

PRODUCT GUIDE

2021

HELLO WELCOME

'I take great pleasure in presenting to you, our new 2021 Product Guide. I'm particularly excited about this latest edition, as we've spent the last twelve months working hard to deliver you a refreshing new format. I have no doubt you will share my enthusiasm for our new look and feel.

Over the past year, our industry has been forced to overcome numerous challenges, to adapt on all levels to this "new normal" and the consequences we have all faced together were widespread. For those of us still standing, there is light at the end of the tunnel and there always remains cause to be excited about the future. No matter what, people love a holiday, so as always the Southwest stands ready to welcome a flood of hungry holiday makers who will all need feeding, and we stand ready to support you.

Although we have not seen the usual level of product development from our suppliers this past year, Caterfood's' purchasing teams have made it their personal mission to resource this year's best culinary innovations and we are all eager to share with you those fantastic new products/ideas.

For example, we now have dedicated sections for vegan and gluten free products due to the obvious growing trends over the past few years. Consumers still push more towards these products for lifestyle choices as well as health reasons and we pride ourselves on being able to provide you with the means of catering to any requirement. We also have a full range of dysphasia meals aimed at the care sector, along with a whole host of other new products.

Please enjoy this year's selection. I am excited to see what this year brings as much as you and I wish you a very successful 2021.'

HOW WE ARE DIFFERENT

We have a dedicated field sales force backed up by our friendly and efficient office team, together with a professional group of drivers, pickers and warehouse staff. We pride ourselves on the level of customer service and quality we are able to offer. Most of all, we have a personal touch and a genuine understanding of your business. This is how we do it:

SERVICE

Everyone talks about “customer service”, “family values” and “going the extra mile” but these words are meaningless marketing jargon unless you can back it up with something exemplary.

Your Area Sales Manager can assist in any way that you require. From helping plan and budget menus, to troubleshooting on your behalf. They ensure that you get the right service – from day one.

Ordering is extremely easy, by calling our telesales department and placing your order with our professional telesales operators whom have first-hand knowledge of your account.

We also have trained chefs on staff who can answer any technical enquiries or offer insight on our new products. We can also schedule a call with you on set days and times, so you don't have to remember to call us – we'll call you. This means no missed orders and no shortages in the kitchen.

In foodservice, it's easy to stay with the “tried and tested”; items that you know will sell well, but that can be a dull way to do business. Food is about innovation, trying new flavours and offering seasonal combinations. As a reflection of this, we carry various lines of products offering not only a variety of traditional entrées; but unusual and on-trend foods and ingredients. All of which are sourced from new and upcoming brands who we believe to be of excellent quality and “The Next Big Thing”.

Most importantly, we search out these new food-stuffs and secure them at competitive prices to pass along the savings to you. Just because it's new and exciting doesn't mean it has to be expensive.

ONE SIZE FITS ALL?

It doesn't always work that way. Businesses are individual and their needs vary widely. From a restaurant that seats 200, to a café with just 10 tables, we understand that a certain amount of flexibility is required.

Some foodservice providers will only sell full cases of ambient and frozen products meaning you're stuck with far more than you currently require and are obliged to store the excess on your premises. In response to this, we offer split case products.

SALES

Our telesales department is staffed by professionals familiar with your business. Your telesales agent is dedicated to your specific account, which means that you will generally speak to the same person about your order and requirements.

After the order is placed, your items are picked in our warehouse overnight for delivery the next day. Throughout the process, the items are checked for accuracy twice before leaving our depot and again whilst being unloaded off the delivery truck. In the unlikely event of an error or damage, we will do our best to put it right as quickly as possible.

We operate a modern fleet of purpose built, multi-temperature vehicles ensuring your order reaches you in perfect condition. These are just some of the ways we're different from the competition.

HALLETT'S THE BAKERS

Hallett's the Bakers is the leading supplier of craft baked bread and rolls in South Devon.

"In December 1993, Hallett's the Bakers opened the doors of their new craft bakery business in Winner Street, Paignton to serve the local community with traditional craft baked goods. Since then the customer base has steadily grown and now provides a wholesale service to schools, hospitals, garden centres, farm shops and retail shops throughout Torbay, South Hams, and Exeter. Our teams of bakers make bread and rolls in our bakery every day.

Once baked these items are cooled and packed overnight and delivered next morning. With over 100 lines to produce from order to delivery in just 12 hours there is little room for error. We strive to offer our customers good honest food, traditionally made and using natural ingredients colour and flavourings wherever we can."
