Grading and Condition

Covers

Minor imperfections are normal for 19th-century envelopes that have been postally transmitted. These include, but are not limited to, nicks, edge or flap tears, or slight reductions; folded letters will often have at least one file fold. Further, covers may have an ordinary stamp with a minor defect. Acceptable forms of conservation include light cleaning and edge mending. These conditions, even if not described, are not grounds for return.

Catalog Values

Unless otherwise noted, the currently available (2023 edition) Scott Catalogue values are quoted in U.S. dollars and rounded to the nearest dollar. Other catalogues are often used for foreign countries or specialized areas as required.

Collection Lots

Please note that *all* collection lots are sold on an “as-is” basis and therefore **not returnable for any reason**. Every attempt has been made to provide an accurate description, and extensive imaging is available on our website. Most collection lots will contain stamps and/or covers with varying imperfections or faults. We strongly suggest that all lots of interest be viewed in advance of the sale.

Introduction

Our end-of-year Collection Sale 793 features many valuable, intact consignments with several standouts:

- The Bill Hamilton multi-generational Collection of the World, in Scott Specialty albums as formed by the collector and his father, including numerous examples, varieties, cancels, and more.
- The “New Imperial Album” British Collection—so enticing we placed it in its own separate section—leads off the British.
- The immense Show-Stopping A & D Stamp & Coin Stock as formed by Jim Dempsey.
- The Falmouth Stamp & Coin Stock and Private Holdings Part I.
- A mammoth holding from a well-known retailer from the 1980s, which includes the largest-ever Disney topical stock and a dozen or so incredible mint set and souvenir sheet lots.

These are by far the largest stock lots we have had the pleasure to bring to market.

There are a plethora of other estates and consignments with large intact collections, stocks and accumulations, starting with United States stamps, face value holdings, and specialty collections ranging from Proofs & Essays to Back-of-the-Book, FDCs and Postal History; Great Britain & Commonwealth, Europe & Colonies Issues, Scandinavia, Asia, Middle East and Africa.

We have done our best to post online images of as much of these collections as we could, but some of these behemoths need to be seen to be believed, making an in-person or live FaceTime viewing essential. We will accommodate as much of this as we can, but obviously space and times are limited, so contact us as early as possible to arrange either.

Please note that late payment for purchases may, at Daniel F. Kelleher's option, be considered just cause to revoke all return privileges.

Featured Collections

Bill Hamilton

Bill Hamilton was born in Pennsylvania in 1941 and started collecting stamps in 1948. He graduated from Monsignor Bonner High School, and won a gold medal in the 1 Meter Diving Event in the Jr Olympics in 1958. Bill continued to dive at The University of Pennsylvania where he was a member of Sigma Chi and earned both BA and MA degrees in European History. Bill served as a LTJG in the US Navy from 1964-1966, after which he attended Harvard Business School. Bill spent his entire career as a partner and investment analyst at State Street Research and Management Company in Boston. He retired in 2002 and spent the last 20 years of his life dedicated to rounding out his extensive stamp collection.

Bill was a lover of reading and discussing history, but above all else, he was an avid traveler and prolific stamp collector. Travel to Bill was education and he managed, over the course of his lifetime, to take his family to visit every continent, including both poles. Not only did he make it his life's goal to travel the world, it was his aspiration to collect every stamp ever issued from every country. He was a man on a mission in his final years, filling in the gaps when he was not on the road, reaching out to collectors from all over the globe and gathering stamps from international auctions.

This extensive collection is a tribute to Bill spanning 75 years of dedication. It represents his meticulous, curated care and attention to detail. It is his family's wish that whomever is lucky enough to get pieces or all of this collection love and care for it the way he did.

Hamilton Collection

Delve into a captivating journey of world history with the expansive, multi-generational "Hamilton" collection. Carefully curated and housed in nearly 200 meticulously assembled and preserved, well-filled, bulging-at-the-seams Scott Specialty Albums. Not only is the entire world represented, but this extraordinary assembly reflects the intricate tapestry of cultures and events as uniquely told through postage stamps. Traders and collectors alike will delight in acquiring intact collections from this storied estate.

Jim Dempsey

A & D Stamp and Coin Stock of Postage Stamps

Kelleher Auctions has been chosen by the new owner of the Jim Dempsey, A & D Stamp and Coin Stock of Postage Stamps (as pictured) to offer their inventory at public sale. Intact sections from this fabled stock, one of the last of the grand show dealer's, will be sold at public auction in this sale. A once-in-a-lifetime opportunity to acquire a turn-key stock in several areas. We are not aware of a show stock of this scope, size and value ever being offered in the marketplace at public auction.

Featured Biographies

David C. Steinberg

David C. Steinberg was born on December 29, 1942 in West Philadelphia, PA. About 7 years later his mother, father and older sister moved to the suburbs of Philadelphia. He got involved first as a Cub Scout and then a Boy Scout and achieved the rank of Eagle Scout. While working on achieving the needed Merit badges, he started to read about stamps and earned a merit badge in Stamp Collecting. After graduating from High School, he attended Drexel Institute of Technology (now Drexel University) and earned a BS degree in Chemistry. He got married to his first wife and moved to New Jersey, after he received his MBA from Pace University.

In 1969 he started working in the chemistry of making cosmetics. He had two sons before he and his wife divorced. After living alone, he started looking at the limited number of stamps that he had. Some were from his father and some from his uncle. He now had the time to obtain stamps.

He remarried and had a third son who is profoundly developmentally disabled. This allowed some time while taking care of him to go back to stamp collecting. He founded the Master's degree in Cosmetic Science and taught for 18 years.

After 30 years in industry, he decided to start his own consulting business. As he worked from home, he now had the time to spend on collecting stamps from the US and Israel. As his business grew and was successful, he was able to obtain difficult stamps such as the complete mint stamps from the US produced on blueish paper.

On turning 75, he and his wife sold their house and moved to retirement complex in northern NJ.

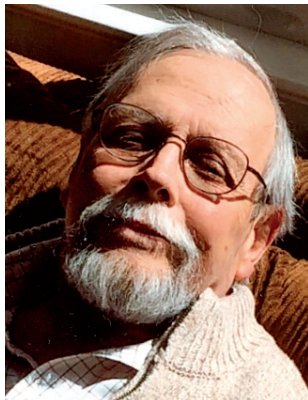

John F. Fanselow

John became interested in stamps because when he went to his Uncle Joe's and Aunt Laura's for supper, after the meal his uncle showed him some of his stamps. One result of this was John, who was a Boy Scout, earned a Merit Badge in Stamps Collection. His uncle showed him more and more stamps when he went to their home for dinner.

When his uncle died in 1958, the collection John inherited was worth \$80,000.

John was a Professor at Columbia University, Teachers College from 1996 to 2013 when he became Professor Emeritus. In 2005 The President of Columbia University, Teachers College, Arthur Levine, presented John with the Columbia University, Teachers College Distinguished Alumni Award.

Richard Crane

Richard Crane, a Vietnam-era Marine and career police officer, died in Rochester NY after a lengthy battle with kidney disease caused by exposure to contaminated water while stationed at Camp Lejeune. His dream was to be a professor of literature (he studied English at SUNY Geneseo) but he became the oldest rookie cop to successfully graduate from Rochester Police Academy. He patrolled the roughest area of the city on the nightshift & was recognized with over 100 Excellent Police Service Awards, and the Henry H Jensen Memorial Award for "unsung heroes". His hobby and passion were collecting stamps, car models, trains and he always loved reading books, watching good movies. Richard was a very intelligent, kind man with an amazing sense of humor who loved life, his 3 daughters (Nicole, Carrie and Celia), stepson Yuri, his grandchildren Lily and Jack and wife Galina. His stamp collection will continue leaving and giving joy and happiness to others.

Ronald James Coppola

Ronald James Coppola was born July 15, 1939 in Belleville, New Jersey. As a teen, he discovered many fascinating hobbies. His fondness for refinishing antique cars and collecting stamps became true lifelong endeavors.

His work ethic began early. At the age of nine, he developed a serious plan to earn money. Each day, Ron walked his wagon to the town market. When ladies exited the store with groceries, he asked if they needed help getting their packages home. For 10 cents, he walked them and their groceries from store to door.

From 1963 until 1965, Ron served in the U.S. Army. He was stationed in Fort Richardson, Alaska and was present during the Great Alaska Earthquake. He often spoke of it and felt sheer luck helped him get through without incident. Due to his vast knowledge of phone installation/repair, he was assigned the job of installing all new phone systems and intercoms for the base. Sometime in 2019, for old time sake, he tried on his old Army uniform and was so pleased to see it still fit...thus the photo.

- 2026 “Outside the Box” Stupendous Modern Mint Collection, 1935-2021**, There are collectors whose sole goal is to fill every blank spot in their album, not that’s anything wrong to this approach. But then there’s a collector, like the owner of this one, who added imagination and color by inserting sheets, errors and other varieties. In nine, like-new, hingeless Lighthouse albums, a modern mint collection of the highest order, complete to 2010 and only missing a few in the last decade. This includes the many Scott-listed perf & die cut varieties, imperfs, phosphor varieties, and most of the miniature sheets, even the high denominations, such as the express mail stamps, which push the total face on this lot to the outer limits. Coils are collected in line pairs, and it’s no accident that just about every coil in the modern era sports a plate number. And here are just some of the errors featured in this lot: a vertical pair imperf between of #966a, imperf line pair of 1299b, a wild misperf on 1603 in a block of 20, and a double impression of the inscription on 2818a which is unpriced in Scott. Other better items include 803-34, 832-34 (center line blocks), 832-34 (plate blocks), 839-51 (line pairs), 1789Pg (proof of the John Paul Jones stamp in a pair), 2283c, 2967 (2 cross gutter blocks of 8), 3138, 4075 (uncut press sheet), and an exploded booklet of 4806 with proofs & die wipes. And let’s not forget those high-value miniature sheets, the following in panes of 20: 2419, 2482 (2), 2544A, 2590-92, 2870 (2, one in sealed commemorative folder), 3095b (special die cutting), 3647A-48, 4018-19, 4144-45, 4268-69, 4378-79, 4438-39, 4511. And panes of 10 of 4717-20 & 4738-39. Also, some autographed covers including a letter with the signature of Gerald Ford during the time he was president. A big round of applause for the person who put this collection together! Very Fine, additional images online. Shipping charges apply - weight 62 lbs. (photo on web site) Estimate \$3,500 - 5,000

Post-WWII Occupations: Allied Occupation/Bizone

- 2600 Allied Occupation, “Variety Show” Riveting Mint Collection with Varieties, 1945-49,** If you open up the Scott catalogue, a complete mint collection of the A.M.G. issue doesn’t add up to all that much. But as any specialist armed with a Michel catalogue knows, there is way more to this issue and this lot explores the numerous varieties in color, gum and paper. Of course, there are the various perforations too, and some of these compounds can be quite scarce, such as one in this particular lot, MiNr. 32aCz (certified by Joe Bush). There are also some major misperfs and double perfs, as well as some eye-opening forgeries, like a tête-bêche sheetlet of the 8pf and a sheetlet of nine of the 80pf created by Peter Winter. And if you’re also interested in blocks, we’ve got a bunch of them here, three additional volumes to be exact, two of which are for corner & inscription blocks, and the other for plate blocks, here too with a wide range of varieties in gum & paper, and diagrams pin-pointing the various plate flaws. A total of five hingeless Lindner albums in this engaging look at the storied issue, generally Fine to Very Fine, video flips of this entire collection can be accessed online. Shipping charges apply - weight 21.6 lbs. (photo on web site) Estimate \$1,500 - 2,000
- 2601 Allied Occupation, Engrossing Used A.M.G. Collection with Covers, 1945-49,** Beautiful and meticulously laid-out collection in four hingeless Lindner albums, one volume housing a powerful used collection with plentiful varieties and three volumes with approximately 100 covers and additional unused postal stationery. Complete as far as the Scott listings, but open up the Michel catalogue, and things start to get really interesting. For the Washington printing, you will encounter such things as a double impression of the 3pf (MiNr. 1DD) and a variety of plate flaws, such as 3 III, 3 IV, 8 I, 8 III, 8 IV, all with certs. And if you thought there were no expensive varieties of the London printing, once again drill down to the sub-varieties in the Michel catalogue. Given the perf & paper variations, there will inevitably be better, and some are here, like 10Gy & 13Gy (both signed). The same goes for the Brunswick printing with 24Cz & 26bDz, both of these signed as well. And if you’re into the postal history of post-WWII Germany, this is a collection to treasure with the vast majority of covers diligently described. Some covers of note include a registered, cash-on-delivery return receipt letter with mixed printings of the AMG issue along with the 84pf from the *Kontrollrat* issue, another with a complete set of the Washington printing on a registered letter to Hamburg along with four Strausberg locals, and yet another registered letter, this one censored by the British and mailed the last day of authorized use of the AMG stamps, franked with a 60pf Brunswick printing along with two values from the *Kontrollrat* issue. Video flips of this entire collection can be accessed online, generally Fine to Very Fine. Shipping charges apply - weight 18.4 lbs. (photo on web site) Estimate \$1,500 - 2,000

Federal Republic

- 2603 Germany: Federal Republic, “Mental Block” Mind-Numbing Mint & Used Block Collection, 1949-2017,** Beautifully presented in 25 volumes of hingeless Lindners, a MNH collection of many 1000’s of blocks, most in duplication with either various plate positions or marginal markings, such as *Hausauftragsnummer* (HAN numbers) or with *Reihenwertzahl* (total value of row). Many full sheets too, and once we hit the 1990s, the highly collectible *Zehnerbogen* (blocks of ten). 100’s upon 100’s of used blocks as well, and for many of the earlier definitives, this brings up the topic of *Waagerechte Paare* (horizontal pairs) which sell at a premium. Better mint blocks include #679-82, B310-13, B320-23, B327-30, B332-33, B334-37, B338-41, C61-64. Just looking at the Heuss issue alone, we found such better as MiNr. H-BI. 8X, WZ 15aIIIIY, and large portions of *Markenheftchenbogen*, like a block of 40 from MHB 5. In addition, a stockbook filled with many 100’s more both mint & used. Lots like this don’t come around every day, and you can have a good look at it online, overall Very Fine. - 2606 Germany: Federal Republic, “Meisterhaft” MNH Specialized Collection, 1949-2002**, West German collections don’t get much better than this. The main collection, laid out in Michel order in two Lighthouse stockbooks looks to be complete to 1994, and from then on, the souvenir sheets, both mint & used. And after numerous spot checks, not a single hinged stamp was to be found. On top of that, what really makes this collection special is the handling of the regular issues; not only are they complete (yes, the Posthorns are here), but also coils in strips of five, horizontal pairs, tête-bêche, booklet panes, and various *zusammendrucke*. Take the Heuss issue, for example; it’s all here including the strips with control number (MiNr. 179R-86R, 260R, 263R), the panes, the relevant horizontal pairs and 50 different se-tenant combinations. Other highlights by Scott number include #665-66, 667-68, 669, 670-85, 671a, 675a, 686, 693, 698-701, 702-21, B310-13, B314-15, B316-17, B318-19, B320-23, B327-30, B334-37. Another binder is filled with complete booklets with such better as MiNr. MH 2-4, MH 6d-6g, etc. The final binder consists of stamps and covers commemorating the last days of the DDR and the reunification of Germany in 1990. And a Scott catalogue simply won’t cut it for a holding like this; the first issue alone (Scott #O1-27) takes up more than an entire volume with variations on the watermark, emblem type and perfs, as well as spaces for mint, postally used and CTO. We then get into the **ZKD** issues (Zentraler Kurierdienst) and much of this will be uncharted territory, even for many who already collect the DDR. The **ZKDs** extend over multiple volumes with specialization in the 4-digit control numbers and many higher-priced items to be found throughout, for example, a used **VD** (Vertrauliche Dienstsachen) #2 with a BPP certificate, and mint & used copies of **ZU** (Zustellungsurkunde) #1. Also, an extensive collection of register labels used for official use, and four of the eleven volumes housing a collection of over 200 covers, the vast majority meticulously described with all pertinent information. And if you are into *Zusammendrucke*, three volumes of it almost entirely complete for every possible configuration. There’s a volume with 30 full sheets, among them mint 2832-40 including the two *Markenheftchenbogen* from this series (MiNr. - 2701 Philippines, 1898 2m orange brown, an incredible complete bundle of 500 sheets (Scott 193)**, of 100 stamps each with serial numbers 0006001 to 006500 at top right with original Spanish post office printed label affixed and bundled by original string which has worn through the labels on both sides and the cardboard covers at the edges, the stamps are basically stuck together and are in fine condition but it doesn't matter because this is the only complete bundle of any Spanish Philippines stamp extant, it is stunning that this museum worthy artifact has survived intact for 125 years, Very Fine, According to an article by Don Peterson and Richard Miggins that appeared in the Third Quarter 2016 Philippine Philatelic Journal, the bundle was shipped from the National Stamp Factory in Madrid to Manila in late 1897 and sales began on January 1, 1898. They wrote, "According to Bartels et al. (1904), 700,000 of these stamps were printed and shipped to Manila (meaning) a total of 14 separate bundles the number "13" was written at the top of this bundle. Also, the 2m was issued to pay the newspaper rate to Spain and its colonies, and since the use of Spanish stamps in the Philippines was abruptly ended in June 1898, there surely were many leftovers of this issue in the post office where, presumably the stamps remained in their bundles waiting for use. - 2729 Switzerland, Awe-inspiring Mint & Used Stock from the Land of Chocolate, 1846-2010**, Absolutely incredible holding of 20 counter books from a long-time stamp dealer who specialized in Switzerland, and stored in an old suitcase, which would not look out of place in the museum at Ellis Island. Also, rarely-seen semi-official airmails, such as the following by Zumstein number: mint IVa, V, XI (2), and used III (2, one on piece), V (on piece). One volume houses Scott-unlisted material, like various Zusammendrucke, coils with control number, and the 1912 semi-postal forerunners in all three languages (Zumstein I-III) including two more mint singles of the Italian stamps and three seldom-seen used copies of the stamp in German. Yet another volume has dozens of **plate varieties**, such as 308 with a missing spoke on the locomotive's rear wheel (Zumstein 277.2.01 with certificate) and 190 with the black print shifted to the right (Zumstein 143.1.11). It's not every day Swiss stock of this caliber comes along, and not even figuring in the modern material, the catalogue value is around the **\$275,000** mark. Land this holding and you'll be set for life! overall Fine to Very Fine, additional images online. Shipping charges apply - weight 22 lbs. (photo on web site) Estimate \$25,000 - 35,000
- 2730 Switzerland, "Die Basler Taube" Stellar Mint & Used Stock with Many Big-Tag Items, 1845-2002**, Ten binders of manila stocksheets with stamps in Scott catalogue order and generally MNH to the left, MH in the center, and used to the right. And the reason we gave this lot that particular title, there is in fact a genuine **Basel Dove** (#3L1) with an accompanying certificate. As a matter of fact, there are 23 other stamps with certificates, such as used 7a, 11, 63, 66 (3, each with certs), 67, 68, and this one binder alone catalogs at approximately \$38,000. But wait, there's more, much more! Another binder of **Rayons, Strubels, Sitting & Standing Helvetias** and other classics could possibly even double that. To give you an idea, here are some used stamps and quantities from that binder: 19 (7), 20 (21), 21 (14), 22 (12), 23 (16), 24 (12), 26 (9), 29 (15), 30 (8), 31 (10), 32 (6), 33-34 (5), 35 (8), 42 (12), 48 (6), 50 (16), 58 (14), etc. Also, a complete MNH set of the 1912 **Pro Juventute forerunners** (Zumstein I-III) with certificate, along with another mint copy of the Italian stamp and two of the French, a page of identified forgeries, a binder strictly for **officials** with such better as mint 1O9-16 (signed Watzlawick), 5O6-25, 7O1-20, and used 5O6-25, 7O1-20. And if you're into **varieties**, there's quite a bit to sink your teeth into with a small box of "102" cards and circuit book pages filled with plate varieties, coils with control number, etc. and in one of the binders, a number of high-value items, such as the "blind eye" variety of the 30¢ Olympic Jubilee (Zumstein 261w.3.01). An absolutely incredible holding with catalogue value in the upper stratosphere, overall Fine to Very Fine, additional photos online but personal inspection still recommended. Shipping charges apply - weight 47 lbs. (photo on web site) Estimate \$12,000 - 18,000

Extensive **Sitting & Standing Helvetias** along with a wide range of variants, from paper and watermark types found in the Scott Classic to many **plate flaws** listed only in Zumstein or Michel and many cataloging 100’s of CHF each. Many very scare **gutter pairs**, such as the following by Zumstein number: mint S8 (2), S9, S12 (2), S43, used S17, S44-46, S49Ay (4), S49Az (3). Other items not seen everyday include the official forerunners for the **International Bureau of Education** with ten mint/used examples, like Zumstein used IV (2) and VII on piece, **telegraph stamps** mint 1, 2 (2), 3, 9, 12, used 2, 8-9 (2), 10 (3), 11, 19, an excellent assortment of **Framas** including the world’s first from 1976 with five complete sets mint and two used, very rarely-seen **Hotelpost** with two 4-margin copies of the Belalp 5¢ violet and others including Maderaner Tal, Rigi-Kaltbad and Kurort Stoos, a whole section on **perfin** notated by rarity level, and three copies of the 1871 **Franchise** forerunner. - 2732 Switzerland, Powerful, Mainly Used Collection Balance, 1845-1971**, Many hundreds in a packed *Biella* Album with blank pages added as needed. Loaded with high value stamps including (used unless noted) 1L2, 1L5, 2L2, 2L6 (one used one unused), 2LU1, 3L1 (three small margins, large thin), 1 (3), 2 (2), 8 (6), 10 (6), 11 & 13, followed by four pages of “Strubels” - more than 110 stamps and four covers - all allegedly identified by Scott number, *but a large percentage incorrectly so*. nonetheless, there a number of nice stamps mixed in among the average examples. The rest of the book is pretty solidly filled with both Seated and Standing Helvetias - **and virtually everything else** - well represented. A few better numbers include (mint unless noted) #50 (2 used), 87 (LH), 189v (open “8”, used, Zum. €400), NABA sheet (LH), B80 on cover (reduced margins), B143 (used & on cover), etc., etc. etc., with the Semi-Postals and Airmails being virtually complete, the Postage Dues and Officials more scattered (though we do note 101-1016 mint LH). Now, as to condition: the Cantonals, Orts-Poste & Post-Locales are all faulty, though some are only moderately so and many at least *appear* F-VF; the Rayons are mixed but several are F-VF, and the “Strubels” are the same, with a good percentage being F-VF. From there on, just about everything is clean and F-VF, and there are lots of covers and nice plate varieties mixed throughout. All-in-all, a very worthwhile lot. Scott value is over \$60,000. Shipping charges apply - weight 7.2 lbs. (photo on web site) Estimate \$5,000 - 7,500

Dealers Stocks

- 2854 Worldwide, Show Stopping, Incomprehensible A&D Mint & Used Stock**, housed in 574 red boxes, with custom fitted wooden boxes, filled and intact from A to Z, regular solid Countries and their Colonies and Offices are all represented, British, French, German, Italian, are all present, this is not your typical red box lot as each item (over 400,000 items in total, likely \$20,000 + are items of individual value \$1 to \$50 retail and comprise the great majority of the value, estiamted at \$2,000,000.00 +) each item is meticulously identified, graded by quality and priced on 102 cards and includes a superb run of modern singles and sets priced to about \$50 an item with minimal quantities, usually 3 to 5 when present, whose aggregate face value alone is substantial. The owner ran adding machine tape totals on 145 of the boxes and interpolated the **retail value in excess of \$2,600,000.00 which would catalog over \$3,000,000.00**, his logic seemed plausible, items average \$5+ a card for those calculated, as many are under \$5 each, one would want to vastly discount these, 5% comprises 75% of the overall value, as just about every Country is represented, sans US and Canada (those stocks were maintained separately and are offered herein as well). This is a turn key operation and would be excellent for any enterprising reseller, be it at the shows, retail-store, price listings or internet. Note that none of this material was presented online and would prove to be a treasure trove for online sellers, nor has it been picked-over, for example Asia is intact, and as this dealer didn't discount his pricing, it is still a stock well in its prime. We invite your inspection and cannot imagine another stock of this magintude with such a high degree of work already done and ready for resale, generally Fine to Very Fine or better, ex A&D Stamps and Coins Stock. Topical Collections

- 2874 Worldwide, “The Mickey Mouse Club” Anything & Everything Disney, 1968-2000s**, Iconic cartoon characters Mickey, Donald, Goofy and the like are so immediately recognizable, they have become so embedded into American culture, dare we even say, right up there with baseball and apple pie. And Disney memorabilia is still so highly sought after, even many non-stamp collectors collect Disney stamps. It all started in 1968 when the U.S. issued a stamp honoring Walt Disney, and just two years later, the microstate San Marino released a set of ten stamps featuring various Disney characters, and by then, the seed had been planted. Over the years, thousands of different stamps have been issued, and this holding is perhaps the largest ever offered at auction cataloging at many hundreds of thousands of dollars. Virtually all mint and in singles, blocks, souvenir sheets and full sheets. Some of it is in mild duplication, while others are still in “brick” format direct from the printers. You’ll also find various imperfs, progressive color proofs, hundreds if not thousands of FDCs, numerous commemorative sets, postal stationery, souvenir cards, stamp albums, and various movie poster and character collecting cards. As the saying goes, “You gotta collect ‘em all!” Large quantities from some of the most prolific stamp issuing entities include Antigua & Barbuda, Dominica, Grenada & the Grenadines, Maldives, Sierra Leone and St. Vincent. But it’s not just the British Commonwealth; plenty more from Benin, Bhutan, Liberia, Mongolia, Palau, Togo, and others. Even some suspect releases, like those of Tajikistan and the Republic of Somaliland, but some serious face value as well from Australia, Canada, Japan and others. No matter how you slice it, Disney sells and whoever manages to procure this lot for their inventory is set for life! overall Very Fine. (photo on web site) Estimate \$50,000 - 75,000

In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.

(c) A defaulting purchaser shall be deemed to have granted Kelleher a security interest in property in Kelleher's possession owned by such purchaser. Kelleher shall have all of the rights afforded a purchase money secured party under the Connecticut Uniform Commercial Code (UCC) with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Kelleher to such purchaser.
