

HP EliteDisplay E223d 21.5-inch Docking Monitor

Activate an instant workspace

Clear your clutter with the easy, efficient connectivity of the HP EliteDisplay E223d 21.5-inch Docking Monitor. Set up your devices and network at the display one time, then connect your notebook through just one USB-C™ cable¹ and you're ready to work.

Single-cable simplicity

- Streamline your space with the clean, convenient cabling of one USB-C™¹ connection from your notebook to a display that's also a dock to access your devices, network, and video and power your PC.¹

Flexible by design

- Find your sweet spot with adjustable tilt, height, swivel, and pivot rotation. Add a second display² daisy-chained through your PC's USB-C™ connection. 3-sided micro-edge bezels ensure a virtually seamless dual-display view.

Take your PC off the desk

- Maximize space in desktop PC environments by mounting your HP EliteDesk Mini Desktop PC directly behind the display³ and powering it through USB-C™.¹ Or, lift the whole solution and mount⁴ it on a wall or arm.

Featuring

- Filter blue light emission and shift colors to a warmer spectrum for more comfortable viewing with HP Low Blue Light mode.
- Customize a total solution with options like the HP S101 Speaker Bar, which attaches easily to the lower bezel to add stereo audio at the display.
- Manage your display and make it work for you. HP Display Assistant allows you to quickly resize screen partitions so you can work in separate regions of the screen and helps deter theft by dimming a display that's disconnected without approval.
- Rest assured that your IT investment is supported with our three-year standard limited warranty. To extend your protection, select an optional HP Care service.
