## nous

### What is nous™?

nous™ is a switch access method that simply uses your blinks to access a computer.

Affordable, simple, user friendly and fast, nous™ is a unique switch access method designed for people with physical disabilities that affect their limbs and voice. It senses your intentional blinks, allowing you to comfortably control a computer.

### Think “blink to click”.

nous™ is both hardware and software. The hardware component is a soft headset that houses the sensors which measure your blinks. The software component translates the blink information from these sensors and uses them as a switch access method for Windows OS based computer applications. You can access **Grid 3, Snap + Core First, Communicator 5, NuVoice and Clicker 7**, as well as other software applications that can be used with switch interfaces, such as cause and effect games.

## WHAT IS AUGMENTATIVE AND ALTERNATIVE COMMUNICATION (AAC)?

AAC is a set of tools and strategies that an individual uses to solve everyday communication challenges. Communication can take many forms, such as: speech, a shared glance, text, gestures, facial expressions, touch, sign language, symbols, pictures, speech-generating devices, etc. Everyone uses multiple forms of communication, based upon the context and our communication partner. Effective communication occurs when the intent and meaning of one individual is understood by another person. The form is less important than the successful understanding of the message.<sup>1</sup>

# ISAAC SPONSORED MEMBERSHIP PROGRAM FOR INDIVIDUALS FROM DEVELOPING COUNTRIES

## WHAT IS THE AIM OF THE PROGRAM?

---

- To support first-time ISAAC membership for individuals who promote and encourage the use of AAC and who live in developing countries (as currently defined by the World Bank). If you are sponsored, your membership is covered for two years.
- To encourage sharing between sponsors and sponsored members via correspondence and by “matching” their AAC interests, language, etc.
- The “matching” of sponsored members and their partners is arranged co-operatively by members of the BUILD Project Committee and the ISAAC International office.
- To encourage the sharing of AAC interests and knowledge in the sponsored member’s country with the ISAAC BUILD Project Committee.
- To provide sponsored members with an awareness of AAC and the work of ISAAC through ISAAC’s website, the ISAAC Membership Directory, and selected ISAAC publications.

## HOW DOES THE PROGRAM WORK?

---

- It is funded by donations from ISAAC members who are interested in the introduction, application, and research of AAC in emerging AAC countries, and by those who wish to support colleagues living and working there.
- This sponsorship contributes to full membership, including the ISAAC Membership Directory, but unfortunately does not cover the cost of other publications.

## WHO CAN APPLY?

---

- Any individual who would like to apply for ISAAC membership for the first time, who lives in any developing country, and who promotes and encourages the use of AAC. If you are sponsored, your membership is covered for two years.

## WHEN MUST ONE APPLY?

---

- Deadline for applications is the first of March of the current membership year, but late applications will be considered if funds are still available.

## HOW CAN ONE BECOME A SPONSOR?

---

You can be a sponsor of a member or members in an emerging AAC country by making a payment of only \$28 CDN per sponsored member! To make your donation simply complete and mail the pledge form on page 24. By being a sponsor you will be directly supporting the growth of AAC throughout the world. You can even identify whom you want to sponsor, if you have someone specific in mind.

The person you are sponsoring will be requested to do a small AAC Awareness Campaign in their country, and you will receive details about this, so that you can see how your money is being used to spread the AAC message across the globe.

## TO BE SPONSORED

---

If you would like to be sponsored or know of someone who would, just complete the sponsored membership form available from the ISAAC International office, and we will try to match you with a sponsor.

# ISAAC VIRTUAL ONLINE LEARNING: DON'T MISS OUT!

**Have you explored ISAAC's free online learning opportunities?** ISAAC-sponsored online learning environments feature topical and practical presentations, often with take-away resources for people who use AAC and their families, students, teachers, therapists, researchers, and organizations.

Webinars sponsored by USSAAC are offered six times annually. A recent presentation featured tips from front-line staff working in hospitals experiencing a surge of patients temporarily unable to speak due to COVID-19.

An ISAAC-Canada series, new in 2020, had *Gaming and AAC* as its popular debut topic.

Spanish-language webinars are part of our ongoing special events.

The **ISAAC Online Journal Club** is held from time to time, as a forum for a discussion of issues around AAC.

ISAAC continues to offer **Sponsored Webinars**, featuring many of the key companies in the assistive technology industry. Additional sponsored webinars will continue to be announced by eblast and on the ISAAC International website at <https://www.isaac-online.org/english/webinars/>.

**Watch** for upcoming **Webinars** at ISAAC-online.org. Webinars are recorded and available for viewing later (unless otherwise indicated), in case the timing isn't right for you to attend the live event.

**Join in** on ISAAC's newest initiative, **PWU AAC Online Chats** – an opportunity for people who use AAC all over the world to meet virtually and chat informally.

**Stay tuned** for opportunities to participate in fun activities for **International AAC Awareness Month** in October 2020!

**Check out** our **Webinar Archives** and discover a wealth of information!

The Journal contains a collection of articles written by AAC users, parents, and experienced AAC practitioners – teachers, therapists, engineers, researchers and others – mostly from the UK. The articles are on a variety of different topics, including case studies, clinical/educational practice, new developments in low and high tech AAC, and AAC use by children and adults.

The style of the journal is informal and easy to read, and most articles are practical. Articles written by AAC users, parents and families are actively welcomed. Each issue contains 36 or 40 pages with a colour cover, A4 format.
