# GP Batteries

## Power Solutions

Powerful and reliable, GP Batteries has remained at the forefront of battery manufacturing for over 50 years through sophisticated research and development, precise anticipation of consumer needs and close cooperation with retail partners.

As an expert in rechargeable technology and the leading consumer battery manufacturer in Asia outside Japan, GP Batteries produces batteries, Portable PowerBank and flashlights, which are ideal portable energy sources for a wide range of battery-powered devices, including portable electronics, wireless mouse and keyboard, toys and games, smoke detectors, flashlights, remote control, clocks, radios and more.

GP Batteries also makes a full range of miniature batteries for devices essential for improving the quality of life, such as hearing aids, medical devices, watches as well as calculators, electronic books, garage doors, keyless entry facilities and other small electronics.

High capacity, long service life, high drain performance and superior endurance make GP Batteries the best back-up for all battery powered devices. Produced and packaged in user-friendly format with multi-use adaptations, GP products ensure consumer acceptability.

## Ultra Alkaline

Specially designed for ever-growing number of battery powered devices, Ultra Alkaline delivers reliable portable power. There's a better chance to score top marks with Ultra Alkaline batteries with their longer operating time and unmatched performance on power hungry devices. Win increased customer satisfaction by providing the right support for leisure time devices.

### Features

- ★ Longer operating time
- ★ Up to 7 years shelf life
- ★ Complete line of AA, AAA, C, D and 9 Volt
- ★ Blister packs, multi-packs and value packs are available

### Major Applications

MP3, photo flash, wireless mouse & keyboard, portable electronics, electronic games and battery-operated toys

# Super Alkaline

Super Alkaline is formulated to meet the increasing power demand of everyday devices for value conscious customers. Dependable performance builds customer loyalty through the dependable power of Super Alkaline batteries. With a long shelf life, this extensive product range offers a reliable product for a wide range of applications for consumers of all ages.

## Features

- ★ Long lasting
- ★ Dependable performance
- ★ Up to 7 years shelf life
- ★ Extensive range including AA, AAA, C, D and 9 Volt, N, J ... and so on
- ★ Blister packs, multi packs and value packs are available

# GP Batteries

## Lithium Cylindrical

It's often the preferred power source used in the most sophisticated photographic and medical equipment. The batteries have a long shelf life of 10 years, making them the most intelligent answer to keep devices in top operating condition – primed and ready to go!

### Features

- ★ Excellent high current discharge performance
- ★ Built-in safety mechanism
- ★ Environmentally friendlier
- ★ Wide operating temperature range of  $-40^{\circ}\text{C}$  to  $+60^{\circ}\text{C}$  and excellent discharge performance at extremely low temperature
- ★ All sizes of CR123A, CR2, CR-P2 and 2CR5 are available

### Major Applications

Cameras, LED flashlights, memory back-up, medical equipment, meters, photo flash

### Standard Packs

CR2-U1 3V

CR123A-U1 3V

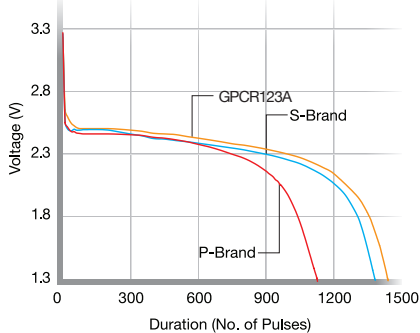

CR-P2-U1 6V

2CR5-U1 6V

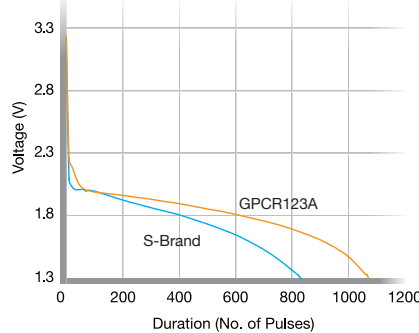

1200mA pulse discharge to 1.3V at 23°C

#### Excellent Pulse Discharge Performance at Room Temperature

GPCR123A shows superior high pulse discharge performance and longer duration than competitors.

1200mA pulse discharge to 1.3V at -20°C

#### Outstanding Pulse Discharge Capability at -20°C

The outstanding high pulse discharge capability of GPCR123A remains strong at extremely low temperature.

# Lithium Coin

## For Electronic Device

Use the correct batteries for the right appliances. With a broad range of applications and a wide range of operating temperatures, Lithium Coin batteries are ideal for different kinds of cameras, watches, remote controls and other electronic devices. They are the perfect partner for computers and other sensitive devices with long shelf life of 10 years.

### Features

- ★ High energy density
- ★ Wide range of operating temperatures, from -10°C to +60°C
- ★ Flat discharge curve
- ★ Long shelf life of 10 years
- ★ Environmentally friendlier
- ★ Broad range of sizes and models

### Major Applications

Computer memory back-up, camera, remote controls, calculators and thermometers.

## High Voltage Alkaline For Car Alarm

In tune with the most advanced remote control apparatus, High Voltage Alkaline batteries are especially built to conform to the highest standards of performance excellence in remote controls for cars, photo equipment and other electronic devices. To give maximum endorsement, they hold a stable operating voltage throughout use.

### Features

- ★ Long lasting power
- ★ 0% Mercury added
- ★ Stable operating voltage
- ★ Wide range of models

### Major Applications

Car alarm, keyless entry remotes, toys, electronic organizers

# Silver Oxide For Watch

Keep yourself in step with the times, choose the best battery for fashion watches and quality timepieces. Silver oxide button cells offer high voltage stability, maintaining almost the same voltage from the beginning to the end of its service life. They are suitable to power precision devices and assure the time reliability of watches.

## Features

- ★ Very long runtime
- ★ 0% Mercury added
- ★ Stable operating voltage
- ★ Wide range of models

## Major Applications

Watches, calculators, and exposure meter
