

# Aircraft Insecticides

D-PHENOTHRIN INSECTICIDE

## KOCK DOWN EFFECT INSECTICIDE SPECIALLY FORMULATED FOR AERONAUTICAL USE

- Compliant with WHO's recommendations and International Health Regulations
- Non flammable aerosol formula
- Effective on numerous crawling and flying insects
- Total mortality in less than 3 minutes
- Easy to use
- Dry diffusion for maximum efficacy

**Applications:** cabin, cockpit, aircraft holds

# Aircraft Insecticides

## D-PHENOTHRIN INSECTICIDE

**Insecticide specially formulated for aeronautical use .**

Knock-down effect D-Phenothrin insecticide permits insect control in the cabin, cockpit and aircraft holds. To be used in accordance with the «Blocks away», «Pre-arrival» or «Top of descent» disinsection procedure as per WHO's recommendations or the «Schedule of Aircraft Disinfection procedures for flight into Australia and New Zealand».

## User instructions

**W.H.O. recommended dosage: 35gr per 100 m<sup>3</sup>.**

### «One-shot» aerosol:

Product released completely in one continuous spray.

- Cone: Knock the cone against a rigid wall. Walk through the compartment holding the aerosol vertical until it is completely empty.
- Tab: Press hard on the tab until it locks. Walk through the compartment holding the aerosol vertical until it is completely empty.

### « Multi-shot » aerosol :

- Press the nozzle; walk through the compartment holding the aerosol vertical until it is completely empty.

## Standards and regulation

- AIRBUS : CML 14-010
- AMS : 1450 A
- PSA is committed to a product approval approach throughout the world.
- French Ministry for Ecology No. 5850

## Characteristics

- Safety: Resistance to high pressures up to 18 bars
- Recyclable on piece aluminium can
- Traceability: batch number on all cans + digital label on the one-shots
- Flow rate: 1 g/s compliant with WHO recommendations
- Peach fragrance
- Shelf life 4 years

## Packaging

Packaging approved by the French Ministry of Transport

		Nozzle	Vol. treated (m <sup>3</sup> )	Units per carton	Gross Weight (kg)
<b>Aerosol 210 DN</b>	30g	One-shot	90	100	6
<b>Aerosol 210 DP</b>	30g	One-shot	90	100	6
<b>Aerosol 222A</b>	40g	One-shot	120	100	7,5
<b>Aerosol 222P</b>	60g	One-shot	170	100	9
<b>Aerosol 222N</b>	60g	Multi-shot	170	100	9
<b>Aerosol 203 DP</b>	100g	One-shot	300	50	7,5
<b>Aérosol 203 DN</b>	100g	Multi-shot	300	50	7,5
