

## *Erratum*

### **Binding of Aprindine and Moxapridine to Human Serum, $\alpha_1$ -Acid Glycoprotein and Serum of Healthy and Diseased Humans**

O. Teirlynck<sup>1</sup>, F. M. Belpaire<sup>1</sup>, and F. Andreassen<sup>2</sup>

<sup>1</sup>Heymans Institute of Pharmacology, University of Gent Medical School, Gent, Belgium and <sup>2</sup>Division of Clinical Pharmacology, Institute of Pharmacology, University of Aarhus, Aarhus, Denmark

Eur J Clin Pharmacol (1982) 21: 427–431

In the title of the above-mentioned paper the word "albumin" was forgotten; it should read:

Binding of Aprindine and Moxapridine to Human Serum Albumin,  $\alpha_1$ -Acid Glycoprotein and Serum of Healthy and Diseased Humans.

## *Information*

### **Methods in Clinical Pharmacology**

3<sup>rd</sup> Postgraduate Course

will be given by the Department of Clinical Pharmacology of the University of Berne and will take place

February 28 to March 4, 1983
