PUBLISHERS' NOTE.

The Keene City Directory was first published by the present proprietors in 1877.

It has since been published biennially, making the present volume the tenth edition and the twentieth year of its existence. The general plan of the work is substantially the same as former editions, yet considerable new matter has been added to the present volume. The street directory has been carefully revised and the numbering of streets largely extended.

The street map appears in a new draft from latest surveys by our competent engineer, Mr. Samuel Wadsworth.

By request of many citizens the Chronology of Keene has been inserted and brought down to 1894.

A healthy growth of the city is indicated by the increase in the list of names, as well as the census taken by our canvasser. With thanks for past favors, we present the volume to the public with the hope that it may prove as satisfactory as former editions.

Keene, April, 1895.

Wyman C W, meats, provisions, etc,	179

The first part of the history is a general account of the country, its situation, extent, and the manner in which it was discovered. It then proceeds to a description of the different nations and tribes that inhabit it, their customs, manners, and languages. The author also relates the various wars and battles that have taken place among them, and the progress of their civilization and commerce. The second part of the history is a more particular account of the different nations and tribes, and the manner in which they were discovered and settled. It describes the different manners and customs of each nation, and the progress of their civilization and commerce. The third part of the history is a more particular account of the different nations and tribes, and the manner in which they were discovered and settled. It describes the different manners and customs of each nation, and the progress of their civilization and commerce.

STREET DIRECTORY.

(Revised by Samuel Wadsworth, Surveyor, 29 Beaver Street.)

The Street Directory gives the location of each street, and shows what other streets or places run from it, or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. For instance, wishing to know at what part of Court street No. 191 comes, turn to Court street, and you will find that Cross street enters at No. 175 and High street at No. 213, showing that No. 191 comes on the right side of Court street, between Cross and High.

Also, multiplying the number by ten, gives the approximate distance from the head of the street, in feet. Thus, No. 264 Court street is about 2640 feet from the Square, or one-half mile. All odd numbers are on the right side of the street, and even numbers on the left.

Adams , from 95 Marlboro' to 54 Baker. 31 Elliot. — Gates.	149 Beech. 181 Douglass. 205 Grant. 235 North Lincoln. 261 Oak. — Terrace.	Church , from 40 Main to 83 South Lincoln. 41 Wells. 96 Norway Avenue. 97 Ninety-Third. 135 Harrison. 170 Roxbury. 202 Edwards. 209 Carpenter. 246 Probate. 263 Valley. 303 South Lincoln.

The first part of the document discusses the importance of maintaining accurate records. It highlights the need for regular updates and the role of technology in streamlining data collection and analysis. The second section focuses on the challenges faced by organizations in implementing effective data management strategies, such as data silos and inconsistent reporting standards. The final part of the document provides recommendations for improving data governance and ensuring compliance with relevant regulations.

STATEMENT OF WORK

This document describes the work to be performed under the terms of the contract between the University of Chicago and the contractor. The work is to be performed in accordance with the specifications and requirements set forth herein. The contractor shall provide all necessary materials, equipment, and personnel to complete the work. The work shall be completed by the date specified in the contract. The contractor shall provide regular progress reports to the University of Chicago. The University of Chicago shall provide the contractor with the necessary access to the facilities and equipment required for the work. The contractor shall be responsible for the safety of the work and the protection of the University of Chicago's property. The contractor shall be responsible for the timely completion of the work and the quality of the results. The contractor shall be responsible for the maintenance and repair of the equipment used in the work. The contractor shall be responsible for the disposal of any hazardous materials generated during the work. The contractor shall be responsible for the archiving of all data generated during the work. The contractor shall be responsible for the publication of any results generated during the work. The contractor shall be responsible for the training of any personnel involved in the work. The contractor shall be responsible for the coordination of the work with other projects and activities of the University of Chicago. The contractor shall be responsible for the communication of any changes to the work to the University of Chicago. The contractor shall be responsible for the resolution of any disputes arising from the work. The contractor shall be responsible for the compliance with all applicable laws and regulations. The contractor shall be responsible for the protection of the University of Chicago's intellectual property. The contractor shall be responsible for the confidentiality of any information provided to the contractor by the University of Chicago. The contractor shall be responsible for the security of the work and the protection of the University of Chicago's assets. The contractor shall be responsible for the insurance of the work and the protection of the University of Chicago's interests. The contractor shall be responsible for the indemnification of the University of Chicago from any claims or damages arising from the work. The contractor shall be responsible for the assignment of the work to other parties. The contractor shall be responsible for the termination of the work. The contractor shall be responsible for the completion of the work and the delivery of the results to the University of Chicago. The contractor shall be responsible for the maintenance and repair of the equipment used in the work. The contractor shall be responsible for the disposal of any hazardous materials generated during the work. The contractor shall be responsible for the archiving of all data generated during the work. The contractor shall be responsible for the publication of any results generated during the work. The contractor shall be responsible for the training of any personnel involved in the work. The contractor shall be responsible for the coordination of the work with other projects and activities of the University of Chicago. The contractor shall be responsible for the communication of any changes to the work to the University of Chicago. The contractor shall be responsible for the resolution of any disputes arising from the work. The contractor shall be responsible for the compliance with all applicable laws and regulations. The contractor shall be responsible for the protection of the University of Chicago's intellectual property. The contractor shall be responsible for the confidentiality of any information provided to the contractor by the University of Chicago. The contractor shall be responsible for the security of the work and the protection of the University of Chicago's assets. The contractor shall be responsible for the insurance of the work and the protection of the University of Chicago's interests. The contractor shall be responsible for the indemnification of the University of Chicago from any claims or damages arising from the work. The contractor shall be responsible for the assignment of the work to other parties. The contractor shall be responsible for the termination of the work. The contractor shall be responsible for the completion of the work and the delivery of the results to the University of Chicago.

[The annual City Election is held on the second Tuesday of December. Police Court sits on the fourth Monday of each month. The Mayor and City Councils take their seats on the first Tuesday of January, at 10 a. m.]

KEENE CITY GOVERNMENT, 1895.

MAYOR.

George W. McDuffee.

City Clerk, J. P. Wellman.

THE UNIVERSITY OF CHICAGO

PHILOSOPHY DEPARTMENT

PHILOSOPHY DEPARTMENT

CHICAGO, ILLINOIS

ALDERMEN.

Ward 1, Christopher J. George. Ward 3, Albert W. Green.
 Ward 2, George E. Poole. Ward 4, Sidney C. Ellis.
 Ward 5, William H. Elliot.

COUNCILMEN.

Ward 1, Frank K. Jewett, Edward W. Gustine, Milan H. Johnson.
 Ward 2, Flavel Beal, Aaron R. Gleason, Charles W. Pierce.
 Ward 3, Frank F. Stearns, Charles A. Nichols, George H. Giffin.
 Ward 4, Leston E. Mason, President; Walter R. Porter, Wallace
 L. Mason.
 Ward 5, Charles Sherman, James H. Smith, Andrew J. Williams.
 Herbert O. Wardwell, Clerk.

The City Councils meet on the first and third Thursdays of each month, at 7.30 o'clock P. M.

The City Auditor sits every Saturday from 2 to 5 and 7 to 9 o'clock P. M.

JOINT STANDING COMMITTEES.

Finance—The Mayor, Alderman Elliot, Councilmen Porter and W. L. Mason.

Schools—Alderman George, Councilmen Nichols and Gleason.

Lands and Buildings—Alderman George, Councilmen Gustine and Nichols.

Bridges—Alderman Ellis, Councilmen Jewett and Beal.

Streets and Drains—Alderman Green, Councilmen Porter and Jewett.

Burying Grounds—Alderman Poole, Councilmen Pierce and W. L. Mason.

Fire Department—Alderman Green, Councilmen Stearns and Gustine.

Lamps and Lamp Posts—Alderman Poole, Councilmen Stearns and Giffin.

Water Works and Sewers—Alderman Ellis, Councilmen Pierce and Smith.

Printing—Alderman George, Councilmen Sherman and Giffin.

Engrossed Bills—Alderman Poole, Councilmen Johnson and Williams.

Public Parks—Alderman Elliot, Councilmen Smith and Johnson.

Public Library—Alderman Elliot, Councilmen Gleason and Beal.

STANDING COMMITTEES.

Board of Aldermen.

Bills on Second Reading—Aldermen Elliot, Green and Ellis.

Licenses—Aldermen Poole, George and Ellis.

Simmons Fund—Aldermen Ellis, Green and Poole.

Police—Aldermen George, Elliot and Green.

Claims—Full Board.

Handwritten text, likely a list or series of entries, with some lines appearing to be underlined or separated by small gaps. The text is very faint and difficult to decipher.

Common Council.

Bills on Second Reading—Councilmen Sherman, Giffin and Johnson.

Elections and Returns—Councilmen Gleason, Beal and Williams.
City Hall—The Mayor, Councilmen Porter and City Messenger Emmons.

City Auditor—Charles H. Hersey.

City Solicitor—John T. Abbott.

City Treasurer—Arthur L. Wright.

Collector—Ainsworth M. Nims.

City Messenger—Joseph F. Emmons.

City Marshal—Arthur W. Humewell.

Constables—Arthur W. Hunnewell, Joseph F. Emmons.

Police Justice—L. W. Holmes.

City Physician—Gardner C. Hill.

Sexton—Columbus A. Mason.

Overseer of Poor—Edward H. Fletcher.

Superintendent of Cemeteries—Columbus A. Mason.

Superintendent of Highways—Lester K. Stiles.

Superintendent of Water Works and Sewers—Paul F. Babbidge.

Police Officers—George Cole, William S. Tuttle, Reuben Ray, Samuel O. Gates, Albert G. Henshaw, Fred H. Willson, Henry O. Spaulding, Charles A. Chapin, Joseph F. Emmons, Edward H. Fletcher, Eugene M. Keyes, Walter A. Perry, Harry F. Buckminster, Elmer A. Nims, Charles Wright, Columbus A. Mason, Justus S. Richardson, Wm. H. Buckminster, Frank X. Harmon, Lester K. Stiles, Wymon Lawrence, Elmer L. Willard, George H. Lewis, Herbert W. Keyes, Wm. H. Philbrick, Fred A. Bowen, Amos N. Wardwell,

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author outlines the various methods used to collect and analyze the data. This includes both primary and secondary data collection techniques. The primary data was gathered through direct observation and interviews with key personnel. Secondary data was obtained from internal company reports and industry publications.

The analysis of the data revealed several key trends and patterns. One significant finding was the correlation between certain variables, which suggests a causal relationship. This insight is crucial for understanding the underlying factors that influence the outcomes.

Finally, the document concludes with a series of recommendations based on the findings. These suggestions are aimed at improving the efficiency of the current processes and addressing the identified areas of concern. It is hoped that these measures will lead to more effective results in the future.

Daniel A. Brown, L. W. Adams, John P. Flanagan, Henry W. Nims, Luther P. Alden.

Surveyors of Wood—Charles K. Pemberton, Columbus A. Mason, Mortimer Reardon, James H. Smith, Charles H. Mason, Martin A. Stowell, John A. Batchelder, Zebina K. Graves, Franklin H. Fay, Frank E. Joy, William H. Reyoum, Fred L. Pitcher, John W. Nye, Joseph Chase, Herbert R. Raymond, Don C. Quinn, Adolphus M. Ross, Freeman A. White.

Surveyors of Lumber—Charles K. Pemberton, Columbus A. Mason, William H. Reyoum, Charles H. Mason, John W. Nye, Fred L. Pitcher, Martin A. Stowell, Henry N. Stone, Daniel P. Thompson, Franklin H. Fay, James H. Smith, Joseph Chase, John A. Batchelder, Herbert R. Raymond, Adolphus M. Ross, Milan H. Johnson, Don C. Quinn, Freeman A. White.

Weighers—Herbert A. Woodward, Norris G. Gurnsey, Wm. M. Kimball, Henry Giffin, Fred L. Pitcher.

Fence Viewers—Daniel A. Brown, Daniel R. Cole.

MODERATORS.

Ward 1, James S. Taft. Ward 3, Herbert O. Wardwell.

Ward 2, Warren B. Fitch. Ward 4, Martin V. B. Clark.

Ward 5, Fred A. Barker.

SELECTMEN.

Ward 1, John Thayer, Edward H. Fletcher, George M. Reed.

Ward 2, Wm. H. Hill, Frederick H. Blanchard, Jos. P. Whitcomb.

Ward 3, Charles H. Mason, Hiram F. Newell, George F. Stone.

Ward 4, Edward A. Kingsbury, Wilber C. Robb, Wm. S. Tuttle.

Ward 5, Albert H. Hamblett, Ezra P. Hardy, Geo. H. Jackson.

M., Sunday school at the George street chapel; 4.00 P. M., meeting for men at the Y. M. C. A. Hall; 5.45 P. M., Christian Endeavor prayer meeting; 7.00 P. M., evening worship. Tuesday, 3.00 P. M., Ladies' prayer meeting; 7.30 P. M., prayer meeting at the George street chapel. Wednesday, 7.30 P. M., prayer meeting. Friday, 4.30 P. M., children's meeting; 7.30 P. M., teachers' meeting.

SECOND CONGREGATIONAL, Court street. — Rev. G. H. DeBevoise, Pastor. Sunday services: 10.40 A. M. and 7 P. M.; Sabbath

THE UNIVERSITY OF CHICAGO
DEPARTMENT OF CHEMISTRY
5800 S. UNIVERSITY AVENUE
CHICAGO, ILLINOIS 60637
TEL: 773-936-3700

RESEARCH INTERESTS

My research interests are in the area of organic chemistry, particularly in the synthesis of complex natural products and the development of new synthetic methods. I have published several papers in this field and am currently working on a number of projects related to the synthesis of novel compounds.

EDUCATION AND PROFESSIONAL EXPERIENCE

I received my B.S. in Chemistry from the University of Illinois at Urbana-Champaign in 1985. I then worked as a research assistant in the laboratory of Professor [Name] at the University of Illinois. I received my M.S. in Chemistry from the University of Illinois in 1988. I then worked as a research assistant in the laboratory of Professor [Name] at the University of Illinois. I received my Ph.D. in Chemistry from the University of Illinois in 1991. I then worked as an assistant professor at the University of Illinois from 1991 to 1995. I then worked as an associate professor at the University of Illinois from 1995 to 2000. I then worked as a professor at the University of Illinois from 2000 to 2005. I then worked as a professor at the University of Illinois from 2005 to 2010. I then worked as a professor at the University of Illinois from 2010 to 2015. I then worked as a professor at the University of Illinois from 2015 to 2020. I then worked as a professor at the University of Illinois from 2020 to 2025. I then worked as a professor at the University of Illinois from 2025 to 2030.

AWARDS AND HONORS

I have received several awards and honors for my research and teaching. I was named a Distinguished Teaching Professor at the University of Illinois in 1995. I was named a Distinguished Research Professor at the University of Illinois in 2000. I was named a Distinguished University Professor at the University of Illinois in 2005. I was named a Distinguished University Professor at the University of Illinois in 2010. I was named a Distinguished University Professor at the University of Illinois in 2015. I was named a Distinguished University Professor at the University of Illinois in 2020. I was named a Distinguished University Professor at the University of Illinois in 2025. I was named a Distinguished University Professor at the University of Illinois in 2030.

school, 12.15 P. M.; young people's meeting, Y. P. S. C. E., 5.45 P. M.; week-day meetings: Tuesday afternoon, ladies' prayer meeting, 4.15; Wednesday evening, prayer meeting, 7.30; Friday evening, teachers' meeting, 7.30; Ladies' Benevolent Society meets monthly on Thursday afternoon; Children's meeting, Juvenile S. C. E., alternate Fridays, 4.15 P. M.

BAPTIST, Court street.—Rev. A. W. Hand, Pastor. Sunday services, 10.40 A. M.; Sunday school, 12.15 P. M.; Junior Society of Christian Endeavor, 4.30 P. M.; Society of Christian Endeavor, 5.45 P. M.; evening service, 7 P. M.; Wednesday evening prayer meeting, 7.30; Willing Workers, meets by special appointment; Ladies' Foreign Mission meeting, the second Friday of each alternate month, beginning with February, at 3.00 P. M.; Ladies' Home Mission meeting, the fourth Friday of each month, at 3.00 P. M.

ST. JAMES (Episcopal), West street.—Rev. J. Cullen Ayer, Rector. Services: Sunday, 10.40 A. M., 6.30 P. M. from October to April; 7 P. M. from April to October; Sunday school and Rector's Bible class, 12.15 P. M. Holy Communion, first Sunday in the month, at 12.00 M.; third Sunday, at 9.45 A. M., and on Holy Days at 10.00 A. M.; Friday evenings, from Advent to Easter, prayer and lecture, 7.30 P. M.; other appointments for Lent. Guilds hold frequent meetings for work and instruction.

UNITARIAN, Washington street.—Pastor, Rev. Charles B. Elder. Residence at parsonage, 56 Marlboro' street. Services, Sunday, 10.45 A. M. and 7 P. M.; the Channing Guild at 6.15 P. M. in the church parlor. Meetings for good work and sociability on Wednesday and Monday afternoons and evenings of alternate weeks, in the church parlor. Unitarian Club meets the second Wednesday of each month, from November to April.

METHODIST EPISCOPAL, Court street.—Rev. James Cairns, Pastor; parsonage, No. 34 Elm street. Sunday services, preaching 10.40 A. M.; Sunday school, 12.15 P. M.; public service, 7 P. M.; Epworth League, 5.45 P. M.; communion service, on first Sunday of January, March, May, July, September and November; prayer meeting, Wednesday evening, 7.30; classes Tuesday and Friday evenings at 7.30. General class Friday evening preceding the sacrament; love feast 9.30 A. M. on the day of the sacramental service.

BETHANY MISSION, Vernon street.—Preachers supplied. Meetings, Sunday, 10 A. M., 2 and 7 P. M.; Monday, Wednesday and Friday evenings at 7.30. F. L. Sprague, President.

ROMAN CATHOLIC, 185 Main street.—Rev. J. R. Power, Rector, Rev. D. J. Dunn, Assistant. Masses at 8 and 10.30 A. M.; Vespers, 4.00 P. M.

YOUNG MEN'S CHRISTIAN ASSOCIATION, West street. Religious meetings for men only are held as follows: Sunday afternoon

The first part of the report deals with the general situation of the country and the progress of the various branches of industry and commerce. It is followed by a detailed account of the operations of the different departments of the public service, and a summary of the state of the public treasury. The report concludes with a series of recommendations for the improvement of the administration and the promotion of the general welfare of the country.

at 4 o'clock, young men's evangelistic service; Sunday morning at 9.45, Bible class. Annual meeting the Tuesday following the third Monday in September. H. C. Aldrich, President; D. M. Spence, General Secretary; H. O. Wardwell, Financial Secretary.

SIGNALS: — The Superintendent has the right to strike one blow upon the bells at any time, to test the circuits; also to ring in one round from any box, preceded by a single blow, exactly five minutes after the noon stroke, on Saturdays, for the purpose of testing the boxes. The signal 22 repeated on the bells is to call the firemen to their houses for further orders. In case of a serious fire the engineers may cause a second alarm to be sounded from the nearest box. A second alarm is given by striking ten blows, followed by the box number.

KEENE FIRE DEPARTMENT, 1895.

BOARD OF ENGINEERS.

Chief Engineer—Jerry P. Wellman.

Assistant Engineers—Paul F. Babbidge, John Q. Jones, Oscar H. Fay.

CHRONOLOGY OF KEENE, 1733-1895.

- 1733—July 1, on recommendation of Gov. Belcher, the General Court of Massachusetts voted, "that there be seven towns opened of the contents of six miles square," including two on Ashuelot river, and appointed a committee to lay out the same.
- 1734—February, the committee made a return of a plan of two townships, situated on both sides of Ashuelot river, which were styled Upper and Lower Ashuelot; the lower township was afterwards named Swanzy, and the upper one *Keene*. June 26, the house lots on Main street divided among sixty-three proprietors. September 18, first town meeting held in the open air by seven of the proprietors.
- 1735—Voted to lay out road to the "Saw Mill Place" (situated on Beaver Brook) and give 100 acres of land and twenty-five pounds to any person who would build the mill.
- 1736—September 30, at a proprietors' meeting held at house of Nathan Blake, being the first erected in the township, voted to build meeting house and grist-mill; to widen Main street from four to eight rods in width; Nathan Blake, Seth Heaton and William Smede propose to winter in the settlement, but are obliged to abandon it, leaving their oxen, which they find alive on their return the following spring.
- 1737—May 12, voted to assess sixty pounds, old tenor, on lot owners for support of minister. October 26, lands divided among proprietors in lots of 100 acres.
- 1738—February 7, Jacob Bacon, A. M., chosen Proprietors' Clerk and Treasurer; voted to raise 240 pounds to support preaching. May 1, Mr. Jacob Bacon settled in the ministry. October 2, voted to finish the fort already begun, and situated nearly on the present site of the house of Hon. Edward Gustine. October 18, Rev. Mr. Bacon ordained. December 4, voted to finish meeting house; great flood this year, highest water ever known in township.
- 1740—February 25, rumors of war; voted to build another fort for defence against Indians.
- 1741—September 7, voted to move meeting house on the *hill*, which hill was where the Gen. Wilson house now stands.
- 1742—July 27, voted to improve meeting house, shingle the same, and set the glass for the windows in wood.
- 1744—March, first French war breaks out; settlers prepare for defence against Indians; throat distemper rages with great fatality in the settlement.
- 1745—February 5, voted 154 pounds, old tenor, as salary for Rev. Mr. Bacon; settlers continue to prepare for defence. July 10, Deacon Josiah Fisher killed by Indians on the ground which is now Gen. S. G. Griffin's garden.
- 1746—March, voted to raise 160 pounds, old tenor (133.33), for Rev. Mr. Bacon's support. April 23, at early morning, a large band of Indians appear; alarm is given, and all fly for safety to the fort; Mrs. McKenney and John Bullard are killed near the gate of the fort, before entering; the Indians surround the fort and the battle rages till noon, when the enemy retire; nine of their number are killed; Nathan Blake is captured and carried to Canada. May, Indians again appear, but the settlers protect themselves within the fort.
- 1747—Early in the year the settlers abandon the settlement as untenable; soon after, Indians appear and burn the town containing forty dwellings. Thus ended the first settlement of Keene.

STATE OF NEW YORK

IN SENATE,

January 10, 1911.

REPORT

OF THE

COMMISSIONERS OF THE LAND OFFICE,

IN ANSWER TO A RESOLUTION PASSED BY THE SENATE,

APRIL 11, 1909,

RELATIVE TO THE

LANDS BELONGING TO THE STATE.

ALBANY:

THE UNIVERSITY OF THE STATE OF NEW YORK PRESS,

1911.

- 1750 or 1751—Peace being restored, the settlers return and commence to rebuild their town upon its ruins.
- 1753—April 11, a charter is granted to the township by Benning Wentworth, Royal Governor of New Hampshire, under the name of *Keene*, and the first town meeting is held in May; a new meeting house is built, and Rev. Mr. Carpenter chosen minister.
- 1754—Hostilities again commence and the settlers rebuild their fort.
- 1755—June, Benjamin Twitchell captured by Indians and carried to Canada; Indians again appear but are driven off without loss of life to the settlers.
- 1756—October 5, voted to unite with Swanzeby to maintain public worship.
- 1760—Mr. Clement Sumner is called as minister.
- 1761—Mr. Sumner's salary is paid in wheat, pork, beef, corn and other supplies at stated prices. June 11, Mr. Sumner ordained.
- 1762—A clerk of the market and deer rief is chosen.
- 1764—First school established; six pounds voted to defray expenses.
- 1766—Ben Hall chosen agent to represent the town in behalf of a shire town.
- 1767—October 7, population this year, 427.
- 1768—Josiah Willard represents town in General Assembly at Portsmouth.
- 1770—Town is first divided into four school districts.
- 1771—Keene is made one of the shire towns for Cheshire County; October, first session of the Inferior Court held in Keene; Elijah Williams, the first lawyer, comes to Keene.
- 1772—September, first session of Superior Court held.
- 1773—Militia enrolled and alarm list organized.
- 1774—Elijah Williams appointed a Justice of the Peace; resistance to British aggression reaches Keene, and a stock of ammunition is purchased.
- 1775—April 19, news of the fight at Concord reaches Keene during day, and the militia organizes. April 20, at sunrise, Captain Isaac Wyman leads a company to Concord; Elisha Briggs cuts the canal, and erects a mill on the site of Faulkner & Colony's factory; population 756.
- 1776—The declaration of loyalty to United Colonies signed by all except thirteen citizens of the town; small pox breaks out, hospitals established.
- 1777—December, Rev. Aaron Hall chosen minister, and accepts the call.
- 1778—February 18, Rev. Mr. Hall ordained.
- 1779—The town is occupied in furnishing its quotas of men for the army.
- 1780—The contest regarding the "New Hampshire Grants" agitates the public mind.
- 1781—The town refuses to unite with the "New Hampshire Grants" on the Vermont side of the river.
- 1782—September, the Vermont faction makes a futile attempt to dissolve the County Court sitting at Keene.
- 1783—Vote passed in favor of denying Tories a residence in the State.
- 1784—November 3, voted to build a new meeting house (now the First Congregational Church) 50 x 70 with belfry and porch.
- 1785—February, 88 pews in the meeting house sold for about \$3,000.
- 1787—First newspaper, "The New Hampshire Recorder," published by Jos. G. Griffith.
- 1788—January 17, Rev. Aaron Hall chosen delegate to the Constitutional Convention at Exeter.
- 1789—October, wolves visit the village and kill several sheep.
- 1790—Hon. Daniel Newcomb appointed Chief Judge of the Inferior Court for Cheshire County; population of Keene 1,314.
- 1791—Committee chosen to "see that there are sluices" for the passage of shad; Noah Cook, Esq., came to Keene to reside.

[The text on this page is extremely faint and illegible. It appears to be a multi-paragraph document, possibly a letter or a report, but the specific content cannot be discerned.]

- 1792—Eighty pounds raised to purchase bell for meeting house; second newspaper, "The Cheshire Advertiser," published one year only, by J. D. Griffith. Samuel Dinsmoor settled in Keene.
- 1793—Third newspaper, "The Columbian Informer," published by Henry Blake & Co.
- 1794—A new bell and clock is put into the meeting house.
- 1795—First post office established, Asa Bullard, Postmaster. August, fourth newspaper, "The Rising Sun," published by Cornelius Sturtevant, Jr.
- 1796—Deacon Abijah Wilder brings water from Beaver Brook into the village; first Court House built.
- 1797—Dr. Ziba Hall refuses to be taxed for the support of the gospel, and sues the town to recover back taxes paid under protest.
- 1798—Peleg Sprague of Keene chosen Representative in Congress.
- 1799—Fifth newspaper, "The New Hampshire Sentinel," appears, published by Hon. John Prentiss.
- 1800—February 22, memorial services held in honor of Gen. Washington, oration by Samuel West, Esq. April 20, Hon. Peleg Sprague died. Population 1,645.
- 1802—Charter for turnpike from Keene to Fitzwilliam granted.
- 1803—Charter for Cheshire Bank granted.
- 1804—Cheshire Bank organized.
- 1806—Turnpike from Keene to Winchendon finished.
- 1808—Samuel Dinsmoor appointed Postmaster.
- 1810—Samuel Dinsmoor, Sr., elected member of Congress; population 1,646.
- 1811—August 4, Nathan Blake died, aged 99 years, 5 months; Miss Catharine Fiske's "Female Seminary" established. Samuel Dinsmoor elected to Congress.
- 1812—Roxbury incorporated, taking from Keene 1,472 acres.
- 1814—August 12, Rev. Aaron Hall died, aged 64, much lamented by his people.
- 1815—May 24, Rev. Daniel Oliphant ordained pastor of First Congregational Church. December 8, "voted *not* to suffer a stove put into the meeting house." St. John's block built.
- 1816—Baptist Church at Ash Swamp dedicated; cold summer; great scarcity of corn.
- 1818—July 1, Rev. Z. S. Barstow ordained pastor First Congregational Church. July 14, Hon. Daniel Newcomb died.
- 1820—Population this year 1,895.
- 1824—March 18, Unitarian Society organized. Hon. Salma Hale elected to Congress. Cheshire Bank re-chartered.
- 1825—Cheshire County Fire Insurance Company established.
- 1828—November 14, "The Farmer's Museum," established at Walpole, April 11, 1793, was removed to Keene, and later became the "Cheshire Republican."
- 1829—First Congregational Church moved on its present site.
- 1830—April 28, Unitarian Church finished; population 2,374.
- 1831—Samuel Dinsmoor, Sr., elected Governor.
- 1832—Baptist Church re-organized. Samuel Dinsmoor, Governor.
- 1833—County jail built on Washington street; Keene Light Infantry visits Concord to welcome Gen. Jackson; Ashuelot Bank established; Samuel Dinsmoor, Governor; Cheshire Provident Institution established.
- 1834—Fare from Keene to Boston by North Star line of coaches, \$2.50.
- 1835—Samuel Dinsmoor died.

The first part of the chapter discusses the importance of maintaining accurate records of all transactions. This is essential for the proper management of the business and for the preparation of financial statements. The second part of the chapter deals with the various methods of recording transactions, including the double-entry system and the use of journals and ledgers. The third part of the chapter covers the process of adjusting the accounts at the end of each accounting period to ensure that the financial statements are accurate and complete. The fourth part of the chapter discusses the preparation of the final financial statements, including the balance sheet, income statement, and statement of cash flows. The fifth part of the chapter covers the process of closing the books and preparing for the next accounting period.

- 1836—Keene Academy established.
- 1837—Miss Catharine Fiske died.

L. block erected; northerly part Gurnsey's block erected; population, 7,659.

The first part of the chapter discusses the importance of maintaining accurate records of all transactions. It emphasizes that every receipt and invoice should be properly filed and indexed for easy reference. This not only helps in tracking expenses but also provides a clear audit trail for tax purposes.

Next, the text covers the various methods used to collect and analyze financial data. It compares different statistical techniques and their applications in business research. The author highlights the need for a systematic approach to data collection, ensuring that the sample is representative and the data is reliable.

The middle section of the chapter focuses on the interpretation of financial statements. It explains how to read and understand the balance sheet, income statement, and cash flow statement. The author provides practical examples and tips to help readers identify key trends and anomalies in the data.

Finally, the chapter concludes with a discussion on the ethical implications of financial reporting. It stresses the importance of transparency and honesty in all financial transactions. The author encourages readers to adhere to professional standards and to report any discrepancies or errors promptly.

1. The first part of the paper discusses the importance of the medical profession in the United States. It points out that the medical profession is one of the most important and most respected professions in the country. It is a profession that has a long and distinguished history, and it is one that has made many contributions to the advancement of human knowledge and the betterment of the human condition.

2. The second part of the paper discusses the current state of the medical profession in the United States. It points out that the medical profession is facing many challenges, including a shortage of medical professionals, a rising cost of medical care, and a growing emphasis on profit over patient care. It also discusses the need for medical reform and the importance of ensuring that the medical profession remains committed to the highest standards of care and ethics.

3. The third part of the paper discusses the role of the medical profession in society. It points out that the medical profession has a unique responsibility to serve the needs of the community and to promote the health and well-being of all people. It also discusses the importance of medical education and the need for medical professionals to stay current in their knowledge and skills.

4. The fourth part of the paper discusses the future of the medical profession in the United States. It points out that the medical profession will continue to play a vital role in society, and it discusses the steps that must be taken to ensure that the medical profession remains committed to the highest standards of care and ethics in the years ahead.

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and change. From the first settlers to the present day, the nation has evolved through various stages of development. The early years were marked by exploration and the establishment of colonies. The American Revolution led to the birth of a new nation, and the subsequent years saw the expansion of territory and the growth of industry. The Civil War was a pivotal moment in the nation's history, leading to the abolition of slavery and the strengthening of the federal government. The 20th century brought significant social and economic changes, including the rise of the industrial revolution and the emergence of the United States as a global superpower. Today, the United States continues to face new challenges and opportunities, and its history remains a source of inspiration and guidance for the future.

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and change. From the first settlers to the present day, the nation has evolved through various stages of development. The early years were marked by exploration and the establishment of colonies. The American Revolution led to the birth of a new nation, and the subsequent years saw the expansion of territory and the growth of industry. The Civil War was a pivotal moment in the nation's history, leading to the abolition of slavery and the strengthening of the federal government. The late 19th and early 20th centuries were characterized by rapid industrialization and the rise of big business. The Great Depression of the 1930s led to significant government intervention in the economy. The mid-20th century saw the United States emerge as a global superpower, with the Cold War shaping international relations. The latter part of the 20th century was marked by social movements and a focus on civil rights. The 21st century has brought new challenges, including technological advancement and global climate change.

USE A GAS STOVE.

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and change. It begins with the first people who lived on this continent, and continues through the years of exploration, settlement, and the struggle for independence. The story is one of a people who have built a nation of freedom and opportunity, and who have played a leading role in the world.

The early years of the United States were marked by the struggle for independence from Great Britain. The American Revolution was a turning point in the nation's history, and it led to the creation of a new government based on the principles of liberty and justice for all.

The years following the Revolution were a time of rapid growth and expansion. The United States became a major power in the world, and it played a leading role in the development of the Western Hemisphere. The nation's economy grew rapidly, and it became a major industrial power.

The American Civil War was a defining moment in the nation's history. It was a struggle for the preservation of the Union, and it led to the abolition of slavery. The war was a turning point in the nation's history, and it led to the creation of a new government based on the principles of liberty and justice for all.

The years following the Civil War were a time of rapid growth and expansion. The United States became a major power in the world, and it played a leading role in the development of the Western Hemisphere. The nation's economy grew rapidly, and it became a major industrial power.

The American Civil War was a defining moment in the nation's history. It was a struggle for the preservation of the Union, and it led to the abolition of slavery. The war was a turning point in the nation's history, and it led to the creation of a new government based on the principles of liberty and justice for all.

GAS STOVES ARE ECONOMICAL, CLEAN AND DESIRABLE.

The first part of the report deals with the early history of the United States, from the time of the first European settlement in 1607 to the end of the American Revolution in 1783. It covers the period of the colonial era, when the thirteen colonies were under the control of Great Britain. The second part of the report deals with the history of the United States from 1783 to the present. It covers the period of the American Revolution, the early years of the republic, the period of the Louisiana Purchase, the period of the American Civil War, and the period of the Reconstruction. The third part of the report deals with the history of the United States from 1865 to the present. It covers the period of the Reconstruction, the period of the Gilded Age, the period of the Progressive Era, the period of the Great Depression, and the period of the New Deal. The fourth part of the report deals with the history of the United States from 1945 to the present. It covers the period of the Cold War, the period of the Vietnam War, the period of the Watergate scandal, and the period of the Reagan Revolution.

The report is divided into four main sections. The first section, "The Colonial Era," covers the period from 1607 to 1783. It discusses the early settlement of the Americas, the growth of the colonies, and the struggle for independence. The second section, "The American Revolution," covers the period from 1775 to 1783. It discusses the causes of the revolution, the course of the war, and the establishment of the new nation. The third section, "The Early Republic," covers the period from 1783 to 1800. It discusses the early years of the republic, the Louisiana Purchase, and the rise of the Federalist Party. The fourth section, "The American Civil War," covers the period from 1861 to 1865. It discusses the causes of the war, the course of the war, and the Reconstruction.

The report is written in a clear and concise style, and it provides a comprehensive overview of the history of the United States. It is a valuable resource for anyone interested in the history of the United States. The report is divided into four main sections, each of which covers a different period of American history. The first section, "The Colonial Era," covers the period from 1607 to 1783. The second section, "The American Revolution," covers the period from 1775 to 1783. The third section, "The Early Republic," covers the period from 1783 to 1800. The fourth section, "The American Civil War," covers the period from 1861 to 1865.

IF YOU BELIEVE IN MODERN METHODS, USE A GAS STOVE.

The history of the United States is a complex and multifaceted one, spanning centuries and encompassing a wide range of events, people, and ideas. From the early days of European exploration and settlement to the present day, the United States has undergone significant changes and challenges. This book provides a comprehensive overview of the country's history, from its founding to the present day. It covers the political, social, and economic developments that have shaped the nation, as well as the role of the individual and the collective in its history. The book is written in a clear and accessible style, making it suitable for students and general readers alike. It is a valuable resource for anyone interested in the history of the United States.

All Expense Ends the Moment You Finish Cooking, When Using a Gas Stove.

The history of the United States of America is a story of growth and change. From the first European settlers to the present day, the nation has evolved through various stages of development. The early years were marked by exploration and the establishment of colonies. The American Revolution led to the birth of a new nation, and the subsequent years saw the expansion of territory and the growth of industry. The Civil War was a pivotal moment in the nation's history, leading to the abolition of slavery and the strengthening of the federal government. The 20th century brought significant social and economic changes, including the rise of the industrial revolution and the emergence of the United States as a global superpower. Today, the United States continues to face new challenges and opportunities, and its history remains a source of inspiration and guidance for the future.

No Fires to Build, No Ashes, No Labor When Using a Gas Stove.

The following table shows the results of the experiments conducted during the year 1910. The first column gives the name of the plant, the second column the date of the experiment, the third column the number of plants used, and the fourth column the result of the experiment. The results are given in terms of the number of plants which have died, and the number of plants which have survived.

Plant	Date	No. of Plants	Result
1. <i>Phaseolus vulgaris</i>	1910.1.15	10	5 died, 5 survived
2. <i>Phaseolus vulgaris</i>	1910.1.20	10	6 died, 4 survived

USE A GAS STOVE.

CHAPTER I

The first part of the book discusses the early history of the United States, from the time of the first European settlers to the American Revolution. It covers the exploration of the continent, the establishment of colonies, and the struggle for independence. The author details the political and social conditions of the time, as well as the role of key figures like George Washington and Thomas Jefferson.

The second part of the book focuses on the early years of the new nation, from the signing of the Declaration of Independence to the end of the Revolutionary War. It examines the challenges of building a new government, the drafting of the Constitution, and the early years of the Republic. The author also discusses the economic and social developments of this period, including the growth of agriculture and industry.

The third part of the book covers the period from the end of the Revolutionary War to the beginning of the 19th century. It explores the expansion of the United States, the growth of the economy, and the emergence of new political movements. The author discusses the role of the federal government and the states, as well as the impact of the Industrial Revolution and the rise of the middle class.

The fourth part of the book deals with the mid-19th century, from the beginning of the 1840s to the end of the 1850s. It focuses on the issue of slavery, the Mexican-American War, and the rise of the Whig and Democratic parties. The author examines the political and social tensions of this period, as well as the role of key figures like Abraham Lincoln and Andrew Jackson.

The fifth part of the book covers the period from the beginning of the 1860s to the end of the 1860s. It discusses the American Civil War, the Reconstruction era, and the rise of the Republican Party. The author explores the political and social changes of this period, as well as the role of key figures like Abraham Lincoln and Ulysses S. Grant.

No Fires to Build, No Ashes, No Labor When Using a Gas Stove.

The history of the United States of America is a story of growth and change. From the first European settlements to the present day, the nation has expanded its territory and diversified its economy. The American dream of freedom and opportunity has attracted millions of immigrants from all over the world. The struggle for civil rights and social justice has shaped the nation's character and values. The American people have shown a remarkable capacity for innovation and resilience in the face of adversity. The history of the United States is a testament to the power of the human spirit and the pursuit of a better life.

YOU TOUCH A MATCH AND WE DO THE REST.

The following is a list of the members of the American Medical Association, as reported in the official journal of the Association, the Journal of the American Medical Association, for the year 1911. The list is arranged in alphabetical order of the names of the members, and includes the names of all the members who were active in the Association during the year.

The members of the Association are divided into two classes: regular members and life members. The regular members are those who have paid the dues for the year, and the life members are those who have paid a lump sum for their membership for life.

The dues for regular members are \$5.00 per year, and the dues for life members are \$100.00. The dues for regular members are paid in advance, and the dues for life members are paid in full at the time of joining the Association.

The members of the Association are entitled to all the privileges of the Association, and are eligible for election to office. The members of the Association are also entitled to the services of the Association, and are eligible for the services of the Association.

The members of the Association are also entitled to the services of the Association, and are eligible for the services of the Association.

If you Wish your Food Better Cooked with less labor and time, USE A Gas Stove.

The lands of the Crown are divided into three classes, namely, lands which are held of the Crown, lands which are held in fee simple, and lands which are held in fee tail.

The lands which are held of the Crown are those lands which are held of the Crown by knight service, and those lands which are held of the Crown by socage.

The lands which are held in fee simple are those lands which are held in fee simple, and those lands which are held in fee simple subject to a condition.

The lands which are held in fee tail are those lands which are held in fee tail, and those lands which are held in fee tail subject to a condition.

The lands which are held in fee simple subject to a condition are those lands which are held in fee simple subject to a condition, and those lands which are held in fee simple subject to a condition subject to a condition.

The lands which are held in fee tail subject to a condition are those lands which are held in fee tail subject to a condition, and those lands which are held in fee tail subject to a condition subject to a condition.

YOU TOUCH A MATCH AND WE DO THE REST.

The history of the United States of America is a story of a people who have built a great nation from a small colony. The story begins in 1492 when Christopher Columbus discovered the New World. The first English colony was founded in 1607 at Jamestown. The Pilgrims came to Plymouth in 1620. The American Revolution began in 1775 and ended in 1781. The Constitution was written in 1787. The Civil War was fought from 1861 to 1865. The United States became a world power in the late 19th century. The 20th century has seen the United States lead the world in science, technology, and industry. The United States has fought two world wars and has been a leader in the space age. The United States is a democracy and a land of freedom.

Call at the Gas Co. Office, 14 Roxbury St. and Examine
OUR Gas Stoves.

The first part of the paper deals with the general theory of the problem. It is shown that the problem can be reduced to a set of linear equations. The second part of the paper is devoted to the numerical solution of these equations. The results of the calculations are presented in the third part of the paper. The fourth part of the paper discusses the physical interpretation of the results. The fifth part of the paper contains the conclusions. The sixth part of the paper contains the references. The seventh part of the paper contains the appendix. The eighth part of the paper contains the figures. The ninth part of the paper contains the tables. The tenth part of the paper contains the index.

No Fires to Build, No Ashes, No Labor When Using a Gas Stove.

CHAPTER I

THE DISCOVERY OF AMERICA

IN 1492, CHRISTOPHER COLUMBUS, an Italian navigator, sailed from Spain in search of a westward route to the Indies.

He sailed across the Atlantic Ocean and discovered the continent of America.

His discovery opened up a new world of trade and exploration.

The continent was named after Amerigo Vesputi, an Italian explorer who accompanied Columbus.

The discovery of America led to the European colonization of the continent.

The first European settlers arrived in America in 1492.

They established the first colonies in North America.

The colonies grew and developed over the years.

The United States of America was founded in 1776.

The country has since become a major world power.

The United States has a rich history and a bright future.

The country is a land of opportunity and freedom.

The United States is a country that has made many contributions to the world.

The country is a land of hope and progress.

The United States is a country that has made many achievements.

The country is a land of peace and stability.

The United States is a country that has made many discoveries.

The country is a land of knowledge and wisdom.

The United States is a country that has made many contributions to the world.

CHAPTER I

1776

The first of July 1776 was a day of great importance in the history of the United States. On that day the Continental Congress declared the thirteen colonies independent of Great Britain. The Declaration of Independence was adopted by a vote of 12 to 0, with one abstention. The document, written by Thomas Jefferson, set forth the principles of liberty and self-government that would guide the new nation. It stated that all men are created equal and have certain unalienable rights, including life, liberty, and the pursuit of happiness. It also declared that the British monarch had violated these rights and that the colonies were therefore justified in declaring their independence. The Declaration of Independence was a landmark event that marked the beginning of the United States as a sovereign nation.

OVER 200 GAS STOVES IN DAILY USE IN KEENE.

CHAPTER I

THE EARLY HISTORY OF THE UNITED STATES

The first European settlement in North America was established by Christopher Columbus in 1492. He discovered the continent of America on October 12, 1492, while sailing westward from Europe in search of a new trade route to the Indies. Columbus's discovery led to the European exploration and settlement of the Americas.

The first permanent European settlement in North America was established by Spanish explorer Juan Ponce de León in 1565. He founded St. Augustine, Florida, which is the oldest continuously inhabited European settlement in the United States.

The Pilgrims, a group of English separatists, established the Plymouth Colony in 1620. They arrived on the Mayflower and signed the Mayflower Compact, a document that established a form of self-government.

The Virginia Company established the first permanent English settlement in North America, Jamestown, in 1607. The colony was founded as a commercial venture and was the first to practice agriculture.

The Massachusetts Bay Company established the Massachusetts Bay Colony in 1630. The colony was founded by Puritan settlers who sought religious freedom and a more democratic form of government.

The Roanoke Colony, established in 1585, was the first English settlement in North America. It was located on Roanoke Island, Virginia, and was abandoned in 1586.

The Jamestown Colony, established in 1607, was the first permanent English settlement in North America. It was located on the James River, Virginia, and was the first to practice agriculture.

The Plymouth Colony, established in 1620, was the first permanent English settlement in New England. It was located on the coast of Massachusetts and was the first to practice agriculture.

The Massachusetts Bay Colony, established in 1630, was the first permanent English settlement in New England. It was located on the coast of Massachusetts and was the first to practice agriculture.

The Virginia Company established the first permanent English settlement in North America, Jamestown, in 1607. The colony was founded as a commercial venture and was the first to practice agriculture.

The Massachusetts Bay Company established the first permanent English settlement in North America, the Massachusetts Bay Colony, in 1630. The colony was founded by Puritan settlers who sought religious freedom and a more democratic form of government.

The Roanoke Colony, established in 1585, was the first English settlement in North America. It was located on Roanoke Island, Virginia, and was abandoned in 1586.

GAS STOVES ARE ECONOMICAL, CLEAN AND DESIRABLE.

The first part of the history of the United States is the story of the early years of the nation. It begins with the discovery of the continent by Christopher Columbus in 1492. The early years of the nation were marked by the struggle for independence from Great Britain. The American Revolution was fought between 1775 and 1783. The United States Declaration of Independence was signed on July 4, 1776. The Constitution of the United States was signed on September 17, 1787. The early years of the nation were also marked by the westward expansion of the United States. The Louisiana Purchase of 1803 doubled the size of the United States. The Texas Revolution of 1835-1836 led to the Texas Annexation of 1845. The Mexican-American War of 1846-1848 resulted in the United States acquiring California, New Mexico, and Arizona. The Civil War of 1861-1865 was fought between the Union and the Confederacy. The Civil War was the bloodiest and most destructive war in the history of the United States. It resulted in the abolition of slavery and the preservation of the Union. The Reconstruction era of 1865-1877 followed the Civil War. It was a period of rebuilding the South and integrating African Americans into the American society. The Reconstruction era was marked by the passage of the Reconstruction Acts of 1867 and the Reconstruction Amendments of 1865, 1868, and 1870. The Reconstruction era ended with the Compromise of 1877, which restored the Union to the South. The late 19th century was a period of rapid industrialization and economic growth. The Industrial Revolution transformed the United States from an agrarian society to an industrial society. The late 19th century was also marked by the rise of the Gilded Age. The Gilded Age was a period of great wealth and corruption. The Gilded Age was marked by the rise of the robber barons and the rise of the trusts. The late 19th century was also marked by the rise of the Progressive Movement. The Progressive Movement was a reform movement that sought to address the social and economic problems of the Gilded Age. The Progressive Movement led to the passage of the Progressive Era reforms of the early 20th century. The Progressive Era reforms included the passage of the Pure Food and Drug Act of 1906, the Clayton Antitrust Act of 1914, and the Federal Reserve Act of 1913. The Progressive Era reforms also led to the passage of the 16th, 17th, and 18th Amendments to the Constitution. The Progressive Era reforms were a response to the social and economic problems of the Gilded Age. The Progressive Era reforms led to the creation of the modern United States. The Progressive Era reforms were a turning point in the history of the United States. The Progressive Era reforms led to the passage of the Progressive Era reforms of the early 20th century. The Progressive Era reforms included the passage of the Pure Food and Drug Act of 1906, the Clayton Antitrust Act of 1914, and the Federal Reserve Act of 1913. The Progressive Era reforms also led to the passage of the 16th, 17th, and 18th Amendments to the Constitution. The Progressive Era reforms were a response to the social and economic problems of the Gilded Age. The Progressive Era reforms led to the creation of the modern United States. The Progressive Era reforms were a turning point in the history of the United States.

THE HISTORY OF THE UNITED STATES

CHAPTER I
 THE DISCOVERY OF AMERICA
 In the year 1492, Christopher Columbus, an Italian navigator, sailed from Spain in search of a westward route to the Indies. On October 12, 1492, he discovered the island of San Salvador in the West Indies. This event marked the beginning of European exploration and settlement in North America.

CHAPTER II
 THE EARLY SETTLEMENTS
 The first permanent European settlement in North America was founded by Spanish explorer Juan Ponce de Leon in 1565 at St. Augustine, Florida. Other early settlements were established by French and English explorers in the following decades.

CHAPTER III
 THE STRUGGLE FOR TERRITORY
 The discovery of America led to a period of intense competition between European powers for control of the continent. The French, English, and Spanish all sought to expand their territories and influence in North America.

CHAPTER IV
 THE REVOLUTIONARY WAR
 The American Revolutionary War (1775-1783) was fought between the thirteen original colonies and Great Britain. The war resulted in the colonies gaining independence and the formation of the United States of America.

CHAPTER V
 THE WESTWARD EXPANSION
 The early years of the United States were characterized by westward expansion. Settlers moved from the eastern seaboard into the interior, seeking new lands for agriculture and settlement.

CHAPTER VI
 THE CIVIL WAR
 The American Civil War (1861-1865) was fought between the Union and the Confederate States of America. The war was primarily over the issue of slavery and resulted in the preservation of the Union and the abolition of slavery.

CHAPTER VII
 THE RECONSTRUCTION PERIOD
 The Reconstruction Period (1865-1877) followed the Civil War. It was a time of rebuilding the South and integrating African Americans into the political and social life of the United States.

CHAPTER VIII
 THE GROWING ECONOMY
 The late 19th century saw rapid economic growth in the United States. The Industrial Revolution brought about significant changes in manufacturing and transportation, leading to a period of prosperity.

CHAPTER IX
 THE PROGRESSIVE ERA
 The Progressive Era (1890s-1920s) was a period of social and political reform. Reformers sought to address the problems of poverty, corruption, and social inequality that had arisen during the Industrial Revolution.

CHAPTER X
 THE GREAT DEPRESSION
 The Great Depression (1929-1939) was a severe economic downturn that affected the entire world. In the United States, it led to widespread unemployment and hardship, and the implementation of New Deal policies.

CHAPTER XI
 THE SECOND WORLD WAR
 The United States entered the Second World War (1941-1945) on the side of the Allies. The war was a global conflict that resulted in the defeat of the Axis powers and the end of the war.

CHAPTER XII
 THE COLD WAR
 The Cold War (1947-1991) was a period of geopolitical tension between the United States and the Soviet Union. It was characterized by a series of proxy wars and arms races.

CHAPTER XIII
 THE MODERN ERA
 The modern era of the United States (1991-present) has been marked by significant technological advances, globalization, and the end of the Cold War. The United States continues to play a major role in world affairs.

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and change. It begins with the first people who lived on this continent, and continues through the years of exploration, settlement, and the struggle for independence. The story is one of a young nation that has grown into a powerful and influential world power. The history of the United States is a story of the people who have lived here, and the things they have done. It is a story of the challenges they have faced, and the triumphs they have achieved. The history of the United States is a story of the land that we call home, and the people who have made it their own.

PHYSICS DEPARTMENT

PHYSICS 551 - QUANTUM MECHANICS

PROBLEM SET 1

1. A particle of mass m is confined to a one-dimensional infinite potential well of width a . The potential is zero for $0 < x < a$ and infinite elsewhere. The wave function $\psi(x)$ must satisfy the boundary conditions $\psi(0) = \psi(a) = 0$.

(a) Find the first three energy eigenvalues E_1, E_2, E_3 and the corresponding normalized wave functions $\psi_1(x), \psi_2(x), \psi_3(x)$.

(b) Calculate the expectation value of the momentum $\langle p \rangle$ for the ground state $\psi_1(x)$.

2. A particle of mass m is confined to a one-dimensional infinite potential well of width a . The potential is zero for $0 < x < a$ and infinite elsewhere. The wave function $\psi(x)$ must satisfy the boundary conditions $\psi(0) = \psi(a) = 0$.

(a) Find the first three energy eigenvalues E_1, E_2, E_3 and the corresponding normalized wave functions $\psi_1(x), \psi_2(x), \psi_3(x)$.

(b) Calculate the expectation value of the momentum $\langle p \rangle$ for the ground state $\psi_1(x)$.

3. A particle of mass m is confined to a one-dimensional infinite potential well of width a . The potential is zero for $0 < x < a$ and infinite elsewhere. The wave function $\psi(x)$ must satisfy the boundary conditions $\psi(0) = \psi(a) = 0$.

(a) Find the first three energy eigenvalues E_1, E_2, E_3 and the corresponding normalized wave functions $\psi_1(x), \psi_2(x), \psi_3(x)$.

(b) Calculate the expectation value of the momentum $\langle p \rangle$ for the ground state $\psi_1(x)$.

4. A particle of mass m is confined to a one-dimensional infinite potential well of width a . The potential is zero for $0 < x < a$ and infinite elsewhere. The wave function $\psi(x)$ must satisfy the boundary conditions $\psi(0) = \psi(a) = 0$.

(a) Find the first three energy eigenvalues E_1, E_2, E_3 and the corresponding normalized wave functions $\psi_1(x), \psi_2(x), \psi_3(x)$.

(b) Calculate the expectation value of the momentum $\langle p \rangle$ for the ground state $\psi_1(x)$.

5. A particle of mass m is confined to a one-dimensional infinite potential well of width a . The potential is zero for $0 < x < a$ and infinite elsewhere. The wave function $\psi(x)$ must satisfy the boundary conditions $\psi(0) = \psi(a) = 0$.

(a) Find the first three energy eigenvalues E_1, E_2, E_3 and the corresponding normalized wave functions $\psi_1(x), \psi_2(x), \psi_3(x)$.

(b) Calculate the expectation value of the momentum $\langle p \rangle$ for the ground state $\psi_1(x)$.

6. A particle of mass m is confined to a one-dimensional infinite potential well of width a . The potential is zero for $0 < x < a$ and infinite elsewhere. The wave function $\psi(x)$ must satisfy the boundary conditions $\psi(0) = \psi(a) = 0$.

(a) Find the first three energy eigenvalues E_1, E_2, E_3 and the corresponding normalized wave functions $\psi_1(x), \psi_2(x), \psi_3(x)$.

(b) Calculate the expectation value of the momentum $\langle p \rangle$ for the ground state $\psi_1(x)$.

7. A particle of mass m is confined to a one-dimensional infinite potential well of width a . The potential is zero for $0 < x < a$ and infinite elsewhere. The wave function $\psi(x)$ must satisfy the boundary conditions $\psi(0) = \psi(a) = 0$.

(a) Find the first three energy eigenvalues E_1, E_2, E_3 and the corresponding normalized wave functions $\psi_1(x), \psi_2(x), \psi_3(x)$.

CHAPTER I

The first part of the history of the world is the history of the human race. It is a history of progress and of struggle. It is a history of the triumph of the human mind over the forces of nature and of the human will over the forces of fate. It is a history of the growth of the human spirit and of the expansion of the human soul. It is a history of the search for truth and of the quest for wisdom. It is a history of the human race as it has been and as it is and as it will be.

THE HISTORY OF THE HUMAN RACE

The history of the human race is a history of progress and of struggle. It is a history of the triumph of the human mind over the forces of nature and of the human will over the forces of fate.

CHAPTER I

The first part of the history of the world is the history of the human race. It is a history of progress and of the struggle for existence. It is a history of the triumph of the good over the evil, and of the ultimate victory of the just over the unjust.

CHAPTER II

The second part of the history of the world is the history of the human mind. It is a history of the development of the human intellect, and of the progress of human knowledge.

CHAPTER III

The third part of the history of the world is the history of the human soul. It is a history of the development of the human spirit, and of the progress of human morality.

CHAPTER IV

The fourth part of the history of the world is the history of the human body. It is a history of the development of the human physical nature, and of the progress of human health.

CHAPTER V

The fifth part of the history of the world is the history of the human society. It is a history of the development of the human social nature, and of the progress of human civilization.

CHAPTER VI

The sixth part of the history of the world is the history of the human government. It is a history of the development of the human political nature, and of the progress of human justice.

CHAPTER VII

The seventh part of the history of the world is the history of the human religion. It is a history of the development of the human spiritual nature, and of the progress of human faith.

CHAPTER VIII

The eighth part of the history of the world is the history of the human art. It is a history of the development of the human creative nature, and of the progress of human culture.

Plumbers.

Armstrong Michael, City Hotel blk 107 Main. See page 179.
 Davis, Wright & Co, 30 Roxbury. See page 212.

CHAPTER 10

SECTION 10.1

1. Let $f(x) = x^2 + 3x - 5$. Find $f(2)$.

2. Let $g(x) = 2x^3 - 4x^2 + 7x - 1$. Find $g(-1)$.

3. Let $h(x) = x^4 - 2x^3 + x^2 - 3x + 6$. Find $h(0)$.

4. Let $k(x) = 5x^2 - 8x + 3$. Find $k(3)$.

5. Let $m(x) = x^3 + 2x^2 - 5x + 1$. Find $m(1)$.

SECTION 10.2

1. Let $f(x) = x^2 + 3x - 5$ and $g(x) = 2x^3 - 4x^2 + 7x - 1$. Find $(f+g)(x)$.

2. Let $f(x) = x^2 + 3x - 5$ and $g(x) = 2x^3 - 4x^2 + 7x - 1$. Find $(f-g)(x)$.

3. Let $f(x) = x^2 + 3x - 5$ and $g(x) = 2x^3 - 4x^2 + 7x - 1$. Find $(fg)(x)$.

SECTION 10.3

1. Let $f(x) = x^2 + 3x - 5$ and $g(x) = 2x^3 - 4x^2 + 7x - 1$. Find $(f \circ g)(x)$.

2. Let $f(x) = x^2 + 3x - 5$ and $g(x) = 2x^3 - 4x^2 + 7x - 1$. Find $(g \circ f)(x)$.

SECTION 10.4

1. Let $f(x) = x^2 + 3x - 5$ and $g(x) = 2x^3 - 4x^2 + 7x - 1$. Find $(f \circ g)(2)$.

2. Let $f(x) = x^2 + 3x - 5$ and $g(x) = 2x^3 - 4x^2 + 7x - 1$. Find $(g \circ f)(2)$.

SECTION 10.5

1. Let $f(x) = x^2 + 3x - 5$ and $g(x) = 2x^3 - 4x^2 + 7x - 1$. Find $(f \circ g)(-1)$.

2. Let $f(x) = x^2 + 3x - 5$ and $g(x) = 2x^3 - 4x^2 + 7x - 1$. Find $(g \circ f)(-1)$.

SECTION 10.6

1. Let $f(x) = x^2 + 3x - 5$ and $g(x) = 2x^3 - 4x^2 + 7x - 1$. Find $(f \circ g)(-2)$.

2. Let $f(x) = x^2 + 3x - 5$ and $g(x) = 2x^3 - 4x^2 + 7x - 1$. Find $(g \circ f)(-2)$.

SECTION 10.7

1. Let $f(x) = x^2 + 3x - 5$ and $g(x) = 2x^3 - 4x^2 + 7x - 1$. Find $(f \circ g)(-3)$.

2. Let $f(x) = x^2 + 3x - 5$ and $g(x) = 2x^3 - 4x^2 + 7x - 1$. Find $(g \circ f)(-3)$.

THE SENTINEL PRINTING COMPANY,
PUBLISHERS OF THE KEENE EVENING
SENTINEL AND NEW HAMPSHIRE SEN-
TINEL, AND BOOK AND JOB PRINTERS.

The New Hampshire Sentinel was established in 1799 by John Prentiss. The first issue appeared March 1. Mr. Prentiss retained an interest in it until 1847. Through successive ownerships by firms and individuals, the Sentinel has grown from four small pages until it has reached its present size of ten pages, or seventy columns. During the '50s the American News, edited by Samuel Woodward, was united with it. In 1890 a daily edition was begun. The Sentinel was first printed in a low wooden building on Main street near the corner of Winchester street. After a few months, the office was removed to a building north of what is now Lane's block. In 1816 it was transferred across the street, and in 1825 was taken to Prentiss's (now Whitcomb's) block. In 1871 it was moved to the Bank block, and in 1893 it first occupied its present quarters in the Sentinel Building.

BICYCLES REPAIRED

and Thoroughly Overhauled, Cleaned and Adjusted.

THE WHITCOMB FARM

ON WINCHESTER STREET,

Has been stocked with carefully selected Jersey Cows.

The Proprietor is prepared to furnish Pure Jersey Milk to families desiring the best article in the market.

The cows are pastured on the farm and do not get heated by being over-driven a long distance by irresponsible boys. They feed upon the best of grass, hay and corn meal (no poisonous substitutes being used), thus making it safe to use the milk during the heated term in families where there are young children.

Milk will be delivered night and morning. Any one desir-

ing the best milk that can be produced, may procure it by addressing

L. W. SAFFORD, Prop'r Whitcomb Farm.

Or FRED and FRANK WHITCOMB, 45 Central Square.

THE PROPRIETOR OF

Horatian Park on Beech Mountain,

KEENE, N. H.

Would respectfully announce to the public, that he has fitted up and improved this famous resort with the especial view of entertaining summer tourists and pleasure seekers, at moderate rates. Three miles of pleasant carriage roads have been constructed, through dense forest and delightful groves, interspersed by frequent openings where magnificent views of the city of Keene, and the surrounding country are obtained. Horatian Tower, forty feet high, on the summit of the mountain, affords an extensive view of Monadnock and the mountains of Vermont and Massachusetts. A pavilion near the tower, affords accommodation for select parties of visitors. A commodious cottage will be ready for occupancy at the opening of the season, and more will be erected during the summer. Numerous groves are at the disposal of picnic parties. Desirable cottage and hotel sites for sale. No pains will be spared by the proprietor to make this Park one of the finest summer resorts in New Hampshire.

Address H. L. GOODNOW,

Horatian Park, Keene, N. H.

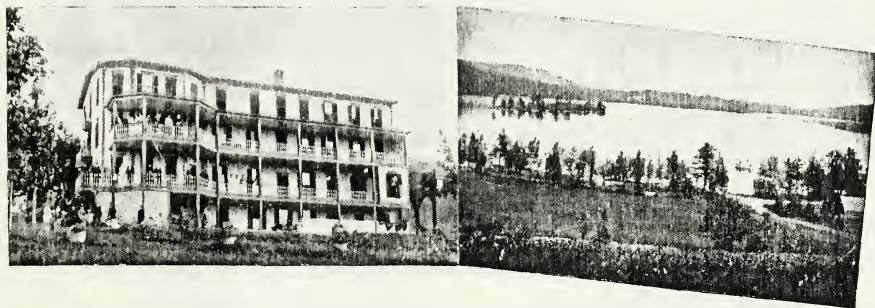

UNION OF THE TWO STATES

The Union of the Two States is a subject of great importance to the people of the United States. It is a subject which has been discussed for many years, and it is one which has attracted the attention of the people of all countries. The Union of the Two States is a subject which has been discussed for many years, and it is one which has attracted the attention of the people of all countries. The Union of the Two States is a subject which has been discussed for many years, and it is one which has attracted the attention of the people of all countries.

Prospect House, at Spofford Lake,
CHESTERFIELD, N. H.

Open for the reception of permanent boarders, pleasure parties and summer tourists, from June to October. Fine rooms, pure water and air. All the appointments of a first-class summer hotel. The best of bass fishing. Elegant beach for bathing. A great variety of drives and rambles. Thoroughly rural. This House is situated on a prominent eminence one thousand feet above the level of the sea; ten miles from Keene and Brattleboro, with telephonic and daily stage connections with each.

Terms, \$2 per day; board, \$7 to \$14 per week. Circulars of

DAILY THE SENTINEL WEEKLY

KEENE EVENING SENTINEL.

The only daily paper published in Southwestern New Hampshire. Ably edited and well printed, it gives all the local and telegraphic news up to time of going to press. Although started in 1890, it immediately gained public favor and is now read by practically every family in the city. Delivered free by carrier or mail at 50 cents per month; \$5 per year.

NEW HAMPSHIRE SENTINEL.

The representative weekly journal of Cheshire County, having been published continuously since 1799. Enlarged to a ten-page paper, with seventy columns, the Sentinel now gives its readers much more reading matter than any other paper in the county, the Evening Sentinel affording facilities for introducing many new features. \$1.50 per year, in advance.

In politics, the Sentinel is Republican, but as a newspaper it will fully and fairly present the facts in all political and other controversies, discussing them with candor and honesty.

Its regular and special correspondents furnish interesting and newsy letters for every issue.

As the circulation of the weekly Sentinel is larger than that of all other papers in the County combined, shrewd advertisers will see that their advertisements are inserted in the Sentinel. Rates low, and liberal contracts made.

JOB PRINTING.

Having by far the largest office in this section, fully equipped with new type and modern machinery, etc., we can furnish anything in the printing line from an address card to a mammoth poster, and at shorter notice than is usually required. Prices lower than Boston or New York for same quality of work.

SENTINEL PRINTING CO.
