Cascades frog (V)
Rana luteiventris - Columbia spotted frog (C/V)
Rana pretiosa - Oregon spotted frog (C)
Rhyacotriton cascadae - Cascade torrent salamander (V)
Rhyacotriton kezeri - Columbia torrent salamander (V)
Rhyacotriton variegatus - Southern torrent salamander (V)

Reptiles

Actinemys marmorata - Western pond turtle (C)
Chrysemys picta - Painted turtle (C)
Crotalus viridis - Western rattlesnake (C)
Lampropeltis getula - Common kingsnake (V)
Lampropeltis zonata - California mountain kingsnake (V)
Sceloporus graciosus graciosus - Northern sagebrush lizard (V)

Birds

Accipiter gentilis - Northern goshawk (V)
Ammodramus savannarum - Grasshopper sparrow (V)
Artemisiospiza belli - Sage sparrow (C)
Athene cunicularia hypugaea - Western burrowing owl (C/V)
Bartramia longicauda - Upland sandpiper (C)
Buteo regalis - Ferruginous hawk (C/V)
Buteo swainsoni - Swainson's hawk (V)
Centrocercus urophasianus - Greater sage-grouse (V)
Cerorhinca monocerata - Rhinoceros auklet (V)
Chordeiles minor - Common nighthawk (C)
Coccyzus americanus - Yellow-billed cuckoo (C)
Contopus cooperi - Olive-sided flycatcher (V)
Coturnicops noveboracensis - Yellow rail (C)
Dolichonyx oryzivorus - Bobolink (V)
Dryocopus pileatus - Pileated woodpecker (V)
Egretta thula - Snowy egret (V)
Empidonax traillii adastus - Willow flycatcher (V)
Empidonax traillii brewsteri - Little willow flycatcher (V)
Eremophila alpestris strigata - Streaked horned lark (C)
Falcapennis canadensis - Spruce grouse (V)
Falco peregrinus anatum - American peregrine falcon (V)
Falco peregrinus tundrius - Arctic peregrine falcon (V)
Fratercula cirrhata - Tufted puffin (V)
Grus canadensis tabida - Greater sandhill crane (V)
Haliaeetus leucocephalus - Bald eagle (V)
Haematopus bachmani - Black oystercatcher (V)

Icteria virens - Yellow-breasted chat (C)
Lanius ludovicianus - Loggerhead shrike (V)
Larus pipixcan - Franklin's gull (V)
Melanerpes formicivorus - Acorn woodpecker (V)
Melanerpes lewis - Lewis's woodpecker (C)
Numerius americanus - Long-billed curlew (V)
Oreortyx pictus - Mountain quail (V)
Otus flammeolus - Flammulated owl (V)
Pelecanus erythrorhynchos - American white pelican (V)
Picoides albolarvatus - White-headed woodpecker (C)
Picoides arcticus - Black-backed woodpecker (V)
Picoides dorsalis - American three-toed woodpecker (V)
Podiceps grisegena - Red-necked grebe (C)
Pooecetes gramineus affinis - Oregon vesper sparrow (C)
Progne subis - Purple martin (C)
Ptychoramphus aleuticus - Cassin's auklet (V)
Sialia mexicana - Western bluebird (V)
Sitta carolinensis aculeata - Slender-billed nuthatch (V)
Strix nebulosa - Great gray owl (V)
Sturnella neglecta - Western meadowlark (C)
Tympanuchus phasianellus columbianus - Columbian sharp-tailed grouse (C)

Mammals

Antrozous pallidus - Pallid bat (V)
Arborimus longicaudus - Red tree vole (V)
Bassariscus astutus - Ringtail (V)
Brachylagus idahoensis - Pygmy rabbit (V)
Corynorhinus townsendii - Townsend's big-eared bat (C)
Euderma maculatum - Spotted bat (V)
Lasionycteris noctivagans - Silver-haired bat (V)
Lasiurus cinereus - Hoary bat (V)
Lepus californicus - Black-tailed jack rabbit (V)
Lepus townsendii - White-tailed jackrabbit (V)
Martes caurina - Pacific marten (V)
Myotis californicus - California myotis (V)
Myotis thysanodes - Fringed myotis (V)
Myotis volans - Long-legged myotis (V)
Odocoileus virginianus leucurus - Columbian white-tailed deer (V)
Pekania pennanti - Fisher (C)
Sciurus griseus - Western gray squirrel (V)

C = Critical

V = Vulnerable

DROPS AND NAME CHANGES since October 2010 list

Fish

Lampetra lethophaga (Pit-Klamath brook lamprey)
Lampetra minima (Miller Lake lamprey)
Lampetra tridentata (Pacific lamprey)
Lampetra tridentata ssp. (Goose Lake lamprey)

Name change, now called *Entosphenus lethophagus*
Name change, now called *Entosphenus minimus*
Name change, now called *Entosphenus tridentatus*
Name change, now called *Entosphenus tridentatus* ssp.

Reptiles

Actinemys marmorata (Pacific pond turtle)

Common name change, now called Western pond turtle

Birds

Amphispiza belli (Sage sparrow)
Charadrius alexandrinus nivosus (Western snowy plover)
Ixobrychus exilis hesperis (Western least bittern)

Name change, now called *Artemisiospiza belli*
Name change, now called *Charadrius nivosus nivosus*
Name change, now called *Ixobrychus exilis* (Least bittern)

Mammals

Martes americana (American marten)
Martes pennanti (Fisher)

Name change, now called *Martes caurina* (Pacific marten)
Name change, now called *Pekania pennanti*

Invertebrates

Bembidion nigricoeeruleum (A carabid beetle)
Deroceras hesperium (Evening fieldslug)
Euphydryas gillettii (Gillette's checkerspot)
Gliabates sp. nov. (Cascades axetail slug)

Dropped, too common
Dropped, part of more common *D. laeve*
Common name correction, Gillett's checkerspot
Name change, now called *Carinacauda stormi*

Nomenclature

Ongoing research has resulted in a number of recent changes which have been included in this version of the booklet. Whenever possible, for vascular plants we have used names and authorities provided by the Oregon Flora Project at the Oregon State University Herbarium. More information on this project is included on page 41.

Lists

This plant list is an update of the 2010 edition of this publication. All status changes for specific taxa reflect new information obtained since then.

Species that have been dropped from the list or have had name changes are not included within the main body of the lists. These are listed separately in the "Drops and Name Changes" section on page 106. If you do not see a species name that had been in the 2010 edition of the booklet, please refer to that section.

The lists are arranged alphabetically by scientific name. Descriptions of the categories and lists can be found in the Introduction on page 1. State distribution is included for all vascular plant taxa in this edition. Distribution information for the non-vascular plants and fungi is not complete.

At the end of the main list, taxa are listed again by status. These include: a) the USFWS Federal Listed, Candidate and Species of Concern, b) the ODA State Listed and Candidate taxa, c) List 1, d) List 2, e) List 3, and f) List 4.

List 1 contains taxa which are endangered or threatened throughout their range or which are presumed extinct. The status of taxa on this list represents its status throughout its range. Species which have been extirpated from Oregon are included with an -ex after the List number (e.g. 1-ex). Taxa known or thought to be extinct throughout their range have an -X following the list number (e.g. 1-X).

List 2 contains taxa which are threatened, endangered or possibly extirpated from Oregon, but are stable or more common elsewhere. Taxa extirpated from Oregon are included with an -ex after the List number (e.g. 2-ex).

List 3 contains taxa for which more information is needed before status can be determined, but which may be threatened or endangered in Oregon or throughout their range.

List 4 contains taxa of concern which are not currently threatened or endangered. This list includes taxa which are very rare but are currently secure, as well as taxa which are declining in numbers or habitat but are still too common to be proposed as threatened or endangered.

Other Information

ORBIC recognizes that fungi are not plants and should be recognized as a distinct kingdom. However, for this booklet they are included with the plants. As in previous editions, information on the fungi in the lists is not as complete as other groups of species. As a result, most remain on the Review List (List 3).

New information on these species has been summarized from recent work, which included extensive herbaria searches and fieldwork from federal agency biologists as well as from OSU faculty and staff. Most of this work was a result of the efforts by the USFS and BLM in implementing the Survey and Manage program of the Northwest Forest Plan. The heritage ranks are the best determination of a species' status, but due to their limited inventory, heritage ranks for fungi are generally less certain than for other vascular and non-vascular species. We hope their inclusion here will stimulate more research and survey, since many of these taxa may be among Oregon's rarest.

ORBIC is interested in obtaining and databasing information for all locations of taxa on Lists 1 and 2. Manual files are maintained for locations of those on List 3 and 4. It is critical that additional information be obtained for List 3 taxa so accurate status determinations can be made. The submission of additional information on status or occurrences of any species included on these lists would be appreciated. Distribution information is based on historical and current reports and is included to aid in searches and to increase knowledge of these taxa.

State Endangered Plant Protection

Native Plant Conservation Program
Oregon Department of Agriculture (ODA)

Matt Groberg, Graduate Student (Botany Program,
OSU)

In 1987, Oregon legislators passed Senate Bill 533 (unofficially the "Oregon Endangered Species Act") at the urging of the Native Plant Society of Oregon and others in the state's botanical community. This bill, and its accompanying statutes (ORS 564.100 through 564.135), directed the state Department of Agriculture (ODA) to conserve and protect those native plant species facing the greatest threats to their survival. The resulting Endangered Species Program (now integrated into the Native Plant Conservation Program in ODA's Plant Division) was initiated in 1988. Currently, there are 60 plant species listed as threatened or endangered in the State of Oregon.

The Native Plant Conservation Program works with governmental agencies, non-governmental organizations, universities, businesses, and individuals to conserve Oregon's rich natural heritage of native plant diversity. This is achieved through two avenues: research and regulation. The research conducted by program staff focuses on taxonomic questions, reproductive biology, disturbance ecology, and population augmentation and creation, providing data in support of listing or delisting species. Such biologically-based projects are critical to the development of accurate status determinations for

many rare plants, including formally listed species, candidate taxa, and species of concern.

On the regulatory side, ODA is responsible for setting the guidelines on listing, reclassification, and delisting plant species as threatened or endangered. In addition, the program is charged with developing and administering a permit system which regulates commercial and research actions involving state-listed plant species. Any person or organization planning to study, collect, cultivate, transplant, reintroduce, or otherwise work with or impact a listed species (for commercial or research purposes) must first apply in advance for a written permit from ODA. If the application is approved, the permittee then provides an annual summary describing completed or ongoing activities for each listed species (see OAR 603-073-0100 and -0110). Regular permits are currently issued free of charge, though ODA may request reasonable reimbursement from applicants for any costs incurred by the department during follow-up permit reviews, report evaluations, or for special services. Contact Bob Meinke or Rebecca Currin if you have any questions regarding permits.

With the exception of the state's ability to regulate the import, export, and commercial trafficking of threatened and endangered plants, Oregon's conservation authority regarding state-listed plants presently extends only to non-federal public lands (state, city, county, public schools and utilities, etc.). Although the statutes do not require private or federal land owners to safeguard species protected under state law, ODA is willing to cooperate with the owners or managers of such lands in conservation efforts if they request assistance. Since 1988, ODA has collaborated with federal agencies such as the Forest Service and BLM (as well as with private organizations and individuals) on over 150 plant conservation research and recovery projects.

ODA has also adopted administrative rules (OAR 603-73-001 through 603-73-0090) that describe departmental procedures for the state listing, reclassification, or de-listing of plant species as threatened or endangered; how to go about petitioning ODA for the listing or delisting of a species; and the regulations and programs designed to assist and direct state land management agencies in their important roles involving native plant protection. If you are interested in learning how state agencies are required

to protect listed plant species, or wish to review other laws and regulations governing threatened and endangered plant management in Oregon, you may download the complete rules at:

http://arcweb.sos.state.or.us/pages/rules/oars_600/oa_r_603/603_073.html

Alternatively, you may write to ODA and ask for a copy of the endangered plant species administrative rules (please cite OAR 603-73-001 through 603-73-0110). Address your request to:

Native Plant Conservation Program
Plant Division

Native Plant Society of Oregon (NPSO) Plant Protection and Education Programs

NPSO has had a long history of working to increase the knowledge and protection of rare plants in Oregon. From involvement in the original Oregon Rare and Endangered Plant Project (1972-1982), to writing and passage of the Oregon Endangered Species Act of 1987, NPSO members have been at the forefront of plant conservation in our state.

In addition to sponsoring and supporting endangered species legislation, NPSO carries on its own rare plant protection program. Members in 13 chapters across the state monitor rare plants in each area, and report findings to our state R&E chair. This information is then incorporated into ORBIC's databases. In addition, each chapter has an active schedule of programs, workshops, and field trips. Our monthly *Bulletin*, and annual journal, *Kalmiopsis* feature articles on Oregon R&E species. New members are always welcome. Please visit our website below for more information about NPSO's Rare & Endangered Plant Program. For information contact us at:

Native Plant Society of Oregon

Oregon Flora Project

The goal of the Oregon Flora Project (OFP) is to provide the public with comprehensive information on the vascular plants growing without cultivation in Oregon. The major components of the Oregon Flora Project are a checklist, flora, photo gallery, and atlas of plant distribution. Information is accessible to the public through the OFP website, <http://www.oregonflora.org>. The OFP is housed in the Botany & Plant Pathology Dept. of Oregon State University and is closely associated with the OSU Herbarium. The work is accomplished by scores of participants, many of whom are volunteers.

The **Oregon Vascular Plant Checklist** is a standardized, documented reference for Oregon vascular plants which allows users to effectively communicate taxonomic concepts across diverse datasets. It serves as the foundation of the OFP by providing a nomenclatural framework for use in all aspects of the Project. The Checklist itemizes all native and exotic species, subspecies, and varieties (taxa) confirmed to grow in Oregon without cultivation, either currently or historically. There are currently 4,540 accepted taxa in the most recent version of the Checklist, Version 1.3, which was published online in August 2013. Each taxon entry lists the accepted scientific name, synonyms, common name, plant origin (native or exotic), location of a voucher specimen, and key bibliographic references. Names are also cross-referenced to nine key floras and field guides that cover portions of the state.

The **Oregon Vascular Plant Atlas** is an online, interactive mapping tool that creates distribution maps of any combination of plant taxa. There are >550,000 mappable records derived from herbarium specimens (from 39 herbaria) and unvouchered observations (from images, species lists, research, and survey projects). Details about each plant occurrence (excluding sensitive plant localities) are available and can be downloaded in spreadsheet format. The Atlas can be accessed at <http://www.oregonflora.org/atlas.php>

The writing of *The Flora of Oregon* is in progress. Development is under the direction of Dr. Stephen Meyers, OFP lead taxonomist. As of August 2013, manuscripts for 34% of the flora are complete. Each

genus will be represented by a full illustration, and taxa with multiple species will have drawings for every 4(-5) species. The *Flora* will be paper published as a two-volume manual and will include identification keys, illustrations, and detailed species descriptions; the target publication date is 2015. The digital *Flora* will additionally feature a multiple entry key and links to supporting OFP data.

The **Oregon Flora Photo Gallery** is an online resource presenting multiple images of Oregon plants. There are field photographs depicting flowers as well as a plant's habitat, general habit, and details of key characters. An image of a representative herbarium specimen for each taxon is also included. Currently there are more than 26,700 searchable images representing ~99% of the taxa in the flora. The OFP is pleased to accept contributed digital images of plants that are accompanied by an identification and locality data.

Digital presentation of Oregon Flora Project data that is accessible and useful to a broad spectrum of users is a key element of the OFP mission. Information is continuously being updated and curated by OFP staff. A restructured website will be released in late 2013 to add new features and streamline data presentation.

Six staff members (totaling 4.1 FTE), student workers, and volunteers comprise the OFP team. An 11-member advisory board supports the OFP mission, as does a Native Plant Society of Oregon liaison. Collectively, participants' backgrounds encompass

plant taxonomy, ecology, horticulture, cartography, GIS, software development, and statistics. To date, thousands of volunteer hours have been donated by hundreds of professionals and amateurs alike.

Since its inception in 1994, approximately 50% of the OFP's funding has come from donations made by individuals, plant-oriented organizations, and the sponsorship of the Native Plant Society of Oregon. Competitive awards cover the balance of expenses, with principal funding from the Bureau of Land Management and the John & Betty Soreng Environmental Fund of the Oregon Community Foundation. Grants from small foundations, societies, and corporations have provided seed money for a number of project activities and have indirectly supported the compilation of primary data. The OFP continues to search for funding opportunities to help accomplish project goals in a timely manner.

To access the resources described, and learn more about the OFP, visit our web site at <http://www.oregonflora.org>. You can also view the online version of the *Oregon Flora Newsletter*, which is published twice yearly.

FEDERAL ENDANGERED SPECIES ACT STATUS

Plants Listed as Endangered

Arabis macdonaldiana
Astragalus applegatei
Erigeron decumbens
Fritillaria gentneri

Lilium occidentale
Limnanthes pumila ssp. *grandiflora*
Lomatium bradshawii
Lomatium cookii

Plagiobothrys hirtus
Stephanomeria malheurensis

Plants Listed as Threatened

Castilleja levisecta
Howellia aquatilis
Lupinus oregonus

Mirabilis macfarlanei
Sidalcea nelsoniana
Silene spaldingii

Thelypodium howellii ssp. *spectabilis*

Candidate Plants for Listing

Artemisia campestris var. *wormskioldii*

Calochortus persistens

Pinus albicaulis

Species of Concern

Abronia umbellata ssp. *breviflora*
Achnatherum hendersonii
Achnatherum wallowaensis
Agrostis hendersonii
Agrostis howellii
Allium dictuon
Allium robinsonii
Amsinckia carinata
Anemone oregana var. *felix*
Arabis hastatula
Arabis koehleri var. *koehleri*
Arabis modesta
Arabis suffrutescens var. *horizontalis*
Arctostaphylos hispidula
Artemisia ludoviciana ssp. *estesii*
Astragalus collinus var. *laurentii*
Astragalus mulfordiae
Astragalus tegetarioides
Bensoniella oregana
Botrychium ascendens
Botrychium campestre
Botrychium crenulatum
Botrychium montanum
Botrychium paradoxum
Botrychium pedunculatum
Calochortus coxii
Calochortus greenei
Calochortus howellii
Calochortus longebarbatus var. *peckii*
Calochortus macrocarpus var. *maculosus*
Calochortus nitidus
Calochortus umpquaensis
Camissonia pygmaea
Cardamine pattersonii
Carex idahoa
Castilleja chambersii
Castilleja fraterna
Castilleja mendocinensis
Castilleja rubida
Castilleja rupicola
Caulanthus major var. *nevadensis*
Collomia renacta
Cordylanthus maritimus ssp. *palustris*
Corydalis aquae-gelidae
Cupressus bakeri
Cymopterus acaulis var. *greeleyorum*
Cypripedium fasciculatum
Delphinium leucophaeum
Delphinium oregonum
Delphinium pavonaceum

Dicentra pauciflora
Dodecatheon austrofrigidum
Epilobium oregonum
Epilobium siskiyouense
Erigeron cervinus
Erigeron engelmannii var. *davisii*
Erigeron howellii
Erigeron oregonus
Eriogonum chrysops
Eriogonum crosbyae
Eriogonum cusickii
Eriogonum prociduum
Eriogonum umbellatum var. *glaberrimum*
Erysimum menziesii ssp. *concinnum*
Erythronium elegans
Eucephalus vialis
Filipendula occidentalis
Fritillaria purdyi
Galium serpenticum ssp. *warnerense*
Gentiana plurisetosa
Gentiana setigera
Gilia millefoliata
Gratiola heterosepala
Hackelia cronquistii
Hastingsia bracteosa var. *atropurpurea*
Hastingsia bracteosa var. *bracteosa*
Horkelia congesta ssp. *congesta*
Horkelia hendersonii
Hymenoxys lemmonii
Ivesia rhypara var. *rhypara*
Ivesia rhypara var. *shellyi*
Kalmiopsis fragrans
Lasthenia ornduffii
Lathyrus holochlorus
Lepidium davisii
Leptodactylon pungens ssp. *hazeliae*
Lilium kelloggii
Limbella fryei (moss)
Limnanthes floccosa ssp. *bellingieriana*
Limnanthes floccosa ssp. *pumila*
Lomatium erythrocarpum
Lomatium greenmanii
Lomatium ochocense
Lomatium suksdorfii
Luina serpentina
Lupinus lepidus var. *ashlandensis*
Lupinus lepidus var. *cusickii*
Meconella oregana
Mentzelia mollis
Mentzelia packardiae

Microseris laciniata ssp. *detlingii*
Mimulus evanescens
Mimulus hymenophyllus
Monardella purpurea
Myosurus sessilis
Oenothera wolfii
Packeria hesperia
Penstemon barrettiae
Penstemon glaucinus
Penstemon peckii
Perideridia erythrorhiza
Phacelia argentea
Phacelia inundata
Phacelia leonis
Phacelia lutea var. *mackenzieorum*
Phacelia minutissima
Plagiobothrys figuratus ssp. *corallicarpus*
Plagiobothrys salsus
Pleuropogon oregonus
Poa unilateralis
Pogogyne floribunda
Polyctenium williamsiae
Pyrrocoma radiata
Ranunculus triternatus
Rubus bartonianus
Saxifraga hitchcockiana
Senecio ertterae
Sericocarpus rigidus
Sidalcea hendersonii
Sidalcea hirtipes
Sidalcea malachroides
Sidalcea malviflora ssp. *patula*
Silene douglasii var. *oraria*
Sisyrinchium hitchcockii
Sisyrinchium sarmentosum
Sophora leachiana
Stanleya confertiflora
Sullivantia oregana
Tauschia howellii
Texosporium sancti-jacobi (lichen)
Thelypodium brachycarpum
Thelypodium eucosmum
Thelypodium howellii ssp. *howellii*
Trifolium douglasii
Trifolium leibergii
Trifolium owyheense
Triteleia hendersonii var. *leachiae*
Viola primulifolia ssp. *occidentalis*
Zigadenus fontanus

Plants Listed as Endangered

Abronia umbellata ssp. *breviflora*
Arabis macdonaldiana
Artemisia campestris var. *wormskioldii*
Artemisia applegatei
Astragalus mulfordiae
Calochortus coxii
Calochortus indecorus
Calochortus umpquaensis
Castilleja levisecta
Chloropyron maritimum ssp. *palustre*

Delphinium leucophaeum
Delphinium pavonaceum
Erigeron decumbens
Fritillaria gentneri
Ivesia rhypara var. *rhypara*
Lilium occidentale
Limnanthes pumila ssp. *grandiflora*
Lomatium bradshawii
Lomatium cookii
Lomatium erythrocarpum

Lupinus lepidus var. *cusickii*
Mentzelia mollis
Mirabilis macfarlanei
Plagiobothrys hirtus
Plagiobothrys lamprocarpus
Pyrrocoma radiata
Silene spaldingii
Stephanomeria malheurensis
Thelypodium howellii ssp. *spectabilis*
Trifolium owyheense

Plants Listed as Threatened

Amsinckia carinata
Astragalus collinus var. *laurentii*
Astragalus cusickii var. *sterilis*
Astragalus diaphanus var. *diurnus*
Astragalus peckii
Astragalus tyghensis
Botrychium pumicola
Calochortus howellii
Eriogonum chrysops
Eriogonum crosbyae var. *crosbyae*
Eriogonum crosbyae var. *mystrium*

Erythronium elegans
Eucephalus vialis
Gratiola heterosepala
Hackelia cronquistii
Hastingsia bracteosa var. *bracteosa*
Hastingsia bracteosa var. *atropurpurea*
Howellia aquatilis
Lepidium davisii
Limnanthes pumila ssp. *pumila*
Lomatium greenmanii
Lupinus oreganus

Mentzelia packardiae
Microseris howellii
Oenothera wolfii
Phacelia argentea
Pleuropogon oregonus
Sericocarpus rigidus
Sidalcea nelsoniana
Silene douglasii var. *oraria*
Thelypodium eucosmum

State Candidate Taxa

Achnatherum hendersonii
Agrostis howellii
Arabis koehleri var. *koehleri*
Asarum wagneri
Astragalus tegetarioides
Bensoniella oregana
Boechera horizontalis
Bolandra oregana
Botrychium ascendens
Botrychium crenulatum
Botrychium paradoxum
Botrychium pedunculatum
Calochortus greenei
Calochortus longebarbatus var. *peckii*
Calochortus persistens
Camassia howellii
Cardamine nuttallii var. *gemma*
Cardamine pattersonii
Caulanthus major var. *nevadensis*
Cimicifuga elata var. *alpestris*
Cimicifuga elata var. *elata*
Collomia renacta
Corydalis aquae-gelidae
Cypripedium fasciculatum
Delphinium oreganum

Draba howellii
Epilobium oreganum
Epilobium siskiyouense
Eremothera pygmaea
Erigeron howellii
Erigeron oreganus
Eriogonum cusickii
Eriogonum prociduum
Filipendula occidentalis
Frasera umpquaensis
Gentiana setigera
Hackelia diffusa var. *diffusa*
Horkelia congesta ssp. *congesta*
Lasthenia ornduffii
Limbella fryei (moss)
Limnanthes alba var. *gracilis*
Limnanthes floccosa ssp. *bellingermaniana*
Lomatium suksdorfii
Luina serpentina
Lupinus lepidus var. *ashlandensis*
Meconella oregano
Micranthes hitchcockiana
Mimulus evanescens
Mimulus hymenophyllus
Mimulus jungermannioides

Mimulus patulus
Montia howellii
Myosurus sessilis
Packera hesperia
Penstemon barrettiae
Perideridia erythrorhiza
Phacelia minutissima
Plagiobothrys figuratus ssp. *corallicarpus*
Ranunculus austrooreganus
Rorippa columbiae
Rubus bartonianus
Sedum moranii
Sedum oblanceolatum
Senecio ertterae
Sidalcea campestris
Sidalcea hirtipes
Sidalcea malviflora ssp. *patula*
Sisyrinchium sarmentosum
Sophora leachiana
Streptanthus howellii
Sullivantia oregana
Tauschia howellii
Trifolium leibergii
Triteleia hendersonii var. *leachiae*
Viola primulifolia ssp. *occidentalis*

DROPS AND NAME CHANGES since October 2010 list

Vascular Plants

<i>Achnatherum wallowaensis</i>	Name change, now called <i>Achnatherum wallowense</i>
<i>Arabis davidsonii</i>	Name change, now called <i>Boecheera davidsonii</i>
<i>Arabis hastatula</i>	Name change, now called <i>Boecheera hastatula</i>
<i>Arabis sparsiflora</i> var. <i>atrorubens</i>	Name change, now called <i>Boecheera atrorubens</i>
<i>Arabis suffrutescens</i> var. <i>horizontalis</i>	Name change, now called <i>Boecheera horizontalis</i>
<i>Asplenium trichomanes-ramosum</i>	Name change, now called <i>Asplenium viride</i>
<i>Callitriche hermaphroditica</i>	Dropped, taxonomic issues, synonym of <i>Callitriche fassettii</i>
<i>Camissonia boothii</i> ssp. <i>boothii</i>	Name change, now called <i>Eremothera boothii</i> ssp. <i>boothii</i>
<i>Camissonia graciliflora</i>	Name change, now called <i>Tetrapteron graciliflorum</i>
<i>Camissonia ovata</i>	Name change, now called <i>Taraxia ovata</i>
<i>Camissonia palmeri</i>	Name change, now called <i>Tetrapteron palmeri</i>
<i>Camissonia pygmaea</i>	Name change, now called <i>Eremothera pygmaea</i>
<i>Cardamine nuttallii</i> var. <i>covilleana</i>	Dropped, taxonomic issues, synonym of <i>C. nuttallii</i> var. <i>nuttallii</i>
<i>Cardamine nuttallii</i> var. <i>dissecta</i>	Dropped, taxonomic issues, synonym of <i>C. nuttallii</i> var. <i>nuttallii</i>
<i>Cochlearia officinalis</i>	Dropped, not documented from the state; ours <i>C. groenlandica</i>
<i>Cordylanthus maritimus</i> ssp. <i>palustre</i>	Name change, now called <i>Chloropyron maritimum</i> ssp. <i>palustre</i>
<i>Cupressus bakeri</i>	Name change, <i>Hesperocyparis bakeri</i>
<i>Delphinium bicolor</i>	Dropped, not documented from the state
<i>Draba lemmonii</i> var. <i>cyclomorpha</i>	Name change, <i>Draba cyclomorpha</i>
<i>Epilobium latifolium</i>	Name change, <i>Chamerion latifolium</i>
<i>Ericameria discoidea</i> var. <i>discoidea</i>	Name change, now called <i>Ericameria discoidea</i>
<i>Erigeron engelmannii</i> var. <i>davisii</i>	Name change, now called <i>Erigeron davisii</i>
<i>Erysimum menziesii</i> ssp. <i>concinnum</i>	Name change, now called <i>Erysimum concinnum</i>
<i>Gentianopsis holopetala</i>	Dropped, not documented from the state
<i>Gilia salticola</i>	Dropped, not documented from the state
<i>Gilia sinistra</i> ssp. <i>sinistra</i>	Name change, now called <i>Navarretia sinistra</i> ssp. <i>sinistra</i>
<i>Hymenoxys lemmonii</i>	Dropped, not documented from the state; ours <i>H. cooperi</i> var. <i>canescens</i>
<i>Juncus hemiendytus</i> var. <i>hemiendytus</i>	Dropped, too common
<i>Lesquerella douglasii</i>	Name change, now called <i>Physaria douglasii</i> ssp. <i>douglasii</i>
<i>Lesquerella kingii</i> ssp. <i>diversifolia</i>	Name change, now called <i>Physaria kingii</i> ssp. <i>diversifolia</i>
<i>Limnanthes gracilis</i> ssp. <i>gracilis</i>	Name change, now called <i>Limnanthes alba</i> ssp. <i>gracilis</i>
<i>Limnanthes floccosa</i> ssp. <i>grandiflora</i>	Name change, now called <i>Limnanthes pumila</i> ssp. <i>grandiflora</i>
<i>Limnanthes floccosa</i> ssp. <i>pumila</i>	Name change, now called <i>Limnanthes pumila</i> ssp. <i>pumila</i>
<i>Lupinus sulphureus</i> ssp. <i>kincaidii</i>	Name change, now called <i>Lupinus oreganus</i>
<i>Luzula arcuata</i> ssp. <i>unalaschensis</i>	Dropped, not documented from the state
<i>Melica californica</i>	Dropped, not documented from the state
<i>Pellaea mucronata</i> ssp. <i>mucronata</i>	Dropped, not documented from the state
<i>Poa interior</i>	Dropped, not documented from the state
<i>Poa unilateralis</i>	See <i>P. unilateralis</i> ssp. <i>pachypholis</i> and <i>P. unilateralis</i> ssp. <i>unilateralis</i>
<i>Populus angustifolia</i>	Dropped, not documented from the state
<i>Potamogeton filiformis</i>	Name change, now called <i>Stuckenia filiformis</i> ssp. <i>alpinus</i> and <i>Stuckenia filiformis</i> ssp. <i>occidentalis</i>
<i>Potamogeton pusillus</i> ssp. <i>tenuissimus</i>	Name change, now called <i>Potamogeton berchtoldii</i>
<i>Potamogeton striatus</i>	Name change, now called <i>Stuckenia striata</i>
<i>Potamogeton vaginatus</i>	Dropped, not documented from the state
<i>Ranunculus verecundus</i>	Dropped, taxonomic issues
<i>Salix orestera</i>	Dropped, not documented from the state
<i>Saxifraga hitchcockiana</i>	Name change, now called <i>Micranthes hitchcockiana</i>
<i>Senecio porteri</i>	Name change, now called <i>Packera porteri</i>
<i>Scirpus heterochaetus</i>	Name change, now called <i>Schoenoplectus heterochaetus</i>
<i>Silene serpentinicola</i>	Name change, now called <i>Silene hookeri</i> ssp. <i>serpentinicola</i>
<i>Thlaspi montanum</i> var. <i>siskiyouense</i>	Name change, now called <i>Noccaea fendleri</i> ssp. <i>siskiyouense</i>

Fungi

<i>Balsamia alba</i>	Dropped, too common
<i>Cortinarius "barlowensis"</i>	Being described, <i>Cortinarius barlowensis</i>
<i>Gomphus kauffmanii</i>	Dropped, too common
<i>Hygrophorus caeruleus</i>	Dropped, too common
<i>Leucogaster citrinus</i>	Dropped, too common
<i>Ramaria concolor</i> forma <i>tsugina</i>	Name change, now called <i>Ramaria tsugina</i>
<i>Ramaria rubella</i> var. <i>blanda</i>	Name change, now called <i>Ramaria rubella</i> forma <i>blanda</i>
<i>Ramaria spinulosa</i> var. <i>diminutiva</i>	Dropped, not documented from the state

DROPS AND NAME CHANGES (continued)

Lichens

<i>Bryoria spiralifera</i>	Dropped, too common
<i>Chaenotheca subroscida</i>	Dropped, too common
<i>Erioderma soledatum</i>	Dropped, too common
<i>Heterodermia leucomela</i>	Dropped, too common
<i>Hypogymnia duplicata</i>	Dropped, too common
<i>Lecanora pringlei</i>	Dropped, too common
<i>Leptogium teretiusculum</i>	Dropped, too common
<i>Ochrolechia subplicans</i> var. <i>subplicans</i>	Name change, now called <i>Ochrolechia subplicans</i> ssp. <i>subplicans</i>
<i>Sulcaria badia</i>	Dropped, too common
<i>Usnea "lambii"</i>	Officially described, <i>Usnea lambii</i>
<i>Usnea subgracilis</i>	Name change, now called <i>Usnea schadenbergiana</i>

Liverworts

<i>Chiloscyphus gemmiparus</i>	Name change, now called <i>Rivulariella gemmipara</i>
<i>Diplophyllum plicatum</i>	Dropped, too common
<i>Herbertus aduncus</i>	Name change, now called <i>Herbertus aduncus</i> ssp. <i>aduncus</i>
<i>Tritomaria exsectiformis</i>	Dropped, too common

Mosses

<i>Codriophorus depressus</i>	Name change, now called <i>Racomitrium depressum</i>
<i>Codriophorus ryszardii</i>	Name change, now called <i>Racomitrium ryszardii</i>
<i>Schistostega pennata</i>	Dropped, too common

OREGON BIODIVERSITY INFORMATION CENTER

RARE PLANT FIELD SURVEY FORM

Please complete all entries in the top section. Please complete as much as possible the more detailed numbered sections. You may use the back for comments or additional space. If attaching a map of the location, we prefer something of the same quality as a USGS 7.5' map.

Scientific Name: _____

Date of Field Work: _____ County: _____ Collection: ___ Yes (_____), ___ No
mo. day year coll #, herbarium

Directions: _____

Reporter: _____ Phone: _____

Address: _____

1. LOCATION - Attach separate map or sketch a map indicating exact site, scale and proximity to prominent features.

- A. Plant found? ___ Yes ___ No If no, reason: _____
- B. Location: T _____ R _____ Sec _____ 1/4 of _____ 1/4 (use back for more TRS)
- C. Source of GPS coordinates (circle one): GPS (make & model _____) or map (type & scale _____)
 GPS accuracy distance: _____ (circle: feet or meters)
 Datum (circle): Nad 27, Nad 83, other _____. Easting/Longitude _____ Northing/Latitude _____
 Coordinate System (circle): UTM (Zone 10), UTM (Zone 11) or Latitude/Longitude
- D. Owner/Manager: _____

2. SPECIES BIOLOGY

- A. Phenology: _____ % in flower, _____ % in fruit, _____ % in leaf
- B. Population size: Number of plants: _____ Area occupied: _____
- C. Age Class: _____ % seedlings, _____ % immature, _____ % 1st year, _____ % mature, _____ % senescent

3. HABITAT

- A. Plant communities/Habitat Description/Associated species: _____

- B. Aspect: _____ (enter compass direction(s) or degrees)
- C. Slope: ___ slight (0°-20°), ___ moderate (20°-45°), ___ extreme (45°+), ___ vertical
- D. Topographic position: ___ crest, ___ upper slope, ___ mid-slope, ___ lower slope, ___ bottom
- E. Light: ___ open, ___ filtered, ___ shade
- F. Moisture: ___ inundated, ___ saturated, ___ moist, ___ dry
- G. Elevation range: _____ to _____ (choose unit: feet or meters)
- H. Substrate/soil: _____
- I. Visible threats/potential disturbance: _____

4. DETERMINATION - How was plant identified? (choose one or more, please fill in the source for each choice)

- ___ keyed in flora, ___ compared with specimen, ___ compared with photo/drawing,
 ___ identified by someone else, ___ other.
- Source (name of flora/which specimen/which drawing/name of identifier): _____

5. PHOTOGRAPHS/SLIDES

Did you take a print or slide: ___ Yes (specify which), ___ No. May we obtain duplicates at our cost? ___ Yes ___ No

OREGON BIODIVERSITY INFORMATION CENTER
ANIMAL FIELD SURVEY FORM

If possible, please attach a map of the location, preferably something of the same quality as a USGS 7.5' map. Also please include any photos or sketches and measurements when appropriate.

Basic Data

Scientific Name: _____

Date of Field Work: _____ County: _____

Observer: _____ Phone/E-mail: _____

Affiliation/Address: _____

Locality Data

Site Name: _____ Directions: _____

Township _____ Range _____ Section _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$

Datum (circle): Nad 27, Nad 83, other _____ Easting/Longitude _____ Northing/Latitude _____

Source of GPS coordinates (circle one): GPS (make & model _____) or map (type & scale _____)

GPS accuracy distance: _____ (circle: feet or meters)

Coordinate System (circle): UTM (Zone 10), UTM (Zone 11) or Latitude/Longitude

Ownership: _____

Species Biology

Approximate # of Animals: _____ Sex/Age: _____

Site Function for Species: _____

Population trends at Site: _____

Habitat

General Description: _____

Associated Plants/Animals: _____

Disturbance/Threats: _____

Other knowledgeable individuals/Comments: _____

ACKNOWLEDGMENTS

ANIMALS

Revisions to the current edition included status changes made by ODFW, USFWS and NOAA Fisheries. Our thanks to these agencies for their continued efforts to protect and study Oregon's fauna. Dana Ross kindly allowed use of his photo for the cover of this book. Our appreciation goes, as always, to the many vertebrate and invertebrate biologists who contributed directly or indirectly and whose comments and criticisms were incorporated into this booklet. In 2013, the following biologists contributed to this effort: Jocelyn Akins, Chris Allen, Bob Altman, Keith Aubry, Barb Bresson, Charlie Bruce, Tom Burke, Bruce Bury, James Capurso, Brett Carre, John Fleckenstein, Sarah Foltz Jordan, Geoff Hammerson, Andrea Hanson, Tyler Hicks, Betsy Howell, Richard Hoyer, Rob Huff, Carol Hughes, Sarina Jepsen, James LaBonte, Christopher Marshall, Kim Nelson, Robert Nichols, Martin Nugent, Deanna Olson, Mark Penninger, Iral Ragenovich, Katherine Ramsey, Jason Reilly, Dana Ross, Randy Scarlett, Nicole Sears, Terry Smith, Robin Snider, Alan St. John, Richard Vacirca, Tom Valente, Steve Valley, Kelli Van Norman, and Tiffany Young.

PLANTS AND FUNGI

Many of the changes made since the last edition of this booklet in 2010 resulted from the Rare and Endangered Plant Conference held at Oregon State University, Corvallis, Oregon in October 2012. We thank all conference participants and others who have contributed to this project. Many of the improvements in the information included in this booklet are a result of efforts by the professional botanists of the Oregon Department of Agriculture, the U.S. Forest Service and the Bureau of Land Management, and the amateur and professional botanists of the Native Plant Society of Oregon.

Michael Castellano (USFS) compiled the original list of fungi, to which additions have been recommended by agency and university mycologists, and the Oregon Mycological Society. Early contributors included Efren Cazares, Janet Lindgren, Randy Molina, Lorelei Norvell, Judy Roger, James Trappe, and Nancy Weber.

Special thanks go to Stephen Meyers at Oregon State University, who serves as the Taxonomic Director for the Oregon Flora Project and the arbiter for ORBIC and for this publication. We also would like to continue to recognize the years of help and support from Ken and Henny Chambers and from Peter Zika, in providing us with taxonomic guidance and assistance.

Primary sources of expertise for this edition include:

Carex: Carex Working Group – Richard Brainerd, Nick Otting, and Barbara Wilson. Previous Carex Working Group participants and contributors included Manuela Huso, Keli Kuykendall, Danna Lytjen, Bruce Newhouse, and Peter Zika.

Ferns: Ed Alverson, Frank Lang, David Wagner and Peter Zika.

Liverworts: John Christy, Amanda Hardman, Richard Helliwell, Scot Loring, Daphne Stone, Duncan Thomas, Chris Wagner, and David Wagner.

Marine Algae: David and Dianne Bilderback, Gayle Hansen

Mosses: John Christy, Clint Emerson, Ron Exeter, Doug Goldenberg, Amanda Hardman, Judith Harpel, Richard Helliwell, David Kofranek, Jenny Lippert, Scot Loring, Cheshire Mayrsohn, Bruce Newhouse, Wayne Rolle, Daphne Stone, Duncan Thomas, Chris Wagner, David Wagner and Rob Weiss.

Fungi: Johanna Fickenscher, Doug Goldenberg, Clint Emerson, Ron Exeter, Jenny Lippert, Scot Loring, Kelli Van Norman, Darci Rivers-Pankratz, and Darlene Southworth.

Lichens: Clint Emerson, Ron Exeter, Doug Glavich, Doug Goldenberg, Richard Helliwell, Jenny Lippert, Scot Loring, Bruce McCune, Bruce Newhouse, Keith Saylor, Steve Sheehy, Daphne Stone, Rob Taylor, and Rob Weiss.

CODES AND ABBREVIATIONS

FEDERAL STATUS

LE	Listed as an Endangered Species
LT	Listed as a Threatened Species
PE	Proposed as an Endangered Species
PT	Proposed as a Threatened Species
C	Candidate for Listing as Threatened or Endangered
SOC	Species of Concern - Taxa for which additional information is needed to support a proposal to list under the ESA

STATE STATUS – ANIMALS

LE	Listed as an Endangered Species
LT	Listed as a Threatened Species
PE	Proposed as an Endangered Species
PT	Proposed as a Threatened Species
SC	Sensitive - Critical
SV	Sensitive - Vulnerable

STATE STATUS – PLANTS

LE	Listed as an Endangered Species
LT	Listed as a Threatened Species
PE	Proposed as an Endangered Species
PT	Proposed as a Threatened Species
C	Candidate for Listing as Threatened or Endangered

ECOREGIONS

BM	Blue Mountains (includes High Lava Plains)
BR	Northern Basin and Range (includes Owyhee Uplands)
CB	Columbia Basin
CR	Coast Range
EC	East Cascades
KM	Klamath Mountains
ME	Marine and Estuarine
WC	West Cascades and Crest
WV	Willamette Valley

STATES AND PROVINCES

AB	Alberta	NV	Nevada
AK	Alaska	NJ	New Jersey
AZ	Arizona	NM	New Mexico
AR	Arkansas	NY	New York
BC	British Columbia	NC	North Carolina
CA	California	NT	NW Territories
CO	Colorado	NS	Nova Scotia
HI	Hawaii	ON	Ontario
ID	Idaho	QC	Quebec
KS	Kansas	SK	Saskatchewan
LA	Louisiana	TN	Tennessee
MB	Manitoba	UT	Utah
MA	Massachusetts	WA	Washington
MS	Mississippi	WI	Wisconsin
MT	Montana	WY	Wyoming

NATURAL HERITAGE RANKS

G1	Critically imperiled throughout its range
G2	Imperiled throughout its range
G3	Rare, threatened or uncommon throughout its range
G4	Not rare, apparently secure throughout its range
G5	Widespread, abundant and secure throughout its range
S1	Critically imperiled in Oregon
S2	Imperiled in Oregon
S3	Rare, threatened or uncommon in Oregon
S4	Not rare, apparently secure in Oregon
S5	Widespread, abundant and secure in Oregon
T	Rank for a subspecies, variety, or race
Q	Taxonomic questions
H	Historic, formerly part of the native biota with the implied expectation that it may be rediscovered
X	Presumed extirpated or extinct
U	Unknown rank
NR	Not yet ranked
B	Rank of the breeding population (migratory birds)
N	Rank of the wintering population (migratory birds)

MISCELLANEOUS

ESA	Endangered Species Act
EPA	Environmental Protection Agency
FED	Federal
NOAA	National Oceanic and Atmospheric Administration
ODA	Oregon Department of Agriculture
ODFW	Oregon Department of Fish and Wildlife
OESA	Oregon Endangered Species Act
ORBIC	Oregon Biodiversity Information Center
sp. nov.	species novum (new species) - in the process of being described in the literature
ssp.	subspecies
ssp. nov.	subspecies novum (new subspecies) - in the process of being described in the literature
TNC	The Nature Conservancy
USFS	United States Forest Service
USFWS	United States Fish and Wildlife Service
var.	variety
+	taxon occurs in additional states

ORBIC LISTS

1	Threatened or Endangered Throughout Range
2	Threatened, Endangered or Extirpated from Oregon, but Secure or Abundant Elsewhere
3	Review
4	Watch
1-ex	Extirpated in Oregon
2-ex	Extirpated in Oregon
1-X	Presumed extinct
