Spectacular

From humble beginnings

Operating from the single garage of a residence in Campbelltown in 1987 and then later enduring a factory fire in 1992, Intrim has evolved to become Australia's leading manufacturer and creators of finely crafted, quality architectural mouldings of distinction. With manufacturing and warehousing facilities in Sydney, Melbourne and Brisbane, Intrim is well positioned to supply Australia wide.

Create “WOW”

The Intrim vision is to be the leader in manufacture, design and supply of specialised mouldings and architectural timber profiles. We have built a brand known for excellent service, impeccable quality, product and design innovation and unparalleled product knowledge.

We want to walk the project journey with our customers from design to completion by empowering architects, interior designers, builders, homeowners and renovators with the knowledge and advice to help them achieve their design goals and create a spectacular interior.

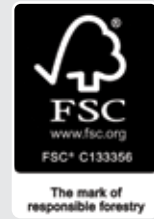

Our team combine exceptional design, style and product knowledge to give you expert advice on the right profiles to use for your style of interior or the look you want to achieve.

FSC® Certification

ENVIRONMENTAL CERTIFICATION

Many timber mouldings suppliers will tell you in good faith that they source their supplies from 'sustainable' or 'managed' sources but without an independent certification system there is no way to verify this. Knowing where your timber comes from ensures you're doing your part to make a positive impact on the environment, forests and the lives of those communities who manage them. Intrim are FSC® (Forestry Stewardship Council) certified which means that much of the timber we use to manufacture our profiles comes from well managed forests that provide environmental, economical and social benefits. When choosing your timber, you can be confident you are making a choice for our environment and planet when choosing our FSC® certified FJ Pine products.

Free Samples

KNOW YOU'VE GOT IT RIGHT WITH FREE SAMPLES

We know how important it is that you feel confident in the choices you make in your project, and mouldings are no exception. To further help you visualise your finished interior you can request free samples for many of our profiles via our website or through our friendly team, delivered straight to your door. That's right, for FREE!

Making your profile selection

1

DECIDE ON YOUR INTERIOR STYLE

Determine the type and style of interior you would like to achieve. Is it a Hamptons, Edwardian, Georgian, French Provincial, Art Deco, Modern, Contemporary or Colonial Victorian?

2

SELECT A PROFILE

Turn to your chosen interior style section in this catalogue and select a profile. Remember that some profiles may suit multiple interior styles, and you may wish to choose a profile from another section that is different to your interior style. We can also custom make profiles to your individual design if you are unable to find a profile to meet your specific interior requirements.

3

REQUEST A SAMPLE

To help cement your decision on a profile, request a sample from our available profiles, and we will supply them to you free of charge. Simply order online at intrimmouldings.com.au or call 1800 622 081.

4

CHOOSE YOUR TIMBER

Will your moulding be painted with a solid colour such as white or with a clear which reveals the grain and colour of the timber? If painting with a solid colour use Finger Joint Pine or MR Medium Density Fibreboard. FJ Pine is the material of choice for builders and renovators as it is more durable and moisture resistant than MDF. Materials such as Victorian Ash are suitable if you would like to see the natural timber grain and colour once clear coated.

5

TO PRIME OR NOT TO PRIME?

If you want to save time and money on site, priming is the perfect solution. Not only does it protect all surfaces of your mouldings from moisture absorption, but also saves time painting on site. Your mouldings will arrive to site primed and ready for installation.

6

SUPPLY

Intrim offer one of the speediest manufacture and dispatch times in the mouldings industry. You may be surprised just how soon we can craft, pack and have your mouldings delivered to your door... sometimes in under a week! Speak to our team about order and delivery to your area.

Front Porch Properties Brae Homestead

This original 'Queenslander' home was raised up to add another level below and completely renovated. A strong American Farmhouse/ Cape Cod influence is seen throughout with a feminine twist that softens the look to perfection.

"Thanks to the Intrim team for the great service and great product supplied. In today's brutal and competitive business environment it is hard to find companies who really care and still offer a professional service at a reasonable price. We usually end up with suppliers who have become a low-price provider which due to their low cost structure are unable to provide a good service let alone any backup or even product knowledge. Thanks again."

Lena Gatti
Gatti Design

What Intrim Customers are Saying

"The high quality finish on their mouldings with the unique primer has been an absolute winner with our fixout and painting team"

Hilton
Project Manager

"Short turnaround times and meeting deadlines are key to the smooth delivery of our projects. Intrim deliver when they say they will"

Gavin
Carpenter

"Skirting and architraves can change the look of your entire house... they are probably that tiny little piece of your renovation that sometimes get overlooked but for me they are a huge design feature and they set the tone for your house... for this house and me, they were really important and I love these ones, the height, the depth, the width, even the detailing of them. They suit this home perfectly and I couldn't be happier."

Bonnie
Three Birds Renovations

"They have a keen and passionate team, that is highly responsive to our specific requirements"

Tiho
Luxury Home
Builder

Working with Intrim Group on our projects just makes everything easier. A great product range, top quality and awesome customer service. I can't recommend highly enough.

Kier Gregg
Director
The Dept of Design

Hamptons

Hamptons style is defined by casual, relaxed beachside living but done in a classic and very sophisticated way. The look is bright and breezy, plenty of natural daylight with discreet window treatments to really let the light pour in.

Colonial & Victorian

Hamptons Inspired
MASTERPIECE

Edwardian & Georgian

This look is all about coordination! The style relies on straight lines, symmetry & finesse to achieve a beautiful clean look. Being inspired by ancient architecture with a decorative focus on walls will help achieve this look.

A photograph of a bedroom interior. In the foreground, a large bed with a tufted headboard and a matching tufted ottoman is visible. The bed is dressed in white and light-colored bedding. To the right of the bed is a wooden nightstand with a lamp. In the background, a doorway leads to a closet with a white door and a wooden vanity. A chandelier hangs from the ceiling. The room has light-colored walls and wood flooring.

Chateau Hunter Valley

Sometimes dreams are very personal, and not everyone's cup of tea, but when you can transform yours into something magnificent that can be appreciated by all, you know you have a flair for design like Mimi Summers of Luxe Home Designs.

Modern Contemporary & Art Deco

Interior mouldings in modern homes typically use minimal Shadowline skirting, or a smaller profile with hard, sharp lines to create a clean look. More recently we see the use of wall panelling and more detail which still achieves a streamlined look but elevates the interior to something spectacular.

Deborah Hutton's Coastal Home

What she fondly refers to as 'The Beach Hutt', Deborah's love and passion for her home and the renovation process is very clear.

Get the look with
Intrim's SK568.
