Ultrafan

Features

By combining steam cooking with a hot air function, you can delight your guest with healthy and tasty dishes that are juicy inside under a wonderful crust

Get the repertoire of a chef, without that hard work! This oven's touch screen with white display takes you intuitively through the menus straight to the right settings

- Steam cleaning programme leaves you with a professionally clean oven

- Extra large 73 litre cavity and even cooking on 5 levels means that you can cook more at the same time

- Ultra Fan Plus - XL fan with new air-guide design for lower temperatures and quicker cooking times

- Velvet Closing™ soft close door that closes gently every time

- Food probe so you know as soon as your dish is ready

- Front lamp that illuminates the entire cavity without dazzling

- Easy-insert shelf racks for quick and easy shelf or tray replacement

- 10% more energy-efficient than A-class ovens

- Additional telescopic runner

- Removable doors and glass panes for easy cleaning

Built-in Fridge

ERG3093AOW

Large capacity in-column fridge with NaturaFresh compartments

Features

The dedicated NaturaFresh™ compartments cool down to a temperature that's close to 0°C – the ideal and safest temperature for storing meat and fish. The three drawers preserve the natural freshness of meat and fish for up to three times longer. As these delicate foods are stored separately, you are also preserving and protecting their flavours and textures

- ShoppingFunction quickly cools down your fridge in preparation to quickly and safely cool down your weekly shopping
- This refrigerator features a natural charcoal TasteGuard® filter, which ensures that your fridge remains free of unwanted aromas prevents the transfer of smells such strong smelling cheese
- Check out the contents of your fridge using premium LED lighting technology. This energy-saving lighting system gives you excellent visibility
- Visible and audible TempAlert to warn when the temperature rises
- The full width covered dairy compartment is ideal for butter and cheese as these foods can then be served straight from the fridge
- Achieve flexible food storage with the inclusion of 3 full width and 2 half depth shelves
- The innovative half-width shelf in the door can slide from left to right, giving you more options when storing your food
- The A+ energy rating means that this model is highly efficient, ensuring low running costs

In-column 70:30 split SpacePlus fridge freezer with FreshZone

Features

With this SpacePlus™ model, you can make the most of the standard kitchen unit dimension. The clever space optimisation allows you to have the largest internal capacity to fit all your shopping by using the spare space at the top of the cupboard

With this fridge freezer, you will make savings for yourself – in terms of time and money! Its FrostFree system saves time defrosting your freezer, while its energy efficient technology has earned an A+ rating for energy use, saving you money

The Intelligent FreeStore® system automatically evens out the temperature and humidity throughout the fridge so that you are free to store any item of food anywhere you like in your fridge

Every professional chef will tell you, using fresh ingredients is the key secret to fabulous cooking. That's why this refrigerator has a FreshZone, a low-temperature compartment that's 15% colder than the rest of the fridge. Especially designed to store meat and fish, they will stay naturally fresh for twice as long

- The drawer with CrispFresh™ humidity control keeps all your fruit and vegetables sweet and crisp for far longer
- Ensure that you have precise temperature and function control with the LCD Touch Control electronic display
- ShoppingFunction quickly cools down your fridge in preparation to quickly and safely cool down your weekly shopping
- Check out the contents of your fridge using premium LED lighting technology
- Thanks to their new design, the 3 full width and 2 half depth glass shelves give you extra width and depth when packing the fridge
- The FastFreeze function freezes fresh foods faster so vitamins, texture, flavour and all healthy qualities are preserved better
- Visual and acoustic high temperature alarm
- Maximise freezer storage space with the 3 full width drawers
- The full width covered dairy compartment is ideal for butter and cheese

Electrolux launch new **Freestanding Range**

Electrolux is the only company to provide complete, high-performig, kitchen and laundry solutions for the professional market. The new Electrolux Inspiration range of laundry has adapted the very best features of our professional machines for the home, creating highly efficient systems that guarantee excellent results, productivity, hygiene and low operating costs.

Electrolux Professional laundry systems use steam to refresh and de-wrinkle delicate items and now our new domestic range has adapted this steam technology for the home. The steam function is so effective that it produces some garments ready to wear straight from the drum! This allows you to skip- or at least half- the time consuming ironing process for some of your clothes. What's more, steam technology is no longer reserved for the lucky elite as our new laundry range incorporates steam in every model, regardless of price.

The new Electrolux freestanding laundry range is one of the most energy efficient ranges of its 10kg capacity on the market. Washing machines within the range are rated from A+++ to the top of the range EWF1408WDL model (voted 3rd in **The Independent's** top 10 washing machines Oct 2012), which is rated A+++-20%. The AutoOff feature also ensures that the washing machine will consume zero energy when the cycle is finished, just as if it was switched off.

SteamSystem washing machines refresh and dewrinkle with steam

EcoCare tumble dryers with heatpump technology

RealLife® dishwashers with XtraPower and FlexiSpray arm coverage

Freestanding Electric Cooker

EKC607601

Stunning electric freestanding cooker with touch control operation

Features

Unique touch control for both the hob and oven. With precision temperature control at your fingertips and a stunning appearance, this freestanding cooker will look sleek in your kitchen

This cooker's huge oven capacity gives you the freedom to be truly generous when serving. In fact, you can cook so much at once, that everyone gets a second helping!

- XL fan design for even results wherever you place your dish
- Experiment like a professional chef using this multifunction oven. Select the optimum function for the dish from roasting to baking to grilling to fan cooking
- Ceramic hob with multiple zones which is easy to clean thanks to its completely flat surface
- So dinner is always ready when you want it, this interface with red LED display enables you to select the cooking end-time and duration. It has retractable knobs and push buttons for access to all settings
- Main oven 10% more energy-efficient than an A-class oven, top oven A rated
- Catalytic liners in both ovens - an aid to cleaning
- Removeable glass panes for easy cleaning
