

# Kingston Digital fordobler kapaciteten på hukommelseskort

- **Kapaciteter fordoblet på microSDHC, microSDXC; SDHC/SDXC**

Kingston Digital Europe Co LLP, en del af Kingston Technology Company Inc., der er førende indenfor hukommelsesprodukter i hele verden, annoncerede i dag nye kapaciteter på [Class 10 UHS-I microSD](#) og [Class 10 UHS-I SDHC/SDXC](#) kort.

[Class 10 UHS-I microSD](#) kort er nu tilgængelig med 128GB kapacitet\*. Perfekt til apps, musik, foto og video som bruger en betragtelig del af lagringskapaciteten på en smartphone eller tablet. Kortet er komptibelt med microSDHC og microSDXC enheder og den hurtige UHS-I hastighed tillader brugerne at tage billeder og video uden afbrydelser.

Kingston's [Class 10 UHS-I SDHC/SDXC](#) kort benytter UHS-I teknologi hvilket giver imponerende hastigheder. Kortet er nu tilgængeligt i kapaciteter op til 256GB. Dermed kan brugere optage mere video i fuld 1080p HD og 3D uden at skulle stoppe og skifte kort. Med hastigheder op til 90MB/sek (læs) og 45MB/sek (skriv) \*\* er dette kort meget hurtigere end standard Class 10 SDHC/SDXC kort. Fotografer kan fortsætte optagelser meget længere i kapacitetskrævende formater som RAW og JPEG. Kortets høje løbende overførselshastighed muliggør bedre burst mode brug og reducerer afbrydelser ved optagelse af videosekvenser.

"Kingston Technology is proud to launch these new high-capacity and high-speed memory cards," udtalte Valentina Vitolo, Flash memory business manager, Kingston®. "In a world where most users carry around more data than ever before on mobile devices, the larger capacities and faster speeds help ensure that customers have the best possible solutions available to them to streamline their mobile lives."

[Class 10 UHS-I microSD](#) kort er tilgængelige i 16GB, 32GB, 64GB og 128GB kapaciteter. [Class 10 UHS-I SDHC/SDXC](#) kort er tilgængelige i 16GB, 32GB, 64GB, 128GB og 256GB kapaciteter. Begge er understøttet af livstidsgaranti, gratis teknisk support og den legendariske Kingston pålidelighed. For mere information, besøg [www.kingston.com](http://www.kingston.com).

## Kingston Class 10 UHS-I microSDHC/SDXC Features and Specifications:

- **Versatile:** when combined with the adapter, can be used as a full-size SDHC/SDXC card
- **Compliant:** with SD Card Association specification
- **Compatible:** with microSDHC & microSDXC host devices; not compatible with standard microSD-enabled devices/readers; microSDXC cards are not compatible with microSDHC-enabled devices/readers
- **Warranty/support:** lifetime warranty, free technical support
- **Capacities\*:** 4GB, 8GB, 16GB, 32GB, 64GB and 128GB
- **High-Speed Class Rating\*\*:**
  - Class 10 UHS-I: 10MB/s minimum data transfer rate
- **microSDHC/SDXC Card Dimensions:** 11mm x 15mm x 1mm
- **SD Adapter Dimensions:** 24mm x 32mm x 2.1mm
- **Operating Temperature:** -25°C to 85°C
- **Storage Temperature:** -40°C to 85°C

\*Some of the listed capacity on a Flash storage device is used for formatting and other functions and thus is not available for data storage. As such, the actual available capacity for data storage is less than what is listed on the products.
