## “Johann Strauss Collection”

Born in Kempton, Germany in 1890, Strauss came to America on the USS President Lincoln in 1912. He lived with cousin Karl Moos in Chicago and worked as a food checker at the world-famous Como Inn.

Johann never married. His love affair was with postage stamps. His collection of airmail envelopes, many interspersed in massive scrapbooks celebrating aviation, remained intact until offered during this sale. It represents a rare window into famous fliers, transoceanic travel, and the public’s fascination with flight.

## “Leo A. Malz Collection”

While the resources to create extraordinary collections of Latin America, Palestine and Israel, and others come from running a successful plastic firm his father started before Leo was born, his passion was dealing in stamps.

For more than 50 years Malz ran a new issues service, wrote extensively in philatelic literature, and was proud to refer to himself as the only full-time Space dealer.

His holdings of Astrophilately represent a rare opportunity for space event collectors, and dealers intent on continuing Leo’s space topical service, to find wonderful material.

His many friends remember a kind and generous human being. It was later in life, while on philatelic business in Mongolia, that he met his wife. Of corporate CEO, stamp dealer, and husband he would have described himself as a family man first. The photo, taken in 2012, is of their first son, Richard.

**Viewing - Limited in person viewing. We will entertain enquiries by phone and email for further details.**

- 6188 ☒ **United States, 1930 (Jun 3-6), Europe Pan-America Flight, Lakehurst - Friedrichshafen, Return Flight, (Michel 67Jb, 68Jb)**, matched pair of covers franked with a \$1.30 Zeppelins (C14); U.S. flight cachet only, canceled Lakehurst on May 31 and backstamped Friedrichshafen; the stamp on the Seville cover is average, centering-wise, the cancel on the other is misaligned, Fine. Michel €650 (\$730). Estimate \$300 - 400
- 6189 ☒ **United States, 1930 (Jun 3-6), Europe Pan-America Flight, Lakehurst - Friedrichshafen, Return Flight, (Michel 68Ja & b)**, matching Zeppelin card & cover franked with 65¢ & 1.30 Zeppelins, respectively (C13-C14), both canceled New York, Jun 2, with Jun 6 Friedrichshafen receiver; *the card is Zeppelin South America Service postcard and the cover bears a printed cachet reproducing that same image*; there is a small blob of cancelling ink on the \$1.30 Zeppelin, F.-V.F. Michel €400+ (\$450). Estimate \$300 - 400
- 6190 ☒ **United States, 1932 (Jul 31), Danzig Flight, two: Rönne Drop and Friedrichshafen Return, (Michel 261Ia, 262Ac)**, matched pair of LUPOSTA postcards, each with the complete set of Luposta Airmails (C31-C35) tied by Danzig-Langfuhr Airfield c.d.s.s with all appropriate markings, Very Fine. Michel €300 ++ (\$340). Estimate \$200 - 300
- 6191 **United States, 1933 Century of Progress Flight, Announcement/Price-List, large - about 12" x 21"** - broadside published by F.W. von Meister, the Zeppelin Company's U.S. representative, giving details of the Zeppelin's flight dates and rates for all legs of the flight, as well instructions on how to prepare envelopes. This particular announcement must have been sent out in late September or early October, because the paragraph on preparing mail to be carried by steamer to Germany for the outbound flight is crossed out with attention called to the paragraph suggesting that collectors have covers prepared by Zeppelin agents in Friedrichshafen, Brazil and New York; folded, but in remarkably well preserved. A marvelous collateral item. Estimate \$100 - 150

EX 6208

- 6206 ☒ **Canada, British airship scrapbooks, 1930, two vintage scrapbooks with articles from Canada, America and Germany along with several envelopes; 4 covers dated 1 Aug 1930 (arrival) and 13 Aug 1930 (departure) from Montreal with small R-100 cachets; 1929 postal receipt card signed by Maj G H Scott, commanding officer of R-34 which was first to cross the Atlantic by air in 1919; and 3 envelopes signed by Charles D Burney, commander of the R-100; the loss of R-101 ended the airship effort in Great Britain for more than 30 years; a very interesting read. Estimate \$400 - 600**

- 6207 ☒ **Germany, Mother Lode of the First flight of a Zeppelin airship to America, 1924, ZR-3 was built by Germany as part of reparations following the Great War; originally known as LZ-126 it was renamed USS Los Angeles; lot consists of 58 envelopes and 45 picture postcards from 18,000 pieces of mail carried; postcards have 50pf franking while letters required 1RM; on 12 Sep 1924 the post office reported it would stop accepting mail as of 15 Sep; all items in this lot are postmarked 4 Oct which adds a premium; Michel Zeppelin Specialized increases the catalog value from 50 euro before 15 Sep to 100 euro; that would bring the catalog value to \$12,400; Frost puts the value per cover at \$500 making the catalog value \$51,500!; 103 pieces in total. Sieger 20a; €60 (\$70) (photo on web site). Estimate \$2,500 - 3,500**

- 6208 ☒ **Germany, Graf Zeppelin world tour, 1929, stunning group of German or Swiss franking on envelopes and cards that circled the planet; first is a sepia portrait postcard of Dr Hugo Eckener postmarked in Berlin with the new Graf Zeppelin on board circle date stamp, the 2RM Zeppelin stamp and red World Tour cancel; it is addressed to Max Preus who crossed the Atlantic 171 times and commanded the Hindenburg the day it exploded at Lakehurst; a second postcard, also with the valuable franking, has a beautiful violet CDS struck in Tokyo on the stamp (could not be more attractive); the next card, addressed to Japan, has the receiving mark conveniently on the face of the card; three envelopes, franked with the 4RM Zeppelin stamp, are similarly mailed to Tokyo and have either a machine cancel, or a very appealing primitive appearing hand cancel; the Swiss issues are spectacular, consisting of the high value allegory of flight, began in Zurich, moved to Friedrichshafen the same day, and have postmarks from Japan a few weeks later; two postcards from Germany to California with Los Angeles receiver marks, one 4RM Zeppelin stamp with numeral in the attach selvage and autograph of C E Rosendahl; some have multiples of the 4RM Zep and two have examples of both the 2RM blue and 4RM tied on the same cover; includes example of drop mail at Friedrichshafen with 2RM Zeppelin stamp; 22 items in total; the catalog value of the stamps alone exceeds \$1,000. Estimate \$2,000 - 3,000**

- 6209 ☒ **Germany, Collection of 75 different Zeppelin covers with German frankings, 1924-38, LZ 126 through LZ 130, cards or covers - sometimes one of each for the same flight; no rare flights but some nice frankings including about 15 2m South America Flight Zeppelins; virtually all clean and F-VF. Michel €11,000 (\$12,330) (photo on web site). Estimate \$1,500 - 2,000**

- 6210 ☒ **Germany, Collection of 31 different Zeppelin covers with German frankings, 1928-33, cards or covers - sometimes one of each for the same flight; no rare flights but some nice frankings including three South America Flight Zeppelins and seven Polar Flight Zeppelins; virtually all clean and F-VF. Michel €7,575 (\$8,490). Scott \$925 (photo on web site). Estimate \$1,000 - 1,500**

- 6211 ☒ **Germany, mostly Zeppelin cards and letters, 1928-1930, 65 items with about half postcards sent with images of Zeppelins; Southern Germany 28 Sep 1928 dates autographed Dr Ing Durr, Dr H Blau, and G Hurbert Scott (2 of each); 5 similar but without autographs; ZR 3 to the US (3); 10 LZ 127 with 4RM Zeppelin stamp plus Eagle franking; 5 mourning covers; LZ 127 Round the World Los Angeles to Friedrichshafen (2); Los Angeles to Lakehurst (4); Zeppelin Day in Tokyo 1929 (10); Lakehurst to Germany (12); plus commemorative covers; nice lot (photo on web site). **1960, North American Aviation X-15 pilot autographs**, North American's Project 1226 envisioned a single seat aircraft with the performance characteristics of a V-2 missile; it would be hypersonic (above Mach 5) and fly to the edge of space; until the space shuttle, no winged vehicle had flown higher or faster; autographs include, **Scott Crossfield** on an early X-15 envelope (Boy Scout cachet) postmarked the day he lit "the big engine"; **Forest S Peterson** on a 20th anniversary cover commemorating the Crossfield flight; **Neil Armstrong** (who flew the earliest altitude profiles) on an index card along with a very clean X-15 cover from his first flight in 1960; a Decade of Achievement FDC signed by **Scott Crossfield, Robert Rushworth, and Robert White**; an unusual envelope postmarked at White Sands on launch day for the first space shuttle flight signed by **William Knight**; an Edwards AFB cancel for the return of STS-1 autographed by **Robert Rushworth**; an Apollo 11 FDC signed by **Forest Peterson**; an X-15 cover dated Mar 1968 with Bill Dana's name under the cachet (but not his signature); and an autograph of **Joe Engle** training to pilot the space shuttle (after having flown the X-15); 10 pieces in all. Estimate \$750 - 1,000

6402 ☒

**1972, Bell Aircraft Experimental Supersonic - 1 (XS-1)**, during the Second World War aircraft in steep dives encountered extreme compressibility; planes were flying so fast the air couldn't get out of the way which resulted in severe stress on structures and problems with control; Bell Aircraft designed a 50 caliber bullet shaped rocket powered plane to "break the sound barrier"; grouping includes index card autographed by **Chalmers (Slick) H. Goodlin**, the first to pilot the plane; a FDC with a stamp from Lesotho picturing **Chuck Yeager** and the X-1 with his autograph; a Project Mercury FDC signed by **Bob Hoover**, the X-1 chase pilot; a Smithsonian Milestone of Flight cover (number 1) issued to commemorate the 25th anniversary of supersonic flight (the envelope was FLOWN supersonic); a 30th anniversary cover postmarked at Edwards AFB autographed by **Chuck Yeager**; and a 40th anniversary postmark from his hometown in Hamlin, WV signed by **Chuck Yeager**; 6 items in all including 5 autographs. Estimate \$250 - 350

**EX 6404**

6403 ☒

**1973, Wingless lifting body covers with pilot autographs**, in order to create vehicles that could travel from orbit to runway, NASA investigated shapes where the lift comes from the fuselage instead of wings; this collection has 28 autographs (mostly pilots); M2 covers for Cecil Powell (unsigned), **Jerry Gentry, Bill Dana** and **Bruce Peterson**; most are X-24B covers including first captive and first powered flights, as well as numerous autographs (including **Dave Scott, Tom Mc Murtry** and **Gary Krier** who did not fly it) including John Manke (3) and Mike Love (9); various colors of Boy Scouts of America rubber stamp cachets; a total of 28 envelopes. Estimate \$300 - 400

6404 ☒

**1977, NASA test flight of Ardvaark, Gulfstream and Jet Star**, in the 1970s extensive work at Dryden was performed with the F-111, C140, and modified Gulfstream (STA 946); autographs of **Einar Enevoldson, Steve Ishmael, Gary Krier, Ronald Grabe, and Stan Boyd** signed the F-111 covers; **Don Mallick, Ray Young, Ed Gibson** and **Don Lind** signed the C140 Jet Star; autographs on the Gulfstream included **Fred Haise, Gordon Fullerton** and **Richard Truly**; 14 covers in all. Estimate \$200 - 300

**6410**

**6409** ☒ **1959, Discoverer I & II**, in the late 1950's the CIA was intent on gathering photographic intelligence on Soviet military installations; codename CORONA, ultra high resolution cameras were carried in a series of missiles launched from California; the cover name of the series was Discoverer; the Vandenberg Air Force Base hand cancel document the launch site required to achieve a polar orbit needed to spy on the Russians, *scarce Flick printed cachets, the Discoverer II envelope has been hand colored.* Estimate \$300 - 400

**6410** ☒ **Explorer satellite program**, Goldcraft premium color cachets for I,III,IV,VI,VII, and VIII;unaddressed or with unobtrusive rubber stamp address. Estimate \$300 - 400

**6411**

**6412**

**6411** ☒ **Pioneer lunar program series**, ahead of it's time the US Army and then NASA launched Thor-Able missiles at the Moon; beautifully captured on premium Goldcraft printed cachets; for perspective, it had been less than a year since Werner Von Braun had launched America's first successful satellite. Estimate \$300 - 400

**6412** ☒ **Discoverer series**, CIA Corona spy satellite series launched into polar orbit from Vandenberg Air Force Base; early pieces tough to get since launches not widely advertised; 22 covers with minimal duplication; contains key numbers 1, 2, 4 and 7 fired in 1959; cachets are mostly generic Swanson; includes Zaso, Sarazin and a Goldey. Estimate \$300 - 400

**EX 6413**

**6413** ☒ **Discoverer satellite series launched from Vandenberg**, purported as a developmental technology series, Discoverer was actually CIA cover for the CORONA spy satellite series designed to take high resolution film images of Soviet military installations; this lot has 42 envelopes beginning with Discoverer 15 and ending with Discoverer 38; very slight duplication noted; most cachets are the Holden (Swanson?) generic missile orbiting from the West Coast, some are Sarzin, others Zaso, and four are the attractive photo ringed in red inset into the envelope reminiscent of a Crosby; CORONA was an important story and this group will help you tell it. Estimate \$300 - 400

- 6414 ☒ **Explorer, 5 early covers**, produced by Sarzin; includes Explorer I,III,VI,VII, and IX; all have Port Canaveral hand cancel; unaddressed or to Sarzin. Estimate \$200 - 300
- 6415 ☒ **Vanguard I, II, and III**, Goldcraft printed cachets postmarked at Patrick Air Force Base (Vanguard I) and Port Canaveral (Vanguard II & III), after some embarrassing false starts, Vanguard achieved orbit and qualified a number of technologies including the use of solar cells to generate electricity in space. Estimate \$200 - 300
- 6416 ☒ **Thor, Titan and Atlas postcards cancelled for launch**, for some reason a dealer went crazy and postmarked stamps on the face of Air Force missile postcards in 1959 and early 1960; included are 12 for Explorer 7 (Oct 13, 1959), the day after Echo (Oct 27, 1959), 9 for the 5000 mile flight of Atlas ICBM (Oct 29, 1959), and 6 for Transit 1-B (Apr 13, 1960); good dealers stock of 28 cards. Estimate \$200 - 300
- 6417 ☒ **NASA “Officials” from White Sands, JPL, and Ames**, 60 envelopes related to satellites; 10 TRW Navstar envelopes; several covers from the JPL stamp club related to Voyager; wind tunnel test covers from Ames; and a nice series of Viking rubber stamps from Pasadena and the spacecraft tests at White Sands; clean lot for the specialist in “Officials” other than KSC or Vandy. Estimate \$200 - 300
- 6418 ☒ **Key satellite scientists and principal investigators**, appropriately the lot starts with a real photo postcard of a captured V2 erected at White Sands Proving Grounds; autographs of Walter R Dornberger (von Braun’s superior), Albert Pullenberger (rocket pioneer), Kurt Debus (von Braun contemporary); Mercury capsule designer Max Faget, astronomers Sir Bernard Lovell (2) and Lubos Kohoutek, scientists William Pickering (2) and James van Allen (3), author Arthur C. Clarke; solar eclipse expedition from Woods Hole (1959) signed by the Chief Scientist and the six expedition members; and several lovely SpaceCraft envelopes covers in signatures supporting Explorer 43, Eole, SERT, Mariner 8, Mariner 9 and RAM-C; a fun group of 57 autographs on 27 envelopes. Estimate \$200 - 300
- 6419 ☒ **Hodge-podge with hidden gems**, we start with the beginning of the end, a Mailgram (Sep 1974) heralding “*an important step in electronic transmission of letter mail*”; covers for Telstar, Echo, and COMSAT; crisp Ap-11 VIP card postmarked on July 20, form letter to Boeing employees in lunar rover contractor cover, autograph of Jerrie Cobb (Mercury 13), FLOWN RAF Woodbridge HC-130 during STS-2, numerous FDCs for 1331-32, 1371, C76, 1434-35 (2 sets of KSC/Huntsville/Houston), Niki Wenger (Teacher in Space finalist), corner card FDCs from Philco Ford, Sperry Rand, and NASA Manned Spacecraft Center; 10 different shuttle launch envelopes from Genesis Graphics; bonus hand-drawn cachets (they actually look like Little Joe and not the Redstone or Atlas) for the Mercury flights, the MR-3 is actually 1st anniversary cover and there isn’t a MR-4 but the MA-6, MA-7, MA-8 and MA-9 all look good. Estimate \$200 - 300
- 6420 ☒ **Mariner I & II probes to Venus**, seldom seen collection of project leader autographs on add on cachet; signed by Mariner I Program Manager, Spacecraft System Manager, and Mariner Project Manager;; Mariner II envelope toned with pronounced label stain. Estimate \$100 - 150

- 6422 ☒ **1959 (Sep 9), Big Joe 1 postcard**, great example of the BJ-1 flight on an Atlas postcard; Port Canaveral hand cancel very readable, a wonderful example; included is the “return to port” date (Sep 10) on a Navaho missile postmark, poor contrast but legible; a key item. Estimate \$250 - 350
- 6423 ☒ **1959 (Sep 9), Big Joe 1 postcard**, Titan postcard with scarce BJ-1 Project Mercury qualification launch date; also a “return to port” Sept 10 postcard showing a Redstone missile, unfortunately the black postmark on a night sky is quite hard to read; key none the less. Estimate \$200 - 300
- 6424 ☒ **1961 (Nov 10), Goliath monkey flight**, riding an Atlas ICBM this astrochimp was lost when the booster exploded; Patrick Air Force Base machine cancel; attractive SpaceCraft multicolored art. Estimate \$150 - 200
- 6425 ☒ **1961 (Nov 29), Mercury-Atlas 5 Monkey covers**, Swanson generic missile with Patrick AFB machine cancel, Harry Gordon add-on to Port Canaveral AM hand cancel, Sarazin Port Canaveral PM hand cancel, and Zazo Port Canaveral AM hand cancel; lot also includes a Jan 20, 1961 colony of chimps work towards upcoming flight, Oct 13, 1969 Sarazin space mice, and photo add-on and printed Nov 10, 1961 Goliath envelope; total of 7 items. Estimate \$250 - 350
- 6426 ☒ **1961, Monkey flight in Atlas ICBM**, chimp Scatback was integral to this early Bio Sat mission; green generic Swanson rubber stamp cachet; Patrick Air Force Base machine cancel postmarked once the post office opened the following day; label stain, *very scarce and desireable Mercury qualification flight*. Estimate \$250 - 350
- 6427 ☒ **Tough Project Mercury qualification dates**, few collectors paid attention to qualification flights are and therefore absent from many collections; **BJ-1** (better example with the Atlas postcard), Thor postcard with the Sep 10 “return to port” date; **MR-1A** with generic Swanson; **MA-3** with generic Swanson; **LJ-5B** with attractive Rocket fired from Wallops Island; Sarzin **MA-2**; generic Swanson **MR-BD**; Sarzin **MR-3**; and Sarzin **MR-4**; 9 important items for your collection. Estimate \$500 - 750
- 6428 ☒ **Project Mercury before John Glenn**, grouping of sub-orbital and unmanned Mercury flight covers; Patrick AFB machine cancel on blank cover postmarked the day before America’s first manned spaceflight (MR-3); Port Canaveral hand cancels (one Sarzin capsule up, another capsule down); two Sarzin (MR-4) Phase 2 covers and a Fuerst Virgil I Grissom airmail envelope; two Harry Gordon MA-4 robot covers postmarked at Port Canaveral; and two MA-5 (Enos) envelopes, one a PM Sarzin and the other blank and addressed to Barbara Baker. Estimate \$250 - 350
- 6429 ☒ **Monkeys, robots, and ballistic space shots**, a similar grouping with the exception that one of the Enos cachets is Zaso, and the robots are Sarzin and generic Swanson. Estimate \$250 - 350

EX 6430

EX 6431

- 6430 ☒ **Sometimes the best man for the job isn't**, ever since humans have flown balloons and rockets, biological specimens and animals have gone along; Sarzin Sally, Amy and Moe (mice) travelled on a 5000 mile ride in an Atlas ICBM (1960), a white rat payload accompanied a sounding rocket from Wallops Island (1964); as part of the Mercury spacecraft qualification series a Rank flocked Ham launch (MR-2), a Sazin Ham launch (1961), and a *USS Warrington* recovery envelope (SRS), also a Sarzin Enos flight (MA-5) cover; three autographed Scout sounding rocket envelopes from the NASA facility at Wallops Island investigating inner ear biology in frogs (1970); good stuff. Estimate \$250 - 350
- 6431 ☒ **Mercury and Apollo qualification flights**, Unglamorous (but vital) engineering tests; six Mercury and six Apollo; Goldley May 9, 1960 Beach Abort (BA), Hudson Nov 8, 1960 Little Joe 5 (LJ-5), Hudson Mar 18, 1961 Little Joe 5A (LJ-5A), Swanson Apr 25, 1962 Mercury Atlas 3 (MA-3), Swanson Apr 28, 1961 Little Joe 5B (LJ-5B), document cachet Sep 13, 1961 Mercury Atlas 4 (MA-4); Sokolsky May 13, 1964 Little Joe II (A-001), White Sands Dec 8, 1964 Abort 2 (A-002), White Sands May 19, 1965 Abort 3 (A-003), White Sands Jun 29, 1965 Pad Abort Test 2 (PA-2) (2 examples), Orbit Jan 20, 1966 Abort 4 (A-004). ### MERCURY FLIGHTS (1961-1963)

**6434**

**6435**

6434 ☒ **1961 (May 5), Shepard U.S.S. Lake Champlain Prime Recovery Ship**, Arguably the most difficult Prime to acquire; a *superb* hand cancel with standard rubber stamp; beautiful full vintage **Shepard** autograph (possible atypical autopen?) with partial address of Peter Van Miert, an early Astrophilatelist; this will be the finest Prime Recovery Ship in your collection, outstanding postmark; label stains and evidence of prior photo mount in left lower corner; hinge remnant on reverse, *reportedly only 44 philatelic covers were mailed from the ship; in contrast the U.S.S. Hornet mailed 250,000 philatelic covers for Apollo 11.*

Estimate \$2,000 - 3,000

6435 ☒ **1961 (July 21), Grissom Prime Recovery Ship Type II with AUTO**, Locating a genuine **Grissom** autograph is a find; getting one on a Type II *U.S.S. Randolph* Prime Recovery Ship is extra special; don't let this get away; faint label stains noted.

Estimate \$1,500 - 2,000

**6437**

6436 ☒ **1961 (July 21), Grissom U.S.S. Randolph Type II Prime Recovery Ship**, Recovery ship covers from the suborbital flight of Grissom are rare. Especially difficult is finding a complete, legible Type II postmark; this one also has an attractive magenta Registry hand stamp; the signature is an autopen; Very faint toning from glue lines and slight residual from address label, *Type II (ship name on top) are very scarce.* Estimate \$1,200 - 1,800

6437 ☒ **1961 (July 21), Grissom Type I U.S.S. Randolph Prime Recovery Ship**, Amvet label (overwritten as Second Manned Space Flight) on fresh suborbital Prime; the hand cancel is quite crisp and the airmail envelope adds color. Estimate \$400 - 600

**6438**

**6439**

6438 ☒ **1961 (July 21), Grissom U.S.S. Lowry sub-orbital Secondary Recovery Ship**, Airmail cover with superb hand cancel on uncommon Secondary Recovery Ship; accompanying note on ship letterhead addressed to Les Winnick explains Commanding Officer autograph added in 1964; also *USS Remey* and *USS English (MA-7)*; *USS Kaskaskia* and *USS Renshaw (MA-8)*; *Canton Island (MA-9)*; and *USS Fort Snelling (MOL)*, *only the second sub-orbital Secondary Recovery Ship cover we've seen in 30 years and the only autographed example.* Estimate \$200 - 300

6439 ☒ **1962 (Feb 20), Glenn Prime Recovery Ship with bold P.M. cancel**, Non-backdated envelope serviced on the destroyer that collected Col. Glenn; stamped corner card ship information with add on picture and vintage **J H Glenn Jr** signature, *while covers with other than Mercury stamps (#1193) are considered genuine, these scarce P.M. versions are especially desirable.* Estimate \$600 - 800

**6440**

6440 ☒ **1962 (Feb 20), Glenn Prime Recovery Ship with P.M. postmark**, Very attractive *U.S.S. Noa* hand cancel with P.M. cancel (not backdated) on seldom seen aerogram; Gordon-type add-on cachet and vintage **J H Glenn Jr** autograph complete this exceptional item, *while Feb 20th postmarks with non-Mercury stamps are considered non-backdated, these scarce P.M. versions are considered unimpeachable.* Estimate \$500 - 750

Pierce Prime Recovery Ship**, This envelope mailed to a collector from an unlikely Prime Recovery Ship has a strong, well-formed hand cancel and the amateurish printed cachet (as usual) on the reverse; while not the early vintage **M. Scott Carpenter** signature, this mid-career autograph is attractive. Estimate \$500 - 750

6442 ☒ **1962 (May 24), Carpenter Prime Recovery Ship**, Very scarce Goldy artwork with beautiful hand cancel; following a landing overshoot the destroyer *U.S.S. John R. Pierce* arrived to recover the Mercury astronaut and his capsule; faint foxing along left lower edge, a key item for Project Mercury. Estimate \$500 - 750

## COLLECTIONS, GROUPS AND MISCELLANEOUS

6443

6444

6443 ☒ **Gold Team honored in New York City**, Vintage autographs of Mercury astronauts labeled by Life magazine as the Gold Team when it was unclear who would fly the first manned space missions; **Shepard** and **Grissom** piloted the sub-orbital flights while **Glenn** had just returned as the first American to orbit the Earth. Estimate \$1,000 - 1,500

6444 ☒ **Vintage Grissom on Project Mercury First Day Cover**, fresh as the day it was signed beautiful, full autograph of **Virgil I Grissom** on block of four uncached and unaddressed envelope; due to the crush of fan requests the astronaut usually compressed the signature as Gus Grissom; seldom encountered since the pilot was killed in the pad fire in Jan 1967. Estimate \$750 - 1,000

- 6452 ☒ **Mercury astronaut autographs on cover**, dealers opportunity to get vintage signatures of the original astronaut pilots; Houston Philatelic Society has Type 1 autopens of all but Shepard (Type 3) and **J H Glenn Jr** and **Scott Carpenter** (which are good); generic printed Project Mercury cacheted envelope also has Type 1 autopens with the exception of **Alan B Shepard Jr**, **J H Glenn Jr**, and **Scott Carpenter**; the remainder are one cover one autograph; **Gordon Cooper** (2), **Leroy Cooper Jr**, **Scott Carpenter** (8), **D K Slayton** (3), **John Glenn**, and **J H Glenn Jr** (5); a total of 25 autographs on 22 covers; all from heroes who have passed on. Estimate \$500 - 750
- 6453 ☒ **Mercury flights complete with Velvet artwork**, Attractive collection of Rank cachets; each has both a printed signature and either an autograph or autopen; the **Glenn** and **Carpenter** are autographs. Estimate \$250 - 350
- 6454 ☒ **Before they tired of autographing envelopes**, early examples of **Alan B Shepard Jr**, **John H Glenn Jr** and **M Scott Carpenter** on period envelopes. Estimate \$200 - 300
- 6455 **4¢ Project Mercury autographed blocks, (1193)**, 10 Project Mercury blocks (two are plate blocks) and 11 Decade of Achievement blocks (six are plate blocks); autographed by **Slayton**, **Glenn** (4), **Stafford** (2), **Cernan** and **Mattingly**, there is also a Conrad autopen; 1434-35 blocks are signed by **Swigert**, **Worden**, **Cernan**, **Kerwin**, **Brand**, **Lind** and **Mattingly**, four blocks are autopens of Worden, Scott (2) and Irwin; 21 blocks in total; missing small piece of a Glenn block. Estimate \$300 - 400
- 6456 **Grissom & Shepard entering blockhouse 5**. Crew: Alan Shepard, US Air Force Missile Test Center Photographic Lab 8 x 10 glossy photo autographed **Virgil I Grissom** and **Alan B Shepard Jr**; taken a few weeks after America's first manned Mercury flight and two weeks before the second suborbital shot; condition of the photograph is superb with no cracking or bent corners, 1" strip of discoloration on reverse, Estimate \$750 - 1,000
- 6457 ☒ **Mercury 7 autographs on FDCs, (1193)**, Seven 1193 Project Mercury FDCs issued the day of America's first manned orbital mission; envelopes are blank except for the astronaut pilot autographs; **Alan B Shepard Jr**; **Virgil I Grissom**; **M Scott Carpenter**; **Donald K Slayton**; **Walter W Schirra**; **Gordon Cooper**; the last has seven signatures, Cooper autopen (pattern 1), **J H Glenn Jr**, Shepard secretarial, Slayton autopen (pattern 1), **Walter Schirra**, **M Scott Carpenter**, Grissom autopen (pattern 1); minor staining through stamp on Shepard cover, faint toning throughout. Estimate \$1,200 - 1,800
- 6458 **typed letter signed Gordon Cooper on Walt Disney stationary**, letter thanking a fan for interest in the space program following his flights during Mercury and Gemini programs signed **Gordon Cooper**; also civilian attire head and shoulder photograph with crisp **Leroy S. Cooper Jr**; flawless photograph with exceptional autograph. Estimate \$250 - 350

## GEMINI FLIGHTS (1965-1966)

6459

- 6459 ☒ **1965 (Jun 3), Gemini 4 crew signed envelope**. Crew: James McDivitt, Ed White, commander **James A McDivitt** and pilot **Edward H White II** autographed this envelope documenting America's first spacewalk; a poor (but legible) Cape Canaveral launch date machine cancel and a Gordon add-on cachet along with rubber stamped documentation adorn the cover; crew signed envelopes are uncommon since less than two years following the flight White lost his life in the Apollo 1 fire. Estimate \$600 - 800

- 6460 ☒ **1966 (Mar 16), launch of Gemini VIII; Cape Canaveral hand cancel autographed by mission commander, Neil Armstrong**, engraved Orbit Covers art on first day of flight that accomplished the first docking of two vehicles in orbit; beautiful example of Armstrong's signature; many of these envelopes were backdated (plugged 9) but this is not; postmark inking is uneven but legible. Estimate \$1,000 - 1,500
- 6461 ☒ **1966 (Mar 16), Gemini 8 Vintage Armstrong.** Crew: Neil Armstrong, David R. Scott, Group 2 (New Nine) pilot **Neil Armstrong** autograph, fresh off his outstanding test piloting of the X-15, commands his first spaceflight during GT-8; Cape Canaveral machine cancel on launch date; Beck rubber stamp data in quarter-sized circle; generic SpaceCraft cachet (including an X-15); addressed to early astrophilatelitist. Estimate \$1,000 - 1,500
- 6462 ☒ **1966 (Mar 16), Gemini 8 Armstrong's favorite aircraft.** Crew: Neil Armstrong, David R. Scott, **Neil Armstrong** has boldly signed this Sokolsky X-15 cacheted cover postmarked at Cape Canaveral (machine cancel) on launch day of GT-8; while Armstrong would be proud of his work on GT-8 (and later on AP-11), he would never tire about discussing his favorite plane, the rocket powered X-15; addressed to an early collector and displaying a quarter sized circle with flight facts produced by Morris Beck. Estimate \$1,000 - 1,500
- 6463 ☒ **1966 (Jun 3), Gemini 9A autographed by See and Bassett.** Crew: Thomas P. Stafford, Eugene Cernan, in late February See and Bassett were flying a T-38 into Lambert Field in St Louis; weather was poor and the Prime crew crashed into the McDonald Douglas plant where their spacecraft was being produced; the envelope is autographed by **Elliot See** and **Charles A. Bassett II**; a Cape Canaveral machine cancel postmarked on the day the Backup crew (Stafford and Cernan) flew to orbit; obviously extremely rare; waterspot has obliterated the "II" on Bassett's name; franking is poorly tied to the envelope. Estimate \$1,000 - 1,500
- 6464 **(1966), Nov 11 Kaywoodie pipe carried on Gemini XII**, on the last Gemini mission before the onset of Project Apollo, Edwin Aldrin carried a smoking pipe as part of his Personal Preference Kit (PPK); a typed letter signed attesting to that fact, on business letterhead, is included and signed by **Buzz Aldrin**; his second and final flight into space would be with Neil Armstrong as they became the first crew to walk on the Moon; the artifact was sold in the Jan 1993 Superior Galleries Space Auction. Estimate \$400 - 600
- 6465 ☒ **1966 (Nov 15), Gemini 12 Captain's cover.** Crew: James Lovell, Buzz Aldrin, the finest philatelic memento of a space mission is a Captain's cover; the only thing better than one of these scarce items is one from the commanding officer himself to the astronaut he recovered; in this case Capt Etheridge (see address on reverse flap) has personally sent greetings to LtC Aldrin via NASA in Texas; bold hand cancel on this ship produced Prime Recovery Ship classic; some glue toning noted. Estimate \$200 - 300

## COLLECTIONS, GROUPS AND MISCELLANEOUS

- 6466 ☒ **Project Gemini crew signed covers**, launch covers with autographs from the crews; **James A McDivitt** and **Edward H White II** (GT-IV), **Tom Stafford** and **Wally Schirra** (GT-VIA), **Gene Cernan** and **Tom Stafford** (GT-IX), and **Dick Gordon** and **Charles Conrad** (GT-XI); an STS-1 thrown in for good measure, **Bob Crippen** is good but the John Young looks suspicious and is not counted; do you feel lucky? At least 9 good autographs. Estimate \$750 - 1,000
- 6467 ☒ **Gemini Captain's covers**, 3 *USS Wasp* Prime Recovery Ship envelopes; GT-4 has machine cancel and autopens of the crew; GT-6A is an unaddressed 3 3/4 x 7 1/2" cover with a few spots (coffee?) but otherwise attractive with bold hand cancel and unstuck flap; the GT-7 is a massive envelope 4 1/2 x 10 1/4" unaddressed with stray staining on the left margin and lovely hand strike on recovery day. Estimate \$200 - 300

## FEATURING THE JOHANN STRAUSS & LEO MALZ COLLECTIONS

- 6468 ☒ **1969 (Jan 6), Apollo 8 return to port**, one of the toughest autographs is rookie **Bill Anders**; added to a Prime Recovery Ship envelope postmarked on return from rescue of the first humans to orbit the Moon; those seeking the recovery cancel sent late received the return to port date with a ship rubber stamp cachet; the autograph is wonderfully large and bold' a great example. Estimate \$200 - 300
- 6469 ☒ **1969 (Mar 3), Apollo 9 crew signed envelope**. Crew: James McDivitt, David Scott, Rusty Schweickart, a note found in this envelope reads, "The signatures on the enclosed Apollo 9 launch cover were obtained before the flight by Bill Anders. I was mailed on launch day and went through the normal mails; autographs of **James A. McDivitt, Rusty Schweickart, Dave Scott, and Bill Anders**; of them all Anders is the tough one. Estimate \$600 - 800
- 6470 ☒ **1969 (May 18), Apollo 10 crew signed cover**. Crew: Thomas P. Stafford, John Young, Eugene Cernan, dress rehearsal for the first manned lunar landing; bold Patrick AFB hand cancel for the launch; multicolor SpaceCraft cachet; signed by **Tom Stafford, John Young and Gene Cernan**; this is a hard one to get since Young was a sporadic signer. Estimate \$750 - 1,000
- 6471 **NASA, Iconic shot of Armstrong back inside LM after first walk on the Moon**, 8"x10" color photo reduced on top and bottom; inscribed **Best Wishes to Jim Moore - Neil Armstrong**; enough said. Estimate \$1,000 - 1,500
- 6472 ☒ **1969 (Jul 16), Apollo 11 Prime Recovery Ship signed by Armstrong**. Crew: Neil Armstrong, Buzz Aldrin, Michael Collins, 21mm Type II machine cancel onboard *USS Hornet* during recovery operations to rescue the first men to set foot on the Moon; franked with a less common 1338A flag and White House perf 10 coil definitive; magenta Beck rubber stamp put on the estimated 250,000 envelopes postmarked aboard the carrier that day; faint outline where address label had previously been prior to removal for autograph by **Neil Armstrong**. Estimate \$1,000 - 1,500
- 6473 ☒ **1969 (Jul 16), Apollo 11 Buzz Aldrin autograph on cover**. Crew: Neil Armstrong, Buzz Aldrin, Michael Collins, Orbit cachet honoring the Apollo 11 mission to the Moon; 25th anniversary cancel from the Kennedy Space Center, FL; C-76 tied to envelope with a C-129 not tied; addressed to West Germany; **Buzz Aldrin** has autographed the middle of the envelope. Estimate \$200 - 300
- 6474 **1969 (Jul 16), Apollo 11 TELEX congratulations to Col Aldrin**. Crew: Neil Armstrong, Buzz Aldrin, Michael Collins, copies of ten TELEX messages of congratulation (of the thousands that poured in) received by the central mail room at the Manned Spaceflight Center in TX; they range from July 15th to the 29th; On behalf of thirty thousand geological scientists of the American Geological Institute congratulations; **Godspeed you to the Moon and safely home again love Olive Aldrin Burt**; Best wishes Buzz from Andys former camp champion cabin mate; **We will be watching sincerely Shirley Johnson and Bob**; This is the day which you had in mind from the very beginning Albert Swanson, Gustavus Adolphus College; **Our prayers are answered and congratulations yours truly Carol Geortner**; May the great architect of the universe continue to guide and protect you in all your doings fraternally Horace Standbridge Royal Arch Mason Most Excellent High Priest; **To all lunar ticks of 69 all systems go for a splashdown party Thursday evening Jack Laining Royal Order of Jester Court**; Our prayers were with you for success in this magnificent and incredible feat Montgomery Police Dept; **From all the brethren of the Austin Scottish Rite bodies to you brother Buz and brother Mike Collins we can only cheer this tremendous gesture towards peace in our time God bless you all** (photo on web site). Estimate \$200 - 300
- 6475 ☒ **1969 (Jul 16), Apollo 11 crew autographs on three covers**. Crew: Neil Armstrong, Buzz Aldrin, Michael Collins, autograph of **Neil Armstrong** on a Ap-9 support cover along with a 5x7 appealing photograph taken at the 1970 COSPAR meeting in Leningrad in which he relayed a report on the first manned landing on the Moon; **Michael Collins** on a Sarzin GT-X launch envelope along with a pristine Ap-11 VIP card postmarked at the Kennedy Space Center on July 20, 1969; lastly, a bold signature of **Buzz Aldrin** on a SpaceCraft Man on the Moon cover with a beautiful Patrick AFB hand cancel along with ticker tape from the Aug 13, 1969 parade down Wall Street in New York City; a great lot. Estimate \$1,500 - 2,000
- 6476 ☒ **1969 (Jul 16), Apollo 11 a most interesting connection**. Crew: Neil Armstrong, Buzz Aldrin, Michael Collins, originally only military test pilots were eligible to be astronauts; despite his 3 years of Active (Korea) and 8 years Reserve in the Navy, **Neil Armstrong** was a civilian before NASA advertised for the New Nine; he was selected for Air Force programs Man in Space Soonest (MISS) and Dyna-Soar (X-20), both that would be stillborn; Armstrong would keep busy by flying over 200 aircraft types for NASA including the rocket powered X-1B and X-15; when the space agency agreed to consider civilians for Group 2 Armstrong was accepted along with **Elliot See**; they would team up as Back Up on GT-V; Armstrong would command GT-VIII before flying to the Moon on Ap-11; See would be named to the Prime crew of GT-IX but died in a T-38 crash; these first two civilian NASA astronauts have signed together on a cover postmarked on the day Armstrong walked on the Moon. Estimate \$1,500 - 2,000

- 6477 ☒ **1969 (Jul 16), Apollo 11 bold Neil Armstrong on FDC, (C-76).** Crew: Neil Armstrong, Buzz Aldrin, Michael Collins, Art Craft engraved cachet with dual cancels commemorating the landing on the Moon as well as the issuance of the stamp; the Paul Calle designed stamp was printed from a Master Die taken with the crew to the lunar surface; very faint label stain in address area. Estimate \$1,000 - 1,500
- 6478 ☒ **1969 (Jul 16), Apollo 11.** Crew: Neil Armstrong, Buzz Aldrin, Michael Collins, between 1971-72 Herman Seiger got 20 astronauts to autograph blocks; only 500 sets were created; the key is this Belgian souvenir sheet autographed by **Neil Armstrong**. Michel B846. Estimate \$750 - 1,000
- 6479 ☒ **1969 (July 24), Apollo 11 crew signed Prime Recovery Ship, USS Hornet** Type I machine cancel with magenta Beck rubber stamp cachet; franking overpaid to highlight attractive space stamps; C-76 First Man on the Moon stamp tied with dumb registry cancel added later since the stamp would not be issued for several weeks; autographed by **Armstrong, Aldrin and Collins**. Estimate \$2,000 - 3,000
- 6480 ☒ **1969 (July 24), Apollo 11 Prime Recovery Ship, with U.S.S. Hornet** Type II (21mm) machine cancel, autographed by the first human in history to set foot on another world, **Neil Armstrong**. Estimate \$1,000 - 1,500
- 6481 ☒ **1969 (Sep 9), Apollo 11 crew signed,** highly coveted autographs of **Armstrong, Aldrin and Collins** on a First Man on the Moon first day cover; dual cancel with dates of the lunar landing and the date the stamp based on the master die brought to the lunar surface was released; the Art Craft engraved art is the version with the date superimposed on the lunar surface, crisp example without faults. Estimate \$2,000 - 3,000
- 6482 ☒ **1969 (Sep 9), Apollo 11: Armstrong, Aldrin, and Collins signatures,** on C-76 First Man on the Moon first day cover; Art Craft steel engraved cachet with landing date superimposed on the lunar surface; stamp designed by Paul Calle shows an unknown astronaut (Armstrong) stepping of the pad of the Lunar Module onto the surface; in real life the Master Die for the stamp accompanied the astronauts to the surface of the Moon, bold autographs on an iconic envelope. Estimate \$2,000 - 3,000
- 6483 ☒ **1970 (Apr 11), Apollo 13 Insurance cover,** Al Bishop, a friend of the astronauts, created mission emblem envelopes for the exclusive use of the crews. The astronaut symbol beneath the names identifies this as a Bishop cover; autographed by **Lovell, Haise and Mattingly** prior to the flight, the envelopes served as an “insurance policy” in the event of disaster. After Mattingly was replaced for medical reasons the mission experienced a catastrophic explosion that canceled the landing on the Moon and nearly cost the crew their lives; as often seen, the stamp is not tied to the cover. Estimate \$800 - 1,200
- 6484 ☒ **1971 (Jan 31), Apollo 14 Insurance cover,** sporting the pilot wings from their respective military service to identify this as a Bishop “Insurance cover”, this crisp example is autographed by the crew and has a Machine Cancel from the Kennedy Space Center. The crew consisted of America’s first astronaut, **Alan Shepard**, and rookies **Stu Roosa** and **Ed Mitchell**. Estimate \$1,000 - 1,500

6485

6486

- 6485 ☒ **1971 (July 26), Apollo 15 “Insurance” type crew signed,** While this envelope is clearly a **Scott, Worden and Irwin** signed Bishop crew cover, there is some debate whether it should be regarded as an “Insurance cover”; Al Worden says only envelopes from the Manned Spaceflight Stamp Club with the Antarctica stamp qualify; others point to this as an acceptable example in all respects. Estimate \$400 - 600
- 6486 ☒ **1972 (Apr 16), Apollo 16 Insurance cover,** With veteran astronaut **John Young** in command, **Charlie Duke** and **Ken Mattingly** (recycled from Apollo 13) left this envelope with family in the event of a problem with their safe return; Al Bishop designed special envelope can be identified by the astronaut symbols to the side of the mission emblem; small waterspots on Mattingly and Duke autographs, *despite six spaceflights, John Young autographs remain difficult to find.* Estimate \$1,500 - 2,000

## COLLECTIONS, GROUPS AND MISCELLANEOUS

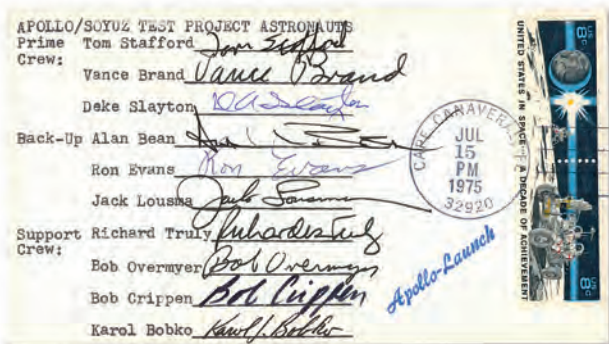

- 6487 ☒ **1967 (Jan 27), Apollo 1 and other losses.** Crew: Gus Grissom, Ed White, Roger B. Chaffee, 14 items memorializing the crew lost in the pad fire and earlier tragedies; Space City Cover Society mourning cachet (blue), most are postmarked at station 6 (this at 5A); Jamaica AMF Kennedy postcard clearly backdated since quote refers to date of death; thermograph In Memoriam postmarked at Cape Canaveral the day after the fire (2), Amsterdam cover cancelled on the planned flight date (Feb 21); Sarazin Post Washington correct date, wrong location; SCCS rubber stamp the day Givens died in a car accident; remainder are Goldcraft cachets including stray Mariner probe, the day Bassett and See were killed in a T-38 (2), memorials to Bassett and See in Houston and St Louis, and memorial services (Houston) and burial (Washington), *SCCS covers are astrophilatelically correct and may be show in exhibits, virtually all other covers are backdated.*  
Estimate \$200 - 300
- 6488 **1969, 10¢ Moon Landing the real deal, (C76),** 22 blocks (13 are plate blocks) of the First Man on the Moon stamp; signed by 14 of the 24 to travel to the Moon; autographs include, **Schirra, Cunningham, Eisele, Borman, Schweickart, McDivitt, Stafford, Conrad, Bean, Gordon, Lovell, Swigert, Roosa, Mitchell (2), Duke, Mattingly, Cernan (3), Evans and Schmitt;** a powerful group of half of all humans to ever fly to the Moon.  
Estimate \$500 - 750
- 6489 **Vintage Aldrin photograph with cosmonauts,** Fresh portrait color photograph of **Buzz Aldrin** and two cosmonauts probably taken at an aerospace conference; all are in business suits with the Soviets sporting medals and Aldrin with a conference pin and an astronaut pin on his lapel; all have signed under their images; white frame has the faint cream appearance common of that era; printed on Kodak paper, Pristine with no cracks or creased corners.  
Estimate \$500 - 750
- 6490 ☒ **1971 (Feb 5), Apollo 14 crew signed envelope.** Crew: Alan Shepard, Stuart Roosa, Edgar Mitchell, **Shepard, Mitchell** and **Roosa** have autographed this Orbit engraved event envelope; Cape Canaveral machine cancel postmarked on return to Earth.  
Estimate \$250 - 350
- 6491 ☒ **1971 (Jul 26), Apollo 15 Onion skin “Moon-type” envelope.** Crew: David Scott, Alfred Worden, James Irwin, to keep weight to a minimum, envelopes taken to the Moon, in addition to the distinctive Bishop artwork, were produced with very thin, lightweight paper; postmarked on launch day and autographed by the crew of **Dave Scott, Al Worden and Jim Irwin;** not taken to the Moon but just as pretty; small ink blot in the left lower corner of the pictorial cancel.  
Estimate \$500 - 750
- 6492 ☒ **1971 (Jul 26), Apollo 15 crew signed.** Crew: David Scott, Alfred Worden, James Irwin, **Scott, Worden and Irwin** have autographed this envelope with Orbit engraved cachet; a Cape Canaveral machine cancel ties a C-76 First Man on the Moon stamp (along with a 1 cent Jefferson to make up the Airmail rate); extremely faint label stain (along with killer bars on the reverse, suggest the envelope went through the mail.  
Estimate \$250 - 350
- 6493 ☒ **1971 (Jul 26), Apollo 15 foreign crew signed covers.** Crew: David Scott, Alfred Worden, James Irwin, a great opportunity the enterprising dealer to be able to offer customers complete crew signed covers at a very reasonable price; autographs of **Dave Scott, Al Worden and Jim Irwin** on commemorative envelopes from Poland (3), Italy, UAE, and Yugoslavia (3); moonwalkers are disappearing, Apollo crew signed material will only improve over time; eight envelopes (24 signatures).  
Estimate \$600 - 800

## APOLLO-SOYUZ FLIGHTS (1975)

- 6494 **Unknown, Private photographs from ASTP reception with Senate and House leaders,** 28 color informal 5x7 prints of a dinner reception for the Apollo Soyuz astronauts and cosmonauts held in Washington; wonderful images of pilots showing young children of House and Senate leadership a model of the linked spacecraft; a wonderful item for the specialist (photo on web site).  
Estimate \$200 - 300
- 6495 ☒ **1969-75 handpainted first day and launch covers,** created by “Melissa Fox” (x5), “Ellis (x4), plus one unknown artist; all are fresh with vibrant colors; most celebrate Apollo and the Apollo-Soyuz Test Project, fresh and attractive.

## FEATURING THE JOHANN STRAUSS & LEO MALZ COLLECTIONS

- 6496 ☒ **1975 (July 15), ASTP launch covered in autographs**, very unusual launch cover from the very last remnants of Apollo hardware (and the last unflown Mercury astronaut); stunning collection of all the key astronauts involved in the historic joint mission with Russia during the Cold War; includes **Stafford, Brand, Slayton, Bean, Evans, Lousma, Truly, Overmyer, Crippen** and **Bobko**; wonderful representation of Mercury, Gemini, Apollo, Skylab, ASTP, and Shuttle pilots. Estimate \$250 - 350
- 6497 ☒ **1975 (Jul 15), Apollo-Soyuz crew autographed.** Crew: Thomas P. Stafford, Vance D. Brand, Deke Slayton, **Stafford, Brand, Slayton** and **Gerald R Ford** on Apollo-Soyuz Test Project "VIP-like" postcard; Kennedy Space Center machine cancel addressed to dealer in Texas. Estimate \$200 - 300
- 6498 ☒ **1974 (Sep 9), Apollo-Soyuz cosmonauts been US training.** Crew: Thomas P. Stafford, Vance D. Brand, Deke Slayton, autographed by both the Ap-18 crew (**Stafford, Slayton** and **Brand**) as well as the Soviet Soyuz 19 crew (**Leonov** and **Kubasov**); unknown cachet maker shows crews with excessively big smiles for serious test pilots and military officers; Houston TX machine cancel nine months before the mission as the Russians engage for three weeks of compatibility training at the Johnson Spaceflight Center. Estimate \$200 - 300
- 6499 ☒ **1975 (Jul 15), Apollo-Soyuz 15 autographs on three envelopes.** Crew: Thomas P. Stafford, Vance D. Brand, Deke Slayton, autographs of **Stafford, Brand** and **Slayton** as well as **Leonov** and **Kubasov** on each of three covers; a Soviet entire showing the landing of Soyuz 19 sports all five signatures but no postmark; a rarely seen Science Academy in Novosibirsk, Siberia cancel with complete crews (although Stafford and Slayton look tired of signing); last a Fleetwood FDC (with Russian translation) postmarked in Moscow on the link-up date (July 17th) in red;. Estimate \$500 - 750
- 6500 ☒ **1975 (Jul 15), Apollo-Soyuz group of better recovery covers.** Crew: Thomas P. Stafford, Vance D. Brand, Deke Slayton, before the Shuttle era when spacecraft returned to a runway, capsules were lowered by parachute, splashdown in the ocean, and be rescued by the US Navy; the final Apollo, the Apollo-Soyuz Test Project (ASTP) had a Prime Recovery Ship, the *USS New Orleans*, and slew of supporting characters; while the vast majority of requests for the PRS were shunted to San Francisco, a relatively small quantity received the onboard cancel; since the post office onboard was closed on the recovery day, the legitimate postmarks are dated the following day, July 25th; 2 Beck printed (B998), a Beck rubber stamp (in blue), a *USS New Orleans* ship rubber stamp, and seven postcards, all with outstanding strikes; also included are eight FLOWN envelopes with 23 autographs; most just say recovery support but three are labeled ELS Helo, Recovery Helo, and Rescue One; in all 25 great pieces (photo on web site). Estimate \$400 - 600
- 6501 ☒ **1975 (Jul 15), Apollo-Soyuz pair of envelopes chock full of signatures.** Crew: Thomas P. Stafford, Vance D. Brand, Deke Slayton, two envelopes, one without franking and the other with a stamp but no postmark, covered in astronaut and cosmonaut signatures; between the two there are 22 autographs; the first cover has, **Brand, Slayton, Stafford Lousma, Evans, Bean, Kubasov, Rukavishnikov** and **Filiptchenko** (twice); the second has **Stafford, Brand, Lousma, Evans, Overmeyer, Bobko, Bean, Kubasov, Leonov, Shatalov, Romanenko** and **Ivantchenko**; autographs are fresh, dealer Seymour Rodman reported the envelopes came from Fredrick G Bean, cousin of Alan Bean. Estimate \$350 - 500
- 6502 ☒ **Spectacular signed ASTP item**, 18 autographs on an envelope postmarked on launch date for the Apollo Soyuz Test Project (ASTP); the Soviet postmark ties a Russian 12k stamp, a joint issue of common design with the United States; autographs of Americans **Stafford, Slayton** and **Brand** (prime crew), **Lousma, Overmeyer, Truly, Bean, Bobko** and **Evans** (American support), **Kubasov** and **Leonov** (prime crew), **Rukavishnikov** and **Filipchenko** (back up crew), as well as **Romanenko, Ivanchenkov, Angreyev, Shatalov** and **Bykovsky** (Soviet support); an impressive piece. Estimate \$500 - 750

## SKYLAB FLIGHTS (1973-1974)

- 6503 ☒ **1978 (Nov 3), Skylab all crew signatures on a single cover**, the Marshall Skylab Navigation Team reoriented the orbiting outpost on this day to conserve fuel; all 9 astronauts have autographed this beauty; they include, **Garriott, Lousma, Conrad, Bean, Gibson, Weitz, Kerwin, Pogue** and **Carr**. Estimate \$200 - 300
- 6504 ☒ **1973 (Jul 28), Skylab 3, 4 and 5 crew signed.** Crew: Alan Bean, Jack R. Lousma, Owen K. Garriott, six full crew signatures for your viewing pleasure; **Scott, Schweickhart** and **Mc Divitt** (AP-9), **Conrad, Gordon** and **Bean** (AP-12), **Stafford, Slayton** and **Brand** (ASTP), **Garriott, Bean** and **Lousma** (SL-3), **Pogue, Gibson** and **Carr** (SL-4) as well as the rarely seen SL-5 rescue crew that consisted of **Brand, Lind** and **Lenoir**; get em while the're hot; 18 signatures in all. Estimate \$600 - 800

**SPACE SHUTTLE FLIGHTS (1981-)**

- 6505 ☒ **1977 (Jun 18), Space Shuttle ALT-9 Enterprise signed lot.** Crew: Haise, Fullerton, eight envelopes spanning the captive and free flight portions of the Approach and Landing Test (ALT) shuttle program; ALT-9 is autographed by **Fulton, McMurtry, Horton and Guidry**; ALT 10 is signed by **Covey, Hartsfield, Thornton and Creighton**; ALT-12 has three difference cachets, one signed by **Fulton, McMurtry, Haise, Fullerton, Horton and Guidry**, a second signed by **Fullerton** alone, and one autographed by **Haise, Engle, Truly Fulton, McMurtry, Horton, Guidry and Fullerton**; and three covers from the ALT-15 flight including autographs of **Engle, Truly, Fullerton, Hart, Fabian, Stewart, and Slayton**; a beefy lot. Estimate \$300 - 400
- 6506 ☒ **1982 (Nov 11), Space Shuttle STS-5 Columbia.** Crew: Brand, Overmyer, J. Allen, Lenoir, this grouping tells the story of the first flight of the operational shuttle (STS-5); it begins at the Kennedy Space Center on Jul 15 when it arrived after the STS-4 mission from California; On Sep 9 it is rolled out to the Vehicle Assembly Building (VAB); Sept 21 it heads out to pad 39A; launch day is recorded all over the world, a Washington DC cancel accompanies autographs of the NASA Administrator and the Associate Administer for Space Flight; tracking and rescue stations are documented at Greenbelt (with Goddard's Director), ARRS/JRCC Ramstein, a Baker-Nunn tracking station in New Zealand, and the NASA Bermuda station; five envelopes chronicle the launch from the Cape including the KSC Director, Chief Shuttle Project Engineer, NASA Test Conductor and Project Engineer, signatures of the four journalists covering the launch for Aviation Week and Space Technology, and Director of Shuttle Processing with the KSC Launch Director; in Houston there are covers for the two STS-5 Flight Directors, Shuttle Program Manager with CAPCOM for STS-5, and the Director of the Johnson Space Center; there are two FLOWN envelopes postmarked at Holloman AFB; and three covers postmarked at Edwards AFB signed by the Dryden Shuttle Project Manager, one showing the approach plate for landing, and another signed by CAPCOM in Mission Control; there are also five covers celebrating the mission postmarked from Nov 11-16 in Australia, the cancels made in Perth, Alice Springs, Adelaide, Sydney and Hobart; a comprehensive astrophilatelic story told with 27 envelopes and 29 autographs. Estimate \$200 - 300
- 6507 ☒ **1983 (Jun 18), Space Shuttle STS-7 Challenger.** Crew: Crippen, Hauck, Fabian, Ride, Thagard, oversized USPS embossed envelope with additional postage and a Houston TX hand cancel on launch date; full color mission emblem sticker has been applied as artwork; autographed by **Crippen, Fabian, Hauck, Ride and Thagard**; this was *Challengers* first return to space and the first mission for an American woman; a litho of Dr Ride is also included; nice early crew signed item. Estimate \$200 - 300
- 6508 ☒ **1986 (Jan 28), Space Shuttle STS-51-L Challenger.** Crew: Scobee, M. Smith, Onizuka, Resnik, McNair, McAuliffe, Jarvis, Max Kronstein, author of *Rocket Mail of the World to 1986*, liked to create unusual space event documentation; for STS-51L he sent each member of the crew an envelope (his address is on the reverse) on which he glued some shuttled related image and applied space-themed stamps; with the exception of the Scobee cover (with an illegible date), these envelopes did not receive post office cancels and were instead returned in larger envelopes addressed to Kronstein; these envelopes (included in the lot) were returned between Jan 1984 and Jan 1986 (an additional request found on the Commander's desk was return unsigned in late Feb); the lot includes autographs of **Dick Scobee, R McNair, S Christa McAuliffe, Ellison Onizuka, Judy Resnick, Greg Jarvis, and Michael J Smith**; applied over the franking is a rubber stamp presumably created by Dr. Kronstein; the flight had originally been slated to depart Jan 22nd which slipped to the 23rd and then 24th (the date mistakenly used by Kronstein); Challenger would not leave the pad until Jan 28th; a tragic explosion destroyed the vehicle and killed the crew 78 seconds into powered flight; bonus 22 covers, mostly postmarked on the date of launch. Estimate \$1,000 - 1,500

**COLLECTIONS, GROUPS AND MISCELLANEOUS**

- 6509 ☒ **48 crew signed shuttle covers (1977-1996)**, in one fell swoop you can acquire 215 autographs; these are complete crews on a single cover; postmarks are astrophilatelically correct (launch, mission control, or landing dates); most have cachets while in some cases, the signatures constitute the "art"; includes, **ALT-9 (2), ALT-12 (2), ALT-13, ALT-14, ALT-15, STS-1, STS-3 (4), STS-4 (3), STS-7, STS-9, STS-41B, STS-41D (2), STS-41G, STS-61A (2), STS-51G, STS-33 (2), STS-26, STS-28, STS-34, STS-36, STS-32 (2) STS-38, STS-35, STS-31, STS-48 (2), STS-37 (2), STS-43 (2), STS-45, STS-51, STS-58, STS-73, STS-70, and STS-72**; 48 pieces in total. Estimate \$5,000 - 7,500
- 6510 ☒ **Minorities finally get a seat in the spacecraft**, for the first 20 years NASA had only one kind of astronaut, white men; beginning with Sally Ride in 1983, the space agency began to diversify flight personnel by gender and race; autographs included, **Sally K. Ride, Linda Godwin, Anna Lee Fisher, Marsha Ivins, Ellen Baker, Kathy Thorton, Shannon Lucid, Bonnie Dunbar, Rhea Seddon, Barbara R. Morgan, Guion Bluford, Ellison Onizuka, Fred Gregory, and Ronald Mc Nair**; 11 envelopes in all. Estimate \$800 - 1,200

- 6511 ☒ **Thirty-Five New Guys (TFNG) collection**, 34 envelopes; each with the image and biographical data of the newest astronaut, as they reported to Johnson Space Center in the summer of 1978; this would form the backbone of Shuttle personnel for most of the program; individually autographed 3-Muscateers envelopes signed by **Lucid, Hart, Williams, Gregory, Walker, Bluford, Covey, Nagel, Hoffman, Griggs, Scobee, Stewart, Hauck, Mullane, Thagard, Fisher, Creighton, Gibson, Coats, Hawley, Shriver, Van Hoften, Resnik, Seddon, Sullivan, Gardner, Buchli, Blandenstein, Fabian, Nelson, McBride, McNair and Shaw**; a great jump for those looking for vintage signatures CHECK COUNT HERE. Estimate \$600 - 800
- 6512 ☒ **1980 (May 29), NASA names astronaut candidates**, Complete set of 19 autographs on four envelopes from Houston press conference; all would enjoy long careers with the exception of Mike Smith who was lost when the Shuttle Challenger exploded on ascent in 1986; the Space Voyage cachets are on attractive cream colored envelopes, *a difficult collection to assemble*. Estimate \$400 - 600
- 6513 ☒ **Wide ranging activities of new shuttle astronauts (1977-1980)**, with the significant expected need for new astronauts, NASA had candidates criss-crossing the country training; postmarks from Homestead, Marshall, Randolph, Houston, KSC and Langley; autographs include, **Gardner, Hart, Nelson, Onizuka, Brand, Buchli, Gibson, Stewart, Seddon, Henize, Lousma, Peterson, Griggs, Shriver, Creighton, Slayton, Lucid, Hartsfield, Fabian, Shaw, Lind, Coats, Gregory, Covey, Allen, Bluford, Prinz, and Cleave**; attractive group with good signatures and astrophilatelically important postmarks; 16 envelopes and 39 autographs. Estimate \$400 - 600
- 6514 ☒ **Shuttle wind tunnel testing at Ames Research Center**, early program material from Moffett Field; three covers from 1976 (Feb, Mar and Apr) and five from May 1978; the earliest is signed by ALT pilots **Joe Engle** and **Richard Truly** and the other two signed by one astronaut each; the remaining covers, some with a machine and others a hand cancel, are all dated May 1978; autographs include, **Crippen, Fabian, Hartsfield, Creighton, Mullane, van Hoften, Shriver, Gardner, Lind, Acton, and Overmeyer**; 16 autographs on 8 envelopes. Estimate \$300 - 400
- 6515 ☒ **Delightful group of shuttle support FLOWN envelopes**, a successful mission involves dozens of airborne assets; these covers were carried as favors during the shuttle program on fixed wing and rotary aircraft; it includes 226 autographs on 37 envelopes; enjoy. Estimate \$250 - 350
- 6516 ☒ **NASA shuttle managers throughout the country**, hand drawn illustration and signature of Project Mercury PAO Shorty Powers (and another signature on an MA-9 SpaceCraft cover) followed by Lisa Malone (voice of shuttle launch control); main group are senior shuttle managers and administrators at Edwards AFB, Marshall Spaceflight Center and Kennedy Space Center; bonus is an ultra low number (2612) FLOWN STS-8 envelope (in folder) in the original certified packaging (a real find). Estimate \$200 - 300
- 6517 ☒ **First six women astronauts**, shortly following the announcement as the first female astronaut candidates, NASA conducted water survival training at Homestead AFB in Florida; uncommon hand cancel from the local post office autographed by **Ride** (first to fly), **Ivens, Resnik** (killed in Challenger), **Fisher, Seddon** and **Sullivan**; a great item of pre-Shuttle history. Estimate \$300 - 400
- 6518 ☒ **1981 (Apr 12), STS-1 specialized collection**, typed commentary on homemade sheets in 3 ring binder; 62 envelopes in total; some Space Voyager, generic cachets, Center, club cachets, documentary for autographs; strength is in key program participants; autographs include **Christopher Kraft, George Abbey, John Yardley**; UTC Freedom recovery vessel with **Rikson** autograph; UTC Liberty with **James Bond** (no, not THAT James Bond) autograph; tracking stations in California, Seychelles, Australia, Guam, Antigua, Hawaii, Madrid and Ascension; lovely launch and landing cancel from Coast Guard Loran Station on Marcus Island; Greenbelt tracking autographs of the Director, Director of Networks, and NASA Chief of Communications; Thiokol contractor cover with autographs of two VPs and the Project Manager, Ex- Lynn Breece collection. Estimate \$150 - 200

## MISC. AMERICAN SPACE FLIGHTS

- 6519 **NASA, Government supplied 8 x 10 photos from Mercury to ASTP**, better lot of unusual images from Mercury (8), Gemini (18), Apollo (48), ASTP (53), 1974 era STS (18), Saturn 1B (15), Solar Max, Surveyor (15), Mars Viking (23) plus a dozen lithos; about a quarter have NASA serial numbers (including some AP-11) and a few are in color; great color shot of the Cape (GT-V), capsule at sea (GT-VIII?), and more; expect excellent condition; 190+ photographs (photo on web site). Estimate \$500 - 750

**EX 6520**

**EX 6521**

6520  **NASA**, *Treasure trove of photographs and lithographs Mercury thru Shuttle*, someone had an “in”; **NASA**, about 25 of experimental aircraft and LANDSAT; **Mercury**, at least 50 with more than a dozen from the Kearsarge (unfortunately many are beat up), some have serial numbers, unusual images; **Gemini**, great shots (including serial number) for Grissom’s flight, a color (with number) of White during space walk, and another 40 or so from the program; at least 50 from **Apollo** including color Ap-7 and Ap-11 launch, several issued by the USS Hornet, beautiful AP-8 Earthrise in color and numbered; plenty of **Shuttle** (at least another 50); some ASTP and stray stuff; also at least 125 lithographs; useful for the keen specialist. Estimate \$600 - 800

6521  **The tough ones**, they weren’t generous with autograph requests or lost their lives prematurely; for whatever reason, these are names you need to tell the story of the conquest of space; **W A Anders, John Young, Edward H White II, Brewster Shaw, Dan Brandstein, Ellison S Onizuka, Don Lind, Norm Thagard, Jerry Carr, Deke Slayton, Ron McNair, Dick Scobee and Elliot See**; also includes a clean Ap-11 VIP card postmarked on the moonlanding and two unusual Houston envelopes with a cachet for the Lunar Receiving Laboratory; good stuff. Estimate \$2,000 - 3,000

**EX 6522**

**EX 6523**

6522  **At least 1000 Mercury, Gemini and Apollo event covers**, moderate duplication organized by flight; nice mix of launch and recovery covers; expect Orbit, KSC Officials, club cachets, Space Voyager, NASA Exchange; lots of tracking stations; some shuttle but mostly MGA; clean and organized in two big box trays. Estimate \$1,200 - 1,800

6523  **Space Craft series with many better**, about 1000 envelopes spanning US spaceflight from the 1960’s and 70’s; clean and fresh without odor or mildew; keys include Shepard airmail (2), Boy, What a Ride, Man-in Space globe (2), Grissom airmail, green globe (4), Liberty Bell recovery (5), Glenn inverted error (2), Mariner I (2), Little Joe 2 (2), Asset 1963 (5), Asset 1964 (6), Stargazer (3), talking robot (4), Enos (3); also includes scarce sample art mockup, *Grissom airmail is a series key with only 50 produced*. Estimate \$1,000 - 1,500

**EX 6525**

6524 ☒ **Better autographs for your growing collection, Edward H White II** on a Harry Gordon add on GT-IV launch; **John Young** on GT-3 Cape Canaveral hand cancel (the Grissom is an autopen); **Sally K Ride** (just months after she was named an astronaut and years before she became America's first woman to fly); **Don Lind** on a GT-XII Orbit launch; **Richard Gordon** and **Alan Bean** (and Conrad autopen) on an Ap-12 mid-mission postmarked in Houston; **Don Mallick, Fitz Fulton** and **Vic Horton** on an SRB parachute drop test; **John S Bull** on a GT-XII launch; **Brian T O'Leary** on a Ap-11 KSC Official; **Jack Lousma, Vance Brand, Bob Crippen, Karol Bobko, Richard Truly** and **Gerald Ford** on an ASTP cover postmarked in San Francisco for the recovery but sporting a KSC Official (curious); **Frank Borman** and **Dr John S Bull** on a Project Mercury FDC; ticker tape from the Aug 13, 1969 Ap-11 parade in New York City; a VIP card cancelled on July 20, 1969 for Ap-11; and **Chuck Yeager** on a 30th anniversary envelope at Edwards; 13 items.

Estimate \$1,000 - 1,500

6525 ☒ **Mercury launch with Gemini and Apollo recovery**, tray of about 500 covers; the pre-1965 is Sarzin and Swanson generic launches; Gemini and Apollo are all Beck rubber stamp with heavy emphasis on the Primes; a Sarzin Ham (AM cancel), and a SpaceCraft Goliath (typed address) in beautiful condition included to sweeten the pot.

Estimate \$800 - 1,200

**EX 6526**

**EX 6527**

6526 ☒ **Rank Velvetone collection including many better items**, highly collectable felt-like cachets; created in small quantities (generally about 50) by baking in his wife's oven; includes Shepard (2), Grissom (2), Carpenter (three types), Schirra (3) and Cooper (3); also mechanical man (2), Ham (2), Little Joe 2, LRV, Enos (3), 1st Apollo launch, and 1st manned paraglider; 129 in total.

Estimate \$750 - 1,000

6527 ☒ **Refined grouping of space covers**, collectors will appreciate the discernment exhibited in these four volumes; one is 83 envelopes from US satellite programs mounted on space-related pages, often accompanied with pictures or newspaper articles; the second volume has 104 launch and mission related covers with extensive ephemera to support the story; the final two volumes, with 106 and 81 covers respectively, house better recovery ship; expect more than normal emphasis on Primes and 1/3 to 1/2 are Beck printed, a good number are autographed by Navy personnel, also some surprising support vessel covers; nothing stellar but a valuable collection nonetheless.

Estimate \$750 - 1,000

6528 ☒ **Premier space dealer stock of US FDCs and pictorials**, approximately 500 covers organized by stamp including; 1371, C76, 1107, 1173, 1193, 1331-32, 966, 976, 1434-35, 1529, 1556, 1557, 1569-70, 1244, 1274, 1192, 1200, 1070, 1912-9, 1575 and 1759; expect great overall condition in sleeves; numerous cachet designers noted, a few dozen hi value stamps (\$9.95, \$10.75, etc); the pictorials are all modern and extremely clean, approximately 5-6 per cancel in a sleeve, baseball, dinosaurs, Star Trek, whatever; about 3500 pictorials; quite the boost to a dealer with established clientele (photo on web site). Estimate \$750 - 1,000

EX 6529

EX 6530

6529 ☒ **What to learn autopens? Here's your chance**, autopens can be a challenge; what helps is having lots of examples to supplement online resources; here you get 133 envelopes with about 200 examples; lots of Armstrongs, Grissons, Youngs and others important to identify correctly; the covers themselves are well worth collecting; early SpaceCraft, Beck printed, KSC Officials, PRS, and numerous better cancels; includes hard to find Bassett and Williams APs; don't let this get away. Estimate \$600 - 800

6530 ☒ **Mixture of genuine autographs and autopens for your viewing pleasure**, Alan Shepard and Stu A Roosa (and Mitchell autopen) on Ap-14 cover; **Charlie Duke** (with Mattingly and Young autopens) on an Ap-16 PRS; **John Young** signed a Mercury FDC; two autopens of White (both GT-IV launch dates); **Tom Stafford** (with bad Slayton and Brand) on an ASTP FDC; Conrad autopen on Ap-12 launch date; **Al Worden** (with autopens of Scott and Irwin) and **UN Secretary General U Thant** on an Ap-15 in New York envelope; Young (reduced printed autopen?) on Apr 12, 1981 KSC cover; **Edward H White II** (with autopen McDivitt) on SpaceCraft GT-IV launch; tragically autopens of Young and Crippen on gold Thiokol STS-1 contractor's cover (a pity); **Scott Carpenter** on Captain's cover (MA-7) but without CO signature; bonus Ap-11 VIP card postmarked July 20, 1969, and an AS-202 KSC Official, very clean (and nicely addressed) but the impressions of both the CDS and rubber stamp cachet are light. Estimate \$600 - 800

6531 **Old school trading cards - Project Mercury, Star Trek, Star Wars, and more, Project Mercury** (1963) 55 cards still reeking of bubble gum, 3D images on reverse; **Star Wars** (1977) 16 cards; **Star Trek Next Gen** (1994) 108 cards; **Next Gen Master Series** (1994) 99 cards; **Star Trek** (1991) 310 cards; **Star Trek artist series** (1993) 90 cards; **Star Wars galaxy** (1993) 140 cards; bonus Star Trek classic TV, Spiderman, space stamps book; more than 800+ all in perfect condition (photo on web site). Estimate \$400 - 600

EX 6532

6532 ☒ **Mostly Prime and Secondary Recovery Ships**, consists of 192 envelopes; of these 95 are Prime and 97 are Secondary or something else; the Primes consist of 24 Mercury, 43 Gemin, and 28 Apollo; look for GT-VIII and AP-11 HC; some are signed by the CO; decent condition; bonus (extremely rare) *USS Farragut* SRS; happy hunting. Estimate \$400 - 600

- 6533 ☒ **Literally thousands of US FDCs and space event cancels**, corner the market on space event cancels; mild to moderate amounts collected by the only full-time space dealers for decades; in one (admittedly large) box you will have a tremendous array of topical covers; as folks migrate to topical and thematic collecting you will be positioned to supply the need (photo on web site). Estimate \$300 - 400
- 6534 ☒ **Space Voyager cachets and wonderful ASTP group**, known for consistently accurate and attractive, Space Voyager has always been a favorite with collectors; about 250 here with minimal duplication; 45 ASTP Australia; 22 Norfolk, PN+G, New Zealand; another 75 or so with varied art (NASA Exchange, Colorado, Ross, Space City Cover Society, etc); strong material for the post-Apollo era (photo on web site). Estimate \$250 - 350
- 6535 ☒ **Balance of US space covers**, about 2/3rds are event and 1/3 show and commemorative covers, some silk, some NASA Exchange, lots of Space Voyager, Boudwin rubber stamp, and Sarzin; a few hundred are Shuttle related; 13 different FMF local posts on cover, several PRS (nothing extraordinary), several 3x5 Live from the Moon photos; bonus hi value FDCs including \$2.40 (2 plus a block of 4), \$3 (4), and \$10.75 (4); about 1000 in total (photo on web site). Estimate \$200 - 300

6536

6537

- 6536 **NASA Distinguished Service Medal (40mm.)**, a striking cross design in gold with, in the center, a raised disc of blue enamel with a stylized satellite with an angled ellipse which depicts orbital flight; at one point it was the highest award the Agency could bestow for distinguished service, ability or courage, that personally made a contribution representing substantial progress to aeronautical or space exploration in the interests of the United States; realized \$750 at the Superior May 1998 sale. Estimate \$750 - 1,000
- 6537 ☒ **1963, Oct NASA Group 3 complete on cover**, Entire collection of autographs of 14 of the most important astronauts NASA ever selected; while eight were slated to fly in Gemini half would be killed; three in separate T-38 crashes, and one in the Apollo 1 ground fire; ten flew in Apollo with half walking on the surface of the Moon; signed on a Mercury First Day Cover cancelled the previous year; autographed by **Cunningham** (AP-7), **Aldrin** (GT-12, AP-11), **Anders** (AP-8), **Schweickart** (AP-9), **Bassett**, **Collins** (GT-10, AP-11), **Scott** (GT-8, AP-15), **Cernan** (GT-9, AP-17), **Bean** (AP-12), **Eisele** (AP-7), **Chaffee**, **Gordon** (GT-11, AP-12), **Freeman**, **Williams**, *Phenominally RARE; Anders, Bassett, Chaffee, Freeman and Williams are scarce individually.* Estimate \$2,000 - 3,000

Estimate \$600 - 800

6539 **NASA, (1963) Boeing X-20 Dyna-Soar signed photographs and TLS**, in response to a request from the Yago Library of Research Aeronautics, Astronautics and Related Sciences in Pittsburgh, Air Force Systems Command and X-20 experimental test pilots sent photographs and fact sheets; group includes 9 photographs and a TLS on Air Force Flight Test Center letterhead from X-20 pilot **Henry C. Gordon**; 5 images are unsigned and include two artist concepts and three of the mock up; the four autographed pictures are **James Wood, Albert Crews Jr, Henry C Gordon** and **M O Thompson**; wonderful photographs of an exotic, stillborn project; PAO says "*landing the aerospacecraft will be no more difficult than touchdown in an X-15*"; includes delightful poem written for the X-20.

Estimate \$500 - 750

6540 **NASA, 25 B&W glossy photographs of Project Vanguard**, period 8x10 images from varied sources; most are NASA with violet data on reverse, US Navy, National Archives, Naval Photographic Center, Eastern Space and Missile Center Photographic Laboratory, and some are just on Kodak paper; some classic launch or explosion shots but others quite unusual and detailed, an excellent grouping for the specialist interested in rocket technology during the IGY period, all in excellent condition.

Estimate \$250 - 350

6541 **Inexpensive jewelry tells the story of a career**, compact Fisher pen with gold colored Command Module attached; junk "fob" from Apollo 8; pocket money clip with beautiful Apollo 9 emblem; tie pins from North American Aviation, a pair that look like Moon rocks (though probably not), a Dolphine helicopter, a silver and a gold shuttle with open cargo bays, B-2 bomber, F-20 Tigershark, and the Apollo 16 emblem; French cufflinks with a CSM suspended inside an oval, an engine bell (F-1?) against a black background, and a pair of black rectangles, one with Saturn and stars, and the other with Apollo and the Moon; the remainder are tie clasps, the shuttle with open bay doors, NAA longevity, CSM with Moon, Apollo CSM in an oval, pewter Skylab, and gold CSM approaching the LM; nostalgic; bonus, three "recovery ship" baseball type caps with mission patched purportedly flown (but highly unlikely), the emblems are Ap-1, SL-4, and ASTP; also a mint copy of the Mar-Apr 1978 edition of Isaac Asimov's Science Fiction magazine autographed in red by Isaac Asimov (photo on web site).

Estimate \$200 - 300

6542 **manned space flight patches**, small collection of cloth patches (most 4-5"); eight scarce vintage USS Iwo Jima recovery ship; Apollo 1 Lion Brothers, Apollo 11 Lion Brothers mission support and recovery fleet; seven AB Emblem shuttle missions; three NASA meatball vectors; total of 29 patches plus nine mission emblem stickers (photo on web site).

**EX 6579**

**EX 6580**

6579 ☒ **Vostok-1 through 6 autographed covers as issued by the Moscow Philatelic Department**, these are the key Kniga covers that every USSR/Russian collection requires; for many the best way to ensure you get a genuine **Gagarin, Titov, Nikolayev, Popovich, Bykovsky, and Tereshkova**; minor foxing around stamps; photocopy of undated Kniga cert. Estimate \$750 - 1,000

6580 ☒ **Similar set of autographed Vostok flights**, fresh with multicolored Kniga cachets. Estimate \$750 - 1,000

**6581**

**EX 6582**

6581 ☒ **Vostok 1 autographed by Gagarin and Bykovsky**, blue "Globe and Rocket" only used in 1961 and four times less common than the red version with the 12 Apr 1961 black postmark (backdated from the 13th or 14th); included are notes from the First Secretary of the USSR Embassy in Norway and a letter from a dealer explaining that the signatures were obtained in 1964 during a visit to Scandinavia. Estimate \$600 - 800

6582 ☒ **A marvelous Gagarin autograph request.** Crew: Yuri Gagarin. First man in space, a noted Chicago collector (letter included) writes to Yuri Gagarin for an autograph stating that he collects all astronauts who have orbited the planet; at that time that consisted of John Glenn (just that week becoming America's first) and two Russians (Gagarin being one); by summer's end the number would swell to six (four of them Russian); **Gagarin** has autographed the airmail envelope (sealed with a UPU International Reply Coupon); a delightful piece. Estimate \$1,000 - 1,500

**6583**

6583 ☒ **1961 (Apr 12), Vostok 1 autographed by Gagarin with preferred postmark.** Crew: Yuri Gagarin. First man in space, it is generally acknowledged that no launch day cancels exist; that said, the closest is the Type 2 Moscow launch postmark dated the 12th but applied 13-14 April; the cachet is the Kniga Red Globe and Rocket (61040031) issued in early April 1961; across the postmark and touching the stamp is the autograph of the world's first space voyager, Yuri **Gagarin**. Estimate \$800 - 1,200

**FEATURING THE JOHANN STRAUSS & LEO MALZ COLLECTIONS**

- 6584 ☒ **1961 (Apr 12), Vostok 1 Key to the set.** Crew: Yuri Gagarin. First man in space, if you collect space autographs you need the tough one missing from most collections; in Jan 1964 Mezhdunarodnaya Kniga issued a series to honor the cosmonauts of the Vostok series (1961-63); each pilot individually signed their own cover; it was the only organized signing Gagarin ever participated in; the Moscow 'd-k' CDS has tied the 3k blue Gagarin stamp to the envelope; the Many Orbits cachet (61100005) was from the first printing in Oct 1961; the **Gagarin** autograph is in the upper left corner of the envelope; includes copy of Kniga certificate of authenticity. Estimate \$800 - 1,200
- 6585 ☒ **1961 (Apr 12), Vostok 1 Stellar matched pair signed by Gagarin.** Crew: Yuri Gagarin. First man in space, the best bookends possible; the 1961 3k Gagarin and 6k rocket with label issues (2463-65) tied on matching envelopes; the Kniga Blue Globe and Rocket (61040030) is four times as scarce and seen only in April 1961; the launch day cancel is a Moscow Type 1 (rounded "C"); the autograph of cosmonaut pilot **Gagarin** is in blue; the matching Red Globe and Rocket (61040031) has a Moscow Type 2 (squared "C") only used the first two days after the flight; **Gagarin** has autographed the envelope in black. Estimate \$1,500 - 2,000
- 6586 ☒ **1961 (Apr 12), Vostok 1 Gagarin signed postcard.** Crew: Yuri Gagarin. First man in space, there were not official Vostok cancels from the day of the flight; the Soviet Citizen in Space postmark is known in three types and two colors with many applied by Kniga long after the mission to satisfy worldwide philatelic demand; the key is the Type 2 in red; according to Reichman, this postmark version was only applied by the actual Moscow K-9 post office branch during the afternoon of 14 April 1961; these were the hours for Gagarin's reception and hero's parade in Moscow; beautiful **Gagarin** autograph on this unused card; superb condition. Estimate \$1,000 - 1,500
- 6587 ☒ **1961 (Apr 12), Vostok 1.** Crew: Yuri Gagarin. First man in space, material for an investigation of the Gagarin postmark applied in Moscow; lot consist of 25 examples on cover and one striking red cancel on a portrait postcard; consists of 7 rounded "C" and 9 squared "C" in black, and 2 rounded "C" and 6 squared "C" in red; also includes 2 rounded "C" issued April 29th; while the cancel is understood as backdated and not generally uncommon, the red squared "C" was only applied during a two hour window during the parade for the cosmonaut in downtown Moscow; 26 items in total; an excellent lot. Estimate \$500 - 750
- 6588 ☒ **1963 (Jun 16), Vostok 6.** Crew: Valentina Tereshkova. First woman in space, East Germany honors the first woman cosmonaut with a pair of stamps, a cacheted envelope, and commemorative postmark; vintage autograph by **Tereskova** who was reportedly chosen for her experience with a parachute (the early Soviet spacemen ejected before the capsule reached the ground), family political pedigree, and her photogenic qualities. Estimate \$100 - 150
- 6589 **USSR, Earliest known Gagarin autograph on the market, 5" x 7" B&W glossy photo portrait of Gagarin inscribed on reverse to Alexei Nikolayevich Surchakovo, autographed by Gagarin, and dated 13.06.61, two months after his historic spaceflight in Vostok 1. The date is currently believed to be the earliest dated photo available on the market; left upper corner crease, surface scratches.** Estimate \$800 - 1,200
- 6590 **Gagarin, Komarov and other signatures on stamps, select important autographs on stamps, perfect for exhibiting; includes Gagarin on a plate block, a mint single, and a used CTO; Komarov, Feoktistov and Yegorov on a stamp (3) and individual signatures on a stamp bearing their likeness; Tereshkova on mini-sheet of three stamps and a label (7); plus 21 others including Leonov, Kubasov, Stafford, Slayton and Brand on the Soviet pair of ASTP stamps; 35 better autographs in all (photo on web site).** Estimate \$1,500 - 2,000
- 6591 ☒ **Nicest Kiev club cover you could possibly find, look for classic images on the cover of Reichman's study of Kiev Collector Club covers and you will see this Vostok anniversary envelope; addressed to a Deputy Chief Post Office official this envelope could not be any nicer; Reichman reports that the Type 1A (no dots) red commemorative postmark (here on the KievEnv#1) was only available for two hours on 12 Apr 1962; compare the proof-like strike to a typical Type 1B in black (on the web) and you will understand how special this really is; standard black impression included for comparison.** Estimate \$200 - 300
- 6592 ☒ **1961 (Apr 12), Vostok 1 Gagarin signature on Kniga Blue Globe and Rocket.** Crew: Yuri Gagarin. First man in space, Moscow Type 1 (rounded "C") ties 2463-65 on a Western sized envelope; cachet is the sought after Blue Globe and Rocket (61040030) which is far less common than a similar cachet issued in red; autographed by **Gagarin** into the postmark and touching the stamp with his likeness. Estimate \$800 - 1,200

6593 ☒ **1965, matched pair of covers signed by Yuri Gagarin**, the 1965 20k issues of Soviet spaceships lifting off and the other of cosmonauts viewing orbiting spacecraft are striking with red and blue on a shiny silver background; the Cosmonaut Day postmark design was shared with 18 different cities, this pair cancelled in Moscow; the Kniga artwork is the Moon Explorers and Rocket (64100033) issued in Oct 1964; each envelope has the autograph of **Gagarin**; **unlikely to every find a matched pair like this again** . Michel 3042-3043. Estimate \$1,500 - 2,000

6594 ☒ **1963, Vostok-5 and Vostok-6 joint launch cover**, franked with autographed imperforate stamps honoring **Bykovsky** and **Tereshkova**; a third stamp is signed by both cosmonauts. Estimate \$200 - 300

### VOSKHOD FLIGHTS (1964-1965)

6595 ☒ **1964 (Oct 12), Voskhod 1 triumphant autographed postcard**, the perfect item from the world's first three man crew; commemorative postmark ties stamp honoring these brave cosmonauts; **Komarov, Feoktistov** and **Yegorov** have boldly signed this exceptional item. Estimate \$600 - 800

6596 ☒ **1964 (Oct 12), Voskhod 1 striking item**. Crew: V. Komarov, K.Feoktistov, B.Yegorov. First multiman spacecraft, boldly signed postcard by **Komarov, Feoktistov** and **Yegorov**; commemorative honoring the trio is tied with a space-themed postmark; a difficult item to find and in lovely condition. Estimate \$600 - 800

6597 ☒ **1964 (Oct 12), Voskhod 1 autographed by crew**. Crew: V. Komarov, K.Feoktistov, B.Yegorov. First multiman spacecraft, lofting three men in orbit before America could even manage two continued the Soviet relentless march for "firsts"; by removing the ejection seat, eliminating spacesuits, and even requiring the crew to go on a diet, the Soviets were able to squeeze three where before there had only been one; **Komarov** would fly again but be lost when the parachute on his Soyuz 1 capsule failed to correctly deploy; for **Feoktistov** and **Yegorov**, this would be their only flights; this crew signed set from a landmark mission needs to be in your collection. Estimate \$500 - 750

6598 ☒ **1964 (Oct 12), Voskhod 1 scuffed but rare postcard**. Crew: V. Komarov, K.Feoktistov, B.Yegorov. First multiman spacecraft, autographed by **Komarov, Feoktistov** and **Yegorov**; following their epic feat of orbiting three cosmonauts at once (in 1964), Komarov would fly the first Soyuz series spacecraft as well; tragically, he was killed when the parachute system fouled on his return to Earth; with this being the only flight for his comrades, the crew signed postcard is scarce; flaking on the edges and smudges to the signatures. Estimate \$400 - 600

6599 ☒ **1964 (Oct 12), Voskhod 1 signed Komarov color card**. Crew: V. Komarov, K.Feoktistov, B.Yegorov. First multiman spacecraft, a superior commander who led Voskhod 1 would go on to fly the first of the new series, Soyuz 1; due to a parachute failure he unfortunately perished and became the first space fatality; stamp honoring tied to card; bold autograph of **Komarov** below. Estimate \$300 - 400

6600 **1965 (Feb 27), Chief Designer responds to suggestion for cosmonauts**, in a letter to Sergei Korolev, two Russian pilots are recommended as cosmonauts for upcoming spaceflight; in a lighthearted response **Korolev** writes back, "there are lots of guys out here, we don't need them."; written just three weeks before Belyayev and Leonov in Voskhod 2 performed the world's first space walk; due to Soviet concerns of a potential CIA assassination attempt, he was not identified as anything but the Chief Designer during his lifetime; Korolev, who was worked to death and in poor health, would be dead within a year; a certificate of authenticity (in Russian) accompanies the document, *spectacularly rare space related correspondence from the secret Chief Designer*. Estimate \$2,000 - 3,000

6601 ☒ **1965 (Mar 18), Voskhod 2 crew signed postcard**. Crew: P. Belyayev, A. Leonov. First spacewalk, **Pavel Belyayev** was the senior ranking officer in the cosmonaut corps and commander of the flight in which his partner, **Alexi Leonov**, make the world's first spacewalk; since he died at age 44 after complications following surgery crew signed items remain uncommon; the stamps were added later since the 10th anniversary of Gagarin's flight cancels were not applied until 1971 (Pavel died in 1970). Estimate \$200 - 300

**SOYUZ FLIGHTS (1967-)**

- 6602      **1969 (Oct 11), Soyuz 6 Korolyov Medal.** Crew: G. Shonin, V. Kubasov. Joint mission with Soyuz 7 & 8, awarded with booklet signed by fellow cosmonaut and Chairman of the USSR Federation of Astronautics **Rukavishnikov**; presented to **Shonin**, Ex- the Georgi Shonin collection. Estimate \$150 - 200
- 6603 ☒      **1969 (Oct 12), Soyuz 7 Filipchenko, Volkov and Gorbatko autographs.** Crew: A. Filipchenko, V. Volkov, V. Gorbatko. Joint mission with Soyuz 6 & 8, on a stylized color card with a stamp commemorating their flight; a Kniga envelope with a red Moscow cancel also included; realized \$200 at Superior Oct 1997 sale. Estimate \$150 - 200
- 6604 ☒      **1969 (Oct 12), Soyuz 7 Filipchenko, Volkov, and Gorbatko autographs.** Crew: A. Filipchenko, V. Volkov, V. Gorbatko. Joint mission with Soyuz 6 & 8, crisp commemorative envelope with printed franking; realized \$160 in Superior Fall 1997 sale. Estimate \$75 - 100
- 6605 ☒      **1969 (Oct 13), Soyuz 8.** Crew: V. Shatalov, A. Yeliseyev. Joint mission with Soyuz 6 & 7, impressive envelope autographed by **Shonin & Kubasov** (Soyuz 6), **Filipchenko, Volkov & Gorbatko** (Soyuz 7) and **Shatalof & Yeliseyev**(Soyuz 8) to highlight that in October, 1969, the Soviets had three spacecraft in orbit simultaneously; each cosmonaut pilot has signed the stamp commemorating their mission, Realized \$250 during the Superior Oct 1996 sale. Estimate \$250 - 350
- 6606 ☒      **1969 (Oct 12), Soyuz 7.** Crew: A. Filipchenko, V. Volkov, V. Gorbatko. Joint mission with Soyuz 6 & 8, red Moscow cancel on Kniga issued envelope; crisp autographs of **Filipchenko, Volkov and Gorbatko** signed against their images on a 10k stamp, realized \$180 at Oct 1996 Superior sale. Estimate \$150 - 200
- 6607 ☒      **1971 (Jun 6), Soyuz 11 Is it real?** . Crew: G. Dobrovolsky, V. Patsayev, V. Volkov. Visited†Salyut 1. All died in reentry from asphyxiation, in 1971 Soyuz 11 visited the Salyut-1 station and died on their return to Earth; Soviet custom says a pilot is not a cosmonaut until they return from their first mission in space; in this case, Volkov had flown before (Soyuz 7) but Dobrovolsky and Patsayev had not; for this reason, examples of the two rookies are amongst the rarest space autographs in the world; this envelope has no franking or postmark; the signatures are all dated Jun 6, the date of the launch; the **Volkov** appears good; could this have been signed by the complete crew prior to departure? offered as a genuine Volkov and forged Dobrovolsky and Patsayev. Estimate \$200 - 300
- 6608 ☒      **1974 (Jul 3), Soyuz 14 FLOWN.** Crew: Yu. Artyukhin, P. Popovich. Visited†Salyut 3, spectacular piece; **Popovich** signed this card a month after returning from orbital mission to Salyut 3; key July 1974 onboard mark confirms it traveled to the station;Salyut 3 onboard marks are exceedingly rare since Soyuz 14 was the only mission to successfully visit; fakes of this scarce onboard mark are known, *about 50 covers, cards and photos were stamped in orbit.* Hopperweiser S3-1; €6,000 (\$6,730). Estimate \$1,000 - 1,500
- 6609 ☒      **1974 (Dec 2), Soyuz 16.** Crew: A. Filipchenko, N. Rukavishnikov. Test of redesigned Soyuz craft, boldly signed space-themed entire postmarked in Moscow; autographed by **Filipchenko & Rukavishnikov**; also includes a color maxime card signed by **Volkov** who flew with Filipchenko in Soyuz 7 and perished on Soyuz 11. Estimate \$200 - 300

**EX 6610**

- 6610 ☒      **1975 (Jul 15), Soyuz 19 ASTP dealer's lot.** Crew: A. Leonov, V. Kubasov. Apollo-Soyuz Test Project, 25 examples of the Soviet Apollo-Soyuz Test Project aerogram autographed by **Leonov and Kubasov**; each has been postmarked at Baikonur with a Type 1 strike (on site and not done at Kniga in Moscow); Reichman reports that the usual cancel is in black, he says the blue or red examples were done to support philatelic services at the Cosmodrome; 15 blue and 10 red are included; all have great impressions and look perfect. Estimate \$1,000 - 1,500

- 6611 ☒ **1975 (Jul 15), Soyuz 19 stock for the astute dealer.** Crew: A. Leonov, V. Kubasov. Apollo-Soyuz Test Project, a more manageable sized group of ASTP crew signed covers; 10 blue and 5 red aerograms autographed by **Leonov** (first spacewalker) and **Kubasov**; all are clean, unstuck and have strong, even postmarks for the launch of the first Soviet-American space mission at Baikonur Cosmodrome; ironically, Deke Slayton, a Mercury Seven astronaut hired in 1959 to go up against the Russians (but grounded for medical reasons), would fly on the last Apollo (Ap-18) in which the objective was cooperation with the Soviets. Estimate \$600 - 800
- 6612 ☒ **1975 (Jul 15), Soyuz 19 Baikonur lanch and anniversary.** Crew: A. Leonov, V. Kubasov. Apollo-Soyuz Test Project, unusual aerogram autographed by the crew (**Leonov** and **Kubasov**) of Soyuz 19; has authentic Baikonur commemorative launch cancel (Type 1 in black) as well as the year anniversary postmark CDS; the 10th copy has the souvenir sheet with bold signatures; 10 envelopes with 20 autographs. Estimate \$400 - 600
- 6613 ☒ **1975 (Jul 15), Soyuz 19 Complete crew signed on publicity tour.** Crew: A. Leonov, V. Kubasov. Apollo-Soyuz Test Project, having visited Star City on Sept 21st, this envelope documents the publicity tour visit to Kiev; autographed by Americans **Vance Brand, Donald Slayton** and **Tom Stafford** as well as Russians **Leonov** and **Kubasov**; the specialist would be hard pressed to find this tour cover postmarked deep in Russia. Estimate \$250 - 350
- 6614 ☒ **1975 (Jul 15), Soyuz 19 Baikonur crew signed covers.** Crew: A. Leonov, V. Kubasov. Apollo-Soyuz Test Project, dealer's lot of 10 identical aerograms that show the R-7 taking off; each bears the autographs of **Leonov** and **Kubasov**; Baikonur commemorative launch cancels come in three types, these are Type 1 (actually postmarked at the Baikonur Cosmodrome); each entire is also cancelled with the Baikonur CDS; 10 envelopes and 20 autographs. Estimate \$400 - 600
- 6615 ☒ **1975 (Jul 15), Soyuz 19 ASTP specialist treasure trove.** Crew: A. Leonov, V. Kubasov. Apollo-Soyuz Test Project, fascinating collection from the Apollo Soyuz Test Project; consists of a lithograph with 8 autographs (some Russian, some not), and 11 commemorative envelopes, mostly postmarked during the flight in Zvezdnyi Gorodok (Star City), where the Centre for Training Astronauts is situated; two envelopes are swamped in autographs, one having 22 and the other 31, another, ringed in ASTP stamps, has four cosmonaut signatures and a hand stamp from Star City; a striking entire with a mid-mission cancel with a cachet honoring Korolev, is signed by **Leonov, Kybasov, Filipchenko, and Rukavishnikov**; another envelope is signed by Filipchenko and Rukavishnikov (Soyuz 16) who tested the Soyuz redesign later used for ASTP; a total of 71 autographs. Estimate \$300 - 400
- 6616 ☒ **1975 (Jul 15), Soyuz 19 ASTP specialists welcome.** Crew: A. Leonov, V. Kubasov. Apollo-Soyuz Test Project, Six envelopes, each crew signed by **Leonov** and **Kubasov**; Baikanur CDS for launch date (beautiful strike) on commemorative envelope; Baikonur commemorative launch cancels (Type 1) in black as well as red and blue (both unreported by Reichman); souvenir sheet and two stamps postmarked in Moscow as a First Day cover; and an aerogram with commemorative Baikonur launch cancel and a CDS on recovery day; nice. Estimate \$300 - 400
- 6617 ☒ **1975 (Jul 15), Soyuz 19 ASTP specialist lot.** Crew: A. Leonov, V. Kubasov. Apollo-Soyuz Test Project, second bite at the apple with a similar set of covers; in this case both US and Soviet ASTP issues tied with Moscow FDC postmark and crew signed; the souvenir sheet on a signed cover by **Leonov** and **Kubasov** postmarked with the regular Baikonur CDS; a total of a dozen autographs. Estimate \$300 - 400
- 6618 ☒ **1975 (Jul 15), Soyuz 19 Return to Star City.** Crew: A. Leonov, V. Kubasov. Apollo-Soyuz Test Project, Four matching envelopes with sumptuous cachets; official Star City cachet covers (two showing the crew and two with ASTP emblems) with different franking; great cancels on the visit date (9/21/75) at Zvezdnyy Gorodok; eight autographs of **Leonov** and **Kubasov**. Estimate \$300 - 400

- 6619 ☒ **1975 (Jul 15), Soyuz 19 ASTP complete crew signed.** Crew: A. Leonov, V. Kubasov. Apollo-Soyuz Test Project, Gorgeous multicolor emblem art honoring the joint Soviet-American ASTP mission; the postmark at Zvezdnyy Gorodok (Star City) was exactly three months to the day that Soyuz 19 returned to Earth; autographed by **Leonov, Kubasov, Brand, Stafford** and **Slayton**; includes three 4x6" sepia photographs, two are artist conceptions of the joint mission and the third of everyone connected with the flight (at least 26) on the steps of a government building. Estimate \$300 - 400
- 6620 ☒ **1975 (Jul 15), Soyuz 19 Star City overprints for launch.** Crew: A. Leonov, V. Kubasov. Apollo-Soyuz Test Project, aerogram series issued for the Apollo-Soyuz Test Project were only overprinted at Zvezdnyy Gorodok on July 15th; complete set of 5 colors on the launch artwork; all are signed by **Leonov** and **Kubasov**; 5 envelopes with 10 autographs. Estimate \$300 - 400
- 6621 ☒ **1975 (Jul 15), Soyuz 19 oversized ASTP.** Crew: A. Leonov, V. Kubasov. Apollo-Soyuz Test Project, a dozen autographs including **Leonov** and **Kubasov** on four items; enormous (6.5 x 9") Cosmonaut envelope with four Russian ASTP stamps, creased but attractive; two launch large (also 6x9) envelopes with souvenir sheet and 10k label postmarked 15 July 1975 and autographed by the crew; 4.25 x 9.5" trifold with mission statistics and eight signatures on the cover with matching envelope. Estimate \$300 - 400
- 6622 ☒ **1975 (Jul 15), Soyuz 19 Star City overprints for docking.** Crew: A. Leonov, V. Kubasov. Apollo-Soyuz Test Project, aerogram series showing the docking of Apollo and Soyuz spacecraft; postmark at Zvezdnyy Gorodok on July 17th; complete set of four overprints only done at Star City; each hand signed by **Leonov** and **Kubasov**; 4 envelopes, 8 autographs. Estimate \$250 - 350
- 6623 ☒ **1975 (Jul 15), Soyuz 19 Star City overprints for landing.** Crew: A. Leonov, V. Kubasov. Apollo-Soyuz Test Project, aerogram series showing mission control with a display of the orbital flight paths; postmark at Zvezdnyy Gorodok on July 21st; complete set of three overprints only done at Star City; each hand signed by **Leonov** and **Kubasov**; 3 envelopes, 6 autographs. Estimate \$200 - 300
- 6624 ☒ **1975 (Jul 15), Soyuz 19 complete cachet set at Baikonur.** Crew: A. Leonov, V. Kubasov. Apollo-Soyuz Test Project, the Soviets created an aerogram set of 6k entires to celebrate the joint Soviet-American handshake in space, the set consisted of launch, docking, mission control, and the emblem with crews; each is crew signed by **Leonov** and **Kubasov**; all have Type 1 (actually postmarked at the Cosmodrome and not in Moscow) Baikonur commemorative launch day (July 15th) postmarks; 4 envelopes, 8 autographs. Estimate \$200 - 300
- 6625 ☒ **1976 (Jul 6), Soyuz 21 FLOWN.** Crew: B. Volynov, V. Zholobov. Visited†Salyut 5, departed early, color photograph with extensive inscription in Russian; autographed by **Volynov** and **Zholobov**; slightly smudged Salyut 5 onboard cancel, attractive inscription in red and signatures in blue, *Hopferwieser reports 50-60 covers exist. Hopferwieser S5-1; €2,000 (\$2,240).* Estimate \$1,200 - 1,800
- 6626 ☒ **1978-79 Salyut-6 "GROUNDED" autographed set,** Similar offering of 41 autographs of cosmonauts who flew on Salyut-6; 18 very attractive covers with onboard cancels; unfortunately, the postmarks were applied with a device returned to Earth; these covers did not reach orbit; that said, an opportunity to acquire a delicious set a very modest price. Estimate \$800 - 1,200

**EX 6627**

- 6627 ☒ **1978-78 Salyut-6 "Clipped wings" collection,** Wonderful collection of 19 better covers with Salyut-6 onboard marks; unfortunately, these never left Earth as the postmarking device was brought back by the crews; a great chance to get examples of uncommon postmarks at a fraction of the orbital costs. Estimate \$300 - 400

## FEATURING THE JOHANN STRAUSS & LEO MALZ COLLECTIONS

- 6628 ☒ **1978-79 “Clipped wings” Salyut-6 collection**, Similar opportunity with 20 better envelopes documenting Salyut-6 flights; while they appear as carried into space, they were actually created for collectors when the cosmonauts returned to Earth; it in no way takes away their beauty but it does make them far more affordable. Estimate \$300 - 400
- 6629 ☒ **1978 (Mar 2), Soyuz 28 “Grounded” but colorful**. Crew: A. Gubarev, V. Remek (Czechoslovakia). Visited†Salyut 6, sporting numerous postmarks intended for orbit (but applied on Earth), this grouping of 14 covers includes 39 signatures is well worth a look; autographs include **Gubarev** and **Remek** (Soyuz 28) as well as **Romanenko** and **Grechko** (Soyuz 26); some great covers. Estimate \$800 - 1,200
- 6630 ☒ **1978 (Mar 2), Soyuz 28 similar collection of “Clipped wings”**. Crew: A. Gubarev, V. Remek (Czechoslovakia). Visited†Salyut 6, another rich collection of envelopes with stylish franking, cancels, cachets and signatures; 15 covers with 47 autographs; while on first glance some of these covers appear to have been carried into space they were not; each has received postmarks, some used on Salyut-6, but serviced on Earth; autographs include **Gubarev** and **Remek** (Soyuz 28) as well as from the 1st Expedition (**Romanenko** and **Grechko**). Estimate \$800 - 1,200
- 6631 ☒ **1978 (Mar 2), Soyuz 28 one additional enticing chance**. Crew: A. Gubarev, V. Remek (Czechoslovakia). Visited†Salyut 6, using postmarking devices intended only for use in orbit, some of these envelopes appear to have reached orbit; they have not; instead this represents an opportunity to acquire 16 covers with 32 signatures at a very attractive price; Soyuz 28 represented only the third flight to Salyut-6 and is very collectable; autographs include **Gubarev** and **Remek** (Soyuz 28) as well as **Romanenko** and **Grechko** (Soyuz 26). Estimate \$600 - 800
- 6632 ☒ **1978 (Jun 15), Soyuz 29 FLOWN**. Crew: V. Kovalyonok, A. Ivanchenkov, S. Jähn (E Germany). Visited†Salyut 6; returned with crew of Soyuz 31, stunning multicolor printed envelope with attractive commemorative and onboard Salyut 6 marks; sadly, no autographs; Hopferweiser reports that like the 1st Resident Crew, the second crew only had onboard postmarks available when foreign visitors came to the station. Estimate \$150 - 200
- 6633 ☒ **1978 (Jun 27), Soyuz 30 FLOWN**. Crew: P. Klimuk, M. Hermaszewski (Poland). Visited†Salyut 6, docking day autographed by **Klimuk** and **Hermaszewski** in Soyuz 30 joining **Kovalyonok** and **Ivanchenkov** from Soyuz 29; during the flight the Pole was photographed discarding the Polish onboard postmark into the Salyut 6 garbage airlock. Hopferweiser S6-2f; €650 (\$730). Estimate \$400 - 600
- 6634 ☒ **1978 (Jun 28), Soyuz 30 FLOWN**. Crew: P. Klimuk, M. Hermaszewski (Poland). Visited†Salyut 6, **Klimuk** and **Hermaszewski** signed this cover carried on Salyut-6; in order to produce superior crystals, all control engines were deactivated and even exercise on the treadmill had to be suspended; Hopferweiser S-2f; €650 (\$730). Estimate \$250 - 350
- 6635 ☒ **1978 (Jun 27), Soyuz 30 “Grounded” covers**. Crew: P. Klimuk, M. Hermaszewski (Poland). Visited†Salyut 6, 23 autographs on 13 covers honoring an early mission to the Salyut-6 space station; while they appear to have the marks of orbital covers they were actually postmarked once the cosmonauts returned to Earth; this in no way takes away the beauty of the myriad of lovely cancellations or the bold signatures; autographs include **Klimuk** and **Hermaszewski** (Soyuz-30) as well as **Kovalenok** and **Ivanchenkov** (Soyuz 29). Estimate \$500 - 750

EX 6636

- 6636 ☒ **1978 (Jun 27), Soyuz 30 similar “Clipped wings” covers**. Crew: P. Klimuk, M. Hermaszewski (Poland). Visited†Salyut 6, very attractive envelopes that appear carried in orbit but were actualled cancelled on Earth; 11 covers in total and 21 autographs including **Klimuk** and **Hermaszewski** (Soyuz 30) as well as **Kovalyonok** and **Ivanchenkov** (Soyuz 29). Estimate \$500 - 750

- 6637 ☒ **1978 (Aug 26), Soyuz 31 FLOWN.** Crew: V. Bykovsky, S. Jähn (E Germany), A. Ivanchenkov. Visited†Salyut 6; returned with crew of Soyuz 29, this envelope carried to Salyut-6 has the Soviet on-board postmark, the private Salyut-6 cancel, and the GDR Post cancel (showing distinct halftone dots) but lacks the Salyut-6 mark; *Hopferweiser states, "In contrast to cancellations added before launch or after landing, on-board cancellations show distinct halftone dots."*; group also includes an additional 6 covers each autographed by the crew; one of the envelopes has **Bykovski, Jahn**, and also the backup pilot, **Gorbatko**; a total of 7 covers and 15 autographs. Hopferweiser S6-2g; €600 (\$670).  
Estimate \$600 - 800
- 6638 ☒ **1979 (Apr 10), Soyuz 33 too busy to service in flight.** Crew: N. Rukavishnikov, G. Ivanov (Bulgaria). Failed to dock with†Salyut 6, the envelope is impressive; the two stamps are tied to the entire with both orbital (Salyut-6) and ground postmarks; impressively, there are cancel for Baikonur (the launch complex), Turatam (the railroad station), and Leninsk (the nearest city); the cover is autographed by **Rukavishnikov** and **Ivanov** (Soyuz 33); because of a breakdown of the moving mechanism of Soyuz 33, the docking with the station was cancelled; the situation was tense and there was no time to play postmaster in orbit; once on the ground, postmarks were applied; the fact that orbital dates match a ground date confirms the fact that it did not get cancelled in orbit; while it is possible the envelope accompanied the crew and was later serviced on the ground, it is also possible that it is one of dozens that never flew; a 1 mm elevation in part of the Salyut-6 mark makes the carrying question inconclusive; sold as unflown; nevertheless, a great addition to a Soviet collection.  
Estimate \$200 - 300
- 6639 **USSR, Soyuz 35 and Soyuz 36 commemorative book.** Crew: L. Popov, V. Ryumin, B. Farkas (Hungary). Visited†Salyut 6; returned with crew of Soyuz 36, Unusual bound mini book, 12 x 16 cm honoring two Salyut-6 missions; written in Russian the 170 page work includes charts, timelines and photos; autographed on their likenesses are **Popov** and **Ryumin** (Soyuz 35) as well as **Kubasov** and **Farkas** (Soyuz 36); an interesting memento.  
Estimate \$200 - 300
- 6640 ☒ **1980 (Apr 9), Soyuz 35 FLOWN.** Crew: L. Popov, V. Ryumin, B. Farkas (Hungary). Visited†Salyut 6; returned with crew of Soyuz 36, cosmonauts from Hungary, Vietnam, Cuba as well as the USSR have signed this tremendous item; flown during Soyuz 35, 36, 37 and 38; six onboard cancels an ten autographs; **Popov, Ryumin, Kubasov, Farkas, Gorbatko, Pham, Romanenko, Tamayo, Aksyonov** and **Malyshev**, addressed to Irina Nikolayeva. Hopferweiser S6-4o; €1,000 (\$1,120).  
Estimate \$1,000 - 1,500
- 6641 ☒ **1980 (Jun 5), Soyuz T-2 FLOWN.** Crew: V. Aksyonov, Yu. Malyshev. Visited†Salyut 6; test of new model Soyuz spacecraft, oversized Cosmonaut stationery carried to Salyut-6; autographed by **Aksyonov** and **Malyshev** (Soyuz T-2) as well as **Ryumin** (Soyuz 37) and **Popov** (Soyuz 40); postmarks including the Salyut station mark are a tad faint but readable; notation concerning transport on Soyuz T-2 stamped at the top in cyrillic. Hopferweiser S6-4l; €450 (\$500).  
Estimate \$400 - 600
- 6642 ☒ **1980 (Jul 23), Soyuz 37.** Crew: V. Gorbatko, T. Pham Vietnam, V. Ryumin. Visited†Salyut 6; returned crew of Soyuz 35, Two postally used (including receiving marks) envelopes; boldly autographed by **Gorbatko** and **Pham** (Soyuz 37) as well as **Popov** and **Ryumin** (Soyuz 35); each is a Registered cover with Soviet postage supplementing the entire; one has mixed franking with a Vietnam stamp tied; while both display flown postmarkings these were actually applied on Earth; wonderfully postally used nonetheless.  
Estimate \$300 - 400
- 6643 ☒ **1980 (Jul 23), Soyuz 37 FLOWN.** Crew: V. Gorbatko, T. Pham Vietnam, V. Ryumin. Visited†Salyut 6; returned crew of Soyuz 35, during Vietnam's first participation in the Olympic Games, Air Force pilot **Pham** entered Salyut-6 along with **Gorbatko**; also autographed by returning Soyuz 35 **Popov** and **Ryumin**; four cancels including onboard mark. Hopferweiser S6-4m; €500 (\$560).  
Estimate \$400 - 600
- 6644 ☒ **1980 (Jul 29), Soyuz 37 FLOWN.** Crew: V. Gorbatko, T. Pham Vietnam, V. Ryumin. Visited†Salyut 6; returned crew of Soyuz 35, Unusual cosmonaut stationery used to celebrate the first Vietnamese pilot in space; Salyut-6 onboard marks as well at cancel devices provided by the Soviets and government of Vietnam; bright signatures from **Kubasov, Farkas** and **Gorbatko** (Soyuz 36) as well as **Pham** and **Popov** (Soyuz 37). Hopferweiser S6-4m; €500 (\$560).  
Estimate \$400 - 600

## FEATURING THE JOHANN STRAUSS & LEO MALZ COLLECTIONS

- 6645 ☒ **1980 (Sep 20), Soyuz 38 FLOWN.** Crew: Yu. Romanenko, A. Tamayo (Cuba). Visited†Salyut 6., Twin 15k setenant Soviet stamps honoring achievements in space; Salyut-6 onboard marks nicely tied; autographs of **Rumanenko** and **Tamayo** (Soyuz 38) as well as **Popov** (Soyuz 35) and **Kovalyonok** (Soyuz T-4); cosmonaut stationery. Hopferweiser S6-4n; €500 (\$560). Estimate \$400 - 600
- 6646 ☒ **1980 (Sep 20), Soyuz 38 FLOWN.** Crew: Yu. Romanenko, A. Tamayo (Cuba). Visited†Salyut 6., Five autographs adorn this envelope including **Romanenko** and **Tamayo** (Soyuz 38), **Dzhanibekov** (TM-39), and **Popov** (TM-40); in addition to observing sugar cane growth in Cuba the crew cultivated sucrose monocrystals and rare metal alloys; using an First Day of Issue envelope, it subsequently received Cuban and Soviet onboard postmarks and a Salyut-6 mark in black. Hopferweiser S6-4n; €500 (\$560). Estimate \$400 - 600
- 6647 ☒ **1980 (Sep 20), Soyuz 38 FLOWN.** Crew: Yu. Romanenko, A. Tamayo (Cuba). Visited†Salyut 6., **Romanenko** and **Tamayo** (Soyuz 38) and **Savinykh** (Soyuz T-4) signed envelope honoring Soviet/Cuban joint mission; Soviet Salyut-6 and corresponding Cuban onboard marks in black;; postmarks do not tie stamp to the cover. Hopferweiser S6-4n; €500 (\$560). Estimate \$300 - 400
- 6648 ☒ **1980 (Sep 18), Soyuz 38 FLOWN.** Crew: Yu. Romanenko, A. Tamayo (Cuba). Visited†Salyut 6., **Romanenko** and **Tamayo** performed material science experiments with **Popov** and **Ryumin** from Soyuz 35; in addition to the autographs and the Salyut-6 onboard mark there are four other cancels; mixed franking with both Russian and Cuban postage. Hopferweiser S6-4n; €500 (\$560). Estimate \$400 - 600
- 6649 ☒ **1981 (Mar 12), Soyuz T-4 FLOWN.** Crew: V. Kovalyonok, V. Savinykh. Visited†Salyut 6, **Kovalyonok** and **Savinykh** (T-4) of the 5th Basic Expedition has signed this entire with both Salyut onboard marks in black. Estimate \$350 - 500
- 6650 ☒ **1981 (May 14), Soyuz 40 FLOWN?** . Crew: L. Popov, D. Prunariu. Visited†Salyut 6, autographed by **Popov** and **Prunariu** (Soyuz 40) as well as **Kovalyonok** and **Savinykh** (Soyuz T-4) with the MIR mark this presumably flown envelope did not receive a postmark tying the stamp to the envelope; offered as probably orbited; also 7 additional covers, one with S-40 and T-4 crew autographs; Soyuz 40 was the last crew to visit Salyut-6. Hopferweiser S6-5g; €500 (\$560). Estimate \$500 - 750
- 6651 ☒ **1981 (May 14), Soyuz 40 FLOWN.** Crew: L. Popov, D. Prunariu. Visited†Salyut 6, three days after docking with the space station **Popov** and **Prunariu** (Soyuz 40) an onboard datestamp was applied along with the Baikonur and new smaller Salyut-6 mark; also autographed by **Kovalyonok** and **Savinykh** (Soyuz T-4); an attractive cover despite the fact that one stamp is not tied. Hopferweiser S6-5g; €500 (\$560). Estimate \$350 - 500
- 6652 ☒ **1981 (May 14), Soyuz 40 FLOWN.** Crew: L. Popov, D. Prunariu. Visited†Salyut 6, atypical space mail; five cancels including a commemorative Salyut 5 cancel, a Salyut 6 onboard mark, and a backdated Romanian onboard postmark dated May 18th; uncommon without autographs. Hopferweiser S6-5g; €500 (\$560). Estimate \$150 - 200

Estimate \$2,500 - 3,500
- 6790 ☒ **Soyuz in 10 binders of surprisingly good stuff, Soyuz T-6/11,** advanced collection with numerous registered covers, 16 crew signed covers, Indian Salyut 7 space mail cancel (but no signatures), a few small sheets of stamps, a very strong book; **Soyuz T-12/TM-7,** 15 crew signed covers as well as clean registered envelopes and pristine stamps, outstanding; **Soyuz 25-29,** marvelous Czech Gagarin series with overprint on cover as well as stamps and blocks, 15 crew signed envelopes, many postmarked at Baikonur Cosmodrome, autographed photos; **Soyuz 28-40** Sverdlovsk, about 100 meticulously cancelled, beautiful; **Salyut 7 Soyuz T-2/3,** perhaps 50 with numerous variations on commemorative rubber stamps; **Soyuz 28-40 Liepaja,** at least 100 color shade differences on this regional postmark; **Soyuz 30-31,** great stamps and blocks, 5 crew signed covers, signed photographs, a few with onboard postmarks but not signed, very strong material; **Soyuz 32-35 T-2,3,4,** dozen autographed covers, stamps, imperf, beautiful; **Soyuz 36-38,** 10 crew signed (one may be flown), stamps, imperf, strong Cuba and Viet Nam, signed photos, great binder; Soyuz 39-40, much ordinary but the Romania is excellent, some crew signed and possibly carried to Salyut 6 (photo on web site). Estimate \$1,500 - 2,000

6791

6791

**Holy Grail of crew signed autographs**, Soviet tradition held that pilots would not offer autographs until they returned from their first trip to space; in the case of Soyuz-11 the original crew included Alexei Leonov, the first spacewalker, but when a crewmember had an abnormal chest x-ray, the entire crew was replaced; the new crew, consisting of **Victor Patsaev**, **Vladislav Volkov** and **Georgy Dobrovolsky**, became the first to occupy the Salyut 1 space station; while a ventilation system needed to be replaced on arrival, and a fire broke out halfway through the 22 day stay, the mission was a success until reentry; a malfunction on separation from the service module disturbed a vent seal which dumped the air from the spacecraft causing the death of the crew; while there are some creases and cracks in this 6.75" x 8.5" black and white photograph, the signatures are bold and **EXTREMELY** rare; a complete crew signed item from a mission where two had never flown is virtually unheard of; comes with Expert Verification from the International Public Charitable Foundation for Support of Russian Cosmonautics, *Extremely scarce*. Estimate \$6,000 - 8,000

- 6797 ☒ **1978-79, "GROUNDED" Salyut-6 autographed collection**, Very attractive collection of cosmonaut autographs on envelopes with Salyut-6 onboard markings; unfortunately, the marks were applied on Earth and were not carried into space; an opportunity to get a wonderful set of 41 signatures on 18 covers for a fraction of the flown variety. Estimate \$800 - 1,200
- 6798 ☒ **Soyuz 4 docks with Soyuz 5 in orbit**, the first time that crewed spacecraft docked in orbit was celebrated when **Yeliseyev** and **Khrunov** from Soyuz 5 (leaving **Volynov** to pilot the craft) conducted a spacewalk to Soyuz 4. They surprised **Shatalov** with letters from his wife and Nikolai Kamanin (head of cosmonaut training) as well as newspapers *Pravda* and *Izvestis* with detailed news about the flight. Khrunov had fastened the letters with a belt to his pressure suit. The catalog value of a flown cover, a great modern rarity, is \$140,000; the offered item, while not flown, was one of the first cancels from Bailonur; cancels from subsequent days of the mission are also rare as is the contemporaneous signatures of the crews; 11,000 covers were later offered through the Moscow Philatelic Department after the rocket nose was defaced on the postmark; a common 10 kopeck altered envelope is included for comparison, *exceedingly rare spacefiller until you get the flown example*. Estimate \$500 - 750
- 6799 ☒ **(1978), "Flightless" Salyut-6 but lovely**, despite signatures attesting to transport to the Salyut-6 space station these 6 items never left Earth; while the cancels appear genuine, they were applied after landing and do not warrant a flown premium; beautiful nonetheless and with a total of 7 autographs of cosmonauts who have "been there" including; **Grechko** and **Romanenko** (Soyuz 26), as well as **Dzhanibekov** and **Makarov** (Soyuz 27). Estimate \$500 - 750
- 6800 ☒ **Earthbound but lovely**, 14 covers with space cancels (1 Salyut-6, 10 Salyut 7, and 3 MIR) that never left home; applied on return of the cosmonauts, they are attractive nonetheless; a total of 10 autographs are included; well worth a look. Estimate \$300 - 400
- 6801 ☒ **Prelaunch crew photo autographed by Deshurov & Strekalov (Soviet) and Thagard (American) boldly signed on 6 x 4.75" black and white**, realized \$95 in Superior/A-Mark's October 1996 sale. Estimate \$100 - 150

Estimate \$5,000 - 7,500
- 6803 **Awesome holding of autographed photos and postcards**, your chance to possess the dealer's complete stock of autographed photographs and postcards; mild to moderate duplication perfect for sales on the internet; expect excellent condition with many sporting stamps and appropriate cancels; 247 with a single signature; 41 with both of the crew; 45 when the crew had three; a total of 333 items and 464 autographs; good money to be made here (photo on web site). Estimate \$5,000 - 7,500
- 6804 **Massive holding of full-sized period photographs autographed by the crews**, two volumes of full-sized crew signed autographs with mild to moderate duplication; well annotated with mission numbers and cosmonaut names; expect excellent condition throughout; includes 4 singles, 83 two crew photos, and 62 three signature items; total of 149 photos with 356 autographs; bonus, **Tolboyev** (Buran test pilot) hand written letter on Star City letterhead written in English, and four small pennants reportedly flown (no onboard mark observed) (photo on web site). Estimate \$4,000 - 6,000
- 6805 **Mezhdunarodnaya Kniga autographed covers**, love them or hate them, they are a fixture of Soviet astrophilately; many come with certificates (though meaningless without serial numbers or photocopies of the actual item) and some are autographed but sold with franking uncanceled; this lot includes, **Gagarin, Titov (3), Popovich, Bykovsky (2), Tereshkova, Beregovoi (2), Shonin, Kubassov, Philipchenko, Gorbatko, Statalov, Eliseev, Belyayev & Leonov (9), Komarov, Feoktistov and Yegorov (12), Shatalov, Volynov, Ellisayev and Khrunov (12), Sarafano, Demin, Shonin, Kubasov, Shatalov and Yeliseyev**; 59 covers include the scarce "Not For Sale" Buran shuttle cover; lots of value in the Voskhod 1 and 2 material. Estimate \$3,500 - 5,000
- 6806 **Massive holding of autographed stamps and souvenir sheets**, 138 stamps and souvenir sheets individually autographed; minimal duplication but enough so a dealer could construct some nice sets; all are post office fresh; include a scarce Volkov who perished on Soyuz 11; watch out eBay! (photo on web site) Estimate \$3,000 - 4,000

- 6837 ☒ **tracking and data relay ships, 1980-91**, one of the least studied aspects of Soviet Astrophilately; since radio waves are line of sight, both Russian and American space programs, particularly before reliable satellite relay networks, required these capabilities at sea; few collections have these scarcely encountered tracking ship covers; includes, *Kosmonaut Vladimir Komarov, Akademik Sergei Korolev, Kosmonaut Yuri Gagarin, Kosmonaut Viktor Patsaev, Kosmonaut Georgy Dobrovolsky, Kosmonaut Pavel Belyaev, Kosmonaut Vladislav Volkov*, and perhaps others; a sizable number are addressed and have receiver marks on the reverse; at least a dozen are on shipping line stationery; the right specialist with seize this opportunity and armed with the reference by Reichman and Bartos, create a definitive collection; 188 envelopes in total. Estimate \$500 - 750
- 6838 ☒ **Soviet Union, earliest space related covers, 1957-1961**, green Sputnik (1992) FDC, postmarked Nov 4 (Scott reports Nov 5th), blue Sputnik (1993), meteor (1995) with commemorative Vosagi 1958 cancel, IGY issues (2089-91) on first day of assembly of the Csagi in Moscow (beautiful covers), 2 sets of symbolic figure greeting Sputnik (2032-35) FDC, stunning 2000 orbit postmarks (1958) with symbolic figure and Sputnik stamps, two oversized registered covers with 7 stamps addressed to NY dealer dated Nov 1957, registered cover with no address (other than USA) with NY Jun 1958 receiving mark, IGY outer space observatory; bonus Soyuz TM-7 docking cover with strong onboard cancel (FLOWN?) but sans customary autographs; 28 very nice items. Estimate \$500 - 750
- 6839 ☒ **earliest space postmarks, 1957-61**, very similar to previous lot; available stock divided so a second specialist can partake; this one includes, 40k meteor stamp with bold Oct 4, 1957 Moscow postmark (backdated), two examples of Tsiolkovsky stamp overprinted with Sputnik (2021), and the scarce red squared "C" Gagarin postmark on a portrait postcard; this lot has 30 items. Estimate \$500 - 750
- 6840 ☒ **philatelic club and commemorative cancels, 1980-91**, two trays of every conceivable commemorative space postmark in every known color; this was part of the holdings used to create the Reichman reference books; superb condition and in plastic sleeves; ready for market; 600+ covers (photo on web site). Estimate \$500 - 750
- 6841 **Massive press conference in Russia**, ten cosmonauts are seen in this press event; most are in civilian attire while two are in military dress; some of the autographs noted include, **Romanenko, Dzhaniybekov, Ivanchenkov, Bykovsky, Rukavishnikov, Kubasov, Leonov**, and three others; all are crisp signatures; a wonderful old school showpiece; a very faint 1 inch crease noted in the upper left corner. Estimate \$400 - 600

**6842** ☒ **4 binders of Soviet nuclear related material, IAEA registered and express covers, mint singles, blocks, imperfs and proofs, Portuguese inverted overprint; nuclear reactors, French stamp, imperf, and proof, nice CERN material, Madagascar proof; Russia nuclear, mostly mint entires, international conference on high energy physics, mint stamps and blocks; Russia atoms, matching stamps, blocks and FDCs, unused entires of scientifics and nuclear facilities;**

Estimate \$400 - 600

**6843** **Photograph of 11 cosmonauts in uniform autographed beneath, pilots from the mid to late Vostok series to the beginning of Soyuz; includes the first woman in space and the first man to walk in space, signatures remain bright, attractive piece.**

Estimate \$400 - 600

**6844** ☒ **Soviet anniversaries, entires and meters, 6 binders of Soviet space including; Anniversaries, about 70 very clean envelopes with well curated anniversary postmarks honoring Sputnik, Gagarin, Korolev, space expos, etc, many are postally used, includes 20 striking numbered gold Gagarin S/S on cover; Misc space, interesting binder with what claims are first genuine use at Star City (1972) and first at Baikonur (1975), proof strike for Kapustin Yar (1977), first day in Leninsk (1978), a Moscow 4 Oct 57 (assumed backdated), a dozen cosmonaut stationery envelopes (most postally used), several meter covers, potentially a slim but important binder; Meter Cancels, meter pictorials from the US, Germany, France, Netherlands and Italy, not very inspiring; Soyuz, stamps, blocks and covers from Cuba, Bulgaria, Russia and Hungary, Romanian minisheet, Hungary sheetlet, imperf, imperf sheet on cover, crew signed launch cover, numerous Kniga and Space Voyager cachets; Soviet entires, first 40 or so are pristine condition 1960's envelopes showing classic cachets, while there are a half dozen postmarked items most are mint entires, the last 50 or so are rather boring; Cosmonaut anniversaries, about 80 european show covers of mixed quality, postmarks are generally well struck, cachets are generally uninspiring artistically and are of mixed production quality; the first, second and fourth binders carry this lot (photo on web site).**

Estimate \$400 - 600

**6845** ☒ **Premier space dealer's Soviet covers, more than a thousand here; some late 1950s to early 1960s and a few postally used but most is 1970-2000; as a supplier to collector for decades he often obtained perhaps 6-12 of a cachet or postmark and put then in a sleeve; extensive city cancels, flight sets, FDCs; very saleable stock for someone with the right clients (photo on web site).**

Estimate \$350 - 500

**6846** **Soviet/Russian military medals and devices, Veteran of Space Troops (1992), Veteran of Service, Veteran of Launching place Baikonur, 80 years from the birthday of Korolev, Medal of Chelomey, 75 years from the birthday of Korolev, Medal of Makeev, Kozolev's Medal; and various unidentified items; 19 in total.**

Estimate \$300 - 400

**6847** ☒ **Well mixed postcards heroic to modern, a significant number in these two cartons are 1958-62 era in excellent condition, numerous Gagarin, dogs, communist rockets to the Moon, and the like, a strong early collection can be drawn from this lot; there are also many that are franked and have attractive commemorative cancels, most are not postally used and expect condition to be above average; Kniga published space sets of which there are several here; vast majority in this lot is highly useful with very little junk (photo on web site).**

Estimate \$300 - 400

**6848** ★☒ **Bankers Box of mint Soviet entires, 1960-1991, 1000+ entires, postal cards and aerogrammes; extremely clean dealer's lot; wonderful assortment of subjects with each cachet bundled in groups of about 5-10; occasional overprint (scarce) noted on postal cards; about 10 percent are airmail; will make a very happy specialist or a dealer looking for solid stock (photo on web site).**

Estimate \$300 - 400

- 6850**      **First picture from the far side of the Moon**, to celebrate the accomplishment of successfully imaging the dark side of the Moon with Luna 3, a limited number of photographic 4x6" prints were created; Academician **Dobronrovov** served as the official representing the first space results of the USSR; beautifully autographed in blue; a striking item, pristine condition item. Estimate \$200 - 300
- 6851** ☒      **Reference collection of Soviet fakes and forgeries**, useful lot containing bogus signatures and station marks; fakes include Leonov, Kubasov, Komarov, Bykovsky, Tamayo, Popov and Afanasiyev; two covers with faked Salyut-6 onboard marks are included (one of them has four good signatures); 19 pieces in all. Estimate \$200 - 300
- 6852**      **Not your run of the mill photographs**, 18 photographs, of varying sizes of cosmonauts; mostly of Gagarin and Tereskova with other cosmonauts; some formal but many informal or a personal nature; a few really lovely shots of Valentina; of particular interest is an informal image of her talking with senior military officers in a classroom designed to teach jet engine or rocket technology; on the reverse are five paragraphs (in Russian); it appears to explain the rank and positions of the officers in the photo; a wonderful collection. Estimate \$200 - 300

**EX 6854**

- 6853**      **1972, Soviet space series signed by first man to walk in space, (4007-12)**, six mini sheets of six stamps each; all have commemorative Moscow cancellation; series of 6k stamps include R-7 launch, Sputnik, probe to Mars, spacewalk, Luna 1, and capsule recovery. each sheet is boldly autographed by both **Andrei Sokolov** and **Alexei Leonov**; 36 stamps and 12 autographs in all. Estimate \$200 - 300
- 6854** ☒      **Suspect cancels and signatures from Gagarin to Salyut-6**, grouping consists of one postcard and four envelopes; the postcard shows a collection of space stamps with a 3k stamp on the reverse postmarked in Moscow on the 1st anniversary of his flight and the Gagarin signature above is forged; two of the envelopes are better covers with Vostok-1 postmarks (the uncommon Type 2 struck on 13-14 April) but sadly the Gagarin signatures again are forgeries; the remaining two covers are also good but misleading, they have orbital markings that were applied on Earth; on the plus side they both have genuine autographs of **Kovalyonok** and **Savinykh** (Soyuz T-4) as well as **Dzhanibekov** and **Gurragchaa** (Suyuz 39); a total of 5 items and 8 genuine autographs. Michel BL.111. Estimate \$200 - 300
- 6856 ☒ **Buran-Energia launch cover mystery FLOWN?** during STS-8, over 260,000 envelopes were carried for collectors; Energia planned to transport 9,000 for collectors and had the envelopes placed onboard the Soviet shuttle; the envelopes, each with a serial number, was removed and not carried into space; a much smaller, but undetermined number (not serialized) were marked “Not For Sale” on the reverse; a rumor exists that they may have been in the cabin (like the first 1000 STS covers) and forgotten; did they fly? probably not; you get one with a serial number (1571) and one “Not For Sale”. Estimate \$200 - 300
- 6857 ☒ **Soviet Buran shuttle cover and the mystery “Not For Sale”,** was the unserialized “Not For Sale” a VIP favor “mistakenly” flown in the only flight of the Soviet shuttle program?; your chance to own one of the 9000 serialized (1572) and one of the “Not For Sale” (quantity unknown); 1000 of the 261,000 American shuttle covers rode in the crew cabin; did any make it into orbit with the Russians? Estimate \$200 - 300
- 6858 ☒ **Kniga created tribute to the Soviet space shuttle,** one numbered (1573) out of 9000 created to be carried onboard; they were removed before flight and were not carried; what is less clear are the “Not For Sale” variants without serial numbers; a rumor had them in the crew compartment not unlike the scant number carried up front during STS-8; you get one of each. Estimate \$200 - 300
- 6859 **4 string toy mandolin with the body and neck covered in glittering enamel,** R-7 blasts off on this fanciful toy handcrafted (1960’s?) of wood; plenty of glitter, Leos personal musical instrument. Estimate \$200 - 300
- 6860 **“Soyuz at Start” multimedia 3D diorama by artist V Ruban,** black velvet on Masonite, spraypainted, with half an R-7 coming out of the blackness (clay?); painted and ready for display; great condition; overall 7x10 in size; bonus, brass rocket shaped item on a small wood base, says “space” on the bottom but it is really a 50 caliber bullet made into a lighter (inoperable). Estimate \$200 - 300
- 6861 **Zotner Soviet/Russian samovar (tea service) painted with space theme,** created for Moscow tourists in the 1980’s this colorful set shows the R-7 booster lifting off the launch pad; would look nice on your shelf. Estimate \$200 - 300
- 6862 **Soviet/Russian program medallions,** 17 items ranging in size from a half dollar to silver dollar; appear to be from the mid 1960’s to mid 1980’s; as you might suspect, Gagarin, Korolev, and Tsiolkovsky. Estimate \$200 - 300

## Grading and Condition

Superb	Extraordinary item in the finest condition
Extremely Fine	Outstanding and exceptional quality
Fine-Very Fine (F-VF)	Stamp and/or cover in sound condition; if a stamp, it is less well-centered than Very Fine but better centered than Fine.
Fine	Sound in all aspects. Perforated stamps will have the perforations clear of the design; the designs of imperforate stamps will not be cut into to any significant degree.
Very Good (VG)	Imperfect centering (stamps) or poor general appearance.

### Covers & Cancels

Minor imperfections, including but not limited to nicks, edge or flap tears or slight reductions are normal conditions for 19th-century envelopes that have been postally transmitted. Folded letters would have at least one file fold. Acceptable forms of conservation include light cleaning and edge mending. Covers may have an ordinary stamp with a minor defect. The above exist on most 19th-century covers and are not always described and are therefore not grounds for return.

### Catalog Values

Unless otherwise noted, the currently available Scott Catalog values (2021 edition) are quoted in U.S. dollars and rounded to the nearest dollar. Other catalogues are often used for foreign countries or specialized areas as required.

### Collection Lots and Condition

Please note that ALL collection lots are sold on an "as-is" basis and are therefore not returnable for any reason. Every attempt has been made to provide an accurate description, and images for most are available on our website. Most collection lots will contain stamps/ covers with varying degrees of imperfections/faults. We strongly suggest that lots of interest be viewed in advance of the sale. Please also note that late payment for purchases may, at Daniel F. Kelleher's option, be considered just cause to revoke all return privileges.
