Corporate Governance Statement

Regulatory framework

Outokumpu Oyj, the Group's parent company, is a public limited liability company incorporated and domiciled in Finland. In its corporate governance and management, Outokumpu Oyj complies with Finnish legislation, the company's Articles of Association and the Corporate Governance Policy resolved and approved by the company's Board of Directors.

Outokumpu Oyj follows the Finnish Corporate Governance Code (available at <http://cgfinland.fi/en/>), effective as of October 1, 2010 issued by the Securities Market Association and adopted by the Nasdaq Helsinki stock exchange. Outokumpu Oyj complies with all regulations and recommendations issued by Nasdaq Helsinki.

Tasks and responsibilities of governing bodies

The governing bodies of the parent company Outokumpu Oyj, i.e. the General Meeting of Shareholders, the Board of Directors and the President and Chief Executive Officer (CEO), have the ultimate responsibility for Group management and Group operations. The Outokumpu Leadership Team reports to the CEO and the Leadership Team is supporting and assisting the CEO in the efficient management of the Group's operations. Outokumpu's primary corporate governance information source is the Group's corporate governance website at www.outokumpu.com/en/investors/Governance/. Please visit the website for the latest Corporate Governance Statement and the latest corporate governance information.

Outokumpu's organizational structure

Business Areas

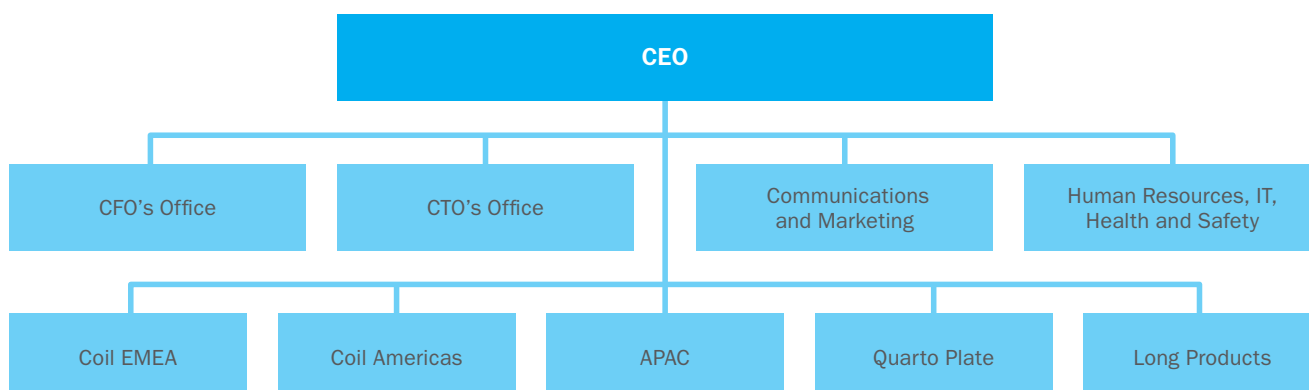

Until August 31, 2014, Outokumpu was organized into four business areas, namely (i) Stainless EMEA, (ii) Stainless Americas, (iii) Stainless APAC and (iv) Specialty Stainless. As of September 1, 2014, Outokumpu is organized into the following five business areas with responsibility for sales, profitability, production and supply chain management: (i) Coil EMEA, (ii) Coil Americas, (iii) APAC, (iv) Quarto Plate and (v) Long Products. With the new business area structure, Specialty Stainless ceased to exist and Quarto Plate and Long Products, which had formerly been business lines, became business areas. In addition to these five business areas, Outokumpu will continue to have strong group functions to drive group-wide efficiency and alignment in key business processes.

General Meeting of Shareholders

The General Meeting of Shareholders convenes at least once a year. Under the Finnish Companies Act, certain important decisions such as the approval of financial statements, decisions on dividends and increases or reductions in share capital, amendments to the Articles of Association, and election of the Board of Directors and auditors fall within the exclusive domain of the General Meeting of Shareholders.

The Board of Directors convenes a General Meeting of Shareholders. The Board of Directors can decide to convene a General Meeting on its own initiative, but is obliged to convene a General Meeting if the

Organization

Organization and business areas as of September 2014.

auditor or shareholders holding at least 10% of Outokumpu's shares so request. In addition, each shareholder has the right to bring before a General Meeting any matter that falls within the domain of the General Meeting, provided that a written request to do so has been received by the Board of Directors early enough to allow the matter to be placed on the agenda included in the notice announcing the General Meeting. According to its Articles of Association, Outokumpu has only one single class of shares and all shares have equal voting rights at General Meetings.

In 2014 two extraordinary general meetings were convened by the Board of Directors.

Board of Directors

The general objective of the Board of Directors is to direct Outokumpu's business in a manner that secures a significant and sustained increase in the value of the company for its shareholders.

Board members offer their expertise and experience for the benefit of the company. The tasks and responsibilities of the company's Board of Directors are determined on the basis of the Finnish Companies Act, as well as other applicable legislation. The Board of Directors has general authority to decide and act in all matters not reserved for other corporate governance bodies by law or under the provisions of the company's Articles of Association. The general task of the Board of Directors is to organize and oversee the company's management and operations. In all situations, the Board of Directors must act in accordance with the company's best interests.

The Board of Directors has established rules of procedure which define its tasks and operating principles in the Charter of the Board of Directors. The main duties of the Board of Directors are as follows:

With respect to directing the company's business and strategies:

- To decide on Outokumpu's basic strategy and long-term targets and monitor their implementation.
- To decide on annual business plans.
- To decide on annual limits for the Group's capital expenditure, monitor related implementation, review quarterly plans and decide on changes.
- To decide on major and strategically important investments.
- To decide on major and strategically important business acquisitions and divestments.
- To decide on any significant financing arrangements.
- To decide on any other commitments by any Group companies that are out of the ordinary in terms of either their value or nature, taking into account the size, structure and field of the Group's operations.

With respect to organizing the company's management and operations:

- To nominate and dismiss the CEO and monitor his performance and to decide on his terms of service, including incentive schemes, on the basis of a proposal made by the Board's Remuneration Committee.
- To nominate and dismiss members of the Outokumpu Leadership Team and to define their areas of responsibility. The Board of Directors has authorized the Remuneration Committee to determine the terms of service, including incentive schemes of the Outokumpu Leadership Team members other than the company's CEO.

- To monitor the adequacy and allocation of the Group's top management resources.
- To decide on any significant changes to the Group's business organization.
- To define the Group's ethical values and working methods and the principles of the incentive system.
- To ensure that policies outlining the principles of corporate governance are in place.
- To ensure that policies outlining the principles behind managing the company's insider issues are being observed.
- To ensure that the company has guidelines for any other matters which the Board deems necessary and which fall within the scope of the Board's duties and authority.

With respect to the preparation of matters to be resolved by General Meetings of Shareholders:

- To establish a dividend policy and issue a proposal on dividend distribution.
- To make other proposals to General Meetings of Shareholders.

With respect to financial control and risk management:

- To discuss and approve interim reports and annual accounts.
- To monitor significant risks related to the Group's operations and the management of such risks.
- To ensure that adequate procedures concerning risk management are in place.
- To monitor financial position, liquidity and debt maturity structure.

The Board of Directors also assesses its own activities on a regular basis.

The Board of Directors shall have a quorum when more than half of its members are present. A decision by the Board of Directors shall be the opinion supported by more than half of the members present at a meeting. In the event of a tie, the Chairman shall have the casting vote.

The Annual General Meeting elects the Chairman, the Vice Chairman and the other members of the Board of Directors for a term expiring at the close of the following Annual General Meeting. The entire Board of Directors is therefore elected at each Annual General Meeting. A Board member may be removed from office at any time by a resolution passed by a General Meeting of Shareholders. Proposals to the Annual General Meeting concerning the election of Board members which have been made known to the Board of Directors prior to the Annual General Meeting will be made public if such a proposal is supported by shareholders holding a minimum of 10% of all the company's shares and voting rights and the person being proposed has consented to such nomination.

Under the company's Articles of Association, the Board shall have a minimum of five and a maximum of twelve members. A Board consisting of eight members was elected at the 2014 Annual General Meeting. The Board of Directors meets at least five times each year. In 2014, the Board of Directors met 14 times and the average attendance rate was 99%.

See the Members of the Board of Directors on p. 12.

Board committees

The Board of Directors has set up two permanent committees consisting of Board members and has confirmed rules of procedure for these committees. Both committees report to the Board of Directors.

The Audit Committee comprises four Board members. The rules of procedure for and responsibilities of the Audit Committee have been established in the Charter of the Audit Committee approved by the Board of Directors. The task of the Audit Committee is to deal with matters relating to financial statements, auditing work, internal controls and compliance matters, the scope of internal and external audits, fees paid to auditors, the Group's tax position, the Group's financial policies and other procedures for managing Group risks. In addition, the Audit Committee prepares a recommendation for the Annual General Meeting concerning the election of an external auditor and auditing fees. The Audit Committee met six times during 2014 and the average attendance rate was 96%.

The Remuneration Committee comprises the Chairman of the Board and three other Board members. The rules of procedure for and responsibilities of the Remuneration Committee have been established in the Remuneration Committee Charter approved by the Board of Directors. The task of the Remuneration Committee is to prepare proposals for the Board of Directors concerning the appointment of the company's top management and principles relating to the compensation they receive. The Board of Directors has authorized the Remuneration Committee to determine the terms of service and benefits enjoyed by the Outokumpu Leadership Team members other than the company's CEO. The Remuneration Committee met five times during 2014 and the average attendance rate was 94%.

¹⁾ Due to local legislation, the possible LTI reward will be paid in cash instead of shares.

To handle specific tasks, the Board of Directors can also set up temporary working groups consisting of Board members. These working groups report to the Board of Directors. A temporary working group, the Board Finance Working Group, was set up during 2013 and the working group comprised the Chairman and Vice Chairman of the Board and one other Board member. The main task of the working group was to oversee and review in greater detail the status of and activities relating to the company's strategic roadmap, capital structure, balance sheet, major transactions, major corporate finance activities and other matters having strategic significance for the company. The Board Finance Working Group was discontinued in early 2014.

Shareholders' Nomination Board

Outokumpu's Annual General Meeting in 2012 resolved to establish a Shareholders' Nomination Board to annually prepare proposals to the Annual General Meeting for the election, composition and remuneration of the members of the Board of Directors.

In addition, the Annual General Meeting adopted a Charter of the Shareholders' Nomination Board, which regulates the nomination and composition, and defines the tasks and duties of the Nomination Board. According to the Charter, the Nomination Board consists of the representatives of Outokumpu's four largest shareholders, registered in the Finnish book-entry securities system on October 1, who accept the assignment and that the Chairman of the Board should act as an expert member of the Nomination Board.

Holdings by a shareholder who under the Finnish Securities Markets Act has the obligation to disclose changes in shareholdings (flagging obligation) that are divided into several funds or registers will be summed up when calculating the share of all the voting rights, provided that the shareholder presents a written request to that effect to the Chairman of the Company's Board of Directors no later than September 30 preceding the Annual General Meeting. Should a shareholder not wish to use its nomination right, the right transfers to the next largest shareholder who would otherwise not have a nomination right.

Shareholders with the right to appoint representatives to the Nomination Board in 2014 were: Solidium Oy, Varma Mutual Pension Insurance Company, AC Invest Four BV and the Social Insurance Institution of Finland. These shareholders chose the following individuals as their representatives on the Nomination Board: Kari Järvinen, Managing Director of Solidium Oy; Pekka Pajamo, CFO of Varma Mutual Pension Insurance Company and Panu Routila, CEO of Ahlström Capital

Oy and Tuula Korhonen, Investment Director of the Finnish Social Insurance Institution. Kari Järvinen was elected as Chairman of the Nomination Board and Jorma Ollila, Chairman of the Outokumpu Board of Directors, served as an expert member. The Nomination Board has submitted its proposals regarding Board composition and director remuneration to Outokumpu's Board of Directors, and the Board has incorporated these proposals into the notice convening the Outokumpu 2015 Annual General Meeting of Shareholders.

CEO and deputy to the CEO

The Chief Executive Officer (CEO) is responsible for the company's operational management, in which the objective is to secure significant and sustainable growth in the value of the company for its shareholders.

The CEO prepares matters on which decisions are to be made by the Board of Directors, develops the Group's operations in line with the targets agreed with the Board of Directors, and ensures the proper implementation of Board decisions. The CEO is also responsible for ensuring that existing legislation and applicable regulations are observed throughout the Group.

The CEO chairs the meetings of the Outokumpu Leadership Team. The deputy to the CEO is responsible for attending to the CEO's duties in the event that the CEO is prevented from doing so. Since 2011, the Group's Chief Financial Officer has acted as deputy to the CEO.

Leadership Team

The Outokumpu Leadership Team assists the CEO in the overall management of Outokumpu's business. Members of the team have extensive authority in their individual areas of responsibility and their duty is to develop the Group's operations in line with the targets set by the Board of Directors and the CEO.

At the end of 2014, the members of the Outokumpu Leadership Team held the following positions:

- President and Chief Executive Officer
- Executive Vice President – Chief Financial Officer
- President – Coil EMEA
- President – Coil Americas
- President – APAC
- President – Quarto Plate
- President – Long Products
- Executive Vice President – Chief Technology Officer
- Executive Vice President – Communications and Marketing
- Executive Vice President – Human Resources, IT, Health and Safety

The Leadership Team typically meets at least once a month.

See the members of the Leadership Team on p. 10.

Group management

Outokumpu's corporate management consists of the Chief Executive Officer (CEO), members of the Outokumpu Leadership Team, and managers and experts who assist the CEO and members of the Leadership Team.

The task of corporate management is to manage the Group as a whole. Duties include the coordination and execution of strategy and corporate planning, financial control, tax, internal audit, human

resources, environment, energy, health and safety, IT, marketing, communications and corporate responsibility, R&D, legal affairs, corporate affairs and compliance and IPR, investor relations as well as treasury and risk management. Certain support functions have also been centralized at Group level. The Outokumpu Group is managed in accordance with the organization of its business, in which the Group's legal company structure also provides the legal framework for Outokumpu's operations. Clear financial and operational targets have been established for all the Group's operational businesses.

Since September 1, 2014, Outokumpu's organization is based on five Business Areas with sales, profit, production and supply chain management responsibility, with the focus being on improving the ability to respond rapidly to customer needs, while Group-level functions with global processes ensure efficiency.

The Business Areas as of September 1, 2014 are:

- Coil EMEA
- Coil Americas
- APAC
- Quarto Plate
- Long Products

As well as being responsible for their own sales, the Business Areas are responsible for profit and operating cash flow and are supported by Group-level functions in the key areas. The Business Areas are geared to achieve the Group's business and financial targets while maintaining the focus on responding to customer needs.

Remuneration

Board of Directors

As confirmed by the 2014 Outokumpu Annual General Meeting, annual remuneration for the members of Outokumpu's Board of Directors is as follows: Chairman EUR 140 000, Vice Chairman EUR 80 000 and other members EUR 60 000, with 40% of this paid as Outokumpu shares purchased from the market and 60% paid in cash.

The annual fee is paid once a year and members of the Board are not entitled to any other share-based rewards. In addition to their annual remuneration, all members of the Board of Directors are paid a meeting fee of EUR 600 (EUR 1 200 for members of the Board of Directors residing outside Finland). The meeting fee is also payable for attending meetings of Board committees.

Leadership Team

The service contract of Outokumpu's CEO is valid until further notice and may be terminated by Outokumpu with 12 months' notice, or by the CEO with six months' notice. Upon termination by Outokumpu or a material change in ownership of Outokumpu, the CEO will receive additional compensation equivalent to his basic salary in the preceding 12 months plus the monetary value of his employee benefits at the moment of termination, provided that his employment is not terminated due to negligence caused by him.

For the other members of the Leadership Team who are employed in Finland, the notice period is six months for both parties, in addition to which there will be additional compensation equivalent to their basic salary in the preceding 12 months plus the monetary value of their employee benefits at the moment of termination, provided that their

employment is terminated for another reason than one caused by the employee. The termination benefits of the Leadership Team members employed outside of Finland vary in line with local market practices.

In the 2014 financial year, the performance-based short-term incentive payable to the Group CEO and members of the Leadership Team in addition to their base salary and employee benefits was based on delta EBIT target (improvement in earnings before interest and taxes) and operational targets with emphasis on cash flow, working capital, occupational safety and delivery reliability. The maximum incentive payment was 50% of the annual base salary for the CEO and the other members of the Leadership Team. The total amount of short-term and long-term incentives must not exceed 200% of an individual's annual salary. Should this limit have been exceeded, the share-based reward would have been reduced accordingly.

No separate remuneration is paid to the Group CEO or members of the Leadership Team for membership of this committee or the Group's other internal governing bodies.

The retirement age for the members of the Leadership Team is 63 years and they participate in the local retirement programs applicable to employees in the country where their employing company is located. The members residing in Finland participate in the Finnish TyEL pension system, in addition to which they are entitled to a defined contribution pension plan. The targeted pension is 60% of the annual salary at the age of 63 and the maximum premium is 25% of an individual's annual earnings, excluding share rewards. The pension benefits of the Leadership Team members employed outside of Finland vary in line with the local market practices. In line with Outokumpu's policy, the CEO's retirement age is 63 and the targeted pension is 60% of the annual salary at the age of 63.

Outokumpu did not provide any guarantees or other similar commitments on behalf of members of its Board of Directors in 2014. No members of the Board of Directors or the Leadership Team or closely related persons or institutions have any significant business relationships with the Group.

Insider management

Outokumpu's insider rules are based on Finnish Securities Act and comply with the Guidelines for Insiders issued by the Nasdaq Helsinki stock exchange. Permanent insiders with a duty to declare consist of members of the company's Board of Directors, the Auditor in Charge, the CEO, and other members of the Outokumpu Leadership Team.

Outokumpu maintains a public register of permanent insiders who have the duty to declare. Employees of the Group who receive inside information on a regular basis as a result of their position or the duties they perform are registered in a non-public register of permanent company-specific insiders. Permanent insiders must not purchase or sell securities issued by the company in the 14 days prior to the publication of interim reports or the company's annual accounts (the so-called "closed window").

Separate, non-public, project-specific insider registers are maintained for insider projects. Persons defined as project-specific insiders are those who, in the course of their duties in connection with a project, receive information concerning the Group which, if or when realized, is likely to have a significant effect on the value of the company's publicly-traded securities.

Outokumpu's Head of Corporate Affairs and Compliance is responsible for the coordination and supervision of insider issues.

See the year-end 2014 shareholding of the Board of Directors and Leadership Team on p. 3.

Up-to-date information on holdings by Outokumpu's permanent insiders who have a duty to declare is available on Outokumpu's website.

Compliance

Outokumpu is strongly committed to the highest ethical standards and observes the laws and other regulations of the countries it operates in, and complies with agreements and commitments it has made. Outokumpu's Code of Conduct sets out these ethical standards and provides guidelines for a common way of working with the aim to ensure that all Outokumpu employees live up to Outokumpu's ethical standards. Outokumpu's Corporate Affairs and Compliance function is responsible for managing and continuously developing Outokumpu's compliance program. The objective of the program is to ensure that Outokumpu and its employees comply with laws, regulations as well as Outokumpu's internal policies and instructions. The program also aims to globally mitigate compliance risks for the corporation as well as for each individual employee by a set of preventive and supervisory measures. Raising awareness of and training on the Code of Conduct are central elements of the program. As part of the training, Outokumpu launched e-learning in its Code of Conduct, compulsory for all white collar employees. The first stage in 2014 covered some 3,000 people and achieved a completion rate of 99%. The Corporate Affairs and Compliance function reports to the Chief Financial Officer and also reports regularly directly to the Board Audit Committee on compliance-related matters.

Financial reporting

According to the Finnish Limited Liability Companies Act and the Finnish Code of Corporate Governance, the Board of Directors is responsible for a company's internal controls. The purpose of this section is to provide shareholders and other parties with a description of how internal control and risk management of financial reporting is organized in Outokumpu.

As a listed company, the Group has to comply with a variety of regulations. To ensure that all the stated requirements are met, Outokumpu has introduced principles for financial reporting and internal control and distributed these throughout the company's organization.

Control environment

The foundation for Outokumpu's control environment is the business culture established within the Group and its associated methods of operation. The basis for the company's compliance and control routines is provided by Group policies and principles which define the way in which Outokumpu's organization operates. These policies and principles include, for example, the Group's Corporate Responsibility Policy and Ethical Principles. The Outokumpu Code of Conduct describes the Group's basic values and offers standardized, practical guidelines for managers and employees to follow. Outokumpu's compliance program is described in the Compliance section. The Outokumpu performance management process is a key management activity and an important factor in enabling an efficient control environment. In all sections of the Group's operations, planning activities and the setting of both operational and financial targets are executed in accordance with Outokumpu's overall business targets. Management follow-up of related achievements is carried out through monthly management reporting routines and in performance review meetings.

Outokumpu operates in accordance with the risk management policy approved by the Group's Board of Directors and the Audit Committee regularly monitors the Group's risk map. The policy defines the objectives of risk management activities, the approaches to be taken and areas of responsibility. As well as supporting the Outokumpu strategy, risk management activities help in defining a balanced risk profile from the perspective of shareholders and other stakeholders such as customers, suppliers, personnel and lenders. More information on risk management within Outokumpu can be found in the Risk management section on p. 9.

Outokumpu's control process for financial reporting is based on Group policies, principles and instructions relating to financial reporting, as well as on the responsibility and authorization structure within the Group. Policies relating to financial reporting are usually owned and approved by the CEO and the CFO. Financial reporting in Outokumpu is carried out in a harmonized way using a common chart of accounts.

Financial reporting is prepared in accordance with International Financial Reporting Standards (IFRS). The Outokumpu Accounting Principles (OAP) are Outokumpu's application guidance as regards IFRS. The aim of the OAP and other financial reporting policies and instructions included in the Outokumpu Controller's Manual is to ensure that uniform financial processes and reporting practices are used throughout the Group. Policies and instructions for financial

reporting are reviewed on a regular basis and revised when necessary. During the 2014 financial year, some minor adjustments were made to the instructions, including small changes due to new consolidation standards and amendments in other applicable IFRSs. In 2015, Outokumpu will continue to follow the changes in IFRS standards closely. No major impact on the financial reporting due to the implementation of new standards is expected in 2015.

Financial statements by the parent company and stand-alone Finnish subsidiaries are prepared in accordance with generally accepted accounting principles in Finland, while foreign subsidiaries follow local accounting principles. Outokumpu also complies with regulations regarding financial reporting published by the Financial Supervisory Authority (FIN-FSA) and Nasdaq Helsinki.

Risk identification and assessment

Risk management processes connected with the Group's financial reporting are coordinated by Outokumpu's Treasury and Risk Management function. Related risks are classified as operational risks and can arise as a consequence of inadequate or failed internal processes, employee actions, systems or other events such as misconduct or crime. The aim of the Outokumpu risk management process is to identify, evaluate, control and mitigate such risks.

Major risks are reported to and evaluated by the Audit Committee on a regular basis. Outokumpu's risk management process includes arranging workshops on the identification of key risks, including operational risks, for Business Areas and other Group functions. Deliverables include risk maps and risk identification plans.

Control activities

In addition to the Board of Directors and Audit Committee, operational management teams in Outokumpu are responsible for ensuring that internal controls relating to financial reporting are in place at all Outokumpu units. The aim of control activities is to discover, prevent and correct potential errors and deviations in financial reporting. Control activities also aim to ensure that authorization structures are designed and implemented in a way that conflicting divisions of work do not exist (i.e. one person performing an activity and also being responsible for controlling that activity). Control activities consist of different kind of measures and include reviews of financial reports by Group management and in Business Area management teams, the reconciliation of accounts, analyses of the logic behind reported figures, forecasts compared to actual reported figures and analyses of the Group's financial reporting processes, among others. A key component is the monitoring of monthly performance against financial and operational targets. These control activities take place at different levels of the organization. The most important accounting items in Outokumpu are the valuation and reporting of inventories and other items of working capital. Also, in difficult market situations, asset impairment calculations and related sensitivity analyses are increasingly important. These items are carefully monitored and controlled both within Business Areas and at Group level on a regular basis.

Integration of the acquired Inoxum companies into Outokumpu's accounting and reporting processes was ongoing in 2014 and is still continuing in 2015. This includes further specification of accounting

and reporting roles and responsibilities, and implementation of harmonized ways of working and reporting timetables within the Group. In relation to the Inoxum transaction, the measurement of acquired assets and liabilities at fair value was prepared in 2013. In accordance with the commitments given to the European Commission in the context of the merger with Inoxum to divest the AST (Acciai Speciali Terni) stainless steel operations in Terni, Italy and certain European service centers and other remedy assets, Outokumpu held the remedy assets separate and ring-fenced from the operations of the Group. The divestment was completed in the end of February 2014.

Information technology and solutions play an important role in guaranteeing that the Group's internal controls have a solid foundation. A new consolidation system project has been started to ensure timely and uniform financial and management reporting from the Group entities and an effective closing process within the whole Group. The system will be implemented in 2015. Outokumpu has also started a business transformation program to develop and improve business capabilities. This will be achieved mainly by harmonizing and improving the Group's core business processes.

Information and communication

Group-wide policies and principles are available to all Outokumpu employees. Instructions relating to financial reporting are communicated to all the parties involved. The main communication channels employed are Outokumpu's intranet and other easily-accessible databases. Face-to-face controller meetings are also organized. Senior Controller meetings are organized on a quarterly basis or more frequently when this is considered necessary to share information and discuss issues of topical interest to the Group.

Outokumpu has established different networks and communities in which financial reporting and internal control issues and related instructions are discussed and reviewed. These networks usually consist of personnel from the Business Areas and Group functions. The aim of these networks, communities and common instructions is to ensure that unified financial processes and reporting practices are used throughout the Group. The networks and communities play an important role in establishing the effectiveness of internal controls relating to financial reporting and in developing Outokumpu policies, instructions and processes.

Follow-up

Both management in all Outokumpu companies and personnel in accounting and controlling functions are responsible for the follow-up and monitoring of internal controls connected with financial reporting. The Internal Audit and Risk Management functions also engage in follow-up and control activities. The findings of the follow-up procedures are reported to the Audit Committee and the Outokumpu Leadership Team on a regular basis.

Internal audit

Internal Audit is an independent, objective assurance, control, and consulting function designated to add value, to improve operations, and to support the organization in achievement of its objectives.

Through a systematic, disciplined approach, Internal Audit determines whether governance processes, the internal control system, and the risk management system as designed and represented by the Board of Directors and the Leadership Team are effective and efficient.

With commitment to integrity and accountability, Internal Audit provides value to governing bodies and senior management as an objective and direct source of correct, reliable information and independent advice. Besides Internal Audit monitors adherence to Group principles, policies, and procedures and investigates fraudulent and non-compliant behaviors and activities. Internal Audit performs its function on behalf of and directly reporting to the Audit Committee and to the Leadership Team, but is functionally assigned to the CEO. The annual internal audit plan is approved by the Audit Committee.

In 2014, Internal Audit performed 5 extended operational audits, 2 on-site follow-ups, a special investigation on uncommon bad debts settlement, and a special compliance audit and clean-up operation. The results of all performed audits including their risk appraisals have been reported and distributed in writing. In view of the Outokumpu Code of Conduct and the Corporate Responsibility Policy, potential risk has been identified in an Eastern European entity.

The confidential whistleblowing hotline ("Helpline") available on the company intranet and via internet is set up to anonymously inform Internal Audit and the Audit Committee of suspicions of financial misconduct or unethical behavior. Investigation of 1 communicated case in 2014 resulted in proof of violation of Health and Safety standards. From 8 further special investigations based on allegations brought forward through other channels, no incidents in view of discrimination or human rights violations were noted; however Internal Audit observed theft of material in 2 instances and potential violations of the Outokumpu Code of Conduct in 1 case.

Auditors

Under its Articles of Association, the company shall have a minimum of one and a maximum of two auditors who are qualified auditors or firms of independent public accountants authorized by the Central Chamber of Commerce of Finland.

The Annual General Meeting elects the auditors to a term of office ending at the close of the next Annual General Meeting. Proposals to the Annual General Meeting on the election of auditors which have been made known to the Board of Directors prior to the Annual General Meeting will be made public if it is supported by shareholders holding a minimum of 10% of all the company's shares and voting rights and the person or company proposed has consented to such nomination. Additionally, the Audit Committee of the Board has the duty to consider and make a proposal to the Annual General Meeting as to the election and fees of the auditor.

The company's auditors submit the statutory auditor's report to the company's shareholders in connection with the company's financial statements. The auditors also report their findings to the Board Audit Committee on a regular basis and at least once a year to the full Board of Directors. The parent company, Outokumpu Oyj, is audited by KPMG Oy Ab, and the responsible auditor is Virpi Halonen, Authorized Public Accountant. KPMG Oy Ab is also responsible for overseeing and coordinating the auditing of all Group companies.

Both Outokumpu and KPMG Oy Ab emphasize the requirement that an auditor be independent of the company being audited. In its global independence policy, KPMG has stated its commitment to observing and complying with the Code of Ethics of the International Federation of Accountants (IFAC).

Outokumpu's Board Audit Committee continuously monitors non-audit services purchased by the Group from KPMG Oy Ab at a global level. In 2014, auditors were paid fees totaling EUR 3.4 million, of which non-auditing services accounted for EUR 1.4 million.

Risk management

Outokumpu operates in accordance with the risk management policy approved by the company's Board of Directors. This defines the objectives, approaches and areas of responsibility in the Group's risk management activities. As well as supporting Outokumpu's strategy, the aim of risk management is identifying, evaluating and mitigating risks from the perspective of shareholders, customers, suppliers, personnel, creditors and other stakeholders.

Risk management organization

The Board of Directors carries ultimate responsibility for risk management within Outokumpu. CEO and members of the Leadership Team are responsible for defining and implementing risk management procedures, and for ensuring that risks are both properly addressed and taken into account in strategic and business planning. Business Areas and Group functions are responsible for managing risks connected with their own operations. Auditors and Internal Audit monitor risk management processes, and the Leadership Team, the Board's Audit Committee and the Board of Directors review both key risks and actions taken to manage these risks on a regular basis. Treasury and Risk Management function supports implementation of Outokumpu's risk management policy, facilitates and coordinates risk management activities, and prepares quarterly risk reports for management, Board's Audit Committee and Auditors.

Risk management process

Outokumpu has defined risk as anything that could have an adverse impact on achieving the Group's objectives. Risks can therefore be threats, uncertainties or lost opportunities connected with current or future operations. Outokumpu's appetite for risk and risk tolerance are defined in relation to Group earnings, cash flows and capital structure. The risk management process is an integral part of the overall management processes and it is divided into four stages: risk identification, risk evaluation, risk prioritization and risk mitigation. Within Outokumpu, the risk management process is monitored

and controlled at different organizational levels in a systematic manner. Regular risk updates are done to ensure that the process is operating in an uninterrupted manner. The monitoring and analysis of results and risk updates also ensure that accurate information is provided both internally – to Business Area management teams and members of the Leadership Team – and externally to parties such as shareholders and other stakeholders.

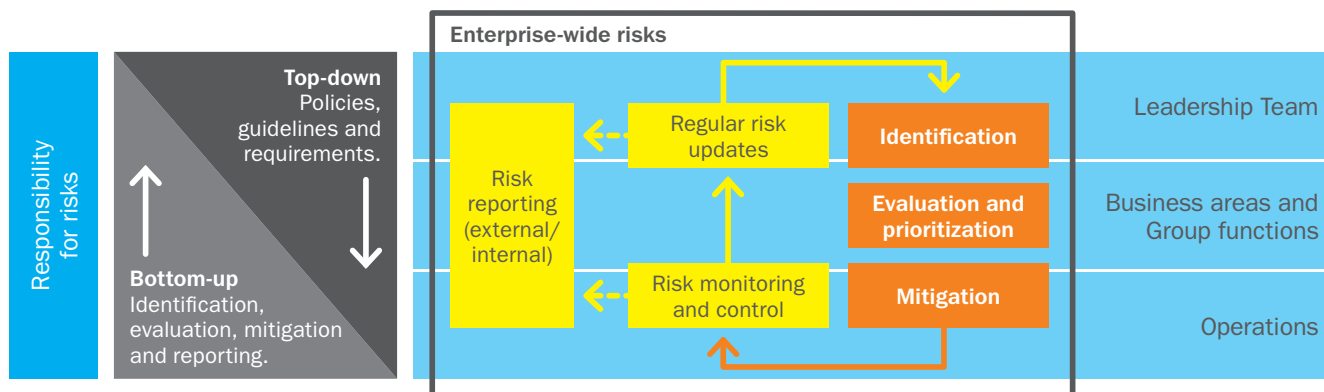

Focus areas 2014

In 2014 one of the main focus areas was to monitor and strengthen Outokumpu's financial position. In order to increase risk tolerance, Outokumpu completed significant financing measures in connection with the sale of the Terni and VDM operations. All these measures de-risked Outokumpu significantly by improving liquidity, strengthening balance sheet, extending debt maturities, reducing variation of free cash flow and decreasing exposure to operational risks.

Unfortunately, during the reporting year Outokumpu suffered contractor's fatal accident in Calvert, in June. In addition, serious machinery breakdown incidents took place at the ferrochrome production unit in Tornio and at cold rolling mills in Calvert. These losses are expected to be covered partially by insurance. Outokumpu intends to focus on preventive maintenance and machinery breakdown loss prevention in 2015 e.g. in connection with its insurance related auditing programs.

During the year, risk management processes were further aligned within Outokumpu. The integrated process supported by recently launched risk management software includes strong focus on operational risks. The software will be applied as a group-wide reporting tool for consistent identification and reporting of risks at different organizational levels. Additionally, the Group's key risks were updated regularly during 2014. Outokumpu continued its systematic fire safety and loss prevention audit programs. Some twenty fire safety and loss prevention audits were carried out in 2014 using in-house expertise in co-operation with external advisors.

Risk management process in Outokumpu
