sinks & taps

Stainless Steel

Designed to blend effortlessly into the heart of the modern family kitchen, a closer inspection of a Rangemaster stainless steel sink also reveals a real eye for design. Stain resistant, hard wearing and easy to clean, of course. Yet also with a stylish, seam-free appearance and inner strength, resulting from advanced manufacturing techniques.

Granite 20 YEAR WARRANTY

A Rangemaster sink will always be borne of a designer's expertise. Manufactured from our new Neo-rock material, which is highly scratch resistant and resilient to high temperatures. Neo-rock incorporates 70% quartz particles adding strength whilst maintaining a natural look and feel of granite. In addition the Neo-rock material is resistant to U.V damage through sunlight therefore retaining its colour over time.

**VALVE
CARTRIDGES**

All Abode cartridge designs are tested for over 200,000 cycles before we will pass them for use within our taps. Why? Well this means that under normal use conditions your tap valves have proven that they will work for many years to come. The kitchen tap is the most used appliance in the kitchen, so valve quality assurance is essential.

All mixers use spout aerators or flow straighteners to add bubbles to the water leaving your tap. These innovations in fluid technology keep your water flow in a controlled and distinctive pattern and eliminates splash back. Simple ideas, refreshing benefits.

**FINISHING
QUALITY**

We use traditional artisan hand polishing techniques which ensure perfect blemish free surfaces and crisp edges. Our hand treatment does not end there – we use hand plating for Chrome, Nickel and Bronze plating. Yes we know it is more expensive to do it this way, but it means that the finish is richer, the plating deeper and ultimately more durable.
