**TECHNICAL SUPPLIES FOR THE MARITIME AND INDUSTRIAL FIELD  
COMPANY ESTABLISHED IN 1880**

## WENCON®

### *Epoxy products for rebuilding and protection*

Two component expressly designed for the repair of worn or damaged metal parts , can be used on **any metal** with a simple **mixing ratio of 1 : 1**, which makes it easy to use and optimizes the intervention of maintenance in terms of product consumption and downtime.

They are used for maintenance of maritime engineering , shipbuilding , mining , petrochemical industry for the repair of installations such as pumps, pipes , metal rails , worn surfaces in general or in the preventive maintenance of parts subject to corrosion .

**WENCON  
CERAMIC  
CREAM**

IMPA 812592

Wencon Ceramic Cream has a high abrasion resistance, making it suitable for applications on propeller nozzles, rudders, thruster tunnels and housings. In addition, the product also offer high temperature resistance, which makes it ideal for applications on gas scrubbers, condensers and end-covers.

**WENCON  
CERAMIC  
COATING**

IMPA 812593/4

Typical applications are coating of surfaces rebuild after deterioration and protection against wear, corrosion and bi-metallic corrosions. Wencon Ceramic Coating has a high abrasion resistance, making it suitable for applications on propeller nozzles, rudders, thruster tunnels and housings. In addition, the product also offer high temperature resistance, which makes it ideal for applications on gas scrubbers, condensers and end-covers.

## **WENCON CREAM**

ISSA 75.553.20  
IMPA 812335

Wencon Cream is a basic two-component, epoxy compound with a wide range of applications for repair and rebuilding of worn, damaged, cracked and corroded metal parts.

## **WENCON COATING**

ISSA 75.553.10/11  
IMPA 812337/8

Wencon Coating is a two-component, liquid epoxy coating suitable for a wide range of applications. It provides a smooth non porous surface, which is resistant to bi-metallic corrosion, light chemical aggression, corrosion and erosion as well as impingement.

## **WENCON UW CREAM**

ISSA 75.553.91  
IMPA 812334

Wencon UW Cream is a two component cream, to be applied on wet surfaces or under water. The UW Cream is excellent for filling up holes, dents and rebuilding of surfaces which, due to high humidity, has to be done in wet conditions.

## **WENCON UW COATING**

ISSA 75.553.192  
IMPA 812336

Wencon UW Coating is a two component product, to be applied on wet surfaces or under water. The UW Coating is ideal for repair of ballast- and cooling pipes, in connection with Wencon reinforcement tape. Excellent for repair jobs which, due to high humidity, have to be done in wet conditions.

## **WENCON HI TEMP COATING**

ISSA 75.553.12/13  
IMPA 812345/46

Typical applications are coating of surfaces rebuild after deterioration including repair of lining on inert gas systems, fresh water generators, hot pipes and heating coils, protection of tanks, pumps and valves against chemical and mechanical aggression, corrosion and bi-metallic corrosion.

## **WENCON RAPID**

ISSA 75.553.21/22  
IMPA 812347/43

Wencon Rapid is a fast curing two-component, epoxy compound with a wide range of applications for emergency repairs and maintenance.

## WENCON PIPE TAPE

ISSA 75.553.30/31  
IMPA 812344/48

Wencon Pipe Tape is a fast curing pipe repair bandage especially formulated to make quick and effective repairs of cracks, leaks, fractures, and corrosion porosity in piping carrying water, oil, steam, most gases and even solvents. Wencon Pipe Tape has good pressure, temperature and chemical resistance.

## WENCON EXHAUST REPAIR KIT

ISSA 75.553.25  
IMPA 812340

Wencon Exhaust Repair is a one-component steel cold weld product that can be used to repair cracks and holes in equipment exposed to temperatures up to 1300° C (2400°F)

## WENCON UW PUTTY

Wencon UW Putty is a two-component compound, to be applied on wet surfaces or under water. The UW Putty is excellent for filling up holes, dents and rebuilding of surfaces which, due to high humidity, have to be done in wet conditions. Typical applications are corroded hulls and all underwater parts of vessels and structures, tanks, pipes, flange faces, etc

**Wencon stock points are available all over the world for fast delivery of orders to local agent**

## WENCON KIT

A special kit is available for all your needs, depending on the operation involved, size and age of the vessel. Covers most aspects of emergency repairs and long lasting maintenance.

New versions especially designed for **Docking / Tanker / Dry Bulk** are now available.

*Special fixation tools are also available*

**WENCON®**  
- repair solutions for you
