DISCOVER HELIX

Helix Audio is high-performance European design where function closely follows form. Like a German sports car, each handcrafted design is precision-built using the latest technology and materials.

Helix performance is achieved through truly integrated system principles.

This approach looks at how each audio component works together; amplifier, loudspeaker and subwoofer. From the value packed MATCH line to the battle ready COMPETITION line, each component is seamlessly matched to provide the highest level of audio fidelity!

“COMPETITION” SERIES

Competition Amplifier Features:

- 1% Grade Components
- 24-Karat Gold Plated Connectors
- 32 Power Transistors
- 8V Signal Input
- ADC (Anti-Distortion Choke)
- Bass Boost Control

- CPS (Colour Protection System)
- Double Printed Plexiglass
- Double Sided Copper Plated PC Boards
- Intelligent Frequency Control
- Intelligent Switching Power Supply
- Mono/Stereo Capable

- NFI (Noise Free Input)
- RMI (Real Mixed Input)
- Separate Speaker Circuit Protection
- SMD (Surface Mount Devices)
- Temperature Optimized Heatsink

ESPRIT Series SPEAKERS:

Utilizing a fibre-plastic compound with a woven structure delivers the necessary stability for the diaphragms to provide immunity to resonances. The mechanical properties of the material make it ideal for loudspeakers due to the combination of low weight with high failure strain. The result in the Esprit Full-range line is Powerful, unadulterated sound quality at the highest level.

Remote Start Data Modules with Plug-in Harness

Data Start modules with Plug-in Harness allow you to remote start select vehicles from the OEM keyless transmitter*, eliminating the need for a traditional remote start system. You can also upgrade the systems with our optional RF kits or Car Connection Pro for extended operating range. *Some systems require the optional RF Kit to control remote start functions.

Complete 100% Plug-n-Play remote starter solution for most BMW and Mercedes Push-to-Start vehicles.

Security / Remote Starter Interfaces

iDataLink bypass modules enable two-way communication with most aftermarket remote starter or vehicle security peripherals using our proprietary connector. iDataLink modules can be flashed or updated online by using our patented Weblink Updater Cable to give you the latest software available with more vehicle choices with less inventory.

For more information regarding iDataLink products or applications visit www.idatalink.com

Web-programmable radio replacement interfaces for integration with factory systems including steering wheel controls, media player, hands-free telephone, voice commands, and satellite radio modules. Works with iDataLink-compatible radios. Basic radio replacement features also available with non-iDataLink-compatible radios.

Clearshield Paint Protection Film

With Clearshield paint protection film, the most vulnerable areas of a vehicle have an extra measure of protection.

Clearshield is the latest, most advanced development in paint protection. Nearly undetectable, protective urethane film is designed to resist impact from everyday damaging road hazards such as gravel, debris, stones, road salt and even insects. Clearshield is ComputerCut to vehicle's make and model so it fits like a glove on chip-prone surfaces, such as the hood, mirrors and bumpers, requiring no drilled holes or special fasteners like other protection products. Clearshield is backed by a strong, 5-year warranty and requires no special maintenance simply clean the vehicle the same way you always have.

Say goodbye to unsightly bras and bug shields! Clearshield is the clear choice for paint protection!

All Clearshields are custom computer cut by vehicle for a precision fit, finish and ease of installation.
