INTRODUCTION

Extinction is a natural process. Today, however, plant and animal species are disappearing world-wide at an accelerated pace. Based on current trends, almost half of the species on earth could be extinct within the next 100 years. The major reasons for this are human caused changes to the environment, which continue to increase - in Oregon and throughout the world.

Once lost, a species can never be recovered, and there is no way of knowing how useful it may have been. We do know that human beings and many of their industries depend on plant and animal products. About 50% of all pharmaceuticals have a natural component as an active ingredient, yet less than one percent of the world's species have been chemically analyzed and tested. Many insects and plants contain undescribed and highly functional compounds.

Limnanthes pumila ssp. *grandiflora*, or big-flowered woolly meadowfoam, a rare plant that grows in southwest Oregon, has been found to produce a hybrid with the more common member of the genus, *Limnanthes alba*. This hybrid grows well in the poorly drained soils of the Willamette Valley and produces a valuable oil used for soaps, plastic and rubber production. In addition, the new hybrid meadowfoam does not require the field burning necessary for other crops. This species, and many other Oregon natives, will be lost without intervention. The purpose of this publication is to provide land managers, owners and interested parties with a list of those species in Oregon which are in greatest jeopardy.

Oregon State Endangered Species Programs

In 1987, the Oregon Legislature passed an Endangered Species Act which gave the Oregon Department of Agriculture (ODA) responsibility and jurisdiction over threatened and endangered plants, and reaffirmed the Oregon Department of Fish and Wildlife's (ODFW) responsibility for threatened and endangered fish and wildlife. Both of these agencies have entered into cooperative (Section 6) agreements with the United States Fish and Wildlife Service (USFWS) for the purpose of carrying out research and conservation programs for animals and plants under the auspices of the federal Endangered Species Act. Oregon Parks and Recreation Department (OPRD) has a similar agreement with USFWS for invertebrates.

More information on the state endangered species programs can be found at the beginning of the animal and plant sections of this book.

Oregon Biodiversity Information Center

The Oregon Biodiversity Information Center (ORBIC) is part of the Institute for Natural Resources (INR) located at Portland State University (PSU). ORBIC maintains extensive databases of Oregon biodiversity, concentrating on rare and endangered plants, animals and ecosystems. ORBIC is affiliated with the Natural Heritage network with standard information being coordinated by the NatureServe organization across the U.S., Canada, and much of Latin America.

ORBIC is managed by PSU, but has been a cooperative program with significant support or assistance from Oregon State University, The Nature Conservancy in Oregon, the Bureau of Land Management (BLM), the U.S. Forest Service (USFS), the Department of State Lands, USFWS, OPRD, and ODFW. Biologists working for these agencies, together with the state's herbaria and museums, provide most of the information that comprise ORBIC's databases. ORBIC also manages the state Natural Areas Program with OPRD, Section 6 invertebrate program for OPRD, and tracks invasive species data through the Oregon iMapInvasives program.

This book has been compiled using the most current information available on the distribution and abundance of plants and animals native to Oregon. Taxonomic experts who were consulted for this edition are listed in the Acknowledgments section. Although based on a large volume of information, it is by no means complete. Much is known about some species, very little about others. ORBIC welcomes additional information or recommendations regarding any of the taxa listed herein. Such information, as well as data requests, should be directed to:

Outline

This book is divided into animal and plant (including lichen and fungi) sections. The sections begin with a description of the animal and plant programs in the state and are followed by the main list of animals and plants.

For animals, the list is first divided into major groups (fish, amphibians, reptiles, mammals, birds, and invertebrates) and then arranged alphabetically by scientific name. Invertebrates are further divided by class and order. The plant list is first divided into four groups (vascular plants, non-vascular plants, lichens and fungi) and then alphabetized by scientific name.

The information for each taxa includes: the scientific and common names with authorities for plants; county, ecoregion, and adjacent state distribution information; the state and federal status; the NatureServe/Heritage Network Global and State ranks; and the ORBIC list number. Distribution abbreviations are explained below.

Criteria and Definitions

Inclusion of any given taxon on these lists is based on several specific criteria. The most important factors are the total number of known, extant populations in Oregon and world-wide, and the degree to which they are potentially or actively threatened with destruction. Other criteria include the number of known populations considered to be securely protected, the size of the various populations, and the ability of the taxon to persist at known sites.

The taxonomic distinctness of each species also has been considered. Hybrids and questionable or undescribed species have not been included, although undescribed taxa that are recognized by the scientific community in Oregon are included, particularly for fish and invertebrates. These criteria are also used in development of NatureServe/Natural Heritage Network species ranks.

Definitions and explanations of the various ranks and federal and state statuses are provided in the Definitions section and summarized on the back inside cover along with a list of abbreviations. A number of definitions and criteria specific to animals (e.g., wintering or breeding ranks in birds) are discussed in detail at the beginning of the animal section of this book.

DISTRIBUTION INFORMATION

Distribution Information

The distribution information included on the lists represents both the current and historic, documented distribution of the taxa.

Distributions for each taxa are listed in the summary species lists in the following format: Ecoregions; States (and/or Canadian Provinces); and Counties. Out-of-state distribution information is complete for plant and animal taxa on ORBIC List 1 (which are usually Oregon or regional endemics). For all other taxa, all adjacent states or the closest state with occurrences will be listed; a plus sign (+) signifies that the taxa is found in additional states. Taxa with no other states noted are Oregon endemics. For the most part, the Ecoregion, County and State distribution is based on both historic and current information. Any additional input on distribution will be incorporated in future updates of this publication.

Ecoregions

ORBIC divides the state into nine distinct regions based on geologic and vegetative patterns. The map and the regions are based on the Environmental Protection Agency's Level 3 ecoregions. The Ecoregions are: BM = Blue Mountains, BR = Northern Basin and Range, CB = Columbia Basin, CR = Coast Range, EC = East Cascade Range, KM = Klamath Mountains, ME=Marine and Estuarine, WC = West Cascade Range and Crest, and WV = Willamette Valley.

Counties

Oregon has thirty-six counties. The abbreviations used in the book are made from the first four letters of each county name. The county names are: Baker, Benton, Clackamas, Clatsop, Columbia, Coos, Crook, Curry, Deschutes, Douglas, Gilliam, Grant, Harney, Hood River, Jackson, Jefferson, Josephine, Klamath, Lake, Lane, Lincoln, Linn, Malheur, Marion, Morrow, Multnomah, Polk, Sherman, Tillamook, Umatilla, Union, Wallowa, Wasco, Washington, Wheeler, and Yamhill. The county information included is based on data in the ORBIC database. Please notify us of mistakes or omissions.

States and Canadian Provinces and Territories

State, provincial, and territorial distribution is included on the lists primarily to alert biologists to the distribution of these rare, threatened, and endangered taxa in adjacent states. The distribution for the more wide ranging species in states not adjacent to Oregon is based on published information and may not be complete. Two-letter postal abbreviations are used to identify these regions. States adjacent to Oregon are: CA = California, ID = Idaho, NV = Nevada, and WA = Washington. Other state and province abbreviations can be found in the "Codes and Abbreviations" section.

DEFINITIONS

Endangered. Taxa which are in danger of becoming extinct within the foreseeable future throughout all or a significant portion of their range.

Threatened. Taxa which are likely to become endangered within the foreseeable future.

LE = Listed Endangered. Taxa listed by the USFWS or the National Marine Fisheries Service (NOAA Fisheries) as Endangered under the Endangered Species Act (ESA), or by the ODA or ODFW under the Oregon Endangered Species Act of 1987 (OESA).

LT = Listed Threatened. Taxa listed by the USFWS, NOAA Fisheries, ODA, or ODFW as Threatened.

PE = Proposed Endangered. Taxa proposed by the USFWS or NOAA Fisheries to be listed as Endangered under the ESA or by ODFW or ODA under the OESA.

PT = Proposed Threatened. Taxa proposed by the USFWS or NOAA Fisheries to be listed as Threatened under the ESA or by ODFW or ODA under the OESA.

C = Candidate. Taxa for which NOAA Fisheries or USFWS have sufficient information to support a proposal to list under the ESA, or which is a candidate for listing by the ODA under the OESA.

SOC = Species of Concern. Taxa which the USFWS is reviewing for consideration as Candidates for listing under the ESA.

PS = Partial Status. Taxa for which some but not all populations have status.

Lists Following Animal and Plant Sections

In addition to the main lists summarizing information on animals and plants, this book includes the agency lists compiled from the most recent information available:

- Federal and State, listed and proposed animals (USFWS, NOAA Fisheries, ODFW)
- Federal candidate (USFWS, NOAA Fisheries) and species of concern (USFWS) animals
- State sensitive animals and Oregon Conservation Strategy species, including designated ecoregions (ODFW)
- Federal listed, proposed and candidate plants, and species of concern (USFWS)
- State listed and candidate plants (ODA)

The criteria for the ORBIC lists are as follows:

List 1: Threatened or Endangered Throughout Range contains taxa that are threatened with extinction or presumed to be extinct throughout their entire range. Includes many rare Oregon endemic species.

List 2: Threatened or Endangered in Oregon but Secure Elsewhere contains taxa that are threatened with extirpation or presumed to be extirpated from the state of Oregon, but are secure or abundant elsewhere. These are often peripheral or disjunct species which are of concern when considering species diversity within Oregon's borders. They can be very significant when protecting the genetic diversity of a taxon. ORBIC regards extreme rarity as a significant threat and has included species which are very rare in Oregon but secure elsewhere on this list.

List 3: Review contains taxa for which more information is needed before status can be determined, but for which there is reason to believe they may be threatened or endangered in Oregon or throughout their range.

List 4: Watch contains taxa which are of conservation concern but are not currently threatened or endangered. This includes taxa which are very rare but are currently secure in Oregon, as well as taxa which are declining in numbers or habitat but are still too common to be proposed as threatened or endangered. While these taxa may not currently need the same active management attention as threatened or endangered taxa, they do require continued monitoring.

Drops and Name Changes contains taxa removed from the ORBIC lists or which have had their names changed from the previous edition published in July 2013.

NatureServe/Heritage Network Ranks

ORBIC participates in an international system for ranking rare, threatened and endangered species throughout the world. It was developed by The Nature Conservancy and is now maintained by

NatureServe in cooperation with Natural Heritage Programs and Conservation Data Centers in all fifty U.S. states, the District of Columbia, Navajo Nation, Tennessee Valley Authority, Puerto Rico, all nine provinces of Canada, and many Latin American countries.

NatureServe Rank Definitions

NatureServe network ranks use a 1-5 scale from imperiled to secure, based on the number of known occurrences, threats, trends, sensitivity, area occupied, and other biological factors. In this book, the ranks occupy two lines. The Global Rank begins with a "G" and represents the status for the taxon's entire range. If the taxon has a trinomial (a subspecies, variety or recognized race), the global rank is followed by a "T" rank indicator. The State Rank represents the status of the taxon in Oregon and begins with the letter "S". The rank values are summarized below (see Animal section for migratory bird ranks):

- 1 = Critically Imperiled.** At high risk of extinction due to extreme rarity (often 5 or fewer populations), very steep declines, or other factors.
- 2 = Imperiled.** At high risk of extinction due to very restricted range, very few populations, steep declines, or other factors, often with 6-20 occurrences.
- 3 = Vulnerable.** At moderate risk of extinction due to a restricted range, relatively few populations, recent and widespread declines, or other factors, often with 21-100 occurrences.
- 4 = Apparently Secure.** Uncommon but not rare; some cause for long-term concern due to declines or other factors, often with more than 100 occurrences.
- 5 = Secure.** Demonstrably common, widespread and abundant.

X = Presumed Extirpated or Extinct. Species not located despite intensive searches and virtually no likelihood of rediscovery.

H = Historical, Possibly Extinct. Known from only historical occurrences but still some hope of rediscovery. There is evidence that the species may be extinct or the ecosystem may be eliminated throughout its range, but not enough to state this with certainty.

U = Unrankable. Currently unrankable due to lack of information or substantially conflicting information about status and trends.

NR = Not yet ranked. Status not yet assessed.

NatureServe Rank Qualifiers

Q = Questionable Taxonomy. Global ranks sometimes have a "Q" at the end. This indicates that there are questions related to the taxonomic validity of the taxon.

? = Inexact Numeric Rank. Taxa that can be ranked, but for which the rank is not certain. Ranks with a "?" indicate that the rank is probably correct, but that either documentation is lacking or there is still some uncertainty. Such ranks are always provisional.

Range Ranks. A numeric range rank is used to indicate uncertainty about the exact status of a taxon. These can be G1G3, S2S3, etc. Ranges indicate that the predicted final rank would be within the range, but with no indication of preference among the possibilities. Large ranges (e.g., G1G4) are assigned as Unrankable.

More details on the Natural Heritage Ranking system and status factors can be found at the NatureServe web site: <http://www.natureserve.org/conservation-tools/conservation-status-assessment>

SPECIAL ANIMALS

Information on Oregon's rare, threatened and endangered animal species is presented in two formats. The first is a list summarizing the distribution, federal and state status, and Heritage Network rank of the species. The second format breaks the species into lists based on their status.

In both formats, the special animals are divided into major groups (fish, amphibians, reptiles, birds, mammals, invertebrates), then listed alphabetically by scientific name. The invertebrate summary list is unique in being further subdivided into class and order.

The animals included in this book are those rare, threatened and endangered vertebrate and invertebrate species that are native to Oregon and have (or have had) sustained breeding populations within the state. Open-ocean mammals or sea turtles which generally occur offshore and do not breed in Oregon are not included. Wintering bird species and those which occur on an accidental or occasional basis present special problems which are described in the bird section below.

Animal Species Tracked

ORBIC strives to serve as a clearinghouse of information on locations of rare, threatened and endangered species in Oregon. The goal is to obtain and computerize information for all locations of all state and federally listed animal species. Location data is also computerized for other animal species that are rare (of limited abundance or restricted distribution), threatened, endangered or otherwise vulnerable in Oregon, based on the NatureServe/Natural Heritage Network ranks.

Ranking decisions are made based on the best available information. Comments on ranks or on the inclusion or exclusion of taxa are welcome. Funds are not currently available to comprehensively track locations of all species of concern, ODFW Sensitive Species, and Conservation Strategy species, although ORBIC tracks as many of these as possible.

ORBIC maintains computerized information for all animal species on ORBIC Lists 1 and 2. There are several accidental or occasional breeding birds that are not tracked, even though they rank as vulnerable. Since most of these species are well outside their

normal range, effort is better spent on species which are part of Oregon's usual fauna. Additionally, ORBIC maintains manual files and observation data for all animal species in this book.

ORBIC encourages everyone to send in any information, reports or observations for the special animal species listed. Forms and information on submitting digital reports or location information to ORBIC can be found at

<http://inr.oregonstate.edu/orbic/submit-data>.

Animal Lists and Wildlife State Ranks

Fish

All vertebrate taxa in this book have published or soon to be published valid names, except for some fish taxa. These fish are represented on the lists by their Evolutionarily Significant Unit (ESU) or Distinct Population Segment (DPS) designations as defined by NOAA Fisheries or USFWS respectively, under their ESA responsibility. ORBIC tracks and ranks all listed, proposed and candidate ESUs for anadromous fish.

For listed or proposed anadromous fish, spawning and rearing areas are mapped as well as, but separately from, migratory corridors. As a result, there are a few listed salmon tracked which may never have spawned in Oregon, but which travel through the waters of the state. ODFW evaluates and manages anadromous and freshwater fish populations within areas defined as Species Management Units (SMU). For salmonids, these areas generally align with ESUs and DPSs identified by NOAA and USFWS. In cases of sensitive fish species which have no NOAA-identified ESU or USFWS-identified DPS, we track the SMU as identified by ODFW.

Birds

Avian species are usually placed on the ORBIC Lists based on breeding populations. Some species may be common in winter or migration but rare as breeders in Oregon. In these instances it is only the breeding populations that are of concern (e.g., horned grebe, bufflehead). Species that occur in Oregon in migration or as winter residents only are generally not considered here, except for especially sensitive species with critical staging or wintering locations in Oregon (e.g., Aleutian cackling goose, California

brown pelican). There are several bird species that have nested in Oregon on occasion (e.g., semipalmated plover, black-chinned sparrow) but are not yet considered established breeders. For now, these species are not included on the list, pending more accurate determination of their breeding status. Species of accidental occurrence are also not included.

The NatureServe/ORBIC state ranks for migratory species (mainly birds) require further explanation. State ranks for long-distance migrants are separated by the breeding and nonbreeding components of the population. State ranks followed by a 'B' refer to breeding populations, while ranks followed by an 'N' refer to a nonbreeding (often wintering) population. Thus a state rank of S1B, S2N indicates that the breeding portion of the population is extremely rare and the wintering portion is slightly more common. If a species occurs in the state only during the breeding season it will only have an S#B rank. Similarly, if a species only occurs in Oregon during the nonbreeding season it will have an S#N rank. Species that are not long-distance migrants are ranked without the B or N modifier.

Invertebrates

Compilation of the invertebrate lists has been especially challenging. Little is known about the status and distribution of most invertebrate taxa found in Oregon, especially those which appear to be rare, threatened or otherwise vulnerable. Most invertebrate groups are under-collected and under-reported. As a result state ranks may not accurately reflect the true population status for some species. Currently ORBIC assigns these species a state ranking number but the "?" modifier is occasionally used to indicate species that may be rarely collected as opposed to truly rare.

Many invertebrate taxa have not been fully described in the literature. These include endemics with extremely limited ranges, poor dispersal abilities, or environmental threats. We include these undescribed species in our lists when experts suggest they are likely to be of conservation concern and it is anticipated that they will be distinct species once described. As taxonomic work on these undescribed species progresses, taxa may be removed from our lists or re-ranked.

The Natural Areas Program of OPRD has been

granted limited authority to assist in conserving invertebrates through a cooperative agreement with the USFWS via Section 6 of the ESA. ORBIC provides staff to help manage this program. It is hoped that with the cooperation of conservation organizations, state agencies and federal agencies, additional information can be gathered to help understand and conserve rare, threatened and endangered invertebrates in Oregon.

Oregon Department of Fish and Wildlife's Threatened, Endangered and Sensitive Species Program

Martin Nugent, Threatened, Endangered and Sensitive Species Coordinator, ODFW

ODFW maintains a list of threatened and endangered species under the authority of ORS 496.172, the Oregon Endangered Species Act, 1987. The list included in this book reflects ODFW's revisions as of October 2016. There are currently 33 taxa on the list. The list includes 12 marine animals (i.e., whales, sea turtles, pelagic birds) that are not included in this book. The Act requires particular state agencies to develop plans for the management and protection of endangered species, and requires agencies to comply with 'survival guidelines' adopted by the Oregon Fish and Wildlife Commission for threatened species. The Oregon Fish and Wildlife Commission has adopted administrative rules, OAR 635-100-100 to 130, which clarify the Act and provide criteria for listing, delisting and protection of listed species.

ODFW maintains a Sensitive Species list in accordance with OAR 635-100-0040 which is designed to provide a positive, proactive approach to species conservation. The Sensitive Species list focuses fish and wildlife management and research activities on species that need conservation attention. Although the intent of the Sensitive Species list is to prevent species from declining to the point of qualifying as threatened or endangered, this list is not used as a "candidate" list for species to be considered for listing under the Oregon Threatened and Endangered Species rules. The Sensitive Species list serves as an early warning system for biologists, land managers, policy makers, and the public. It helps ensure that conservation actions are prioritized, cost-

efficient, and effective. The Sensitive Species list was last revised in 2008.

"Sensitive species" are those naturally-reproducing fish and wildlife species, subspecies, or populations which are facing one or more threats to their populations and/or habitats. Implementation of appropriate conservation measures to address the threats may prevent them from declining to the point of qualifying for threatened or endangered status.

Sensitive species categories are defined as follows:

SC = Critical. Critically sensitive species are imperiled with extirpation from a specific geographic area of the state because of small population sizes, habitat loss or degradation, and/or immediate threats. Critical species may decline to point of qualifying for threatened or endangered status if conservation actions are not taken.

SV = Vulnerable. Vulnerable sensitive species are facing one or more threats to their populations or habitats. Vulnerable species are not currently imperiled with extirpation from a specific geographic area or the state but could become so with continued or increased threats to populations or habitats.

All efforts towards management and protection of threatened, endangered and sensitive species in Oregon will be coordinated with other state and federal agencies and private conservation organizations. The current threatened, endangered and sensitive species lists, copies of the Oregon Endangered Species Act or administrative rules, and the Sensitive Species rule are available on ODFW's website at:

http://www.dfw.state.or.us/wildlife/diversity/species/threatened_endangered_species.asp

Copies of these lists and rules may also be requested from the department by writing to:

Oregon Department of Fish and Wildlife
4034 Fairview Industrial Dr. SE
Salem, OR 97302

Oregon Conservation Strategy

The 2016 Oregon Conservation Strategy is an overarching state strategy for conserving fish and wildlife. It provides a shared set of priorities for addressing Oregon's conservation needs. The Conservation Strategy brings together the best available scientific information, and presents a menu of recommended voluntary actions and tools for all Oregonians to define their own conservation role.

The goals of the Conservation Strategy are to maintain healthy fish and wildlife populations by maintaining and restoring functioning habitats, preventing declines of at-risk species, and reversing declines in these resources where possible.

Conservation Strategy Species are species of greatest conservation need that include wildlife, fish, invertebrates, plants, and algae. Information about special needs, limiting factors, data gaps, conservation actions, and available resources are provided for each of the 295 Strategy Species.

We identify animal and invertebrate Conservation Strategy species in the summary lists by a "CS" on the second line of the species' ODFW Status.

Conservation Strategy species are designated by ecoregions based on conservation need and opportunity, rather than on a statewide basis, but space limitations prevent us from specifying the designated ecoregions in the summary animal lists. A separate list of the Conservation Strategy species, including their designated ecoregions, is included with the status-specific lists following the summary animal section.

Originally published in 2006, the Oregon Conservation Strategy was updated in 2016 and will be available on the ODFW website when released. The Oregon Conservation Strategy is the official State Wildlife Action Plan for Oregon.

FEDERAL ENDANGERED SPECIES ACT STATUS*

Animals Listed as Endangered

Fish

Chasmistes brevirostris – Shortnose sucker
Deltistes luxatus – Lost River sucker
Oncorhynchus nerka – Sockeye salmon (Snake River ESU)
Siphateles (Gila) boraxobius – Borax Lake chub

Birds

Gymnogyps californianus – California condor (extirpated)

Animals Listed as Threatened

Fish

Acipenser medirostris – Green sturgeon (Southern DPS)
Catostomus warnerensis – Warner sucker
Oncorhynchus clarki henshawi – Lahontan cutthroat trout
Oncorhynchus keta – Chum salmon (Columbia River ESU)
Oncorhynchus kisutch – Coho salmon (Lower Columbia River ESU)
Oncorhynchus kisutch – Coho salmon (Southern Oregon/Northern California Coasts ESU)
Oncorhynchus kisutch – Coho salmon (Oregon Coast ESU)
Oncorhynchus mykiss – Steelhead (Snake River Basin ESU)
Oncorhynchus mykiss – Steelhead (Lower Columbia River ESU, summer run)
Oncorhynchus mykiss – Steelhead (Lower Columbia River ESU, winter run)
Oncorhynchus mykiss – Steelhead (Middle Columbia River ESU, summer run)
Oncorhynchus mykiss – Steelhead (Middle Columbia River ESU, winter run)
Oncorhynchus mykiss – Steelhead (Upper Willamette River ESU, winter run)

Birds

Brachyramphus marmoratus – Marbled murrelet
Charadrius nivosus nivosus – Western snowy plover (coastal population)
Coccyzus americanus – Yellow-billed cuckoo
Eremophila alpestris strigata – Streaked horned lark
Strix occidentalis caurina – Northern spotted owl

Amphibians

Rana pretiosa – Oregon spotted frog

Candidates for Listing

Amphibians

Rana luteiventris – Columbia spotted frog

Mammals

Canis lupus – Gray wolf (Western Oregon)
Odocoileus virginianus leucurus – Columbian white-tailed deer (Columbia River population)

Invertebrates

Euphydryas editha taylori – Taylor's checkerspot butterfly
Plebejus (Icaricia) icarioides fenderi – Fender's blue butterfly

Oncorhynchus tshawytscha – Chinook salmon (Snake River ESU, fall run)
Oncorhynchus tshawytscha – Chinook salmon (Lower Columbia River ESU, spring run)
Oncorhynchus tshawytscha – Chinook salmon (Lower Columbia River ESU, fall run)
Oncorhynchus tshawytscha – Chinook salmon (Upper Willamette River ESU, spring run)
Oncorhynchus tshawytscha – Chinook salmon (Snake River ESU, spring/summer run)
Rhinichthys osculus ssp. – Foskett Spring speckled dace
Salvelinus confluentus – Bull trout (Klamath population)
Salvelinus confluentus – Bull trout (Mid-Columbia population)
Salvelinus confluentus – Bull trout (Upper Snake population)
Salvelinus confluentus – Bull trout (Coastal population)
Siphateles (Gila) bicolor ssp. – Hutton tui chub
Thaleichthys pacificus – Eulachon

Mammals

Lynx canadensis – Canada lynx
Ursus arctos horribilis – Grizzly bear (extirpated)

Invertebrates

Branchinecta lynchi – Vernal pool fairy shrimp
Speyeria zerene hippolyta – Oregon silverspot butterfly

Mammals

Arborimus longicaudus – Red tree vole (North Oregon Coast)
Urocyon vancouverensis – Washington ground squirrel

*Does not include sea turtles, whales, or accidental species

USFWS SPECIES OF CONCERN

Fish

Acipenser medirostris – Green sturgeon (Northern DPS)
Catostomus occidentalis lacusanserinus – Goose Lake sucker
Catostomus rimiculus – Jenny Creek sucker
Catostomus snyderi – Klamath largescale sucker
Cottus bendirei – Malheur mottled sculpin
Cottus marginatus – Margined sculpin
Cottus tenuis – Slender sculpin
Entosphenus tridentatus – Pacific lamprey
Entosphenus tridentatus ssp. – Goose Lake lamprey
Lampetra ayresi – River lamprey
Lavinia symmetricus mitrulus – Pit roach
Oncorhynchus clarki – Coastal cutthroat trout (OR Coast ESU)
Oncorhynchus clarki – Coastal cutthroat trout (Upper Willamette River ESU)
Oncorhynchus clarki – Coastal cutthroat trout (Southwestern WA/Columbia River ESU)
Oncorhynchus clarki – Coastal cutthroat trout (Southern Oregon/California Coasts ESU)
Oncorhynchus clarki lewisi – Westslope cutthroat trout
Oncorhynchus mykiss – Steelhead (OR Coast ESU, summer run)
Oncorhynchus mykiss – Steelhead (OR Coast ESU, winter run)
Oncorhynchus mykiss gairdneri (= *O. m. gibbsi*) – Inland Columbia Basin/Great Basin redband trout
Oncorhynchus mykiss – Oregon Great Basin redband trout
Oregonichthys kalawatseti – Umpqua chub
Rhinichthys cataractae ssp. – Millicoma dace
Siphateles (Gila) alvordensis – Alvord chub
Siphateles (Gila) bicolor eurysoma – Sheldon tui chub
Siphateles (Gila) bicolor oregonensis – Oregon Lakes tui chub
Siphateles (Gila) bicolor ssp. – Summer Basin tui chub
Siphateles (Gila) bicolor ssp. – Catlow tui chub

Amphibians

Ascaphus montanus – Rocky Mountain tailed frog
Ascaphus truei – Coastal tailed frog
Batrachoseps wrighti – Oregon slender salamander
Plethodon elongatus – Del Norte salamander
Plethodon larselli – Larch Mountain salamander
Plethodon stormi – Siskiyou Mountains salamander
Rana aurora – Northern red-legged frog
Rana boylei – Foothill yellow-legged frog
Rana cascadae – Cascades frog
Rhyacotriton variegatus – Southern torrent salamander

Reptiles

Actinemys marmorata – Western pond turtle
Lampropeltis californiae – California kingsnake
Lampropeltis zonata – California mountain kingsnake
Sceloporus graciosus graciosus – Northern sagebrush lizard

Birds

Accipiter gentilis – Northern goshawk
Agelaius tricolor – Tricolored blackbird
Athene cunicularia hypugaea – Western burrowing owl
Bartramia longicauda – Upland sandpiper
Buteo regalis – Ferruginous hawk
Chlidonias niger – Black tern
Contopus cooperi – Olive-sided flycatcher
Coturnicops noveboracensis – Yellow rail
Empidonax traillii adastus – Willow flycatcher
Haematopus bachmani – Black oystercatcher
Histrionicus histrionicus – Harlequin duck
Icteria virens – Yellow-breasted chat
Melanerpes formicivorus – Acorn woodpecker
Melanerpes lewis – Lewis's woodpecker
Oreortyx pictus – Mountain quail
Patagioenas fasciata – Band-tailed pigeon
Picoides albolarvatus – White-headed woodpecker
Plegadis chihi – White-faced ibis
Pooecetes gramineus affinis – Oregon vesper sparrow
Progne subis – Purple martin
Tympanuchus phasianellus columbianus – Columbian sharp-tailed grouse

Mammals

Antrozous pallidus – Pallid bat
Arborimus albipes – White-footed vole
Brachylagus idahoensis – Pygmy rabbit
Corynorhinus townsendii – Townsend's big-eared bat
Euderma maculatum – Spotted bat
Lasionycteris noctivagans – Silver-haired bat
Myotis ciliolabrum – Western small-footed myotis
Myotis evotis – Long-eared myotis
Myotis thysanodes – Fringed myotis
Myotis volans – Long-legged myotis
Myotis yumanensis – Yuma myotis
Sorex preblei – Preble's shrew
Thomomys bottae detumidus – Pistol River pocket gopher
Thomomys bulbivorus – Camas pocket gopher
Thomomys mazama helleri – Gold Beach pocket gopher

Invertebrates

Acetropis americana – American grass bug
Agapetus denningi – Denning's agapetus caddisfly
Agonum belleri – Beller's ground beetle
Allomyia scotti – Scott's apatanian caddisfly
Anodonta californiensis – California floater (mussel)
Apatania tavalala – Cascades apatanian caddisfly
Apochthonius malheuri – Malheur pseudoscorpion

USFWS SPECIES OF CONCERN continued

Bombus franklini – Franklin's bumblebee
Chloealtis aspasma – Siskiyou short-horned grasshopper
Cryptochia neosa – Blue Mountains cryptochian caddisfly
Driloleirus (=Megascalides) macelfreshi – Oregon giant earthworm
Eobrachycentrus gelidae – Mt. Hood brachycentrid caddisfly
Farula davisii – Green Springs Mountain farulan caddisfly
Farula jewetti – Mt. Hood farulan caddisfly
Farula reapii – Tombstone Prairie farulan caddisfly
Fluminicola fuscus – Columbia pebblesnail or spire snail
Goeracea oregona – Sagehen Creek goeracean caddisfly
Gomphus lynnae – Columbia clubtail dragonfly
Homoplectra schuhi – Schuh's homoplectran caddisfly
Kenkia rhynchida – A flatworm (planarian)
Lepidostoma astanea (=L. goedeni) – Goeden's lepidostoman caddisfly

Littorina subrotundata (=Algamorda newcombiana) – Newcomb's littorine snail
Monadenia fidelis minor – Oregon snail (Dalles sideband)
Nanonemoura (=Zapada) wahkeena – Wahkeena Falls flightless stonefly
Nebria gebleri siskiyouensis – Siskiyou gazelle beetle
Neothremma andersoni – Columbia Gorge caddisfly
Oligophlebodes mostbento – Tombstone Prairie caddisfly
Pisidium ultramontanum – Montane peaclam
Plebeius saepiolus littoralis – Insular blue/Coastal greenish blue butterfly
Pterostichus rothi – Roth's blind ground beetle
Rhyacophila colonus – O'Brien rhyacophilan caddisfly
Rhyacophila haddocki – Haddock's rhyacophilan caddisfly
Rhyacophila unipunctata – One-spot rhyacophilan caddisfly
Stygobromus hubbsi – Malheur Cave amphipod

STATE ENDANGERED SPECIES ACT STATUS

Animals Listed as Endangered

Fish

Chasmistes brevirostris – Shortnose sucker
Deltistes luxatus – Lost River sucker
Oncorhynchus kisutch – Coho salmon (Lower Columbia River ESU)
Siphateles (Gila) boraxobius – Borax Lake chub

Birds

Pelecanus occidentalis californicus – California brown pelican

Mammals

Urocitellus washingtoni – Washington ground squirrel

Animals Listed as Threatened

Fish

Catostomus warnerensis – Warner sucker
Oncorhynchus clarki henshawi – Lahontan cutthroat trout
Oncorhynchus tshawytscha – Chinook salmon (Snake River ESU, fall run)
Oncorhynchus tshawytscha – Chinook salmon (Snake River ESU, spring/summer run)
Rhinichthys osculus ssp. – Foskett Spring speckled dace
Siphateles (Gila) bicolor ssp. – Hutton tui chub

Birds

Brachyramphus marmoratus – Marbled murrelet
Charadrius nivosus nivosus – Western snowy plover
Strix occidentalis caurina – Northern spotted owl

Mammals

Enhydra lutris – Sea otter
Gulo gulo – Wolverine
Vulpes macrotis – Kit fox

ODFW SENSITIVE SPECIES

Fish

Catostomus microps – Modoc sucker (C)
Catostomus occidentalis lacusanserinus – Goose Lake sucker (V)
Entosphenus minimus – Miller Lake lamprey (V)
Entosphenus tridentatus – Pacific lamprey (V)
Lampetra richardsonii – Western brook lamprey (V)

Oncorhynchus clarki – Coastal cutthroat trout (Southwestern Washington/Columbia River ESU) (V)
Oncorhynchus clarki lewisi – Westslope cutthroat trout (C in Upper John Day Basin only)
Oncorhynchus keta – Chum salmon (Columbia River ESU) (C)
Oncorhynchus keta – Chum salmon (Pacific Coast ESU) (C)
Oncorhynchus kisutch – Coho salmon (Southern Oregon/Northern California Coasts ESU) (V)

ODFW SENSITIVE SPECIES continued

- Oncorhynchus kisutch* – Coho salmon (Oregon Coast ESU) (V)
Oncorhynchus mykiss – Steelhead (Snake River Basin ESU) (V)
Oncorhynchus mykiss – Steelhead (Klamath Mountains Province ESU, summer run) (V in KM ecoregion; C in Upper Klamath)
Oncorhynchus mykiss – Steelhead (Lower Columbia River ESU, summer run) (C)
Oncorhynchus mykiss – Steelhead (Lower Columbia River ESU, winter run) (C)

Oncorhynchus mykiss – Steelhead (Upper Willamette River ESU, winter run) (V)
Oncorhynchus mykiss – Catlow Valley redband trout (C), part of Oregon Great Basin redband trout
Oncorhynchus mykiss – Chewaucan redband trout (V), part of Oregon Great Basin redband trout
Oncorhynchus mykiss – Fort Rock redband trout (C), part of Oregon Great Basin redband trout
Oncorhynchus mykiss – Goose Lake redband trout (C), part of Oregon Great Basin redband trout
Oncorhynchus mykiss – Klamath Basin redband trout (V)
Oncorhynchus mykiss – Malheur Lakes redband trout (V), part of Oregon Great Basin redband trout
Oncorhynchus mykiss – Warner Valley redband trout (C), part of Oregon Great Basin redband trout
Oncorhynchus mykiss gairdneri – Inland Columbia Basin redband trout (V)
Oncorhynchus tshawytscha – Chinook salmon (Lower Columbia River ESU, spring run) (C)
Oncorhynchus tshawytscha – Chinook salmon (Lower Columbia River ESU, fall run) (C)
Oncorhynchus tshawytscha – Chinook salmon (Middle Columbia River ESU, spring run) (V)
Oncorhynchus tshawytscha – Chinook salmon (Middle Columbia River ESU, fall run) (V)
Oncorhynchus tshawytscha – Chinook salmon (Oregon Coast ESU, spring run) (C)
Oncorhynchus tshawytscha – Chinook salmon (Southern Oregon/Northern California Coast ESU, fall run) (V)
Oncorhynchus tshawytscha – Chinook salmon (Southern Oregon/Northern California Coast ESU, spring run) (V)
Oncorhynchus tshawytscha – Chinook salmon (Upper Willamette River ESU, spring run) (C)
Oregonichthys crameri – Oregon chub (C)
Oregonichthys kalawatseti – Umpqua chub (C)
Rhinichthys cataractae ssp. – Millicoma dace (V)
Salvelinus confluentus – Bull trout (Klamath River population) (C), = Klamath Bull trout population
Salvelinus confluentus – Bull trout (Deschutes SMU) (V), part of Coastal Bull trout population
Salvelinus confluentus – Bull trout (Grande Ronde SMU) (C), part of Mid-Columbia Bull trout population
Salvelinus confluentus – Bull trout (Hells Canyon SMU) (C), part of Mid-Columbia Bull trout population
Salvelinus confluentus – Bull trout (Hood River SMU) (C), part of Coastal Bull trout population
Salvelinus confluentus – Bull trout (Imnaha SMU) (C), part of Mid-Columbia Bull trout population
Salvelinus confluentus – Bull trout (John Day SMU) (C), part of Mid-Columbia Bull trout population
Salvelinus confluentus – Bull trout (Malheur SMU) (C), part of Upper Snake Bull trout population
Salvelinus confluentus – Bull trout (Odell Lake SMU) (C), part of Coastal Bull trout population
Salvelinus confluentus – Bull trout (Umatilla SMU) (C), part of Mid-Columbia Bull trout population
Salvelinus confluentus – Bull trout (Willamette SMU) (C), part of Coastal Bull trout population
Siphateles (Gila) alvordensis – Alvord chub (V)
Siphateles (Gila) bicolor ssp. – Summer Basin tui chub (C)
- Amphibians**
- Anaxyrus boreas* – Western toad (V)
Aneides ferreus – Clouded salamander (V)
Aneides flavipunctatus – Black salamander (V)
Ascaphus montanus – Rocky Mountain tailed frog (V)
Ascaphus truei – Coastal tailed frog (V)
Batrachoseps wrighti – Oregon slender salamander (V)
Dicamptodon copei – Cope's giant salamander (V)
Lithobates pipiens – Northern leopard frog (C)
Plethodon elongatus – Del Norte salamander (V)
Plethodon larselli – Larch Mountain salamander (V)
Plethodon stormi – Siskiyou Mountains salamander (V)
Rana aurora – Northern red-legged frog (V in KM and WV ecoregions only)
Rana boylei – Foothill yellow-legged frog (C in WV ecoregion; V elsewhere)
Rana cascadae – Cascades frog (V)
Rana luteiventris – Columbia spotted frog (C in BR and CB ecoregions; V elsewhere)
Rana pretiosa – Oregon spotted frog (C)
Rhyacotriton cascadae – Cascade torrent salamander (V)
Rhyacotriton kezeri – Columbia torrent salamander (V)
Rhyacotriton variegatus – Southern torrent salamander (V)

ODFW SENSITIVE SPECIES continued

Reptiles

- Actinemys marmorata* – Western pond turtle (C)
Chrysemys picta – Painted turtle (C)
Crotalus oreganus (= *C. viridis*) – Western rattlesnake (C in WV ecoregion only)
Lampropeltis californiae – California kingsnake (V)
Lampropeltis zonata – California mountain kingsnake (V)
Sceloporus graciosus graciosus – Northern sagebrush lizard (V in CB ecoregion only)

Birds

- Accipiter gentilis* – Northern goshawk (V)
Ammodramus savannarum – Grasshopper sparrow (V)
Antigone (Grus) canadensis tabida – Greater sandhill crane (V, breeding population only)
Artemisospiza nevadensis (= *A. belli*) – Sage sparrow (C)
Athene cunicularia hypugaea – Western burrowing owl (V in BR ecoregion; C elsewhere)
Bartramia longicauda – Upland sandpiper (C)
Buteo regalis – Ferruginous hawk (C in CB ecoregion; V elsewhere)
Buteo swainsoni – Swainson's hawk (V)
Centrocercus urophasianus – Greater sage-grouse (V in BM, CB and EC ecoregions only)
Cerorhinca monocerata – Rhinoceros auklet (V)
Chordeiles minor – Common nighthawk (C in WV ecoregion only)
Coccyzus americanus – Yellow-billed cuckoo (C)
Contopus cooperi – Olive-sided flycatcher (V)
Coturnicops noveboracensis – Yellow rail (C)
Dolichonyx oryzivorus – Bobolink (V)
Dryocopus pileatus – Pileated woodpecker (V in BM, EC, and KM ecoregions only)
Egretta thula – Snowy egret (V)
Empidonax traillii adastus – Willow flycatcher (V in BM, BR, CB, and EC ecoregions only)
Empidonax traillii brewsteri – Little willow flycatcher (V)
Eremophila alpestris strigata – Streaked horned lark (C)
Falcapennis canadensis – Spruce grouse (V)
Falco peregrinus anatum – American peregrine falcon (V)
Falco peregrinus tundrius – Arctic peregrine falcon (V)
Fratercula cirrhata – Tufted puffin (V)
Haliaeetus leucocephalus – Bald eagle (V)
Haematopus bachmani – Black oystercatcher (V)
Icteria virens – Yellow-breasted chat (C in WV ecoregion only)
Lanius ludovicianus – Loggerhead shrike (V in BM, CB, EC ecoregions only)
Leucophaeus (= Larus) pipixcan – Franklin's gull (V)
Melanerpes formicivorus – Acorn woodpecker (V in WV ecoregion only)
Melanerpes lewis – Lewis's woodpecker (C)

- Numenius americanus* – Long-billed curlew (V in BM, CB, and EC ecoregions only)
Oreortyx pictus – Mountain quail (V in BR ecoregion only)
Pelecanus erythrorhynchos – American white pelican (V – breeding population only)
Picoides albolarvatus – White-headed woodpecker (C)
Picoides arcticus – Black-backed woodpecker (V)
Picoides dorsalis – American three-toed woodpecker (V)
Podiceps grisegena – Red-necked grebe (C – breeding population only)
Poocetes gramineus affinis – Oregon vesper sparrow (C in KM and WV ecoregions only)
Progne subis – Purple martin (C)
Psiloscops flammeolus (= *Otus flammeolus*) – Flammulated owl (V)
Ptychoramphus aleuticus – Cassin's auklet (V)
Sialia mexicana – Western bluebird (V in CR, KM, WC, and WV ecoregions only)
Sitta carolinensis aculeata – Slender-billed nuthatch (V)
Strix nebulosa – Great gray owl (V)
Sturnella neglecta – Western meadowlark (C in WV ecoregion only)
Tympanuchus phasianellus columbianus – Columbian sharp-tailed grouse (C)

Mammals

- Antrozous pallidus* – Pallid bat (V)
Arborimus longicaudus – Red tree vole (V in CR ecoregion only)
Bassariscus astutus – Ringtail (V)
Brachylagus idahoensis – Pygmy rabbit (V)
Corynorhinus townsendii – Townsend's big-eared bat (C)
Euderma maculatum – Spotted bat (V)
Lasionycteris noctivagans – Silver-haired bat (V)
Lasiurus cinereus – Hoary bat (V)
Lepus californicus – Black-tailed jack rabbit (V in WV ecoregion only)
Lepus townsendii – White-tailed jackrabbit (V)
Martes caurina – Pacific marten (V)
Myotis californicus – California myotis (V)
Myotis thysanodes – Fringed myotis (V)
Myotis volans – Long-legged myotis (V)
Odocoileus virginianus leucurus – Columbian white-tailed deer (V in CR ecoregion only)
Pekania pennanti – Fisher (C)
Sciurus griseus – Western gray squirrel (V in WV ecoregion only)

C = Critical

V = Vulnerable

ODFW CONSERVATION STRATEGY SPECIES

Fish

- Acipenser medirostris* – Green sturgeon, Northern DPS (CR, ME)
- Acipenser medirostris* – Green sturgeon, Southern DPS (CR, KM, ME)
- Catostomus microps* – Modoc sucker (EC)
- Catostomus occidentalis lacusanserinus* – Goose Lake sucker (EC)
- Catostomus warnerensis* – Warner sucker (BR)
- Chasmistes brevirostris* – Shortnose sucker (EC)
- Cottus pitensis* – Pit sculpin (BR, EC)
- Deltistes luxatus* – Lost River sculpin (EC)
- Entosphenus minimus* – Miller Lake lamprey (EC)
- Entosphenus tridentatus* – Pacific lamprey (CB, CR, EC, KM, ME, WC, WV)
- Lampetra ayresii* – River lamprey (CB, CR, WV)
- Lampetra richardsonii* – Western brook lamprey (BM, CB, CR, WC, WV)
- Oncorhynchus clarki* – Coastal cutthroat trout (Southwestern Washington/Columbia River ESU) (CR, ME, WC, WV)
- Oncorhynchus clarki henshawi* – Lahontan cutthroat trout (BR)
- Oncorhynchus clarki lewisi* – Westslope cutthroat trout (BM, CB)
- Oncorhynchus keta* – Chum salmon, Columbia River ESU (CR, ME, WV)
- Oncorhynchus keta* – Chum salmon, Pacific Coast ESU (CR, ME)
- Oncorhynchus kisutch* – Coho salmon, Rogue SMU/Southern Oregon/Northern California Coasts ESU (CR, KM, ME, WC)
- Oncorhynchus kisutch* – Coho salmon, Klamath SMU/Southern Oregon/Northern California Coasts ESU (EC, KM, ME)
- Oncorhynchus kisutch* – Coho salmon, Lower Columbia River ESU (CR, ME, WC, WV)
- Oncorhynchus kisutch* – Coho salmon, Oregon Coast ESU (CR, ME)
- Oncorhynchus mykiss gairdneri/newberrii* – Oregon Great Basin redband trout, Catlow Valley SMU (BR)
- Oncorhynchus mykiss gairdneri/newberrii* – Oregon Great Basin redband trout, Malheur Lakes SMU (BM, BR)
- Oncorhynchus mykiss gairdneri/newberrii* – Oregon Great Basin redband trout, Fort Rock SMU (BR)
- Oncorhynchus mykiss gairdneri/newberrii* – Oregon Great Basin redband trout, Chewaucan SMU (BR)
- Oncorhynchus mykiss gairdneri/stonei* – Oregon Great Basin redband trout, Warner Lakes SMU (BR)
- Oncorhynchus mykiss gairdneri/stonei* – Oregon Great Basin redband trout, Goose Lake SMU (EC)
- Oncorhynchus mykiss gairdneri/newberrii* – Klamath Basin redband trout (EC, WC)
- Oncorhynchus mykiss* – Steelhead, Snake River Basin ESU (BM)
- Oncorhynchus mykiss* – Steelhead, Klamath Mountains Province ESU, summer run (CR, KM, WC)
- Oncorhynchus mykiss* – Steelhead, Lower Columbia River ESU, summer run (CR, WC, WV)
- Oncorhynchus mykiss* – Steelhead, Lower Columbia River ESU, winter run (CR, WC, WV)
- Oncorhynchus mykiss* – Steelhead, Middle Columbia River ESU, summer run (BM, CB, EC)
- Oncorhynchus mykiss* – Steelhead, Oregon Coast ESU, summer run (CR, KM, WC)
- Oncorhynchus mykiss* – Steelhead, Upper Willamette River ESU, winter run (WC, WV)
- Oncorhynchus tshawytscha* – Chinook salmon, Lower Columbia River ESU, spring run (ME, WC, WV)
- Oncorhynchus tshawytscha* – Chinook salmon, Lower Columbia River ESU, fall run (CR, ME, WC, WV)
- Oncorhynchus tshawytscha* – Chinook salmon, Middle Columbia River ESU, spring run (BM, CB, EC, ME)
- Oncorhynchus tshawytscha* – Chinook salmon, Middle Columbia River ESU, fall run (BM, CB, EC, ME)
- Oncorhynchus tshawytscha* – Chinook salmon, Oregon Coast ESU, spring run (CR, KM, ME, WC)
- Oncorhynchus tshawytscha* – Chinook salmon, Upper Snake River ESU, spring run (BM, BR, ME)
- Oncorhynchus tshawytscha* – Chinook salmon, Snake River ESU, fall run (BM, ME)
- Oncorhynchus tshawytscha* – Chinook salmon, Lower Snake River ESU, spring run (BM, ME)
- Oncorhynchus tshawytscha* – Chinook salmon, Southern Oregon/Northern California Coast ESU, spring run (CR, KM, ME, WC)
- Oncorhynchus tshawytscha* – Chinook salmon, Upper Willamette River ESU, spring run (ME, WC, WV)
- Oregonichthys crameri* – Oregon chub (WC, WV)
- Oregonichthys kalawatseti* – Umpqua chub (CR, KM, WC)
- Rhinichthys cataractae* ssp. – Millicoma dace (CR)
- Rhinichthys osculus* ssp. – Foskett Spring speckled dace (BR)
- Salvelinus confluentus* – Bull trout, Klamath Lake SMU, Klamath population (EC, WC)
- Salvelinus confluentus* – Bull trout, Deschutes SMU, part of Coastal population (BM, EC, WC)
- Salvelinus confluentus* – Bull trout, Grande Ronde SMU, part of Mid-Columbia population (BM)
- Salvelinus confluentus* – Bull trout, Hells Canyon SMU, part of Mid-Columbia population (BM)
- Salvelinus confluentus* – Bull trout, Hood River SMU, part of Coastal population (WC)
- Salvelinus confluentus* – Bull trout, Imnaha SMU, part of Mid-Columbia population (BM)

ODFW CONSERVATION STRATEGY SPECIES continued

Salvelinus confluentus – Bull trout, John Day SMU, part of Mid-Columbia population (BM, CB)

Salvelinus confluentus – Bull trout, Malheur SMU, part of Upper Snake population (BM, BR)

Salvelinus confluentus – Bull trout, Odell Lake SMU, part of Coastal population (EC, WC)

Salvelinus confluentus – Bull trout Umatilla SMU, part of Mid-Columbia population (BM, CB)

Salvelinus confluentus – Bull trout Willamette SMU, part of Coastal population (WC, WV)

Salvelinus confluentus – Bull trout Walla Walla SMU part of Mid-Columbia population (BM)

Siphateles alvordensis – Alvord chub (BR)

Siphateles bicolor oregonensis – Hutton Spring tui chub (BR)

Siphateles boraxobius – Borax Lake chub (BR)

Thaleichthys pacificus – Eulachon (CR, KM, ME, WV)

Amphibians

Anaxyrus boreas – Western toad (BM, BR, CR, EC, KM, WC)

Aneides ferreus – Clouded salamander (CR, KM, WC, WV)

Ascaphus montanus – Rocky Mountain tailed frog (BM)

Ascaphus truei – Coastal tailed frog (CR, KM, WC)

Batrachoseps wrighti – Oregon slender salamander (WC, WV)

Dicamptodon copei – Cope's giant salamander (CR, EC, WC)

Plethodon elongatus – Del Norte salamander (CR, KM)

Plethodon larselli – Larch Mountain salamander (WC)

Plethodon stormi – Siskiyou Mountains salamander (KM)

Rana aurora – Northern red-legged frog (CR, KM, WC, WV)

Rana boylei – Foothill yellow-legged frog (CR, KM, WC, WV)

Rana cascadae – Cascades frog (EC, WC)

Rana luteiventris – Columbia spotted frog (BM, BR)

Rana pretiosa – Oregon spotted frog (EC, WC)

Rhyacotriton cascadae – Cascade torrent salamander (WC, WV)

Rhyacotriton kezeri – Columbia torrent salamander (CR, WV)

Rhyacotriton variegatus – Southern torrent salamander (CR, KM, WV)

Reptiles

Actinemys marmorata – Western pond turtle (CR, EC, KM, WC, WV)

Chrysemys picta – Painted turtle (CB, CR, EC, WC, WV)

Crotalus oreganus – Western rattlesnake (WV)

Lampropeltis zonata – California mountain kingsnake (CB, CR, EC, KM, WC)

Sceloporus graciosus graciosus – Northern sagebrush lizard (CB)

Birds

Accipiter gentilis – Northern goshawk (EC, WC)

Ammodramus savannarum – Grasshopper sparrow (CB, KM, WV)

Antigone (Grus) canadensis tabida – Greater sandhill crane (BR, EC, WC)

Artemisospiza belli – Bell's sparrow, = *A. nevadensis* – Sagebrush sparrow (CB)

Asio flammeus flammeus – Short-eared owl (WV)

Athene cunicularia hypugaea – Western burrowing owl (BM, BR, CB)

Baeolophus ridgwayi – Juniper titmouse (BR)

Bartramia longicauda – Upland sandpiper (BM)

Brachyramphus marmoratus – Marbled murrelet (CR, KM, ME)

Branta bernicla – Black brant (CR, ME)

Branta canadensis occidentalis – Dusky Canada goose (WV)

Buteo regalis – Ferruginous hawk (BM, BR, CB)

Buteo swainsoni – Swainson's hawk (BM, BR, CB, EC)

Calidris ptilocnemis tschuktschorum – Rock sandpiper (ME)

Centrocercus urophasianus – Greater sage-grouse (BM, BR)

Charadrius nivosus nivosus – Western snowy plover (BR, CR, ME)

Chordeiles minor – Common nighthawk (CB, KM, WV)

Contopus cooperi – Olive-sided flycatcher (BM, CR, EC, WC, WV)

Coturnicops noveboracensis – Yellow rail (EC)

Cygnus buccinators – Trumpeter swan (BM, BR, EC)

Cypseloides niger – Black swift (WC)

Dolichonyx oryzivorus – Bobolink (BM, BR)

Dryocopus pileatus – Pileated woodpecker (BM)

Egretta thula – Snowy egret (BR)

Empidonax traillii – Willow flycatcher (BR, WV)

Eremophila alpestris strigata – Streaked horned lark (WV)

Falco peregrinus anatum – American peregrine falcon (BR, CR)

Fratercula cirrhata – Tufted puffin (CR, ME)

Haematopus bachmani – Black oystercatcher (ME)

Himantopus mexicanus – Black-necked stilt (BR)

Histrionicus histrionicus – Harlequin duck (CR, WC)

Hydroprogne caspia – Caspian tern (BR, CR, EC, ME)

Icteria virens – Yellow-breasted chat (KM, WV)

Lanius ludovicianus – Loggerhead shrike (BM, CB)

Leucophaeus pipixcan – Franklin's gull (BR)

Melanerpes formicivorus – Acorn woodpecker (KM, WV)

Melanerpes lewis – Lewis's woodpecker (BM, CB, EC, KM, WC)

Numenius americanus – Long-billed curlew (BM, BR, CB, EC)

Oceanodroma furcata – Fork-tailed storm-petrel (ME)

Oceanodroma leucorhoa leucorhoa – Leach's storm-petrel (ME)

ODFW CONSERVATION STRATEGY SPECIES continued

Oreortyx pictus – Mountain quail (BR)
Pelecanus erythrorhynchos – American white pelican (BR, EC)
Pelecanus occidentalis californicus – California brown pelican (ME)
Picoides albolarvatus – White-headed woodpecker (BM, EC, KM)
Picoides arcticus – Black-backed woodpecker (BM, EC)
Picoides dorsalis – American three-toed woodpecker (BM, EC)
Podiceps grisegena – Red-necked grebe (EC)
Poocetes gramineus affinis – Oregon vesper sparrow (KM, WV)
Progne subis arboricola – Purple martin (CR, KM, WC, WV)
Psiloscops flammeolus – Flammulated owl (BM, EC, KM, WC)
Sialia mexicana – Western bluebird (WV)
Sitta carolinensis aculeata – Slender-billed nuthatch (WV)
Spizella breweri – Brewer's sparrow (CB)
Spizella passerina – Chipping sparrow (WV)
Strix nebulosa – Great gray owl (BM, EC, KM, WC)
Strix occidentalis caurina – Northern spotted owl (CR, EC, KM, WC, WV)
Sturnella neglecta – Western meadowlark (WV)
Tympanuchus phasianellus columbianus – Columbian sharp-tailed grouse (BM)

Mammals

Antrozous pallidus – Pallid bat (BM, BR, CB, EC, KM)
Arborimus longicaudus – Red tree vole (CR, KM, WC)
Bassariscus astutus – Ringtail (CR, KM, WC,)
Brachylagus idahoensis – Pygmy rabbit (BR)
Canis lupus – Gray wolf (BM, BR, EC, KM, WC)
Corynorhinus townsendii – Townsend's big-eared bat (BM, BR, CB, CR, EC, KM, WC, WV)
Euderma maculatum – Spotted bat (BM, BR, CB, EC, KM)
Eumetopias jubatus – Steller sea lion (ME)
Gulo gulo – Wolverine (BM)
Lasionycteris noctivagans – Silver-haired bat (BM, BR, CB, CR, EC, KM, WC, WV)
Lasiurus cinereus – Hoary bat (BM, BR, CB, CR, EC, KM, WC, WV)
Lepus townsendii – White-tailed jackrabbit (BR)
Martes americana – American marten (BM, CR, EC, KM, WC)
Myotis californicus – California myotis (BM, BR, CR, EC, KM, WC, WV)
Myotis thysanodes – Fringed myotis (BM, BR, CR, EC, KM, WC, WV)
Myotis volans – Long-legged myotis (BM, BR, CR, EC, KM, WC)
Ochotona princeps – American pika (BM, BR, EC, WC)

Odocoileus virginianus leucurus – Columbian white-tailed deer (CR, WV)
Ovis canadensis – Rocky Mountain bighorn sheep (BM)
Pekania pennanti – Fisher (CR, KM, WC)
Sciurus griseus – Western gray squirrel (WV)
Urocitellus (=Spermophilus) washingtoni – Washington ground squirrel (CB)
Vulpes macrotis – Kit fox (BR)
Vulpes vulpes necator – Sierra Nevada red fox (EC, KM, WC)

Invertebrates

Agonum belleri – Beller's ground beetle (EC, WC)
Amerigoniscus malheurensis – Malheur isopod (BR)
Anodonta californiensis – California floater mussel (WV)
Anodonta nuttalliana – Winged floater mussel (WV)
Apochthonius malheuri – Malheur pseudoscorpian (BR)
Bombus franklini – Franklin's bumblebee (KM, WC)
Bombus occidentalis occidentalis – Western bumblebee (BM, BR, CB, CR, EC, KM, WC, WV)
Branchinecta lynchi – Vernal pool fairy shrimp (KM)
Capnia kersti – A stonefly (WV)
Danaus plexippus – Monarch butterfly (BM, BR, CB, CR, EC, KM, WC, WV)
Euphydryas editha taylori – Taylor's checkerspot butterfly (WV)
Fisherola nuttalli – Shortface lanx (CB)
Fluminicola turbiniformis – Turban pebblesnail (EC)
Gomphus lynnae – Columbia clubtail dragonfly (BM, BR)
Gonidea angulata – Western ridged mussel (BM, CR, KM, WV)
Helisoma newberryi – Great Basin ramshorn (EC)
Helminthoglypta hertleini – Oregon shoulderband (KM, WC)
Hochbergellus hirsutus – Sister's hesperian (CR)
Icaricia (Plebejus) icarioides fender – Fender's blue butterfly (WV)
Incisalia polia maritima (= Callophrys polios maritima) – Hoary elfin butterfly (CR)
Juga acutifilosa – Scalloped juga (EC)
Juga bulbosa – Bulb juga (BM, CB)
Juga hemphilli maupinensis – Purple-lipped juga (BM, CB)
Kenkia rhynchida – Malheur cave flatworm (BR)
Lanx alta – Highcap lanx (EC)
Lanx klamathensis – Scale lanx (EC)
Lanx subrotunda – Rotund lanx (KM)
Neothremma andersoni – Columbia Gorge caddisfly (WC)
Oncopodura mala – Malheur Cave springtail (BR)
Oreohelix variabilis variabilis – Dalles mountainsnail (CB)
Philotiella leona – Leona's little blue butterfly (EC, WC)
Planorbella oregonensis – Borax Lake ramshorn (BR)

ODFW CONSERVATION STRATEGY SPECIES continued

Plebejus saepiolus littoralis – Insular blue/Coastal greenish blue butterfly (CR)

Polites mardon – Mardon skipper butterfly (KM)

Pomatiopsis binneyi – Robust walker (CR)

Pomatiopsis californica – Pacific walker (CR)

Pristiloma crateris – Crater Lake tightcoil (EC)

Pyrgulopsis archimedis – Archimedes springsnail (EC)

Speyeria cybele – Great spangled fritillary (WC, WV)

Speyeria zerene hippolyta – Oregon silverspot butterfly (CR)

Stygobromus hubbsi – Malheur Cave amphipod (BR)

Tanypteryx hageni – Black petaltail (CR, EC, WC)

Vespericola depressa – Columbia Gorge hesperian (WC)

Vespericola sierranus – Siskiyou hesperian (EC, KM)

Vorticifex effusa dalli – Dall's ramshorn (EC)

Vorticifex effusa diagonalis – Lined ramshorn (EC)

Vorticifex klamathensis klamathensis – Klamath ramshorn (EC)

Vorticifex klamathensis sinitsini – Sinitsin ramshorn (EC)

Ecoregion Codes: BM = Blue Mountains; BR = Northern Basin and Range; CB = Columbia Basin; CR = Coast Range; EC = East Cascades; KM = Klamath Mountains; ME = Marine and Estuarine; WC = West Cascades and Crest; WV = Willamette Valley

DROPS AND NAME CHANGES since July 2013 list

Fish

<i>Gila alvordensis</i> (Alvord chub)	Name change, now called <i>Siphateles alvordensis</i>
<i>Gila bicolor eurysoma</i> (Sheldon tui chub)	Name change, now called <i>Siphateles bicolor eurysoma</i>
<i>Gila bicolor oregonensis</i> (Oregon Lakes tui chub)	Name change, now called <i>Siphateles bicolor oregonensis</i>
<i>Gila bicolor</i> ssp. (Catlow tui chub)	Name change, now called <i>Siphateles bicolor</i> ssp.
<i>Gila bicolor</i> ssp. (Hutton tui chub)	Name change, now called <i>Siphateles bicolor</i> ssp.
<i>Gila bicolor</i> ssp. (Summer Basin tui chub)	Name change, now called <i>Siphateles bicolor</i> ssp.
<i>Gila bicolor</i> ssp. (Warner Basin tui chub)	Name change, now called <i>Siphateles bicolor</i> ssp.
<i>Gila bicolor thalassina</i> (Goose Lake tui chub)	Name change, now called <i>Siphateles bicolor thalassinus</i>
<i>Gila boraxobius</i> (Borax Lake chub)	Name change, now called <i>Siphateles boraxobius</i>
<i>Oncorhynchus mykiss</i> (Catlow Valley redband trout)	Population definition change, now <i>O. mykiss</i> (Oregon Great Basin redband trout)
<i>Oncorhynchus mykiss</i> (Chewaucan redband trout)	Population definition change, now <i>O. mykiss</i> (Oregon Great Basin redband trout)
<i>Oncorhynchus mykiss</i> (Fort Rock redband trout)	Population definition change, now <i>O. mykiss</i> (Oregon Great Basin redband trout)
<i>Oncorhynchus mykiss</i> (Goose Lake redband trout)	Population definition change, now <i>O. mykiss</i> (Oregon Great Basin redband trout)
<i>Oncorhynchus mykiss</i> (Malheur Lakes redband trout)	Population definition change, now <i>O. mykiss</i> (Oregon Great Basin redband trout)
<i>Oncorhynchus mykiss</i> (Redband trout Warner Valley/Warner Lakes SMU)	Population definition change, now <i>O. mykiss</i> (Oregon Great Basin redband trout)
<i>Salvelinus confluentus</i> (Bull trout) (Deschutes SMU)	Population definition change, now <i>S. confluentus</i> (Coastal population)
<i>Salvelinus confluentus</i> (Bull trout) (Grande Ronde SMU)	Population definition change, now <i>S. confluentus</i> (Mid-Columbia population)
<i>Salvelinus confluentus</i> (Bull trout) (Hells Canyon SMU)	Population definition change, now <i>S. confluentus</i> (Mid-Columbia population)
<i>Salvelinus confluentus</i> (Bull trout) (Hood River SMU)	Population definition change, now <i>S. confluentus</i> (Coastal population)
<i>Salvelinus confluentus</i> (Bull trout) (Imnaha SMU)	Population definition change, now <i>S. confluentus</i> (Mid-Columbia population)
<i>Salvelinus confluentus</i> (Bull trout) (John Day SMU)	Population definition change, now <i>S. confluentus</i> (Mid-Columbia population)
<i>Salvelinus confluentus</i> (Bull trout) (Klamath River population)	Population definition change, now <i>S. confluentus</i> (Klamath population)
<i>Salvelinus confluentus</i> (Bull trout) (Malheur River SMU)	Population definition change, now <i>S. confluentus</i> (Upper Snake population)
<i>Salvelinus confluentus</i> (Bull trout) (Odell Lake SMU)	Population definition change, now <i>S. confluentus</i> (Coastal population)
<i>Salvelinus confluentus</i> (Bull trout) (Umatilla SMU)	Population definition change, now <i>S. confluentus</i> (Mid-Columbia population)
<i>Salvelinus confluentus</i> (Bull trout) (Willamette SMU)	Population definition change, now <i>S. confluentus</i> (Coastal population)

Reptiles

<i>Lampropeltis getula</i> (Common kingsnake)	Name change, now called <i>Lampropeltis californiae</i> (California kingsnake)
---	--

Birds

<i>Artemisospiza belli</i> (Sage sparrow)	Name change, now called <i>A. nevadensis</i> (Sagebrush sparrow)
<i>Branta hutchinsii leucopareia</i> (Aleutian Canada goose)	Common name change, now Aleutian cackling goose
<i>Grus canadensis canadensis</i> (Lesser sandhill crane)	Name change, now called <i>Antigone canadensis canadensis</i>
<i>Grus canadensis rowani</i> (Canadian sandhill crane)	Name change, now called <i>Antigone canadensis rowani</i>
<i>Grus canadensis tabida</i> (Greater sandhill crane)	Name change, now called <i>Antigone canadensis tabida</i>
<i>Otus flammeolus</i> (Flammulated owl)	Name change, now called <i>Psiloscoops flammeolus</i>

DROPS AND NAME CHANGES since July 2013 list continued

Mammals

Martes caurina (Pacific Marten – Coastal Population)

Name change, now called *Martes caurina humboldtensis*

Invertebrates

Acalypta lillianus (Lillian's lace bug)

Name correction, *Acalypta lillianis*

Atrazonotus umbrosus (Umbrose seed bug)

Dropped, too common

Bombus occidentalis (Western bumblebee)

Name change, now called *Bombus occidentalis occidentalis*

Colligyrus sp. nov (Columbia dusksnail)

Name change, now called *Colligyrus greggi* (Rocky Mountain dusky snail)

Erpetogomphus compositus (White-belted ringtail [dragonfly])

Dropped, too common

Eusattus rectus (Sandbar darkling beetle)

Name change, now called *Conisattus rectus* (Sand darkling beetle)

Helisoma newberryi newberryi (Great Basin ramshorn snail)

Name change, now called *Helisoma newberryi* (Great Basin ramshorn)

Herperocimex coloradensis (Colorado bed bug)

Dropped, too common

Hydrometra martini (Martin's water-measurer)

Dropped, too common

Lepidostoma astaneum (Goedens's lepidostoman caddisfly)

Name correction, *Lepidostoma astanea*

Mesovelgia mulsanti (Mulsant's water treader)

Dropped, too common

Monadenia fidelis beryllica (Green sideband)

Name change, now called *Monadenia fidelis flava*

Zapada wahkeena (Wahkeena Falls flightless stonefly)

Name change, now called *Nanonemoura wahkenna*

SPECIAL PLANTS AND FUNGI

Nomenclature

Ongoing research has resulted in a number of recent changes which have been included in this version of the book. Whenever possible, for vascular plants we have used names and authorities provided by the Oregon Flora Project at the Oregon State University Herbarium. More information on this project is provided at the end of this section.

Lists

This plant list is an update of the 2013 edition of this publication. All status changes for specific taxa reflect new information obtained since then. List and status definitions can be found in the Definitions section.

Species that have been dropped from the list or have had name changes are not included within the main body of the lists. These are listed separately in the "Drops and Name Changes" section. If you do not see a species name that had been in the 2013 edition of the book, please refer to that section.

The lists are arranged by category then alphabetically by scientific name. State distribution is included for all vascular plant taxa in this edition. Distribution information for the non-vascular plants and fungi is not complete.

At the end of the main list, taxa are listed again by status. These include: a) the USFWS Federal Endangered Species Act Listed Species, Candidates, and Species of Concern; and b) the ODA State Endangered Listed and Candidate taxa.

Other Information

ORBIC recognizes that fungi are not plants and should be recognized as a distinct kingdom. However, for this book they are included in the plant section. As in previous editions, information on the fungi in the lists is not as complete as other groups of species. As a result, most remain on the Review List (List 3).

Information on fungi species has been summarized from work which included extensive herbaria searches and fieldwork from federal agency biologists as well as from OSU faculty and staff. Much of the fungi work builds on the efforts by the USFS and BLM in implementing the Survey and Manage program of the Northwest Forest Plan. The heritage ranks are the best determination of a species' status, but due to their limited inventory, heritage ranks for fungi are

generally less certain than for other vascular and non-vascular species. We hope their inclusion here will stimulate more research and survey, since many of these taxa may be among Oregon's rarest.

ORBIC is interested in obtaining and databasing information for all locations of taxa on Lists 1 and 2. Files are maintained for locations of those on List 3 and 4 but these are generally not included in our rare species database.

It is critical that additional information be obtained for List 3 taxa so accurate status determinations can be made. Distribution information is based on historical and current reports and is included to aid in searches and to increase knowledge of these taxa.

The submission of additional information on status or occurrences of any species included on these lists would be appreciated. Forms and information on submitting digital reports or location information to ORBIC can be found at

<http://inr.oregonstate.edu/orbic/submit-data>.

State Endangered Plant Protection

Native Plant Conservation Program
Oregon Department of Agriculture (ODA)
Department of Botany and Plant Pathology
2082 Cordley Hall, Oregon State University
Corvallis, OR 97331-2902

Dr. Robert Meinke, Program Lead (OSU Graduate
Faculty, Adjunct) - (541) 737-2317

Kelly Amsberry, Plant Conservation Research
Coordinator (OSU Research Associate) -
(541) 737-4333

Jordan Brown, Staff Plant Conservation Biologist, Field
Team Leader - (541) 737-2346 (OSU Research
Associate)

Cameron Metzler, Natural Resource Specialist
Laura Kentnesse, Graduate Student in Conservation
Biology (Botany Dept., OSU)

In 1987, Oregon legislators passed Senate Bill 533 (unofficially the "Oregon Endangered Species Act") at the urging of the Native Plant Society of Oregon and the state's botanical community. This bill, and its accompanying statutes (ORS 564.100 through 564.135), directed ODA to conserve and protect those native plant species facing the greatest threats to

their survival. The resulting Endangered Species Program (now integrated into the Native Plant Conservation Program in ODA's Plant Program Area) was initiated in 1988. The most current state list of threatened and endangered plant species and related administrative rules can be accessed at http://arcweb.sos.state.or.us/pages/rules/oars_600/oar_603/603_073.html

These administrative rules also describe departmental procedures for the listing, reclassification, or delisting of plant species as threatened or endangered; how to go about petitioning ODA for the listing or delisting of a species; and the regulations and programs designed to assist and direct state land management agencies in their important roles involving native plant protection.

The Native Plant Conservation Program works with governmental agencies, non-governmental organizations, universities, businesses, and individuals to conserve Oregon's rich natural heritage of native plant diversity. This is achieved through two avenues: research and regulation. The research conducted by program staff focuses on taxonomic questions, reproductive biology, disturbance ecology, population augmentation and creation, and providing data in support of listing or delisting species. Such biologically-based projects are critical to the development of accurate status determinations for many rare plants, including formally listed species, candidate taxa, and species of concern.

On the regulatory side, ODA is responsible for setting the guidelines on listing, reclassification, and delisting plant species as threatened or endangered. In addition, the program is charged with developing and administering a permit system which regulates commercial and research actions involving state-listed plant species. Any person or organization planning to study, collect, cultivate, transplant, reintroduce, or otherwise work with or impact a listed species for commercial or research purposes must first apply in advance for a written permit from ODA. If the application is approved, the permittee then provides an annual summary describing completed or ongoing activities for each listed species (see OAR 603-073-0100 and -0110). Regular permits are currently issued free of charge, though ODA may request reasonable reimbursement from applicants for any costs incurred

by the department during follow-up permit reviews, report evaluations, or for special services. Contact Bob Meinke or Jordan Brown if you have any questions regarding permits.

With the exception of the state's ability to regulate the import, export, and commercial trafficking of threatened and endangered plants, Oregon's conservation authority regarding state-listed plants extends only to non-federal public lands (e.g., state, city, and county lands, public schools and utilities). Managers of these lands are required to follow the conservation management protocols specified under OAR 603-073.

Although state regulations do not require private or federal agencies to safeguard species protected under state law on their lands, ODA is willing to cooperate with anyone in plant conservation efforts if they request assistance, to the extent that ODA has staff available to help. Since 1988, ODA has collaborated with federal agencies such as USFWS, the USFS, and the BLM, as well as with various state and local agencies, private organizations, and individuals, on over 250 plant conservation research and recovery projects statewide.

For additional information about the Native Plant Conservation Program, please visit the program's website at <http://www.oregon.gov/oda/plant/conservation>.

Native Plant Society of Oregon (NPSO) Plant Protection and Education Programs

NPSO has had a long history of working to increase the knowledge and protection of rare plants in Oregon. From involvement in the original Oregon Rare and Endangered Plant Project (1972-1982), to writing and passage of the Oregon Endangered Species Act of 1987, NPSO members have been at the forefront of plant conservation in our state.

In addition to sponsoring and supporting endangered species legislation, NPSO carries on its own rare plant protection program. Members in 13 chapters across the state monitor rare plants in each area, and report findings to our state Rare & Endangered (R&E) chair. This information is then incorporated into ORBIC's databases. In addition, each chapter has an active schedule of programs, workshops, and field trips. The NPSO Bulletin

newsletter and Kalmiopsis journal feature articles on Oregon R&E species. New members are always welcome. Please visit our website below for more information about NPSO's Rare & Endangered Plant Program. For information contact us at:

Oregon Flora Project

The mission of the Oregon Flora Project (OFP) is to serve as steward of Oregon's botanical information and to support its use and application. The OFP focuses on the native and naturalized vascular plants of the state that grow in the wild without cultivation. Information is communicated in print via the *Flora of Oregon* and digitally through the OFP website (<http://oregonflora.org>) and a plant identification mobile app. Three basic types of data are provided for all the approximately 4,620 plant taxa (species, subspecies, and varieties) in Oregon: taxonomic, descriptive visual, and spatial.

Taxonomic knowledge of the state's flora is summarized in the *Oregon Vascular Plant Checklist*. The Checklist is a standardized, documented reference for Oregon vascular plants which allows users to effectively communicate taxonomic concepts across diverse datasets. The Checklist is updated continuously to reflect the most recent research, with virtually all changes being immediately reflected in the OFP website tools. A snapshot of the Checklist is published annually; this serves as a milepost to cite as a reference for nomenclature of taxonomic concepts used in reports, projects, and publications. The Checklist tracks all native and exotic taxa confirmed to grow in Oregon without cultivation, either currently or historically. Each taxon entry lists the accepted scientific name, synonyms, common name, plant origin (native or exotic), location of a voucher specimen (if other than the OSU Herbaria), date of most recent collection, and key bibliographic references. Names are also cross-referenced to nine key floras and field guides that cover portions of the state.

The *Flora of Oregon* is the first comprehensive floristic reference addressing all of Oregon that has been initiated in over 50 years. Volume 1 of *Flora of*

Oregon was published in September 2015; it covers the 1,054 taxa within the pteridophytes, gymnosperms, and monocots. The dicots will be treated in Volume 2 (Adoxaceae – Fagaceae; publication in 2017) and Volume 3 (Garryaceae – Zygophyllaceae; publication in 2019).

Each *Flora* volume has dichotomous keys to families as well as to terminal taxon (species or subtaxon). Each taxon description is accompanied by a distribution dot map. There are pen and ink illustrations of every genus; when more than 4 species of any genus are treated approximately 25% will have an illustration. Each volume also has a glossary, appendices, and front chapters with color photographs presenting topics of general interest. The *Flora of Oregon* can be purchased directly from the publisher, BRIT Press, at <http://shop.brit.org/products/floraoforegon1>.

Descriptive visual data are exemplified by the online *Photo Gallery*. Currently there are over 44,000 searchable images representing about 93% of the taxa in the flora. These are primarily field photographs depicting flowers as well as plant habitat, general habit, and details of key characters. Images of representative herbarium specimens are included. The OFP is pleased to accept contributed digital images of plants that are accompanied by an identification and locality data.

Oregon Wildflowers, a wildflower identification app for mobile digital devices, is an image-based interactive key to 1,054 herbs, shrubs, and vines statewide. It can be downloaded from <http://www.highcountryapps.com/OregonWildflowers.aspx>. Of the included plant forms, approximately 35% of the taxa within 502 genera are represented. There are multiple photos, a written description, and a distribution map for each taxon. The app can be run without an internet connection, making it a useful resource in remote areas.

Spatial data gathered and curated by OFP are available for mapping through the *Oregon Vascular Plant Atlas*. This interactive mapping tool creates distribution maps of any combination of plant taxa. More than 540,000 mappable records are derived from herbarium specimens from 39 herbaria and unvouchered observations from images, species lists, research, and survey projects. Details about each plant occurrence (excluding sensitive plant localities)

are available and can be downloaded in spreadsheet format.

The Oregon Flora Project is housed in the Botany & Plant Pathology (BPP) Department of Oregon State University and is closely associated with the OSU Herbarium. Five staff members (totaling 3.6 FTE), student workers, and volunteers comprise the OFP team. An eight member advisory council supports the OFP mission, as does a Native Plant Society of Oregon liaison.

Since its inception in 1994, 100% of the salaries and direct operating expenses of the OFP are derived from charitable donations, sponsorship by the Native Plant Society of Oregon, and competitive grants. Indirect support as office space and HR services are provided by BPP. Sustained funding is provided by

the OR/WA Bureau of Land Management and the John & Betty Soreng Environmental Fund of the Oregon Community Foundation.

To access the resources described, visit the OFP web site at <http://oregonflora.org>. A redesigned website will be launched in early 2017 with new features to augment the current content.

FEDERAL ENDANGERED SPECIES ACT STATUS

Plants Listed as Endangered

Arabis macdonaldiana
Astragalus applegatei
Erigeron decumbens
Fritillaria gentneri

Lilium occidentale
Limnanthes pumila ssp. *grandiflora*
Lomatium bradshawii
Lomatium cookii

Plagiobothrys hirtus
Stephanomeria malheurensis

Plants Listed as Threatened

Castilleja levisecta
Howellia aquatilis
Lupinus oregonus

Mirabilis macfarlanei
Sidalcea nelsoniana
Silene spaldingii

Thelypodium howellii ssp. *spectabilis*

Candidates for Listing

Artemisia campestris var. *wormskioldii*

Pinus albicaulis

USFWS SPECIES OF CONCERN

<i>Abronia umbellata</i> ssp. <i>breviflora</i>	<i>Calochortus umpquaensis</i> ssp. <i>flavicomus</i>	<i>Eriogonum crosbyae</i> var. <i>mystrium</i>
<i>Achnatherum hendersonii</i>	<i>Calochortus umpquaensis</i> ssp. <i>umpquaensis</i>	<i>Eriogonum cusickii</i>
<i>Achnatherum wallowaense</i>	<i>Camassia howellii</i>	<i>Eriogonum prociduum</i>
<i>Agrostis hendersonii</i>	<i>Cardamine pattersonii</i>	<i>Eriogonum umbellatum</i> var. <i>glaberrimum</i>
<i>Agrostis howellii</i>	<i>Carex idahoa</i>	<i>Erysimum concinnum</i>
<i>Allium dictuon</i>	<i>Castilleja chambersii</i>	<i>Erythranthe inflatula</i> (<i>Mimulus evanescens</i>)

DROPS AND NAME CHANGES since July 2013 list

Vascular Plants

<i>Abronia umbellata</i> ssp. <i>breviflora</i>	Name change, now called <i>Abronia umbellata</i> var. <i>breviflora</i>
<i>Artemisia arbuscula</i> ssp. <i>longicaulis</i>	Dropped, too common
<i>Calochortus umpquaensis</i>	Name change, now called <i>Calochortus umpquaensis</i> ssp. <i>confertus</i> , <i>Calochortus umpquaensis</i> ssp. <i>flavicomus</i> , <i>Calochortus umpquaensis</i> ssp. <i>umpquaensis</i>
<i>Coryphantha vivipara</i> var. <i>vivipara</i>	Dropped, not documented from the state
<i>Cryptantha leucophaea</i>	Dropped, not documented from the state
<i>Cymopterus acaulis</i> var. <i>greeleyorum</i>	Name change, now called <i>Cymopterus glomeratus</i> var. <i>greeleyorum</i>
<i>Epilobium canum</i> ssp. <i>latifolium</i>	Dropped, too common
<i>Equisetum pratense</i>	Dropped, not documented from the state
<i>Erodium macrophyllum</i>	Name change, now called <i>California macrophylla</i>
<i>Fauria crista-galli</i>	Name change, now called <i>Nephrophyllidum crista-galli</i>
<i>Horkelia sericata</i>	Dropped, too common
<i>Kobresia bellardii</i>	Name change, now called <i>Kabresia myosuroides</i>
<i>Lilaea scilloides</i>	Name change, now called <i>Triglochin scilloides</i>
<i>Lomatium idahoense</i>	Dropped, not documented from the state
<i>Lomatium tamanitchii</i>	Dropped, not documented from the state
<i>Mimulus aurantiacus</i>	Name change, now called <i>Diplacus aurantiacus</i>
<i>Mimulus bolanderi</i>	Name change, now called <i>Diplacus bolanderi</i>
<i>Mimulus clivicola</i>	Name change, now called <i>Diplacus clivicola</i>
<i>Mimulus congdonii</i>	Name change, now called <i>Diplacus congdonii</i>
<i>Mimulus douglasii</i>	Name change, now called <i>Diplacus douglasii</i>
<i>Mimulus evanescens</i>	Name change, now called <i>Erythranthe inflatula</i>
<i>Mimulus hymenophyllus</i>	Name change, now called <i>Erythranthe hymenophylla</i>
<i>Mimulus jepsonii</i>	Name change, now called <i>Diplacus jepsonii</i>
<i>Mimulus jungermannioides</i>	Name change, now called <i>Erythranthe jungermannioides</i>
<i>Mimulus kelloggii</i>	Name change, now called <i>Diplacus kelloggii</i>
<i>Mimulus latidens</i>	Name change, now called <i>Erythranthe latidens</i>
<i>Mimulus patulus</i>	Name change, now called <i>Erythranthe patula</i>
<i>Mimulus tricolor</i>	Name change, now called <i>Diplacus tricolor</i>
<i>Piptatherum exiguum</i>	Name change, now called <i>Piptatheropsis exigua</i>
<i>Polyctenium fremontii</i> var. <i>bisulcatum</i>	Dropped, taxonomic issues, invalid variety
<i>Polyctenium williamsiae</i>	Dropped, taxonomic issues, synonym of <i>Polyctenium fremontii</i>
<i>Pyrola dentata</i>	Dropped, too common
<i>Rosa gymnocarpa</i> var. <i>serpentina</i>	Dropped, too common
<i>Sidalcea hickmanii</i> ssp. nov.	Name change, now called <i>Sidalcea hickmanii</i> ssp. <i>petraea</i>
<i>Streptanthus glandulosus</i>	Name change, now called <i>Sidalcea glandulosus</i> ssp. <i>josephinensis</i>
<i>Trollius laxus</i> ssp. <i>albiflorus</i>	Name change, now called <i>Trollius albiflorus</i>

Fungi

<i>Amanita malheurensis</i>	Name change, now called <i>Amanita prairiicola</i>
<i>Boletus pulcherrimus</i>	Dropped, too common
<i>Bridgeoporus nobilissimus</i>	Dropped, too common
<i>Clavariadelphus sachalinensis</i>	Dropped, too common
<i>Dendrocollybia racemose</i>	Dropped, too common
<i>Hebeloma oregonense</i>	Name change, now called <i>Hebeloma oregonense</i> var. <i>oregonense</i>
<i>Helvella elastic</i>	Dropped, too common
<i>Phaeocollybia californica</i>	Dropped, too common

DROPS AND NAME CHANGES since July 2013 list continued

<i>Phaeocollybia pseudofestiva</i>	Dropped, too common
<i>Ramaria amyloidea</i>	Dropped, too common
<i>Ramaria coulterae</i>	Dropped, too common
<i>Rhizopogon atroviolaceus</i>	Dropped, taxonomic issues, synonym of <i>Rhizopogon subpurpurascens</i>
<i>Rickenella swartzii</i>	Dropped, too common
<i>Sowerbyella rhenana</i>	Dropped, too common

Lichens

<i>Aspicilia rogeri</i>	Name change, now called <i>Circinaria rogeri</i>
<i>Bryoria pseudocapillaris</i>	Taxonomic issues, synonym of <i>Sulcaria spiralifera</i>
<i>Bryoria subcana</i>	Dropped, too common
<i>Caloplaca stantonii</i>	Name change, now called <i>Gyalolechia stantonii</i>
<i>Leptogium burnetiae</i>	Dropped, not documented from the state
<i>Pseudocyphellaria perpetua</i>	Name change, now called <i>Pseudocyphellaria hawaiiensis</i>
<i>Stenocybe clavata</i>	Dropped, too common
<i>Stenocybe major</i>	Dropped, too common
<i>Usnea schadenbergiana</i>	Name change, now called <i>Usnea subgracilis</i>

Liverworts

<i>Lophozia gillmanii</i>	Name change, now called <i>Mesoptychia gillmanii</i>
<i>Lophozia laxa</i>	Name change, now called <i>Schistochilopsis laxa</i>
<i>Plagiochila semidecurrens</i> var. <i>alaskana</i>	Name change, now called <i>Plagiochila semidecurrens</i> var. <i>semidecurrens</i>
<i>Porella vernicosa</i> ssp. <i>fauriei</i>	Name change, ours is <i>Porella arboris-vitae</i>

Mosses

<i>Bartramia stricta</i>	Dropped, not documented from the state
<i>Bryoerythrophyllum columbianum</i>	Dropped, too common
<i>Encalypta brevicolla</i>	Name change, now called <i>Encalypta brevicollis</i>
<i>Grimmia anomala</i>	Dropped, too common
<i>Grimmia donniana</i>	Dropped, taxonomic issues
<i>Helodium blandowii</i>	Name change, now called <i>Elodium blandowii</i>
<i>Plagiopus oederiana</i>	Name change, now called <i>Plagiopus oederianus</i>
<i>Pohlia sphagnicola</i>	Dropped, taxonomic issues, synonym of <i>Pohlia nutans</i>
<i>Pseudoleskeella serpentinensis</i>	Dropped, too common

OREGON BIODIVERSITY INFORMATION CENTER RARE PLANT FIELD SURVEY FORM

Digital versions of this form and information on submitting other data are available at <http://inr.oregonstate.edu/orbic/submit-data>. Please complete all entries in the top section, and as much as possible in the more detailed numbered sections. If attaching a map of the location, we prefer something similar to a USGS 7.5' map.

Scientific Name: _____

Date of Field Work: _____ County: _____ Collection: _____ Yes (____), _____ No
mo. day year coll #, herbarium

Directions: _____

Reporter: _____ Phone: _____

Address: _____

1. LOCATION - Attach separate map or sketch a map indicating exact site, scale and proximity to prominent features.

- A. Plant found? Yes No If no, reason: _____
- B. Location: T _____ R _____ Sec _____ 1/4 of _____ 1/4 (use back for more TRS)
- C. Source of GPS coordinates (circle one): GPS (make & model _____) or map (type & scale _____)
GPS accuracy distance: _____ (circle: feet or meters)
Datum (circle): Nad 27, Nad 83, other _____. Easting/Longitude _____ Northing/Latitude _____
Coordinate System (circle): UTM (Zone 10), UTM (Zone 11) or Latitude/Longitude
- D. Owner/Manager: _____

2. SPECIES BIOLOGY

- A. Phenology: _____ % in flower, _____ % in fruit, _____ % in leaf
- B. Population size: Number of plants: _____ Area occupied: _____
- C. Age Class: _____ % seedlings, _____ % immature, _____ % 1st year, _____ % mature, _____ % senescent

3. HABITAT

- A. Plant communities/Habitat Description/Associated species:

- B. Aspect: _____ (enter compass direction(s) or degrees)
- C. Slope: _____ slight (0°-20°), _____ moderate (20°-45°), _____ extreme (45°+), _____ vertical
- D. Topographic position: _____ crest, _____ upper slope, _____ mid-slope, _____ lower slope, _____ bottom
- E. Light: _____ open, _____ filtered, _____ shade
- F. Moisture: _____ inundated, _____ saturated, _____ moist, _____ dry
- G. Elevation range: _____ to _____ (choose unit: feet or meters)
- H. Substrate/soil: _____
- I. Visible threats/potential disturbance: _____

4. DETERMINATION - How was plant identified? (choose one or more, please fill in the source for each choice)

- _____ keyed in flora, _____ compared with specimen, _____ compared with photo/drawing,
_____ identified by someone else, _____ other .
Source (name of flora/which specimen/which drawing/name of identifier): _____

5. PHOTOGRAPHS

Did you take a photo: _____ Yes, _____ No. May we obtain duplicates at our cost? _____ Yes _____ No

OREGON BIODIVERSITY INFORMATION CENTER ANIMAL SURVEY FORM

Digital versions of this form and information on submitting other data are available at <http://inr.oregonstate.edu/orbic/submit-data>. If possible, please attach a map of the location, preferably something of the same quality as a USGS 7.5' map. Also please include any photos or sketches and measurements when appropriate.

Basic Data

Scientific Name: _____

Date of Field Work: _____ County: _____

Observer: _____ Phone/E-mail: _____

Affiliation/Address: _____

Locality Data

Site Name: _____ Directions: _____

Township _____ Range _____ Section _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$

Datum (circle): Nad 27, Nad 83, other _____ Easting/Longitude _____ Northing/Latitude _____

Source of GPS coordinates (circle one): GPS (make & model _____) or map (type & scale _____)

GPS accuracy distance: _____ (circle: feet or meters)

Coordinate System (circle): UTM (Zone 10), UTM (Zone 11) or Latitude/Longitude

Ownership: _____

Species Biology

Approximate # Animals: _____ Sex/Age: _____

Site Function for Species: _____

Population trends at Site: _____

Habitat

General Description: _____

Associated Plants/Animals: _____

Disturbance/Threats: _____

Other knowledgeable individuals/Comments: _____

ACKNOWLEDGMENTS

Animals

Revisions to the current edition included status changes made by ODFW, USFWS and NOAA Fisheries. Our thanks to these agencies for their continued efforts to protect and study Oregon's fauna. Our appreciation goes, as always, to the many vertebrate and invertebrate biologists who contributed directly or indirectly and whose comments and criticisms were incorporated into this book.

In 2016, the following biologists contributed to this effort: John Abbott, Bob Altman, Keith Aubry, James Bergdahl, Emilie Blevins, Barb Bresson, Tom Burke, Jim Capurso, Christina Donehower, Candace Fallon, John Fleckenstein, Sarah Foltz Jordan, Elizabeth Gayner, Andrea Hanson, Rich Hatfield, Katie Hietala-Henschell, Kendra Hoekzema, Rob Huff, Carol Hughes, Sarina Jepsen, Jim Johnson, Cary Kerst, Jim LaBonte, Ron Lyons, Doug Markle, Chris Marshall, Pat Matthews, Bruce Newhouse, Martin Nugent, Mark Penninger, Charlie Quinn, Brandon Reishus, Arty Rodriguez, Dana Ross, Barry Roth, Nicole Sears, Brian Sidlauskas, Alan St. John, Wayne Steffens, Kelli Van Norman, and Robert Wisseman.

Plants and Fungi

Many of the changes made since the last edition of this book in 2013 resulted from the Rare and Endangered Plant Conference held at Peavy Arboretum, Corvallis, Oregon in October 2015. We thank all conference participants and others who have contributed to this project. Many of the improvements in the information included in this book came from botanists of the Oregon Department of Agriculture, the U.S. Forest Service, the Bureau of Land Management, private consultants, the Native Plant Society of Oregon, and other organizations.

Special thanks go to Stephen Meyers at Oregon State University, who serves as the Taxonomic Director for the Oregon Flora Project and the nomenclatural arbiter for ORBIC and for this publication. We also would like to continue to recognize the years of help and support from Ken and Henny Chambers and from Peter Zika in providing us with taxonomic guidance and assistance.

Michael Castellano (USFS) compiled the original list of fungi in 1998, to which additions have been recommended by agency and university mycologists, private consultants, and the Oregon Mycological Society. Early contributors included Efren Cazares, Janet Lindgren, Randy Molina, Lorelei Norvell, Judy Roger, James Trappe, and Nancy Weber.

Primary sources of expertise for changes made in the 2016 edition include:

Historical Collections Review: Several additions to the vascular plant list were recommended by Barbara Wilson and Nick Otting of the Carex Working Group, after reviewing Oregon Flora Project collection records. Several species that have not been collected in Oregon in the last 50 years or more have been added to List 3.

Liverworts: John Christy, Clint Emerson, Ron Exeter, Amanda Hardman, Christina Veverka, and David Wagner.

Mosses: John Christy, Rick Dewey, Clint Emerson, Ron Exeter, Roger Ferriell, Phil Gaddis, Doug Goldenberg, Amanda Hardman, Judith Harpel, David Kofranek, Scot Loring, Darci Rivers-Pankratz, Wayne Rolle, Daphne Stone, Duncan Thomas, Christina Veverka, David Wagner, Kelli Van Norman, and Rob Weiss.

Fungi: Tom Carlberg, John Christy, Doug Goldenberg, Clint Emerson, Ron Exeter, Ron Hamill, Jenny Lippert, Scot Loring, Darlene Southworth, Kelli Van Norman, Darci Rivers-Pankratz, and Darlene Southworth.

Lichens: Clint Emerson, Ron Exeter, Doug Goldenberg, Ron Hamill, Amanda Hardman, Jenny Lippert, Scot Loring, Cheshire Mayrsohn, Bruce McCune, Darci Rivers-Pankratz, Tim Rodenkirk, Daphne Stone, and John Villela.

CODES AND ABBREVIATIONS

FEDERAL STATUS

LE	Listed as an Endangered Species
LT	Listed as a Threatened Species
PE	Proposed as an Endangered Species
PT	Proposed as a Threatened Species
C	Candidate for Listing as Threatened or Endangered
SOC	Species of Concern - Taxa for which additional information is needed to support a proposal to list under the ESA

STATE STATUS – ANIMALS

LE	Listed as an Endangered Species
LT	Listed as a Threatened Species
PE	Proposed as an Endangered Species
PT	Proposed as a Threatened Species
SC	Sensitive – Critical
SV	Sensitive – Vulnerable
CS	Conservation Strategy Species

STATE STATUS – PLANTS

LE	Listed as an Endangered Species
LT	Listed as a Threatened Species
PE	Proposed as an Endangered Species
PT	Proposed as a Threatened Species
C	Candidate for Listing as Threatened or Endangered

ECOREGIONS

BM	Blue Mountains (includes High Lava Plains)
BR	Northern Basin and Range (includes Owyhee Uplands)
CB	Columbia Basin
CR	Coast Range
EC	East Cascades
KM	Klamath Mountains
ME	Marine and Estuarine
WC	West Cascades and Crest
WV	Willamette Valley

STATES AND PROVINCES

AB	Alberta	NV	Nevada
AK	Alaska	NJ	New Jersey
AZ	Arizona	NM	New Mexico
AR	Arkansas	NY	New York
BC	British Columbia	NC	North Carolina
CA	California	NT	NW Territories
CO	Colorado	NS	Nova Scotia
HI	Hawaii	ON	Ontario
ID	Idaho	QC	Quebec
KS	Kansas	SK	Saskatchewan
LA	Louisiana	TN	Tennessee
MB	Manitoba	UT	Utah
MA	Massachusetts	WA	Washington
MS	Mississippi	WI	Wisconsin
MT	Montana	WY	Wyoming

NATURESERVE/NATURAL HERITAGE RANKS

G1	Critically imperiled throughout its range
G2	Imperiled throughout its range
G3	Vulnerable throughout its range
G4	Apparently secure, uncommon but not rare
G5	Secure, common, abundant and widespread
S1	Critically imperiled in Oregon
S2	Imperiled in Oregon
S3	Vulnerable, rare, threatened or uncommon in Oregon
S4	Apparently secure, not rare in Oregon
S5	Widespread, abundant and secure in Oregon
T	Rank for a subspecies, variety, or race
Q	Taxonomic questions
H	Historical, formerly part of the native biota with the implied expectation that it may be rediscovered
X	Presumed extirpated or extinct
U	Unrankable due to lack of or conflicting information
NR	Not yet ranked
B	Rank of the breeding population (migratory birds)
N	Rank of the wintering population (migratory birds)

MISCELLANEOUS

BLM	Bureau of Land Management
ESA	Endangered Species Act
EPA	Environmental Protection Agency
FED	Federal
NOAA	National Oceanic and Atmospheric Administration
ODA	Oregon Department of Agriculture
ODFW	Oregon Department of Fish and Wildlife
OESA	Oregon Endangered Species Act
OPRD	Oregon Parks and Recreation Department
ORBIC	Oregon Biodiversity Information Center
sp. nov.	species novum (new species) - in the process of being described in the literature
ssp.	subspecies
ssp. nov.	subspecies novum (new subspecies) - in the process of being described in the literature
TNC	The Nature Conservancy
USFS	United States Forest Service
USFWS	United States Fish and Wildlife Service
var.	variety
+	taxon occurs in additional states

ORBIC LISTS

1	Threatened or Endangered Throughout Range
2	Threatened, Endangered or Extirpated from Oregon, but Secure or Abundant Elsewhere
3	Review
4	Watch
1-ex	Extirpated in Oregon
2-ex	Extirpated in Oregon
1-X	Presumed extinct
