HENRY F. MICHELL
President & CEO

"It is not the strongest or the most intelligent who will survive, but those who can best manage change..." – Charles Darwin

Dear Customer,

For 133 years, Michell's has been providing world class vendors, products, and genetics to our customers. The strong relationships we have forged with our industry breeders and producers are true partnerships that we honor and look forward to growing in the many years to come. The horticulture industry has shown, more than ever these past two years, that we provide peace, beauty, and joy in challenging times.

This coming year Michell's is introducing some exciting new changes to our company! We are launching a new Michell's logo reflecting our company's history and more importantly our future as 'America's Wholesale Horticultural Distributor'. We will also be debuting a newly reengineered website that will effectively grow our online presence and engage new audiences.

Michell's is very excited to announce our new relationship with Bioline AgroScience. As our customers are under increasing pressure to become chemical free, we are providing a cutting-edge solution in pest control. Bioline produces and markets a wide range of invertebrate biological control organisms, providing growers the highest quality products and services to help maintain quality crops while minimizing the use of dangerous chemicals.

For the 2023 season our vendor partners continue to develop and bring strong genetics to the market. We are pleased to offer the new Zinnia Zydeco series from Syngenta. From mid spring to fall, Zydeco has the largest fully double flower in its class. Its excellent disease resistance, combined with heat and drought tolerance, and four striking color choices, make Zinnia Zydeco a great addition to your assortment this coming spring.

From all of us at Michell's, we thank you for trusting in us to serve your needs. We are proud to be America's, and your, Wholesale Horticultural Distributor of choice, now and into the future.

Sincerely,

Rick Michell
President & CEO

Flowering Vegetative Annuals

UNROOTED | ROOTED CUTTINGS

Calibrachoa Calipetite Red

Begonia Elatior BK Frivola Magic

Begonia Dreams Glory Bicolor

Begonia Spacestar Avior®

Begonia Spacestar Maia®

BEGONIA *Elatior BK*

Collection – A very floriferous begonia with a long flowering period. Elatior has a nice, round shape and is an excellent outdoor performer. This variety also has excellent shelf life. 15 colors in series. *Notable color: Frivola Magic.*

BEGONIA *Glory*

NEW IN 2022 Bicolor – New Glory Bicolor is one of our absolute favorites. The Glory Bicolor produces a round shape the plant is fully covered with countless blooms. A real eye catcher because of its yellow and pink flower, just like a marshmallow. It will look great in containers and in 5" pots.

BEGONIA *Spacestar*

Series – A terrific versatile plant, great for both indoor and outdoor use and grows in the sun or shade. Spacestars has a quick crop time, which is shorter when the days are longer. It's possible to grow them in cooler temperatures too. Plant vigor will match the chosen pot size. *Colors: Avior®, and Maia®.*

CELOSIA *Kelos Lunar*

NEW IN 2022 Series – Unique genetics! Vibrant cristata blooms. Long shelf life with continuous flowering, excellent for early spring through fall programs. Performs well in all climates, can also be used as an indoor plant. Daylength neutral, allowing for early season through season extender production, for both indoor and outdoor use. They work great in quarts, gallons or combination containers, and consumers love the unique bloom shapes and soft velvety textures. Excited to add this third family to their Kelos Celosia line. *New colors: Magenta, and Yellow.*

CELOSIA KELOS LUNAR

Magenta

Yellow

DAHLIA *LaBella® Grande*

Series – This is an easy branching, uniform series, ideal for 6-7" pots in an early spring to late summer crop. Great garden and patio performance. Lots of beautiful flowers in a variety of unique, fun colors. *Colors: Coral, Fun Red White, Fun Sunrise, and Pink.*

Dahlia LaBella® Grande Coral

Dahlia LaBella® Grande Fun Red White

DAHLIA *LaBella® Medio*

NEW IN 2022 Colors – A wonderfully uniform series with easy branching and excellent outdoor performance. LaBella® Medio is easy to mix and match with a great variety of eye catching colors. Ideal for 5-6" pot production. Fun Pink Flame has a beautiful blend of pink and white bicolor blooms. Yellow Blush has a vivid yellow and white bicolor bloom with a very stable pattern that contrasts beautifully with the foliage. *New in 2022: Fun Pink Flame and Yellow Blush.*

Dahlia LaBella® Grande Fun Sunrise

Dahlia LaBella® Grande Pink

FUCHSIA *Bella Fuchsia®*

NEW IN 2022 Maria – Bella Fuchsias® have revolutionized the class for growers to be able to easily produce full bodied plants with ultimate flower power, very early in the season. With seven trailing varieties and six mounding types, there is a full program for all product sizes. These varieties are naturally self-branching and daylength neutral. Suitable for quart pots to hanging basket. Flowers earlier than the traditional varieties.

KALANCHOE *Bongo Variegated*

Stand-Alone – This gorgeous succulent has unique variegated foliage and is perfect for indoor use and succulent garden bowls. Kalanchoe Bongo can be produced year-round and has no short-day treatment requirement. Good for Qt-6 inch production.

OSTEOSPERMUM *Sunny Fill*

NEW IN 2022 Variety – Sunny Jill requires little to no PGRs. This variety has vigorous branching, but a controlled habit for a beautiful result. Once open, the bloom colors change daily from white to pink as they age, giving the consumer a fun and multi-toned plant. This is an exciting addition for early spring sales.

PETUNIA *Tea*

Series – Developed for the ultimate garden performance and outstanding weather tolerance. Growers can take advantage of a full season of sales opportunities with early flowering. The vigorous mounding habit is easily controlled and provides maximum value to the consumer.

NEW IN 2022 Indigo Vein – The newest addition is a stunner with varying shades of purple, from soft lavender to deep dark eggplant with showy veining prominent on all blooms. The vein types in the Tea line are great eye-catchers. **Additional veined colors: Blue Vein, Magenta Vein, and Purple Vein.**

Kalanchoe Bongo Variegated

Osteospermum Sunny Jill

Anderline Tube

Amblyline Sachet on Stick

AMBLYLINE

Targets a wide range of thrips species. Amblyline disperses quickly throughout crops and protects them. Amblyseius mites can also feed on pollen which allows for effective, long term control. Mites are not susceptible to diapause.

ANDERLINE

Successful mite control for greenhouses, outdoor ornamentals, vegetables and fruit. Protect your crops against a variety of mites. Long lasting sachets maintain protection, ideal for fruit trees and soft fruit crops, as well as deciduous hardy ornamentals. Tolerant of temperatures 43°F - 104°F. Available as: Bugline, Gemini sachet, mini sachet and loose material.

CALIFORNILINE

The preventive treatment for spider mite control for crops growing in higher temperatures. Californiline is active in high temperature and low humidity conditions. It is a generalist predator which can also feed on pollen and other arthropods. This type persists longer in the crop than some other spider mite predators. Available as: sachets, tubes, and loose material.

Californiline Hooked Sachet

Hypoline Tube

HYPOLINE

The predatory mite that controls Sciarid Flies, Shore Flies, and Thrips larvae. Hypoline tolerates variable soil moisture levels, is suitable for all covered crops and is simple and safe to use. Exhibits longevity in the growing environment even in the absence of food for up to 70 days. Available in: tubes, and bulk bags.

ORILINE I

The key solution to tackle Western Flower Thrips in a wide range of greenhouse crops. Oriline is a generalist predator, it will also feed on mites, moth eggs and other pests. It establishes well on pollen-rich crops and is the only biological control agent that kills adult thrips. Optimal buckwheat and vermiculite carrier in ventilated bottle. Available in 250ml bottles.

Oriline I Bottle

Phytoline Bottle

PHYTOLINE

The specialist predator of the two-spotted spider mite resistant to acaricides. Effective at a wide range of temperatures. Vermiculite carrier moistened for optimal condition. Available in: 500 ml shaker bottles, 125ml bottle, 250 ml bottle, and 30 ml Vial hot-spot packs.

STARSKII®

Effective control of thrips and whitefly in multiple crops and conditions. Production is optimized to produce healthy females which have a high fecundity from the first day of release. Excellent and consistent populations throughout the growing cycle. Available in: Sachets CRS, mini sachets, Gemini sachets, Sachets-On-a-Stick, Bugline, and as bulk material.

TRICHOLINE TB

The proven solution against lepidopteran pests in outside and protected crops. Helps in preventing fungus diseases by avoiding damages in the plant. Convenient patented dispensers made of biodegradable cardboard, available in packages of 25 or 50 dispensers. 100% natural with zero residues.

Products made in USA

Alternanthera Fancifillers® Choco Chili

ALTERNANTHERA *Fancifillers*® HYBRIDA

Choco Chili – The perfect combination companion! Choco Chili combines well with practically everything for eye-catching summer mixes. This heat tolerant variety has foliage with deep eggplant purple on the top of the leaves and bright ruby on the bottom, giving it an exciting pop of color. Vigorous, naturally compact and upright, Choco Chili has outstanding branching and a spreading habit that allows the plant to cascade over container edges. Fantastic garden plants in the south!

BUDDLEJA *Summerbird*®

Series – This truly dwarf and compact type of butterfly bush produces huge, stunning blooms ranging from 4-5.5" long! Attracting butterflies and bees, Summerbird® blooms from early summer until the beginning of fall. The flowers are sweet and fragrant with an orange throat. Colors: Blue, Magenta, Violet, and White.

CALIBRACHOA *Dracula* WESCADRA

NEW Variety – Calibrachoa Dracula boast large, dramatic rosy-red blooms with a dark, nearly black center. Mounding plant habits are perfect for any pot size and can be grown easily for either spring or autumn sales season.

Blue

Magenta

CALIBRACHOA *Illusion* WESCAILLU

NEW Variety – Calibrachoa Illusion is in a class by itself. A bright, multi-color flower pattern that has never been seen before makes this plant a true breakthrough. Plants are well branched and make outstanding hanging baskets for spring and summer markets.

Violet

White

CALIBRACHOA *Million Bells*® Classic

SOLANACEAE

NEW Orangina – The modern calibrachoa market began with Million Bells. Now Suntory Flowers is shaking things up cobranding a new variety with a globally popular beverage, Orangina! The carbonated drink with natural citrus juices dates back to the 1930s in the French Riviera!

Calibrachoa Dracula

Calibrachoa Illusion

Calibrachoa Million Bells® Classic Orangina

PETUNIA *Perfectunia*[®] SOLANACEAE

NEW Colors – The Perfectunia series is the perfect petunia for growers and retailers. It has been bred for fast and early production with perfect uniformity across all colors. Tight mounds of color look fantastic on the retail shelf and plants will perform perfectly for consumers in containers, window boxes and gardens alike. *34 colors in the series. New colors: Blue Imp., Pretty in Violet, Purple Imp., and Red Orange Star.*

PETUNIA *Flower Shower* SOLANACEAE

NEW Series – The culmination of several years of breeding work, Westhoff is proud to introduce the Flower Shower series of Petunias. Specifically bred for weather tolerance, these semi-mounding to trailing plants have enough vigor to fill out any size hanging basket, but have the robust habit and flower-power to make an excellent landscape plant as well. Intense, saturated colors will be flowered with attention from any passersby. The gorgeous medium sized flowers are rain tolerant and are a true mounding/trailing hanging basket series. *Colors: Flame, Golden Harvest, Mayan Sunset, Patrick Star, White and Ziggy Star.*

PETUNIA *Surfinia*[®] SOLANACEAE

NEW Heavenly Amethyst Burst[®] – Surfinia Heavenly varieties offer the best for growers and consumers. They are earlier to flower and have a more controlled, semi-trailing growth habit, while still delivering the outstanding Surfinia garden performance and weather tolerance. Icy light purple flowers with deep contrasting dark amethyst throats. *New in 2022: Surfinia Heavenly Cabernet.*

XEROCHRYSUM *Cranvia* BRACTEANTHA

NEW Colors – A supersized strawflower! Granvia is much more impressive than a standard bracteantha. Full, vigorous plants and flowers are twice the size! Stunning in landscape beds and large patio pots. Resistant to mildew. Grow in gallon pots or larger. *New Colors: Gold[®], Peachy Keen[®] (yellow/peach), Pink Yellow Flame[®] (deep pink), Red Orange Flame[®] (orange/yellow).*

NEW Yellow Improved – Showcasing a brighter yellow color with large flowers. The Lia™ series has a controlled growth and semi-trailing habit, making this an ideal choice for quarts, hanging baskets and combinations. *New in 2022: Cranberry.*

CALIBRACHOA Ombre™

NEW Sunrise – The new addition to the Ombre™ series features a multi-colors pattern of cherry red to orange to yellow on each bloom. Ombre™ Sunrise is the brightest within the series, perfect as a stand-alone container or creating multiple options for mixes.

CALIBRACHOA Colibri™

This successful compact and floriferous series has vivid colors that will add life to your patio. They are well branched with little to no PGRs necessary. The controlled growth is well suited for small pots and high-density production. *New in 2022: Bright Red.*

NEW Dark Lavender – Blooms are a rich lavender purple with yellow throats and dark veins.

NEW Exotic Red Bling – The flowers have a bold red color with a bright yellow star pattern, making this a consumer favorite.

NEW Pure White – Beautiful fresh white flowers.

IMPATIENS Sol Luna™ HYBRID

Three new additions to the Sol Luna™ series include vibrant colored, large blooms. Sol Luna™ offers a controlled plant habit, allowing easy production for smaller sized containers with Little to No PGR requirements. *New in 2022: Blush, Lilac, and White.*

NEW Electric Pink – Shocking electric pink flowers.

NEW Red – Very bright red blooms.

NEW Ultra Violet – Vibrant pink-fuchsia flowers.

LANTANA Gem™

Large flowers in unique colors with a well-branched habit and medium vigor making this a grower-friendly choice. Gem™ keeps its bright colors under hot weather conditions and is well suited for heat and drought tolerant programs, it is also perfect for late spring and summer timing.

NEW Citrine – Lovely shades of light and dark orange.

NEW Diva Pink – Vibrant fuchsia flowers with pops of pink and gold.

BEGONIA *F'Conia Bachelorette*

NEW Red – A unique single flowering addition to the l'CONIA collection. Bachelorette Red is a hot selection, with standout flower power and an overall stellar look for containers and beds. Exceptional performance and spicy red flowers make this hybrid begonia a must for baskets and containers. Consider for finishing as monocrop in baskets or 6-inch, or as a component in mixes; suitable for large containers.

BEGONIA *Move2*

NEW Orange – The earliest to flower of all Elatior types, the Move2 series boasts large, double flowers and exceptional structure with strong branching and a well-rounded habit. Move2 varieties have demonstrated the strongest heat tolerance in our outdoor trials, making them a versatile selection for both interior and outdoor sales.

CALIBRACHOA *Aloha Nani*

NEW Fire Red – This beautiful new fiery-red variety adds even more interest to the Aloha Nani series. Daylength neutral and naturally compact, this series is perfect for premium pots and packs for early season sales. No pinch or PGRs required.

CALIBRACHOA *Tik Tok*

NEW Orange – Named for the hands of a clock going around the center ring, TikTik varieties have a very playful pattern on more vigorous plants, perfect for baskets and combinations. New TikTik Orange features large flowers with novel yellow spokes and its semi-trailing habit is also well-suited for garden beds.

DAHLIA *Hypnotica*

NEW Pink – This new brilliant pink variety in the Hypnotica series brings growers a full range of colors on fully double flower forms. These medium to high vigor plants are ideal for larger container sizes and display fantastic garden performance throughout the summer.

NEW GUINEA IMPATIENS *SunStanding®*

NEW Jazzy Blue Rose – The SunStanding Jazzy varieties add dramatic flair to your programs with a bright, tropical look. With intense neon-colored flowers on top of brilliant lemon-lime variegated foliage, these are showstoppers on the retail bench and in large combination containers. The decorative foliage works equally well as an ornamental addition to combos, but with the added bonus of vibrant flowers throughout the summer.

NEW GUINEA IMPATIENS *MegaGuinea*

NEW *White Blush* – When you thought New Guinea impatiens couldn't get any bigger or more beautiful, here is the MegaGuinea series! The varieties in this special series for large containers are so big, growers will only need one cutting per gallon for an early finish. MegaGuinea impatiens have the same finish time as the Magnum series and include stunning colors in Orange, Pink, Purple, and White Blush.

OSTEOSPERMUM *Margarita* HYBRID

NEW *Plus Pink* – The Margarita Series is a compact, upright series with glossy, dark green leaves and daisy-like large, showy flowers with exceptional vigor in a variety of colors from early summer into autumn. Excellent heat tolerance and branching. Series includes 5 colors.

PETUNIA *Smartunia*

NEW *Purple Vein* – Introducing the world's first TMV resistant Petunia collection. Intrinsa™ plants are stronger and more resistant, resulting in less production loss, more reliability in the supply chain, and greater security for the bottom line. From farm to grower to retailer to gardener, Intrinsa™ petunias remain disease free and look beautiful throughout the growing season. Series includes 8 colors.

NEW *Windmill Black* – The Smartunia Windmill collection of Intrinsa™ petunias features three new two-toned colors – Burgundy, Hot Pink, and Purple – with a distinctive windmill pattern that pays homage to our Dutch heritage. Smartunia Windmills are moderately vigorous with a well-branched and semi-upright habit, and blend perfectly together to create a colorful mixed container or hanging basket.

SENECIO *Mandala® Plus*

NEW *Blue Charme* – The new Mandala series of Senecio is a grower-friendly series with naturally tidy habits with mid-vigor and loads of flower power. Bright, bold colors for early spring sales, these early season performers are perfect for 6- and 8-inch containers with minimal to no use of PGR. Matched vigor and response time – a true series. 12 colors in the Mandala and Mandala Plus series.

Begonia Citizen Cane™ Pink

BEGONIA *Citizen Cane™*

NEW Pink – LIFESTYLE PLANT! An all new addition to the Green Fuse® Lifestyle™ collection, Citizen Cane™ Pink will absolutely demand retail attention. Its crisp dark foliage with clean white polka dots lends well to foliage programs. It will also maintain massive strings of deep pink blossoms with strong fragrance all growing season. Tight internodes and strong stems allow for worry free shipping.

Calibrachoa Cruze Control® Pink Flair

CALIBRACHOA *Cruze Control®*

NEW Pink Flair – Extremely unique color patterns burst from this all new Cruze Control®. The series' tight habit has made it a grower favorite. Its day length neutrality allow for sales as soon as the season allows. Strong color patterns will be a retail hit and an easy impulse sale! *New colors: Blue Star, Pink Flair, Stardust™ Blue, and White Delicious.*

LANTANA FUEGO™

LANTANA *Fuego™*

NEW Series – A completely new breeding program has delivered the six color Fuego™ series. Available in Gold, Orange, Pink, Rose, Red and White. Each Fuego™ excels in garden performance, with an aggressive habit perfect for six inch and larger containers. Fuego™ fires out color all growing season! Mature height is 15" to 20". *New colors: Gold, Orange, Pink, Red, Rose, and White.*

PETUNIA *Blanket®*

NEW Blue and Merlot – Petunia Blanket® are strong finishers. That is why so many growers have turned to the blanket series for their late spring and summer production. Blankets will finish a late season pot in a remarkable 8 weeks from a single cutting. There's nothing else like them! *New colors: Blue, and Merlot. New in 2022: Silver Surprise.*

PETUNIA *Good and Plenty®* HYBRID

NEW Colors – Good and Plenty® varieties flower early, even when grown in the shortest of days. But what really makes Good and Plenty® a "must grow" choice for growers is their near perfect habit. Plants wrap containers in bouquets of flowers. Predictable finishing allows for perfect containers and combinations. Garden height is 8" to 10". *New colors: Blue Denim, Blue Ice, and Pink Flash.*

PORTULACA 24/7™

NEW Peach – Imagine a Portulaca whose flowers stay open 24/7™. All five colors of Green Fuse's new Portulaca series will do just that, and all have been selected for really large flowers, too. Day length neutrality allows finished production on the grower's schedule.

Portulaca 24/7™ Peach

Purslane Hot Shot® Yellow White

PURSLANE Hot Shot®

NEW Yellow White – Hot Shot® are very early and have eye catching, large flowers. Their strong self-branching eliminates multiple pinches to create full baskets. The all new Yellow-White is a must grow in your Purslane assortment with its eye catching color pattern of a true yellow and white pinwheel. It looks outstanding alone or in a mixed container. Mature height is 4" to 6".

STREPTOCARPUS Ladyslippers®

NEW Colors – LIFESTYLE PLANT! A classic house plant has all new life with Ladyslippers®. New addition Azure has great timing for Pantone's color of the year! The whole series will delight homeowners with dozens of blooms every day of the year. Extremely simple culture virtually guarantees grower and consumer success! **New colors: Azure, Blueberry, Blue Zebra, Cherry Ice.** **New in 2022: Raspberry.**

TRADESCANTIA Pistachio™

NEW White – LIFESTYLE PLANT! A breeding breakthrough allows this all new tradescantia to maintain heavy white variegation while still supporting vigorous growth. An excellent selection for monoculture in quarts through hanging baskets, as well an eye popping combination item. Year-round sales are simple as a spring or foliage item.

Raspberry

VINCA Quasar™

NEW IN 2022 White Target – A new addition with clean white flowers with a distinctive purple center. The Quasar™ series has giant flowers and the disease resistance you expect from hybrid Vinca. Quasar™ features colors not available in seed lines like Deep Space Blue and Orange Target.

Vinca Quasar™ White Target

Tradescantia Pistachio™ White

Acalypha Cat's Tails

ACALYPHA *Cat's Tails* PENDULA

A striking ever bloomer with fiery-red, fur-like flowers. Cat's Tails is a fast growing, heat loving plant that is easy to grow; it's also very low maintenance. Great for hanging baskets, combinations, containers, cascading down a wall, ideal for indoors, patios and decks.

ANISODONTEA *Elegans Princess*

CAPENSIS

A free flowering shrub, with masses of large cup-shaped dark pink flowers which bloom from spring to autumn. A compact habit which is drought, heat and humidity tolerant once established. Perfect for borders, big containers for decks and patios, garden planting.

DELOSPERMA *Jewel of the Desert*

GRENADE

Masses of eye catching orange flowers with red centers, create a beautiful impact of color. Flowers bloom continuously for a very long period. Jewel of the Desert is great for containers and mixes, for the patio and balcony, as mass planting, and low borders. Exceptionally drought and heat tolerant, winter hardy. Easy care, attracts bees and butterflies!

Anisodonteia Elegans Princess

Delosperma Jewel of the Desert

ERODIUM *Album*

Enjoy an explosion of gorgeous white flowers with pink veins flowering long and early in the season. Album is a great value plant that is uniform, low with a compact habit, and easy to grow. Use as ground cover, in rock gardens, gravel beds, crevices, front borders, and mixes, as well as with other low growing alpines, in big containers on patios and decks.

GAZANIA *Adonis*

Bright orange flowers set atop shiny green foliage, and blooms repeatedly. Adonis is uniform, and low growing and is perfect for mass plantings, beds, edging, borders, rock gardens, seaside gardens and large patio containers. Drought, heat and wind tolerant, attracts bees and butterflies, easy to grow.

Erodium Album

Gazania Adonis

GYPSOPHILA *Pretty Maid*

The perfect choice for early spring color and onward. Pretty Maid flowers early with masses of fragrant flowers that are white with light pink veins. They are excellent for patio plants, combinations, garden plantings and containers, attracting bees and butterflies!

Gypsophila Pretty Maid

LINDERNIA *Blue* GRANDIFLORA

Blooming consistently from spring to summer with a plethora of lovely blue flowers with interesting white marking. Lindernia Blue is low maintenance, fast growing, and dense with a rounded, uniform habit. Great for hanging baskets, as groundcover, between stones, in rock gardens, or as low borders.

Lindernia Blue

PELARGONIUM *Pinki Pinks*

Enjoy a long flowering season punctuated with masses of pink flowers from early spring until late autumn. Pinki Pinks is drought resistant, attracts butterflies, and is low maintenance. These are ideal as standalone hanging baskets, showcasing the trailing habit over the side of containers; or in window and patio boxes.

Pelargonium
Pinki Pinks

THUNBERGIA *Lemon*

The most popular variety in Thunbergia, Lemon is very early flowering, producing masses of showy yellow flowers over a long flowering period, from spring to autumn. These are ideal for window boxes and hanging baskets, they mix well with other colors of Thunbergia. Place on patios and decks in large containers, use them as a screen to cover fences, arches, and trellises. Lemon is easy and fast to grow, and is a good value product.

Thunbergia Lemon

THUNBERGIA *Sunny Susy*® ALATA

NEW Cherry – Making every space cheerful, Sunny Susy® offers masses of bright cherry-colored flowers on a trailing and climbing habit from spring through fall. Thunbergia Sunny Susy® Cherry is ideal for mixed hanging baskets. Combines well with other Thunbergia, use as pyramids for patios or decks, or as a show cover for arches and pergolas, great in window boxes.

Thunbergia Sunny Susy® Cherry

NEW

Colocasia Royal Hawaiian® Waikiki

COLOCASIA *Royal Hawaiian*®

NEW *Waikiki* – An outstanding addition to the series with deep-green glossy foliage, white markings and vivid pink veins. Gaining the coloration earlier than White Lava, at 4-5 leaves. Zone 7b.

DIANTHUS *American Pie*®

NEW *Berry à la Mode* – Large single blooms with timeless elegance on blue-green foliage. Beautifully fragrant, pure white flowers and unique magenta centers, are carried on sturdy stems that do not flop. Repeat blooming, from spring, repeating summer and fall. Zone 5.

GAILLARDIA *Realflo*®

NEW *Sunset Orange Ruffles* – Features two rows of flat petals, in warm sun-kissed tones. Blooms are colorfast and age well over an exceptionally long period. Drought-tolerant once established these sun-loving, floriferous beauties are ideal for containers, beds, and borders. Zone 5.

LEUCANTHEMUM *Realflo*®

NEW *Real Tiny Bubbles* – Featuring masses of small, fully rounded blooms, reminiscent of tiny bubbles. Tidy compact habit 16" x 14" and freely re-blooming all summer. Zone 5.

MISCANTHUS *Gentle Breeze*

NEW Compact superfine foliage maiden grass boasting only 2' x 2-3' in full flower. Attractive silvery-blue arching blades in a tidy clumping habit provides a long season of interest. Zone 4.

Dianthus American Pie® Berry à la Mode

Gaillardia Realflo® Sunset Orange Ruffles

Leucanthemum Realflo®
Real Tiny Bubbles

Miscanthus Gentle Breeze

SALVIA *Bodacious*®

NEW IN 2022 *Hummingbird Falls* – This new introduction is the first trailing variety of its kind, producing cascades of pulsating blue flowers emerging from glistening black calyces and stems. As the name would suggest, Hummingbird Falls is a natural magnet for hummingbirds and will be well suited for today's consumers looking for eco-positive products to make a beneficial impact on their garden environment. Zone 7.

NEW *Jammin' Jazz* – Large saturated hot pink flowers are held on deep chocolate-black calyx and stems. Strong green foliage color, not yellowing with the season. Improved branching giving tight rounded habit. Excellent for cool growing and early season sales. Great for hummingbird gardens. Zone 8.

SALVIA *Vibe*®

NEW *Ignition Sunrise* – The first bicolor in the VIBE® series with masses of medium-sized, soft apricot and peach bicolor flowers, freely reflowering throughout the season. Decorative sage for low water gardening, pollinator friendly gardening and hummingbird gardens. Zone 7.

VIOLA *Magnifiscent*®

NEW *Delft Blue* – Phenomenal fragrance wafts from the gorgeous frilled blooms. They are striking with crisp white tones and bold blue edges. Ideal for patio pots and containers, garden borders and mass landscape plantings. Zone 5.

WEIGELA *Prism*™

NEW *Magic Carpet* – Go on a magic ride with the bold vibrant foliage of Magic Carpet. Colors range from chartreuse in spring transitioning to gold and bright orange in summer and fall. Compact well-rounded habit 24" x18". Ideal for front of the border, container gardens, and mass plantings. Zone 4.

Calibrachoa
 Superbells® Prism™
 Pink Lemonade

CALIBRACHOA *Superbells® Prism™*
Pink Lemonade – A gorgeous color-changing calibrachoa that lives up to Superbells standards. Superbells® Prism™ Pink Lemonade blossoms open lemon yellow and transition to a vibrant pink, with both colors continuously present simultaneously. Its fully mounded habit results in fabulous monoculture containers, but is also easy to mix with other medium vigor annuals in recipes. Like all Superbells, it blooms continuously all season without deadheading. *USPPAF CanPBRAF*

Calibrachoa Superbells® Double Yellow

CALIBRACHOA *Superbells® Double Yellow* – These wildly popular rose-shaped, fully petaled blossoms come in a rainbow of colors. This year, a clear, sunshine yellow is added and is the perfect complement color. Growers will appreciate its earliness to bloom, and robust, well-branched habit. This full-sized calibrachoa mixes well with other medium vigor annuals in hanging basket and upright recipes. Like all Superbells, it blooms continuously all season without deadheading. *USPPAF CanPBRAF US Utility 7786342*

Coleus ColorBlaze®
 Mini Me™ Watermelon

COLEUS *ColorBlaze® Mini Me™*
Watermelon – Small but mighty, this plectranthus displays excellent vigor and forms a densely branched clump of feathery textured, watermelon red, chartreuse-edged leaves. Stunning in monoculture containers where it won't need pinching or PGRs to retain its neat shape. It also pairs well with other medium vigor varieties in window boxes and upright container recipes. Use this dwarf coleus in tight spaces in the landscape to add a splash of vivid color in sun or shade.

Ipomoea Sweet Caroline Upside®
 Key Lime

IPOMOEA *Sweet Caroline Upside®*
Key Lime – Growers will notice the improved branching of Upside® Ipomoeas compared to others in the market with the best branching and habit of any climbing selections. The new Upside® climbing Ipomoea varieties require little maintenance and tolerate some shade. Containers with a trellis are best, or use them as a dramatic thriller in premium hanging basket recipes.

Ipomoea Sweet Caroline Upside®
 Black Coffee™

Black Coffee™ – The well-branched vines form a full mass of bright chartreuse foliage that quickly scrambles up trellises or hanging basket wires and trails several feet long. *USPPAF CanPBRAF*

Black Coffee™ – Enjoy a full mass of deep dazzling purple foliage that quickly climbs trellises or drapes from hanging basket wires and trails several feet long. *USPPAF CanPBRAF*

Lantana Luscious®
 Basket Tangelo™

LANTANA *Luscious®* CAMARA
Basket Tangelo™ – Powering through the hottest, stickiest summers without skipping a beat, Luscious® lantana, sets little to no seed, so it doesn't require deadheading for continuous bloom. The fragrant blossoms attract hummingbirds and butterflies, too. The mounded trailing habit makes it ideal for use in hanging baskets and upright recipes as a filler and spiller. With a medium vigor similar to Luscious® Royale varieties, it plays well with others without taking over. *USPPAF CanPBRAF*

LANTANA *Luscious*® *Royale* CAMARA

Lemon Tart™ – Excellent vigor and a tidy, upright globe-shaped habit, Luscious® Royale finishes nicely in containers and shines in upright monoculture containers and mix recipes. Lemon Tart™ is notably smaller in size than Luscious® Citron™. They grow well nationwide, and provide all-season color in warm, humid climates, and are low maintenance. Deadheading isn't necessary for continuous bloom. *USPPAF CanPBRAF*

Lantana Luscious®
Royale Lemon Tart™

NEMESIA *Aromance*® FRUTICANS

Mulberry – Delightfully prolific blooms are sweetly scented, and come in shades of bright plum-fuchsia and lavender with a tiny yellow throat. Aromance® Mulberry performs great throughout the summer, and handles heavy summer rains with ease. Cooler fall nights stimulate a whole new flush of blooms that persist until frost. No deadheading is needed for continuous bloom since this cultivar sets no seed. *USPPAF CanPBRAF*

Nemesia Aromance® Mulberry

Osteospermum
Bright Lights® Horizon™ Sunset

OSTEOSPERMUM *Bright Lights*®

Horizon™ Sunset – A lavender purple glow emanates from the center of these large, orange sherbet-colored flowers, helping it blend easily with other purple flowers as well as white, yellow, deep orange and other warm colors in recipes. With a mounded -spreading habit, its great for mixing with cool weather-loving annuals in hanging baskets. Though Osteospermum is typically grown as a cool season annual, the increased heat tolerance bred into the Bright Lights® series expands their sales window into the warmer months. *USPPAF CanPBRAF*

PETUNIA *Supertunia*®

Persimmon – Exceptional vigor without the taller, scaffolding habit. Flowers in shades of the sunset appear coral to orange with a glowing gold throat. Supertunia® will bloom prolifically all season without deadheading, forming long, full strands covered in flowers. Its low trailing habit suits it to the spiller role in hanging baskets and window boxes, and it can also be used as a flowering annual groundcover. *USPPAF CanPBRAF*

Petunia Supertunia® Persimmon

PETUNIA *Supertunia*® *Mini Vista*®

Look here for ease of growth and perfect presentation; because of its tight shape, it makes pristine mono containers and is a star in landscapes where it won't sprawl too wide to cover pathways or take over neighboring plants. A new Mini Vista® essential!

Midnight – Appearing very close to black or a deep velvety purple with a black eye depending on the light, these smaller blossoms will enchant with a multitude of blooms from spring to frost without deadheading. *USPPAF CanPBRAF*

Scarlet – Pair with Supertunia Mini Vista® White and Indigo or Violet Star, perfect for creating patriotic-themed, summer recipes. Slightly smaller flowers in more of a scarlet shade on a denser, compact plant than Really Red. *USPPAF CanPBRAF*

Yellow – Even in the Florida heat, its performance is remarkable. This vigorous yellow beauty forms a tidy globe-shaped habit that is covered in blooms from early in the season until frost without deadheading. *USPPAF CanPBRAF*

White

ANGELONIA *Angelissa*™

NEW IN 2022 Series – Three complementary colors, perfect for mixed container plantings. Series uniformity makes for great retail appeal, ideal for stand-alone quart production.

Colors: Purple, Rose, and White.

CALIBRACHOA *Calipetite*®

NOTABLE Series – A groundbreaking, naturally compact series with the perfect habit for smaller pots and bowls. Tolerant of pH up to 7.2, super early flowering, and bright colors. Retail sell though has been phenomenal! *Colors: Blue, Mid-Blue, Pink, Red, White, and Yellow.*

IMPATIENS *SunPatiens*® Compact

Compact SunPatiens® are bred for strong retail appeal and a smaller habit. They offer the best habit for multi-pack, high-density production. In the landscape, Compact varieties grow 16-30" tall and 14-20" wide.

CALIBRACHOA CALIPETITE®

Deep Red

Lavender Splash

Lilac Imp

Purple Candy

IMPATIENS *SunPatiens*® *Vigorous*

Continuous flowering from spring through fall. Same great performance as Compact SunPatiens®, but with 20-25% more vigor. Full sun through shade versatility.

NEW *Peach Candy* – Large, eye-catching flowers with splashes of vibrant orange. Vigorous plants that deliver an impressive show in any landscape. Dark bronze foliage provides striking contrast.

NEW *Pretty Pink* – Beautiful, baby pink blooms cover the entire plant. Well mounded plants with strong vigor and dark green foliage. Strong retail appeal and very grower friendly.

LANTANA *SunDance*™

NEW *Pink* – Robust with large, bold flowers. These sun-loving varieties are showstoppers in stand-alone plantings and mixed containers. Earlier flowering uniformity across series. *Colors: Red, White, and Yellow.*

MECARDONIA *Magic Carpet*™

Bright yellow flowers on some of the toughest plants available. Dense spreading habit makes this perfect for small pot production and rock garden plantings. Mix with Calipetite® Calibrachoa for perfect 8-10" bowls. Superior heat tolerance!

PETUNIA *SuperCal*® *Premium*

X PETCHOA HYBRIDA

NEW IN 2022 *Series* – When it comes to garden performance, SuperCal® and new SuperCal® Premium are uniquely superior to all other petunias. Part petunia, part calibrachoa, they are all-weather performers that can stand up to cold and heat. Plus, they can withstand heavy rains and bounce right back with little to no damage. *New colors: Pearl White, Sunset Orange, and Yellow Sun.*

CALIBRACHOA *MiniFamous® Uno*

NEW Colors – MiniFamous® fulfills all your calibrachoa needs in one collection. Large flowers with excellent branching make this first choice for the grower and the gardener! Uno is an early, compact series ideal for quarts or gallons, but also performs well in baskets and combinations.

NEW Double White 23 – Upgraded for larger flowers and is faster to flower; vigor and habit match series better.

NEW Orange + Red Vein – A unique eye-catching color addition, the vein stays throughout the heat of the Summer!

NEW Pink 23 – Upgraded for lower vigor to better match series, now able to mix in combos!

NEW White Cold – An exciting new novelty color with a yellow throat.

DAHLIA *Dalaya®*

NEW Apricot – Dalaya is a medium vigor, upright Dahlia with green foliage. The big blooms on this well-branched series make an exceptional habit and top choice for the garden. The Dalaya is best in gallon+ containers and performs in containers or landscapes. This sun loving stand out color will catch everyone's eye!

NEW GUINEA IMPATIENS

ColorPower™

NEW Orange 23 – Upgraded for a brighter orange color, bigger flowers, more floriferous and higher vigor. NGI ColorPower is perfect for medium-to-large pots and baskets, these big, bright blooms will light up the shade.

OSTEOSPERMUM *Zion*

NEW Pink Sun – This variety is closely related to Fleuro Star Winner, Purple Sun. The Pink Sun is compact and easy to grow without PGRs. Unique bicolor that transitions from yellow to pink to blue makes an excellent complement to any assortment. The Zion series is best in gallons and performs in containers and landscapes. *Colors: Pink Sun and Purple Sun.*

PERICALLIS *Senetti®*

NEW Colors – Four new colors join the series this year! Senetti has vivid blooms on rounded, compact foliage, it is low-maintenance, and blooms in early-Spring. It thrives in cool temperatures and is weather tolerant. *New colors: Blue Halo and White Red Heart. Colors: Blue Bicolor, Cobalt Blue, Deep Blue, Magenta, Magenta Bicolor, Pink Bicolor, Violet Bicolor, and White.*

PETUNIA *Headliner™ Sky* SEMI-TRAILING

NEW Colors – Selecta One offers the widest selection of spotted petunias on the market. Headliner Sky Petunia patterns have superior stability and reliability. They are available in a range of sizes – including medium vigor Headliner varieties.

NEW Blackberry Vein – Intense bold and vibrant vein pattern that fits with the rest of the Headliner series. Blackberry Vein has been added to NEW Trixi Starlight Starbright 23 combo!

NEW Light Pink Sky – Vibrant bright pink blooms with a white constellation looking pattern.

NEW Pink Sky 23 – Improved weather tolerance and reduced disease pressure with enhanced vigor and branching to match the rest of the Headliner and Sky pattern varieties.

NEW Strawberry Sky – Jam colored blooms, speckled with sprinkles of white spots on this medium vigor plant.

VERBENA *Beats™*

NEW IN 2022 A super compact series of Verbena that is best for color bowls and small baskets. These expertly curated mixes make for great holiday items and easy wins for the grower with no PGRs and no pinch! Tolerant of heat, cycling and water stress for color that never misses a beat! Beats can be found in: Little Liberty (*Memorial Weekend/4th of July*), Heartbeat (*Mothers Day/Summer*), and Can't Be Beat (*Mothers Day/Summer*). **Colors: Blue, Purple, Purple+White, Red, Red+White, and White.**

NEW Trixi® – Get your groove on with this new mix of all the Beats colors.

VERBENA *Lascar™*

NEW Colors – Verbena Lascar is a low-vigor variety with a mounded-trailing habit and is a uniform series that is early to flower. This series is excellent in mixed containers. **Colors: Black Velvet, Burgundy, Dark Red, Dark Violet, Mango, Pink, Red Rose, Salmon, Vampire, and White. New colors: Blue+White, Orange Lava, and Purple + White.**

NEW Blue + White has low-vigor that matches the series.

NEW Orange Lava brings a unique color to the industry and is excellent in landscapes and combinations.

NEW Purple+White is a low-vigor variety for the series.

PETUNIAS - A SKY IN EVERY SIZE!

NEW

BRACTEANTHA GRANVIA

Harvest Orange

Peachy Keen

Pink

BRACTEANTHA *Granvia*

NEW *Harvest Orange* – Looking for something different for your fall program? Granvia Harvest Orange is a super-sized strawflower with captivating orange/yellow blooms. These super strawflowers produce plants and blooms that are more than twice the typical size, creating impressive specimens in large patio pots and landscapes.

NEW *Peachy Keen* – Peachy Keen’s blooms have a two-toned look, like lemonade and peach tea! Plants are more compact than award-winning Granvia Gold. Imagine the possibilities in container plantings, landscapes and dried flower crafts!

NEW *Pink* – With gorgeous, large deep pink blooms, Granvia is the queen of strawflowers! It’s an excellent choice for pink themed gardens. Consider for breast cancer awareness promotions in the fall, too. Plants will tolerate a light frost.

CALIBRACHOA *Million Bells*

NEW *Orangina* – The modern calibrachoa market began with Million Bells. Now Suntory Flowers is shaking things up cobranding a new variety with a globally popular beverage, Orangina! The carbonated drink with natural citrus juices dates back to the 1930s in the French Riviera!

Calibrachoa Million Bells Orangina

CATHARANTHUS *Soiree® Flamenco*

Series – Soiree® Flamenco aren’t like any other vinca. They put on a fashion show in your beds, baskets, and containers with fringed, ruffled petals and striking bicolors. Perfect for summer, they are happy in warm conditions. These plants keep their habit all summer long, with no leggy branches and tons of flower power. *New in 2022: Cheeky Pink, Pink Twist, Salmon Glow, and Senorita Pink.*

PERICALLIS *Senetti®*

NEW *Blue Halo* – Representing the next generation of Senetti breeding with a more compact habit and high flower count. Rich blue flowers have a white ring or halo in the center. Senetti varieties thrive in cool temperatures and are perfect for early spring sales.

CATHARANTHUS SOIREE® FLAMENCO

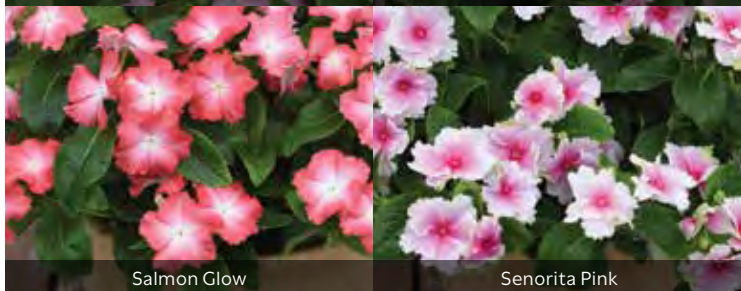

Cheeky Pink

Pink Twist

NEW IN 2022 *Magic Merlot* – The color changing magic continues with Magic Merlot. Blooms are wine colored with expanding red-orange centers. Flowers two weeks later than the main series, extending the season. Blooms are more stable and fade less than Senetti Ruby Red.

NEW IN 2022 *Rose Glow* – Bringing a whole new dimension to Senetti that will light up impulse sales. It’s the first Senetti with a bright creamy white center. Blooms start out magenta with violet tips and become more of a hot rose as temperatures increase. Times with main Senetti series top sellers.

Salmon Glow

Senorita Pink

NEW *White Red Heart* – Fresh white daisy-like flowers offer unique velvety red center discs! This designer color could be positioned nicely for Valentine’s Day sales in supermarkets with red and white packaging. This variety is two weeks earlier than Senetti White, which has a dark navy center disk.

PETUNIA *Surfinia*

NEW Heavenly Amethyst Burst – Surfinia Heavenly varieties offer the best for growers and consumers. They are earlier to flower and have a more controlled, semi-trailing growth habit, while still delivering the outstanding Surfinia garden performance and weather tolerance. Icy light purple flowers with deep contrasting dark amethyst throats. **New for 2022 is Surfinia Heavenly Cabernet.**

PETUNIA *Surfinia XXL*

NEW Salmon Vein – If your favorite seafood was a flower, this would be it! Surfinia XXL Salmon Vein has the rich colors you find in salmon, shrimp and lobster. Darker salmon veined pattern adds interest. Nice in warm, terracotta color schemes. Plants have large grandiflora flowers on a modern, compact habit.

NEW IN 2022 Sweethearts – Surfinia Sweethearts combines two favorite novelties – Surfinia Heartbeat Improved and Surfinia Purple Heart. Sweet white flowers express a pattern of five hearts. Both demonstrate award-winning garden performance and are especially nice in hanging baskets.

NEW Watermelon Jazz – Surfinia XXL represents new breeding for Suntory Flowers. Plants are more upright and controlled in their growth habit, producing grandiflora blooms spanning 4-5 inches across. Plus, these varieties are daylength neutral – an advantage for Southern and early markets. Watermelon Jazz is a juicy new color with dark reddish pink blooms.

SCAEVOLA *Surdiva*

NEW Lilac Mist – Compact and colorful Surdiva scaevolas welcome a new color, Lilac Mist. Plants produce fan-shaped flowers on shorter internodes for tidy pots. Mix and match with five other Surdiva colors and heat-loving summer annuals. You will be a fan of these fan flowers!

VINCA *Soiree® Kawaii* CATHARANTHUS HYBRID

NEW IN 2022 Lady Liberty Suntory Mixer – Compact Soiree Kawaii catharanthus make great combos! Lady Liberty blends Red Shades, White Peppermint and Blueberry Kiss – perfect for patriotic promotions! Finish for Memorial Day and Fourth of July, Soiree Kawaii will look great until frost.

Calibrachoa
Calitastic
Bright Purple

CALIBRACHOA *Calitastic*[®] HYBRID

NEW Colors – The new standard of Calibrachoa with large blooms, incredibly uniform in habit and flower timing; a new bar is set for grower expectation. Very early to flower, all varieties flower at 11 hours critical day length and stay open and in flower under low light conditions making these a great line for retailing from early spring and continuing throughout the season. Good branching and a controlled growth. *Colors: Bright Purple, Bright Red, Merry Cherry, Tricolor Pink, Violaceous, and White Imp.*

NEW CALIBRACHOA CALITASTIC[®]

CALIBRACHOA *Caramel*

NEW Stand-Alone – Calibrachoa Caramel combines the color-shifting characteristics of the Chameleon series with the bold, fun star patterns from the Candy Shop series to make something totally different! Flowers have a bold, white star pattern with blooms that change from yellow, to orange, to pink. Vigorous plants are perfect for hanging baskets and combos.

CALIBRACHOA *Dracula*

NEW Stand-Alone – Calibrachoa Dracula boasts large, dramatic rosy-red blooms with a dark, nearly black center. Mounding plant habits are perfect for any pot size and can be grown easily for either spring or autumn sales seasons.

Calibrachoa Caramel

Calibrachoa Illusion

Calibrachoa Dracula

CALIBRACHOA *Illusion*

NEW Stand-Alone – Calibrachoa Illusion is in a class by itself. A bright, multi-colored flower pattern that has never been seen before makes this plant a true breakthrough. Plants are well branched and make outstanding hanging baskets for spring and summer markets.

DIANTHUS *Best Friends Forever*

NEW Series – The perfect grab-and-go gift item, new Dianthus Best Friends Forever series is a heavily branched, compact re-blooming potted dianthus series. Boasting six colors to choose from, you're sure to find the right one for your BFF. *Colors: Pink Passion, Purple Passion, Red Passion, Rose Passion, Scarlet Passion, and Violet Passion.*

LOBELIA *Rift*

NEW Series – Westhoff has been long-known for breeding the best Lobelias on the market and 2023 is no exception. The Lobelia Rift series boast two varieties, Rift Purple, and Rift Blue, that sport strongly variegated colors that can easily be combined into the Passion Combo Great Rift Mix. Heavily branched plants are ideal for combo pots and hanging baskets for spring and early summer. *Colors: Blue, Purple, and Great Mix (Blue & Purple).*

DIANTHUS BEST FRIENDS FOREVER

Lobelia Great Rift Mix

OSTEOSPERMUM *Celato*

NEW Series – The Osteospermum Gelato series continues to expand with several new varieties for the 2022/2023 growing season. Bred with desirable habit and bright colors in mind, the biggest advantage that Gelato offers growers is a much higher vernalization temperature, making them easier and more economical to produce in more areas of the US. *Colors: Almond Imp., Caramel, Lime, and Strawberry.*

PETUNIA *Crazytunia*® HYBRID

IMPROVED Colors – Consumers are welcoming these new additions with open arms and freshly prepped flowerbeds. While some of our sheer and shimmery classic shades are still best sellers, there is an overwhelming demand to provide an even broader range of unique colors and patterns to create custom combinations. The Crazytunia® series ranges from stonewash to starburst. There are neon brights, velvety blacks, pulsating duo-tones and bold confetti splashes. 79 colors in the series. *New and improved colors: Blue Ice Imp., Golden Eye Purple, Golden Eye Rose, Iced Berry Imp., Lighthouse Pink, Pink Bride, Plumbelievable, and Swiss Dancer Imp.*

PETUNIA *Flower Shower*

NEW Series – The culmination of several years of breeding work, Westhoff is proud to introduce the Flower Shower series of Petunias. Specifically bred for weather tolerance, these semi-mounding to trailing plants have enough vigor to fill out any size hanging basket, but have the robust habit and flower-power to make an excellent landscape plant as well. Intense, saturated colors will be flowered with attention from any passersby. The gorgeous medium sized flowers are rain tolerant and are a true mounding/trailing hanging basket series. *Colors: Flame, Golden Harvest, Mayan Sunset, Patrick Star, White, and Ziggy Star.*

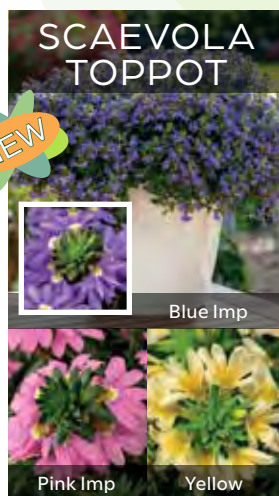

PETUNIA *Perfectunia*®

NEW Colors – The Perfectunia series is the perfect petunia for growers and retailers. It has been bred for fast and early production with perfect uniformity across all colors. Tight mounds of color look fantastic on the retail shelf and plants will perform perfectly for consumers in containers, window boxes and gardens alike. *20 colors in the series. New colors: Blue Imp., Pretty in Violet, Purple Imp., and Red Orange Star.*

SCAEVOLA *ToppoT*

IMPROVED Colors – Bred specifically for high-density pot production, the ToppoT line of scaevola offers growers a compact and well-branched series that fills out later for the gardener. The tight-mounded plants have excellent retail appeal, come in a wide spectrum of colors, and are pollinator friendly. ToppoT varieties also mix well for tricolor containers at retail and are heat and drought tolerant. *New colors: Blue Imp., Pink Imp., White (not shown) and Yellow.*

Lobelia Magadi™ Compact Blue Bay

LOBELIA *Rift*

NEW *Blue and Purple* – Two new colors for 2023 really add some excitement to lobelia flowers. Elevate your garden with Rift! *From: Westflowers.*

PETUNIA *Glamouflage*

NEW *Pink Lemonade* – This variety has been on the radar for a few years. Mast Young Plants did some extensive outdoor trialing of it last year in both containers and in ground beds to verify that it wasn't just a novelty but had garden performance and it passed with flying colors! *From: Kientzler.*

PETUNIA *Shortcake*™

NEW *Raspberry* – This new color addition will be a big hit with growers and gardeners! Grow it alongside the already popular Shortcake™ Blueberry. The Shortcake™ series has smaller sized flowers, but the garden performance and weather tolerance of this series will make it a hit! *From: Syngenta Flowers.*

RHOEO *Amber Waves*

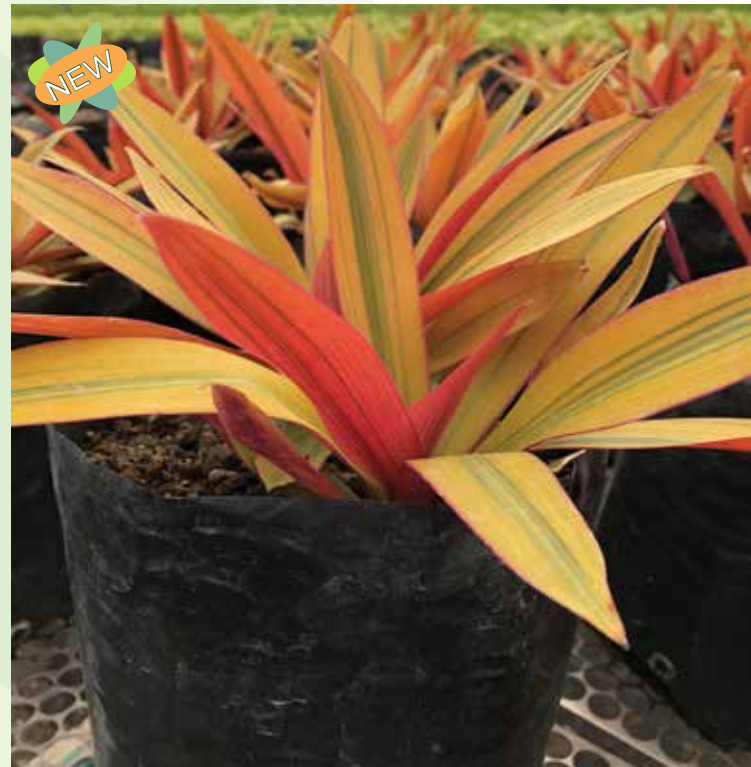

NEW A tried and true part of the fall mixed succulent trays Mast Young Plants offers. They liked it so much that after some spring and summer trialing they decided it was a great fit for their spring program. People are familiar with Rhoeo and this new color works great in stand alone pots and in combos!

TRADESCANTIA *Pistachio*

COMBINATION

Passion Pink Panther

NEW Combo – The pre-made combo reimaged. Passion Combos are a collection multi-species combination that combine the ease of a ready-to-go combination program, with the exceptional flower colors and patterns that have forged Westhoff's global reputation as well as incorporating the category shattering FanciFillers program. *From West Flowers.*

DIANTHUS *Best Friends Forever*

NEW Series – The perfect grab-and-go gift item, new Dianthus Best Friends Forever series is a heavily branched, compact re-blooming potted dianthus series. Boasting six colors to choose from, you're sure to find the right one for your BFF. *Colors: Pink Passion, Purple Passion, Red Passion, Rose Passion, Scarlet Passion, and Violet Passion. From West Flowers.*

HELIANTHUS *Helisol*

NEW Stand-Alone – Bred in sunny Florida, these cheerful, bright yellow flowers with a dark center, bloom quickly and profusely until late fall. A large flower mound will quickly form after a couple of weeks and works perfectly for hanging baskets. Helianthus Helisol is a heat loving plant and does well under heavy rains and wind; fertilize and water regularly. *From West Flowers.*

LANTANA *Fuego™*

NEW Series – A completely new breeding program has delivered the six color Fuego™ series. Available in Gold, Orange, Pink, Rose, Red and White. Each of the Fuego™ series excels in garden performance, with an aggressive habit perfect for six inch and up containers. Fuego™ fires out color all growing season! Mature height is 15" to 20". *New colors: Gold, Orange, Pink, Red, Rose, and White. From Green Fuse.*

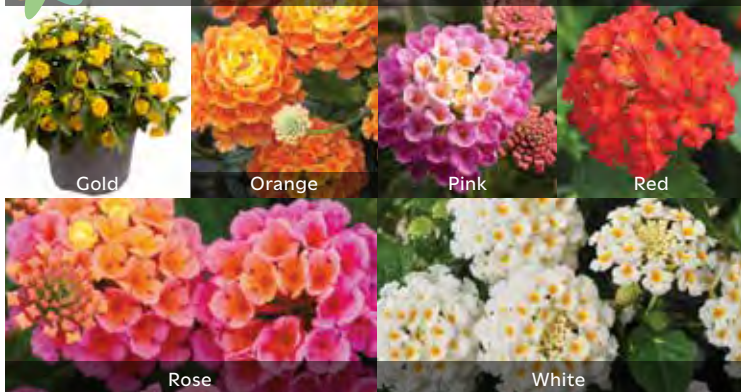

Helianthus
Helisol

OSTEOSPERMUM *Celato*

Geraniums

SEED | UNROOTED | ROOTED CUTTINGS

NEW

Geranium
Big EEZE Scarlet

GERANIUM *Big EEZE* PELARGONIUM INTERSPECIFIC

NEW *Scarlet* – Another beautiful new addition to the Big EEZE series, Scarlet is a bright red color, with a slight orange tinge. Big EEZE is hands down, the most impressive geranium for retail sales. This interspecific has the heat tolerance of an ivy, but with the classic look of a zonal with supersized flower power. The series has excellent heat and drought tolerance, earliness to flower, and a full canopy of flowers. 10 colors in the series.

GERANIUM *Santana* PELARGONIUM INTERSPECIFIC

NEW *Pink Splash* – Santana is a new interspecific geranium series that brings the heat! Much improved heat tolerance compared to traditional zonal types and exceptional performance at both retail and in the garden make Santana's an easy choice in both pots and hanging baskets. Dark green foliage provides a striking contrast to the large, oversized blossoms. The Santana series also offers a full color range that is well-matched in flower timing and habit. Bench running this series will be a breeze! 7 colors in series.

NEW

Geranium
Santana
Pink Splash

NEW

Geranium
Santana
White Splash

NEW *White Splash* – Part of the new interspecific geranium series that brings the heat! It has much improved heat tolerance and its exceptional performance in both retail and in the garden make it an easy choice for both containers and hanging baskets. Dark green foliage provides a striking contrast to the large oversized crisp white blossoms with bright pink center. Bench running this series will be a breeze!

GERANIUM *Sarita* PELARGONIUM INTERSPECIFIC

NEW *Salmon Pink* – A beautiful new variety in the Sarita series. Sarita varieties are the best choice for landscape plantings or for hanging baskets where minimal maintenance is expected. The interspecific hybrid brings ultimate heat tolerance to these varieties and the extremely dark foliage keeps the flower colors popping all summer long. They have excellent heat and drought tolerance and the dark foliage contrasts with the vibrant umbel color. A top pick for garden applications. 9 colors in the series.

NEW

Geranium Sarita
Salmon Pink

GERANIUM *Great Balls of Fire*

PELARGONIUM IVY

Merlot – The Great Balls of Fire series is the most premium lineup of ivy geraniums available today. Large double flowers, rich glossy-green foliage, dense branching, and heat tolerance that cannot be beat. Comes in a wide array of colors. 11 colors in the series.

Geranium
Great Balls of Fire
Merlot

GERANIUM *Elegance* PELARGONIUM REGAL

Rose Bicolor – Masses of blooms are produced all summer on these magnificent geranium plants. A real stunner at CAST 2022, the vibrant flowers are larger than other varieties giving you an amazing show throughout the summer. Perfect for patio containers and landscape beds. 14 colors in the series.

Geranium Elegance Rose Bicolor

GERANIUM *Brocade* PELARGONIUM ZONAL

Fire – With unique, strongly zoned foliage and a high flower count, the AAS Winner, Brocade Fire, provides a novelty look with its unique foliage color and the adaptability and performance of a zonal. Use as an exciting component to combination containers and baskets. 4 colors in the series.

GERANIUM *Maestro Idols*

PELARGONIUM ZONAL

NEW True Red – Maestro Idols True Red is a beautiful rich-colored red against medium green foliage. The series is a mid-season zonal geranium with a semi-vigorous growth habit and green foliage. 13 colors in the series.

GERANIUM *Patriot* PELARGONIUM ZONAL

NEW Rosalinda – Patriot is an early season zonal geranium series with a vigorous growth habit and green foliage. Rosalinda is an absolute stunning variety for the garden center. Its massive, vivid pink blooms with fully double flowers will really wow consumers or impulse purchasing. This is a very vigorous plant that will easily fill out large containers and baskets. 16 colors in the series.

GERANIUM *Savannah* PELARGONIUM ZONAL

Lavender Splash – Savannah Lavender Splash features bright balls of lightly scented lavender flowers with a splash of rose at the ends of the stems. With a superior plant habit, dark foliage, and bright flowers, the Savannah series stands apart from the rest. 18 colors in the series.

GERANIUM *Survivor* PELARGONIUM ZONAL

NEW Orange – Survivor Orange is a beautiful coral-orange and showcases large flowers and green foliage with medium vigor and well-suited for late production.

Geranium Survivor Orange

Geranium Savannah Lavender Splash

Geranium Patriot Rosalinda

Geranium Brocade Fire

Geranium Maestro Idols True Red

GERANIUM *Americana*[®] ZONAL

North America's No. 1 zonal geranium series. The go-to zonal geranium series for core volume-focused programs in medium-sized pots, mixed combos, and baskets. Americana's right balance of medium vigor and series uniformity makes it a great choice for 2.5 qt. geranium programs where growers need versatility and a wide range of color options. Pair Americana's versatility with class-leading garden performance and you have an all-around geranium that works great for the grower and consumer.

Dark Red – This true red is perfect for medium-sized pots, mixed combos and baskets. Americana's offer the right balance of medium vigor and series uniformity. A great all-around geranium that works well for both grower & consumer.

Pink – The semi-double blooms of Americana Pink are a sought-after true pink in color.

Salmon – The bright salmon-pink blooms of American Salmon are big & beautiful sitting atop robust, well-branched plants. The series is versatile & uniform making it one of the most popular collections on the market.

White – A brilliant white that is part of the go-to Americana series. Excellent zonal geranium for both borders & containers.

GERANIUM *Calliope*[®] Cascade

INTERSPECIFIC

Violet – The award-winning Calliope geranium series continues to innovate with the industry's first cascading interspecific geranium. Calliope Cascade has large, intense colored semi-double flowers, blooms all summer, and a vigorous spreading habit. Perfect for growing in high-impact premium hanging baskets, large pots, or landscape plantings. *From Syngenta.*

GERANIUM *Calliope*[®] Large

IINTERSPECIFIC

Dark Red – Blooms are semi-double and a dark, velvety red. Intense Color That Lasts™. An industry-first innovation and still the No. 1 geranium for color and performance. Vigorous habits and maximum flower power make Calliope Large the perfect choice for high-impact baskets and large pots. A wide range of color options, large habits, and all-season performance translates directly into consumer success. 15 colors in the series.

Geranium Calliope[®] Cascade Violet

Geranium Calliope[®] Large Dark Red

GERANIUM *Calliope*® *Medium*

INTERSPECIFIC

The best-selling interspecific geranium series for medium-sized pots and premium retail programs. The Medium Calliope series offers all the benefits of the Large Calliope line in a more space efficient package. The wide range of colors, including unique novelties, are a one-stop option for building the ideal geranium program. Plants work great in combination planters, showing off in the landscape, or planted up in hanging baskets. *From Syngenta.*

Bright Rose – These vibrant bright pink-rose blooms will add a shock of color to your outdoor space.

Crimson Flame – A unique color featuring deep red flowers with hot pink edges; truly eye-catching.

Dark Red – Velvety-red blooms with a great branching habit.

Pink Flame – A novelty color with semi-double blooms in light pink with dark pink markings in the center.

Salmon – The perfect shade of salmon-pink.

White – A true pure white geranium.

GERANIUM *Mantra*™ INTERSPECIFIC

NEW Colors – Making a statement with big blooms, vigor, and dark green foliage. The first and only geranium series that combines the best of interspecific breeding with dark green foliage, excellent branching, and a vigorous upright growth habit. *From Syngenta. New colors: Bright Red, Magenta, and Pink.*

GERANIUM *Rocky Mountain* ZONAL

Big on vigor and heat tolerance. Vigorous zonal geranium series ideal for 2.5 qt. and larger containers. Excellent heat tolerance and bred to thrive all summer in North American climates and landscape plantings. Large round flowers and a wide color assortment provide high-impact retail sales.

Dark Red – A vigorous zonal geranium that is ideal for 2.5 quart & larger containers. Rocky Mountain Dark Red gives you beautiful dark red semi-double blooms.

Geranium Rocky Mountain Dark Red

GERANIUM MARCADA®

Dark Red 23

Deep Coral

Magenta

Pink + Purple Eye

White

Geranium Decora Pink

GERANIUM *Marcada*® PELARGONIUM INTERSPECIFIC

Dark Red 23 – Strong interspecific with an ivy look in a medium vigor semi-trailing habit. This upgrade comes with even more heat tolerance and less sensitivity to oedema. The superior flower retention throughout growing, shipping, and retail make this a powerhouse variety. The Marcada is best in gallons and performs in containers, baskets, and combos. *Colors: Dark Red 23, Deep Coral, Magenta, Pink + Purple Eye, and White.*

GERANIUM *Decora* PELARGONIUM IVY

NEW *Pink* – Featuring large, colorful blooms with unique variegated foliage. These heat-tolerant, trailing ivy type pelargoniums are perfect for cascading baskets and window boxes. Five colors in the series.

GERANIUM *Glacier White* PELARGONIUM IVY

A great-performing, single-flowered ivy geranium that stands up to the heat with unmatched performance and cascades over baskets and window boxes.

GERANIUM *Royal*® PELARGONIUM IVY

NEW *Purple* – These double-flowered, trailing ivy type pelargonium are early flowering for quick turns. These have high oedema resistance for clean foliage. The brilliant blooms shine on healthy foliage with medium-vigor, and a well-branched habit. 22 colors in the series.

Geranium Glacier White

Geranium Royal® Purple

GERANIUM *Moonlight*[®] PELARGONIUM ZONAL

NEW Colors – Dark-foliage, compact, uniform series is perfect for pot-tight production with no pinch necessary! The Moonlight series is early flowering with 3-4 flowers at first flush. Large blooms on an upright plant make this a must-have. The Moonlight is best in quarts or gallons and performs in containers and landscapes. 16 colors in the series; **New: Light Pink + Big Eye, Pink + Big Eye, and Raspberry Blush 23.**

GERANIUM *Sunrise*[®] PELARGONIUM ZONAL

NEW Colors – Green-leaf foliage with medium-vigor is a strong performer. This large-flowered series blooms early and has great color range across the series. The upright habit and uniformity make this a go-to variety. Sunrise is best in quarts or gallons and performs in containers and landscapes. **New colors: Appleblossom, Brilliant Red 23, Hot Coral, and Lavender.**

GERANIUM *Super Moon Red*

PELARGONIUM ZONAL

A large-flowered zonal type pelargonium with dark red blooms and very dark stems which provide a gorgeous contrast. This strong, vigorous, heat-tolerant plant is sure to make you howl with delight!

Geranium Super Moon Red

Geranium Caldera™ Lavender Glow

GERANIUM INTERSPECIFIC
Caldera™

NEW *Lavender Glow* – An eruption of color that beats the heat. Flower intensity and exceptional heat tolerance like Caliente® geraniums, but with a spreading habit. Caldera™ stands out all summer long with a striking combination of dark foliage paired with vibrant flowers. A spreading habit makes Caldera™ a perfect choice for bold landscape plantings, baskets, and heat-tolerant mixed containers.

GERANIUM INTERSPECIFIC
Calliope® Medium

NEW *Bright Rose and Salmon* – Intense Color That Lasts™. The best-selling interspecific geranium series for medium sized pots and premium retail programs. Large double flowers and intense flowering all-season long creates an impact in the garden. Calliope® Medium's wide range of colors, including unique novelties, are a one-stop option for building the ideal geranium program. *New: Bright Rose and Salmon! New in 2022: Dark Red Dark Leaf.*

GERANIUM INTERSPECIFIC
Calliope® Cascade

NEW *Violet* – Spreading Intense Color. The award-winning Calliope® geranium series continues to innovate with the industry's first cascading interspecific geranium. Calliope® Cascade has large, intense colored semi-double flowers, blooms all summer, and a vigorous spreading habit. Perfect for growing in high-impact premium hanging baskets, large pots, or landscape plantings. A semi-trailing habit, 20-24" wide and 12-16" high; plant in full to part sun.

GERANIUM INTERSPECIFIC
Mantra™

NEW *Series* – Making a statement with big blooms, vigor, and dark green foliage. The first and only geranium series that combines the best of interspecific breeding with dark green foliage, excellent branching, and a vigorous upright growth habit. Mantra's™ dark green leaves, brilliant flowers, and habit is similar to the Mojo™ series, but with about 40% more vigor. Large flowers and high vigor like Rocky Mountain™ zonal geraniums – ideal for 2.5 qt. and larger pots. *Colors: Bright Red, Magenta, and Pink.*

Geranium Calliope® Cascade Violet

GERANIUM INTERSPECIFIC

Mojo™

NEW *Magenta* – Brilliant colors and large flowers set against dark green foliage deliver a striking combination. Medium vigor and very well-branched upright habits make Mojo™ the ideal choice for 1.25 qt. to 2.5 qt. pots. A must-have series that works across a range of container sizes and is ideal for bold combination containers. *New in 2022: Dark Pink, and Hot Cherry.*

GERANIUM INTERSPECIFIC

Moxie!™

NEW IN 2022 *Pink Splash* – Moxie!™ is the first and only interspecific geranium series bred specifically for brilliant flowers, unique colors, and space-efficient production in small pots. Excellent branching, heat tolerance, and compact vigor make it the ideal series for small – medium size containers with superior flowering all season long.

GERANIUM IVY

Ivy League™

NEW IN 2022 *Amethyst* – This new ivy geranium has large vibrant amethyst flowers with strong branching and dark foliage, creating interest in hanging baskets. Exceptional heat tolerance, raises the bar for the ivy geranium class.

Geranium Mrs. Pollock

GERANIUM *Mrs. Pollock*

FANCY LEAF / HYBRID

Bright red flowers are nicely set off by the sumptuous foliage which are compact with ruffled, dark green leaves decorated with a narrow band of black bordering the edges. Combined with their lovely leaves, the effect is truly breathtaking. Fancy Leaf geraniums are perfect for borders and containers in full or part shade. Height and spread 18".

Geranium Vancouver Centennial

GERANIUM *Vancouver Centennial*

FANCY LEAF / HYBRID

One of the top brocade type geraniums on the market decades after its introduction. Vancouver Centennial has orange-red single flowers which bloom in clusters and sit alongside beautiful gold and green leaves with a bronze splash. The combination of foliage color and heat tolerance makes this geranium an excellent choice for container or in ground applications.

Geranium Wilhelm Langguth

GERANIUM *Wilhelm Langguth*

FANCY LEAF / HYBRID

Successful on the market for decades, Wilhelm Langguth still belongs to our top selling Pelargoniums. Compact with ruffled, dark green leaves decorated with a narrow band of black bordering the edges. Brightly colored flowers are nicely set off by the beautiful foliage, from early summer to frost. Combined with their lovely leaves, the effect is truly breathtaking. Fancy Leaf geraniums are perfect for borders and containers in full or part shade. Height and spread 18".

Geranium Lemona

GERANIUM *Lemona* HYBRID

Popular since its introduction, Lemona has vigorous flowering and a strong citrus scent, it swirls up every planter or landscape bed. This beautiful pink pelargonium does well in containers, gardens and landscapes; height 10-12". From WFL®.

Geranium Lemona

GERANIUM *Darko*[®] ZONAL

Distinctively different with intense, dark green foliage that really sets off the color of the bloom. Darko[®] geraniums pair up very well with the Elanos series in size, crop culture and timing. The well-structured, compact plants are a perfect fit for any 4 or 6-inch program and mix well in larger containers. *From pac*[®].

Deep Red – This red flowering zonal variety is the most popular green leaf geranium from our program.

Neon Purple – This eye catching purple flower color gets noticed in every planter.

Salmon – The bright orange flower on a dark foliage background will grab the attention of passersby.

Scarlet Red – Vibrant red flowers pop against the deep green foliage.

Velvet Red – Luxurious Velvet Red joins the Darko[®] family with rich dark red flowers. A vigorous variety, these zonal geraniums pack a punch on compact foliage which makes this variety popular for planters and combination pots. *From pac*[®].

White Imp – Sparkling white flowers look pretty as a picture among the contrasting dark foliage.

GERANIUM *Elanos*[®] ZONAL

Compact, allowing them to work well in color bowls, mixed container plantings and hanging baskets. The Elanos series have a medium-vigorous growth habit that offers maximum versatility for growers. The structure of the plant remains neat and tidy at retail. Garden and landscape performance of Elanos is superb with large, full umbels with bright clean colors that really pop. The strong, bright foliage stands up well with the traditional zoning pattern across the leaf. Perfect for the landscape! *From pac*[®].

Bright Red – No need to shine a spotlight on Elanos[®] Bright Red because it shines just fine on its own!

Deep Red – Large flowers with massive foliage volume is why this is the most sold item of the vigorous zonal varieties.

GERANIUM *Flower Fairy*[®] ZONAL

Violet – These gorgeous blooms among rich, resplendent green foliage will catch your eye. Blooms present themselves in early summer and flower until the fall. Perfect for gardens or patio containers. Plant in full sun; height 16", spread 12". *Colors: Berry, Pink, Red Splash, Rose, Velvet, Violet, and White Splash.*

GERANIUM *'Black 'n White'* × PRATENSE

NEW Dazzling white flowers with silver-purple veins have intensely-divided, deep-purple leaves and reddish-brown stems. 'Black 'n White' has the perfect contrasting colors for woodland gardens and the perennial border; height 14". Anticipate blooms in early summer, plant in full sun to part shade; Zone 5. Bulking and vernalization is beneficial but not required. *From Must Have Perennials®.*

LEUCANTHEMUM

Sunshine Freak!™ × SUPERBUM

NEW Attracting butterflies and bees, these cheerful yellow daisy flowers mature from creamy yellow to white. Sunshine Freak!™ blooms in early summer and is a tidy display that reblooms and will bloom without vernalization. Height 10-12". Zones 5-8; plant in full sun. *From Must Have Perennials®. USPPAF*

SALVIA *Bodacious®* × GUARANITICA *Hummingbird Falls*

NEW The first hanging basket Salvia! Hummingbird Falls has dark blue-purple flowers and black calyxes which will bloom from spring through fall; height 12-24". This hummingbird magnet is tender; Zones 7-8. Vernalization not required; plant in full sun. *From PlantHaven. USPP33891*

Salvia Bodacious® Hummingbird Falls

Raspberry Jam

Red Delicious

Geranium 'Black 'n White'

Leucanthemum Sunshine Freak!™

<< Previously Hopewell Nursery >>

Astilbe Delft Lace

ASTILBE *Delft Lace*

Enjoy a show in the garden with Delft Lace. Long, ombre apricot-pink flower plumes sit upright on sturdy, bright red stems. The flower spires which grow up to 3' high, are held above mounds of lacy green to silver foliage. Delft Lace is long lasting; the plumes continue their show, ultimately turning a rich caramel color.

BAPTISIA *Decadence*[®]

Sparkling Sapphires – This newest addition to the Baptisia DECADENCE[®] series will stop you in your tracks with its intensely vibrant flower color. You'll enjoy its vivid violet blue blossoms in late spring, around the same time as peonies and COLOR SPIRES[®] Salvia.

Baptisia Decadence[®] Sparkling Sapphires

HOSTA *Wide Brim*

Tip your hat to the Wide Brim Hosta, a stellar choice for the shady part of your garden. Broad, variegated blue-green and cream leaves create a sturdy mound of attractive foliage. In the summer they are topped with slim spikes of lavender flowers.

LAVENDER *Purple Crown*

Deep purple-violet flowers perch above lovely gray-green foliage. Plant in patio containers, or as a border in a sunny location and enjoy the lovely fragrance from late spring through summer. Lavender Purple Crown attracts pollinators!

LEUCANTHEMUM SHASTA DAISY

Amazing Daisies[®] *Banana Cream*

A superb selection with huge 4-5", lemon yellow flowers which brighten to creamy white. Well-budded plants have an extra long bloom time in summer. A vigorous grower with disease resistant, dark green foliage. Nice in pots or in the garden.

Hosta Wide Brim

Lavender Purple Crown

Leucanthemum Amazing Daisies[®] Banana Cream

PEONY *Sarah Bernhardt*

Gorgeous, double rose-pink flowers with sweet ruffled petals, not only look stunning but smell incredibly fragrant and are huge at 8"! The emerald green foliage will add that extra touch of lushness your garden needs. Sarah Bernhardt is deer resistant, cold hardy and extremely long-lived.

Peony Sarah Bernhardt

PHLOX *Glamour Girl*

Glamour Girl maintains bright green, healthy looking foliage on strong stems all summer, putting on a flower show in mid through late summer.

Phlox Glamour Girl

RUDBECKIA *Little Gold Star*

A knee-high Black-Eyed Susan, with star-shaped golden yellow flowers. Flowers are produced over dark green foliage for a long time. Attracts: bees, birds, and butterflies.

Rudbeckia Little Gold Star

SALVIA *Perfect Profusion*

Soft icy blue flowers cover the perfectly rounded plant. The sheer density of flower stems will certainly catch your eye as you walk past!

SEDUM *Bundle of Joy*

If you love 'Pure Joy' for its fantastic can't-be-beat habit and short stature, you'll love 'Bundle of Joy'. This is a white flowering sport of 'Pure Joy' has the same exemplary performance, as well as an explosion of blooms that cover the dome-like habit.

Salvia Perfect Profusion

Sedum Bundle of Joy

Coreopsis Solanna™
Sunset Burst

Coreopsis Solanna™
Sunshine

COREOPSIS *Solanna™*

Sunset Burst and Sunshine – 1st year flowering. Solanna™ is early, with large semi-double blooms and unique coloring that changes depending on temperature. Prolonged flowering on a tidy mounded habit that is enjoyable all season long. Solanna™ is well branched and self cleaning. No vernalization or bulking needed; a must have for all growers. Hardy to Zones 4-9. Perfect for 5-6" pots and larger, landscapes, and gardens.

DIANTHUS *Delilah™*

Bicolor Purple – Floriferous with semi-double flowers that make an impact. Programmable plants that do not require a cooling period for flowering. Strong colors and highly fragrant will lend to consumer appeal. Zone 4-9.

ECHINACEA *Panama™*

NEW *Red* – The first echinacea available as a URC. Bright scarlet blooms on upright habit that will bloom in weeks 22-24. Zone 5.

ERYSIMUM *Sunstrong™*

NEW IN 2022 *Violet* – Large garden plant that will make a spectacular container plant or landscape staple. Cooling is not required to bring into bloom. Showy violet blooms can be enjoyed all season. Hardy to Zone 6.

GAILLARDIA *Gusto™*

NEW *Series* – This new series of Gaillardia offers four eye-catching colors; Lemon (yellow), Paprika (red), Saffron (golden yellow with an eye), and Sweet Chili (red & yellow bicolor). The focus with the new series is ease of rooting and extended performance in the garden. Cold hardiness Zone 5.

GAURA *Steffi*™

Controlled, upright habit make this gaura ideal for the landscape or as a 'Thriller' in mixed combos. A 'pollinator friendly' genera. Cold hardiness Zone 5.

Blush Pink – 1st year flowering. Large, charming light pink blooms sit on red stems.

Dark Rose – 1st year flowering. Bright pink blooms that continue through the summer heat.

NEW White – This variety includes bright white flowers with clean, green foliage (no red bacterial leaf spots). Steffi™ White makes a lovely addition for perennial gardens.

LAVENDER *Layla*™ *Blue*

Early flowering with large blue spikes distinguish this variety from other angustifolia types on the market. Neat, light green foliage on a mounded habit without vernalization requirements is a grower's favorite. Zones 5–9.

RUDBECKIA *American*

NOTABLE Cold Rush™ – Now available as an URC from Danziger! American Gold Rush™ is being produced at the Danziger Guatemala farm for Intrinsic Perennials. This Rudbeckia is a nice upgrade over Goldsturm that offers a bright golden yellow flower with a longer period of flowering and improved garden habit. Cold hardiness Zone 5.

SALVIA *Apex*™

First year flowering that can be enjoyed from early Spring through Fall. This nemorosa series is exceptional uniform and boasts three perfectly matched colors. Blue, Pink and White round out the series. Zones 4–8.

SALVIA *Dark Matter*™

NEW IN 2022 Deep, dark blue blooms take on a feathery appearance on this rebloomer for all summer color. Strong branching that doesn't require any bulking or vernalization will make this a top perennial pick. Hardy to Zone 5.

ANEMONE *Frilly Knickers* XHYBRIDA

NEW Variety – An award-winning selection from England! Lovely white semi-double flowers with adorable ruffled petals that surprise with a delicate wash of pale lilac on the back; the contrasting dark stems and tough, olive green leaves really help set off the blooms. Frilly Knickers is a tough plant bursting with flowers from mid-summer into early fall. Plant in full sun to part shade; height 24-30". PP33416

Anemone Frilly Knickers

ARTEMISIA *Sun Fern*™ GMELINII

NEW IN 2022 Series – SunFern™ features fern-like textures that thrive in full sun making it perfect for a great accent plant in containers or groundcover in the landscape. Sun Fern™ is low maintenance, drought tolerant, and winter hardy. Plant in full sun to part shade. Height 14-18". Zones 4-9.

Arcadia – Feathery/ferny foliage, in a medium green color with a light silver cast and an upright habit.

Olympia – Feathery/ferny texture and upright form similar to Arcadia with dark green leaves on red stems.

CALAMAGROSTIS '*Karl Foerster*'

XACUTIFLORA

2001 Perennial Plant of the Year. Versatile, attractive and care-free ornamental grass. Deep-green, lustrous foliage in early spring, lasts all the way to winter. Upright clump with feathery plumes. Moist, well-draining soil.

ECHINACEA *Artisan*™

NEW Yellow Ombre – A plethora of very large, single blooms in an intense golden yellow flowers put on a show from early to late summer. This coneflower is a compact perennial that thrives in full sun, and is drought and heat tolerant. Great for beds, borders and gardens; attracts birds, butterflies and bees. Yellow Ombre is slightly taller than the rest of the Artisan series at 24-34", plant in full sun. Zones 5-9.

Calamagrostis 'Karl Foerster'

Echinacea Artisan Yellow Ombre

FESTUCA *'Elijah Blue'* GLAUCA

Probably the most well-known ornamental fescue. Silvery-blue foliage forms a small, dense mound with flower spikes reaching a foot above the foliage. Prefers loose, well-draining soil.

MISCANTHUS *High Frequency*™

SINENSIS (JAPANESE SILVER GRASS/MAIDEN GRASS)

NEW Variety – A tall, erect grass with arching blades in a variegated pattern of gold bands. The foliage is perfect to show off and use as a focal point; an impressive display of feather-like seed heads appears in the Fall for added interest. Plant in a sunny location with plenty of space to grow. Rust resistant, plant in full sun; height 5'. Zones 5-10. An infertile variety from NC State via Darwin Perennials. PPAF

PANICUM *'Heavy Metal'* VIRGATUM

Glaucous blue leaves and a strong upright form create a formal appearance that's softened only by its delicate seed heads. Tolerates a wide range of soil.

PENNISETUM *'Hameln'* ALOPECUROIDES

One of the best fountain grasses for mass plantings. Seed heads appear in July and open greenish-white, turning a creamy tan with maturity. Prefers well-draining soil.

SCHIZACHYRIUM *Shining Star*™

SCOPARIUM (LITTLE BLUESTEM GRASS)

NEW Variety – Catch a Shining Star! Variegation brings a game-changing ornamental look to this stalwart native. Bright basal foliage gleams with green and creamy white stripes. Cooler temperatures in spring and autumn, bring a kiss of pink to the tips; the blades continue to darken to burgundy with deep green stripes in fall. Flower stems stand tall with no lodging. Plant in full sun, grows 18-30" high. Zones 4-10. An Emerald Coast Growers introduction. PP33433

DIANTHUS *Constant Promise*[™]

BARBATUS X CHINENSIS

NEW Colors – Constant Promise is a top garden performer and class leading series! It is the first to bloom and last to stop every year. This variety is day length neutral with no vernalization required. *New colors: Cherry Frost, Papaya, and Red.*

LAVENDER *Lavish*[®] STOECHAS

NEW Purple Frost – A gorgeous fully double Spanish lavender. Lavish[®] is the earliest blooming series available with flowering holding 5-6 weeks! Purple Frost joins top selling Pink, Purple and White. Utility patent granted; unsurpassed shelf life.

LEUCANTHEMUM *Whisker*[™] X SUPERBUM

NEW White – A complete reinvention of the “crazy daisy” type of shasta. Whisker[™] White is completely day length neutral and requires zero cooling hours to bloom. This is scheduling ease for all growers. It’s massive five to six inch flowers will continue in the garden all growing season. Zone 4.

LUPINE *Staircase*[®]

NEW Colors – An all new selection to the wildly popular Staircase[®] series will explode onto the market next season. This bicolor Staircase[®] promotes rose and yellow shades, clearly living up to its name. Like all Staircase[®], Pink Grapefruit blooms via temperature and not cooling or daylength. It is ready to show off any time of year! Zone 4. *New colors: Dark Blue/White, Pink Grapefruit, and Purple.*

RUDBECKIA *Dakota*[™] HIRTA

NEW Colors – This daylength neutral, Zone 5 perennial boasts four to five inch large fully double blossoms all growing season. Completely day length neutral allows sales any time of year! Delivered via liners or unrooted cuttings it also saves input costs versus tissue culture. Mature height of 18-24” and width of 18-20”. *New colors: Double Gold, and Flame.*

Salvia White Full Moon

Sedum Majestic Kiss

SEDUM *Majestic Kiss*

Beautiful bright green with dark edge, succulent foliage. Trailing, low growing, dense habit. Heat and drought tolerant, low maintenance. Excellent for trailing from containers, window boxes, small ground cover, rock gardens and miniature gardens. US Zone 6–9.

SETCREASEA *Tricolor*

This very attractive, variegated succulent foliage is striped in green, glorious shades of pink and startling white. Setcreasea Tricolor adds beautiful contrast in beds, rock gardens, as ground cover or a filler in hanging baskets and containers, they also thrive indoors. They are low growing, but dense, with a trailing habit. Heat and drought tolerant, easy to grow and very low maintenance. US Zones 8–11.

SETCREASEA *Zebrina*

Wildly cool, these fun zebra patterned succulent foliage is striped in purple and green with two broad silver stripes on the top side of the leaf. Setcreasea Zebrina adds beautiful contrast indoors or in beds, rock gardens, as a small ground cover or filler. They are low growing, but dense, with a trailing habit. Heat and drought tolerant, easy to grow and very low maintenance. US Zones 8–11.

Setcreasea Zebrina

Setcreasea Tricolor

NEW

Achillea Common Yarrow

ACHILLEA '*Common Yarrow*' MILLEFOLIUM

NEW Variety – Naturalized yarrow has soft, fern-like foliage that provides textural interest in the garden. Flower heads are compact clusters of small yellowish-white ray and disk flowers that sit atop sturdy, upright stems. Beloved by pollinators, yarrow spreads by rhizome and can be trained into full sun lawn substitute. The primary bloom time is in midsummer but will sporadically rebloom through the rest of the growing season. Common Yarrow grows 1-3' wide and tall.

NEW

Baptisia Yellow Wild Indigo

BAPTISIA '*Yellow Wild Indigo*'

SPHAEROCARPA

NEW Variety – A riot of yellow in late spring and early summer! This has long been our favorite of the baptisia species. The rounded blue green leaves adorn the 18" tall x 18" wide clumps. In mid to late April, the clumps are topped with stupendous 12-15" tall spires of pure yellow flowers, followed in late summer by spherical tan seed pods.

NEW

Lysimachia Burgundy Mist

LYSIMACHIA '*Burgundy Mist*'

LANCE-LEAVED LOOSESTRIFE / LANCEOLATA

NEW Variety – Short in stature with continuous cheerful yellow blooms, and exquisite bronze foliage. Throughout the summer, the diminutive flowers twinkle and bloom a bright yellow, contrasting with the maroon leaves. Burgundy Mist is tough-as-nails with terrific heat tolerance, and makes the perfect groundcover. This native gem is low maintenance and keeps weeds at bay! Lysimachia Burgundy Mist is truly a 3-season all-star!

MONARDA '*Judith's Fancy Fuchsia*'

BEEBALM

NEW Variety – A taller beebalm cultivar, the purplish-red hues of Judith's Fancy Fuchsia is a standout in the garden. Peak bloom occurs for over three weeks with two weeks bloom window on either side. A fan favorite at Mt. Cuba Center's Monarda trials thanks to superior resistance to powdery mildew—this selection boasts sturdy, upright stems, and a prolific floral display of purplish red flowers atop clean green foliage.

NEW

Monarda Judith's Fancy Fuchsia

MONARDA '*Purple Rooster*'

BEEBALM

NEW Variety – The darkest, truest purple flowers to come out of Mt. Cuba's bee balm evaluations—this selection has upright rigid stems, strongly verticality, and an unusual, rough, sand-papery texture to its foliage. Very resistant to powdery mildew.

NEW

Monarda Purple Rooster

PHLOX THICKLEAF PHLOX / SPP. CAROLINA

NEW *'Kim'* – Bright pink five-petaled flowers are open and airy, resting just above very narrow foliage; blooming summer into early autumn, Kim forms a nice mat along the front of the perennial border. Stems are sturdy; foliage remains clean throughout the growing season. Foliage is mildew resistant; more linear than *P. paniculata*. Kim prefers a shaded area where its open and airy, bright pink flowers bloom from summer into early autumn.

Phlox Kim

SCUTELLARIA *'Appalachian Blues'*

SKULLCAP

NEW *Variety* – There's a new Scutellaria in town! Appalachian Blues is a seed selection from a naturally occurring hybrid between *S. ovata* and *S. serrata*. Rediscover the beauty and versatility of Scutellaria! Growing to only 2' tall in flower, this new perennial can take sun or shade, loves dry soils and produces the most wonderful, large, purple and white bicolor flowers that bumblebees adore, but the real beauty rests along the dark cast to serrated leaves margins. Adapts to both sun and shade, with spikes of bicolor purple-white flowers that bloom for weeks on end. PPAF

Scutellaria Appalachian Blues

SOLIDAGO *'Zigzag Goldenrod'*

BROADLEAF GOLDENROD / FLEXICAULIS

NEW *Variety* – Distinguished by zigzag stems and broad, toothed leaves, this solidago flexicaulis brings pollinators to your dappled shade areas with a subtle yellow flower clusters in mid-summer to fall. A hardy native perennial, it tolerates deer, shade, and clay soils. A great, compact pollinator plant for part shade conditions. Semi-evergreen basal leaves provide excellent erosion control.

SORGHASTRUM *'Golden Sunset™'*

YELLOW PRAIRIE GRASS / NUTANS

NEW *Variety* – Selected for upright stature, clean foliage, and plentiful early to bloom golden-bronze flower plumes—this gem grows on a wide variety of sites and soils with winter hardiness to zone 3! When in need of a native warm season grass with the verticality of *Calamagrostis 'Karl Foerster'*, your search ends with *Sorghastrum Golden Sunset™*. PPAF

Solidago Zigzag Goldenrod

Sorghastrum Golden Sunset™

TRICYRTIS *'Miyazaki Hybrids'*

TOADLILY / HIRTA

NOTABLE *Variety* – Growing under 2' tall, these toadlily types bear purple-speckled flowers along gently arched stems—with more gently arching stems than the straight species and a clumping nature unlike other rhizomatous toadlilies on the market. Miyazaki Hybrids are best showcased along a pathway or near a seating area in the garden, as their unique flowers are certain to draw attention. A wonderful addition to the fall shade garden.

Tricyrtis Miyazaki Hybrids

Aubrieta Glacier™ Red

Aubrieta Glacier™ Violet

Aubrieta Glacier™ Red

AUBRIETA *Glacier™*

NEW IN 2022 – Glacier™ is the newest addition to Syngenta's best-in-class Aubrieta breeding program. This series is complementing to the best-selling Axcen™ series. Glacier™ flowers on average 2–3 weeks later than Axcen™ and is slightly more compact, making it an ideal season extender for Aubrieta programs nationwide.

CAMPANULA F1 *Clockwise™*

NEW IN 2022 Compact White Blush – The first F1 Campanula portenschlagiana offering fast, uniform production. First-year flowering with no vernalization period needed. Dark blue flowers along with matching White Blush on a dense, compact habit requiring less PGRs with highly uniform in habit and flowering time.

Campanula F1 Clockwise™ Compact White Blush

IBERIS *Mermaid Lavender* X HYBRIDA

NEW IN 2022 – The first lavender flowering Iberis to extend the season and add color to this perennial class. This new item is first-year flowering and has a rich lavender color from spring to summer.

IBERIS *Whistler™* CANDYTUFT

NEW White – F1 seed creates uniformity in both habit and flowering for early spring and spring shipping windows. Whistler is a very compact perennial with beautiful small white flowers. It is suitable for partial shade, expect flowers in March and April.

Iberis Mermaid Lavender

DELPHINIUM *Delphina™*

NEW Colors – 1st year flowering. The first compact series of Delphinium available. Delphina is notable for a naturally compact habit allowing for ease of production and less reliance on PGRs. Delphina's distinct colors are ideal for spring and summer perennial programs and work well in 2.5 quart and larger containers. Colors: Dark Blue Black Bee, Dark Blue White Bee, Light Blue White Bee, and Rose White Bee. **New: Pink White Bee and White Black Bee.**

NEW DELPHINIUM DELPHINA™

Pink White Bee

White Black Bee

Iberis Whistler™

ERYSIMUM *Canaries™*

NEW IN 2022 *Yellow Imp* – Improved Canaries Yellow is later to bloom with a longer bloom time, making it better timed for retail. Very early to flower with a vernalization period. Compact habit makes growing at high-density spacing easy. Expect a showy display of vivid yellow blooms on compact plants.

Erysimum Canaries™ Yellow Imp

LITHODORA *Tidepool™* DIFFUSA

NEW *Sky Blue* – Tidepool™ has a true blue stand-out color and tidy habit creating great producibility. The habit is fuller and refined with large quantities of intense blue, star-shaped, tiny flowers all over the plant. Blooms from late spring through mid-summer. Use in a pot, in rock gardens or as ground cover.

Lithodora Tidepool™ Sky Blue

SAXIFRAGA *Alpino™ Early*

NEW IN 2022 – A gamechanger in Saxifraga breeding, Alpino Early is very free-flowering with large blooms in stunning colors. Offering a more vigorous plant habit and is approximately 2 to 4 weeks earlier compared to Touran™ Saxifraga series. *New colors: Carmine, Picotee Imp., and White Imp.*

SAXIFRAGA *Lofty™* × ARENSII

NEW *Dark Rose Shades* – Seed series that creates versatility with Saxifraga. Large flowers and vigorous plants make Lofty a highly competitive alternative to cuttings. Very uniform with short flower stems for easy planning and production. A bright addition to the early spring perennial retail assortment. *Colors: Pink Shades, and White Blush.*

Carmine

SPANISH LAVENDER *Javelin™*

NEW *Compact Purple* – A new compact addition in the Lavender Javelin™ Series. Large brightly colored blooms are held on strong well-branched habits. Exceptional disease tolerance holds up through the rigors of production and into the garden. The perfect choice for continual color from early spring to fall. *Colors: Deep Purple, Deep Rose, and White.*

White Imp

Spanish Lavender Javelin™ Compact Purple

Saxifraga Lofty™ Dark Rose Shades

Agastache Pink Pearl

AGASTACHE *Pink Pearl*

NEW Mid-sized, full, and compact mound of large flower spikes. Incredibly unique, glowing light pink color brightens any garden. Different from other Agastache with large, dense blooms that cover the entire plant and appear a dynamic two toned with deeper colored flower buds contrasting nicely.

BERGENIA VINTAGE™

Blush

Pink

Rose

BERGENIA *Vintage™*

NEW Blush – A medium sized, paddle shaped foliage in a rich pine-green color that deepens with cold weather. The spring bloom is amazing; great numbers of flowering stems that are branched with several layers of flowers that are long lasting. ‘Blush’ features a cascading style of flower truss; upright, with flowers held like an orchid. Lovely blush Pink flowers have a deep rose-colored eye.

NEW Pink – Medium-small Jade to Emerald green foliage looks great even during the summer months. Flowering in early spring, VINTAGE ‘Pink’ puts on a fantastic display of rose-pink flowers in huge clusters. The waxy flowers last for over a month and have a light fragrance also.

NEW Rose – A very solid plant. Large clusters of bright rose flowers are held just above the lovely small, green foliage. Excellent scale in every aspect. The ratio of flowers to foliage is great, as is the complimenting flower and foliage color. The rich, moss green foliage deepens in the winter and adds a beautiful Burgundy halo around the edges of the foliage.

Dicentra Amore Titanium

Echinacea Cara Mia™ Sands

DICENTRA *Amore Titanium*

NEW Absolutely one of the most pure, true white flowers we’ve seen in ages. The floral display of this Dicentra is stunning against the soft blue-green foliage. Exceptional vigor and easy culture make this new Bleeding Heart a garden essential. As with all the AMORE’s, they are very heat resistant and flower for many months, spring through summer.

ECHINACEA *Cara Mia™*

NEW Sands – Incredibly heavily flowering, beautiful double echinacea, CARA MIA™ Sands reminded us of a gorgeous white sand beach with its clean crisp look. Compact, but dense foliage support abundant flowering with glowing white petals, cream colored cone, and bright green eye. Well balanced, does not flop despite substantial bloom size and count.

Echinacea Dark Shadows™ Mystic

ECHINACEA *Dark Shadows™*

Mystic – Perfect, single true pink flowers absolutely cover this **NEW** amazing upright hybrid Echinacea. Features lush green foliage and a nicely contrasting dark cocoa colored eye. Flowers emerge a bright shell pink and as the color shift progresses, the eye becomes the color of red velvet cake and the petals turn an antique pink.

ECHINACEA *Prima™*

NEW *Amarillo* – Dazzling bright golden yellow blossoms on verdant bright green foliage are complemented by an emerald green shifting to sunny yellow cone. Compact yet vigorous, PRIMA™ 'Amarillo' looks great for summer retail sales. Ideal for containers, also great for front of beds and borders. Well branched with multiple crowns, blooms the first year with numerous flowers.

NEW *Berry* – We love the deep and dramatic color on this petite powerhouse Echinacea PRIMA™ 'Berry'. The dark berry pink colored petals are long and draping, like a gorgeous formal dress. The largest flowers we have seen on such a tight, compact habit. Well branched with multiple crowns, blooms the first year with numerous flowers.

NEW *Tiger* – Gorgeous, large daisy-like flowers of warm autumnal tones cover this stout plant for months. Fragrant, a great pollinator attractor and easy to grow. Excellent foliage right down to the ground and perfect for containers.

KNIPHOFIA *Rocket Jr.*

NEW The color intensity on this dwarf red hot poker is out of this world! Each conical flower is a fiery deep red orange shifting to a golden afterburn. Blooms are held tight within and above upright grass like foliage. Blooms summer through frost with new flowers pushing up through the foliage nonstop.

PENSTEMON *Flock of Flamingos*

NEW Large, clump forming Penstemon with attractive shrimp pink flowers that shift to baby pink as they age. Very long bloom period and masses of flowers. Statuesque and graceful, great addition to cottage gardens. Useful in the garden as a pollinator attractor, beloved by bumblebees.

PULMONARIA *Raspberry Frost*

NEW A rare and beautiful sport of the very popular Raspberry Splash Pulmonaria. As easy to grow as the original, Raspberry Frost is enhanced by a cream-silver margin and a heavily veiled leaf surface for added interest. The bright coral-red flowers are showy in early spring and when finished are covered by newly emerging foliage for a very clean look. A fresh look for this popular plant.

RUDBECKIA *Lion Cub*

NEW This unique little annual Rudbeckia will wow you with its cuteness and longevity. It naturally forms a tight mound of emerald green foliage topped by pom pom perfect golden yellow flowers centered with a dark chocolate eye. Each flower is covered with a sunburst of strap thin petals, which do not brown or fade but develop a contrasting red edge with age. Blooms June through October; fast and vigorous.

The Brand Gardeners Trust®

AGASTACHE *Meant To Bee™*

NEW Colors – The buzz has begun over this new collection of Agastache from Proven Winners® Perennials. Selected for their large, full habits, significant landscape presence, and hardiness. Each variety has reliably overwintered in our Zone 6, West Michigan winters. Flowers cover the top two thirds of these plants from mid to late summer, with colorful calyxes extending interest well into fall. Pollinators enjoy these plants and they are a particular favorite of hummingbirds.

Queen Nectarine – Soft peach flowers are held on mauve calyxes; noticeably taller than Royal Raspberry. Best performance comes in full sun with well drained soils.

Royal Raspberry – Royal Raspberry has rosy purple flowers with burgundy calyxes. New foliage emerges with a burgundy cast in spring. Best performance comes in full sun with well drained soils.

NEW

AGASTACHE MEANT TO BEE™

Queen Nectarine

Royal Raspberry

ASTILBE *Dark Side of the Moon*

NEW – An instant classic for the landscape! Dark Side of the Moon is the only dark leaved Astilbe with purple flowers on the market. Rich deep chocolate brown leaves form an incredibly attractive mound of foliage. Emerging leaves are yellow with a dark margin and a glossy sheen that become completely dark as they age. Dark stems hold raspberry buds that burst forth with rosy purple flowers. This performs best both for growing and flowering in full sun in the north with adequate moisture, but also grows in shade. An Astilbe chinesis hybrid—showing off through the flower color, shape, and height.

NEW

ECHINACEA DOUBLE CODED™

Butter Pecan

Raspberry Beret

NEW

Astilbe Dark Side of the Moon

ECHINACEA *Double Coded™*

NEW Series – A complementing series of fully double Coneflowers to the single flowered COLOR CODED® collection. Varieties in this series have prolific floral production seated atop dense rosettes of foliage. Broad, horizontal ray petals maximize flower size. Plants are low, wide, and well-branched allowing for use along the front of the border. Enjoy as these perennials burst into life under the heat of midsummer.

Butter Pecan – Gorgeous, full double, 4" wide soft melon flowers are a sight to behold.

Raspberry Beret – Fully double intense raspberry pink flowers, 4" wide, with ray petals to match. Petals are slightly lighter than the cone.

NEW

Heuchera Dolce® Frosted Berry

HEUCHERA *Dolce®*

NEW Frosted Berry – A sport out of the 2023 National Perennial of the Year®, Wildberry, with matching habit, leaf size, and exceptional landscape performance. Huge 5-6" silver leaves with charcoal veins. New leaves have a slight blush, or "frosting" to the leaves. Charcoal stems hold white flowers on rosy pink calyxes. An excellent choice for container gardens or for use in mixed containers. Site in well-drained soil for the best landscape performance. Compared with 'Silver Gumdrop' this has a taller, more rounded habit and has smaller light pink to white flowers instead of dark pink.

HIBISCUS *Summerific*®

NEW *Lilac Crush* – A rare color among Hardy Hibiscus! Lilac flowers open 7-8" wide with overlapping petals of a thick substance. The flowers will have cool tones under low temperature conditions. An upright, columnar habit that is very sturdy and resists lodging. Maple-like leaves are a rich green.

NEW *Valentine's Crush* – Love is in the air with this new cherry red Hardy Hibiscus from Proven Winners®! Valentine's Crush replaces Cranberry Crush in the SUMMERIFIC® Collection. Compared with Cranberry Crush, this variety has brighter red flowers that open fully flat at 7-8" wide. Leaves have a large, ovate shape giving a full appearance; it has a dark bronze cast in full sun. Valentine's Crush has an upright, columnar habit that is very sturdy and resists lodging.

MONARDA *Upscale*™

NEW *Series* – Raise your expectations with this robust, substantial landscape monarda. Taller than others on the market, UPSCALE™ averages 2-2½' tall and wide with flowering performance that covers the top half of the plant. Excellent for landscape plantings and as a border filler. Well branched stems support a second flush of flowers that extends the length of bloom, which will delight both gardeners and the bees.

Lavender Taffeta – Dark lavender purple flowers cover shiny, dark green foliage.

Pink Chenille – Large, 3½" fluorescent pink flowers have lighter pink interiors for a two-tone effect.

Red Velvet – Large cherry red flowers. The tallest variety in the collection. Newly emerging foliage has a bronze cast.

PANICUM *Prairie Winds*® VIRGATUM

NEW *Niagara Falls* – Notably wide for a Panicum, or Switch Grass, Niagara Falls is excellent for filling space in the landscape. This native ornamental grass that appears like a Miscanthus in the landscape with arching foliage, but adds the powder blue color characteristic of Switch Grass. In fall, sprays of cream seed heads pack the top of the plant.

SEDUM *Rock 'N Round*™

NEW *Bright Idea* – This hybrid Stonecrop has a similar appearance and blooms in early summer. The habit is polished with a rounded, mounding habit similar to Sedum Pure Joy. Red stems hold deep green, serrated leaves and clusters of bright yellow, star-shaped flowers. This tough perennial is perfect for hot, dry areas in the garden or as a filler in mixed containers.

VERONICA *Magic Show*®

NEW *Ever After* – Among the longest blooming Veronica (Spike Speedwell) now available. Ever After has flower spikes almost a foot in length, with each spike showing color for many weeks. An excellent season extender! In peak, flowers cover the top two thirds of the plant. The flowers are self-cleaning, resulting in a fresher looking plant in the landscape. Vernalization required for best performance.

NEW

Echinacea Artisan™ Yellow Ombre

BEGONIA *Bionic*™

NEW Colors – A powerful solution for both landscape and containers! Distinguished by an exceptionally well branched and symmetrical plant habit that offers a superior pot and garden fill. Excels in sun or shade and loves the heat, providing season-long color, even in challenging environments. Well matched bronze and green leaf varieties are easy to program to create uniform container and landscape displays. Expands garden application options with self-cleaning, extra large flowers and a more vigorous plant habit than Tophat™. *From Syngenta Flowers. Colors: Bronze Leaf Red, Bronze Leaf Rose, Green Leaf Pink, and Green Leaf Red.*

BEGONIA *Hula*™ SPREADING/INTERSPECIFIC

NEW Colors – The addition of this unique spreading begonia to our portfolio that includes Dragon Wing®, BabyWing® and Megawatt™ allows us to expand our offering of begonias that look great on the retail bench! Hula™ looks amazing as well in hanging baskets and mixed containers, providing an additional opportunity to offer a more premium product. Plus, it is fast to fill in landscape beds, creating a blanket of flowers with high-impact color! *From PanAmerican Seed. Colors: Bicolor Red, Blush, Pink, and Red.*

ECHINACEA *Artisan*™ Collection

NEW Yellow Ombre – Joining the Artisan Collection of seed Echinacea that offers consistency of plant structure for uniform and highly branched, full plants. The series also provides uniformity of flowering, so all plants are ready to sell at the same time. Plus, the benefit of a seed input provides flexibility for production, so it fits better in your schedule. *From PanAmerican Seed. Colors: Red Ombre, Soft Orange, and Yellow Ombre.*

IMPATIENS *Solarscape*™ INTERSPECIFIC

NEW Colors – Solarscape™ seed-propagated interspecific impatiens provides unbeatable color in full-sun garden beds and containers. Durable Solarscape™ performs just like vegetative varieties with the flexibility of seed. Landscape growers will appreciate this option for non-branded needs in-ground that grows strong in the sun! *From PanAmerican Seed. Colors: Magenta Bliss, Neon Purple, Orange Burst, and White Shimmer.*

PENTAS *Beehive™ White* LANCEOLATA

The one and only spreading Pentas from seed. Excellent basal branching makes for full and fast hanging baskets and landscape applications. Superior branching creates full coverage of flower for unending color in extreme conditions. Perfect for combination use in high heat. *From Syngenta Flowers.*

Pentas Beehive™ White

Rudbeckia Goldblitz

RUDBECKIA *Goldblitz* FULGIDA VAR. SULLIVANTII

NEW Variety – Here’s a new first-year-flowering solution for growers that cannot finish Goldsturm under their natural growing conditions. Goldblitz provides a more economical input option for natural daylength growers, as the plugs do not require special treatment to perform to the same quality as Goldsturm. *From PanAmerican Seed.*

VINCA *Virtuosa* CATHARANTHUS ROSEUS

NEW Series – Compact and uniform in habit and good basal branching in pots. It performs well in the garden, pots or mixed containers. Thrives under a wide range of conditions and is especially suitable for warm and humid areas. *From Sakata. Colors: Orchid, Peach, Pink, Raspberry, and True Blue (not pictured).*

BEGONIA *Bada Bing*[®] SEMPERFLORENS

TOP SELLER: Matching, early flowering, green and bronze leaf varieties; Perfect for main season sales. Very early flowering with a narrow bloom window for quick turns and bench-run production. Compact, well-branched plants ideally sized for high-density growing in packs and small pots. Strong germination and seedling vigor to optimize production from sow to finish. *From Syngenta Flowers. Colors: Pink Imp., Rose, Rose Bicolor, Scarlet Imp., White, and Mix.*

BEGONIA BADA BING[®]

CALENDULA *Bon Bon Mix* OFFICINALIS

TOP SELLER: These bright and cheerful, fully double flowers are one of the most celebrated blooms of any calendula. Bon Bon Mix is perfectly dwarfed with pops of bright yellow and orange pom-pom like blooms. These are vigorous garden performers are excellent in borders, pots and as cuttings. *Colors: Apricot, Light Yellow, Orange, Yellow, and Bon Bon Mix. From Benary.*

DIANTHUS *Floral Lace Mix*

CHINENSIS X BARBATUS

TOP SELLER: Gorgeous extra-large, lacy-edged flowers with bright green leaves make quite the statement. Floral Lace Mix is not only early flowering with huge 1.5" beautiful blooms, but it's tough, and grows well in challenging conditions as an annual or biennial. Good for high-density spring and fall pack or small pot programs. *From PanAmerican Seed.*

IMPATIENS *Imara XDR* WALLERIANA

TOP SELLER: Take back the shade! The first Impatiens walleriana with a high degree of resistance to downy mildew. Proven landscape performance that fights back with reliable flowering all season long. Easy and economical to produce, with a compact branching habit ideal for high-density growing in packs and pots. A complete range of core and novelty colors in one disease-resistant series. 15 colors in the series. *From Syngenta Flowers.*

PANSY *Delta*[™] *Premium*

TOP SELLER: Spring or fall, the most uniform growing and flowering pansy series on the market. Delta[™] offers the widest range of perfectly matched core and novelty colors and mixes in its class, with large, cheerful, upright-facing flowers. Identical growth and flowering windows eliminate the need to pick and choose among series for colors or season. A tightly branched habit resists stretching, so plants require fewer growth regulators, ships easily, and holds longer at retail. Ideal for high-density finishing. Extra early and uniform flowering under the short days of early spring and late fall, provides fast greenhouse turns and reliable color. *From Syngenta Flowers.*

Begonia Cocktail® Vodka

BEGONIA *Cocktail*® *Vodka*

TOP SELLER: The bestselling fibrous begonias in the world! This pretty little red number packs a powerful punch! Blooms after blooms with cheery yellow centers pile on top of shiny bronze foliage. Use in packs, pots, containers and in the landscape. Plant in full sun or shade; height 9". *From Benary.*

BEGONIA *Dragon Wing*® *Red*

TOP SELLER: Angel-wing leaves and large blooms give Dragon Wing a dramatically different look. Unique and beautiful arching, pendulous habit is spectacular in hanging baskets, large containers and commercial landscape plantings. Features best-in-class "bulletproof" performance, fast fill-in, and an easy-care nature. Grows lush and vigorous in southern U.S. heat and under cool, stressful conditions of northern Europe and Canada. Easy to grow from pelleted seed, it surpasses vegetative varieties for branching, vigor and "flower power." *From PanAmerican Seed.*

BEGONIA *Super Olympia*®

TOP SELLER: This begonia performs in the widest array of conditions. Early flowering and uniform, with large, bright blooms and succulent heart-shaped leaves. The foliage is dark green with bits of coppery-bronze throughout. Vigorous and low maintenance Super Olympia® is perfect for containers, beds or the landscape. Plant in either sun or shade; height 11". *From Benary.*

Begonia Dragon Wing® Red

DUSTY MILLER *Silver Dust*

TOP SELLER: This, "you-just-want-to-touch-it", velvety foliage is silvery white and finely cut. Silver Dust adds needed contrast and texture to beds and borders. Size and uniform habit also make this Dusty Miller type perfect for container plantings. Height and width 10". *From Benary.*

GERBERA *Cartwheel*® JAMESONII

Large, semi-double blooms come in distinctive designer hues. Multi-blooming, vigorous plants are ideal for larger premium pot programs. Superior shelf life compared to the competition, with reduced leaf stretch or yellowing and longer flower life. Seed-produced plants are an efficient and cost-effective alternative to tissue culture liners.

Begonia Super Olympia® Mix

Dusty Miller Silver Dust

Gerbera Cartwheel® Strawberry Twist

PANSY *Delta Premium*

TOP SELLER: Offers the widest range of perfectly matched core and novelty colors and mixes in its class, with large, cheerful, upright-facing flowers. Identical growth and flowering windows, across the premium range, eliminate the need to pick and choose among series for colors or season. A tightly branched habit resists stretching, so plants require fewer growth regulators, ship easily, and hold longer at retail. Ideal for high-density finishing. Extra early under the short days of early spring and late fall, provides fast greenhouse turns and reliable color. *From Syngenta Flowers.*

PANSY *Inspire® Plus*

TOP SELLER: A new milestone in large-flowered pansies! Pansy Inspire® Plus is the most advanced breeding in large-flowered pansies. These beauties are uniform and compact with shorter flower stems – and the plants don't stretch! Plant in full sun, works in packs, pots, mixed containers and landscape, or mass plantings; good overwintering. *From Benary.*

PENTAS *BeeBright™*

NOTABLE: Fastest finish for packs and small pots, about one week faster than the competition. Tight uniformity and consistent compact habit across all colors. Extremely free flowering with fast flower follow up in the greenhouse and the garden. Available in a mix and five distinct colors including 'Best In Class' BeeBright™ Red.

VINCA *Cora® XDR* CATHARANTHUS ROSEUS / UPRIGHT

NOTABLE: Season-long flowering and survival in landscape plantings. Highly resistant to 10 of the most virulent isolates of *Phytophthora nicotianae* that cause *Phytophthora* blight on annual vinca. Easier to grow, improved branching, uniformity, and free-flowering ideal for premium packs and small to larger pots. Large showy flowers in a wide range of solid and bicolor patterns. Available in 11 colors a mix.

VIOLA *Penny™ Yellow*

TOP SELLER: Thoughtful growers grow Penny. Early flowering and uniformity across a wide range of colors make Penny™ suited for high density production in packs and small pots for both fall and spring. Tightly branched and non-stretching habit under warm conditions offers longer shelf life and reduces the need for PGRs. A multitude of flowers creates long-lasting landscape displays, and a strong root system ensures reliable overwintering performance. *From Syngenta Flowers.*

Viola Penny™ Yellow

PANSY *Inspire® Plus*

BEGONIA F1 BIG®

Red w/Green Leaf

Rose w/Bronze Leaf

Begonia Bossa Nova™ Orange

Begonia Gryphon

BEGONIA NONSTOP®

Fire

Pink

Red

Yellow

BEGONIA F1 Big® X BENARIENSIS

The most trusted begonia in its class. Period. BIG® is the most vigorous, and well-branched landscape begonia on the market. The large 3", showy flowers are held above the foliage for maximum show. BIGS® are 2 weeks earlier than competing varieties, and they thrive in a wide range of climates and soils; can be planted in sun or shade. *From Benary.*

BEGONIA Bossa Nova™ Orange

Bring the carnival to your containers! Brilliant blooms in a full range of colors offer a perfect seed alternative to vegetative varieties. Fills multiple container sizes with an abundance of color due to the well-branched habit and short internodes. Excels in a variety of climates and conditions including heat, sun, and shade. *From Syngenta Flowers.*

BEGONIA Gryphon X HYBRIDA

These easy to care for, low-water plants, blend beauty with durability to make dramatic mixed or solo containers. Gryphon fits into existing begonia plug culture and is easier and quicker to produce than vegetative foliage types. This particular variety is more tolerant of stress than Rex begonias for less shrink. Retailers will appreciate the longer sales window and versatility for outdoor container and indoor potted plant sales. And consumers can extend their enjoyment by bringing Begonia Gryphon indoors at the end of the season. *From PanAmerican Seed.*

BEGONIA Nonstop® TUBERHYBRIDA

The industry leader in tuberous begonias, Nonstop® has large 3-4", fully double flowers and early, lateral branching yielding a full, mounded plant habit. Best for premium quality production. Use in garden beds, patio containers and landscapes, hanging baskets and window boxes. Plant in part to full shade; height 10". *From Benary.*

GERBERA

Cartwheel® Strawberry Twist

Beautiful shades at every turn. Large, semi-double blooms come in distinctive designer hues. Multi-blooming, vigorous plants are ideal for larger premium pot programs. Superior shelf life compared to the competition, with reduced leaf stretch and yellowing, and longer flower life. Seed-produced plants offer a cost-effective and efficient alternative to tissue culture liners. *From Syngenta Flowers.*

GERBERA F1 *Majorette Mix* JAMESONII

Majorette is very uniform and perfect for quarts and larger containers with multiple plants. Abundant stems and long-lasting large flowers make for irresistible retail appeal. Gardeners LOVE daisies! Available as Slick Coat for streamlined sowing and singulation. *From Sakata.*

GERBERA *Revolution™ Select Mix*

Flower timing is synchronized across the color range in each Revolution series, so your product flows smoothly. No surprises... you grow, pick, pack and ship just as you planned. High uniformity enables a consistent, fully programmable, high-density crop year-round. 11 colors in the series. *From PanAmerican Seed.*

GERBERA *Colorbloom™ Mix Imp*

Stays tidy for smaller pots; ColorBloom™ stays compact, so it won't get too full or leafy, allowing the colorful blooms to show through in quarts/11-cm pots. Faster to flower by around 10 days, ColorBloom beats the competition to market. And, first-time plant buyers will love the exciting, non-fading colors and easy care of this indoor/outdoor plant. *From Pan American Seed.*

Gerbera F1 Majorette Mix

Gerbera Revolution Select Mix

PRIMULA F1 *Sweet 16*

Pink Shades – Enchanting, color-changing blooms open white and mature to a lovely rosy-pink with a delicate fringe of white. As Primrose Sweet 16 continues to change, blooms fade to a soft blush pink. The hardy and robust habit with bright green leaves add plenty of vigor and ground cover. Plant in beds, borders and containers. Flowers three weeks earlier than Danova, with a slightly bigger plant. *From Sakata.*

RANUNCULUS *Sprinkles*

Mix – Ranunculus Sprinkles Original is a half-height pot ranunculus with fresh, bright colors. The plant has uniform blooms, a fine leaf structure and a compact, full structure. Sprinkles Original performs best at low temperatures. In addition, this variety requires less growth regulator. *From Schoneveld Breeding.*

Dianthus F1 Chiba™ Auricula Mix Imp.

Dianthus F1 Chiba™ Pink

DIANTHUS F1 *Chiba*™ INTERSPECIFIC

NOTABLE Colors – The hybrid of chinensis and barbatus makes for some very intricate color patterns in their flowers. Auricula Mix takes some of the most eye-catching patterns and color combinations to create this unusual and highly attractive mix. One of the advantages of interspecific crosses is that these offspring of the cross bear no seed, so plant efforts go into rapid repeat of flowering. This allows them to create beautiful displays all season long. *Notable colors: Pink, and Auricula Mix.*

DIANTHUS F1 *Diana*

Salmon Improved – Improved for better uniformity of flowering in the series. Early to flower, a compact plant habit and an unmatched color range make the Diana series unique in its type of Dianthus. The profuse quantity of large flowers on low growing plants insures that the series is perfect for both large and small pot programs.

NOTABLE Loving White – These beautiful blushing white flowers have a lovely magenta-crimson center.

Dianthus F1 Diana Salmon Imp.

Dianthus F1 Diana Loving White

MARIGOLD *Chica*™ FRENCH, TAGETES PATULA

Orange Improved – These have much better uniformity under very hot conditions. The full double crested flowers of Chica™ are larger in size than other French Marigolds in this type. Next to its large flowers delivers Chica™ earliness and superior uniformity under various conditions. Chica™ gives color all season long in home gardens and commercial landscapes. *Colors: Flame, Gold, Orange Imp., Yellow, and Full Mix.*

Marigold Chica™ Orange Imp.

Pansy F1 Cello™ Pure White Imp

PANSY F1 *Cello*™ VIOLA WITTRUCKIANA

Pure White Improved – Compact, non-stretching, strong basal branching and sturdy plants with flowers that stands solidly upright on short flower stems with large flowers in size of about 2.5". Perfectly suitable for both spring and autumn programs in packs and pots.

PETUNIA *Limbo GP* GRANDIFLORA

NEW Yellow Lime – A unique new color for the genetically dwarf series of large-flowered Petunias that require no PGRs for production. The flower is light yellow with a prominent lime green overtone, a color which mixes well with others for striking designer combinations. Compact, thus outstanding for landscape beds; minimal maintenance. This characteristic makes Limbo GP also perfect for hanging baskets. *New in 2022: Silver Blue Imp., Burgundy, Peach, Plum, Rose Picotee and Rose Veined. This is a "Low Grow, Eco Friendly Production plant"!*

Petunia Limbo GP Yellow Lime

Petunia F1 Mambo GP Yellow Lime

PETUNIA F1 *Mambo GP* MULTIFLORA

NEW Yellow Lime – A unique 'designer' color available in the multiflora Mambo GP series. Flower is light yellow with a prominent lime green overtone ideal to bring a sunny color to the landscape or to use in designer mixes with other colors. Mambo, requires no PGRs in production, and plants stay compact in the garden and cover themselves with prolific flowers. A new must-have color for your assortment! This series is also one of the very best for fast recovery of flowers after heavy rains.

PETUNIA F1 *Mambo-Limbo GP*

NEW Designer Blue Fashion Mixture – Dancing around the color palette of Pantone® Very Peri color of the year is this cooling mixture of varieties in shades of blue and lavender in solid and veined forms. Blue Petunias tend to get very leggy, but this is the color range where our genetic dwarfness really shines through, requiring little to no maintenance to keep them looking beautiful in your landscape or containers.

NEW Designer Pastel Mixture – This beautiful new Designer Pastel Mix utilizes colors from both of our genetically dwarf Petunia series for maximum impact and performance in garden containers, hanging baskets or ground beds. Because they are genetically dwarf, they look great all summer long, and don't get leggy and require pruning and cleaning like most Petunias. Try this mix, it will be a customer favorite.

SALVIA *Reddy™* NATURAL DWARF, SPLENDENS

Pink Improved – A much brighter pink, with some salmon overtones. The only genetic dwarf, non-stretching Salvia variety on the market. Salvia Reddy™ enables growers to grow environmentally conscious plants. Due to no stretching, there is no need to use growth regulators which makes Reddy™ the perfect Salvia for plug and pack production. Reddy™ produces a large number of densely placed bright colored flowers above dark green foliage. It is day length neutral and performs splendidly in the garden. *Reddy™ White Surprise is a Fleuroselect Approved Novelty. This is a "Low Grow, Eco Friendly Production plant"!*

SNAPDRAGON F1 *Snappy™* ANTIRRHINUM MAJUS

Violet Improved – Improved for richer color and reliability of seed production. Early flowering, strong branching plant habit and full closely spaced flower spikes makes this series excellent for beds, borders, packs and mixed patio containers. Very suitable for early spring and autumn sales as both plants and flowers can withstand frost well. *New in 2022: Cherry and Rose Flame.*

VINCA F1 *Solar Avalanche*

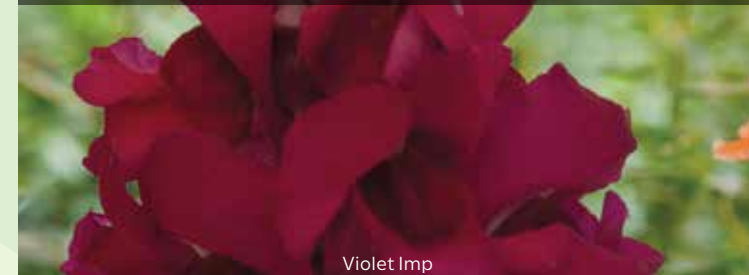

CATHARANTHUS ROSEUS

The compact and well branched habit and large flowers with wide, overlapping petals make Vinca F1 Solar Avalanche the perfect choice for production in packs and pots. Its trailing habit as it matures makes it ideal for use in hanging baskets and mixed containers as the trailing component, and for use in gardens as a ground cover including large commercial landscape beds. Solar Avalanche maintains a well-manicured, low appearance and does very well in extremely hot and humid conditions. *Three time winner of Top Summer Survivor in the FNGLA trials in Florida.*

PETUNIA F1 MAMBO-LIMBO GP

SNAPDRAGON F1 SNAPPY™

VINCA F1 SOLAR AVALANCHE

Begonia F1 Dragon Wing® White

BEGONIA F1 *Dragon Wing*®

The beautiful arching, pendulous habit is spectacular in hanging baskets, large containers and landscapes. Angel-wing leaves and large blooms give Dragon Wing a dramatically unique look. It features a best-in-class "bulletproof" performance, with a fast fill-in and an easy-care nature. Dragon Wing® grows lush and vigorous in both the heat and in cool conditions.

NEW *White* – Starts flowering around 2 to 12 days earlier than Pink, with a refined, slightly wider habit, great branching and plenty of flowers covering the plant. Flowers can blush slightly in warmer conditions.

BEGONIA *Megawatt*™

MEGAsize + MEGAcOLOR = MEGAsales! This fresh, high-energy begonia option has quickly proven itself in the marketplace with great timing benefits and ultimate garden power. These bigger-than-life hybrids offer amazing color to early-bird gardeners. Megawatt™ is perfect for big spring sales.

NEW *Rose Bronze Leaf Improved* – Offers better variety purity, eliminating green leaf off-types, deeper bronze foliage color and improved plant habit with shorter internodes and great basal branching.

NEW *White Green Leaf* – Starts to flower slightly earlier than other series varieties (5 to 10 days), but is a more true, larger-format type than others. Outdoor performance matches the series, with nice branching and less maintenance required.

BEGONIA *Hula*™ SPREADING

NEW *Series* – These unique spreading begonias fill beds, baskets and containers, plus they look great on the retail bench! Hula™ looks amazing in hanging baskets and mixed containers, providing an opportunity to offer a premium product. Hula™ is fast to fill in landscape beds, creating a blanket of flowers with high-impact color! *Colors: Bicolor Red White (a bicolor pattern varying under different conditions), Blush (unique blush-to-white), and Red.*

White Green Leaf

Bicolor Red White

Blush

Red

COLEUS *Premium Sun*

NEW *Ruby Heart* – The thin, chartreuse border on the heart-shaped leaves of Ruby Heart continues on the undersides and stems, adding brightness. The series offers showstopping colors, bold patterns, and rich textures. Pro landscapers and gardeners love these coleus for their great looks and reliable performance in sunny gardens and patio planters. Premium Sun Coleus tolerates full sun in high humidity regions (Zones 9 and 10). Foliage will scorch in full sun with low relative humidity. All are suitable for shade.

Coleus Premium Sun Ruby Heart

DIANTHUS F1 *Coronet*™

Crowned with huge flower power, these are the biggest blooms of any dianthus of this type, with exceptional flower form and a palette of showstopping color choices. Coronet adds a regal touch to cool-season landscapes, gardens and patio planters.

NEW *Purple* – Times like Cherry with a habit like the solid colors in the series.

NEW *White Purple Eye* – Sharply contrasting bicolor with the compact size and timing of Strawberry can use half the rate of PGRs needed for the solid colors in the series.

DIANTHUS CORONET™

Purple

White Purple Eye

IMPATIENS F1 *Beacon*®

NEW *Mixes* – Shine more light on color for the shade with these brand mixes, named after well-known lighthouses in locations where Impatiens downy mildew has been a significant problem. Trialed and approved to grow well together and look vibrant in the shade, and they offer high resistance to Impatiens downy mildew. All three mixes are suitable for packs, pots, hanging baskets and beds.

NEW *Lindau Mixture* – Named for the Lindau Lighthouse of Lake Constance, Germany. This mix includes Orange, White and Violet Shades.

NEW *Portland Mixture* – Taking its name from Portland Bill in Dorset, England. The mix includes Rose, Violet Shades and White.

NEW *Sanibel Mixture* – Inspired by Sanibel Lighthouse on Sanibel Island in Florida, USA. This mix has Bright Red, Orange and Violet Shades.

IMPATIENS F1 *Solarscape™* INTERSPECIFIC

NEW Colors – Landscapers will love the new Solarscape™ seed-propagated impatiens which provides unbeatable color in full-sun garden beds and containers. It performs just like vegetative varieties in garden beds and containers with the flexibility of seed. A great option for beds that grow strong in the sun!

NEW Magenta Bliss – Features a vibrant, warm magenta/violet-purple color on uniform plants with green foliage.

NEW Orange Burst – Deep coral-orange flowers with some shading to a light salmon-orange.

NEW White Shimmer – Shimmering white flowers may have a small percentage of pink at the center and very pale, blush pink buds and petals.

IMPATIENS *Solarscape™ XL* INTERSPECIFIC

Low-maintenance with high-impact color in full-sun spaces. Solarscape XL™ is the first interspecific impatiens series from seed and offers growers year round availability, making scheduling a breeze. Enjoy the same garden performance as vegetative interspecific impatiens without the royalties! Blooms have tropical appeal, with a satiny texture in vibrant, glowing hues.

NEW XL Salmon Glow – Flowers begin a bright salmon color with shading to lighter salmon-coral. XL plant height averages about 20% larger than standard Solarscape™.

NEW

IMPATIENS SOLARSCAPE™ XL

Impatiens Solarscape™ XL Salmon Glow

PANSY F1 *Cool Wave®* SPREADING

NEW Blue – Twice the spread...double the color! Wow 'em with Cool Wave®, the fastest-growing, longest-lasting, truly trailing pansy for Spring and Fall. One trip to the garden center for lush baskets or pots for in-ground planting is enough to convince anyone that Cool Wave® is a cool-season gardener's dream. New Blue is a vibrant shade of solid blue with excellent flower presentation which makes for an attractive plant at point-of-sale.

PanAmerican Seed®

Petunia F1 E3 Easy Wave™ Formula Mix

PETUNIA F1 *E3 Easy Wave*™ SPREADING

NEW Formula Mix – Wake up early-season sales! It's Early, it's Efficient, it's the Evolution of Easy Wave®...it's E3! The E3 Easy Wave series flowers at 10 hours daylength, so it is ready to kick off Easy Wave sales even earlier! With a manageable, uniform plant structure and vigor, the series offers simple production to save on labor costs. Plants can be grown at lower PGR rates than Easy Wave, so we say it's the 'Extra Easy' Wave! The petunias stay full and lush longer at retail for increased sell-through and the eye-catching appeal expected from the Wave® program. New Formula Mix includes a mixture of all colors in the series.

VINCA *Tattoo*™

NEW Orange – Make your mark on vinca sales! The art of plants comes alive on every Tattoo bloom – each petal looks like it is inked or airbrushed with soft brush strokes of dark purple. Adding these novelties to your lineup shows that you have your finger on the pulse of what today's gardener really wants: bold, fun, head-turning. Tattoo without a doubt is the most unique vinca on the market today! New Orange features a medium orange color with a consistent dark center. Petal color lightens in high light and temperatures. Similar size and timing to Tattoo Black Cherry.

Vinca Tattoo™ Orange

VINCA F1 *Titan*™

NEW Cranberry – Robust and ready for anything Mother Nature sends! Titan is up to two weeks faster to flower than open-pollinated vincas, with superior branching and big flowers in all the top-selling colors. The most uniform F1 vinca series on the market shows off flowers that are up to 50% larger than O.P. types in cooler temperatures. New Cranberry features a rich, velvety, dark red bloom color with a lighter center; it times with Really Red. Titan grows to 16" high.

Vinca F1 Titan™ Cranberry

F1 VIOLA *Sorbet*® *XP*

NEW Red – Send the best-looking violas to retail. Grow, ship, sell and plant the best-looking violas for Spring and Fall. Sorbet® XP genetics deliver a uniform plant habit and the tightest bloom window. New Red has excellent red color with staying power; it times on the late side of the series.

Viola Sorbet® XP Red

Anemone Harmony Burgundy

Anemone Harmony White Imp

ANEMONE *Harmony*

NEW IN 2022 *Burgundy + White Imp* – Burgundy is a trendy, striking addition to the series which features hardy flowers in a richly deep color set on sturdy stems and early flowering matched to the series. White Improved has a more vigorous habit and earlier flowering to match series as well.

CELOSIA *Flamma* ARGENTEA PLUMOSA NANA

NEW Series – Compact habit with many branches in pot. Early and uniform flowering. Great heat tolerance in the field. Flower color stays bright without fading. *Colors: Bright Red, Golden, Orange, Red, Rose, and Mix.*

FLOWERING CABBAGE *Osaka iQ*

BRASSICA OLERACEA

NEW *Pink Bicolor* – Osaka iQ series has more color earlier for shorter crop cycle. More compact habit leads to less or no required PGR. Late to bolt, meaning longer shelf life at retail and in the landscape. Attractive, textured leaves with more finge. *Colors: Pink Bicolor, and Red.*

PANSY *Majestic Giants II* X WITTROCKIANA

NEW *Clear Yellow and Rose w/Blotch Improved* – Earlier flowering and better matched to the series. Ship all colors at the same time. Majestic Giants II is the best known fall brand. Higher sell-through. Rose w/Blotch Improved has better brancing and looks better in packs and pots! Deeper color and better retail appeal. Clear Yellow Improved has larger flowers for more color. *New colors 2022: Blue & White Imp., and Deep Blue w/Blotch Imp.*

PANSY *Grandio Viola* X WITTROCKIANA

NEW *Red w/Blotch and Silver Blue* – New colors extend the series. Red with Blotch is early with uniform flowering and matches the series. Excellent seed quality. New Silver Blue is excellent for fall to winter flowering and has outstanding uniformity to match the series. *New colors 2022: Beacon Blue Imp., Clear Scarlet, Clear Yellow, and Primrose.*

BEGONIA BIONIC™

Bronze Leaf Red

Bronze Leaf Rose

Green Leaf Pink

Green Leaf Red

BEGONIA *Bionic*™ INTERSPECIFIC

NEW Series – A powerful solution for both landscape and containers! Distinguished by an exceptionally well-branched and symmetrical plant habit that offers a superior pot and garden fill. Excels in sun or shade and loves the heat, providing season-long color, even in challenging environments. *Colors: Bronze Leaf Red, Bronze Leaf Rose, Green Leaf Pink, and Green Leaf Red.*

BEGONIA *Bossa Nova*™

NEW IN 2022 Colors – Bring the carnival to your containers! Two new colors for 2021 are Night Fever Rosso and Yellow Imp. Bossa Nova begonia's brilliant blooms in a full range of colors offer a perfect seed alternative to vegetative varieties. Fills multiple container sizes with an abundance of color with well-branched habit and short internodes. Excels in a variety of climates and conditions, including heat, sun, and shade. *New colors: Night Fever Rosso and Yellow Imp.*

BEGONIA *Bowler*™ INTERSPECIFIC

NEW IN 2021 Bronze Leaf White – Contrasting flowers and foliage will bowl you over. Bowler™ is a vigorous, bronze leaf Begonia with large flowers and a unique, branched and mounding habit. Ideally suited for hanging basket production, yet versatile enough to also work in large packs. Chocolate-bronze foliage contrasts beautifully with large, bright white flowers.

Night Fever Rosso

Yellow Imp

BEGONIA *Tophat*™ INTERSPECIFIC

NEW IN 2022 Scarlet Imp – The biggest blooms and fastest finish put Tophat™ ahead of the pack. Finishes at least one week earlier than the leading competitors. Tophat™ is bred for versatility and is easy to finish in 306-packs up to large patio containers. A pure white, perfectly matched to the rest of the series, brighten shady spots and offers expanded opportunities for uniform mixes.

CLEOME *Sparkler 2.0*

NEW IN 2022 Colors – Brawn and beauty for season-extending programs. F1 hybrid vigor and uniformity offer easy production and superior landscape performance. Heat-loving annuals hold up to summer stress and provide reliable height and structure to landscape beds. Improved with richer, eye-catching color and better branching for quick repeat flowering. No priming is required, improving seed quality and uniformity of young plant stands. *New colors: Blush, Lavender, Rose, and White.*

GERBERA *Jaguar™*

NEW IN 2022 *Rose Dark Center Imp* – Maximum efficiency for high-density production. Jaguar is the earliest and most uniform flowering Gerbera series on the market offers synchronized flowering for bench run sales. Compact plants and short flower stems are ideal for efficient, high-density production in small pots and easy tracking and shipping. Maximizes sell-through and shelf life, with 3-5 blooms per plant at first flush.

MARIGOLD *Endurance™* INTERSPECIFIC

NEW IN 2022 *Colors* – Endurance™ is the next generation in triploid breeding — F1 African x French Marigold brings the absolute best of both worlds! Extra-large double flower on a compact French Marigold habit. Exceptionally quick finishing allows for a nearly African-sized flower with nearly French Marigold timing. Heat tolerance and sterility combine for unsurpassed garden performance, providing masses of blooms all-season long. *New colors: Orange, Sunset Gold, and Yellow.*

PENTAS *Beehive™*

NEW *White* – The one and only spreading pentas from seed. Excellent basal branching makes for full and fast hanging baskets and landscape applications. Superior branching creates full coverage of flower for unending color in extreme conditions. Perfect for combination use in high heat.

VINCA *Cora® Cascade XDR*

NEW *Series* – There's none other like it. The only trailing vinca powered by high levels of resistance to multiple strains of aerial Phytophthora. Ideal for summer baskets, mixed containers, and large landscape beds. F1 hybrid uniformity and vigor build a premium package not found in other trailing vinca. Large, high-quality flowers completely cover plants creating blankets of color lasting all season long.

ZINNIA *Zydeco™* MARYLANDICA

NEW *Series* – Let the good times bloom! 25% larger flowers than competitors. Average measurement across varieties in garden setting. Fully-double flowers increase flower longevity with lasting impact. Excellent disease resistance partnered with heat and drought tolerance provide superior season-long garden performance. Vigorously branched plants are adaptable to production in packs as well as premium pots and baskets. *Colors: Cherry, Deep Yellow, Fire, and White.*

BEGONIA F1 FIONA

Pink

White

BEGONIA F1 *Fiona* SEMPERFLORENS

NEW IN 2020 *Pink and White* – Excellent uniformity in strong, upright, semi-double type Begonia semperflorens. Early flowering habit is same as standard single varieties. Plants are self-cleaning and provide continuous color throughout the summer until first frost; exceptional container performance. Also in the in series *Red and Rose. Height 8-10"; germination 7-10 days. *Fiona Red*: 2018 Fleuroselect Gold Medal winner.

DELPHINIUM *Jenny's Pearl* GRANDIFLORUM

NEW IN 2021 *Blue and Pink* – The series produces gorgeous flower spikes which make an impressive accent in large flower arrangements. It is also suitable for the garden. Stable flower color during high temperature condition. Jenny is great for both pot and cut flower production. Height 20-28".

DELPHINIUM JENNY'S PEARL

Blue

Pink

FLOWER KALE F1 *Crystal* BRASSICA OLERACEA

NEW IN 2022 *Deep Red and Pink* – Deep Red features a brilliant red center surrounded by deep green, glossy leaves while Pink's center is framed by bright green leaves. Plants are vigorous and glossy leaf types tend to resist bolting.

FLOWER KALE F1 CRYSTAL

Deep Red

Pink

Red

Snow

NEW IN 2021 *Red and Snow* – Red has a more vigorous plant shape compared to Glamour Red and the stem is relatively longer than the other varieties. Snow is more compact than Red and has later coloring than the other varieties, it has a soft pink center, with cream colored inner leaves and dark green outer leaves.

FLOWER KALE F1 *Kamome Bright*

NEW IN 2022 *Red, and White* – Fringe-leaf bedding flowering kale joining Takii's extensive ornamental kale offerings. Kamome Bright is faster coloring (about a week) than the Kamome series. Excellent for gardens, landscapes, mixed containers; fall sales, and winter sales in temperate areas.

FLOWER KALE F1 KAMOME

Bright Red

Bright White

HELIANTHUS F1 *Sunrich* ANNUUS

NEW IN 2020 *Orange Summer DMR* – This is the first downy mildew highly-resistant ornamental Helianthus variety. It is resistant to multiple strains of downy mildew (plasmopara halstedii). Plant height, growing speed, as well as flower shape and color are similar to Sunrich Orange. The Sunrich series has superb quality, one of many features that help keep its leading status in the world Helianthus market. Sunrich flowers are pollenless, long lasting, densely petaled and upright facing on strong stems. Plant height is 35-59". Six other colors are available in the Sunrich series.

Helianthus F1 Sunrich Orange Summer DMR

PETUNIA F1 *Opera Supreme*

NEW IN 2020 *Lemon* – Featuring a magnificent 36" spread while maintaining a low habit, no more than 10 inches in height. Plants flower from the center out so the plant is full of color from center to tip. Bred to have tight internodes, each branch is packed with flowers that have excellent rain recovery. Lemon is an exciting new color joining the 11 other varieties in the Opera Supreme series.

NEW IN 2022 *Rose* – The plant habit is the same as the rest of the series. Short internodes produce an abundance of blooms even in the center of the plant. Plants spread between 3.5–4.0 ft, height 5–10".

PETUNIA F1 OPERA SUPREME

PETUNIA F1 *Trilogy*™ HYBRIDA

NEW IN 2020 *Pink Lips* – An F1 hybrid Petunia bred to help the grower, retailer and consumer. It requires less growth regulators, lasts longer on the retailer shelf display and performs in the garden with minimal care. A multiflora Petunia with a novel dome habit, flowers prolifically on compact spreading plants. Uniformity across all colors, a controlled habit for less tangling, and less day length sensitivity than other spreading Petunias. Height 10–12"; spread 24–30". New in 2019: Lime and Purple Vein.

NEW IN 2022 *Silver Blotch* – A unique color adding sophistication to the Petunia Trilogy series. Trilogy is bred to help growers, retailers, and gardeners. By focusing on performance in every stage Trilogy requires less growth regulators, lasts longer at retail and performs in the garden with minimal care. Height: 12–15"; width: 30–36".

PETUNIA F1 TRILOGY™

SNAPDRAGON F1 *Statement* MAJUS

NEW IN 2021 Antirrhinum F1 Statement is a new dwarf series series with thicker leaves. It has excellent basal branching and features very large flowers on compact plants. *Colors: Pink, Rose, Scarlet, White, and Yellow.*

ZINNIA F1 *Preciosa*™ ELEGANS

NEW *Orange* – Zinnia F1 Preciosa™ is a series with more. It is more compact, has more branching and the flowers are more double than our Dreamland series. Just like Dreamland, Preciosa™ is available in a true red. The amount of color produced by each plant adds a vibrant element to containers and gardens. *Colors: Light Yellow, Orange, Pink, Red, Rose, Scarlet, White, Yellow, Formula Mix, Premium Mix, and Tropical Blend Mix.*

SNAPDRAGON F1 STATEMENT

MINT *Kentucky Colonel* MENTHA SPICATA

NEW Variety – The official Mint in the Kentucky Derby's mint julep drink! This new mint is super sweet, it has large leaves, dark green foliage, upright plant performance and vigorous growth. *Mentha spicata* 'Kentucky Colonel' is easy to grow and fit well in pots. Also available as organic.

MINT *Lime* MENTHA X PIPERITA F. CITRATA

NEW Variety – A new variety in our wide Mint assortment. Hardy perennial with a rounded plant shape, dark bronze leaves which have a fruity, Lime scent. Complements meats (more specifically mint sauce with lamb), soups, salads, vegetable dishes, sweet dishes, and drinks. Add to fruit dishes, summer drinks, and cocktails. Also available as organic.

ROSEMARY *Green Ginger* ROSMARINUS OFFICINALIS

NEW Variety – Small dark blue flowers. Short, dark green, ginger scented, needle-shaped aromatic leaves. Green Ginger has great culinary flavor and is excellent with roast vegetables, tomatoes, and pasta dishes.

SANTOLINA *Lemon Fizz* VIRIDIS

NEW Variety – Add sizzle to your summer with compact mounds of fragrant, finely divided foliage in an eye-catching chartreuse green color. Lemon Fizz is a neat, small to medium sized rounded shrub which produces dazzling yellow, button-shaped flowers in the summer. Plant this santolina as a border, in rock gardens, containers or in your garden in full sun. Best grown in containers for cooler climates.

THYMUS *CrowFlow™* SERPILLUM

NEW Pink Magic – A true cascading Thyme that is covered with small, bright pink flowers and large, caraway-scented, green leaves. It grows up to 2" high and spreads up to 24" in diameter; plant in full sun. The serpyllum species is native to Europe and North Africa.

Cucumber Speedway

Bell Pepper Green Machine

CUCUMBER *Speedway*

Speedway is an early, gynocercious hybrid slicer variety that produces fruit with uniform dark green skin and a cylindrical shape. Featuring a good disease package, Speedway gives growers a yield of high-quality fruit. *This product is commercially sold as a blend of the named gynocercious hybrid and a pollinator variety.

PEPPER, BELL *Green Machine*

Green Machine is ideal for growers who experience pressure from tobamovirus strain 0, bacterial leaf spot races 0-10, or Tomato spotted wilt virus. This is a blocky bell with X10R®, Tobamo and Tomato Spotted Wilt disease resistance.

PEPPER, BELL *Playmaker*

Developed specifically for the northeast and notable for its high yield potential, Playmaker (with X10R®) is the first commercial variety with intermediate resistance to bacterial leaf spot races 0-10 and phytophthora blight — resulting in easier management for growers in comparison to other varieties such as Aristotle. This is a compact plant with blocky bell peppers with Tobamo, and phytophthora blight disease resistance.

PEPPER, BELL *Tarpon*

Tarpon is a main-season hybrid with X10R® technology and Intermediate Resistance to Phytophthora blight in the Northeast and Midwest United States and Eastern Canada. Tarpon has a compact plant and produces dark green, smooth blocky fruit. This is a blocky bell with X10R and phytophthora blight disease resistance.

Bell Pepper Playmaker

Bell Pepper Tarpon

PEPPER, BELL *Turnpike*

Fresh Market growers in search of a hybrid bell pepper with a strong disease package will appreciate Turnpike (with X5R®) for its intermediate resistance to phytophthora blight, concentrated setting and high yield potential. This is a blocky bell with X5R and phytophthora blight disease resistance.

TOMATO *Pink Delicious*

This giant heirloom-style hybrid tomato is as pink as it is delicious! With an average weight of about half of a pound per fruit, this crack-resistant titan of a tomato will be sure to please any heirloom lover. Plant this variety and it won't take long to discover these enormous, ribbed garden gifts that will produce plenty to share with friends and family. Heap this hefty tomato on burgers and BLTs or simply slice it up with some salt and pepper. This tomato is delicious any way you slice it! With a great disease resistance package and a heavenly flavor, Pink Delicious will be a garden favorite for generations to come. *Regional AAS Winner.*

Bell Pepper Turnpike

Tomato Pink Delicious

TOMATO *Plus Series*

If you've ever cared for a garden, you know how disheartening it can be to lose your harvest to disease. We want people to love gardening, that's why we bred the Plus Series. Think of it as your favorite tomatoes PLUS more natural disease resistance, more flavor and better adaptability.

Better Boy Plus – All the great characteristics of the classic Better Boy, plus more flavor, disease resistance and adaptability. This bright red hybrid is unbelievably juicy and packs an unbeatable flavor. Weighing in at about a pound, Better Boy Plus can fill up dinner plates and hungry stomachs. Better Boy Plus is better canned, or cooked into hearty sauces. Height 6', spread 3'.

Big Beef Plus – Boasting better flavor, adaptability, disease resistance and deeper internal red gel color, compared to the classic Big Beef. Growers will appreciate Big Beef Plus for its updated disease resistance package and yield potential. The old-time tomato flavor and colossal fruit size makes this a perfect variety for salads. Height 5', spread 3'.

Celebrity Plus – This tomato is everything growers love about the original Celebrity, plus an added resistance to Tomato spotted wilt virus. A widely adaptable hybrid for the fresh market and home garden, Celebrity Plus produces large, smooth fruit with outstanding flavor. Height 5', spread 3'.

Lemon Boy Plus – All the best qualities of the original Lemon Boy, plus added flavor and disease resistance. This tomato has a unique yellow color and a sweet, tangy flavor. Lemon Boy Plus will liven any salad or side dish. Height 6', spread 3'.

TOMATO *Saybrook*

Saybrook is a determinate round tomato that is ideal for both the vine ripe and mature green market. The vigorous plant type produces a large set of extra-large smooth fruit all the way to the top of plant with good canopy cover to help reduce the risk of sunscald.

syngenta.flowers

Basil Aristotle

BASIL *Aristotle* GREEK TYPE

Small, leaved, highly aromatic with a very neat rounded habit. Strong stems, late flowering and good tolerance to poor weather. Ideal for containers.

BASIL *Floral Spires* THAI TYPE

Lavender + White – Produces anise scented leaves are a great alternative to standard basil. Bred for its bloom, Floral Spires will not get bitter when blooming.

CUCUMBER *Peticue* HYBRID/SLICER

A short vined cucumber variety perfect for the patio. Short green fruits with good flavor and a slightly sweet taste. High yielding when regularly harvested.

CUCUMBER *Petipikel* HYBRID/PICKLING

Short vining/bush takes up 1/3 the space of standard cucumbers. Best harvested at 3-5" for pickling, though can be left on vine and harvested at 7" for fresh use.

EGGPLANT *Amethyst* DWARF/COMPACT

This compact, basal branching plant produces high yields of purple, egg sized fruit and virtually spineless leaves; weighing 2.75 to 3.5 ounces. Ideal for pots and containers as well as in rich and fertile borders with shelter. Few pests and disease problems but monitor the plants for build-up of aphids and whitefly.

EGGPLANT *Pinstripe*

Unusual light purple fruits are streaked with white and produce virtually spineless leaves. Pinstripe is compact with a basal branching plant habit.

EGGPLANT *Dot Black* BABY TYPE

Small 2-3 ounce patio grown fruit is ripe for the picking once it becomes as big as a ping pong ball and until it grows to the size of a tennis ball.

BASIL FLORAL SPIRES

Lavender

White

Cucumber Peticue

Cucumber Petipikel

Eggplant Amethyst

Eggplant Pinstripe

Eggplant Pot Black

KALE *Prizm* BABY LEAF

Produces an abundance of edible leaves. Quick to re-leaf with uniformly-sized, sweet leaves. Performs under high-density planting in small garden spaces and edible patio containers. Deep green, fine-curl leaves are attractive and tasty. Suitable for small space gardens. *AAS Winner. ** Perfect for small spaces and containers! ***

Kale Prizm

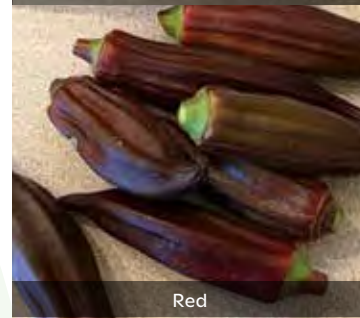

OKRA *French Quarter* DWARF

A brand new Dwarf Okra series with Pink or Red fruits, and lemon colored flowers. Red has attractive dark red foliage and stems. This compact plant produces 3-5 Okra at a time and will continue to produce as picked. Fruit is best picked young. Habit is open and works well on its own or in a combination. Height 16-18", spread 17". Matures 50-55 days. *Colors: Pink and Red.*

OKRA FRENCH QUARTER

Pink

Red

OKRA *Green Fingers*

Compact, spineless Okra with deep, glossy green leaves. A novel okra that starts producing fruit at 15" tall!

Okra Green Fingers

PEPPER, SWEET BELL *Encore*

Mid- to-late season variety that is slow to turn red maintains large- to extra-large size and shape under cool temperatures. Consistently delivers very smooth peppers with thick walls. Widely adapted with strong virus tolerance. Medium height plant with excellent foliage cover to protect fruit. Adaptable to patio containers. *** Perfect for small spaces and containers! ***

Bell Pepper Liberty Belle

PEPPER, SWEET BELL HYBRID

Liberty Belle

Naturally dwarf plants bear an abundance of very sweet bell peppers. Matures green to bright yellow.

Bell Pepper Encore

PEPPER, SWEET BELL HYBRID

Mohawk

A true bell pepper. Very early and high yielding on a compact, spreading plant. Great performance in packs or pots. Holds fruit well for a long shelf life. Height 12-16", fruit 4-5".

Bell Pepper Mohawk

PEPPER, SWEET BELL HYBRID/DWARF

Redskin

A true dwarf bell pepper with medium sized fruit; great for cooking. Very early fruiting with excellent yield on a compact, upright plants. Ideal for pots or containers; matures to red. Height 12-16", fruit 4-5".

Bell Pepper Redskin

syngenta.flowers

Cayenne Pepper Cayennetta

PEPPER, CAYENNE HOT EDIBLE/ORNAMENTAL/SPREADING
Cayennetta

A cayenne type chili with a very neat, attractive habit and compact branching. Produces large crops of 4" bright red tapered fruits beneath the attractive leaf canopy. Mild fruit heat 20,000 Scoville units. **AAS Winner.**

Cayenne Pepper Longhorn

PEPPER, CAYENNE HOT EDIBLE/ORNAMENTAL
Longhorn

Vigorous, high yielding plants. Like its namesake cattle, the fruit exhibit a very long taper with a slight curl at the tip. 15,000-20,000 Scoville units.

Cubanelle Pepper Aruba

PEPPER, CUBANELLE *Aruba*

Early maturing, even under conditions that make gaining size difficult. Harvest consistent yields of sweet Cubanelles over an extended season. Outstanding vigor, erect plants supports large sized fruit without overcrowding. Adaptable to patio containers. **** Perfect for small spaces and containers! ****

Hot Pepper Alter Ego

PEPPER, HOT *Alter Ego* HOT EDIBLE/ORNAMENTAL

Naturally dwarf plant, upward facing fruit. Colorful fruit matures from light green, cream, light purple to bright red. It is both tangy sweet and hot in flavor. 30,000-40,000 Scoville units.

Hot Pepper Apache

PEPPER, HOT *Apache*

Apache turns from green to bright red and fruits all summer long. Height 18". Fruit 2-3". 80,000 Scoville units.

Hot Pepper Atomic

PEPPER, HOT *Atomic*

Dwarf habits producing upward facing fruit. Exceptional branching results in high yields. Has both ornamental and culinary appeal. Fruit are sun-tolerant. 90,000 Scoville units.

Hot Pepper Basket of Fire

PEPPER, HOT HOT EDIBLE/ORNAMENTAL/SEMI-TRAILING
Basket of Fire

A true hanging basket pepper with small leaves and a well rounded appearance! Branches cascade as they develop and new growth fills the top. Matures in 80 days and changes from cream to orange and finally to red as they ripen. 80,000 Scoville units.

Hot Pepper Chenzo

PEPPER, HOT *Chenzo* HOT EDIBLE/ORNAMENTAL

Compact and well branched; beneath the foliage, multiple, long black peppers cascade and slowly mature to red. Ripens in 68 days. 45,000 Scoville units. **** Perfect for small spaces and containers! ****

Jalapeño Pepper Paquime

PEPPER, JALAPEÑO *Paquime*

The beginner's jalapeño—just the right amount of heat without overpowering your senses. Consistently produces super-sized jalapeños nearly 5" in length beginning in 70 days. High-yielding with strong, vigorous plants to support the fruit load. Fruit matures green to red. 5000-8000 Scoville units. Adaptable to patio containers. **** Perfect for small spaces and containers! ****

Turn your outdoor entertainment space into a vegetable garden 🥕

SMALL SPACE? NO PROBLEM!

Bred for small garden spaces and combination pots, Patio Edibles are perfectly sized for today's Patio or Square Foot Gardener.

Patio Edibles have compact, tidy habits, great flavor and high yields.

Vegetalis has a wide assortment of varieties and habits which make them easy to incorporate into any patio, raised bed or small garden.

syngenta.flowers

Physalis Little Lanterns

PHYSALIS *Little Lanterns* GROUND CHERRY

Compact umbrella shaped habit with stunning flowers, soon followed by delicious fruit. Ideal for hanging baskets.

STRAWBERRY *Mignonette*

WOODLAND/ALPINE

A woodland or alpine strawberry, renowned for its intense aroma and flavor. Known as an everbearing type, it produces fruits over a long harvest period. The small red fruits are attractive and hang down to form a cascading effect. Performs best if planted outdoors in a sheltered, sunny or partial shaded position and can provide fruit in early June from a March sowing. Ideal for pots, containers and hanging baskets. Height 10"; spread 16".

Strawberry Mignonette

TOMATO, BEEFSTEAK INDETERMINATE

Better Bush

Early- to mid-season beefsteak produces 8 oz. fruit that delivers real tomato flavor. Compact determinate habit is perfect for large pots or small gardens. Attractive plant habit and beautiful sweet fruit. Suitable for small space gardens. Best for salads, slicing, or eating fresh. **** Perfect for small spaces and containers! ****

TOMATO, BEEFSTEAK DETERMINATE

Big League

Very large true beefsteak fruits, 320g to 650g. Good flavor for a beefsteak, 6.5 brix rating. Semi-determinate habit, height approximately 3 feet and 5 to 7 fruits per truss.

Beefsteak Tomato Big League

Cherry Tomato Peardrops

TOMATO, CHERRY DETERMINATE/SEMI-TRAILING

Peardrops

Sweet tasting tomatoes with attractive, oval, golden yellow fruit. High yielding plants with a naturally trailing habit. Great in both baskets and containers. Meets the need for a deliciously sweet yellow grape tomato.

TOMATO, CHERRY INDETERMINATE

Pink Charmer

Indeterminate habit, high yielding trusses, yielding, up to 40 fruits per truss. Deep rosy pink fruits 20 to 25 grams weight with very good flavor, and a 10 brix rating.

Cherry Tomato Pink Charmer

Cherry Tomato Red Profusion

TOMATO, CHERRY DETERMINATE/TRAILING

Red Profusion

Quick maturity makes it easy to finish for retail sales showing green fruit. Trailing, neat and tidy bushy habit is perfect for hanging gardens. Good weather tolerance.

Tomato Beefsteak Better Bush

TOMATO, CHERRY INDETERMINATE
Sugargloss

Excellent crack resistance and attractive, bright red glossy fruit make this one of the very best cherry tomatoes available. Indeterminate habit, yielding up to 60 fruits per truss. Very good flavor with a 12 brix rating and weighing 20 to 25 grams.

Cherry Tomato Sugargloss

Cherry Tomato Supersweet 100

TOMATO, CHERRY INDETERMINATE
Super Sweet 100

A top seller and home garden favorite! Produces large clusters of 15–25 cherry-sized fruit. Perfect for amateur markets demanding high-quality and excellent sugary flavor. Same mouthwatering flavor yet more disease resistant than Sweet 100. Best for snacking and salads. **** Perfect for small spaces and containers! ****

TOMATO, CHERRY COMPACT/DETERMINATE
Sweet 'N' Neat

A compact dwarf tomato plant that produces a strong upright plant 10-12" high. Tomato Sweet 'n' Neat bears a large crop of small, sweet cherry red fruits which will harvest over a long period throughout the summer months. Retail in 4-6" pots with green fruit 10 weeks from sowing. Available in Scarlet and Yellow.

CHERRY TOMATO SWEET 'N' NEAT

Yellow

TOMATO, CHERRY SEMI-DETERMINATE/TRAILING
Tumbling Tom Yellow

A very high yielding tomato with a cascading, even-branching habit for ornamental container use; vines yield 15 gm/.5 oz. fruit. With a sweet and delicious flavor, Tumbling Tom is a tasty addition to any dish.

Cherry Tomato Tumbling Tom Yellow

XL Cherry Tomato Summerlast

TOMATO, XL CHERRY
SNACKING/COMPACT/DETERMINATE
Summerlast

Dwarf patio tomato with Late Blight Resistance! Produces deliciously sweet cocktail sized fruit.

TOMATO, XL CHERRY
SNACKING/COMPACT/DETERMINATE
Totem Red Imp

Sturdy, compact bush-type; heavy cropping. Adaptable plant is strong and robust but requires support when loaded with fruit.

PAYMENT TERMS

Customers with an established charge account must make payment within 30 days of the invoice date. Customers without an established charge account must remit a payment in advance. Customers with a Prepay account must place orders exceeding \$1,000.

PRICES

Varieties are sold by seed count. Prices are listed in dollars per 1,000 seed (\$/M). NOTE: Prices are subject to change without notice.

MINIMUM ORDERS

The minimum seed order is \$100 when shipped in the U.S. and Puerto Rico. Below minimum orders are subject to a \$10 handling fee plus freight charges. Orders below \$10 cannot be processed and will not ship.

MINIMUM QUANTITIES

The minimum quantity for each seed item is listed at www.michells.com and on the Seed Order Form. Orders for below-minimum quantities are prohibited. Seed is sold in (integer) multiples of the minimum quantity ONLY. For example, if the minimum quantity is 500 seeds, then the order quantity must be 500 or 1,000 or 1,500, etc.

PLANT HARDINESS ZONE MAP

This map is the standard by which gardeners and growers can determine which plants are most likely to thrive at a location.

The map is based on the average annual minimum winter temperature, divided into 10-degree Fahrenheit zones.

FREIGHT

Shipping charges are invoiced for all below minimum orders. All seed orders under \$200.00 will be shipped by US. Mail. Freight charges are also imposed whenever overnight, next day or second day delivery is requested, or when the package weight exceeds 5 pounds. Items drop shipped from original orders are subject to shipping charges from the vendors. All Michell's shipments require a signature from a person's 18 years or older to receive the package.

PACKAGING

Seed is available in the following package sizes: 0.5M, 1M, 5M, 10M, 25M or BULK (where M = 1,000 seed). Michell's reserves the right to fulfill seed orders using whatever packages are on hand. Requests for multiple packages incur a fee of \$1.00 per package. For example, a seed order for 5M in 1M packages would be charged and extra \$4.00 (one dollar for each extra package).

SEED FORM

Many seed varieties are sold in more than one form. Most seed is sold in its natural (RAW) state. Other forms include: coated (CTD), de-tailed (DET), multi-pellet (MPL), pelletized (PEL), precision multi-pellet (PMPL), and primed (PRI).
