Official Notice

Patent Rules 1992 – Rule 77 – Office Closure

This Office will be closed to the public on Tuesday 24th December 2019, Wednesday 25th December 2019, Thursday 26th December 2019 and Friday 27th December 2019.

Notice of change of name of the Patents Office

With effect from 2 December 2019, the Patents Office will be changing its name to the “**Intellectual Property Office of Ireland**” (IPOI). The title of the Controller of Patents Designs and Trade Marks will also change to the “**Controller of Intellectual Property**”.

The new name aims to clarify and better reflect the role of the IPOI in managing a range of intellectual property rights including registered trade marks and designs, patents and supplementary protection certificates as well as certain statutory functions under the Copyright Act. The new name is also in line with those of many similar agencies and offices abroad, making it easier for people to identify the statutory office in Ireland which has responsibility for the management and registration of intellectual property rights.

The change only concerns the name and does not impact on the role of the Office or how it operates. The change will not affect registered trademarks, design or patent rights. Neither will the change affect applications for intellectual property rights in Ireland or the application process.

As the “Patents Office” and the “Controller” are referred to by name in a number of pieces of legislation, provision has been made in Section 42 of the Copyright and Other Intellectual Property Law Provisions Act 2019, to amend the Patents Act in order to give legal effect to the changes.

The Office’s domain will change to www.ipoi.gov.ie and the Office’s e-mail addresses change to firstname.surname@ipoi.gov.ie on the date of the change. The general email address for correspondence will also change from patlib@patentsoffice.ie to ipinfo@ipoi.gov.ie

The existing address www.patentsoffice.ie and email addresses name@patentsoffice.ie will automatically redirect to the new domain name and email address.

The Office’s address and telephone numbers remain unchanged.

Revision of Kind Codes on Patent Publications

The Patents Office has decided to amend the KIND Codes¹ used in the publication of its patent documents to conform with WIPO Standard ST.16². These changes will take effect from 25/12/2019.

The following table shows the current KIND Code and the corresponding new KIND Code of the related document.

PUBLISHED FULL TERM PATENT APPLICATION DOCUMENTS	CURRENT KIND CODE	NEW KIND CODE
Patent application published with Search Report	N/A	A1
Patent application published without Search Report	A1	A2
Search report published separately after the date of publication of the application.	N/A	A3

PUBLISHED FULL TERM PATENT GRANT DOCUMENTS	CURRENT KIND CODE	NEW KIND CODE
Granted patent specification	B1	B1
Post grant amendment of patent specification	B8	C1

PUBLISHED SHORT TERM PATENT APPLICATION DOCUMENT	CURRENT KIND CODE	NEW KIND CODE
Short term patent application	A2	U1

PUBLISHED SHORT TERM PATENT GRANT DOCUMENTS	CURRENT KIND CODE	NEW KIND CODE
Granted short term patent specification	B2	Y1
Post grant amendment of short term patent specification	B9	Z1
Search report requested post grant	N/A	Y3

¹ KIND Codes are number/letter combinations which are used to distinguish the kind of patent document, e.g., a published application for a patent, a published search report etc.

Applications for Patents From 24/10/2019 to 06/11/2019

The names of applicants are in alphabetical order. In the case of joint applicants, each name is given independently. The title of the invention should not be regarded as an exhaustive indication of the subject-matter. The date immediately following the title is that on which the application was filed; in the case of a divisional application, the filing date of the earlier application is added within parentheses. In the case of a Convention application the Convention country and priority date(s) claimed are given in square brackets and where an application claimed the priority of an earlier application filed at the office, this information is given within the square brackets. The number is that of the application and should be used for correspondence purposes up to the date of grant of a patent. The letter S preceding the number indicates that the application is for a short-term patent. A new number will be given when a patent is granted and this new number should be quoted in all correspondence subsequent to grant.

Applications Published Under Section 28

The following applications become open to public inspection as from the date of this issue of the journal. The date given is the date of filing of the application or the earliest priority claimed.

2018	S20180259	CHENGDU KA DI FU TECHNOLOGY CO., LTD. Drug intermediates n-methylpyridin-2-one synthesis method. 23 August 2018. Int. Cl. (2019.01) C07D 213/00.
-------------	------------------	--

Patents Granted Under Section 34

The number of a patent is given in heavy type; the letter S preceding the number indicates a short-term patent. The code numbers following the title of each invention are those of the International Patent Classification. The date of filing the application follows the proprietor's name. The patent application number, which follows the date of application in parenthesis, has been superseded by the patent number. In the case of an application claiming the priority of an earlier application, the name of the country where the earlier application was made and the date of the earlier application are shown in square brackets.

By virtue of Section 65(3), the application relating to any short-term patent appearing in the following list whose date of filing is later than the date which is 18 months prior to the date of this issue of the Journal becomes open to public inspection as and from the date of this issue of the Journal.

- 87068** Water mixer assembly comprising an adjustable transmission. Int. Cl. (2019.01) **E03C 1/00; F16K 31/00**. NORCROS GROUP (HOLDINGS) LIMITED 23 September 2014 (20140242) [United Kingdom-23 January 2014]
- S87069** Drug intermediates n-methylpyridin-2-one synthesis method. Int. Cl. (2019.01) **C07D 213/00**. CHENGDU KA DI FU TECHNOLOGY CO., LTD. 23 August 2018 (S20180259)
- 87070** Electrosurgical device. Int. Cl. (2019.01) **A61B 17/00; A61B 18/00**. GYRUS MEDICAL LIMITED 10 January 2017 (20170011) [United Kingdom-12 January 2016]
- 87071** Movable chute for material processing apparatus. Int. Cl. (2019.01) **B07B 13/00; B65G 47/00**. TEREX GB LIMITED 08 June 2015 (20150169) [United Kingdom-10 June 2014]

Patents Granted Under European Patent Convention Designating Ireland

The Irish serial number appears first followed, respectively, by the proprietor's name, the date of filing of the application, the filing number and the European Patent Office publication number.

If the specification of the European patent was published in French or German the word 'French' or 'German', as appropriate, will appear as the last item of information.

In this Part of the Journal, unless the context otherwise requires, a reference to the 1963 Act means the Trade Marks Act, 1963, a reference to the 1963 Rules means the Trade Marks Rules, 1963, a reference to the 1996 Act means the Trade Marks Act, 1996 and a reference to the 1996 Rules means the Trade Marks Rules, 1996.

Official Notice

Patent Rules 1992 – Rule 77 – Office Closure

This Office will be closed to the public on Tuesday 24th December 2019, Wednesday 25th December 2019, Thursday 26th December 2019 and Friday 27th December 2019.

Notice of change of name of the Patents Office

With effect from 2 December 2019, the Patents Office will be changing its name to the “**Intellectual Property Office of Ireland**” (IPOI). The title of the Controller of Patents Designs and Trade Marks will also change to the “**Controller of Intellectual Property**”.

The new name aims to clarify and better reflect the role of the IPOI in managing a range of intellectual property rights including registered trade marks and designs, patents and supplementary protection certificates as well as certain statutory functions under the Copyright Act. The new name is also in line with those of many similar agencies and offices abroad, making it easier for people to identify the statutory office in Ireland which has responsibility for the management and registration of intellectual property rights.

The change only concerns the name and does not impact on the role of the Office or how it operates. The change will not affect registered trademarks, design or patent rights. Neither will the change affect applications for intellectual property rights in Ireland or the application process.

As the “Patents Office” and the “Controller” are referred to by name in a number of pieces of legislation, provision has been made in Section 42 of the Copyright and Other Intellectual Property Law Provisions Act 2019, to amend the Patents Act in order to give legal effect to the changes.

The Office’s domain will change to www.ipoi.gov.ie and the Office’s e-mail addresses change to firstname.surname@ipoi.gov.ie on the date of the change. The general email address for correspondence will also change from patlib@patentsoffice.ie to ipinfo@ipoi.gov.ie

The existing address www.patentsoffice.ie and email addresses name@patentsoffice.ie will automatically redirect to the new domain name and email address.

The Office’s address and telephone numbers remain unchanged.

Application for Registration of marks published under Section 43(1) of the 1996 Act following acceptance

Notice is hereby given that Applications for the Registration of the undermentioned trade marks have been accepted.

Any person who desires to oppose the registration of these trade marks may within three months from the date of this Journal give notice to the Controller, Patents Office, Government Buildings, Hebron Road, Kilkenny, in accordance with the provisions of Rule 18.

It should be noted that under the provisions of Rule 63(2) no extension of the opposition period is allowed for lodging opposition under Rule 18.

It is desirable before lodging formal opposition that a communication should be addressed to the Applicant affording him an opportunity to withdraw his application for registration. In this way cost of opposition proceedings may be avoided.
