Official Notice

Resumption of telephone enquiry service

Due to the COVID 19 pandemic, the Intellectual Property Office of Ireland had been unable to deal with personal callers or telephone enquiries since 13 March 2020. While the Office remains unable to facilitate personal callers to its premises until further notice, telephone enquiries are being accepted on 00 353 56 7720111 beginning Tuesday 23 June between 9.30 a.m. until 4 p.m. Monday to Friday.

Clients and customers are asked to use our online e-filing and payment services, to continue to communicate with us by email whenever possible and to note that there may be delays in dealing with telephone calls and responding to postal communications because staff are working remotely.

Examination in the Law and Practice of Patents

In light of the latest Government information, advice and guidelines relating to Covid 19 and the measures introduced to control the spread of the virus, the Patent Agents Registration Board has decided in the interest of public health and safety, not to hold the examination in the Law & Practice of Patents in 2020.

It is proposed to hold the examination as early as possible in 2021. All applications and fees received to date will be valid for the new exam date.

Once the date is finalised, sufficient advance notice will be given to enable any new candidates to submit applications for the 2021 examination.

You are advised to keep a regular check on our website for updates www.ipoi.gov.ie

Applications for Patents From 09/10/2020 to 22/10/2020

The names of applicants are in alphabetical order. In the case of joint applicants, each name is given independently. The title of the invention should not be regarded as an exhaustive indication of the subject-matter. The date immediately following the title is that on which the application was filed; in the case of a divisional application, the filing date of the earlier application is added within parentheses. In the case of a Convention application the Convention country and priority date(s) claimed are given in square brackets and where an application claimed the priority of an earlier application filed at the office, this information is given within the square brackets. The number is that of the application and should be used for correspondence purposes up to the date of grant of a patent. The letter S preceding the number indicates that the application is for a short-term patent. A new number will be given when a patent is granted and this new number should be quoted in all correspondence subsequent to grant.

Patents Granted Under Section 34

The number of a patent is given in heavy type; the letter S preceding the number indicates a short-term patent. The code numbers following the title of each invention are those of the International Patent Classification. The date of filing the application follows the proprietor's name. The patent application number, which follows the date of application in parenthesis, has been superseded by the patent number. In the case of an application claiming the priority of an earlier application, the name of the country where the earlier application was made and the date of the earlier application are shown in square brackets.

By virtue of Section 65(3), the application relating to any short-term patent appearing in the following list whose date of filing is later than the date which is 18 months prior to the date of this issue of the Journal becomes open to public inspection as and from the date of this issue of the Journal.

Examination in the Law and Practice of Trade Marks

In light of the latest Government information, advice and guidelines relating to Covid 19 and the measures introduced to control the spread of the virus, the Trade Mark Agents Registration Board has decided in the interest of public health and safety, not to hold the examination in the Law & Practice of Trade Marks in 2020.

It is proposed to hold the examination as early as possible in 2021. All applications and fees received to date will be valid for the new exam date.

Once the date is finalised, sufficient advance notice will be given to enable any new candidates to submit applications for the 2021 examination.

You are advised to keep a regular check on our website for updates www.ipoi.gov.ie

Application for Registration of marks published under Section 43(1) of the 1996 Act following acceptance

Notice is hereby given that Applications for the Registration of the undermentioned trade marks have been accepted.

Any person who desires to oppose the registration of these trade marks may within three months from the date of this Journal give notice to the Controller, in accordance with the provisions of Rule 18.

It should be noted that under the provisions of Rule 63(2) no extension of the opposition period is allowed for lodging opposition under Rule 18.

It is desirable before lodging formal opposition that a communication should be addressed to the Applicant affording him an opportunity to withdraw his application for registration. In this way cost of opposition proceedings may be avoided.

Class 42. Design and development of computer hardware and software; computer services; application service provider (ASP) services; software as a service (SaaS) services; platform as a service (PaaS) services; providing online non-downloadable cloud computing software; providing temporary use of non-downloadable cloud computing software;

providing online non-downloadable software enabling users to invest in digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software enabling users to invest in digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing information on distributed ledger technology via a website; providing consultancy in the field of distributed ledger technology; design, development and hosting of software for and on the basis of distributed ledger technology; software as a service [Saas] with software using distributed ledger technology; providing temporary use of non-downloadable distributed ledger technology software; providing online non-downloadable software for use in managing portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token assets; providing temporary use of non-downloadable software for use in managing portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token assets; providing online non-downloadable software which facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency,

cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software which facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing online non-downloadable software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software for implementing and recording financial transactions, for creating accounts and maintaining and managing information about financial transactions on distributed public ledgers and peer to peer payment networks; providing temporary use of non-downloadable software for implementing and recording financial transactions, for creating accounts and maintaining and managing information about financial transactions on distributed public ledgers and

peer to peer payment networks; providing online non-downloadable software for processing electronic payments and for transferring funds to and from others; providing electronic financial platform software; providing online non-downloadable software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; providing temporary use of non-downloadable software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; providing online non-downloadable software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; providing temporary use of non-downloadable software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; providing online non-downloadable software for use in financial trading; providing temporary use of non-downloadable software for use in financial trading; providing online non-downloadable software for use in financial exchange; providing temporary use of non-downloadable software for use in financial exchange; providing online non-downloadable software for use in accessing financial information and market data and trends; providing

temporary use of non-downloadable software for use in accessing financial information and market data and trends; providing online non-downloadable software for settling financial transactions, for providing authentication of parties to a financial transaction, for maintaining ledgers for financial transactions; providing temporary use of non-downloadable software for settling financial transactions, for providing authentication of parties to a financial transaction, for maintaining ledgers for financial transactions; providing online non-downloadable software for the management of cryptographic security of electronic transmissions across computer networks; providing temporary use of non-downloadable software for the management of cryptographic security of electronic transmissions across computer networks; providing online non-downloadable software for use with digital currency; providing temporary use of non-downloadable software for use with digital currency; providing online non-downloadable software for use with cryptocurrency; providing temporary use of non-downloadable software for use with cryptocurrency; providing online non-downloadable software for use with virtual currency; providing temporary use of non-downloadable software for use with virtual currency; providing online non-downloadable software for use with digital currency wallet and storage services; providing temporary use of non-downloadable software for use with digital currency

wallet and storage services; providing online non-downloadable software for digital currency payment and exchange transactions; providing temporary use of non-downloadable software for digital currency payment and exchange transactions; providing distributed ledger software for use in processing financial transactions; providing online non-downloadable software for electronic funds transfer; providing temporary use of non-downloadable software for electronic funds transfer; providing online non-downloadable software for currency conversion; providing temporary use of non-downloadable software for currency conversion; providing online non-downloadable software for the collection and distribution of data; providing temporary use of non-downloadable software for the collection and distribution of data; providing online non-downloadable software for payment transactions; providing temporary use of non-downloadable software for payment transactions; providing online non-downloadable software for connecting computers to local databases and global computer networks; providing temporary use of non-downloadable software for connecting computers to local databases and global computer networks; providing online non-downloadable software for creating searchable databases of information and data; providing temporary use of non-downloadable software for creating searchable databases of information and data; providing online non-

downloadable software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; providing temporary use of non-downloadable software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; providing online non-downloadable software for creating and managing smart contracts; providing temporary use of non-downloadable software for creating and managing smart contracts; providing online non-downloadable software for managing payment and exchange transactions; providing temporary use of non-downloadable software for managing payment and exchange transactions; providing online non-downloadable software for electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software for electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing online non-downloadable software for use in enabling the electronic transfer of funds to and from others; providing temporary use of non-downloadable software for use in enabling

the electronic transfer of funds to and from others; providing online non-downloadable software for creating a decentralized and open source digital currency for use in blockchain-based transactions; providing temporary use of non-downloadable software for creating a decentralized and open source digital currency for use in blockchain-based transactions; providing online non-downloadable software for creating a decentralized and open source virtual currency for use in blockchain-based transactions; providing temporary use of non-downloadable software for creating a decentralized and open source virtual currency for use in blockchain-based transactions; providing online non-downloadable software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; providing temporary use of non-downloadable software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; providing online non-downloadable software for creating a decentralized and open source digitized asset for use in blockchain-based transactions; providing temporary use of non-downloadable software for creating a decentralized and open source digitized asset for use in blockchain-based transactions; providing online non-downloadable software for creating a decentralized and open source digital token for use in blockchain-based transactions; providing temporary use of non-

creating a decentralized and open source digital token for use in blockchain-based transactions; providing online non-downloadable software for encrypting and enabling secure transmission of digital information over the Internet, as well as over other modes of communication between computing devices; providing temporary use of non-downloadable software for encrypting and enabling secure transmission of digital information over the Internet, as well as over other modes of communication between computing devices; providing online non-downloadable software for allowing users to calculate parameters related to financial transactions; providing temporary use of non-downloadable software for allowing users to calculate parameters related to financial transactions; design, development and hosting of distributed ledger platform software for use in processing financial transactions; providing temporary use of non-downloadable distributed ledger platform software for use in processing financial transactions; providing online non-downloadable software for electronic funds transfer and currency conversion; providing temporary use of non-downloadable software for electronic funds transfer and currency conversion; providing online non-downloadable software for use in securely managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; providing temporary use of non-downloadable software for

use in securely managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; provision of access to a web portal featuring blogs and non-downloadable publications in the nature of articles, columns and informational guides in the field of virtual currencies, digital and blockchain assets and market and trading trends; design, development and hosting of a web portal featuring blogs and non-downloadable publications in the nature of articles, columns and informational guides in the field of virtual currencies, digital and blockchain assets and market and trading trends; provision of access to a web portal for users to access information in the field of virtual currency, digital and block chain assets; design, development and hosting of a web portal for users to access information in the field of virtual currency, digital and block chain assets; platform as a service (PaaS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software as a service (SaaS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; computer services, namely, creating an on-line virtual environment for the selling and purchasing of digital

currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; software as a service (SaaS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; computer services, namely, providing a decentralized electronic file storage system and open source cloud storage platform; computer services, namely, providing a decentralized electronic object storage platform for end-to-end encrypted and powered by blockchain and blockchain payments; computer services, namely, providing secure, private encrypted cloud storage services; computer services, namely, providing electronic peer-to-peer data storage distributed across unused customer electronic storage resources; computer services, namely, providing open source decentralized cloud storage platform; data encryption services featuring blockchain software technology and peer-to-peer protocols to provide secure, private, and encrypted cloud storage; distributed, electronic storage of electronic media, namely, data, documents, files, text, photos, images, graphics, music, audio, video, and multimedia content; providing online non-downloadable software for use as a cryptocurrency wallet; providing temporary use of non-downloadable software for use as a cryptocurrency wallet;

providing online non-downloadable software for democratically managing digital exchanges for virtual items through smart contracts; providing temporary use of non-downloadable software for democratically managing digital exchanges for virtual items through smart contracts; data mining; providing online non-downloadable software for use in trading, clearing, transmitting, receiving, storing, confirmation, and financial trading risk management for exchange market transactions in the fields of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software for use in trading, clearing, transmitting, receiving, storing, confirmation, and financial trading risk management for exchange market transactions in the fields of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) featuring software platforms for authenticating, facilitating, matching, processing, clearing, storing, receiving, tracking, transferring, and submitting trade data, exchanging of trading transaction details, and management of the overall trading lifecycle; software as a service (SaaS) featuring software platforms for authenticating, facilitating, matching, processing, clearing, storing, receiving, tracking, transferring, and submitting trade data,

exchanging of trading transaction details, and management of the overall trading lifecycle; providing online non-downloadable software for use with blockchain technology; providing temporary use of non-downloadable software for use with blockchain technology; software as a service (SaaS) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; software as a service (SaaS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; blockchain-based software platforms and

distributed computing software platforms for auditing and verifying digital information and codes; design, development and implementation of audit and security software for blockchain-based platforms; providing online non-downloadable software for use in facilitating secure transactions; providing temporary use of non-downloadable software for use in facilitating secure transactions; providing online non-downloadable software for auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software for auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; design, development and hosting of software platforms for decentralized blockchain style communication; temporary use of non-downloadable software platforms for decentralized blockchain style communication; platform as a service (PaaS) featuring software platforms for the tracking and support of data transactions; providing temporary use of non-downloadable software platforms for the tracking and support of data transactions; design, development, and implementation of software for distributed computing platforms; design, development, and implementation of software for blockchain; design, development, and

implementation of software solutions for digital currency security; design, development, and implementation of software for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token wallets; design, development, and implementation of software for third-party verification services for digital currency transactions, including but not limited to transactions involving bitcoin currency; providing temporary use of non-downloadable software for use in collecting, transferring, receiving, tracking, storing and transferring bitcoin; providing online non-downloadable software for use in collecting, transferring, receiving, tracking, storing and transferring peer-to-peer currency; providing temporary use of non-downloadable software for use in collecting, transferring, receiving, tracking, storing and transferring peer-to-peer currency; providing online non-downloadable software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software platforms for facilitating transactions and payments

using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitised assets, digital tokens, crypto tokens or utility tokens that allow users to buy from, and sell products and services to others; providing online non-downloadable software for use in accessing, reading, tracking, and using blockchain technology; providing temporary use of non-downloadable software for use in accessing, reading, tracking, and using blockchain technology; technical consultancy services related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; platform as a service (PaaS) featuring computer software platforms for computer system and application development, deployment, and management; software as a service (SaaS) featuring computer software platforms for computer system and application development, deployment, and management; providing online non-downloadable software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; providing temporary use of non-downloadable software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; providing temporary use of online applications and software tools for cloud based computer network identification verification, authentication and

management for security purposes; design, development, and hosting of software applications for cloud based computer network identification verification, authentication and management for security purposes; secure hosted management, storage and administration of passwords, credentials and identity information relating to persons, accounts and devices for security purposes; providing authentication software for controlling access to and communications with computers and computer networks; providing online non-downloadable software for use in the exchange of virtual items; providing temporary use of non-downloadable software for use in the exchange of virtual items; providing online non-downloadable software for selling, trading and managing blockchain-based tokens or appcoins; providing temporary use of non-downloadable software for selling, trading and managing blockchain-based tokens or appcoins; providing non-downloadable software for a digital exchange; providing technological services to supply digital exchange services and digital currency exchange services; Providing a digital exchange, namely, providing websites that features technology that enables the exchange of information, data related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility tokens (MX); providing temporary use of on-line non-downloadable software for use in the exchange of virtual

items through creating, selling, trading and managing blockchain-based tokens and virtual currency for use with a digital exchange; providing temporary use of on-line non-downloadable software for democratically managing digital exchanges for virtual items through smart contracts and distributed ledger technology on digital exchange proposals; providing a digital exchange via a website that features technology that enables the secure exchange of information by users; providing online non-downloadable software for use in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software for use in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing online non-downloadable software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; providing temporary use of non-downloadable software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; providing online non-downloadable software for

facilitating money transfers, electronic funds transfers, commodity transfers, bill payment remittance, and transferring funds between parties; providing temporary use of non-downloadable software for facilitating money transfers, electronic funds transfers, commodity transfers, bill payment remittance, and transferring funds between parties.
