Spoon™ b

From Walker to Stationary Entertainer!

We listened, and parents told us what would make the Spoon even better. With the Spoon b, we found the answer by adding parking brakes to keep your baby stationary when needed. The upgraded seat is more comfortable and has a softer enhanced fabric with stain resistance. The Spoon b seat has a new, simple way to remove for washing and cleaning! Our original Spoon customers mentioned hair from the floor would get picked up and tangled into the wheels, making it less mobile and harder to clean. On the Spoon b, we fixed that by adding a removable rear wheel to make cleaning as easy as possible.

LESS IS MORE

When baby can sit upright unassisted and her toes touch the ground, she is ready for the Spoon. With three height positions, the Spoon is ideal up to 30 lbs and 33.5 inches tall. The Spoon sports a comfortable seat made of 600D nylon that combines luggage grade toughness with a soft, padded high seat back for support. Easily removable, the seat can be machine washed for freshening up.

The Newborn Ready Highchair

The Nook NB was made for convenience, built for the basics, and created for compactness that still gets the job done. Still with your favorite features like the swing-open tray that operates with one hand, a zero assembly design that folds with no hassle, and a leatherette cover that wipes clean without harsh chemicals, but now even better. The added front-wheels for easy mobility, three-position reclining seat, and easier adjustable tray options make this highchair a game changer.

Durable Magnesium Balance Bike

The Bicycoo Mg, our third-generation balance bike, is no toy. There are plenty of cheap plastic balance bikes on the market that hit low price points. Our Bicycoo Mg is a one-piece magnesium frame. Not only is magnesium lightweight, durable, and stronger than aluminum, but it also absorbs 16 times more shock and vibrations, making it the ideal metal that gives competitive sports that extra edge. Magnesium is also the most eco-friendly and sustainable metal known to man. The rims are magnesium, with rubber pneumatic tires. The deluxe stem (gooseneck) and handlebars are aluminum. The Bicycoo Mg's overall weight is 6.7 pounds, making it very easy for a child to control from the walking start to riding.

DESIGNED FOR COMFORT

The Airnoogie is designed to comfort your baby. Ready for newborns, and older babies too, this pacifier is available in two sizes; 0m+ and 6m+. The BPA-free silicone nipple is symmetrical with an orthodontic shape to accommodate the natural development of your baby's palate, teeth, and gums. The comfort shield is curved to fit comfortably under baby's nose, and the Airnoogie features a balloon-shaped back that is easy to grip and handle. Available in Small (0 months+) and Medium (6 months+).

Convenience is the Key

The Platoon will revolutionize the way people move their stuff. Made of high-quality durable materials and featuring all-terrain wheels and a removable storage basket, it's more convenient and easier to use than any other carrier, cart or wagon on the market. Platoon's modular storage basket allows you to pack your gear at home, load it into the car, and then click & go anywhere. Platoon takes the stress out of packing, loading and hauling your stuff so you can get to where you need to go faster and more organized.
