ACKNOWLEDGMENTS

The following individuals contributed to the development of this document: Bruce Allen (Missouri Botanical Garden-MOBOT), Mike Arduser (Missouri Department of Conservation-MDC-retired), John Atwood (MOBOT), Alan Brant, John Brinda (MOBOT), Jeff Briggler (MDC), Malissa Briggler (MDC), Christopher Brown (Monsanto), Steve Buback (MDC), Dorothy Butler (MDC), Rick Clawson (MDC-retired), Bob DiStefano (MDC), Bill Elliott (MDC-retired), Tony Elliott (MDC), Randy Evans (MDC), Debby Fantz (MDC), Susan Farrington (MDC), Dennis Figg (MDC-retired), Jane Fitzgerald (Partners In Flight), Matt Gompper (University of Missouri - Columbia), Lonnie Hansen (MDC-retired), Janet Haslerig (MDC), Nels Holmberg (MOBOT), Peggy Horner (Ozark Regional Land Trust), Bob Hrabik (MDC), Vicki Jackson (University of Central Oklahoma), Brad Jacobs (MDC-retired), Tom Johnson (MDC-retired), Harold Kerns (MDC-retired), Dave Knuth (MDC), Phil Koenig, Jeff Koppelman (MDC-retired), Doug Ladd (The Nature Conservancy), Mike Leahy (MDC), Bill Mabee (MDC), Ted MacRae (Monsanto), Paul McKenzie (U.S. Fish and Wildlife Service-USFWS), Stephen McMurray (MDC), Elizabeth Middleton (MDC), Tim Nigh (MDC-retired), Doug Novinger (MDC), Elizabeth Olson (MDC), William Pflieger (MDC-retired), Barry Poulton (U.S. Geological Survey), Lynn Robbins (Missouri State University-retired), Randy Sarver (Department of Natural Resources), John Scheibe (Southeast Missouri State University), Tim Smith (MDC-retired), Janet Sternburg (MDC), Bill Summers, Richard Thoma (Monsanto-retired), Justin Thomas (NatureCITE), James Trager (MOBOT, Shaw Nature Reserve), Jacob Westhoff (MDC), Kathryn Womack (MDC), George Yatskievych (UT Austin).

NOTICE: Please submit reports of all sightings of species and natural communities listed in this checklist on the forms provided in the back of this checklist. Special criteria apply to birds and reports should follow the guidelines listed in Appendix A.

The Missouri Bird Plan Focal Species (Appendix B) provides a list of states priority breeding bird species that are the most threatened and information on their habitat needs can be used to guide management actions, goals and objectives. Not all species listed in Appendix B are tracked in the Natural Heritage database.

INTRODUCTION

The Missouri Department of Conservation (MDC) is charged with the protection and management of Missouri's fish, forest, and wildlife resources. In the brief time since the settlement of Missouri, many plants and animals have declined to levels of concern and some have disappeared entirely. The species cataloged in this checklist represent 18 percent of the native vascular plants, 14 percent of the nonvascular plants, 28 percent of the vertebrate animals, and an unknown percentage of the native invertebrate species in Missouri. Together, the animals, plants, and natural communities represent Missouri's biological diversity—a natural heritage worth protecting.

The Department maintains two references relating to the status of listed plants and animals in Missouri: the *Missouri Species and Communities of Conservation Concern Checklist (Checklist)* and the *Wildlife Code of Missouri (Code)*. The *Checklist* is used mainly for planning and communication purposes. All native animal species in the State of Missouri are protected as biological diversity elements unless a method of legal harvest, harm or take is described in the *Code*. All native plant species in the State of Missouri are protected as biological diversity elements only on land owned by the Missouri Department of Conservation. Species listed in the *Code* under 3 CSR 10-4.111 and all federally listed endangered and threatened plants and animals protected by the Endangered Species Act of 1973 (ESA) are protected by the State Endangered Species Law 252.240. Some additional plants and animals in this *Checklist* also appear in the *Code* and are afforded special legal protection.

How to use the checklist

The checklist, developed with the cooperation of specialists throughout the state, is a list of plants, animals, and natural communities that MDC is particularly concerned about due to population declines or apparent vulnerability. The global and state ranks indicate the level of concern for each Element's (i.e., a species or type of natural community) continued existence throughout its range and in Missouri, respectively. Global ranks are assigned by the Natural Heritage/Conservation Data Center personnel and/or NatureServe. State Ranks in Missouri are assigned by the Missouri Natural Heritage Program within the Missouri Department of Conservation.

The Global and State Ranking System methodology was developed and provided by The Nature Conservancy, Conservation Science Division, in association with the Network of Natural Heritage Programs and Conservation Data Centers.

The checklist is arranged by broad taxonomic groups (e.g., terrestrial natural communities, flowering plants, insects, fish, and mammals). Within each group, species are arranged alphabetically by their scientific names and terrestrial natural communities by community type. Each Element is identified by its scientific name, common name, state rank, global rank, state status, and federal status.

TERMS AND DEFINITIONS

FEDERAL STATUS

The federal status is derived from the provisions of the Endangered Species Act of 1973, as amended, which is administered by the U.S. Fish and Wildlife Service (USFWS). Passage of the Endangered Species Act of 1973 gave the United States one of the most important laws ever enacted by any country to prevent the extinction of imperiled animals and plants. Protecting endangered and threatened species and restoring them to the condition where their existence is no longer jeopardized is the primary objective of the USFWS Endangered Species Program.

E: Endangered: Any species which is in danger of extinction throughout all or a significant portion of its range.

T: Threatened: Any species which is likely to become endangered within the foreseeable future.

C: Candidate: Plants or animals which USFWS is reviewing for possible addition to the list of endangered and threatened species.

PE: Proposed Endangered: Species officially proposed for listing as endangered; final ruling not yet made.

PT: Proposed Threatened: Species officially proposed for listing as threatened; final ruling not yet made.

SAT: Threatened due to similarity of appearance: Species is listed for its protection due to similarity of appearance with another listed species. Species listed as SAT are not biologically threatened.

STATE STATUS

Rule 3CSR10-4.111 of the *Wildlife Code of Missouri* and certain state statutes apply to state *Code*-listed species.

E: Endangered: Determined by MDC under constitutional authority.

GLOBAL RANK (GRANK)

Global ranks are assigned and maintained by the Natural Heritage/Conservation Data Center and/or NatureServe. A numeric rank (G1 through G5) of relative imperilment based on standard rank factors:

- the estimated number of Element Occurrences (EOs) throughout the Element's global, national, or subnational range;
- the estimated numbers of those EOs with good viability;
- the estimated abundance of the Element (measured in terms of population for species Elements as well as occupied area or linear distance for both species and communities);
- the estimated size of the Element's range;
- the short- and long-term trends in the Element's distribution over its range;
- the estimated number of adequately protected EOs throughout the Element's range globally, nationally, or subnationally;
- the scope, severity, and immediacy of threats to the Element;
- the vulnerability of the Element to intrusion; and
- the specificity of the Element's environmental requirements.

GLOBAL RANK (Cont.)

G1: Critically Imperiled: At very high risk of extinction or elimination due to extreme rarity, very steep declines, or other factors.

G2: Imperiled: At high risk of extinction or elimination due to very restricted range, very few populations or occurrences, steep declines, or other factors.

G3: Vulnerable: At moderate risk of extinction or elimination due to a restricted range, relatively few populations or occurrences, recent and widespread declines, or other factors.

G4: Apparently Secure: Uncommon but not rare; some cause for long-term concern due to declines or other factors.

G5: Secure: Common; widespread and abundant.

G#G#: Range Rank: A numeric range rank (e.g., G2G3) is used to indicate uncertainty about the exact status of a taxon. Ranges cannot skip more than two ranks (e.g., GU should be used rather than G1G4).

GU: Unrankable: Currently unrankable due to lack of information or due to substantially conflicting information about status or trends. Note: Whenever possible (when the range of uncertainty is three consecutive ranks or less), a range rank (e.g., G2G3) should be used to delineate the limits (range) of uncertainty.

GNR: Unranked: Global rank not yet assessed.

GH: Possibly Extinct: Known from only historical occurrences but still some hope of rediscovery. There is evidence that the species may be extinct but not enough to state this with certainty. Examples of such evidence include (1) that a species has not been documented in approximately 20-40 years despite some searching or some evidence of significant habitat loss or degradation; and (2) that a species has been searched for unsuccessfully, but not thoroughly enough to presume that it is extinct.

GX: Presumed Extinct: Not located despite intensive searches and virtually no likelihood of rediscovery.

SUBRANK:

T#: Intraspecific Taxon (binomial): Rank applies to a subspecies or variety. Rules for assigning T-ranks follow the same principles outlined above.

QUALIFIERS:

?: Inexact Numeric Rank: Denotes inexact numeric rank; it is not used in combination with range ranks, GH, or GX.

Q: Questionable Taxonomy: Distinctiveness of this entity as a taxon at the current level is questionable; resolution of this uncertainty may result in change from a species to a subspecies or hybrid, inclusion of this taxon in another taxon, with the resulting taxon having a lower-priority (numerically higher) conservation status rank.

STATE RANK

Assigning national and subnational conservation status ranks for species and ecosystems (ecological communities and systems) follows the same general principles as used in assigning global status ranks. Subnational ranks are assigned and maintained by the Missouri Natural Heritage Program (MONHP).

S1: Critically Imperiled: Critically imperiled in the state because of extreme rarity or because of some factor(s) such as very steep declines making it especially vulnerable to extirpation from the state.

S2: Imperiled: Imperiled in the state because of rarity due to very restricted range, very few populations or occurrences, steep declines, or other factors making it very vulnerable to extirpation from the state.

S3: Vulnerable: Vulnerable in the state due to a restricted range, relatively few populations or occurrences, recent and widespread declines, or other factors making it vulnerable to extirpation.

S4: Apparently Secure: Uncommon but not rare; some cause for long-term concern due to declines or other factors.

S5: Secure: Common, widespread, and abundant in the state.

S#S#: Range Rank: A numeric range rank (e.g., S2S3) is used to indicate any range of uncertainty about the status of the species. Ranges cannot skip more than two ranks (e.g., SU is used rather than S1S4).

SU: Unrankable: Currently unrankable due to lack of information or due to substantially conflicting information about status or trends.

S?: Unranked: State rank not yet assessed.

SE: Exotic: An exotic established in the state; may be native in nearby regions (e.g., house finch or catalpa in eastern U.S.).

SA: Accidental: Accidental or casual in the state, in other words, infrequent and outside its usual range. Includes species (usually birds or butterflies) recorded once or only a few times at a location. A few of these species may have bred on the one or two occasions they were recorded. Examples include European strays or western birds on the East Coast and vice-versa.

SP: Potential: Potential that the species occurs in the state, but no extant or historic occurrences are accepted.

SR: Reported: Species reported in the state but without a basis for either accepting or rejecting the report, or the report not yet reviewed locally. Some of these are very recent discoveries for which the Program has not yet received first-hand information; others are old, obscure reports.

SRF: Reported Falsely: Species erroneously reported in the state and the error has persisted in the literature.

STATE RANK (Cont.)

SH: Possibly Extirpated: Known from only historical records but still some hope of rediscovery. There is evidence that the species may no longer be present in the state, but not enough information to state this with certainty. Examples of such evidence include (1) that a species has not been documented in approximately 20-40 years despite some searching or some evidence of significant habitat loss or degradation; and (2) that a species has been searched for unsuccessfully, but not thoroughly enough to presume that it is no longer present in the state.

SX: Presumed Extirpated: Species is believed to be extirpated from the state. Not located despite intensive searches of historical sites and other appropriate habitat, and virtually no likelihood that it will be rediscovered.

QUALIFIERS:

?: Inexact or Uncertain: Denotes inexact or uncertain rank; this should not be used with range ranks, SH, or SX.

SPECIES CHANGES

STATUS CHANGES

PLANTS

Acalypha deamii (Large Seeded Mercury) from S1 to S2. Recent Element Occurrence Reports from field biologists indicate that the status for this species is more secure than previously thought.

Castanea pumila var. *pumila* (Chinquapin) from SU to SH. No extant populations are documented and the species has not been reported in MO for more than 25 years.

Houstonia rosea (Rose Bluets) from SU to SH. No extant populations are documented and the species has not been reported in MO for more than 25 years.

Juncus brachyphyllus (Small-headed Rush) from S1 to S3. New populations of these species have been reported and have shown up in area inventories, indicating a more secure status.

Lactuca hirsuta (Hairy Lettuce) from SU to S3. Recent Element Occurrence Reports from field biologists indicate that while the conservation status is not imperiled, it may be vulnerable. Reports of additional populations would be helpful to remove it from the list.

Lactuca ludoviciana (Western Lettuce) from SH to S1. A population was recently discovered in Atchison County.

MOLLUSKS

Hendersonia occulta (from Cherrystone Snail to Cherrystone Drop) from S3 to S1. Based on recently published "Land Snails & Slugs of Missouri" Cherrystone Drop is recently known only from Boone County.

Millerelix deltoidea (Oklahoma Liptooth) from SU to SH. Based on recently published "Land Snails & Slugs of Missouri" Oklahoma Liptooth known only from Newton County, but not found in more recent collecting.

Patera perigrapta (Engraved Bladetooth) from S2 to S1. Based on recently published "Land Snails & Slugs of Missouri" Engraved Bladetooth is known from five counties in the Ozark natural division.

Strobilops affinis (Eightfold Pinecone) from S2 to S1. Based on recently published "Land Snails & Slugs of Missouri" Eightfold Pinecone is known historically from three counties and recently from only one.

Triodopsis cragini (Post Oak Threetooth) from SH to S1. Based on recently published "Land Snails & Slugs of Missouri" Post Oak Threetooth is known from six counties along the border of the Ozark and Osage Plains natural divisions.

CRUSTACEANS

Faxonius medius (Saddleback Crayfish) from S3? to S3.

Faxonius peruncus (Bif Creek Crayfish) is Federally Proposed Threatened.

Faxonius quadruncus (St. Francis River Crayfish) is Federally Proposed Threatened.

Orconectes stygocaneyi (Caney Mountain Cave Crayfish) is State Endangered.

INSECTS

Nicrophorus americanus (American Burying Beetle) from Federally Endangered to Federally Threatened.

FISH

Hybopsis amnis (Pallid Shiner) from SX to SU. Pallid Shiner was last collected in MO in 1956, but was rediscovered in September 2019 at Cane Creek CA. We don't have enough information about the current status of the species to assign it an accurate rank.

BIRDS

Anhinga anhinga (Anhinga) SU to S3S4. Track range expansion and breeding locations.

Falco peregrinus (Peregrine falcon) S1 to S3. Currently going through regulation processes to delist this species. Missouri currently has more breeding pairs of falcons than historically documented. The Missouri peregrine population is stable. Ongoing banding and nest box efforts.

Laterallus jamaicensis jamaicensis (Eastern Black Rail) is Federally Threatened.

Sitta pusilla (Brown-headed Nuthatch) SX to SU. Southern Missouri reintroduction efforts in summer 2020 and 2021.

Sterna antillarum athalassos (Interior Least Tern) from S1 to S2 and Federally delisted because population has grown from less than 2,000 birds in a few dozen nesting sites in 1985, when the bird was listed under the ESA, to more than 18,000 individuals at more than 480 nesting sites in 18 states today. Stakeholders efforts have helped ensure populations are healthy, stable and increasing into the foreseeable future.

ADDITIONS

FERNS AND FERN ALLIES

Thelypteris noveboracensis (New York Fern) added as S1. Recently documented as new to the state (Wayne Co.) by Alan Brant (*Missouriensis*. 2018, 36: 18-20).

PLANTS

Juglans cinerea (Butternut) added as SU. Field biologists have noted declines in occurrence over the past few decades.

Planera aquatica (Water Elm) added as SU. Known populations are restricted to four southeastern counties. Field biologists have noted declines in occurrence over the past few decades.

Rorippa tenerrima (Modoc Yellowcress) added as S1. Only 2 documented locations (Cole and Saline counties) since the late 19th century.

Vicia americana (American Vetch) added as S1. This species was thought to be extirpated as the only known location had been farmed, until a population was recently discovered in Atchison County.

MOLLUSKS

Cochlicopa morseana (Appalachian Pillar) added as S3. Based on recently published "Land Snails & Slugs of Missouri". Appalachian Pillar is found in scattered counties in the Ozark and Glaciated Plains in moist upland woods.

MOLLUSKS (Cont.)

Gastrocopta abbreviate (Plains Snaggletooth) added as S1. Based on recently published "Land Snails & Slugs of Missouri". Plains Snaggletooth is restricted to prairie areas in northwestern Missouri.

Gastrocopta similis (Great Lakes Snaggletooth) added as S2. Based on recently published "Land Snails & Slugs of Missouri" Great Lakes Snaggletooth has been found in glade, prairie, and woodland habitats in the Osage Plains and Glaciated Plains.

Glyphyalinia solida (Imperforate Glyph) added as S1. Based on recently published "Land Snails & Slugs of Missouri" Imperforate Glyph is known from only three counties in southern Missouri.

Glyphyalinia wheatleyi (Bright Glyph) added as S1. Based on recently published "Land Snails & Slugs of Missouri" Bright Glyph occurs in the Ozark and Ozark Border natural divisions.

Hawaiiia alachuana (Southeastern Gem) added as S1. Based on recently published "Land Snails & Slugs of Missouri" Southeastern Gem occurs in the Glaciated Plains and Ozark natural divisions.

Lucilla singleyanus (Smooth Coil) added as S1. Based on recently published "Land Snails & Slugs of Missouri" Smooth Coil is known historically from two counties and recently from only one.

Oxyloma retusum (Blunt Ambersnail) added as S1. Based on recently published "Land Snails & Slugs of Missouri" Blunt Ambersnail is found in scattered counties in southeastern and northwestern Missouri in low, wet places near margins of lakes or swamps.

Paravitrea simpsoni (Amber Supercoil) added as S1. Based on recently published "Land Snails & Slugs of Missouri" Amber Supercoil occurs in the Ozark and Ozark Border natural divisions.

Patera pennsylvanica (Proud Globelet) added as S2. Based on recently published "Land Snails & Slugs of Missouri" Proud Globelet is recently known from only seven counties in the Glaciated Plains and Ozark natural divisions.

Stenotrema blandianum (Missouri Slitmouth) added as S2. Based on recently published "Land Snails & Slugs of Missouri" Missouri Slitmouth is restricted to southwest Missouri.

Stenotrema labrosum (Ozark Slitmouth) added as S2. Based on recently published "Land Snails & Slugs of Missouri" Ozark Slitmouth is restricted to southwest Missouri.

Triodopsis discoidea (Rivercliff Threetooth) added as S1. Based on recently published "Land Snails & Slugs of Missouri" Rivercliff Threetooth is restricted to bluffs along the Mississippi, Missouri, and Meramec rivers in the Ozark Border natural division.

Triodopsis neglecta (Ozark Threetooth) added as S2. Based on recently published "Land Snails & Slugs of Missouri" Ozark Threetooth occurs in southwest Missouri in the Ozark and Osage Plains natural divisions.

Vallonia excentrica (Iroquois Vallonia) added as S3. Based on recently published "Land Snails & Slugs of Missouri" Iroquois Vallonia is known from northern Missouri in the Glaciated Plains, Osage Plains, Ozark, and Ozark Border.

MOLLUSKS (Cont.)

Vallonia gracilicosta (Multirib Vallonia) added as S1. Based on recently published "Land Snails & Slugs of Missouri" Multirib Vallonia is known only from Pike County, at a limestone bluff with associated glade habitat.

Vertigo meramecensis (Bluff Vertigo) added as S3. Based on recently published "Land Snails & Slugs of Missouri" Bluff Vertigo occurs on wooded limestone bluffs along creeks and rivers, known historically from two counties and recently from ten.

BIRDS

Antrostomus carolinensis (Chuck-will's-widow) as S3. Very little is known about Chuck-will's-widow breeding occurrences in the state and tracking confirmed breeding would be advantageous.

Antrostomus vociferous (Eastern Whip-poor-will) as S3. Very little is known about Eastern Whip-poor-will breeding occurrences in the state and tracking confirmed breeding would be advantageous.

Thryomanes bewickii (Bewick's Wren) as S3. Regional agencies (USFWS) and NGO's concern with this species decline. MO Concern Score: 17. BBS data indicate long and shorter term annual declines 3.3%.

DELETIONS

PLANTS

Elatine triandra var. *triandra* (Waterwort) is removed as it is considered an introduced species.

BIRDS

Certhia Americana (Brown Creeper) is removed because very few breeding records or sightings in Missouri. Edge of range species.

Coragyps atratus (Black Vulture) is removed because large winter population and suspect increase breeding with limited documentation.

Empidonax minimus (Least Flycatcher) because very few breeding records or sightings in Missouri. Edge of range species.

Setophaga pensylvanica (Chestnut-sided Warbler) because very few breeding records or sightings in Missouri. Edge of range species.

Spinus pinus (Pine Siskin) because very few breeding records or sightings in MO. Edge of range species.

Tyto alba (Barn Owl) because population stable, increasing, based on continued nest box installations and banding efforts. The species has adapted well to utilizing human-altered habitats.

TAXONOMIC CHANGES

PLANTS

Echinodorus tenellus (Dwarf Burhead) will be tracked as *Helianthium tenellum*.

Elymus glaucus (Blue Wild Rye) will be tracked as *E. glaucus* ssp. *glaucus* (Blue Wild Rye). Currently, this is the only spp. known to exist in MO. However, spp. *arkansana* should be looked for.

BIRDS

Laterallus jamaicensis (Black Rail) to *Laterallus jamaicensis jamaicensis* (Eastern Black Rail).

TERRESTRIAL NATURAL COMMUNITIES

In addition to lichens, plants, and animals, the MONHP tracks occurrences of high quality natural communities. Terrestrial natural communities are interrelated assemblages of plants, animals, and other living organisms incorporated into their physical surroundings- including geologic substrate, soils, topography and aspect - that are shaped by climate and other natural processes. High quality sites are ones that provide diverse assemblages of native species and represent the least distressed examples of ecosystems that existed in Missouri prior to European settlement. These natural communities frequently provide the habitat necessary for Missouri's listed lichens, plants, and animals. Examples of high-quality aquatic natural communities are included in the MONHP, although SRANKs have not been assigned to individual aquatic natural community types. Because MDC tracks occurrences of high quality natural communities, we encourage the submission of site information on natural communities as we do for species listed in this Checklist.

State ranks are assigned to natural communities using criteria that are similar to species SRANKs. Criteria include total number of occurrences, number of occurrences by grade [A-D], total acres, number of counties in which the community type occurs, number of protected occurrences, and threats. Global ranks are not applied to communities due to the difficulty in reconciling Missouri's classification system with larger scale classifications.

Natural community types have been classified using *The Terrestrial Natural Communities of Missouri* (Nelson, 2005). This classification system was developed to accomplish an inventory of the state's natural communities, prioritized by quality, size and distribution, to help meet land protection goals. The terrestrial natural communities tracked in MONHP (high-quality examples) are listed below with their SRANKs by major community type.

NATURAL COMMUNITY TYPES

<u>FOREST</u>	<u>SRANK</u>
Dry-Mesic Loess/Glacial Till Forest	S3
Mesic Loess/Glacial Till Forest	S3
Dry-Mesic Limestone/Dolomite Forest	S3

<i>Etheostoma histrio</i>	Harlequin Darter	Endangered	

FISH (Cont.)

<i>Etheostoma nianguae</i>	Niangua Darter	Endangered	Threatened
<i>Etheostoma parvipinne</i>	Goldstripe Darter	Endangered	
<i>Etheostoma whipplei</i>	Redfin Darter	Endangered	
<i>Forbesichthys agassizii</i>	Spring Cavefish	Endangered	
<i>Hybognathus hayi</i>	Cypress Minnow	Endangered	
<i>Notropis maculatus</i>	Taillight Shiner	Endangered	
<i>Notropis sabinae</i>	Sabine Shiner	Endangered	
<i>Notropis topeka</i>	Topeka Shiner	Endangered	Endangered
<i>Noturus eletherus</i>	Mountain Madtom	Endangered	
<i>Noturus placidus</i>	Neosho Madtom	Endangered	Threatened
<i>Percina nasuta</i>	Longnose Darter	Endangered	
<i>Platygobio gracilis</i>	Flathead Chub	Endangered	
<i>Scaphirhynchus albus</i>	Pallid Sturgeon	Endangered	Endangered
<i>Scaphirhynchus platyrhynchus</i>	Shovelnose Sturgeon		Threatened/SA
<i>Troglichthys rosae</i>	Ozark Cavefish	Endangered	Threatened
<i>Umbra limi</i>	Central Mudminnow	Endangered	

AMPHIBIANS

<i>Cryptobranchus a. alleganiensis</i>	Eastern Hellbender	Endangered	Proposed Endangered
<i>Cryptobranchus a. bishopi</i>	Ozark Hellbender	Endangered	Endangered

REPTILES

<i>Deirochelys reticularia miaria</i>	Western Chicken Turtle	Endangered	
<i>Emydoidea blandingii</i>	Blanding's Turtle	Endangered	
<i>Kinosternon flavescens</i>	Yellow Mud Turtle	Endangered	
<i>Nerodia cyclopion</i>	Mississippi Green Watersnake*	Endangered	
<i>Sistrurus catenatus</i>	Eastern Massasauga*	Endangered	Threatened
<i>Sistrurus tergeminus tergeminus</i>	Prairie Massasauga	Endangered	

BIRDS

<i>Botaurus lentiginosus</i>	American Bittern	Endangered	
<i>Circus hudsonius</i>	Northern Harrier	Endangered	
<i>Egretta thula</i>	Snowy Egret	Endangered	
<i>Falco peregrinus</i>	Peregrine Falcon	Endangered	
<i>Laterallus jamaicensis jamaicensis</i>	Eastern Black Rail		Threatened
<i>Limnithlypis swainsonii</i>	Swainson's Warbler	Endangered	
<i>Peucaea aestivalis</i>	Bachman's Sparrow	Endangered	
<i>Rallus elegans</i>	King Rail	Endangered	
<i>Sterna antillarum athalassos</i>	Interior Least Tern	Endangered	
<i>Tympanuchus cupido</i>	Greater Prairie-chicken	Endangered	

MAMMALS

<i>Canis lupus</i>	Gray Wolf*		Endangered
<i>Canis rufus</i>	Red Wolf*		Endangered
<i>Corynorhinus townsendii ingens</i>	Ozark Big-eared Bat*	Endangered	Endangered
<i>Lepus californicus</i>	Black-tailed Jackrabbit	Endangered	
<i>Myotis grisescens</i>	Gray Myotis	Endangered	Endangered
<i>Myotis septentrionalis</i>	Northern Long-eared Myotis	Endangered	Threatened
<i>Myotis sodalis</i>	Indiana Myotis	Endangered	Endangered
<i>Spilogale putorius interrupta</i>	Plains Spotted Skunk	Endangered	

*Considered extirpated, historical or accidental occurrence in Missouri.

FOR MORE INFORMATION

MDC collects and manages information on the location and status of species and natural communities of conservation concern throughout the state. The Missouri Natural Heritage Database is a repository for this information.

If you have information on the location or questions about the status of any element on this *Checklist*, please contact:

Natural Heritage Coordinator
Missouri Department of Conservation
P.O. Box 180
2901 W Truman Blvd
Jefferson City, MO 65109
(573) 522-4115

If you are requesting information about any Element on this *Checklist* for the purposes of environmental review, please write:

Science Branch
Missouri Department of Conservation
P.O. Box 180
Jefferson City, MO 65109

You can also conduct an online Natural Heritage Review by submitting your information to <https://naturalheritagereview.mdc.mo.gov/>

WEBPAGE

This checklist is updated annually. The most current version is always available by contacting MDC, Branch. *Checklist* information is also available on MDC's website: <http://mdc.mo.gov/145>.

CITATION

An appropriate citation for this edition of the *Checklist* is:

APPENDIX A
BIRD SPECIES TRACKED IN MONHP AND THEIR CRITERIA FOR EORS

<u>Species (ranks)</u>	<u>MDC Regions*</u>	<u>Criteria** (safe dates), comments</u>
Anseriformes (Ducks, geese, swans)		
Trumpeter Swan (S1, G4)	All (NE, NW)	1
Galliformes (chicken-like birds)		
Ruffed Grouse (SU, G5)	CN, OZ, SL, SE	1
Greater Prairie-chicken (S1, G4)	SW, KC, NW, NE	Anytime observed
Suliformes (anhinga)		
Anhinga (S3S4, G5)	SE	1
Pelecaniformes (herons, egrets, storks, ibises)		
American Bittern (S1, G5)	All	1- extensive emergent marshes
Least Bittern (S3, G5)	All	1,2 (5/25-8/1)
Great Egret (S3, G5)	All (SE)	1
Snowy Egret (S1, G5)	SE	1
Little Blue Heron (S3, G5)	SE, SL	1
Black-crowned Night-Heron (S3, G5)	All (SE)	1
Accipitriformes (hawks, eagles, kites, vultures)		
Osprey (S2, G5)	All (confirmed NE, SW)	1- Any large open body of water
Swallow-tailed Kite (SX, G5)	SE	1- Formerly SE, large rivers
Mississippi Kite (S3, G5)	All (SE, SL, NE)	1- Expanding range
Bald Eagle (S3, G5)	All	1- Any large open body of water
Northern Harrier (S2, G5)	All (except OZ, SE)	1
Sharp-shinned Hawk (S2, G5)	All	1
Swainson's Hawk (S2, G5)	SW, KC	1
Gruiformes (rails, cranes)		
Yellow Rail (SU, G4)	All	Anytime observed (migrant)
Black Rail (SU, G3G4)	All	Anytime observed, large marshes
King Rail (S1, G4)	All (SE, SL, NE)	1,2 (5/30-7/31)
Virginia Rail (S2, G5)	All	1,2 (5/15-8/1)
Sora (S2, G5)	All	1,2 (5/30-7/31)
Common Gallinule (S2, G5)	All (except OZ)	1,2 (5/30-8/31)
Sandhill Crane (S1, G5)	NE, NW, CN, SL	1
Charadriiformes (gulls, terns, shorebirds)		
Interior Least Tern (S2, G4T2Q)	SE	1- Formerly along MS, MO Rivers
Black Tern (SX, G4G5)	NW	1
Cuculiformes (cuckoos, roadrunners)		
Greater Roadrunner (S3, G5)	SW, OZ	1
Caprimulgiformes (nightjars)		
Eastern Whip-poor-will (S3B, G5)	All	1
Chuck-Will's-widow (S3B, G5)	SW, OZ, SE	1
Strigiformes (Owls)		
Burrowing Owl (SX, G4)	NW	1

Strigiformes (Owls) (Cont.)

Long-eared Owl (SU, G5)	All	1-Forests, dense thickets near water
Short-eared Owl (S2, G5)	SW, NW, NE, KC	1,2 (5/1-8/31)

Piciformes (Woodpeckers)

Red-cockaded Woodpecker (SX, G3)	OZ, SE	Anytime observed
Ivory-billed Woodpecker (SX, G1)	All	Anytime observed

Falconiformes (falcons)

Peregrine Falcon (S3, G4)	SL, KC	1- Formerly along MO river bluffs
---------------------------	--------	-----------------------------------

Passeriformes (perching birds)

Loggerhead Shrike (S2, G4)	All (SW, KC, NW)	1,2 (4/20-7/20)
Common Raven (SX, G5)	All	Anytime observed
Brown-headed Nuthatch (SU, G4)	All	1
Marsh Wren (S3, G5)	All (except SW, SE, OZ)	1,2 (5/25-8/25)
Bachman’s Warbler (SX, GH)	All	Anytime observed
Swainson’s Warbler (S2, G4)	SE, OZ, SW	1,2 (5/25-8/15)
Cerulean Warbler (S2S3, G4)	All (OZ)	1,2 (6/1-8/10)
Black-throated Green Warbler (SU, G5)	SE	1
Bachman’s Sparrow (S1, G3)	OZ, SW, SE	1,2 (6/1-8/15)
Painted Bunting (S3, G5)	SW, OZ	1,2 (5/25-8/1)
Yellow-headed Blackbird (S3, G5)	NW (possible anywhere)	1
Bewick’s Wren (S3, G5)	All	1, 2 (5/15-8/15)

***MDC Regions (where species most likely to be recorded)**

CN - Central	KC - Kansas City
NE - Northeast	NW - Northwest
OZ - Ozark	SL - St. Louis
SE - Southeast	SW - Southwest

****Criteria**

1. Confirmed breeding. Evidenced one or more of the following:

- Nest building (except wrens and woodpeckers)
- Nest with egg(s) or young (seen or heard)
- Used nest or eggshells
- Physiological evidence of breeding based upon bird in hand (e.g. brood patch)
- Distraction display or injury feigning
- Recently fledged young
- Adults entering or leaving nest site in circumstances indicating nesting
- Adult carrying fecal sac
- Adult carrying food

2. Probable breeding (valid only between safe dates)

- Male and female seen together (not part of a flock)
- Bird holding territory
- Seven or more singing males detected in one visit
- Courtship or copulation
- Visiting probable nest site
- Agitated behavior or anxiety call (not provoked by observer)
- Nest building by wrens or woodpeckers

3. Possible breeding (valid only between safe dates)

- Species heard or seen in breeding habitat
- Species heard or seen but not in breeding habitat

**APPENDIX B

Cerulean Warbler		18	5	4	4	3	2
WETLAND BIRDS	Green Heron	15	5	3	3	3	1
GENERALIST BIRDS	Common Grackle	16	5	4	5	1	1
SPECIAL CIRCUMSTANCE BIRDS²	Ruffed Grouse	-					
	Greater Prairie-Chicken	-					
	King Rail	-					
	Bachman's Sparrow	-					
	Brown-headed Nuthatch	-					

***Not all Focal Species are tracked in Heritage**

¹ MO Concern Score = sum of other five scores: MO Population Trend, MO Threats to Breeding, MO Relative Density, Global Population Size, and Global Distribution. Each score's scale varies slightly, but in general 1=least concern/lowest threat level and 5=greatest concern/highest threat level.

² Special Circumstance Birds were not scored due to extremely low breeding populations caused by various circumstances. See SPECIAL CIRCUMSTANCE BIRDS section of the Missouri Conservation Bird Plan for more information.

PLANTS OF CONSERVATION CONCERN REPORTING FORM

NATURAL HERITAGE BOTANIST AND DATA MANAGER

EO Report Status (check one): New Update WITH mapping Update WITHOUT mapping

EO ID: _____ EONUM: _____ Srank: _____ EO Rank: _____ Origin Subrank: _____

EO Rank Comments: _____

Reference(s): _____

Heritage Mapper/Date: _____ Mapsheet Name(s): _____

Heritage Map QC/Date: _____ Heritage Botanist/Date: _____

SPECIES and LOCATION (please attach a map)

Scientific Name: _____ Common Name: _____

County Name(s): _____ Survey Site Name: _____

Directions to Survey Site: _____

Coordinates: _____, _____ if UTM, NAD: 83 Zone: 15

Locational Uncertainty (buffer radius): Mapped location is within _____ Meters Feet Miles

ELEMENT OCCURRENCE DATA

Survey Date (yyyy-mm-dd): _____

Observer(s) (last name, first name): _____

EO [population] Data (actual and/or estimated number observed; condition: sterile or in bud/ flower/ fruit; evidence of disease, predation, or exotics; specimen/photo, etc.): _____

General Habitat Description: _____

OWNERSHIP

Managed Area/ Public Land Name(s): _____

Is the entire EO within the Managed Area boundaries? (check one): YES PARTIAL

Owner Name(s): _____

Owner Comments (address, phone number, etc.): _____

Management Comments: _____

Protection Comments: _____

ADDITIONAL INFORMATION

General Comments (associated species, etc.): _____

Form completed by (last name, first name): _____ Date: _____

Thank you for helping maintain the Missouri Natural Heritage Program.

11/2020

Please return this form to: Natural Heritage Botanist, Science Branch, Missouri Dept. of Conservation,
P.O. Box 180, Jefferson City, MO 65102, 573-522-4115.

ANIMALS OF CONSERVATION CONCERN REPORTING FORM

NATURAL HERITAGE TAXA EXPERT AND DATA MANAGER

EO Report Status (check one): New Update **WITH** mapping Update **WITHOUT** mapping
EO ID: _____ EONUM: _____ Bat Biological Use: _____ Srank: _____
EO Rank: _____ Origin Subrank: _____ EO Rank Comments: _____
Reference(s): _____
Heritage Mapper/Date: _____ Mapsheet Name(s): _____
Heritage Map QC/Date: _____ Heritage Taxa Expert/Date: _____

SPECIES and LOCATION (please attach a map)

Scientific Name: _____ Common Name: _____
County Name(s): _____ Survey Site Name: _____
Directions to Survey Site: _____
Coordinates: _____, _____ if UTM, NAD: 83 Zone: 15
Locational Uncertainty (buffer radius): Mapped location is within _____ Meters Feet Miles

ELEMENT OCCURRENCE DATA

Survey Date (yyyy-mm-dd): _____
Observer(s) (last name, first name): _____
EO [population] Data (number observed/trapped, condition: live/dead and age, evidence of reproduction, physical measurements, sampling methodology, person hrs, bat hibernaculum/maternity, specimen/photo, etc.):

General Habitat Description: _____

OWNERSHIP

Managed Area/ Public Land Name(s): _____
Is the entire EO within the Managed Area boundaries? (check one): YES PARTIAL
Owner Name(s): _____
Owner Comments (address, phone number, etc.): _____
Management Comments: _____
Protection Comments: _____

ADDITIONAL INFORMATION

General Comments (associated species, etc.): _____

Form completed by (last name, first name): _____ Date: _____

Thank you for helping maintain the Missouri Natural Heritage Program.

11/2020

Please return this form to: Natural Heritage Coordinator, Science Branch, Missouri Dept. of Conservation,
P.O. Box 180, Jefferson City, MO 65102, 573-522-4115; or MDC Heritage Taxa Expert if known.

TERRESTRIAL NATURAL COMMUNITY REPORTING FORM

NATURAL HERITAGE COMMUNITY ECOLOGIST AND DATA MANAGER

EO Report Status (check one): New Update **WITH** mapping Update **WITHOUT** mapping
EO ID: _____ EONUM: _____ GELCODE: _____ Gelcode Conf. Level: 1 2 3
Reference(s): _____
Heritage Mapper/Date: _____ Mapsheet Name(s): _____
Heritage Map QC/Date: _____ Heritage Community Ecologist/Date: _____

NATURAL COMMUNITY TYPE and LOCATION (please attach a map)

Natural Community Name/Type: _____
County Name(s): _____ Survey Site Name: _____
Directions to Survey Site: _____
Coordinates: _____, _____ if UTM, NAD: 83 Zone: 15
Locational Uncertainty (buffer radius): Mapped location is within _____ Meters Feet Miles

ELEMENT OCCURRENCE DATA

Survey Date (yyyy-mm-dd): _____
Observer(s) (last name, first name): _____
Plant species composition (5-10 dominant or characteristic plant taxa by scientific name): _____

General Habitat Description (describe substrate, topography and vegetation structure including acreage. E.g., "Glade system with three openings of 1, 5, and 10 acres." If part of a natural community complex, describe what percentage of the mapped polygon is made up of this EO type. E.g., "30% of a complex with wet-prairie and freshwater marsh."): _____

Community Significance (check one): Significant Exceptional Notable
EO Rank: _____ **EO Rank Comments** (describe ecological integrity; i.e., resemblance to presettlement condition, lack of exotic species, presence of conservative species, floristic quality index values, etc.): _____

OWNERSHIP

Managed Area/ Public Land Name(s): _____
Is the entire EO within the Managed Area boundaries? (check one): YES PARTIAL
Owner Name(s): _____
Owner Comments (address, phone number, etc.): _____
Management Comments: _____
Protection Comments: _____

ADDITIONAL INFORMATION

General Comments (associated species, etc.): _____

Form completed by (last name, first name): _____ Date: _____

Thank you for helping maintain the Missouri Natural Heritage Program.

11/2020

Please return this form to: Natural Heritage Community Ecologist, Statewide Resource Management Branch,
Missouri Dept. of Conservation, P.O. Box 180, Jefferson City, MO 65102, 573-522-4115.

AQUATIC NATURAL COMMUNITY REPORTING FORM

NATURAL HERITAGE AQUATIC COMMUNITY ECOLOGIST AND DATA MANAGER

EO Report Status (check one): New Update **WITH** mapping Update **WITHOUT** mapping
EO_ID: _____ EONUM: _____ Reference(s): _____
Heritage Mapper/Date: _____ Mapsheet Name(s): _____
Heritage Map QC/Date: _____ Heritage Aquatic Comm. Ecologist/Date: _____

NATURAL COMMUNITY TYPE and LOCATION (please attach a map)

Aquatic Natural Community Name/Type: _____
County Name(s): _____ Survey Site Name: _____
Directions to Survey Site: _____
Coordinates: _____, _____ if UTM, NAD: **83** Zone: **15**
Locational Uncertainty (buffer radius): Mapped location is within _____ Meters Feet Miles

ELEMENT OCCURRENCE DATA

Survey Date (yyyy-mm-dd): _____
Observer(s) (last name, first name): _____
Aquatic assemblage (5-10 dominant or characteristic fish and/or aquatic invertebrate taxa by scientific name):

General Habitat Description (stream order, miles to headwaters, riparian corridor condition, composition of riffles and pools, and other physical factors): _____

Community Significance (check one): Significant Exceptional Notable
EO Rank: _____ EO Rank Comments (describe ecological integrity; i.e., resemblance to presettlement condition, lack of exotic species, presence of conservative species, biologic integrity index values, etc.): _____

OWNERSHIP

Managed Area/ Public Land Name(s): _____
Is the entire EO within the Managed Area boundaries? (check one): YES PARTIAL
Owner Name(s): _____
Owner Comments (address, phone number, etc.): _____
Management Comments: _____
Protection Comments: _____

ADDITIONAL INFORMATION

General Comments (associated species, etc.): _____
Form completed by (last name, first name): _____ Date: _____

Thank you for helping maintain the Missouri Natural Heritage Program.
