Vermont's Local Technical Assistance Program (LTAP)

Local phone: (802) 828-3537 - Online: www.vermontlocalroads.org
VTrans Training Center | 1716 U.S.Route 302 | Berlin, VT 05602

The LTAP/TTAP Story

Local roads, highways and bridges are vital to our economic well-being and quality of life. Three million miles of roads and over 300,000 bridges in the United States are owned and maintained by local governments. Most of the national infrastructure and safety problems we currently face exist on these roads.

Thirty years ago, the Federal Highway Administration answered a pressing need for training and technical information at the local level by creating the Local Technical Assistance Program (LTAP) and the Tribal Technical Assistance Program (TTAP). These programs bring transportation technology and training products and services to local governments.

Our Mission

We work **“to foster a safe, efficient, and environmentally sound surface transportation system by improving skills and increasing knowledge of the transportation workforce and decision makers.”** This includes helping local governments build and maintain their infrastructure and workforce efficiently, teaching road workers how to do their jobs safely and effectively, and transferring information and resources to assist. Our services are available to every municipality in the state at little to no cost.

Who We Serve

- Municipal Transportation Employees
- State Agency of Transportation Employees
- Elected Municipal Officials
- Engineers
- Regional Planners

How We Fulfill Our Mission

Workshops

Our workshops range from 2 to 6 hours and cover a variety of topics within five categories: environmental, equipment, technical, safety & supervisory. We offer a Roads Scholar Program with graduated levels of achievement dependent upon hours of training completed within the 5 categories. Our workshops continue to be an evolving information transfer, we look to develop and offer workshops requested by Vermont's transportation workforce. We now offer mini-workshops that cover requested topics at Road Foremen meetings organized in partnership with Vermont's Regional Planning Commissions (RPCs).

Technical Assistance

We address technical service requests by phone, e-mail, or on site. Staff can visit with highway departments and select boards to discuss a local road situation. We take any request regarding a local transportation issue. If we are not the best source to answer the question we have a number of contacts and partnering agencies and organizations to assist.

Communications

There are a number of ways we share information:

- Our quarterly **newsletter** is available in either print or electronically. Circulation is approximately 2,800. All issues are archived online.
- Our **website**, www.vermontlocalroads.org is the place to go for numerous resources along with up-to-date workshop information and registration. We now offer a peer resource exchange to share transportation stakeholder developed resources.
- Our **list serve** is our growing tool to connect Vermont municipalities and other relevant stakeholders throughout the State through an email system. Members of the list can pose questions to garner advice and best practices from fellow members who have already tackled the issue in question. Vermont Local Roads also uses the list to disseminate information electronically. Currently there are 416 subscribers on the Listserve.

- For social media, we utilize **Facebook** and a **YouTube Channel**. We plan to tailor these media outlets to best reach the training and information needs of our clients.
- **Written resources** addressing a number of transportation topics, along with a limited number of **videos** are available for free or loan. Updating and expanding this information offering is a primary center objective.

Our Partners

We partner with a number of stakeholders statewide and nationally. A snapshot of them includes:

- The Federal Highway Administration (FHWA)
- Vermont Municipal Highway Assoc. (VMHA)
- Regional Planning Commissions (RPCs)
- Occupational Safety & Health Admin. (OSHA)
- Vermont League of Cities & Towns (VLCT)
- AASHTO, APWA, ARTBA, ATSSA, NACE, TRB, FTA
