Summary in respect of Deutsche Bahn AG

DB AG is active as an international mobility, transport and logistics service provider, running the business of its subsidiaries forming DB Group with an integrated approach. Since the 1994 German Rail Reform, DB Group has owned and operated the German rail infrastructure. The vertical integration and operation, including infrastructure, allows DB Group to further develop the entire rail system in a comprehensive and responsible manner.

Following the restructuring of DB Group that took place in 2008, DB AG manages the DB Netze Track, DB Netze Stations and DB Netze Energy business units directly. The remaining six business units fall under the management of DB AG's fully owned subsidiary, DB Mobility Logistics AG (“**DB ML AG**”). Within DB Group's structure, DB AG and DB ML AG both function as management holding companies that lead DB Group.

In passenger transport it is the primary goal to maintain the strong market position in Germany and to improve its position in the European market. In 2010, DB Group acquired the British company Arriva Plc. as a growth platform in the increasing liberalized and highly attractive European passenger transport markets.

DB Group's long-standing European expansion strategy in rail freight transport is reflected among others in the acquisition of EWS (renamed DB Schenker Rail (UK) Limited), the largest rail freight company in the UK and the purchase of the Spanish company Transfesa and the acquisition of PCC Logistics Group, the biggest privately owned railway in Poland.

With its rail activities, DB Group is Europe's largest train operator in passenger and freight transport.

In view of the global market requirements DB Group has expanded its business portfolio beyond rail activities and – as part of this strategy to improve its overall competitiveness – acquired among others the logistics service provider Schenker in 2002 and BAX in 2006. On a global level DB Group is represented in over 130 countries. Via its DB Schenker Logistics business unit DB Group holds the market leadership in European land transport and a strong position in global air and ocean freight.

Summary in respect of Risk Factors

Deutsche Bahn AG

The business activities of DB Group entail not only opportunities but risks as well. DB Group's business policies target the appreciation of opportunities and active control of identified risks through a risk management system. The necessary information for this is prepared in an integrated risk management system, which conforms to the legal requirements of the German Control and Transparency Act in the Corporate Sector (Gesetz zur Kontrolle und Transparenz im Unternehmensbereich; KonTraG). This system is continuously further developed.

The following is a summary of risk factors that may effect to a more or less extent DB Group's ability to fulfil its obligations under the Notes and the Guarantee.

- The overall economic development may adversely affect the demand for mobility, transport or logistics services and, hence, DB Group's business.
- In the markets for passenger transport and rail freight transport, strong competition may adversely affect DB Group's business, profitability and financial position.
- Failure to seize growth opportunities in the dynamic consolidation processes within the logistics sector may affect DB Group's competitive position.
- DB Group may face risks in its air freight business arising from the submission of clearance declarations to airlines.
- DB Group is exposed to increases in energy prices, which have an impact on all of DB Group's businesses.
- DB Group is subject to risks adhering to service interruptions due to reduced punctuality. In long-distance transport this may lead to a loss of customers. In regional transport DB Group is in addition subject to the risk of penalty fees levied by the contracting organizations.
- Reduced availability of DB Group's vehicle fleet can endanger scheduled operations.
- DB Group is subject to risks associated with reliable punctuality of shipments, violations of customs regulations or theft in rail freight transport.
- Reduced availability and reliability of production resources, procured preliminary work as well as partner's performance may adversely affect DB Group's business.
- DB Group may be subject to restricted operations due to changes in norms and requirements concerning the technical production resources for rail transport and the rail infrastructure.

- DB Group is subject to risks arising from complex major projects and investment decisions.
- Insufficient availability of federal funding of the rail infrastructure as well as unpredictability of available funds may have an impact on the expansion of the rail infrastructure and, for this reason, DB Group's business.
- DB Group is subject to risks arising from reductions of concession fees in the European passenger transport markets.
- DB Group is subject to risks associated with interest rates, foreign exchange and energy prices.
- DB Group is subject to risks associated with its pension benefit obligations.
- Legal risks and risks from long-term transport contracts becoming uneconomical due to unforeseen increases in costs may adversely affect DB Group's business and financial position.
- DB Group is subject to regulatory risks on the national and European level, such as complaints submitted to the regulatory authorities and their response.
- DB Group is subject to political risks tightening existing norms and rules applying to railway activities.
- DB Group is subject to personnel risks due to increasing competition for highly qualified specialists and executives.
- DB Group is subject to the risk adhering to increased personnel expenses that exceed DB Group's competitors' levels and, therefore, may affect adversely DB Group's competitive position.
- DB Group is subject to risks associated with the use of information technology.
- There may be risks which are unknown to DB Group or which are currently considered to be immaterial which could, however, have material adverse effect on DB Group's business, competitive position and financial position.

Deutsche Bahn Finance

Since Deutsche Bahn Finance issues notes each bearing the guarantee of Deutsche Bahn AG and since it grants these funds as loans to Deutsche Bahn AG or its subsidiaries the risk factors are those of Deutsche Bahn AG.

The Notes

Notes may not be a Suitable Investment

A potential investor should not invest in Notes which are complex financial Notes unless the investor has the expertise (either alone or with a financial advisor) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

Liquidity Risk

There can be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue. In an illiquid market, an investor might not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

Market Price Risk

The Holder of Notes is exposed to the risk of an unfavourable development of market prices of his Notes

which materializes if such Holder sells the Notes prior to the final maturity of such Notes.

Risk of Early Redemption

If the relevant Issuer has the right to redeem the Notes prior to maturity or if the Notes are redeemed prior to maturity due to the occurrence of an event set out in the Conditions of the Notes, the Holder of such Notes is exposed to the risk that due to early redemption his investment will have a lower than expected yield. Also, the Holder may only be able to reinvest on less favourable conditions as compared to the original investment.

Currency Risk/Dual Currency Notes

The Holder of a Note denominated in a foreign currency and a Holder of a dual currency Note (“**Dual Currency Note**”) is exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes.

Risk of Potential Conflicts of Interest

In case of Notes linked to an underlying, the relevant Issuer and/or the relevant Dealer(s) or any of their respective affiliates may from time to time engage in transactions relating to such underlying which could create conflicts of interest and may have a negative impact on the underlying value.

Fixed Rate Notes

The Holder of a fixed rate Note (“**Fixed Rate Note**”) is exposed to the risk that the price of such Fixed Rate Note falls as a result of changes in the market interest rate.

Floating Rate Notes

The Holder of a floating rate Note (“**Floating Rate Note**”) is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of Floating Rate Notes. Floating Rate Notes may include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features. In addition, Floating Rate Notes may be issued as inverse floating rate Notes (“**Inverse Floating Rate Notes**”). The market value of such structured floating rate Notes (including Inverse Floating Rate Notes) tends to be more volatile than the market value of conventional Floating Rate Notes.

Zero Coupon Notes

The Holder of a zero coupon Note (“**Zero Coupon Note**”) is exposed to the risk that the price of such Note falls as a result of changes in the market interest rate. Prices of Zero Coupon Notes are more volatile than prices of Fixed Rate Notes and are likely to respond to a greater degree to market interest rate changes than interest bearing Notes with a similar maturity.

Index Linked Notes

The Holder of an index linked interest Note (“**Index Linked Interest Note**”) is exposed to the risk of fluctuating interest rate levels and uncertainty with respect to interest income and may even receive no interest at all. The yield of an Index Linked Interest Note may even be negative. The Holder of an index linked redemption Note (“**Index Linked Redemption Note**”) is exposed to uncertainty with respect to the redemption amount. The yield of an Index Linked Redemption Note may be negative and an investor may lose the value of its entire investment or part of it. Uncertainty with respect to interest and repayment amount makes it impossible to determine the yield of Index Linked Notes in advance. The more volatile the relevant index is, the greater is the uncertainty in respect of interest income and redemption amount.

Structured Notes

An investment in Notes the premium and/or the interest on or principal of which is determined by reference to one or more values of currencies, commodities, interest rates or other indices or formulae, either directly or inversely ("**Structured Notes**"), may entail significant risks not associated with similar investments in a conventional debt security, including the risks that the resulting interest rate will be less than that payable on a conventional debt security at the same time and/or that an investor could lose all or a substantial portion of the principal of his Structured Notes.

Risks in connection with Caps

The yield of Notes with a cap can be considerably lower than that of similar Structured Notes without a cap.

Equity Linked Notes

An investment in Equity Linked Redemption Notes may bear similar risks as a direct equity investment and investors should take advise accordingly.

Credit Linked Notes

The Holder of a credit linked Note ("**Credit Linked Note**") is exposed to the credit risk of the relevant Issuer and that of one or more reference entities (as specified in the applicable Final Terms). There is no guarantee that the Holder of such Credit Linked Note will receive the full principal amount of such Note and interest thereon and ultimately the obligations of the relevant Issuer to pay principal under such Note may even be reduced to zero.

Zusammenfassung in Bezug auf Deutsche Bahn AG

Die DB AG ist ein internationales Mobilitäts-, Transport- und Logistikunternehmen und verfolgt einen integrierten Ansatz in der Geschäftstätigkeit, der übergreifend von den DB Konzerngesellschaften umgesetzt wird. Seit der Bahnreform 1994 ist der DB-Konzern Eigentümer und Betreiber der deutschen Schieneninfrastruktur. Dank seiner vertikalen Integrations- und Betriebsstrukturen, einschließlich der Infrastruktur, kann der DB-Konzern das gesamte Schienensystem umfassend und verantwortungsbewusst weiter entwickeln.

Nach der Restrukturierung des DB-Konzerns im Jahr 2008 führt die DB AG die Geschäftsfelder DB Netze Fahrweg, DB Netze Personenbahnhöfe und DB Netze Energie der DB AG direkt. Die übrigen sechs Geschäftsfelder sind unter der Führung der hundertprozentigen Tochtergesellschaft DB Mobility Logistics AG („**DB ML AG**“) gebündelt. Die DB AG und die DB ML AG haben im DB-Konzern beide die Funktion einer konzernleitenden Management Holding.

Im Schienenpersonenverkehr ist es deshalb das vorrangige Ziel des DB-Konzerns, die starke Marktstellung in Deutschland langfristig aufrechtzuerhalten und die Position im europäischen Markt auszubauen. Im Jahr 2010 übernahm der DB-Konzern daher die britische Gesellschaft Arriva Plc. als Wachstumsplattform für die weitergehende Liberalisierung in den europäischen Personenverkehrsmarkt.

Die seit langem verfolgte europäische Expansionsstrategie im Schienengüterverkehr spiegelt sich unter anderem in der Übernahme von EWS (umbenannt in DB Schenker Rail (UK) Limited), der größten Schienengüterverkehrsgesellschaft in Großbritannien, im Kauf der spanischen Gesellschaft Transfesa und der Akquisition der PCC Logistics Gruppe, der größten privaten Eisenbahn in Polen wider.

Mit seinen Geschäftsaktivitäten im Schienenverkehr ist der DB-Konzern der größte Eisenbahnbetreiber in den Bereichen Personen- und Güterverkehr.

Der DB-Konzern hat entsprechend den globalen Anforderungen des Marktes sein Geschäftsportfolio über das Schienenverkehrsgeschäft hinaus ausgeweitet. Die Übernahme der Logistikdienstleister Schenker (2002) und BAX (2006) sind konsequenter Teil der Strategie, die Wettbewerbsfähigkeit insgesamt zu verbessern. Weltweit ist der DB-Konzern in über 130 Ländern vertreten. Mit dem Geschäftsfeld DB Schenker ist der DB-Konzern in Europa Marktführer im Landverkehr und hat eine starke Stellung in der globalen Luft- und Seefracht inne.

Deutsche Bahn Finance

Da Deutsche Bahn Finance Schuldverschreibungen begibt, die jeweils von Deutsche Bahn AG garantiert sind, und die hierdurch aufbrachten Mittel in Form von Krediten an die Deutsche Bahn AG oder deren Tochtergesellschaften weiterreicht, gelten für sie dieselben Risikofaktoren wie für die Deutsche Bahn AG.

Die Schuldverschreibungen

Möglicherweise sind die Schuldverschreibungen als Anlageform nicht geeignet

Einem interessierten Anleger wird empfohlen, nur dann in Schuldverschreibungen, die komplexe Finanzinstrumente darstellen, zu investieren, wenn er über die Erfahrung verfügt und beurteilen kann (entweder selbst oder zusammen mit einem Finanzberater), wie die Schuldverschreibungen auf Marktveränderungen reagieren, welche Auswirkungen diese auf den Wert der Schuldverschreibungen

haben können und wie sich eine solche Anlage auf das gesamte Investmentportfolio eines interessierten Anlegers auswirkt.

Liquiditätsrisiko

Es besteht keine Gewissheit, dass ein liquider Sekundärmarkt für Schuldverschreibungen entstehen wird oder sofern er entsteht, dass er fortbestehen wird. In einem illiquiden Markt könnte es sein, dass ein Anleger seine Schuldverschreibungen nicht jederzeit zu angemessenen Marktpreisen veräußern kann. Die Möglichkeit, Schuldverschreibungen zu veräußern, kann darüber hinaus aus landesspezifischen Gründen eingeschränkt sein.

Marktpreisrisiko

Der Gläubiger von Schuldverschreibungen ist dem Risiko nachteiliger Entwicklungen der Marktpreise seiner Schuldverschreibungen ausgesetzt, wenn der Gläubiger seine Schuldverschreibungen vor Endfälligkeit veräußert.

Risiko der vorzeitigen Rückzahlung

Wird der Emittentin das Recht eingeräumt, die Schuldverschreibungen vor Fälligkeit zurückzukaufen, oder werden die Schuldverschreibungen wegen des Eintritts eines in den Emissionsbedingungen der Schuldverschreibungen beschriebenen Ereignisses vor Fälligkeit zurückgezahlt, so ist der Gläubiger solcher Schuldverschreibungen dem Risiko ausgesetzt, dass infolge der vorzeitigen Rückzahlung seine Kapitalanlage eine geringere Rendite als erwartet aufweisen wird. Außerdem besteht die Möglichkeit, dass der Gläubiger der Schuldverschreibungen eine Wiederanlage nur zu schlechteren als den Bedingungen des ursprünglichen Investments tätigen kann.

Währungsrisiko /Doppelwährungs-Schuldverschreibungen:

Der Gläubiger von Schuldverschreibungen, die auf eine fremde Währung lauten, und ein Gläubiger von Doppelwährungs-Schuldverschreibungen („**Doppelwährungs-Schuldverschreibung**“) ist dem Risiko von Wechselkursschwankungen ausgesetzt, die sich auf die Rendite dieser Schuldverschreibungen auswirken können.

Risiko möglicher Interessenkonflikte

Sind die Schuldverschreibungen von einem Basiswert abhängig, so kann die betreffende Emittentin und/oder der (die) betreffende(n) Platzeur(e) oder deren betreffende verbundene Unternehmen jeweils Geschäfte in Bezug auf diesen Basiswert abschließen, was zu Interessenkonflikten führen und sich möglicherweise negativ auf die Entwicklung des Basiswerts auswirken kann.

Festverzinsliche Schuldverschreibungen

Der Gläubiger von festverzinslichen Schuldverschreibungen („**Festverzinsliche Schuldverschreibung**“) ist dem Risiko ausgesetzt, dass der Kurs einer solchen Schuldverschreibung infolge von Veränderungen des aktuellen Marktzinssatzes fällt.

Variabel verzinsliche Schuldverschreibungen

Der Gläubiger von variabel verzinslichen Schuldverschreibungen ist dem Risiko eines schwankenden Zinsniveaus und ungewisser Zinserträge ausgesetzt. Es ist nicht möglich, die Rendite von variabel verzinslichen Schuldverschreibungen bei einem schwankenden Zinsniveau zu bestimmen. Variabel verzinsliche Schuldverschreibungen können mit Multiplikatoren oder anderen Hebefaktoren, Caps oder Floors oder eine Kombination dieser Ausstattungsmerkmale oder ähnlicher, verwandter Ausstattungsmerkmale ausgestattet sein. Zusätzlich können variabel verzinsliche Schuldverschreibungen

als invers variabel verzinsliche Schuldverschreibungen („**invers variabel verzinsliche Schuldverschreibungen**“ auch „umgekehrt variabel verzinsliche Schuldverschreibungen“) begeben werden. Der Marktwert solcher strukturierter variabel verzinslicher Schuldverschreibungen neigt zu größerer Volatilität als der von herkömmlichen variabel verzinslichen Schuldverschreibungen.

Nullkupon-Schuldverschreibungen

Für einen Gläubiger einer Nullkupon-Schuldverschreibung („**Nullkupon-Schuldverschreibung**“) besteht das Risiko, dass der Kurs eine solchen Schuldverschreibung infolge von Änderungen des Marktzinses fällt. Kurse von Nullkupon-Schuldverschreibungen weisen eine höhere Volatilität auf als Kurse von festverzinslichen Schuldverschreibungen und sie reagieren wahrscheinlich in einem stärkeren Maß auf Änderungen des Marktzinssatzes als verzinsliche Schuldverschreibungen mit ähnlicher Laufzeit.

Indexierte Schuldverschreibungen

Der Gläubiger einer Schuldverschreibung mit indexabhängiger Verzinsung („**Schuldverschreibungen mit indexabhängiger Verzinsung**“) ist dem Risiko eines schwankenden Zinsniveaus und Ungewissheit in Bezug auf den Zinsertrag ausgesetzt und wird möglicherweise überhaupt keine Verzinsung erhalten. Die Rendite einer Schuldverschreibung mit indexabhängiger Verzinsung kann auch negativ sein. Der Gläubiger einer Schuldverschreibung mit indexabhängiger Rückzahlung („**Schuldverschreibung mit indexabhängiger Rückzahlung**“) ist Ungewissheit in Bezug auf den Rückzahlungsbetrag ausgesetzt. Die Rendite einer Schuldverschreibung mit indexabhängiger Rückzahlung kann negativ sein und ein Anleger kann den Wert seiner Anlage ganz oder teilweise verlieren. Da hinsichtlich der Höhe der Zins- und Rückzahlungen Unsicherheit besteht, ist es nicht möglich die Rendite der Schuldverschreibungen mit indexabhängiger Verzinsung im Voraus zu bestimmen. Je volatil der betreffende Index ist, desto größer ist die Unsicherheit in Bezug auf die Zinserträge und den Rückzahlungsbetrag.

Strukturierte Schuldverschreibungen

Eine Kapitalanlage in Schuldverschreibungen, bei denen der Aufschlag und/oder die Zinsen oder der Kapitalbetrag bei Rückzahlung durch Bezugnahme auf eine oder mehrere Währungen, Waren oder Rohstoffe, Zinssätze oder andere Indizes oder Formeln entweder unmittelbar oder invers („**Strukturierte Schuldverschreibungen**“) ermittelt wird, kann erhebliche Risiken mit sich bringen, die nicht mit ähnlichen Kapitalanlagen in herkömmliche Schuldtitel verbunden sind; dies schließt das Risiko ein, dass der resultierende Zinssatz geringer sein wird als der zur gleichen Zeit auf einen herkömmlichen Schuldtitel zahlbare Zinssatz und/oder dass ein Anleger den Kapitalbetrag seiner strukturierten Schuldverschreibungen ganz oder zu einem erheblichen Teil verliert.

Risiken im Zusammenhang mit Caps

Die Rendite von Schuldverschreibungen mit einem Cap kann erheblich unter der vergleichbarer strukturierter Schuldverschreibungen ohne Cap liegen.

Aktienbezogene Schuldverschreibungen

Eine Anlage in Schuldverschreibungen, bei denen der Rückzahlungsbetrag an den Wert von Aktien gebunden ist, kann ähnliche Risiken beinhalten wie eine unmittelbare Anlage in Aktien; Anleger sollten sich entsprechend beraten lassen.

Kreditbezogene Schuldverschreibungen

Der Gläubiger einer kreditbezogenen Schuldverschreibung trägt das Kreditrisiko der betreffenden Emittentin und das eines oder mehrere Referenzunternehmen (wie in den maßgeblichen Endgültigen Bedingungen angegeben). Es gibt keine Gewähr dafür, dass der Gläubiger einer solchen Credit Linked Note den Kapitalbetrag einer solchen Schuldverschreibung vollständig zurück erhält oder Zinsen darauf erhält, und im äußersten Fall könnte sich die Verpflichtung der Emittentin zur Zahlung von Kapital sogar

auf null reduzieren.

RISK FACTORS

Risk Factors with regard or in respect to Deutsche Bahn AG

The following is a description of risk factors which are material in respect of the Notes and the financial situation of DB AG and which may affect DB AG's ability to fulfill its obligations under the Notes which prospective investors should consider before deciding to purchase the Notes. The sequence in which the following risk factors are listed is not an indication of their likelihood to occur or of the extent of their commercial consequences. The following statements are complete, although not exhaustive: prospective investors should consider all of the information provided in this Prospectus or incorporated by reference into this Prospectus and consult with their own professional advisers if they consider it necessary.

General economic risks

Demand for DB Group's mobility services, and especially the transport and logistical services, is also dependent on overall economic development. Economic growth drives the mega trends in DB Group's relevant markets, which in turn are key drivers of DB Group's corporate strategy. For this reason, general economic shocks like the economic and financial crises can have a negative impact on DB Group's business.

A key influencer of passenger transport is the development of major economic factors, such as personal disposable income and the level of employment.

The most critical factor in the rail freight transport business is freight demand for consumer goods, coal, iron and steel, oil, chemical products and construction materials. These, on the one hand, are subject to cyclical fluctuations. On the other hand DB Group must consider structural changes in the production structures of DB Group's customers, who are frequently involved in global competition.

In the area of freight forwarding and logistics, demand for storage and transport services depends on DB Group's customers' economic development.

Market risks

DB Group faces tough intermodal and intramodal competition in the German passenger transport market, especially from motorized individual transport, which is the dominant competitor. DB Group is continuously improving its service performance in order to strengthen DB Group's competitive position. On the offer side DB Group is optimizing the structure of the scheduled services as part of the regular schedule updates. DB Group is able to offer more attractive connections on many routes after completing measures to improve the infrastructure. DB Group uses numerous special offers and promotions as part of the efforts to improve the customers' perception of DB Group's prices. In addition, DB Group regularly employs sales promotion measures to specifically target new customers. The further development of punctuality, which is subject to strict monitoring, remains important.

Intensive intramodal competition exists across Europe for long-term service contracts in the regional transport sector. In order to assert in this market environment DB Group is continuously optimizing its tender management and cost structures so DB Group can submit attractive bids that make economic sense.

Considerable intermodal competitive pressure exists in the rail freight transport sector in addition to the increasing intensity of intramodal competition. This situation is being exacerbated by the increasing market significance of low-cost truck fleets from the new EU member states. In an isolated analysis of rail freight transport DB Group can see market risks arising from the necessity to adjust to the increasing intensity of intermodal competition and the resulting margin losses. DB Group reacts to this with measures to further improve efficiency and reduce costs. Furthermore, DB Group is optimizing its range of rail-related services and integrating rail freight transport into a comprehensive range of logistics services.

DB Group's activities in the freight forwarding and logistics segments are especially influenced by

competitive markets, highly dynamic consolidation processes within the logistics sector and further increases in customer demands. DB Group responds to these challenges by further expanding its network in order to not only defend DB Group's market positions, but also to strengthen them from a position of competitive strength.

Due to the special nature of the business, DB Group's airfreight activities face risks arising from the submission of clearance declarations to airlines, which could lead to serious consequences in individual cases. Over the past few years the rules for granting customs guarantees have been continuously revised and improved. In addition, DB Group strictly observes country-specific safety regulations governing shipments of air and ocean freight. Furthermore, country-related practices regarding clearance of shipments must also be taken into account.

Across the entire group DB Group combats risks arising from changing customer demand or shifts in traffic flows with intensive market observation and by continuously upgrading DB Group's portfolio. In regard to market risks related to changing legal conditions at domestic or international levels, DB Group actively submits its position into preliminary consultations and discussions.

Operating risks

DB Group operates a technologically complex, networked production system within the rail transport sector. Risks arise for DB Group's rail activities due to service interruptions, in particular because of the resulting decline in punctuality. A substantial reduction in punctuality in long-distance transport diminishes the perceived quality of service and can lead to a loss of customers. Furthermore, in regional transport there is also the additional risk of incurring penalty fees levied by the responsible contracting organization in the event of train cancellations or insufficient punctuality. The availability of DB Group's vehicle fleet is an additional critical factor. Significant limitations can endanger scheduled operations. DB Group attempts to eliminate this risk by taking precautionary measures and in the case of occurrence to minimize the impact by, for example, providing substitute vehicles or organizing substitute transports.

In rail freight transport the punctuality of transports is an important criteria used by DB Group's customers to select the mode of transport. In addition, irregularities may occur during the conduct of transport operations such as violations of customs regulations or theft. DB Group combats these risks by employing qualified customs coordinators, as well as a special system that immediately notifies when tax assessments are received.

DB Group generally counters the risk of operational disturbances with systematic maintenance and the use of qualified staff, coupled with continuous quality assurance and the improvement of DB Group's processes. The nature of the railway business as an open system, however, means that DB Group has limited influence on certain factors that have a potentially negative impact on its flow of operations. In this case, DB Group strives to limit the possible consequences.

Technology risks

The range and quality of the services DB Group offers depends greatly on the availability and reliability of the production resources used, procured preliminary work as well as the quality of DB Group's partners' performance. DB Group engages in intensive quality dialogues with DB Group's relevant suppliers and business partners.

In addition, the technical production resources used in rail transport must fulfill applicable norms and requirements, which may change over time. As a consequence, technical objections regarding vehicles could occur. The risk here is that individual model series or wagon categories cannot be used for operations, or may be only used on a restricted basis – for example, at lower speeds, shorter maintenance intervals, or lower wheel set loads. Furthermore, newly procured vehicles can fail to receive certification and then not be delivered as agreed with the manufacturer. These occurrences could lead to disturbances in operational processes as well as higher expenses.

It cannot be ruled out that the intervals between maintenance /ultrasound inspections will be further shortened in the future. Due to this, additional operational restrictions could occur if the size of the vehicle fleet remains unchanged.

Furthermore, possible changes in norms and the rail infrastructure are important elements of overall operating conditions. Here again, operations can be restricted or even cancelled in the event of deviations from the norm. In order to counter these risks DB Group has consolidated the respective activities in DB Group and engage in an active dialogue with the responsible authorities.

Procurement risks

Procurement prices for commodities, energy and transport services can shift depending on the market situation. Therefore, depending on the market and competitive situation, it is not possible – or only possible to a limited extent – to pass on higher costs to customers. This will have a correspondingly negative effect on margins.

DB Group counters the risk of higher energy prices through the use of appropriate derivative financial instruments.

Project risks

The modernization of the overall rail system involves high amounts of capital expenditures as well as a large number of highly complex projects. Changes in the legal framework, delays in implementation or necessary adjustments during the frequently multiyear project terms can result in project risks that have a cross-business unit impact due to the networked production structures. Furthermore, increased prices for ordered services or construction measures can lead to negative effects. DB Group takes such risks into account by intensively monitoring its projects. This particularly applies to DB Group's central major projects.

Infrastructure financing risks

A key element of the German Rail Reform Act is the Federal Government's constitutional obligation to finance the infrastructure. The crucial elements are not only a sufficient amount of resources, but also the predictability of available funds. DB Group signed the Service and Financing Agreement with the Federal Government, which covers financing of the existing network until 2013. However, in order to ensure the long term competitiveness of the rail mode of transport, sufficient availability of funds is required to ensure systematic new construction, expansion and elimination of bottlenecks (requirement plan capital expenditures). DB Group's mid-term corporate plans assume Federal funding will be forth-coming for the successful realization of these capital expenditures, although a corresponding agreement could not yet be concluded. Moreover, there is also the risk that the Federal Government may demand refunds due to an audit of how Federal funds were employed.

Risks related to reduced concession fees

The amount of financial resources available to the contracting organizations to order routes from transport companies is the key factor driving development in the regional transport market in Europe. For this reason payments generally received from state or state-financed contracting organizations (concession fees) represent a major portion of revenues in regional passenger transport. Against the background of the public-sector's need to make budget cuts there is a risk that the level of concession fees available for future tenders or existing services may be reduced. DB Group counters this risk by making corresponding adjustments to its service offer and by increasing its farebox revenues.

Financial risks

DB Group counters risks associated with interest rates, foreign exchange and energy prices arising from DB Group's business operations with, among other things, original and derivative financial instruments. These instruments are explained in the Notes.

Exchange rate risks have risen as DB Group expanded its international business activities because of cash flows generated in different currencies. This applies, in particular, to the US dollar, the British pound and the Swedish crown.

A portion of DB Group's obligations stemming from pension benefits and other pension-benefit-related commitments is covered by plan assets consisting of stocks, property, fixed-income securities and other assets. Declines in the value of these assets directly reduce the extent of pension benefit obligations covered by plan assets and can, under certain circumstances, lead to the company making additional allocations.

Legal and contractual risks

Legal risks may arise, for instance, in the form of claims for damages and from legal disputes. These frequently stem from construction projects, real estate transactions, or environment-related issues. Moreover, there is also the risk that some of the long-term transport contracts may become uneconomical due to unforeseen increases in costs. In cases like this DB Group tries to counter the negative effects with commensurate measures to reduce costs and raise income.

Provisions are made for legal and contractual risks after estimating the respective probability of occurrence. The actual utilization of these provisions depends on whether the risks materialize to the extent as set forth in DB Group's current estimates.

Regulatory and political risks

Changes in the overall legal conditions at national or European level could result in risks for DB Group's business. DB Group provides rail transport service in a regulated market. Access to the German railway network has been available on a non-discriminatory basis since 1994. Regulatory measures also affect the individual components of pricing systems and terms of use of DB Group's rail infrastructure companies such as their. In this area there is a risk that a complaint may be submitted to the regulatory authorities and that they may respond.

The structure of DB Group has potential exposure to regulatory risks. These risks could arise on both the national as well as the European level.

Political risks refer to, in particular, the tightening of existing norms and rules that apply to railway activities.

Personnel risks

DB Group's employees and their skills are of central importance for DB Group's future success. DB Group's remuneration systems and personnel development programs and measures are aimed at enhancing the loyalty of the employees and motivating them to turn in top performance. Unwanted staff departures remain at a consistently low level. This, on the one hand, reflects DB Group's efforts to raise the commitment and identification of employees with the Group. On the other hand, it shows DB Group's attractiveness as an employer. Furthermore, DB Group is faced with increasing competition for highly qualified specialists and executives. Among other measures DB Group is taking, DB Group is meeting this challenge by maintaining close contacts with universities, and through DB Group's recruiting measures. During the integration period for newly acquired companies DB Group concentrates its efforts on raising the loyalty of employees in key positions.

In order to assert itself in competition, the structure of DB Group's personnel expenses in comparison to DB Group's competitors is of decisive importance. Additional one-sided burdens, such as higher wage agreements than those negotiated by DB Group's competitors, worsen DB Group's competitive position. In the future, the conclusion of sector-wide wage agreements will set uniform standards for the German regional transport market.

IT risks

Insufficient IT management can lead to serious interruptions of business operations. DB Group employs a wide range of methods and means to minimize these risks. Ongoing monitoring of system architecture and the regular renewal of hardware platforms ensure that DB Group's information technology always optimally meets changing business demands and conforms to the latest state of technology.

In order to ensure high availability in IT operations DB Group uses distributed and redundant systems for operations and data backup, fail-safe network coupling, together with partly outsourced tape backup and separate administrations. These measures safeguard critical business and IT processes and prevent serious breakdowns. DB Group's wide area network (WAN) is designed redundantly wherever required by security and business continuity.

Risk Factors with regard or in respect of Deutsche Bahn Finance

The following is a description of risk factors which are material in respect of the Notes and the financial situation of Deutsche Bahn Finance and which may affect Deutsche Bahn Finance's ability to fulfill its obligations under the Notes which prospective investors should consider before deciding to purchase the Notes. The sequence in which the following risk factors are listed is not an indication of their likelihood to occur or of the extent of their commercial consequences. The following statements are complete, although not exhaustive: prospective investors should consider all of the information provided in this Prospectus or incorporated by reference into this Prospectus and consult with their own professional advisers if they consider it necessary.

As a financing company, Deutsche Bahn Finance in general faces the risk that loans granted by it may not be repaid when due and payable for whatever reason.

All loans are granted to either Deutsche Bahn AG or to one of its group companies. Therefore, the risk of no repayment is directly dependent on Deutsche Bahn AG.

Any Notes issued by Deutsche Bahn Finance will be guaranteed by Deutsche Bahn Aktiengesellschaft. The ability of Deutsche Bahn Aktiengesellschaft to meet its obligations under the guarantee is influenced by the risk factors outlined above on page 30 et sequitur. As a consequence, these risk factors do also apply with regard to Deutsche Bahn Finance.

Risk Factors with regard or in respect of the Notes

The following is a disclosure of the principal risk factors which are material to the Notes issued under the Programme in order to assess the market risk associated with the Notes. Prospective investors should consider these risk factors before deciding to purchase Notes issued under the Programme.

Prospective investors should consider all information provided in this Prospectus and consult with their own professional advisers (including their financial, accounting, legal and tax advisers) if they consider it necessary. In addition, investors should be aware that the risks described may combine and thus intensify one another.

Under the circumstances described below and, as the case may be, in the Final Terms, prospective investors may lose the value of their entire investment or part of it. In respect of Notes which require in view of their specific structure a specific description of risk factors, the following statements are not exhaustive; risk factors in addition to those mentioned below will be described in the Final Terms relating to such Notes.

Notes may not be suitable Investment for all Investors

Each potential investor in Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Prospectus of any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where principal or interest is payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;

- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolio. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

Liquidity Risk

Application has been made to list Notes on the official list of the Luxembourg Stock Exchange and to trade Notes on the Regulated Market of the Luxembourg Stock Exchange. In addition, the Programme provides that Notes may be listed on other or further stock exchanges or not be listed at all. The fact that the Notes may be listed does not necessarily lead to greater liquidity as compared to unlisted Notes. If the Notes are not listed on any stock exchange, pricing information for such Notes may, however, be more difficult to obtain which may affect the liquidity of the Notes adversely. In an illiquid market, an investor might not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

Market Price Risk

The development of market prices of the Notes depends on various factors, such as changes of market interest rate levels, the policy of central banks, overall economic developments, inflation rates or the lack of or excess demand for the relevant type of Note. The Holder of a Note is therefore exposed to the risk of an unfavourable development of market prices of its Note which materialises if the Holder sells the Notes prior to the final maturity of such Notes. If the Holder decides to hold the Notes until final maturity the Notes will be redeemed at the amount set out in the Final Terms.

Risk of Early Redemption

The Final Terms will indicate whether the Issuer may have the right to call the Notes prior to maturity for reasons of taxation or at the option of the Issuer (optional call right) or whether the Notes will be subject to early redemption in case of the occurrence of an event specified in the Final Terms (early redemption event). The Issuer will always have the right to redeem the Notes if the Issuer is required to make a gross-up payment. If the Issuer redeems the Notes prior to maturity or the Notes are subject to early redemption due to an early redemption event, a Holder of such Notes is exposed to the risk that due to early redemption his investment may have a lower than expected yield. The Issuer might exercise his optional call right if the yield on comparable Notes in the capital market falls which means that the investor may only be able to reinvest the redemption proceeds in Notes with a lower yield.

Currency Risk/Dual Currency Notes

A Holder of a Note denominated in a foreign currency and a Holder of Dual Currency Notes is exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes. Changes in currency exchange rates result from various factors such as macro-economic factors, speculative transactions and interventions by central banks and governments.

A change in the value of any foreign currency against the euro, for example, will result in a corresponding change in the euro value of a Note denominated in a currency other than euro and a corresponding change in the euro value of interest and principal payments made in a currency other than in euro in accordance with the terms of such Note. If the underlying exchange rate falls and the value of the euro correspondingly rises, the price of the Note and the value of interest and principal payments made thereunder, expressed in euro, falls.

In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable currency exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Credit Risk

Any person who purchases the Notes is relying upon the creditworthiness of the Issuer and has no rights against any other person. Holders of Notes are subject to the risk of a partial or total failure of the Issuer to make interest and/or redemption payments that the Issuer is obliged to make under the Notes. The worse the creditworthiness of the Issuer, the higher the risk of loss (see also "Risk Factors with respect to Deutsche Bahn AG" and "Risk Factors with respect to Deutsche Bahn Finance").

Reinvestment Risk

Holders of Notes may be exposed to risks connected to the reinvestment of cash resources freed from any Note. The return the Holders of Notes will receive from a Note depends not only on the price and the nominal interest rate of the Note but also on whether or not the interest received during the term of the Note can be reinvested at the same or a higher interest rate than the rate provided for in the Note. The risk that the general market interest rate falls below the interest rate of the Note during its term is generally called reinvestment risk. The extent of the reinvestment risk depends on the individual features of the relevant Note.

Inflation Risk

The inflation risk is the risk of future money depreciation. The real yield from an investment is reduced by inflation. The higher the rate of inflation, the lower the real yield on a Note. If the inflation rate is equal to or higher than the nominal yield, the real yield is zero or even negative.

Purchase on Credit – Debt Financing

If a loan is used to finance the acquisition of the Notes by a Holder of Notes and the Notes subsequently go into default, or if the trading price diminishes significantly, the Holder of Notes may not only have to face a potential loss on its investment, but it will also have to repay the loan and pay interest thereon. A loan may significantly increase the risk of a loss. Potential investors should not assume that they will be able to repay the loan or pay interest thereon from the profits of a transaction. Instead, potential investors should assess their financial situation prior to an investment, as to whether they are able to pay interest on the loan, repay the loan on demand, and that they may suffer losses instead of realising gains.

Transaction Costs/Charges

When Notes are purchased or sold, several types of incidental costs (including transaction fees and commissions) are incurred in addition to the purchase or sale price of the Note. These incidental costs may significantly reduce or eliminate any profit from holding the Notes. Credit institutions as a rule charge commissions which are either fixed minimum commissions or pro-rata commissions, depending on the order value. To the extent that additional – domestic or foreign – parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, Holder of Notes may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (thirds party costs).

In addition to such costs directly related to the purchase of securities (direct costs), potential investors must also take into account any follow-up costs (such as custody fees). Potential Investors should inform themselves about any additional costs incurred in connection with the purchase, custody or sale of the Notes before investing in the Notes.

Change of Law

The Terms and Conditions of the Notes will be governed by German law in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to German law (or law applicable in Germany), or administrative practice after the date of this Prospectus.

Potential Conflicts of Interest

Each of the Issuer, the Arranger, the Dealer(s) or their respective affiliates may deal with and engage generally in any kind of commercial or investment banking or other business with any issuer of underlying securities, their respective affiliates or any guarantor or any other person on entities having obligations relating to any issuer of underlying securities or their respective affiliates or any guarantor in the same manner as if any Equity Linked Notes issued under the Programme did not exist, regardless of whether any such action might have an adverse effect on an issuer of the underlying securities, any of their respective affiliates.

The Issuer may from time to time be engaged in transactions (including without limitation, hedging activities related to the Notes) involving the underlying securities, the index, index components or related derivatives or relevant commodities which may affect the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Holders of Notes.

Potential conflicts of interest may arise between the Calculation Agent and the Holders of Notes, including with respect to certain discretionary determinations and judgments that the Calculation Agent may make pursuant to the Terms and Conditions of the Notes that may influence the amount receivable upon redemption of the Notes.

Fixed Rate Notes

A Holder of a Fixed Rate Note is exposed to the risk that the price of such Note falls as a result of changes in the market interest rate. While the nominal interest rate of a Fixed Rate Note as specified in the Final Terms is fixed during the life of such Note, the current interest rate on the capital market ("market interest rate") typically changes on a daily basis. As the market interest rate changes, the price of a Fixed Rate Note also changes, but in the opposite direction. If the market interest rate increases, the price of a Fixed Rate Note typically falls, until the yield of such Note is approximately equal to the market interest rate. If the market interest rate falls, the price of a Fixed Rate Note typically increases, until the yield of such Note is approximately equal to the market interest rate. If the Holder of a Fixed Rate Note holds such Note until maturity, changes in the market interest rate are without relevance to such Holder as the Note will be redeemed at a specified redemption amount, usually the principal amount of such Note.

Floating Rate Notes

Floating Rate Notes tend to be volatile investments. A Holder of a Floating Rate Note is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of Floating Rate Notes in advance. If Floating Rate Notes are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, the market value may be more volatile than those for Floating Rate Notes that do not include these features. If the amount of interest payable is determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the interest rates on interest payable will be increased. The effect of a cap is that the amount of interest will never rise above and beyond the predetermined cap, so that the Holder will not be able to benefit from any actual favourable development beyond the cap. The yield could therefore be considerably lower than that of similar Floating Rate Notes without a cap.

Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of the Notes.

Zero Coupon Notes

Zero Coupon Notes do not pay current interest but are issued at a discount from their nominal value. Instead of periodical interest payments, the difference between the redemption price and the issue price constitutes interest income until maturity and reflects the market interest rate. A Holder of a Zero Coupon Note is exposed to the risk that the price of such Note falls as a result of changes in the market interest rate. Prices of Zero Coupon Notes are more volatile than prices of Fixed Rate Notes and are likely to respond to a greater degree to market interest rate changes than interest bearing notes with a similar maturity.

Index Linked Notes

Index Linked Notes may either be issued as Index Linked Interest Notes where payments of interest will be made by reference to a single index or other factors (including changes in the price of securities and commodities or movements in exchange rates) and/or such formula as may be specified by the Issuer and the relevant Dealer(s) (as indicated in the Final Terms) or as Index Linked Redemption Notes where payment of principal will be calculated by reference to a single index or other factors (including changes in the price of securities and commodities or movements in exchange rates) and/or such formula as may be specified by the Issuer and the relevant Dealer(s) (as indicated in the Final Terms) or may be issued as a combination of Index Linked Interest Notes and Index Linked Redemption Notes.

If payment of interest is linked to a particular index, a Holder of an Index Linked Interest Note is exposed to the risk of fluctuating interest rate levels and uncertain interest income or may even receive no interest at all which may have the effect that the yield of an Index Linked Interest Note is negative. A Holder of an Index Linked Redemption Note, if payment of principal is linked to a particular index, is exposed to the risk that the repayment amount is uncertain and, depending on the calculation of the repayment amount, the yield of an Index Linked Redemption Note may even be negative and an investor may lose the value of its entire investment or part of it. The Issuer has no control over a number of matters, including economic, financial and political events that are important in determining the existence, magnitude and longevity of these risks and their results.

Investors should be aware that the market price of Index Linked Notes may be very volatile (depending on the volatility of the relevant index). Neither the current nor the historical value of the relevant index should be taken as an indication of the future performance of such index during the term of any Note. The more volatile the relevant index is, the greater is the volatility of the market price of such Note and the uncertainty in respect of interest income and repayment amount. Uncertainty with respect to interest and repayment amount make it impossible to determine the yield of Index Linked Notes in advance.

General Risks in Respect of Structured Notes

In general, an investment in Notes the premium and/or the interest on and/or the principal of which is determined by reference to one or more values of currencies, commodities, interest rates or other indices or formulae, either directly or inversely, may entail significant risks not associated with similar investments in a conventional debt security. Such risks include the risks that the Holder of such Note will receive no interest at all, or that the resulting interest rate will be less than that payable on a conventional debt security at the same time and/or that the Holder of such Note could lose all or a substantial portion of the principal of his Notes. In addition, investors should be aware that the market price of such Notes may be very volatile (depending on the volatility of the relevant currency, commodity, interest rate, index or formula). Neither the current nor the historical value of the relevant currencies, commodities, interest rates or other indices or formulae should be taken as an indication of future performance of such currencies, commodities, interest rates or other indices or formulae during the term of any Note.

Risks in Connection with Caps

If interest rate and/or redemption amount of an issue of Notes are not fixed but will be determined according to the structure of Notes as set out in the relevant Final Terms of the Notes, these issues may also be equipped with a cap. The effect of a cap is that the amount of interest and/or the redemption amount will never rise above and beyond the predetermined cap, so that the Holder will not be able to benefit from any actual favourable development beyond the cap. The yield could therefore be considerably lower than that of similarly structured Notes without a cap.

Equity Linked Notes

Equity linked Notes may either be issued as equity linked interest Notes where payment of interest will be calculated by reference to a single equity security or a basket of equity securities (as indicated in the Final Terms) or as equity linked redemption Notes where payment of principal will be calculated by reference to a single equity security or a basket of equity securities (as indicated in the Final Terms). Equity Linked Redemption Notes may also provide that the redemption will be by physical delivery of reference items. Accordingly, an investment in Equity Linked Redemption Notes may bear similar risks as a direct equity investment and investors should take advise accordingly.

Credit Linked Notes

An investment in Credit Linked Notes involves a high degree of risk. There is no guarantee that the Holders of Notes will receive the full principal amount of the Notes and interest thereon and ultimately the obligations of the Issuer to pay principal under the Notes may even be reduced to zero.

In the event of the occurrence of a credit event (as specified in the Final Terms) which may include, amongst other things, insolvency, failure to pay, obligations accelerations and repudiation/moratorium in respect of one or more reference entities, the Issuer may redeem the Notes either by delivering to the Holders of the Notes such “deliverable obligations” (as specified in the Final Terms) of any such reference entity in respect of which the credit event has occurred, or, if cash settlement is specified in the Final Terms, by the payment of an amount of cash as determined in accordance with the provisions of the Final Terms. In addition, interest bearing Credit Linked Notes may cease to bear interest on or prior to the date of the occurrence of such circumstances.

In case of “physical settlement” (as specified in the Final Terms), the deliverable obligations will be debt obligations of the reference entity, selected by the Issuer, of the type and having the characteristics described in the Final Terms. Thus, the Issuer may deliver any deliverable obligations of a defaulted reference entity meeting the criteria described in the Final Terms, regardless of their market value at the time of delivery, which may be less than the principal amount of the Notes or, in certain circumstances, be equal to zero.

GENERAL DESCRIPTION OF THE PROGRAMME

GENERAL

Under the Programme, Deutsche Bahn AG and Deutsche Bahn Finance may from time to time issue Notes to one or more Dealer(s). The maximum aggregate principal amount of all Notes at any time outstanding under the Programme will not exceed € 15,000,000,000 (or its equivalent in any other currency). The Issuers may increase the amount of the Programme in accordance with the terms of the Programme Agreement (as defined below) from time to time.

Notes issued by Deutsche Bahn Finance will have the benefit of a guarantee (the “**Guarantee**”) given by Deutsche Bahn AG. The Guarantee constitutes an unconditional, unsecured and unsubordinated obligation of Deutsche Bahn AG and ranks *pari passu* with all other unsecured and unsubordinated obligations of Deutsche Bahn AG.

Notes may be issued to one or more Dealer(s) appointed from time to time by an Issuer for a specific issue. Notes may be distributed by way of public offer or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each Tranche will be stated in the Final Terms.

Notes will be issued in series (each, a “**Series**”). Each Series may comprise of one or more Tranches issued on different dates. The specific terms of each Tranche (which will be supplemented, where necessary, with supplemental terms and conditions) will be set forth in the Final Terms.

Notes may be issued at an issue price which is at par or at a discount to, or premium over, par, as stated in the Final Terms.

Application has been made to the Luxembourg Stock Exchange to list Notes on the official list of the Luxembourg Stock Exchange and to admit Notes to trading on the Regulated Market of the Luxembourg Stock Exchange. ISSUE PROCEDURES

General

The relevant Issuer and the relevant Dealer(s) will agree on the terms and conditions applicable to each particular Tranche of Notes (the “**Conditions**”). The Conditions will be constituted by the terms and conditions of the Notes set forth below (the “**Terms and Conditions**”) as completed, modified, supplemented or replaced by the provisions of the final terms (the “**Final Terms**”). The Final Terms

relating to each tranche of Notes will specify:

- whether the Conditions are to be **Long-Form Conditions** or **Integrated Conditions** (each as described below); and
- whether the Conditions will be in the German language or the English language or both (and, if both, whether the German language version or the English language version is controlling).

As to whether **Long-Form Conditions** or **Integrated Conditions** will apply, the Issuers anticipate that:

- **Long-Form Conditions** will generally be used for Notes sold on a non-syndicated basis and which are not publicly offered.
- **Integrated Conditions** will generally be used for Notes sold and distributed on a syndicated basis. Integrated Conditions will be required where the Notes are to be publicly offered, in whole or in part, or are to be distributed, in whole or in part, to non-professional investors.

As to the controlling language of the respective Conditions, the Issuers anticipate that, in general, subject to any stock exchange or legal requirements applicable from time to time, and unless otherwise agreed between the relevant Issuer and the relevant Dealer(s), in the case of Notes sold and distributed on a syndicated basis, German will be the controlling language.

Long-Form Conditions

If the Final Terms specify that Long-Form Conditions are to apply to the Notes, the provisions of the Final Terms and the Terms and Conditions, taken together, shall constitute the Conditions. Such Conditions will be constituted as follows:

- the blanks in the provisions of the Terms and Conditions which are applicable to the Notes will be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the blanks of such provisions;
- the Terms and Conditions will be modified, supplemented or replaced by the text of any provisions of the Final Terms modifying, supplementing or replacing the provisions of the Terms and Conditions;
- alternative or optional provisions of the Terms and Conditions as to which the corresponding provisions of the Final Terms are not completed or are deleted will be deemed to be deleted from the Conditions; and
- all instructions and explanatory notes set out in square brackets in the Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Conditions.

Where Long-Form Conditions apply, each global note representing the Notes of the relevant Series will have the Final Terms and the Terms and Conditions attached.

Integrated Conditions

If the Final Terms specify that Integrated Conditions are to apply to the Notes, the Conditions in respect of such Notes will be constituted as follows:

- all of the blanks in all applicable provisions of the Terms and Conditions will be completed according to the information contained in the Final Terms and all non-applicable provisions of the Terms and Conditions (including the instructions and explanatory notes set out in square brackets) will be deleted; and/or
- the Terms and Conditions will be otherwise modified, supplemented or replaced according to the information set forth in the Final Terms.

Where Integrated Conditions apply, the Integrated Conditions alone will constitute the Conditions. The Integrated Conditions will be attached to each global note representing Notes of the relevant Series.

§ 2

STATUS, NEGATIVE PLEDGE [in the case of Notes issued by Deutsche Bahn Finance insert: , GUARANTEE AND NEGATIVE PLEDGE OF THE GUARANTOR]

(1) *Status.* The obligations under the Notes constitute unsecured and unsubordinated obligations of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated obligations of the Issuer except for any obligations preferred by law.

(2) *Negative Pledge.* So long as any of the Notes remain outstanding, but only up to the time all amounts of principal and interest have been placed at the disposal of the Fiscal Agent, the Issuer undertakes not to grant or permit to subsist any encumbrance over any or all of its present or future assets, as security for any present or future Capital Market Indebtedness issued or guaranteed by the Issuer or by any other person, without at the same time having the Holders share equally and rateably in such security **[In the case of Notes issued by Deutsche Bahn AG insert:** and that it will (i) not secure or have secured by mortgage, pledge or any other real encumbrance upon its own assets any present or future Capital Market Indebtedness (as defined below) and any guarantee or indemnity given in respect thereof, and (ii) procure that none of its group subsidiaries (*Konzernunternehmen* as defined in § 18 AktG) DB Mobility Logistics AG, DB Fernverkehr Aktiengesellschaft, DB Regio Aktiengesellschaft, DB Schenker Rail GmbH, DB Schenker Rail Deutschland AG (former Railion Deutschland AG), Schenker Aktiengesellschaft, DB Netz Aktiengesellschaft, DB Energie GmbH, DB Station&Service Aktiengesellschaft and DB Dienstleistungen GmbH as well as such group subsidiaries (*Konzernunternehmen*), which continue to operate the complete or an essential part of the business of the mentioned group subsidiaries (*Konzernunternehmen*), will provide any security, by encumbering any of their assets, for any existing or future Capital Market Indebtedness or for guarantees or indemnities in respect thereof, without at the same time having the Holders share equally and rateably in such security, unless such encumbrance is required by law or by any authority].

Within the context of these Conditions “Capital Market Indebtedness” means any indebtedness, in the form of bonds or notes or other securities, which are ordinarily traded or capable of being traded, quoted, dealt in or listed on any stock exchange or similarly organised securities market or obligations arising from

assignable loan agreements (*Schuldscheindarlehen*).

(3) *Guarantee and Negative Pledge of the Guarantor.* Deutsche Bahn Aktiengesellschaft (the “Guarantor”) has given its unconditional and irrevocable guarantee (the “Guarantee”) for the due and punctual payment of principal of and interest on and any other amounts payable in respect of the Notes.

The Guarantor has further undertaken in a negative pledge (the “Negative Pledge”), so long as any of the Notes remains outstanding, but only up to the time all amounts of principal and interest have been placed at the disposal of the Fiscal Agent, that it will (i) not secure or have secured by mortgage, pledge or any other real encumbrance upon its own assets any present or future Capital Market Indebtedness (as defined above) and any guarantee or indemnity given in respect thereof, and (ii) procure that none of its group subsidiaries (*Konzernunternehmen* as defined in § 18 AktG) DB Mobility Logistics AG, DB Fernverkehr Aktiengesellschaft, DB Regio Aktiengesellschaft, DB Schenker Rail GmbH, DB Schenker Rail Deutschland AG (former Railion Deutschland AG), Schenker Aktiengesellschaft, DB Netz Aktiengesellschaft, DB Energie GmbH, DB Station&Service Aktiengesellschaft and DB Dienstleistungen GmbH as well as such group subsidiaries (*Konzernunternehmen*), which continue to operate the complete or an essential part of the business of the mentioned group subsidiaries (*Konzernunternehmen*), will provide any security, by encumbering any of their assets, for any existing on future Capital Market Indebtedness or for guarantees or indemnities in respect thereof, without at the same time having the Holders share equally and rateably in such security, unless such encumbrance is required by law or by any authority.

Guarantee and Negative Pledge constitute a contract for the benefit of Holders from time to time as third party beneficiaries in accordance with § 328 (1) ⁽¹⁾ of the German Civil Code, giving rise to the right of each Holder to require performance of the Guarantee and the Negative Pledge directly from the Guarantor and to enforce the Guarantee and the Negative Pledge directly against the Guarantor.

Copies of the Guarantee and Negative Pledge may be obtained free of charge at the specified offices of each of the Paying Agents.

Interest shall be payable in arrears on **[insert Fixed Interest Date or Dates]** in each year (each such date, an “Interest Payment Date”). (3) *Calculation of Interest for Partial Periods.* If interest is required to be calculated for a period of less than a full year, such interest shall be calculated on the basis of the Day Count Fraction (as defined below).]

Die Garantie und Negativverpflichtung stellen einen Vertrag zugunsten jedes Gläubigers als begünstigtem Dritten gemäß § 328 (1) BGB dar, welcher das Recht jedes Gläubigers begründet, Erfüllung aus der Garantie und der Negativverpflichtung unmittelbar von der Garantin zu verlangen und die Garantie und die Negativverpflichtung unmittelbar gegen die Garantin durchzusetzen.

Kopien der Garantie und Negativverpflichtung werden bei den bezeichneten Geschäftsstellen der Zahlstellen zur kostenlosen Ausgabe bereitgehalten.

Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche Angebotssätze nennen, ist der Zinssatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste **[falls der Referenzsatz EURIBOR ist, einfügen:** Tausendstel Prozent, wobei 0,0005] **[falls der Referenzsatz nicht EURIBOR ist, einfügen:** Hunderttausendstel Prozent, wobei 0,000005] aufgerundet wird) dieser Angebotssätze **[im Fall einer Marge einfügen:** [zuzüglich] [abzüglich] der Marge], wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Falls an einem Zinsfestlegungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen Angebotssätze nennt, ist der Zinssatz für die betreffende Zinsperiode der Satz per annum, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste **[falls der Referenzsatz EURIBOR ist, einfügen:** Tausendstel Prozent, wobei 0,0005] **[falls der Referenzsatz nicht EURIBOR ist, einfügen:** Hunderttausendstel Prozent, wobei 0,000005] aufgerundet wird) der Angebotssätze ermittelt, die die Referenzbanken bzw. zwei oder mehrere von ihnen der Berechnungsstelle auf deren Anfrage als den jeweiligen Satz nennen, zu dem ihnen um ca. 11.00 Uhr ([Brüsseler] [Londoner] Ortszeit) an dem betreffenden Zinsfestlegungstag Einlagen in der festgelegten Währung für die betreffende Zinsperiode von führenden Banken im [Londoner] **[zutreffenden anderen Ort einfügen]** Interbanken-Markt [in der Euro-Zone] angeboten werden **[im Fall einer Marge einfügen:** [zuzüglich] [abzüglich] der Marge]; falls weniger als zwei der Referenzbanken der Berechnungsstelle solche Angebotssätze nennen, dann soll der Zinssatz für die

betreffende Zinsperiode der Angebotssatz für Einlagen in der festgelegten Währung für die betreffende Zinsperiode oder das arithmetische Mittel (gerundet wie oben beschrieben) der Angebotssätze für Einlagen in der festgelegten Währung für die betreffende Zinsperiode sein, den bzw. die eine oder mehrere Banken (die nach Ansicht der Berechnungsstelle und der Emittentin für diesen Zweck geeignet sind) der Berechnungsstelle als Sätze bekannt geben, die sie an dem betreffenden Zinsfestlegungstag gegenüber führenden Banken am [Londoner] **[zutreffenden anderen Ort einfügen]** Interbanken-Markt [in der Euro-Zone] nennen (bzw. den diese Banken gegenüber der Berechnungsstelle nennen) **[im Fall einer Marge einfügen: [zuzüglich] [abzüglich] der Marge]**. Für den Fall, dass der Zinssatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes ermittelt werden kann, ist der Zinssatz der Angebotssatz oder das arithmetische Mittel der Angebotssätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem diese Angebotssätze angezeigt wurden **[im Fall einer Marge einfügen: [zuzüglich] [abzüglich] der Marge** (wobei jedoch, falls für die relevante Zinsperiode eine andere Marge als für die unmittelbar vorhergehende Zinsperiode gilt, die relevante Marge an die Stelle der Marge für die vorhergehende Zinsperiode tritt)].

[Im Fall des Interbankenmarktes in der Euro-Zone einfügen: „Euro-Zone“ bezeichnet das Gebiet derjenigen Mitgliedstaaten der Europäischen Union, die gemäß dem Vertrag über die Gründung der Europäischen Gemeinschaft (unterzeichnet in Rom am 25. März 1957), geändert durch den Vertrag über die Europäische Union (unterzeichnet in Maastricht am 7. Februar 1992) und den Amsterdamer Vertrag vom 2. Oktober 1997 und den Vertrag von Lissabon vom 13. Dezember 2007, in seiner jeweiligen Fassung, eine einheitliche Währung eingeführt haben oder jeweils eingeführt haben werden.]

„Referenzbanken“ bezeichnen **[falls in den endgültigen Bedingungen keine anderen Referenzbanken bestimmt werden, einfügen:** diejenigen Niederlassungen **[im Fall von EURIBOR einfügen:** von mindestens vier] derjenigen Banken, deren Angebotssätze zur Ermittlung des maßgeblichen Angebotssatzes zu dem Zeitpunkt benutzt wurden, als solch ein Angebot letztmals auf der maßgeblichen Bildschirmseite angezeigt wurde **[falls in den endgültigen Bedingungen andere Referenzbanken bestimmt werden, sind sie hier einzufügen]**.

[Wenn der Referenzsatz ein anderer als LIBOR oder EURIBOR ist, sind die entsprechenden Einzelheiten anstelle der Bestimmungen dieses Absatzes 2 einzufügen.]

[Sofern eine andere Methode der Feststellung anwendbar ist, sind die entsprechenden Einzelheiten anstelle der Bestimmungen dieses Absatzes 2 einzufügen]

[Falls ein Mindest- und/oder Höchstzinssatz gilt einfügen:

(3) *[Mindest-] [und] [Höchst-] Zinssatz.*

[Falls ein Mindestzinssatz gilt einfügen: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz niedriger ist als **[Mindestzinssatz einfügen]**, so ist der Zinssatz für diese Zinsperiode **[Mindestzinssatz einfügen].]**

[Falls ein Höchstzinssatz gilt: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz höher ist als **[Höchstzinssatz einfügen]**, so ist der Zinssatz für diese Zinsperiode **[Höchstzinssatz einfügen].]**

[(4)] Zinsbetrag. Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz zu bestimmen ist, den Zinssatz bestimmen und den auf die Schuldverschreibungen zahlbaren Zinsbetrag in Bezug auf die Schuldverschreibungen (der „Zinsbetrag“) für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf den Gesamtnennbetrag der Schuldverschreibungen angewendet werden, wobei der resultierende Betrag auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden.

[(5)] Mitteilung von Zinssatz und Zinsbetrag. Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der relevante Zinszahlungstag der Emittentin **[im Fall von Schuldverschreibungen, die von Deutsche Bahn Finance begeben werden:** und der Garantin], den Zahlstellen, sowie den Gläubigern gemäß § 13 baldmöglichst, aber

keinesfalls später als am vierten auf die Berechnung jeweils folgenden [TARGET] [Londoner] **[zutreffenden anderen Ort einfügen]** Geschäftstag (wie in § 3 (1)(d) definiert) sowie jeder Börse, an der die betreffenden Schuldverschreibungen zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, baldmöglichst, aber keinesfalls später als zu Beginn der jeweiligen Zinsperiode mitgeteilt werden. Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag ohne Vorankündigung nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Schuldverschreibungen zu diesem Zeitpunkt notiert sind, den Zahlstellen, sowie den Gläubigern gemäß § 13 mitgeteilt.

[(6)] Verbindlichkeit der Festsetzungen. Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses § 3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, [die Garantin,] den Fiscal Agent [, die Zahlstellen] und die Gläubiger bindend.

[(7)] Auflaufende Zinsen. Der Zinslauf der Schuldverschreibungen endet mit Beginn des Tages, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlöst, so fallen – vorbehaltlich der Regelung in § 4 (4) – auf den ausstehenden Nennbetrag der Schuldverschreibungen ab dem Fälligkeitstag (einschließlich) bis zum Tag der tatsächlichen Rückzahlung (ausschließlich) Zinsen zum gesetzlich festgelegten Satz für Verzugszinsen an⁵⁾ es sei denn, die Schuldverschreibungen werden zu einem höheren Zinssatz als dem gesetzlich festgelegten Satz für Verzugszinsen verzinst, in welchem Fall die Verzinsung auch während des vorgenannten Zeitraums zu dem ursprünglichen Zinssatz erfolgt.]

[(C) Im Fall von Nullkupon-Schuldverschreibungen einfügen:

(1) *Keine periodischen Zinszahlungen.* Es erfolgen keine periodischen Zinszahlungen auf die Schuldverschreibungen.

(2) *Auflaufende Zinsen.* Sollte die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlösen, fallen auf den ausstehenden Nennbetrag der Schuldverschreibungen ab dem Fälligkeitstag bis zum Tag der tatsächlichen Rückzahlung Zinsen in Höhe von **[Emissionsrendite einfügen]** per annum an.]

[(D) (Im Fall von Doppelwährungs-Schuldverschreibungen anwendbare Bestimmungen die Zinsen betreffend hier einfügen.)

[Im Fall von indexierten Schuldverschreibungen anwendbare Bestimmungen die Zinsen betreffend hier einfügen.]

[Im Fall von Credit Linked Notes anwendbare Bestimmungen die Zinsen betreffend hier einfügen.]

[Im Fall von Equity Linked Notes anwendbare Bestimmungen die Zinsen betreffend hier einfügen.]

[Im Fall von Raten-Schuldverschreibungen anwendbare Bestimmungen die Zinsen betreffend hier einfügen.]

[(•)] Zinstagequotient. „Zinstagequotient“ bezeichnet im Hinblick auf die Berechnung des Zinsbetrages auf eine Schuldverschreibung für einen beliebigen Zeitraum (der „Zinsberechnungszeitraum“):

[Im Fall von Actual/Actual (ICMA) mit jährlichen Zinszahlungen (ausschließlich dem Fall eines ersten oder letzten kurzen oder langen Kupons) einfügen: die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum, geteilt durch die tatsächliche Anzahl von Tagen im jeweiligen Zinsjahr.]

[Im Fall von Actual/Actual (ICMA):

⁵⁾ Der gesetzliche Verzugszinssatz beträgt für das Jahr fünf Prozentpunkte über dem von der Deutschen Bundesbank von Zeit zu Zeit veröffentlichten Basiszinssatz, §§ 288 Absatz 1, 247 BGB.

[Im Fall eines Zinsberechnungszeitraums, der kürzer ist als die Bezugsperiode, in die der Zinsberechnungszeitraum fällt, einfügen: die Anzahl der Tage in dem Zinsberechnungszeitraum, geteilt durch das Produkt aus (1) der Anzahl der Tage in der Bezugsperiode, in die den Zinsberechnungszeitraum fällt und (2) der Anzahl von Bezugsperioden in einem Jahr].

[Im Fall eines Zinsberechnungszeitraums, der länger ist als eine Bezugsperiode einfügen: die Summe von:

- (a) der Anzahl von Tagen in dem Zinsberechnungszeitraum, die in die Bezugsperiode fallen, in welcher der Zinsberechnungszeitraum beginnt, geteilt durch das Produkt aus (1) der Anzahl der Tage in dieser Bezugsperiode und (2) der Anzahl von Bezugsperioden in einem Jahr; und
- (b) der Anzahl von Tagen in dem Zinsberechnungszeitraum, die in die darauffolgende Bezugsperiode fallen, geteilt durch das Produkt aus (1) der Anzahl der Tage in dieser Bezugsperiode und (2) der Anzahl von Bezugsperioden in einem Jahr].

[Im Fall eines kurzen ersten oder letzten Zinsberechnungszeitraumes einfügen: Für die Zwecke der Feststellung der jeweiligen Bezugsperiode soll der **[fiktiver Zinszahlungstag einfügen]** als ein Zinszahlungstag angesehen werden.] **[Im Fall eines langen ersten oder letzten Zinsberechnungszeitraumes einfügen:** Für die Zwecke der Feststellung der jeweiligen Bezugsperiode soll **[fiktive Zinszahlungstage einfügen]** jeweils als ein Zinszahlungstag angesehen werden].]

„Bezugsperiode“ bezeichnet den Zeitraum ab dem Verzinsungsbeginn (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) oder von jedem Zinszahlungstag (einschließlich) bis zum nächsten Zinszahlungstag (ausschließlich). **[Im Falle eines ersten oder letzten kurzen Zinsberechnungszeitraumes einfügen:** Zum Zwecke der Bestimmung der maßgeblichen Bezugsperiode gilt der **[Fiktiven Verzinsungsbeginn oder fiktiven Zinszahlungstag einfügen]** als **[Verzinsungsbeginn] [Zinszahlungstag].]** **[Im Falle eines ersten oder letzten langen Zinsberechnungszeitraumes einfügen:** Zum Zwecke der Bestimmung der maßgeblichen Bezugsperiode gelten der **[Fiktiven Verzinsungsbeginn [und] [oder] fiktive[n] Zinszahlungstag[e] einfügen]** als **[Verzinsungsbeginn] [Zinszahlungstag[e]].]**

[Im Fall von Actual/Actual (ISDA) einfügen: (ISDA) die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum, dividiert durch 365 (oder, falls ein Teil dieses Zinsberechnungszeitraumes in ein Schaltjahr fällt, die Summe aus (A) der tatsächlichen Anzahl der in das Schaltjahr fallenden Tage des Zinsberechnungszeitraumes dividiert durch 366 und (B) die tatsächliche Anzahl der nicht in das Schaltjahr fallenden Tage des Zinsberechnungszeitraumes dividiert durch 365).]

[im Falle von Actual/365 (Fixed) einfügen: die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum, dividiert durch 365.]

[im Falle von Actual/360 einfügen: die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum, dividiert durch 360.]

[im Falle von 30/360, 360/360 oder Bond Basis einfügen: die Anzahl von Tagen im Zinsberechnungszeitraum, dividiert durch 360, wobei die Anzahl der Tage auf der Grundlage eines Jahres von 360 Tagen mit zwölf Monaten zu je 30 Tagen zu ermitteln ist (es sei denn, (A) der letzte Tag des Zinsberechnungszeitraumes fällt auf den 31. Tag eines Monats, während der erste Tag des Zinsberechnungszeitraumes weder auf den 30. noch auf den 31. Tag eines Monats fällt, in welchem Fall der diesen Tag enthaltende Monat nicht als ein auf 30 Tage gekürzter Monat zu behandeln ist, oder (B) der letzte Tag des Zinsberechnungszeitraumes fällt auf den letzten Tag des Monats Februar, in welchem Fall der Monat Februar nicht als ein auf 30 Tage verlängerter Monat zu behandeln ist).]

[im Falle von 30E/360 oder Eurobond Basis einfügen: die Anzahl der Tage im Zinsberechnungszeitraum, dividiert durch 360 (dabei ist die Anzahl der Tage auf der Grundlage eines Jahres von 360 Tagen mit 12 Monaten zu 30 Tagen zu ermitteln, und zwar ohne Berücksichtigung des Datums des ersten oder letzten Tages des Zinsberechnungszeitraumes, es sei denn, dass im Falle einer am Fälligkeitstag endenden Zinsperiode der Fälligkeitstag der letzte Tag des Monats Februar ist, in welchem Fall der Monat Februar als nicht auf einen Monat zu 30 Tagen verlängert gilt).]

§ 4 ZAHLUNGEN

(1) [(a)] *Zahlungen von Kapital.* Zahlungen von Kapital in Bezug auf die Schuldverschreibungen erfolgen nach Maßgabe des nachstehenden Absatzes (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems gegen Vorlage und (außer im Fall von Teilzahlungen) Einreichung der die Schuldverschreibungen zum Zeitpunkt der Zahlung verbriefenden Globalurkunde bei dem Fiscal Agent.

[Im Fall von Schuldverschreibungen, die keine Nullkupon-Schuldverschreibungen sind, einfügen:

(b) *Zahlung von Zinsen.* Die Zahlung von Zinsen auf Schuldverschreibungen erfolgt nach Maßgabe von Absatz (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems.]

[Im Fall von Zinszahlungen auf eine vorläufige Globalurkunde einfügen: Die Zahlung von Zinsen auf Schuldverschreibungen, die durch die vorläufige Globalurkunde verbrieft sind, erfolgt nach Maßgabe von Absatz (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems, und zwar nach ordnungsgemäßer Bescheinigung gemäß § 1(3)(b).]

(2) *Zahlungsweise.* Vorbehaltlich geltender steuerlicher und sonstiger gesetzlicher Regelungen und Vorschriften erfolgen zu leistende Zahlungen auf die Schuldverschreibungen in der festgelegten Währung. Wurde die festgelegte Währung durch eine andere Währung ersetzt, erfolgen zu leistende Zahlungen in der frei handelbaren und konvertierbaren Währung, **[bei nicht auf Euro lautenden Schuldverschreibungen, einfügen:** durch die die festgelegte Währung am Tag der Fälligkeit der jeweiligen Zahlung ersetzt wurde.] **[bei auf Euro lautenden Schuldverschreibungen, einfügen:** durch die die festgelegte Währung im Sitzstaat der [Garantin][Emittentin] am Tag der Fälligkeit der jeweiligen Zahlung ersetzt wurde.]

(3) *Erfüllung.* Die Emittentin **[Im Fall von Schuldverschreibungen, die von Deutsche Bahn Finance begeben werden, einfügen:** bzw. die Garantin] wird durch Leistung der Zahlung an das Clearing System oder dessen Order von ihrer Zahlungspflicht befreit.

(4) *Zahltag.* Fällt der Fälligkeitstag einer Zahlung in Bezug auf eine Schuldverschreibung auf einen Tag, der kein Zahltag ist, dann hat der Gläubiger keinen Anspruch auf Zahlung vor dem nächsten Zahltag am jeweiligen Geschäftsort. Der Gläubiger ist nicht berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund dieser Verspätung zu verlangen. Für diese Zwecke bezeichnet „Zahltag“ einen Tag, **[bei nicht auf Euro lautenden Schuldverschreibungen, einfügen:** der ein Tag (außer einem Samstag oder Sonntag) ist, an dem Geschäftsbanken und Devisenmärkte Zahlungen in **[sämtliche relevanten Finanzzentren angeben]** abwickeln] **[bei auf Euro lautenden Schuldverschreibungen, einfügen:** der ein Tag (außer einem Samstag oder Sonntag) ist, an dem das Clearing System sowie alle betroffenen Bereiche **[im Fall von festverzinslichen Schuldverschreibungen einfügen:** des Trans-European Automated Real-time Gross Settlement Express Transfer System2 (TARGET2) („TARGET“)] **[im Fall von variabel verzinslichen Schuldverschreibungen einfügen:** von TARGET] betriebsbereit sind, um die betreffenden Zahlungen weiterzuleiten.]

(5) *Bezugnahmen auf Kapital und Zinsen.* Bezugnahmen in diesen Bedingungen auf Kapital der Schuldverschreibungen schließen, soweit anwendbar, die folgenden Beträge ein: den Rückzahlungsbetrag der Schuldverschreibungen; den vorzeitigen Rückzahlungsbetrag der Schuldverschreibungen; **[falls die Emittentin das Wahlrecht hat, die Schuldverschreibungen aus anderen als steuerlichen Gründen vorzeitig zurückzahlen, einfügen:** den Wahl-Rückzahlungsbetrag der Schuldverschreibungen;] **[falls der Gläubiger ein Wahlrecht hat, die Schuldverschreibungen vorzeitig zu kündigen, einfügen:** den Wahl-Rückzahlungsbetrag der Schuldverschreibungen;] **[im Fall von Nullkupon-Schuldverschreibungen einfügen:** der Amortisationsbetrag der Schuldverschreibungen;] **[im Fall von Raten-Schuldverschreibungen einfügen:** die auf die Schuldverschreibungen anwendbare(n) Rate(n);] sowie jeden Aufschlag sowie sonstige auf oder in Bezug auf die Schuldverschreibungen zahlbaren Beträge. Bezugnahmen in diesen Bedingungen auf Zinsen auf Schuldverschreibungen sollen, soweit anwendbar, sämtliche gemäß § 7 zahlbaren zusätzlichen Beträge einschließen.

Rückzahlung die Emittentin zuvor in Ausübung ihres Wahlrechts nach diesem § 5 verlangt hat.

- (b) Um dieses Wahlrecht auszuüben, hat der Gläubiger nicht weniger als **[Mindestkündigungsfrist einfügen]** Tage und nicht mehr als **[Höchstkündigungsfrist einfügen]** Tage vor dem Wahl-Rückzahlungstag, an dem die Rückzahlung gemäß der Ausübungserklärung (wie nachstehend definiert) erfolgen soll, bei dem Fiscal Agent während der normalen Geschäftszeiten eine ordnungsgemäß ausgefüllte Mitteilung zur vorzeitigen Rückzahlung („Ausübungserklärung“), wie sie von dem Fiscal Agent erhältlich ist, zu hinterlegen. Diese Ausübungserklärung muss enthalten: (i) den Nennbetrag der Schuldverschreibungen, für die das Wahlrecht ausgeübt wird und (ii) die Wertpapier-Kenn-Nummer dieser Schuldverschreibungen (soweit eine solche vergeben wurde). Die Ausübung des Wahlrechts kann nicht widerrufen werden.]

[Außer bei Nullkupon-Schuldverschreibungen) einfügen:

[(5)] *Vorzeitiger Rückzahlungsbetrag.*

Für die Zwecke von Absatz (2) dieses § 5, § 9 und § 10 entspricht der vorzeitige Rückzahlungsbetrag einer Schuldverschreibung dem Rückzahlungsbetrag.]

[Im Fall von Nullkupon-Schuldverschreibungen einfügen:

[(5)] *Vorzeitiger Rückzahlungsbetrag.*

- (a) Für die Zwecke des Absatzes (2) dieses § 5, § 9 und § 10 entspricht der vorzeitige Rückzahlungsbetrag einer Schuldverschreibung dem Amortisationsbetrag der Schuldverschreibung.

- (b) Der Amortisationsbetrag einer Schuldverschreibung entspricht der Summe aus:

- (i) **[Referenzpreis einfügen]** (der „Referenzpreis“), und
(ii) dem Produkt aus **[Emissionsrendite einfügen]** (jährlich kapitalisiert) und dem Referenzpreis ab dem (und einschließlich) **[Tag der Begebung einfügen]** bis zu (aber ausschließlich) dem vorgesehenen Rückzahlungstag oder (je nachdem) dem Tag, an dem die Schuldverschreibungen fällig und rückzahlbar werden.

Wenn diese Berechnung für einen Zeitraum, der nicht einer ganzen Zahl von Kalenderjahren entspricht, durchzuführen ist, hat sie im Fall des nicht vollständigen Jahres (der „Zinsberechnungszeitraum“) auf der Grundlage des Zinstagequotienten (wie vorstehend in § 3 definiert) zu erfolgen.

- (c) Falls die Emittentin den vorzeitigen Rückzahlungsbetrag bei Fälligkeit nicht zahlt, wird der Amortisationsbetrag einer Schuldverschreibung wie vorstehend beschrieben berechnet, jedoch mit der Maßgabe, dass die Bezugnahmen in Unterabsatz (b)(ii) auf den für die Rückzahlung vorgesehenen Rückzahlungstag oder den Tag, an dem diese Schuldverschreibungen fällig und rückzahlbar werden, durch den Tag, an dem die Zahlung gegen ordnungsgemäße Vorlage und Einreichung der betreffenden Schuldverschreibungen (sofern erforderlich) erfolgt, ersetzt werden.]

[Im Fall von Credit Linked Notes vollständige Einzelheiten in Bezug auf den Rückzahlungsbetrag hier einfügen]

[Im Fall von Doppelwährungs-Schuldverschreibungen vollständige Einzelheiten in Bezug auf den Rückzahlungsbetrag hier einfügen]

und deren jeweilige Geschäftsstelle lauten wie folgt:

Fiscal Agent und Zahlstelle:	Deutsche Bank Aktiengesellschaft Trust and Securities Services Große Gallusstraße 10–14 D-60272 Frankfurt am Main
[Zahlstelle[n]:	Deutsche Bank Luxembourg S. A. 2, Boulevard Konrad Adenauer L-1115 Luxembourg [andere Zahlstellen und deren Geschäftsstellen einfügen]

[Falls der Fiscal Agent als Berechnungsstelle bestellt werden soll, einfügen: Der Fiscal Agent handelt auch als Berechnungsstelle.]

[Falls eine Berechnungsstelle bestellt werden soll, die nicht der Fiscal Agent ist, einfügen: Die Berechnungsstelle und ihre Geschäftsstelle lauten:

Berechnungsstelle: **[Namen und Geschäftsstelle einfügen]**

Der Fiscal Agent[,] [und] die Zahlstelle[n] [und die Berechnungsstelle] behalten sich das Recht vor, jederzeit ihre jeweilige bezeichnete Geschäftsstelle durch eine andere bezeichnete Geschäftsstelle in derselben Stadt zu ersetzen.

(2) *Änderung der Bestellung oder Abberufung.* Die Emittentin behält sich das Recht vor, jederzeit die Bestellung des Fiscal Agent oder einer Zahlstelle [oder der Berechnungsstelle] zu ändern oder zu beenden und einen anderen Fiscal Agent oder zusätzliche oder andere Zahlstellen [oder eine andere Berechnungsstelle] zu bestellen. Die Emittentin wird zu jedem Zeitpunkt (i) einen Fiscal Agent unterhalten[,] [und] (ii) zusätzlich zu dem Fiscal Agent eine Zahlstelle mit einer Geschäftsstelle in einer kontinentaleuropäischen Stadt unterhalten **[im Fall von Schuldverschreibungen, die an einer Börse notiert sind, einfügen:[,] [und]** (iii) solange die Schuldverschreibungen an der **[Name der Börse]** notiert sind, eine Zahlstelle (die der Fiscal Agent sein kann) mit einer Geschäftsstelle in **[Sitz der Börse]** und/oder an solchen anderen Orten unterhalten, die die Regeln dieser Börse verlangen] **[im Fall von Zahlungen in US-Dollar einfügen:[,] [und]** [(iv)] falls Zahlungen bei den oder durch die Geschäftsstellen aller Zahlstellen außerhalb der Vereinigten Staaten aufgrund der Einführung von Devisenbeschränkungen oder ähnlichen Beschränkungen hinsichtlich der vollständigen Zahlung oder des Empfangs der entsprechenden Beträge in US-Dollar widerrechtlich oder tatsächlich ausgeschlossen werden, eine Zahlstelle mit bezeichneter Geschäftsstelle in New York City unterhalten] **[falls eine Berechnungsstelle bestellt werden soll, einfügen:[,] [und]** [(v)] eine Berechnungsstelle **[falls die Berechnungsstelle eine bezeichnete Geschäftsstelle an einem vorgeschriebenen Ort zu unterhalten hat, einfügen:** mit bezeichneter Geschäftsstelle in **[vorgeschriebenen Ort einfügen]** unterhalten]. Eine Änderung, Abberufung, Bestellung oder ein sonstiger Wechsel wird nur wirksam (außer im Insolvenzfall, in dem eine solche Änderung sofort wirksam wird), sofern die Gläubiger hierüber gemäß § 13 vorab unter Einhaltung einer Frist von mindestens 30 und nicht mehr als 45 Tagen informiert werden.

„Vereinigte Staaten“ bezeichnet die Vereinigten Staaten von Amerika (einschließlich deren Bundesstaaten und des District of Columbia) sowie deren Territorien (einschließlich Puerto Rico, der U. S. Virgin Islands, Guam, American Samoa, Wake Island und Northern Mariana Islands).

(3) *Beauftragte der Emittentin.* Der Fiscal Agent[,] [und] die Zahlstelle[n] [und die Berechnungsstelle] handeln ausschließlich als Beauftragte der Emittentin und übernehmen keinerlei Verpflichtungen gegenüber den Gläubigern und es wird kein Auftrags- oder Treuhandverhältnis zwischen ihnen und den Gläubigern begründet.

§ 7 STEUERN

Kapital und Zinsen werden von der Emittentin ohne Abzug oder Einbehalt gegenwärtiger oder zukünftiger Steuern, Abgaben oder amtlicher Gebühren gleich welcher Art gezahlt, die von oder in **[Im Fall von Schuldverschreibungen, die von Deutsche Bahn Finance begeben werden, einfügen:** den Niederlanden oder] der Bundesrepublik Deutschland oder für deren Rechnung oder von oder für Rechnung einer dort zur Steuererhebung ermächtigten Gebietskörperschaft oder Behörde auferlegt, erhoben oder eingezogen werden (nachstehend zusammen „Quellensteuern“ genannt), es sei denn, ein solcher Abzug oder Einbehalt ist gesetzlich vorgeschrieben. In diesem Fall wird die Emittentin die zusätzlichen Beträge („zusätzlichen Beträge“) an Kapital und Zinsen zahlen, die erforderlich sind, damit der dem Gläubiger nach diesem Abzug oder Einbehalt zufließende Nettobetrag jeweils den Beträgen an Kapital und Zinsen entspricht, die ihm zustehen würden, wenn der Abzug oder Einbehalt nicht erforderlich wäre. Solche zusätzlichen Beträge sind jedoch nicht zahlbar wegen Steuern, Abgaben oder amtlicher Gebühren, die

- (a) von einer als Depotbank oder Inkassobeauftragter des Gläubigers handelnden Person oder sonst auf andere Weise zu entrichten sind als dadurch, dass die Emittentin aus den von ihr zu leistenden Zahlungen von Kapital oder Zinsen einen Abzug oder Einbehalt vornimmt; oder
- (b) aufgrund des deutschen Einkommensteuergesetzes in der durch das Unternehmensteuerreformgesetz 2008 geänderten Fassung abgezogen oder einbehalten werden, auch wenn der Abzug oder Einbehalt durch die Emittentin oder ihren Vertreter vorzunehmen ist; oder
- (c) wegen gegenwärtiger oder früherer persönlicher oder geschäftlicher Beziehungen des Gläubigers zu **[Im Fall von Schuldverschreibungen, die von Deutsche Bahn Finance begeben werden, einfügen:** den Niederlanden oder] der Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in **[Im Fall von Schuldverschreibungen, die von Deutsche Bahn Finance begeben werden, einfügen:** den Niederlanden oder] der Bundesrepublik Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder
- (d) aufgrund (i) einer Richtlinie oder Verordnung der Europäischen Union betreffend die Besteuerung von Zinserträgen oder (ii) einer zwischenstaatlichen Vereinbarung über deren Besteuerung, an der die Bundesrepublik Deutschland, die Niederlande oder die Europäische Union beteiligt ist, oder (iii) einer gesetzlichen Vorschrift, die diese Richtlinie, Verordnung oder Vereinbarung umsetzt oder befolgt, abzuziehen oder einzubehalten sind; oder
- (e) aufgrund einer Rechtsänderung zahlbar sind, die später als 30 Tage nach Fälligkeit der betreffenden Zahlung von Kapital oder Zinsen oder, wenn dies später erfolgt, ordnungsgemäßer Bereitstellung aller fälligen Beträge und einer diesbezüglichen Bekanntmachung gemäß § 13 wirksam wird.

§ 8 VORLEGUNGSFRIST

Die in § 801 Absatz 1 Satz 1 BGB bestimmte Vorlegungsfrist wird für die Schuldverschreibungen auf zehn Jahre abgekürzt.

§ 9 KÜNDIGUNG

(1) *Kündigungsgründe.* Jeder Gläubiger ist berechtigt, seine Schuldverschreibungen zu kündigen und deren sofortige Tilgung zu ihrem vorzeitigen Rückzahlungsbetrag (wie in § 5 beschrieben), zuzüglich etwaiger bis zum Tage der Rückzahlung aufgelaufener Zinsen zu verlangen, falls einer der folgenden Kündigungsgründe („Kündigungsgründe“) vorliegt:

- (a) die Emittentin zahlt Kapital oder Zinsen nicht innerhalb von 30 Tagen nach dem betreffenden Fälligkeitstag; oder
- (b) die Emittentin unterlässt die ordnungsgemäße Erfüllung irgendeiner anderen Verpflichtung aus den

Schuldverschreibungen **[bei von Deutsche Bahn Finance begebenen Schuldverschreibungen:** oder die Garantin unterlässt die Erfüllung einer Verpflichtung aus der Garantie, auf die in § 2 Bezug genommen wird,] und diese Unterlassung, falls sie geheilt werden kann, länger als 30 Tage fort dauert, nachdem der Fiscal Agent hierüber eine Benachrichtigung von einem Gläubiger erhalten hat; oder

- (c) die Emittentin **[bei von Deutsche Bahn Finance begebenen Schuldverschreibungen:** oder die Garantin] ihre Zahlungsunfähigkeit bekanntgibt oder ihre Zahlungen einstellt, oder
- (d) ein Gericht ein Insolvenzverfahren gegen die Emittentin **[bei von Deutsche Bahn Finance begebenen Schuldverschreibungen:** oder die Garantin] eröffnet, oder die Emittentin **[bei von Deutsche Bahn Finance begebenen Schuldverschreibungen:** oder die Garantin] ein solches Verfahren einleitet oder beantragt, oder eine allgemeine Schuldenregelung zugunsten ihrer Gläubiger anbietet oder trifft, oder **[bei von Deutsche Bahn Finance begebenen Schuldverschreibungen:** die Emittentin ein „*surseance van betaling*“ (Schuldenmoratorium im Sinne des niederländischen Insolvenzrechts) beantragt, oder]
- (e) die Emittentin **[bei von Deutsche Bahn Finance begebenen Schuldverschreibungen:** oder die Garantin] in Liquidation tritt, es sei denn, dies geschieht im Zusammenhang mit einer Verschmelzung (insbesondere eine Verschmelzung gemäß § 2 Absatz (2) Deutsche Bahn Gründungsgesetz) oder einer anderen Form des Zusammenschlusses mit einer anderen Gesellschaft und diese Gesellschaft übernimmt alle Verpflichtungen, die die Emittentin **[bei von Deutsche Bahn Finance begebenen Schuldverschreibungen:** oder die Garantin] im Zusammenhang mit diesen Schuldverschreibungen eingegangen ist, oder
- (f) in **[bei von Deutsche Bahn Finance begebenen Schuldverschreibungen:** den Niederlanden oder in] der Bundesrepublik Deutschland irgendein Gesetz, eine Verordnung oder behördliche Anordnung erlassen wird oder ergeht, aufgrund derer die Emittentin **[bei von Deutsche Bahn Finance begebenen Schuldverschreibungen:** oder die Garantin] daran gehindert wird, die von ihr gemäß diesen Bedingungen **[bei von Deutsche Bahn Finance begebenen Schuldverschreibungen:** bzw. der Garantie] übernommenen Verpflichtungen in vollem Umfang zu beachten und zu erfüllen und diese Lage nicht binnen 90 Tagen behoben ist.

Das Kündigungsrecht erlischt, falls der Kündigungsgrund vor Ausübung des Rechts geheilt wurde.

(2) *Quorum.* In den Fällen des § 9 Absatz (1) (b) wird eine Kündigung, sofern nicht bei deren Eingang zugleich einer der in § 9 Absatz (1) (a), (1) (c), (1) (d), (1) (e) oder (1) (f) bezeichneten Kündigungsgründe vorliegt, erst wirksam, wenn bei dem Fiscal Agent Kündigungserklärungen von Gläubigern von Schuldverschreibungen im Nennbetrag von mindestens einem Zehntel der dann ausstehenden Schuldverschreibungen eingegangen sind.

(3) *Form der Erklärung.* Eine Benachrichtigung, einschließlich einer Kündigung der Schuldverschreibungen gemäß vorstehendem Absatz (1) ist schriftlich, in deutscher oder englischer Sprache, gegenüber dem Fiscal Agent zu erklären und persönlich oder per Einschreiben an deren bezeichnete Geschäftsstelle zu übermitteln.

§ 10 RESTRUKTURIERUNG

Für den Fall, dass gemäß § 2 Absatz (2) Deutsche Bahn Gründungsgesetz die Garantin aufgelöst oder aufgespalten wird, sind die Gläubiger unabhängig von den Vorschriften in § 9 Absatz (1) (e) zur Kündigung zum vorzeitigen Rückzahlungsbetrag berechtigt. Das Kündigungsrecht besteht nicht, falls im Fall

- (i) der Auflösung Sicherheiten gestellt werden;
- (ii) der Aufspaltung, die aus der Aufspaltung hervorgehenden Gesellschaften die uneingeschränkte, unwiderrufliche und gesamtschuldnerische Haftung für die Verbindlichkeiten **[Im Fall von Schuldverschreibungen, die von der Deutschen Bahn Finance begeben werden, einfügen:** der Garantin aus der Garantie] **[Im Fall von Schuldverschreibungen, die von der Deutschen Bahn AG begeben werden, einfügen:** der Emittentin aus den Schuldverschreibungen] gegenüber den

FORM OF GUARANTEE AND NEGATIVE PLEDGE

German Language Version

GARANTIE UND NEGATIVVERPFLICHTUNG

der

Deutsche Bahn Aktiengesellschaft,
Berlin, Bundesrepublik Deutschland

zugunsten der Gläubiger von Schuldverschreibungen (die „Schuldverschreibungen“)

die von der

Deutsche Bahn Finance B. V.
(einer mit beschränkter Haftung in den Niederlanden errichteten Gesellschaft)

Im Rahmen des Debt Issuance Programme
(das „Programm“) (wie jeweils abgeändert, ergänzt oder neu gefasst) begeben werden.

IM HINBLICK DARAUF, DASS:

- (A) Deutsche Bahn Finance B. V. („Deutsche Bahn Finance“) beabsichtigt, von Zeit zu Zeit Schuldverschreibungen im Rahmen des Programms zu begeben;
- (B) Deutsche Bahn Aktiengesellschaft (die „Garantin“) die ordnungsgemäße Zahlung von Kapital und Zinsen sowie von allen sonstigen Beträgen, die aufgrund der von Deutsche Bahn Finance im Rahmen des Programms begebenen Schuldverschreibungen zu leisten sind, garantieren möchte;
- (C) die Garantin gegenüber jedem Gläubiger (wie unten definiert) eine Negativverpflichtung eingehen möchte;
- (D) Diese Garantie ersetzt die Garantie vom 31. Mai 2001. Die Garantie vom 31. Mai 2001 gilt für sämtliche Schuldverschreibungen, die von der Deutsche Bahn Finance in der Zeit vom 31. Mai 2001 bis zum 20. Dezember 2008 begeben worden sind.

WIRD FOLGENDES VEREINBART:

- (1) (a) Die Garantin übernimmt gegenüber jedem Gläubiger (jeweils ein „Gläubiger“) der Schuldverschreibungen (wobei dieser Begriff jede Vorläufige- oder Dauer-Globalurkunde, die Schuldverschreibungen verbrieft, einschließt) welche jetzt oder zu irgendeinem Zeitpunkt nach dem Datum dieser Garantie von Deutsche Bahn Finance im Rahmen des Programms begeben werden, die unbedingte und unwiderrufliche Garantie für die ordnungsgemäße und pünktliche Zahlung bei Fälligkeit von Kapital und Zinsen auf die Schuldverschreibungen sowie von allen sonstigen Beträgen, die gemäß den Bedingungen der Schuldverschreibungen auf die Schuldverschreibungen zahlbar sind.
- (b) Diese Garantie begründet eine unbedingte, unbesicherte und nicht nachrangige Verbindlichkeit der Garantin, die mit allen anderen jeweils bestehenden, nicht besicherten und nicht nachrangigen Verbindlichkeiten der Garantin gleichrangig ist.
- (c) Sämtliche auf die Garantie zu zahlenden Beträge werden ohne Abzug oder Einbehalt gegenwärtiger oder zukünftiger Steuern, Abgaben oder amtlicher Gebühren gleich welcher Art gezahlt, die von oder in der Bundesrepublik Deutschland oder für deren Rechnung oder von oder für Rechnung einer dort zur Steuererhebung ermächtigten Gebietskörperschaft oder Behörde auferlegt, erhoben oder eingezogen werden (nachstehend zusammen „Quellensteuern“ genannt), es sei denn, ein solcher Abzug oder Einbehalt ist gesetzlich vorgeschrieben. In diesem letzteren Fall wird die Garantin die

zusätzlichen Beträge („zusätzlichen Beträge“) zahlen, die erforderlich sind, damit der dem Gläubiger nach diesem Abzug oder Einbehalt aufgrund der Garantie zufließende Nettobetrag jeweils den Beträgen an Kapital und Zinsen entspricht, die ihm zustehen würden, wenn der Abzug oder Einbehalt nicht erforderlich wäre. Solche zusätzlichen Beträge sind jedoch nicht zu zahlen wegen Steuern, Abgaben oder amtlicher Gebühren, die

- (i) von einer als Depotbank oder Inkassobeauftragter des Gläubigers handelnden Person oder sonst auf andere Weise zu entrichten sind als dadurch, dass die Garantin aus den von ihr zu leistenden Zahlungen von Kapital und Zinsen einen Abzug oder Einbehalt vornimmt; oder
 - (ii) aufgrund der Vorschriften zur deutschen Kapitalertragsteuer und dem Solidaritätszuschlag abgezogen oder einbehalten werden, auch wenn der Abzug oder Einbehalt durch die Emittentin oder ihren Vertreter vorzunehmen ist; oder
 - (iii) wegen gegenwärtiger oder früherer persönlicher oder geschäftlicher Beziehungen des Gläubigers zu der Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen oder die Garantie aus Quellen in der Bundesrepublik Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder
 - (iv) aufgrund (i) einer Richtlinie oder Verordnung der Europäischen Union betreffend die Besteuerung von Zinserträgen oder (ii) einer zwischenstaatlichen Vereinbarung über deren Besteuerung, an der die Bundesrepublik Deutschland oder die Europäische Union beteiligt ist, oder (iii) einer gesetzlichen Vorschrift, die diese Richtlinie, Verordnung oder Vereinbarung umsetzt oder befolgt, abzuziehen oder einzubehalten sind; oder
 - (v) aufgrund einer Rechtsänderung zahlbar sind, die später als 30 Tage nach Fälligkeit der betreffenden Zahlung von Kapital oder Zinsen oder, wenn dies später erfolgt, ordnungsgemäßer Bereitstellung aller fälligen Beträge und einer diesbezüglichen Bekanntmachung gemäß § 13 der Bedingungen wirksam wird.
- (d) Die Verpflichtungen der Garantin aus dieser Garantie
- (i) sind selbständig und unabhängig von den Verpflichtungen der Deutsche Bahn Finance aus den Schuldverschreibungen,
 - (ii) bestehen unabhängig von der Rechtmäßigkeit, Gültigkeit, Verbindlichkeit oder Durchsetzbarkeit der Schuldverschreibungen und
 - (iii) werden nicht durch Ereignisse, Bedingungen oder Umstände tatsächlicher oder rechtlicher Art berührt, außer durch die vollständige, endgültige und unwiderrufliche Erfüllung sämtlicher in den Schuldverschreibungen eingegangenen Zahlungsverpflichtungen.
- (e) Die Verpflichtungen der Garantin aus dieser Garantie erstrecken sich ohne Weiteres auf die Verpflichtungen einer nicht mit der Garantin identischen Nachfolgeschuldnerin, die infolge einer Schuldnerersetzung gemäß den Bedingungen in Bezug auf die Schuldverschreibungen entstehen.
- (2) Die Garantin verpflichtet sich gegenüber jedem Gläubiger, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind,
- (a) keine gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeiten (wie nachstehend definiert) und keine Garantie oder Gewährleistung hierfür durch Grund- oder Mobiliarpfandrechte oder eine sonstige dingliche Belastung des eigenen Vermögens zu besichern oder besichern zu lassen, und
 - (b) ihre Konzernunternehmen (wie in § 18 AktG definiert) DB Mobility Logistics AG, DB Fernverkehr Aktiengesellschaft, DB Regio Aktiengesellschaft, DB Schenker Rail GmbH, DB Schenker Rail Deutschland AG (ehemals Railion Deutschland AG), Schenker Aktiengesellschaft, DB Netz Aktiengesellschaft, DB Energie GmbH, DB Station&Service Aktiengesellschaft und DB Dienstleistungen GmbH sowie solche Konzernunternehmen, die den Geschäftsbetrieb der vorgenannten Konzernunternehmen ganz oder im Wesentlichen ganz fortführen, zu veranlassen, keine gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeiten und keine Garantie oder Gewährleistung hierfür durch Grund- oder Mobiliarpfandrechte oder eine sonstige dingliche Belastung des eigenen Vermögens zu besichern oder besichern zu lassen, ohne gleichzeitig die Gläubiger an derselben Sicherheit im gleichen Rang und gleichem Verhältnis teilnehmen zu lassen, es sei denn,

eine solche Besicherung ist gesetzlich oder behördlich vorgeschrieben.

„Kapitalmarktverbindlichkeit“ bedeutet jede gegenwärtige oder zukünftige Verbindlichkeit, die in Form von Schuldverschreibungen oder sonstiger Wertpapiere, die üblicherweise an einer Börse oder einem vergleichbaren organisierten Wertpapiermarkt gehandelt werden, oder gehandelt werden können, verbrieft, verkörpert oder dokumentiert sind, sowie Verbindlichkeiten, die sich aus Schuldscheindarlehen ergeben.

(3) Dieser Vertrag und alle darin enthaltenen Vereinbarungen stellen einen Vertrag zugunsten der Gläubiger als begünstigte Dritte gemäß § 328 Absatz 1 BGB dar. Sie begründen das Recht eines jeden Gläubigers, die Erfüllung der hierin eingegangenen Verpflichtungen unmittelbar von der Garantin zu fordern und diese Verpflichtungen unmittelbar gegenüber der Garantin durchzusetzen.

(4) Die Deutsche Bank Aktiengesellschaft in ihrer Eigenschaft als Fiscal Agent handelt nicht als Treuhänder oder in einer ähnlichen Eigenschaft für die Gläubiger.

(5) Die in diesem Vertrag verwendeten und nicht anders definierten Begriffe haben die ihnen in den beigefügten Bedingungen zugewiesene Bedeutung.

(6) Dieser Vertrag unterliegt deutschem Recht.

(7) Dieser Vertrag ist in deutscher Sprache abgefasst. Eine unverbindliche Übersetzung in die englische Sprache ist beigefügt.

(8) Das Original dieses Vertrages wird dem Fiscal Agent ausgehändigt und von diesem verwahrt.

(9) Erfüllungsort ist Berlin.

(10) Gerichtsstand für alle Rechtsstreitigkeiten aus oder im Zusammenhang mit diesem Vertrag ist Frankfurt am Main. Jeder Gläubiger kann seine Ansprüche jedoch auch vor jedem anderen zuständigen Gericht geltend machen.

(11) Jeder Gläubiger kann in jedem Rechtsstreit gegen die Garantin und in jedem Rechtsstreit, in dem er und die Garantin Partei sind, seine Rechte aus diesem Vertrag auf der Grundlage einer von einer vertretungsberechtigten Person des Fiscal Agent beglaubigten Kopie dieses Vertrages ohne Vorlage des Originals im eigenen Namen wahrnehmen und durchsetzen.

GUARANTEE AND NEGATIVE PLEDGE

of

Deutsche Bahn Aktiengesellschaft,
Berlin, Federal Republic of Germany,

for the benefit of the Holders of Notes (the „Notes“)

issued by

Deutsche Bahn Finance B. V.
(incorporated as a limited liability company in The Netherlands)

under the Debt Issuance Programme
(the „Programme“) as amended, supplemented or restated from time to time.

WHEREAS:

- (A) Deutsche Bahn Finance B. V. („Deutsche Bahn Finance“) intends to issue Notes under the Programme from time to time;
- (B) Deutsche Bahn Aktiengesellschaft (the „Guarantor“) wishes to guarantee the due payment of principal, interest and any other amounts payable in respect of any and all Notes that may be issued by Deutsche Bahn Finance under the Programme;
- (C) the Guarantor wishes to enter into a negative pledge for the benefit of each Holder (as defined below) of the Notes;
- (D) This Guarantee replaces the Guarantee dated 31 May 2001. The Guarantee dated 31 May 2001 extends to any and all Notes which have been issued by Deutsche Bahn Finance during the period beginning on 31 May 2001 through 20 December 2008.

IT IS AGREED AS FOLLOWS:

- (1) (a) The Guarantor unconditionally and irrevocably guarantees to the holder of each Note (which expression shall include any Temporary Global Note, Permanent Global Note representing Notes) (each a „Holder“) issued by Deutsche Bahn Finance now or at any time hereafter under the Programme, the due and punctual payment of the principal of, and interest on, the Notes, and any other amounts which may be expressed to be payable under any Note appertaining thereto, as and when the same shall become due, in accordance with the Terms and Conditions of the Notes.
- (b) This Guarantee constitutes an unconditional, unsecured and unsubordinated obligation of the Guarantor and ranks *pari passu* with all other unsecured and unsubordinated obligations of the Guarantor outstanding from time to time.
- (c) All amounts payable in respect of this Guarantee shall be payable to the bearer of Notes without deduction or withholding for or on account of any present or future taxes, duties or governmental charges of any nature whatsoever imposed, levied or collected by or in or on behalf of the Federal Republic of Germany or by or on behalf of any political subdivision or authority therein having power to tax (hereinafter together called „Withholding Taxes“), unless such deduction or withholding is required by law. In such event, the Guarantor shall pay such additional amounts („additional amounts“) as may be necessary in order that the net amounts of principal and interest received by the Holder after such deduction or withholding shall equal the respective amounts which would have been receivable had no such deduction or withholding been required. No such additional amounts shall, however, be made on account of any taxes, duties or governmental charges which
 - (i) are payable by any person acting as custodian bank or collecting agent on behalf of a Holder, or otherwise in any manner which does not constitute a deduction or withholding by the Guarantor

from payments made of principal or interest by it; or

- (ii) are deducted or withheld pursuant to the provisions regarding German withholding tax (*Kapitalertragsteuer*) and the solidarity surcharge (*Solidaritätszuschlag*), even if the deduction or withholding has to be made by the Issuer or its representative; or
 - (iii) are payable by reason of the Holder having, or having had, some personal or business connection with the Federal Republic of Germany and not merely by reason of the fact that payments in respect of the Notes or the Guarantee are, or for purposes of taxation are deemed to be, derived from sources in, or are secured in, the Federal Republic of Germany; or
 - (iv) are deducted or withheld pursuant to (i) any European Union Directive or Regulation concerning the taxation of interest income, or (ii) any international treaty or understanding relating to such taxation and to which the Federal Republic of Germany or the European Union is a party, or (iii) any provision of law implementing, or complying with, or introduced to conform with, such Directive, Regulation, treaty or understanding; or
 - (v) are payable by reason of a change in a law that becomes effective more than 30 days after the relevant payment of principal or interest becomes due, or is duly provided for and notice thereof is published in accordance with § 13 of the Conditions, whichever occurs later.
- (d) The obligations of the Guarantor under this Guarantee
- (i) shall be separate and independent from the obligations of Deutsche Bahn Finance under the Notes,
 - (ii) shall exist irrespective of the legality, validity and binding effect or enforceability of the Notes, and
 - (iii) shall not be affected by any event, condition or circumstance of whatever nature, whether factual or legal, save the full, definitive and irrevocable satisfaction of any and all payment obligations expressed to be assumed under the Notes.
- (e) The obligations of the Guarantor under this Guarantee shall, without any further act or thing being required to be done or to occur, extend to the obligations of any Substitute Debtor which is not the Guarantor arising in respect of any Note by virtue of a substitution pursuant to the Conditions, as amended, supplemented or varied by the applicable final terms.

(2) The Guarantor undertakes towards each Holder, so long as any of the Notes remains outstanding, but only up to the time all amounts of principal and interest have been placed at the disposal of the Fiscal Agent, that it will

- (a) not secure or have secured by mortgage, pledge or any other real encumbrance upon its own assets any present or future Capital Market Indebtedness (as defined below) and any guarantee or indemnity given in respect thereof, and
- (b) procure that none of its group subsidiaries (*Konzernunternehmen* as defined in § 18 AktG) DB Mobility Logistics AG, DB Fernverkehr Aktiengesellschaft, DB Regio Aktiengesellschaft, DB Schenker Rail GmbH, DB Schenker Rail Deutschland AG (former Railion Deutschland AG), Schenker Aktiengesellschaft, DB Netz Aktiengesellschaft, DB Energie GmbH, DB Station&Service Aktiengesellschaft and DB Dienstleistungen GmbH as well as such group subsidiaries (*Konzernunternehmen*), which continue to operate the complete or an essential part of the business of the mentioned group subsidiaries (*Konzernunternehmen*), will provide any security, by encumbering any of their assets, for any existing or future Capital Market Indebtedness or for guarantees or indemnities in respect thereof, without at the same time having the Holders share equally and rateably in such security, unless such encumbrance is required by law or by any authority.

„Capital Market Indebtedness“ means any indebtedness, in the form of bonds or notes or other securities which are ordinarily traded or capable of being traded, quoted, dealt in or listed on any stock exchange or similarly organised securities market, or obligations arising from assignable loan agreements (*Schuldscheindarlehen*).

(3) This Agreement and all undertakings contained herein constitute a contract for the benefit of the Holders from time to time as third party beneficiaries pursuant to § 328 (1) BGB (*German Civil Code*). They give rise to the right of each such Holder to require performance of the obligations undertaken herein directly from the Guarantor, and to enforce such obligations directly against the Guarantor.

(4) Deutsche Bank Aktiengesellschaft in its capacity as Fiscal Agent does not act in a fiduciary or in any other similar capacity for the Holders.

(5) Terms used in this Agreement and not otherwise defined herein shall have the meaning attributed to them in the Conditions, a copy of which is attached hereto.

(6) This Agreement shall be governed by, and construed in accordance with, German law.

(7) This Agreement is written in the German language and attached hereto is a non-binding English translation.

(8) The original version of this Agreement shall be delivered to, and kept by, the Fiscal Agent.

(9) Place of performance shall be Berlin.

(10) The place of jurisdiction for all legal proceedings arising out of or in connection with this Agreement shall be Frankfurt am Main. Each Holder may, however, also pursue his claims before any other court of competent jurisdiction.

(11) On the basis of a copy of this Agreement certified as being a true copy by a duly authorised officer of the Fiscal Agent, each Holder may protect and enforce in his own name his rights arising under this Agreement in any legal proceedings against the Guarantor or to which such Holder and the Guarantor are parties, without the need for production of this Agreement in such proceedings.

Anwendbar im Fall von Schuldverschreibungen der Deutsche Bahn Finance B. V.

⁽⁹⁾ To be determined in consultation with the Issuer. It is anticipated that Long-Form Conditions will generally be used for Notes sold on a non-syndicated basis and which are not publicly offered. Integrated Conditions will generally be used for Notes in bearer form sold and distributed on a syndicated basis. Continuously High Capital Expenditures Level in 2010

DB Group made notably higher capital expenses in the infrastructure business units of DB Netze Track and DB Netze Stations (due to the economic stimulus programs) as well as in the DB Services and DB Schenker Rail business units.

	2010	Share/2010	2009

1) Net capital expenditures = gross capital expenditures less non-repayable investment grants from third parties.

The structure of capital expenditures remained dominated by business units within the Infrastructure Board division – and above all, without change, by the DB Netze Track business unit. The infrastructure business units accounted for 82% (previous year: 82%) of total gross capital expenditures with the DB Netze Track business unit alone holding 72% (in the previous year: 72%). Business units in the Passenger Transport Board division held an 8% share (previous year: 8%) while business units in the Transport and Logistics Board division accounted for an unchanged 8%. Broken down by regions, the vast majority (94%) of capital expenditures were again made in Germany.

The main focus across DB Group was on measures to increase the performance and efficiency within the infrastructure sector, station modernization, as well as the additional rejuvenation of DB Group's vehicle parks in the rail and bus transport. In addition, DB Group also invested in the further development of its logistics networks.

In accordance with the relevant legal regulations, DB Group's capital expenditures in infrastructure are generally financed by means of investment grants netted with properties and – to a lesser extent – among other funds obtained under the Local, Regional and Municipal Transport Financing Act and the Railway Crossings Act, as well as a considerable range of internal funds.

5. Deutsche Bahn Group at a Glance

Group Structure and Principles of Cooperation within the Group

The business portfolio of Deutsche Bahn Group is primarily organized into nine business units. Following the restructuring that took place during the 2008 financial year, DB AG manages the DB Netze Track, DB Netze Stations and DB Netze Energy business units directly. The remaining six business units fall under the management of DB AG's fully owned subsidiary, DB Mobility Logistics AG ("**DB ML AG**"), which was established in 2008 as a second group management holding company for transport and logistics as well as the rail-related service activities. Within the DB Group structure, DB AG and DB ML AG both function as management holding companies that lead the Group. The close connection between DB AG

respectively DB ML AG and the major group companies are supported by profit and loss transfer agreements, domination agreements and tax-polling agreements. One of the desired effects of the holding structure is the ability to allow the business units, as market specialists in their respective fields, to make operational decisions. The business units are responsible for the conduct of the business operations. Another desired effect is that the very close cooperation between DB AG and DB ML AG as parent companies guarantees that the inter-company benefits of the closely-networked and mutually dependent business units are maintained to the extent possible. The very close cooperation between the Management Boards of DB AG and DB ML AG is ensured by a wide reaching personnel identity and joint Board meetings. This helps to ensure that synergies between the individual companies can continue to be realized. The Group structure is rounded out by central group and service functions, some of which are performed by DB AG and some of which are performed by DB ML AG.

Passenger Transport

Mobility services are one of the core competencies of DB Group. The DB Bahn Long-Distance, DB Bahn Regional and DB Arriva business units focus on providing the mobility services customers want.

The Passenger Transport division offers rail and bus transport as well as other increasingly important intermodal mobility products. DB Group is developing its transport services with an eye on customers's needs and transforming them into comprehensive mobility services. This applies to both national and international mobility and concurrently involves optimizing the cross-over points where passengers switch from one mode of transport to another. DB Group's aim is to intelligently link rail transport offers to other modes of transport via a smoothly functioning cross-over process. Already today, the CityTicket function of the BahnCard and the supplemental booking possibility via City mobil when buying tickets make it easy for passengers to continue traveling at their destinations via public transport. Together with its business partners DB Group is making the uncomplicated use of public transport at any time a reality for customers thanks to DB Group's e-ticketing project called Touch&Travel.

Based on DB Group's position in its home market, and the new Arriva activities it acquired in 2010, DB Group is currently one of the leading mobility providers in Europe. Against this backdrop, DB Group is pursuing its goal of reinforcing its position as the leading provider of mobility services in Germany and further expanding DB Group's position in the rest of Europe.

DB Bahn Long-Distance business unit

The DB Bahn Long-Distance business unit offers national and cross-border long-distance rail transport services. Regularly scheduled daily service is the core business of long-distance transport. DB Group wants to convince customers of its offers and expand its market share by keeping its promise of providing quick and comfortable connections directly into cities at attractive prices. Furthermore, DB AutoZug also offers car transport and night train transports. Beyond its services in Germany DB Group is gradually building up its international offerings.

DB Bahn Regional business unit

As of 1 January 2011, all of DB Group's regional bus and rail transport activities in Germany, as well as cross-border regional transport services to and from Germany, were bundled together in the DB Bahn Regional business unit.

DB Group's rail transport business offers connections to major metropolitan areas as well as rural destinations via extensive regional transport network. Regionally positioned transport operations link planning and provision of services locally in cooperation with contracting agencies and transport associations. DB Group's aim: an integrated local rail and bus transport offer designed to meet local transport needs. DB Group has built a streamlined, market-aligned organizational structure based on the principles of customer orientation and profitability.

DB Group is active in the German bus transport market with 22 different bus companies, either serving own commercial interests or on behalf of cities or counties. DB Group has positioned itself with this business unit to be able to realize opportunities as this market, which is still very fragmented, opens and develops. Additionally, DB Group will participate in the liberalization of the long-distance bus transport market with own services offered.

DB Arriva business unit

As of 1 January 2011 DB Group bundled together all of its local and regional transport activities outside of Germany (with the exception of cross-border routes to and from Germany) in the new DB Arriva business unit. The business unit comprises Arriva's bus and rail transports and previous activities in Denmark, Great Britain and Sweden. DB Arriva's range of services extend from bus transports in London, water buses in Denmark, through to extensive rail transport in Great Britain, the Netherlands and Scandinavia.

DB Arriva's core competencies include cooperating with national, regional and local contracting organizations as well as the fulfillment of transport contracts and meeting complex requirements demanded by contracting organization.

The focus of the DB Arriva business unit is on continually improving its quality and service, winning (or retaining) transport contracts. And expanding its business, especially in the opening European markets.

DB Arriva already has a good market position as the leading provider of bus transport in Denmark and is one of the leading providers of bus transport services in Great Britain, the Netherlands and Portugal.

Transport and Logistics

DB Group has positioned itself with a single market appearance under the DB Schenker brand as a strong partner to transport and logistics customers around the world. As a globally integrated logistics service provider, DB Schenker operates the leading freight railway in Europe.

DB Schenker stands out from the rest because of its dense network of locations in the world's most significant economic regions, in air and ocean freight, in European land transport, as well as in contract logistics and supply chain management. DB Schenker offers its customers worldwide solutions from bulk goods to parcels via all modes of transport along the entire logistics chain by connecting its position in European rail transport and European land transport with its strong position in the worldwide air and ocean freight business as well as in contract logistics and supply chain management.

International markets are growing together and the outsourcing of complete service packages is advancing. These trends will continue in the next few years. This means that not only will transport needs increase, the demands facing all partners will also rise. In view of current and future customer requirements it is also necessary to integrate rail freight transport into comprehensive logistics offers. DB Group oriented DB Group's activities to achieve this early on.

DB Schenker Rail business unit

DB Schenker Rail is already Europe's biggest provider of international network services in rail freight transport. The European market offers great growth potential, especially on long and heavy-volume routes. This is why DB Schenker Rail has strategically positioned itself quite well in Europe with its own companies as well as with cooperating partners thus enabling DB Schenker Rail to also offer customers a uniform level of quality in international transport business.

DB Schenker Rail's range of products extends from open network systems for transport of single wagons or wagon groups, through to block trains as point-to-point transports, to selected additional logistical services (e.g. road/rail transshipment of bulk goods in railports, or maintenance services) and a full spectrum of services associated with combined transport. DB Schenker Rail has special know-how in the areas of iron, coal and steel (Montan) area, chemicals, petroleum-based products, agricultural products, forestry, consumer goods freight, building materials and waste disposal.

DB Schenker Logistics business unit

The presence in about 2,000 locations in over 130 countries enables DB Schenker Logistics to assert itself as a global player in markets known for having rapid rates of growth, tough competition and consolidating at an increasing pace. DB Schenker Logistics are one of the leading providers in the fields of European land transport, global air and ocean freight as well as contract logistics. DB Schenker Logistics's aim is to hold and expand this position in the future. This is the reason why it further reinforced its networks systematically in the past few years by making major investments in logistics centers, IT infrastructure and in acquisitions. At the same time, DB Schenker Logistics was able to further optimize the cost effectiveness and quality of its offers.

DB Schenker Logistics's land transport business connects key European business regions via a dense network of regularly scheduled transports. DB Schenker Logistics's portfolio of services ranges from shipping parcels to less-than-carload shipments through to partial and complete loads.

In the area of air freight DB Schenker Logistics offers the full spectrum of advanced and highly qualified services at a global level. DB Schenker Logistics is also present around the world when it comes to offering customers the complete range of ocean freight services. The foundation of these services in the worldwide network of logistics centers located at the key junctions of global flows of goods. DB Schenker Logistics's customers expect a modular range of solutions from a logistics service provider as well as demand-oriented capacities at any time – for individual projects as well as global procurement and distribution concepts. DB Schenker Logistics's supply chain management expertise enables it to

develop integrated solutions that are tailor-made to the customers' requirements and effectively link together the services of the individual carriers and logistics centers.

Furthermore, DB Fleet Management also carries out mobility and fleet management services for other companies and the German armed forces. With DB Carsharing DB Group offers a comprehensive mobility network in 160 locations with about 2,200 vehicles. With the car sharing model Flinkster DB Group is accommodating urban mobility needs. The range is rounded out by its bicycle rental system, Call a Bike.

DB Communication Technology is the specialist in area services in the technical sector. The range of services covers maintenance and repair of IT and network technology, safety engineering and multimedia passenger information systems. This also include automaton technology and media services.

DB Sicherheit (security) bundles security functions in DB Group and offers guard and security services for travelers, employees, goods, railway facilities and real estate. DB Sicherheit is the leading supplier in the public transport sector in Germany. Infrastructure

A high-quality and reliable infrastructure is the central prerequisite for smooth rail transport and therefore the long-term competitiveness of rail transport. In order to optimize services DB Group has bundled its infrastructure expertise under the brand "DB Netze." Free and easy access to the rail infrastructure in Germany, individual services and high reliability – this is what the business units DB Netze Track, DB Netze Stations and DB Netze Energy stand for. They establish the requirements for safe, reliable, efficient and environmentally friendly movement of passengers and goods via rail transport through the integrated infrastructure management system.

DB Netze Track business unit

The DB Netze Track business unit is the service provider for the over 370 train operating companies (TOCs) – including 340 non-Group railways. All of them use the German rail network, which is about 33,600 km long and the largest in all of Europe. Due to its central location this network is highly significant for the whole transport economy in Europe.

The German rail network has been open for use to all TOCs authorized in Germany without discrimination since 1994. DB Netz AG independently ensures non-discriminatory access to DB Group's infrastructure. The notable increase in usage by non-Group TOCs has been visible as a trend for years. In the interim, the non-Group TOCs hold a 19% share of total demand for train path (previous year: 17%).

DB Netze Track creates the foundation for high performance and reliable rail transport with a high quality rail network that is oriented towards the needs of TOCs. DB Netze Track ensures the safe operation of its rail infrastructure (long-distance/major metropolitan areas network, regional network, marshaling yards and maintenance facilities), the marketing of customer-oriented track usage offers and the preparation of schedules in close collaboration with the TOCs. In addition to this, DB Netze Track also carries out maintenance and repair work, further develops the rail infrastructure by making capital expenditures in the existing network, modern command and control technology. DB Netze Track also builds new lines and upgrade old ones. The financing of the infrastructure by the Federal and the state governments plays a central role in all of these activities.

DB Netze Stations business unit

The passenger stations of the business unit DB Netze Stations not only serve as gateways to the rail system, they also act as hubs linking various modes of transport together in addition to their roles as marketplaces and calling cards for cities and regions. The business unit's activities encompass the operation of passenger stations as traffic stations as well as the development and marketing of train station space. DB Netze Stations is responsible for ensuring non-discriminatory access to its infrastructure. The number of station stops of non-Group customers has been increasing for years. In addition to construction measures, emphasis is placed on comprehensive service competence, a high level of safety, good customer information and functional route management. Moreover, there is also the aspect of the rental business strengthening earning power, especially in train stations that are highly frequented by customers.

DB Netze Energy business unit

The DB Netze Energy business unit bundles together the responsibility to provide TOCs with power derived from a range of energy sources with the technical know-how needed to perform this task. In addition to planning, maintenance, marketing and operation of technically complex energy networks, the sustainable generation and procurement of traction and stationary energy are also included in the range of services. As an independent energy manager DB Netze Energy guarantees smooth operations and supply traction power and fuels on a non-discriminatory basis to all TOCs in Germany. Furthermore DB Netze Energy provides energy services for customers from industry, trade and the services sector.

6. Liability for Obligations of DB AG

DB AG is an independent legal entity and an independent holder of rights and obligations.

DB AG is liable to its creditors with all its assets. Until the beginning of the second stage of the German rail reform described in point (a), these assets were primarily all properties necessary for the running of the railway (e. g. real estate and rights on real estate) and the other assets necessary for the operation of the railway (e. g. multiple-unit trains, locomotives, wagons).

(a) Liability of DB AG after operating divisions have been hived off:

In the second stage of restructuring (effective retroactively as of 1 January 1999, with the entry in the commercial register on 1 June 1999) the divisions of Local Passenger Transport, Long-Distance

Passenger Transport, Cargo Transport, Track Infrastructure, and Passenger Stations, pursuant to the legislative intent, are established as joint stock companies. The newly-established companies are "DB Regio AG", "DB Reise&Touristik AG" today "DB Fernverkehr AG", "DB Cargo AG" today "DB Schenker Deutschland AG", "DB Netz AG" and "DB Station&Service AG".

DB AG remains as a holding company and continues to be liable to its creditors for the redemption of obligations with its entire asset base, which consists to a substantial degree of equity stakes in the above mentioned spun-off companies and (unsecured) claims on these companies relating to the onlending of the funds borrowed directly by DB AG or Deutsche Bahn Finance .

(b) Liability if DB AG is defunct:

According to the Law on the Establishment of Deutsche Bahn Aktiengesellschaft (Deutsche Bahn Gründungsgesetz), DB AG may, on the basis of a regulation for which the approval of the Bundesrat is required, either be dissolved, merged with one of the hived-off companies, or split up among the hived-off companies.

The liability of DB AG's obligations or its guarantee with respect to obligations of Deutsche Bahn Finance, will depend on the legal procedure for DB AG's termination, which is to be determined by a German Federal Law as required by Section 2 paragraph 2 DBGrG.

In the event of dissolution, the liquidators must satisfy all creditors before the dissolution can be effected. Also, the claims of Deutsche Bahn Finance on DB AG relating to the transfer of the borrowed funds would have to be satisfied, with the result that Deutsche Bahn Finance would be again in the position to meet its obligations to the creditors.

In the event of a merger with one of the hived-off companies, all assets and liabilities of DB AG – also the equity stakes in subsidiaries and the claims on subsidiaries – will be passed on to the acquiring company by the registration of the merger in the commercial register at the domicile of the acquiring company; DB AG will cease to exist.

Following the merger, the acquiring company is liable to its creditors with all its assets, which will also include the equity stakes in the other hived-off joint stock companies and the claims on these companies from the transferring of the borrowed funds.

In the event of a split of DB AG pursuant to Section 123 paragraph 1 No. 1 Transformation Act (UmwG), in accordance with a split and transfer agreement, all assets and liabilities of DB AG will be transferred to the joint stock companies previously hived off.

After the split has taken place, the joint stock company to which the respective guarantee liability of DB AG has been allocated (according to the split and transfer agreement) will be liable to its creditors with all its assets.

Within five years after the split, all companies involved in the split of DB AG will remain jointly and severally liable pursuant to Section 133 paragraph 1 UmwG.

Upon expiry of the statutory joint and several liability, the joint stock companies remaining after the split will assume joint and several liability, or provide equal security to cover the obligations under guarantees relating to bond issues of Deutsche Bahn Finance.

7. Financial Relationship to the Federal Republic of Germany or the Federal States

Apart from the equity holding, the following financial relationships exist as a result of legal provisions:

- (a) The civil servants of the former Deutsche Bundesbahn are in principle assigned to provide services to DB Group. Their salaries will be paid from the Federal Railway Fund. DB Group will reimburse the Federal Railway Fund for the personnel costs only up to the corresponding amount which DB Group would have to pay for new employees.
- (b) Investments into the track infrastructure will be financed through interest free loans and non-repayable investment grants from the Federal Republic of Germany. A Service and Financing Agreement (Leistungs- und Finanzierungsvereinbarung; LuFV) between the Federal Government and the rail infrastructure companies of DB Group took effect in January 2009. Based on this agreement the Federal Government is obligated to provide € 2.5 billion to DB Group every year between 2009 and

2013 to make investments to upgrade the rail network, stations and power facilities.

- (c) On 1 January 1996, the functional and financial responsibility for local railway passenger services was transferred from the Federal Republic of Germany to the Federal States. Since then, the Federal States or the municipalities (*Gemeinden*) or special purpose associations (*Zweckverbände*), have “ordered” and will “order” regional services from DB Group. They are required to pay for services rendered, determined in agreements with the DB Group on a case-by-case basis.

8. Material Contracts

The DB Group did not enter into any contracts outside the ordinary course of business, which could result in any member of DB Group being under an obligation or entitlement that is material to DB AGs ability to meet its obligations to the Holders in respect of the Notes.

B. Corporate Governance

The Federal Government established the Public Corporate Governance Code of the Federal Government (PCGK) on 1 July 2009 to create standards of good corporate and investment governance. The PCGK contains significant provisions of current laws for managing and supervising non-listed companies in which the Federal Government holds a majority stake, and it also includes internationally and nationally recognized standards for good and responsible governance. The objective of the PCGK is to make corporate governance and oversight more transparent and understandable, and to more clearly define the Federal Government's role as a shareholder representative. At the same time, it is intended to promote the awareness of good corporate governance.

The Supervisory Board of DB AG has adopted the A rules of procedure 1 for the Management Board and Supervisory Board of DB AG to meet PCGK requirements. The PCGK applies to the DB Group companies to the legal extent possible and technically appropriate in view of the special features of a Group structure. Group-wide compliance with the PCGK principles was established by approval of sample rules of procedure for the Supervisory Boards of the Group companies.

Declaration of Conformity

The Management Board and Supervisory Board of Deutsche Bahn AGDBAG jointly declare: "Since the last declaration of conformity made on March 24, 2010, DB AG has complied with the recommendations of the Public Corporate Governance Code of the Federal Government adopted by the Federal Government on July 1, 2009 with the following exception: During the 2010 financial year the Directors and Officers Liability insurance policy (D&O insurance) taken out by Deutsche Bahn AGDBAG for the Supervisory Board members of companies within the Group deviated from the recommendation stated in section 3.3.2 PCGK and did not contain a deductible amount. The decision-making process regarding the structure of an appropriate deductible amount was not concluded in 2010. An agreement concerning an appropriate deductible amount for Supervisory Board members will be reached in 2011. Deutsche Bahn AGDBAG also intends to observe the remaining PCGK recommendations in the future."

TAXATION

The information provided below does not purport to be a complete summary of the tax law and practice currently applicable in the Federal Republic of Germany, The Netherlands and Luxembourg. For their particular case, prospective investors should consult their own professional advisers.

The following is a general discussion of certain tax consequences of the acquisition and ownership of Notes under German, Dutch and Luxembourg laws. This discussion does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase Notes. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the laws of the Federal Republic of Germany, The Netherlands and Luxembourg currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

PROSPECTIVE PURCHASERS OF NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISERS AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF NOTES, INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES UNDER THE TAX LAWS OF GERMANY, THE NETHERLANDS, LUXEMBOURG AND EACH COUNTRY OF WHICH THEY ARE RESIDENTS.

1. Germany

1.1 Taxation of German tax residents

Persons (individuals and corporate entities) who are tax resident in Germany (in particular, persons having a residence, habitual abode, seat or place of management in Germany) are subject to income taxation (income tax or corporate income tax, as the case may be, plus solidarity surcharge thereon plus church tax, if applicable) on their worldwide income, regardless of its source, including interest from debt of any kind (such as the Notes) and, in some cases, capital gains. Further, the persons may be subject to trade tax with income and capital gains derived from the Notes.

Interest and capital gains

Individuals holding the Notes (the “**Investors**”) as private assets (the “**Private Investors**”) are subject to German income taxation with all capital gains from the sale, transfer or redemption of a Note, irrespective of the holding period. Interest received under a Note will also be taxable. Accrued (unpaid) interest paid as a part of the sales price of the Notes (the “**Accrued Interest**”) is deemed to be interest and is taxed accordingly. Capital gains / capital losses realised upon sale of the Notes, computed as the difference between the acquisition costs and the sales proceeds reduced by expenses directly and factually related to the sale, qualify as (negative) income from capital investments. Where the Notes are issued in a currency other than euro, the acquisition costs will be converted into euro at the time of acquisition, the sales proceeds will be converted into euro at the time of sale and the difference will then be computed in euro. If the Notes are assigned, redeemed, repaid or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage in einer Kapitalgesellschaft*) rather than sold, as a rule, such transaction is treated like a sale. Losses from the sale of Notes can only be offset against other income from capital investments and, if there is not sufficient other positive income from capital investments, carried forward in subsequent assessment periods.

Pursuant to a tax decree issued by the Federal Ministry of Finance dated 22 December 2009, a bad debt loss (*Forderungsausfall*) and a waiver of a receivable (*Forderungsverzicht*), to the extent the waiver does not qualify as a hidden contribution, shall not be treated like a sale. Accordingly, losses suffered upon such bad debt loss or waiver shall not be tax-deductible. However, the Issuer takes the view that losses suffered for other reasons (e.g. because the Notes are linked to a reference value and such reference value decreases in value) should be tax-deductible, subject to certain ring-fencing rules. Investors should note that such view of the Issuer must not be understood as a guarantee that the tax authorities and/or courts will follow such view.

Pursuant to a further tax decree issued by the Federal Ministry of Finance dated 16 November 2010, where the Notes provide for instalment payments, such instalment payments shall always qualify as taxable savings income (*Einkünfte aus Kapitalvermögen*) in the sense of section 20 para 1 no 7 German Income Tax Act ("ITA"), unless the terms and conditions of the Notes provide explicit information regarding redemption or partial redemption during the term of the Notes and the contractual parties comply with these terms and conditions. It is further stated in the tax decree that, if, in the case of Notes with instalment payments, there is no final payment at maturity, the expiry of such Notes shall not qualify as a sale-like transaction, which means that any remaining acquisition costs could not be deducted for tax purposes. Similarly, any remaining acquisition costs of Notes with instalment payments shall not be tax-deductible if the Notes do not provide for a final payment or are terminated early without a redemption payment because the respective underlying has left the defined corridor or has broken certain barriers (e.g. in knock-out structures). Although this tax decree only refers to notes with instalment payments, it cannot be excluded that the tax authorities apply the above principles also to other kinds of full risk notes.

If the Notes provide for a physical delivery of bonds, shares, interests in funds, shares in exchange-traded-funds ("**ETF-shares**") or other interests, the Notes may qualify as convertible, exchangeable or similar instruments, subject to the relevant Terms and Conditions of the Notes (e. g. whether the Issuer or the investor has the right to opt for a physical delivery). In such a case, the sales proceeds from the Notes and the acquisition costs of the received securities may be deemed to be equal to the initial acquisition costs of the Notes (section 20 para 4a sentence 3 ITA) so that no taxable capital gains would be achieved due to the conversion. However, capital gains realised upon an on-sale of the received securities generally qualify as taxable income.

Against the background of a decision of the fiscal court of Hesse dated 22 October 2010 (8 V 1268/10), it cannot be excluded that Notes where the redemption amount and/or the interest is linked to a reference value qualify as contract for differences (*Terminingeschäfte*) in terms of section 20 para 2 sentence 1 no 3 ITA rather than as other capital receivables (*sonstige Kapitalforderungen*) in terms of section 20 para 1 no 7 ITA. In such a case, in principle also all income from the Notes including capital gains should be taxed as savings income. However, if the Notes expire worthless, any loss suffered by an investor might not be tax-deductible.

If instead of a cash-settlement at maturity of a Note, a physical delivery of bonds, shares, interests in funds or ETF-shares takes place, such delivery would be regarded as a taxable sale of the Note and the corresponding capital gain will be taxable.

If a Note qualifies as equity or equity-like from a German tax perspective, in addition to the rules set out above, income and deemed income may be subject to income taxation, trade tax and, even if interest on the Note is not paid out by a German Disbursing Agent, to withholding tax.

Income-related expenses

With regard to income from capital investments (Einkünfte aus Kapitalvermögen) held as a private asset (opposed to a business asset), only a lump-sum of EUR 801 will be deductible as income-related expenses (Werbungskosten) (EUR 1,602 in the case of jointly assessed husband and wife); the actual income-related expenses will not be deductible.

Tax rate

The taxable income from the Notes held as a private asset (opposed to a business asset) will be taxed, in principle, at a flat income tax rate of 25 % plus solidarity surcharge (*Solidaritätszuschlag*) thereon plus church tax, if applicable. Certain exemptions apply.

Non-Private Investors

Where the Notes are held as business assets by individuals, corporations or other entities, interest income, accrued interest and proceeds from the sale, transfer, exchange (other than convertible bonds) or redemption of Notes (the "**Deemed Interest**") and capital gains will be subject to income tax or corporate

income tax, as the case may be, plus solidarity surcharge thereon plus church tax (if applicable) and trade tax (if applicable). Depending on the specific terms of the respective Note, the annual increase in value of the Note, as calculated at the time of acquisition, must be taken into account *pro rata temporis* as interest income.

Losses incurred under a Note are ring-fenced and, thus, may only be tax-deductible to a limited extent.

1.2 Taxation of persons who are not tax resident in Germany

Persons (individuals and corporate entities) who are not tax resident in Germany are subject to income tax or corporate income tax (plus solidarity surcharge thereon plus church tax, if applicable) and, if applicable, trade tax in Germany with interest, Deemed Interest and Accrued Interest and capital gains if (i) the Notes are held as business assets of a German permanent establishment or a German permanent representative, (ii) proceeds received from the Notes fall otherwise into a category of income from German sources under section 49 German Income Tax Act or (iii) interest, Accrued Interest and Deemed Interest is paid upon physical presentation of the Notes in an over-the-counter transaction with a German credit institution or financial services institution, which term includes a German branch of a foreign credit institution or financial services institution but excludes a foreign branch of a German credit institution or financial services institution, or a German Issuer ("**German Disbursing Agent**").

With regard to income from capital investments (*Einkünfte aus Kapitalvermögen*; i.e. income not derived through a German permanent establishment), only a lump-sum of EUR 801 will deductible as income-related expenses (*Werbungskosten*) (EUR 1,602 in the case of jointly assessed husband and wife); the actual income-related expenses will not be deductible.

1.3 Withholding tax

A withholding tax on proceeds from capital investments (*Kapitalertragsteuer*) is imposed in Germany. Withholding tax will be levied if a Note is (i) kept or administered by a German debtor/issuer or in a domestic securities deposit account by a German Disbursing Agent and (ii) the proceeds are paid by the German Disbursing Agent. The term German Disbursing Agent will also comprise securities trading businesses (*Wertpapierhandelsunternehmen*) and securities trading banks (*Wertpapierhandelsbanken*).

The Issuer is, in general, not obliged to levy German withholding tax in respect of payment on the Notes. If, however, the relevant Issuer is, or is deemed to be resident in Germany for tax purposes and if, further, the Notes qualify as hybrid instruments (e. g. silent partnership, profit participating notes, jouissance rights (*Genussrechte*)), German withholding tax has to be imposed by the Issuer irrespective of whether or not the Notes are held in a custodial account maintained with a German Disbursing Agent.

Withholding tax will be levied at a flat withholding tax rate of 25 % plus solidarity surcharge at a rate of 5.5 % thereon plus church tax, if applicable. With regard to Private Investors, the withholding tax (including solidarity surcharge and church tax) is, in principle, a final tax and shall replace the Private Investor's income taxation by assessment. However, upon election and filing of an annual income tax return, the German Private Investor's income derived from interest payments, including Accrued interest, and Deemed Interest can be taxed at regular individual tax rates if this results in a lower income tax burden. The tax withheld at source will then be credited against the income tax liability assessed or, if in excess of such liability, refunded. If no tax is withheld, the Private Investor is still obliged to file a tax return. With regard to Non-Private Investors, the withholding tax (including solidarity surcharge) is still an advance payment on the income tax liability if the recipient of the interest payment is subject to German income taxation by assessment, which may not be the case for non-German resident investors.

Tax base

In the case of interest and Accrued Interest, withholding tax will be levied on the interest / Accrued Interest amount.

As regards Deemed Interest and capital gains from the sale, transfer or redemption of Notes, withholding

tax will be levied on an amount equal to the difference between the issue or purchase price of the Note and the redemption amount or sales proceeds if the Investor has kept the Note in a custodial account since the time of issuance or acquisition respectively. Otherwise, withholding tax is applied to 30 % of the amounts paid in partial or final redemption of the Note or the proceeds from the sale of the Note.

Withholding exemption certificate and certificate of non-assessment

In general, no withholding tax will be levied if the Investor is a Private Investor who filed a withholding exemption certificate (*Freistellungsauftrag*) with the German Disbursing Agent, but only to the extent the interest income and other taxable income from capital investments does not exceed the maximum exemption amount shown on the withholding exemption certificate. Similarly, no withholding tax will be deducted if the Investor has submitted to the German Disbursing Agent a certificate of non-assessment (*Nichtveranlagungsbescheinigung*) issued by the relevant local tax office.

Non-German residents

Persons who are not resident in Germany are, in principle, only subject to German withholding tax if (a), according to German income tax law, the proceeds received from the Notes fall into a category of income from German sources under section 49 German Income tax Act such as income effectively connected with a German trade or business or (b) the proceeds are paid in an over-the-counter transaction upon presentation of Notes. If applicable, double taxation treaties may provide for nil or a reduced tax on the German source of income of the non-German resident.

1.4 Application of the provisions of the German Investment Tax Act

The application of the German Investment Tax Act (*Investmentsteuergesetz*) requires the holding of an interest in an investment fund (*Investmentanteile*).

According to a tax decree issued by the Federal Ministry of Finance dated 18 August 2009 (BMF, IV C 1 – S 1980 – 1/08/10019) concerning the application of the German Investment Tax Act in the case of foreign investment funds, an interest requires that there exists a direct legal relationship between the holder and the legal entity owning the foreign fund assets which, however, does not need to be a membership-like relationship.

According to this tax decree, a security being issued by a third party and only reflecting the economic results of a foreign investment fund or several foreign investment funds will not be regarded as a unit in a foreign investment fund.

In certain cases, e.g. if the Notes provide for a physical delivery of interests in funds or shares in exchange-traded-funds/ETF-shares, the Investment Tax Act may apply to the Notes, in which case investors may be subject to tax with fictitious profits. Furthermore, following the physical delivery of interests in entities which qualify as foreign investment funds, the holder of such instruments will be subject to the provisions of the Investment Tax Act and may be subject to tax with fictitious profits.

1.5 Inheritance and Gift Tax

Inheritance or gift taxes with respect to any Note will, in principle, arise under German law if, in the case of inheritance tax, either the decedent or the beneficiary or, in the case of gift tax, either the donor or the donee is a resident of a Germany or if such Note is attributable to a German trade or business for which a permanent establishment is maintained or a permanent representative has been appointed. In addition, certain German expatriates will be subject to inheritance and gift tax.

2. The Netherlands

The following is intended as general information only and it does not purport to present any

comprehensive or complete description of all aspects of Dutch tax law which could be of relevance to a holder of Notes (a “**Noteholder**”). For Dutch tax purposes, a Noteholder may include an individual or entity who does not have the legal title of the Notes, but to whom nevertheless the Notes are attributed based either on such individual or entity owning a beneficial interest in the Notes or based on specific statutory provisions, including statutory provisions pursuant to which Notes are attributed to an individual who is, or who has directly or indirectly inherited from a person who was, the settlor, grantor or similar originator of a trust, foundation or similar entity that holds the Notes. Prospective Noteholders should therefore consult their tax adviser regarding the tax consequences of any purchase, ownership or disposal of Notes.

The following summary is based on the Dutch tax law as applied and interpreted by Dutch tax courts and as published and in effect on the date hereof, without prejudice to any amendments introduced at a later date and implemented with or without retroactive effect.

Deutsche Bahn Finance (the “**Issuer**”) has been advised that under Dutch tax law the following treatment will apply to the Notes.

For the purpose of this paragraph, “**Dutch Taxes**” shall mean taxes of whatever nature levied by or on behalf of the Netherlands or any of its subdivisions or taxing authorities.

Any reference hereafter made to a treaty for the avoidance of double taxation concluded by the Netherlands, includes the Tax Regulation for the Kingdom of the Netherlands (*Belastingregeling voor het Koninkrijk*) and the Agreement between the Taipei Representative Office in the Netherlands and the Netherlands Trade and Investment Office in Taipei for the avoidance of double taxation.

2.1 Withholding Tax

A Noteholder is not subject to Dutch withholding tax with respect to payments made under the Note.

2.2 Individual and Corporate Income Tax

This section does not purport to describe the possible Dutch tax considerations or consequences that may be relevant to a Noteholder who is an individual and for whom the income or capital gains derived from the Notes are attributable to employment activities, the income from which is taxable in the Netherlands.

A Noteholder will not be subject to any Dutch Taxes on any payment made to the Noteholder under the Notes or on any capital gain made by the Noteholder from the disposal, or deemed disposal, or redemption of, the Notes, except if:

- (i) the Noteholder is, or is deemed to be, resident in the Netherlands for Dutch (corporate) income tax purposes;
- (ii) the Noteholder is an individual and has opted to be treated as if resident in the Netherlands for Dutch income tax purposes;
- (iii) the Noteholder derives profits from an enterprise, whether as entrepreneur (*ondernemer*) or pursuant to a co-entitlement to the net worth of such enterprise other than as an entrepreneur or a shareholder, which enterprise is, in whole or in part, carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) in the Netherlands to which the Notes are attributable;
- (iv) the Noteholder is an individual and derives benefits from miscellaneous activities (*overige werkzaamheden*) carried out in the Netherlands in respect of the Notes, including (without limitation) activities which are beyond the scope of active portfolio investment activities;
- (v) the Noteholder is not an individual and is entitled to a share in the profits of an enterprise or a co-entitlement to the net worth of an enterprise, which is effectively managed in the Netherlands other than by way of the holding of securities and to which enterprise the Notes are attributable;
- (vi) the Noteholder is an individual and is entitled to a share in the profits of an enterprise, which is effectively managed in the Netherlands other than by way of securities and to which enterprise the Notes are attributable.

2.3 Gift tax or inheritance tax

No Dutch gift tax or inheritance tax is due in respect of any gift of Notes by, or inheritance of Notes on the death of, a Noteholder, except if:

- (i) at the time of the gift or death of the Noteholder, the Noteholder is resident, or is deemed to be resident, in the Netherlands; or
- (ii) the Noteholder passes away within 180 days after the date of the gift of the Notes and is not, or not deemed to be, at the time of the gift, but is, or deemed to be, at the time of his death, resident in the Netherlands; or
- (iii) the gift of the Notes is made under a condition precedent and the Noteholder is resident, or is deemed to be resident, in the Netherlands at the time the condition is fulfilled.

For purposes of Dutch gift or inheritance tax, an individual who is of Dutch nationality will be deemed to be resident in the Netherlands if he has been resident in the Netherlands at any time during the ten years preceding the date of the gift or his death.

For purposes of Dutch gift tax, any individual, irrespective of his nationality, will be deemed to be resident in the Netherlands if he has been resident in the Netherlands at any time during the 12 months preceding the date of the gift.

2.4 Other taxes

No other Dutch Taxes, including turnover tax and taxes of a documentary nature such as capital tax, stamp or registration tax or duty, are payable by or on behalf of a Noteholder by reason only of the issue, acquisition or transfer of the Notes.

2.5 Residency

Subject to the exceptions above, a Noteholder will not become resident, or deemed resident, in the Netherlands for tax purposes, or become subject to Dutch Taxes, by reason only of the Issuer's performance, or the Noteholder's acquisition (by way of issue or transfer to it), holding and/or disposal of the Notes.

3. Luxembourg

The information contained within this section is limited to withholding taxation issues, and prospective investors should not apply any information set out below to other areas, including (but not limited to) the legality of transactions involving the Notes.

Withholding Tax

All payments of interest and principal by the relevant Issuer in the context of the holding, disposal, redemption or repurchase of the Notes can be made free and clear of any withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein, in accordance with the applicable Luxembourg law, subject however to:

- (i) the application of the Luxembourg laws of 21 June 2005 implementing the European Union Savings Directive (Council Directive 2003/48/EC) and several agreements concluded with certain dependent or associated territories and providing for the possible application of a withholding tax (20 % from 1 July 2008 to 30 June 2011 and 35% from 1 July 2011) on interest paid to certain non Luxembourg resident investors (individuals and certain types of entities called "residual entities") in the event of the relevant Issuer appointing a paying agent in Luxembourg within the meaning of the above-mentioned directive (see section "**EU Savings Tax Directive**" below) or agreements;

- (ii) the application as regards Luxembourg resident individuals of the Luxembourg law of 23 December 2005 which has introduced a 10 % withholding tax on savings income (i. e. with certain exemptions, savings income within the meaning of the Luxembourg laws of 21 June 2005 implementing the European Union Savings Directive (Council Directive 2003/48/EC)). This law applies to savings income accrued as from 1 July 2005 and paid as from 1 January 2006.

Pursuant to the law of 23 December 2005 as amended by the law of 17 July 2008, Luxembourg resident individuals can opt to self declare and pay a 10 % levy on interest payments made by paying agents located in a Member State of the European Union other than Luxembourg, a Member State of the European Economic Area or in a State or territory which has concluded an agreement directly relating to the EU Savings Directive (Council Directive 2003/48/EC) on the taxation of savings income.

The 10 per cent. withholding tax as described above or the 10 % levy are final when Luxembourg resident individuals are acting in the context of the management of their private wealth.

Responsibility for the withholding of tax in application of the above-mentioned Luxembourg laws of 21 June 2005 and 23 December 2005 is assumed by the Luxembourg paying agent within the meaning of these laws and not by the relevant Issuer.

4. EU Savings Tax Directive

On 3 June 2003, the EU Council of Economic and Finance Ministers adopted a directive regarding the taxation of savings income (the “**EU Savings Directive**”) effective from 1 July 2005. Under the directive, each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income (within the meaning of the EU Savings Directive) paid by a paying agent within the meaning of the EU Savings Directive, to an individual resident or certain types of entities called „residual entities“, within the meaning of the EU Savings Directive (the “**Residuals Entities**”), established in that other Member State (or certain dependent or associated territories). According to Article 10 of the EU Savings Directive for a transitional period, however, Austria and Luxembourg are permitted to apply an optional information reporting system whereby if a beneficial owner, within the meaning of the EU Savings Directive, does not comply with one of two procedures for information reporting, the relevant Member State will levy a withholding tax on payments to such beneficial owner. The tax rate of the withholding is of 20 % from 1 July 2008 to 30 June 2011 and 35 % as from 1 July 2011. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

Also with effect from 1 July 2005, a number of non-EU countries (Switzerland, Andorra, Liechtenstein, Monaco and San Marino) and certain dependent and associated territories (Jersey, Guernsey, Isle of Man, Montserrat, British Virgin Islands, Netherlands Antilles and Aruba) have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a paying agent (within the meaning of the EU Savings Directive) within its jurisdiction to, or collected by such a paying agent for, an individual resident or a Residual Entity established in a Member State. In addition, Luxembourg has entered into reciprocal provision of information or transitional withholding arrangements with of those dependent or associated territories in relation to payments made by a paying agent (within the meaning of the EU Savings Directive) in Luxembourg to, or collected by such a paying agent for, an individual resident or a Residual Entity established in one of those territories.

On 13 November 2008 the European Commission published a proposal for amendments to the EU Savings Directive, which included a number of suggested changes. The proposal has been approved by the European Parliament and is under discussion by the European Council. If implemented, the changes may amend or broaden the scope of the requirements described above. Investors who are in any doubt as to their position should consult their professional advisers.

GENERAL INFORMATION

Other than with respect to the admission of the Notes to listing, trading and/ or quotation by the relevant listing authorities, stock exchanges and/or quotation systems, no action has been or will be taken in any jurisdiction by either Issuer that would permit a public offering of the Notes, or possession or distribution of any offering material in relation thereto, in any country or jurisdiction where action for that purpose is required.

With regard to each Tranche, it is to be complied with any other additional restrictions as shall be agreed and set out in the Final Terms.

2. Public Offer Selling Restriction Under the Prospectus Directive

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), each Dealer appointed under the Programme will be required to represent, warrant and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”) it has not made and will not make an offer of Notes which are the subject of the offering contemplated by the Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

provided that no such offer of Notes referred to in (b) to (d) above shall require an Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus

pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “**offer of Notes to the public**” in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression “**Prospectus Directive**” means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in each Relevant Member State and the expression “**2010 PD Amending Directive**” means Directive 2010/73/EU.

Furthermore, where the Notes are placed solely with qualified investors and are then systematically resold on the secondary market at any time in the 12 months following such placing, purchasers of Notes who are acting outside of the course of their business or profession may in certain circumstances be entitled to declare such purchase void and, in addition, to claim damages from any authorised person at whose premises the Notes were purchased, unless an exemption provided for under Decree No. 58 applies.

offering or selling such Notes during the restricted period, such Dealer either (x) has repeated and confirmed the agreements contained in sub-clauses (i), (ii) and (iii) on such affiliate's behalf or (y) has agreed that it will obtain from such affiliate for the benefit of the Issuer the agreements contained in sub-clauses (i), (ii) and (iii).

Terms used in paragraph 6 (e) above have the meanings given to them by the U. S. Internal Revenue Code and regulations thereunder, including the D Rules.

- (f) Each issue of index-, commodity- or currency-linked Notes shall be subject to such additional U.
