## Preface

### A. Acknowledgements for Financial Support

From March to July 1989 and from August 1990 to the present Dr. Reed has been working with the photographs at the Ancient Biblical Manuscript Center and from August 1989 through July 1990 Dr. Reed worked with the fragments and photographs at the Rockefeller Museum. A Dorot Fellowship made it possible for Dr. Reed to work on the project from March to July 1989 at the ABMC and spend a year in Jerusalem working on revising and updating these lists. The Ancient Biblical Manuscript Center has provided funding for work at the Center from August 1990 through June of 1991. Additional funding has been made available since July 1991 by grants from the Dorot Foundation, the Annenberg Institute and the National Endowment for the Humanities.

### B. Purpose of this fascicle

Our goal is to produce a computerized database which will include information about photographs, documents and museum plates of the Dead Sea Scrolls. A computerized database will allow scholars to conduct different searches according to their particular research needs.

It is our intention to make the information in the lists available to scholars as quickly as possible. Since it will be some time before the computerized database is complete, we have decided to compose preliminary lists of each of the particular collections (such as Cave 1, the Minor Caves, Murabba'at and 4Q128-4Q186) and make these lists available to interested people in photocopy form. We wish to emphasize that these lists are still preliminary. The final database will include more and updated information.

Much care has been taken to ensure that the information in these lists is accurate, but inevitably errors enter such a work. We would appreciate receiving corrections or further information concerning the photographs of 4Q364-4Q481 at the Ancient Biblical Manuscript Center, P.O. Box 670, Claremont, CA 91711. Phone (714) 621-6451. Fax number: (714) 621-1481.

### C. Assistance for Work

The production of these lists has involved the skills of many people. Over the years some preliminary and partial lists were produced by the original editors and by museum officials. The most comprehensive lists before I began my work were prepared by Elisha Qimron in 1981. Further updates were added in 1985 to these lists by Qimron and John Strugnell. All of these lists were made available to me by John Strugnell when I began updating the materials. I wish

to acknowledge their contribution without which my work would have been far more difficult.

The Israel Antiquities Authority staff at the Rockefeller Museum helped me find appropriate fragmentary and photographic materials at the museum. Joe Zias, curator, gave me access to the materials. Ruth Peled, Marcia Sharabani and Donald Ariel also provided assistance. Ayala Sussmann and Ronny Reich allowed me access to the photographs. Magen Broshi aided us in finding particular plates that had been moved to the Shrine of the Book for storage or conservation. The members of the Advisory Committee, composed of Amir Drori, Ayala Sussmann, Jonas Greenfield, Magen Broshi and Shemaryahu Talmon, have provided editorial assistance in the overall preparation of these lists.

The staff of the Ancient Biblical Manuscript Center helped me obtain access to the materials, and provided administrative help, guidance and advice. James A. Sanders, president, has provided overall direction for the project. Former directors, Peter Pettit and Steve Delamarter, as well as the current acting director, Bruce Zuckerman, and Marilyn Lundberg, Associate Director, have provided much support.

Editors of the materials have provided a great deal of information. John Strugnell, international editor-in-chief while I was in Jerusalem, provided help in updating these lists and answering various questions that arose while working on them. Current editors, Emanuel Tov, Eugene Ulrich and Émile Puech have also provided assistance. Esti Eshel and Stephen Pfann provided corrections and editorial assistance.

Marilyn Lundberg compiled the list of the card concordance sigla and their present day equivalents. Randall Reed compiled the bibliographic data and provided word processing assistance.

Every item of the lists here has been checked and verified by us at the Ancient Biblical Manuscript Center or in Jerusalem at the Rockefeller Museum.

The Ancient Biblical Manuscript Center is an official depository of the 4Q364-4Q481 photographs of the "PAM"

collection. Scholars are welcome to come to the Center and view photographs of these documents. A number of the PAM photographs inventoried in this fascicle can be found in A Facsimile Edition of the Dead Sea Scrolls: Prepared with an Introduction and Index by Robert H. Eisenman and James M. Robinson (Washington, D.C.: Biblical Archaeology Society, 1991). A microfilm prepared by Robert Schlosser of the Huntington Library is now available which includes the complete PAM collection as well as photographs from other collections .

## I. Introduction

This fascicle contains information about the collection of Cave 4 documents assigned to John Strugnell for editing: 4Q364-4Q481.

Information concerning the 4Q364-4Q481 documents is arranged in three lists: documents, photographs and museum plates. In the document list the documents are listed sequentially according to their designated numbers by Strugnell. Included in this list are the photographs which pertain to each document as well as the present location of the fragments. In the photograph list the photographs which pertain to these documents are given according to the inventory numbers assigned in the PAM photographic collection. The museum plate list includes a list of the museum plates which contain these materials.

Since published photographs are called "plates," it can be confusing to refer to the fragments placed between plates of glass in the museum as "plates." Editor Emanuel Tov, prefers that the term "inventory number" be used for what is here called "museum plate."

The document list is cross-referenced to the other two lists. It is expected that scholars would first refer to this list and then if they want further information about the photographs or museum plates they can refer to the other two lists. There is some duplication of information in the three lists but there is often no one-to-one correspondence among documents, photographs and museum plates. All three are necessary to provide all of the information that scholars may need in their research.

The photographs in the "PAM" series do not have dates but since they were assigned inventory numbers soon after they were photographed one can generally differentiate earlier from later photographs by the inventory number. Generally the latest photographs in the PAM series (43.000 and 44.000 series) are better organized and closer to the format in which the documents will be published than the earlier photographs (42.000, 41.000, 40.000 series). Two early series are particularly marked. A set of photographs of materials bought by the government are marked with a G (G1-G66 for 40.575-40.637, 40.986-40.990). A second set of excavation photographs for fragments found during the

excavation of Cave 4 are marked with an E (E1-E22 for 40.962-40.985).

Earlier photographs contain a more mixed grouping of fragments. Often fragments have not yet been "reconstructed," i.e. fitted together, on these early photographs. Sometimes it is possible to see joins where fragments were fitted together on later photographs. The earlier photographs can help one see which fragments have been reconstructed.

The early 4Q photographs have miscellaneous fragments from the whole 4Q collection. These photographs have not yet been completely inventoried. Identification of 4Q documents outside of 4Q364-4Q481 have also not been consistently designated on these earlier photographs. As work progresses on other 4Q collections, the contents of these earlier photographs will need to be updated. More photographs of some of the fragments from 4Q364-4Q481 may also be identified.

The focus of attention in this fascicle is on the documents 4Q364-4Q481. On some photographs, of course, documents from other collections are found. Full bibliographies of these documents are not given.

For bibliographic information on 4Q364-4Q481 documents see Joseph A. Fitzmyer, The Dead Sea Scrolls: Major Publications and Tools for Study (Scholars Press, 1990); F. García Martínez, "Lista de MSS procedentes de Qumran," Henoah 11 (1989), 149-232. The sigla suggested for the documents 4Q364-4Q481 by Fitzmyer are used in this fascicle. For general information see Stephen A. Reed, "Survey of the Dead Sea Scrolls Fragments and Photographs at the Rockefeller," BA 54 (March 1991) 44-51.

The Strugnell (SL) numbers listed for certain plates have been derived from various labels and/or lists. Sometimes they do not correspond with the SL numbers found in the card catalogue. Whenever the SL documents were rearranged the SL numbers were changed. Care should be taken not to depend too much on these SL numbers.

Several of the documents have been moved around to make room for other documents. This means that at present the sigla 4Q466-4Q468 are not assigned to documents.

Strugnell sometimes indicated a separate number for each plate of a document. Thus the two plates of Psalms of Joshua<sup>a</sup> would be 4Q378.1 for museum plate 167 and 4Q378.2 for museum plate 168. That system has not been maintained here.

All of these documents have been edited to some extent by John Strugnell. Only collaborators on these documents are given for the following documents or published documents edited by Strugnell. Strugnell had reassigned about one third of the documents he was editing to students and other scholars. These are indicated in this fascicle. The international editorial team is currently reassigning more documents to other scholars. Emanuel Tov is publishing a list with these new editors.

As new editors work on the material, changes are made. In the case of the Pseudo Ezekiel documents 4Q385-391, Devorah Dimant has subdivided several of these documents into other documents. What was formerly 4Q385 Ps Ezek<sup>a</sup> now includes 4Q385 Ps Ezek<sup>a</sup>, 4Q385A Ps Mos<sup>a</sup>, and 4Q385B Apoc Jer<sup>c</sup>.

Changes in names and numbers of documents will probably continue as the work of editing proceeds. Users should remember that this fascicle is preliminary and that changes will no doubt need to be made for some time in these lists.
