Julio-July 2020

Resumen Ejecutivo

La publicación Balanza de Pagos de Puerto Rico realizada por la Junta de Planificación registra las transacciones entre los residentes de Puerto Rico y del exterior. Esta consta de dos componentes principales: cuenta corriente y de capital. La cuenta corriente se compone de las ventas netas al resto del mundo, que son las ventas y compras de mercancías y servicios relacionados directamente con la producción; de las transferencias unilaterales netas, que representan recibos y pagos con el exterior que no están relacionados con transacciones de mercancías y servicios y que no constituyen movimientos de capital por concepto de esas transferencias; y el interés neto del gobierno central y los municipios. La cuenta de capital registra los movimientos de fondos que han ocurrido como resultado de las transacciones de la cuenta corriente. Estas se subdividen en movimientos a largo y corto plazo. Esta publicación presenta datos para los años fiscales 2010 a 2019.

En nuestro continuo esfuerzo por modernizar el nivel de nuestras estadísticas de acuerdo con los modelos vigentes, continuamos el proceso de transición hacia el Sistema de Cuentas Nacionales del 2008 (SCN 2008), de acuerdo con los criterios metodológicos recomendados por los organismos pertinentes. Esto incluye la Organización de Naciones Unidas, el Fondo Monetario Internacional y el Negociado de Análisis Económico de los Estados Unidos. En lo que concierne a las transacciones entre Puerto Rico y el resto del mundo, la Balanza de Pagos y Posición de Inversión Internacional de Puerto Rico 2019, incorpora lo establecido en la sexta edición del Manual de Balanza de Pagos y Posición de Inversión Internacional (MBP6). Éste se actualizó de forma paralela con el SCN 2008. Además, proseguimos los estimados de inversión directa en las cifras de montantes y movimientos de capital entre Puerto Rico y el exterior. Este proceso se reanudó en la publicación del pasado año, luego que tales cifras habían permanecido sin estar disponibles desde la década de los ochenta.

Agradecemos a las entidades públicas y privadas que proveyeron los datos utilizados para preparar esta publicación.

Executive Summary

Puerto Rico's Balance of Payments records the transactions between Puerto Rico residents and abroad. Its two main components are the current account and capital account. The current account contains net sales to the rest of the world, which are sales and purchases of merchandise and services directly related to production; net unilateral transfers, which are receipts and payments to and from abroad not related to the sales and purchases of merchandise and services and which do not constitute a capital movement because of these transfers; and the net interest of the central government and municipios. The capital account records the movement of funds, which have taken place as a result of the current account transactions. These are subdivided in long and short-term movements. The Balance of Payments of Puerto Rico 2016 presents data for fiscal years 2010 through 2019.

The information for exports and imports of not seasonally adjusted goods is revised by the U.S. Bureau of the Census to redistribute monthly data that arrived too late for inclusion in the month of transaction but were initially included in the month in which the data were received. Once the redistributions of data to the proper month of transaction and any corrections or adjustments are completed, data for prior years are recompiled and released by the Census.

In our continuous effort to modernize the level of our statistics according to the current models, we continue the transition process towards the System of National Accounts of 2008 (SNA 2008), in accordance with the methodological criteria recommended by the pertinent organizations. This includes the United Nations Organization, the International Monetary Fund and the Bureau of Economic Analysis of the United States. Concerning the transactions between Puerto Rico and the rest of the world, Puerto Rico's Balance of Payments and International Investment Position 2019 incorporates the provisions established at the sixth edition of the Balance of Payments and International Investment Position Manual (BPM6), which is in harmony and updated in parallel with SNA 2008. In addition, we continue the estimates of direct investment in the amounts of amounts and capital movements between Puerto Rico and abroad. This process was resumed in last year's publication, after such figures had remained unavailable since the 1980s.

We are aware of the challenges involved in a process of reviewing a system as complex as the National Accounts. Therefore, we reiterate our willingness to maintain a real feedback between the PRPB and our users of information, for the benefit of the fidelity and confidence levels of the information presented in our publications. We thank the public and private entities that provided the data used to prepare this publication.
