MILITARY & POLICE  
LOAD CARRYING SYSTEMS  
— 2020 —

## LV EQUIPMENT BV

(LV), a Dutch based wholesale company, supplies products to end users from military & police entities. Distribution is made to NATO, government bodies direct, or through commercial accounts in the EC. LV was founded in 1985 as a wholesale company and has been distributing outdoor specialist gear until 2008. Over the years a number of governments have become a customer, not in the last place because of back ground and experience of its founder.

The knowledge and understanding of military & police requirements and the ongoing demand for high performing products in the field of carrying systems (rucksacks), clothing, footwear and accessories has led to the decision to change the organization in 2008, focusing solely on military & police gear. LV has an exclusive distribution agreement with Berghaus Ltd. in the UK for the distribution of products throughout the EC. A License agreement allows LV to develop specific carrying systems for the military & police. Berghaus has almost 50 years experience with regard to rucksack making. Combined with the knowledge LV has about the needs of military & police operators, a unique platform has been created for building highly functional and extremely durable carrying systems.

## MULTI MISSION PACK SYSTEM

The Berghaus brand is synonymous with performance and protection, so when it comes to providing equipment for the military, police or security, we know what matters. The Multi Mission Pack System (MMPS) has been developed with input from experts in their field to deliver a family of packs that integrate and share modular parts. MMPS delivers the flexibility to carry any load from 10 litres up to 120 litres of kit, depending on the type of mission.

**GENERAL**

The Crusader 90+20 is the top size in our MMPS (Multi Mission Pack System). Designed as a modular system the Crusader Side pockets integrate with the Berghaus Centurio 45 and Centurio 30 sacs to offer a flexible pack system to support different mission requirements.

**FEATURES**

- Cyclops II back-system
- Top tension straps
- Front and back reinforcement haul loops
- Two detachable MMPS side pockets zip together to make daypack
- sidecompression straps
- Base compression straps
- Cynch straps on hipbelt
- ice axe attachment
- Molle webbing attachment points
- Ski attachment points on side pocket and backpack body
- Hip belt can be tightened by pulling two straps in a forward direction
- 38mm wide straps on load lifters and shoulder harness

**SPECIFICATIONS**

-  Armadura 1000D
-  Appr. 88cm (H) x 57cm (W) x 33cm (D)
-  Appr. 2950g
-  110L (90L plus 20L)
-  2, 3, 4

**COLORS**

-  C01 Cedar
-  S38 Coyote

**NATO STOCK NUMBERS**

- Size 2: nsn 8465-99-837-1502
- Size 3: nsn 8465-99-883-3514
- Size 4: nsn 8465-99-391-2918

**MMPS CRUSADER FA**

LV00081-xxx

**GENERAL**

Crusader FA stands for front access. Being part of the MMPS family it shares the same modules, offering the same flexibility. The front access allows the operator to quickly pull out equipment from the lower part without having to take out other equipment stowed on top. Loops inside on the back panel can optionally be used to attach a MMPS Radio Pad, keeping the radio nicely stowed against the inside back of the rucksack. Antenna, cables etc. can be fed through openings at the top of the rucksack body

**FEATURES**

- Cyclops II back-system
- Front access
- Hidden mesh pocket in front access panel to stow a helmet or jacket etc. on the outside
- Rain cover compartment in the bottom (rain cover not included)
- Loops are on the inside of the back panel to attach MMPS Radio Pad
- Other features same as Crusader

**MMPS VULCAN IV**

BH21933-xxx

**GENERAL**

With 100 litre capacity - the ideal sac for those on extended journeys where re- supply is not possible.

**FEATURES**

- Cyclops II back-system
- Top tension straps
- Front and back reinforced haul loops
- Two detachable MMPS side pockets zip together to make a daysac
- Side compression straps
- Base compression straps
- Cynch straps on hipbelt
- Ice axe attachment
- Molle webbing attachment points
- Ski attachment points on side pockets and rucksack body
- Hip belt can be tightened by pulling two straps in a forward direction
- 38mm wide straps on load lifters and shoulder harness

**MMPS VULCAN IV MC**

LV00104-xxx

**GENERAL**

With 100 litre capacity - the ideal sac for those on extended journeys where re- supply is not possible. Infrared (IR) coated fabric for better protection against night vision detection.

**FEATURES**

- Cyclops II back-system
- Top tension straps
- Front and back reinforced haul loops
- Two detachable MMPS side pockets zip together to make a daysac
- Side compression straps
- Base compression straps
- Cynch straps on hipbelt
- Ice axe attachment
- Molle webbing attachment points
- Ski attachment points on side pockets and rucksack body
- Hip belt can be tightened by pulling two straps in a forward direction
- 38mm wide straps on load lifters and shoulder harness

**MMPS CENTURIO II 45**

BH21875-xxx

**GENERAL**

The Centurio 45 adds to our MMPS (Multi Mission Pack System). Designed as a modular system the MMPS side pockets integrate with the Berghaus Crusader and Centurio sacs to offer a flexible pack system supporting different mission requirements.

**FEATURES**

- Internal frame for load support
- Flow backsystem
- Waist belt
- Top lid pocket
- Hydration system compatible
- Compatible with all FMPS/MMPS/SMPS side pockets
- Side attachment straps
- Ice axe attachment
- Four accessory attachment points
- Molle webbing attachment points

**MMPS CENTURIO III 30 FA**

LV00082-xxx

**GENERAL**

The successful Centurio II 30 from the MMPS range, now with a front access zipper to quickly grab kit stored inside. A hidden pocket on the front access flap outside holds a smart mesh pocket. The mesh pocket can take anything from a helmet to a jacket. Adjustable shoulder harness to create extra space for a bullet proof vest.

**FEATURES**

- Front access zipper
- Hidden mesh pocket in front access panel to stow a helmet or jacket etc. on the outside
- Rain cover compartment in the bottom (rain cover not included)
- Flow backsystem
- Adjustable shoulder harness
- Loops on the inside of the back panel to attach MMPS Radio Pad
- Waist belt

MMPS SPARTAN 60 FA

LV00089-xxx

GENERAL

A sleek pack with a smart volume for lighter missions, or use in urbanized areas. The Front Access (FA) feature offers the option to quickly grab equipment. Loops inside on the back panel can optionally be used to attach a MMPS Radio Pad, keeping the radio nicely stowed against the inside back of the rucksac. Antenna, cables etc. can be fed through openings at the top of the rucksac body.

FEATURES

- Cyclops II back system
- Front access
- Hidden mesh pocket in front access panel to stow a helmet or jacket etc.
- Loops on the inside of the back panel to attach MMPS Radio Pad
- Comes **without side pockets**, but with zippers to attach any pocket
- Other features same as Crusader

SPECIFICATIONS

- Armadura 1000D
- Appr. 75cm (H) x 37cm (W) x 25cm (D)
- Appr. 3175g
- 60L
- 1, 2, 3, 4

COLORS

- C01 Cedar
- EB1 Earth Brown

**MMPS GRAB BAG II**

BH21934-xxx

**GENERAL**

Building on the modularity of the MMPS system, the modular Grab Bag interacts the Atlas and Crusader. By replacing the standard lid with the Grab Bag the whole Grab Bag can be quickly and easily removed to form a daysac containing your essentials in the event of an emergency or when you just need a daysac with you.

**FEATURES**

- MMPS compatible: bag replaces the original lid of the main pack to form backpack for emergency use
- Umbilical connector joins to the Grab Bag allowing for ease of removal of the Grab Bag in emergencies
- Grab Bag fits inside main compartment for compact storage and ease of use

**MMPS HYDRATION POCKET II (WITHOUT RESERVOIR)**

BH21893-xxx

**GENERAL**

The MMPS Hydration pocket integrates with: Atlas, Centurio, Crusader and Vulcan rucksacs (on molle and/or side zippers) as well as working as a stand alone hydration daysac. The whole MMPS system offers a great level of flexibility in supporting different mission requirements.

**FEATURES**

- Compatible with BMPS/FMPS/ MMPS/SMPS side zippers
- Height adjustable, removable chest strap
- Removable shoulder straps
- Zipped front pocket(s)
- Molle webbing attachment points
- Reflective lining to help keep the water cool

**MMPS MOLLE PAD**

LV00092-xxx

**GENERAL**

MMPS Molle Pad fits the standard zippers from all packs. When placed instead of a side pocket, molle pads can take any pouch with molle straps, offering even more flexibility when it comes to customizing a pack.

**FEATURES**

- Comes as a pair
- Compatible with MMPS, SMPS, FMPS and BMPS side zippers

**SPECIFICATIONS**

**MMPS ORGANISER PLUS POCKET** LV00060-xxx

**GENERAL**

The Organiser PLUS Pocket has been built to store life saver medic equipment, maps, admin, optics and electronic devices. With three removable different configured blades, the Organiser PLUS Pocket can be customized to attach, or to put in all kind of different small equipment. Organiser PLUS Pocket will also hold a military laptop. Cables can be fed through openings on all four corners.

**FEATURES**

- Compatible with BMPS/FMPS/ MMPS/SMPS zippers
- Height adjustable, removable chest strap
- Removable shoulder straps
- Three removable different configured blades
- Three removable mesh pockets
- Molle inside to attach a military laptop

## MMPS HYDRATION RESERVOIR 3

HP6922-xxx

### GENERAL

3L Hydration reservoir using Hydrapak plug n play technology for easy hose removal. The MMPS Reservoir also features an extra long insulated hose (48", 122cm) to allow you the flexibility of mounting the reservoir anywhere on your pack and still hydrate on the move.

### FEATURES

- Plug 'n' play hose connector allows for easy filling
- BPA and PVC free
- Roll top closure with wide mouth for easy filling
- Reversible reservoir for easy maintenance
- High flow bite valve with ON/OFF positions
- Bite valve with integrated dust cover
- Extra Long (48", 122cm) insulated hose to allow flexible carry options

### SPECIFICATIONS

-  Polyurethane
-  Appr. 150g
-  3L

### COLORS

-  CX9
- Clear

## SPECIAL MISSION PACK SYSTEM

The track record Berghaus has in the field of MMPS rucksacs has led to further development of a mission specific military/police carrying system. A modular Special Mission Pack System (SMPS) has been developed to carry a variety of long-distance rifles and anti-tank weapon systems. The envelope in the back of Crusader WS (Weapon Systems) can take DragBag Long for sniper rifles up to a length of 130 cm. Larger rifles can be put inside DragBag Long in two parts. Alternatively, anti-tank weapon systems and larger rifles can be carried in one piece, when placed direct in the envelope of the Crusader WS.

SMPS consists of three components, which can be used stand alone or interacting together, depending on the type of mission. SMPS delivers the flexibility to carry anti-tank missiles or a long-distance rifle without sacrificing space for individual combat equipment.

## SMPS CRUSADER WS

LV00094-xxx

## GENERAL

Crusader WS has an envelope against the center part across the whole back, in which a long distance rifle, anti-tank missile etc. can be placed. Optionally DragBag Long can be fitted in the envelope also. The complete original pack volume from Crusader 90+20 remains available to stow (individual) combat equipment.

## FEATURES

- Cyclops II back system
- Envelope to store a long distance rifle, anti-tank missile, or DragBag Long with rifle fitted
- Retractable, lockable bottom sleeve
- Other features same as Crusader

## SPECIFICATIONS

- Armadura 1000D
- Appr. 88cm (H) x 57cm (W) x 35cm (D)
- Appr. 121cm (H) x 57cm (W) x 45cm (D)
- Appr. 4500g
- 110L (90L plus 20L) plus special equipment
- 2, 3, 4

## COLORS

Cedar

## NATO STOCK NUMBERS

- Size 2: nsn 8465-17-125-5359
- Size 3: nsn 8465-17-125-5360
- Size 4: nsn 8465-17-125-5361

**SMPS DRAGBAG LONG**

LV00049-xxx

**GENERAL**

The DragBag Long is shaped to fit in the envelope from Crusader RC. When used on its own DragBag Long can hold a 130cm long distance rifle, including mounted telescope and accessories. Larger rifles can be stowed in (two) parts, strapped to the molle attachment loops inside. DragBag Long comes with a detachable harness & belt.

**FEATURES**

- Molle inside to strap components from bigger weapon systems
- Detachable harness and hip belt
- Back panel reinforced with plates to avoid metal objects pressing through

**SMPS FOLDABLE DAYPACK II**

LV00051-xxx

**GENERAL**

Replaces the standard lid from SMPS Crusader WS and also MMPS Crusader & Atlas. Foldable Daypack can be quickly and easily removed from the main pack to form a daysack containing equipment needed for the mission. The Foldable Daypack can also be connected to the DragBag Long with two straps, hidden in tunnels or by using the side pockets. A 55L rucksack for shorter missions can be made when connecting side pockets with Foldable Daypack and DragBag Long.

**FEATURES**

- Compatible with all FMPS/MMPS/ SMPS side pockets

**SMPS AMMO POCKET**

LV00056-xxx

**GENERAL**

The SMPS Ammo Pocket integrates with Atlas, Centurio, Crusader and Vulcan rucksacs, incl. DragBag Long.

**FEATURES**

- Compatible with all FMPS/MMPS/ SMPS side pockets
- Holds magazines and has options for storage of accessories
- Can optionally be closed with both Velcro and or buckles

## FULL MISSION PACK SYSTEM

Crusader EC (extended capacity) is another smart derivate from the Crusader family with unique functions. Any type of man portable radio equipment can be stowed in the wide envelope at the center of the back. The radio can easily be operated without having to open the rucsac itself. FMPS delivers the flexibility to carry a variety of radio equipment and batteries without sacrificing space for (individual) combat equipment. Additional pockets for antenna's and a "mil spec" laptop are making Crusader EC extremely suitable for any comms job!

Crusader EC is not just about radio equipment. The envelope can be changed quickly into a compartment in which odd size equipment can be stowed. Anything like heavy weapons, grenades, .50 inch ammo boxes, large volume cans for water, ski-boots, tents etc. can be stowed in the envelope. Heavy weapon operators love Crusader EC to bits ! The rigid Cyclops system nicely transfers the load on the hips and protects the back from typical military equipment pressing through. Crusader EC is an incredible solution to transport man portable heavy weapons and radio equipment.

**FMPS CRUSADER EC**

LV00052-XXX

**GENERAL**

The Crusader EC, the work horse from the forces. This pack holds every piece of combat equipment a soldier on foot may need. Placed in the envelope at the center of the back a radio can be operated without having to open or unpack the rucsac itself. The complete original pack volume from Crusader (90+20 ltr.) remains available to stow individual equipment.

**FEATURES**

- Cyclops II back system
- Envelope to stow and operate radio equipment or to hold heavy odd size equipment like ammo boxes, grenades, heavy weapons, tent, water can, ski boots etc.
- Other features same as Crusader

**SPECIFICATIONS**

- Armadura 1000D

**FMPS WEAPON BAG S**

LV00088-xxx

**GENERAL**

Weapon Bag S is designed to carry and protect the personal weapon in transport in various circumstances. It has a padded stiffener plate inside to secure weapon & optics from damage. Weapon Bag S can be strapped on the body from all large Berghaus rucsacs, allowing to safely land with rucsac and personal weapon when dropped per parachute. It is also the perfect bag to go to the shooting range for the day.

**FEATURES**

- Takes a weapon incl. optics up to a length of 75cm
- Molle inside to strap the weapon tight inside if needed
- Back panel reinforced with a nylon plate to protect vital parts
- Can be carried as a sling bag or back pack with two 50mm webbing straps (included)

**SPECIFICATIONS**

- Armadura 1000D
- Appr. 80cm (H) x 30cm (W) x 8cm (D)

## **BERGHAUS MEDIC PACK SYSTEM**

BMPS has been developed to carry medic equipment by both medic specialist team members from operational units, or dedicated medic staff. BMPS was created after intensive contacts with medic experts. Requirements from the medics based on experience in combat and Berghaus as a high end rucksack supplier, formed a unique blend which has led to a modular solution of carrying medic equipment. BMPS packs have been extensively tested and proven in the world's toughest environments.

**BMPS FIRST AID KIT (FAK)**

LV00058-xxx

**GENERAL**

BMPS FAK holds and protects your first aid medic equipment in an organized and overseable manner.

**FEATURES**

- BMPS FAK can optionally be worn as a leg pouch, or attached to the molle loops from an ops vest
- Grab handle to quickly pull of the FAK from the Velcro patch
- Rain cover

**BMPS CENTURIO MEDIC**

LV00057-xxx

**GENERAL**

Holds and protects medic equipment in two different configured pouches. A maximum of three different pockets can be attached to Centurio Medic to customize the pack either for storage of individual equipment, water (Hydration Pocket), or even more medic supplies (Organiser PLUS Pocket).

**FEATURES**

- Compatible with all FMPS/MMPS/ SMPS side pockets
- Two side attachment straps and wand/bottle pocket on each side
- Molle webbing attachment points
- Includes a Medic Pouch M & Medic
- Pouch L which can be pulled out to be used independent from each other
- Includes 10 pouches with transparent top and Velcro bottom for storage of medic supplies inside Medic Pouch M and Medic Pouch L
- Two rain covers: matching color and Orange color

- Lockable zip sliders
- Two top compression straps
- Daisy chains
- Foam mat inside
- Internal mesh pockets on all sides and below the top flap

**BHDD GLADIUS 100 STASH DUFFEL**

LV00071-xxx

**GENERAL**

Ideal for circumstances when additional volume is required while on the way, or just the light weight duffel to take on a trip. The Gladius Stash Duffel offers 100L space. When stowed in the mesh pocket (BHDD Shirt Organiser) it does hardly take any space. The mesh pocket transfers in a shirt organiser, keeping your shirts and other small pieces nicely organized inside the big duffel.

**FEATURES**

- Top compression straps
- End grab handles
- Tie-on points that convert to rucsac straps
- Lockable zip sliders
- Comes in mesh pouch (BHDD Shirt Organiser)

APPAREL, GAITERS, MITTS AND GLOVES

**EXTREM 5000 VENTED JACKET**

22335-xxx

**GENERAL**

A highly robust waterproof, ideal for winter mountaineering.

**WATERPROOF GUARANTEE**

Stay dry all day long with reinforced GORE-TEX® fabric, fully taped seams and YKK® AQUAGUARD® protected zips.

**SUPERB VENTILATION**

Keep cool and let the air flow with two underarm, water resistant zips for enhanced ventilation when working hard on an ascent.

**CLIMBING HELMET COMPATIBLE**

Enjoy a comfortable fit with or without your climbing helmet with the storm proof hood that features three points of adjustment and a wired peak.

**FEATURES**

- Greater freedom of movement is down to the special darted construction for a technical fit
- When the weather kicks in you can tighten those fully adjustable cuff tabs that have been designed to work with mountain gloves
- Keep essentials safe in your two hand pockets and one at the chest
- Contains bluesign® approved fabrics

**ROSVIK JACKET**

A000801-xxx

**GENERAL**

This waterproof, urban styled jacket will stand up to the same rigours of a high performing mountain jacket.

**WATERPROOF GUARANTEED**

Beat driving rain hands down with 3 layer waterproof GORE-TEX® fabric.

**FULLY ADJUSTABLE HOOD**

Enjoy a close fit keeping biting winds at bay thanks to a fully adjustable hood with a bonded, wired peak to shield your eyes.

**VERSATILE FIT**

Keep driving rain and gales on the outside thanks to cuffs and a hem that can be pulled tight for a better fit.

**FEATURES**

- Enjoy a greater freedom due to articulated sleeves
- No more struggling thanks to a single point adjustment hood and hem
- Kick chilly draughts into touch with handy hook and loop adjustment cuffs
- Warm blue fingers in hand pockets with covered zips
- Contains bluesign® approved fabrics, making this jacket planet friendly
- Part of our MADEKINDTM commitment to creating high- performance gear that's kinder to the planet
- All fabric uses environmentally friendly PFC free DWR (Durable Water Repellent) technology

**HILLWALKER GEMINI 3 IN 1 JACKET**

**HARDSHELL 3 IN 1 MITT**

BH20680-xxx

**GENERAL**

Tough and durable mitt for serious winter use, with removable insulated inner mitt.

**FEATURES**

- Unisex fit Outer Mitt:
- Full leather palm for grip
- Suedette nose wipe
- Adjustable wrist strap
- Cuff drawcord
- Elastic wrist loop Inner Mitt:
- Removable inner mitt
- Elasticated wrist

**FABRIC**

- **Outer Mitt Fabric:** 3L GORE-TEX® Pro with micro-grid backer technology (156g/m<sup>2</sup>)  
 Content: 100% polyamide with ePTFE membrane and 100% polyamide backer  
 Plain weave developed using tough polyamide yarns  
 Leather palm
- **Inner Mitt Fabric:** Shell: PERTEX® Microlight (52g/m<sup>2</sup>)  
 Polyamide mini ripstop  
 Highly wind resistant (less than 5cfm)  
 Durable water repellent finish
- **Insulation:** PRIMALOFT® One (170g/ m<sup>2</sup>) Content: 100% polyester
- **Lining:** 100% polyamide

**SPECIFICATIONS**

M - XXL  
 Appr. 210g (pair)

 Size XXL: nsn 8415-99-404-5724

**SPECIFICATIONS**

M - XXL  
 Appr. 75g (pair)

**COLORS**

B50 Black

FABRICS AND FIT GUIDE

## FABRICS

**ARMADURA 70 D**

A high density ripstop using highly packed 70 D fine yarns for low weight. A combination of DWR treatment on the face and a 4 x PU coating applied to the reverse gives high waterproofness.

**ARMADURA 210 D HD RS**

An ultra lightweight 210 denier high density nylon ripstop woven fabric, delivering fantastic tear strength and durability.

**ARMADURA 1000 D**

A 1000 denier textured nylon used for its very high tear strength and abrasion resistance.

**TARPULIN®**

Tarpaulin is a waterproof coated textured 1.000D polyester used for its very high tear strength and abrasion resistance.

**GORE-TEX®**

GORE-TEX® is designed to provide breathable comfort and durably waterproof and windproof protection. GORE-TEX® is ideal for a wide range of outdoor activities. The secret of GORE-TEX® fabrics lies within its revolutionary membrane. The expanded PTFE portion of the membrane contains over 9 billion microscopic pores per square inch. These pores are approximately 20,000 times smaller than a drop of water, but 700 times bigger than a molecule of moisture vapour. So whilst water droplets cannot penetrate the GORE-TEX® membrane, moisture vapour (a gas) can easily escape.

**PERTEX®**

Perfected through intensive research and development, PERTEX® Microlight has become the global standard for lightweight outdoor gear. Highly abrasion resistant, soft, downproof, windproof and having a durable water repellency, PERTEX® Microlight contains a well-balanced list of features, making it ideal for all your mountain adventures.

**PRIMALOFT® PL1 FILL**

A unique Microfibre insulation which resembles the physical and thermal properties of down. PRIMALOFT® insulation is lightweight and compressible and is unsurpassed in its ability to keep you drier and warmer than down and other synthetics.

**WINDSTOPPER® SOFT SHELL**

WINDSTOPPER® Soft Shell offers total windproofness and maximum breathability, combining the comfort of a soft mid-layer and the water resistance of a shell in one garment. WINDSTOPPER® Soft Shell keeps you comfortable with the freedom of movement you need for enhanced performance in a wide range of activities and weather conditions.

**FIT GUIDE**

**BACKLENGTH FOR CYCLOPS II**

SIZE	TYPICAL HEIGHT IN CM
1	153 - 165
2	160 - 173
3	170 - 183
