TMC INSIDE

TMC tuner offers real-time traffic information on the GPS map display. The system can also calculate a route to avoid congestion according to the traffic information received. The DNX Series and the hide-away navigation system KNA-G620T have a built-in TMC tuner to support hassle free driving.

* Some countries requires local subscription.
3D BUILDING MAP

3D Building Map

This convenient feature displays key buildings and landmarks in 3D view, making finding your route much easier. In addition, major points of interests are displayed in a photographic representation for easy recognition. *For DNX9280BT only.

LANE ASSIST WITH JUNCTION VIEW

Lane Assist with Junction View

This feature guides you to the correct lane for navigation, avoiding confusion on the motorway and multi-lane junctions. For additional assistance, it can even display the road signs on major motorways.
*For DNX9280BT, DNX7280BT, DNX5280BT, KNA-G620T only.

ECOROUTE

ecoROUTE

ecoRoute™ helps you find more fuel efficient routes and provides a Fuel and Mileage Report so you can keep track of fuel usage. It also features ecoChallenge that helps drivers improve driving habits and increase fuel efficiency.

FRIENDLY NEW GUI

Split Screen Control   **PinP**

A new and improved GUI for easy operation. "Split Screen" shows both Navigation and Source control on the same screen. "Picture in Picture" puts both Navigation and either Video or a Camera (optional CMOS-200/300) on the same screen. With "Primary / Secondary Screen", you can toggle between Navigation and Source screen. Regardless of the menu display, all screens can be controlled via the touch-screen operation.
*For DNX9280BT, DNX7280BT, DNX5280BT and DNX4280BT only.

HIGH RESOLUTION VGA DISPLAY

7"WideVGA   **6.1"WideVGA**

Thanks to the Wide VGA high-resolution display, the keys, icons, navigation map and DVD images appear much clearer and sharper. The VGA display is offered for all DNX models in the new line-up. Dynamic Brightness Control is available for DNX9280BT and DDX8026BT, a function which automatically corrects the brightness by partially adjusting the contrast of an image.

iPod/iPhone MUSIC AND VIDEO PLAYBACK

Made for iPod iPhone

Kenwood's Multimedia systems are iPod/iPhone friendly and this means that searching for music or a movie title is a snap via the touch panel. In addition to conventional searches for playlists, artists, albums and genres, additional search commands can also be performed for music videos, TV shows, movies, video playlists, etc. Kenwood's exclusive feature is the My Favourite Albums feature of the all new DNX models allow the user to "flick through" album art from a connected iPod or iPhone and create their own personal "Top Ten".

Music Playback

Video Playback

Powered by Parrot

BUILT-IN BLUETOOTH

Bluetooth

Kenwood's Multimedia systems come equipped with built-in Bluetooth capability to enable hands-free cell phone operation so you can keep your hands on the steering wheel where they belong and concentrate on the road ahead. When an SMS (Short Message Service) is received, the senders name and message conveniently appears. In addition, we have integrated capability to play music files stored in A2DP-compatible devices to bring a wireless world of seamless entertainment into your car.

* DNX520VBT, DNX5280BT and DNX4280BT are "Hands Free" and "SMS" capability only. Not compatible with Music Playback.

5.1CH DSP

5.1ch DSP

While pursuing improvement of fundamental audio quality through application of the Digital Direct concept, Kenwood also recognises how Dolby Digital, dts and other multichannel formats transform the cabin environment into a sensual sound stage with the power of surround audio. And with Dolby Pro Logic II compatibility, even 2ch signals from CDs, iPods and any other 2ch sources can be converted into 5.1ch signals to simulate surround sound.

SD PLAYBACK

SDHC

Play music files (AAC/WMA/MP3/WAV), movie files (MPEG1,2,4/H.264/ WMV), and photo files (JPEG) stored on SD cards with the SD function featured in the DNX7280BT and DDX8026BT. On your next trip, snap a photo with your digital camera, insert the SD Card in the slot and share the moment with everyone in the car on the headunit display or on an optional rear monitor.

NAVIGATION INTERFACE

Using a navigation system will always keep you headed in the right direction and now, the new 2011 Kenwood DVD entertainment systems can be connected to an innovative hide-away navigation unit designed to more smoothly guide you to any destination.

Listen to the Future

Kenwood has always connected with people through sound.
Now we want to expand the world of sound
in ways that only Kenwood can,
listening to our customers and to the pulse of the coming age
as we head toward a future of shared discovery,
inspiration and enjoyment.
