

# Significant Roadside Flora in the Plantagenet Shire

Roadside populations of rare flora are marked by yellow "hockey stick" markers to prevent inadvertent disturbance. These species are either limited in distribution and/or numbers, and are threatened by weeds, fire, disease and salinity.

If you have any queries please contact the Threatened Flora Officer at DEC Albany on (08) 9842 4500

Map to be used as guide only – information is subject to change.  
Thank you for helping to conserve these rare species.

*Caladenia christinea*

*Banksia ionthocarpa*

*Orthrosanthos muelleri*

*Conostylis misera*

*Verticordia harveyi*

*Banksia pseudoplumosa*

*Lambertia orbifolia*

*Banksia goodii*
