# Inspiration without limits

HP Z Workstations Solutions

Spend more time creating and less time waiting. HP Z Workstations help you handle more, do more, and give you limitless creative possibilities. Packed with the newest industry-leading processing, graphics and innovative technologies, HP Z Workstations provide the tools you need to handle the toughest workstreams.

Think Z

HP Z Workstations have been on the market for over 30 years. Designed from the inside out, HP Z Workstations deliver high performance and reliability with the latest innovations and industry-leading technologies. When you need to focus on your work not your workstation—think Z.

Breakthrough industrial design

From the striking design of the HP Z1 and sleek industrial styling of the tower models, to the business-rugged, thinner and lighter chassis of the HP ZBook Mobile Workstations, every HP Z Workstation combines stunning aesthetics with everyday practicality.

Tool-free customization

Work isn't static. Expand your system capabilities with ease as your workflow demands grow over time. HP Z Workstations featuring smart tool-less chassis, easy open access doors, and easy rack accessibility makes installing more memory, storage, and I/O options a breeze. Multiple slots and flexible storage bays allow you to install hard drives, SSDs, optical drives, RAID configurations, and more.

The quiet of HP Z Workstations

Great work requires inspiration and inspiration requires focus. HP Z Workstations' clean, modular interior layout maximizes airflow—keeping processors and graphics cards running at optimum performance. HP Z Workstations also feature industry-leading acoustics technology, such as high-performance air cooling, so your concentration is never interrupted.

All day, all night reliability

Testing beyond industry standards

You put your workstations through the toughest trials—we do, too. HP Z Workstations, and the components that go into them, undergo rigorous 115,000 hours of testing in the **HP Total Test Process** and HP ZBooks are tested to MIL-STD 810G[2] standards. Extreme stress tests such as drops, vibration, temperature, shock, dust, and more ensure optimized performance.

HP relationships

Your work requires the best in processing and graphics performance, so HP works closely with vendors to ensure it. High-performance, multi-core Intel® Xeon® and Core™ processors[3] are tested and validated by Intel® and HP for your workstation-class applications to provide breakthrough performance in processing.

HP works with NVIDIA® and AMD to offer ISV-certified 2D through extreme 3D workstation graphics, including NVIDIA® Quadro® and AMD FirePro™.

Certification for every industry

HP works closely with Independent Software Vendor (ISV) developers to help ensure the most popular applications are thoroughly tested and certified to work on your HP Z Workstation. Whether you're working in media and entertainment or product development, finance or design, oil and gas, or geographic information systems, you can rely on these applications—known and trusted throughout your industry—to deliver rock solid reliability, every minute of every working day.

A long-term investment

Simplify your certification and support burdens and streamline large deployments with **HP Stable and Consistent Offerings**. Simply select your hardware and software components when you customize your HP Z Workstation and be assured that you'll be able to buy that same configuration throughout the lifecycle of the workstation, from product launch through retirement.

A leader in eco-labels

- HP is an industry leader in ENERGY STAR® qualified products.
- EPEAT®[1] is a comprehensive environmental rating that helps identify greener computers and other electronic equipment. As the first to achieve EPEAT Gold certification, HP Z Workstations exceed industry requirements.

Get the best Z Workstation for your application

So which is the right HP Z Workstation for your applications? Try our online workstations selection wizard to find out: hp.com/workstationfinder

Your job made easier

HP Z Workstations offer HP's maximum performance through unique HP technologies. Go beyond the basics to maximize your productivity, make IT management easy, and deliver a complete workstation experience.
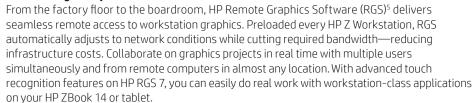

HP Performance Advisor

Your trusted advisor.
HP Performance Advisor[4] delivers a simple, effective way to keep your workstation operating at its peak potential. Like having an IT pro always on hand, this pre-installed software can take you from initial configuration and customization through the optimization of your system for each new application and driver you install.

For more information, visit hp.com/go/performanceadvisor

HP Remote Graphics Software

Go out and get inspired.
From the factory floor to the boardroom, HP Remote Graphics Software (RGS)[5] delivers seamless remote access to workstation graphics. Preloaded every HP Z Workstation, RGS automatically adjusts to network conditions while cutting required bandwidth—reducing infrastructure costs. Collaborate on graphics projects in real time with multiple users simultaneously and from remote computers in almost any location. With advanced touch recognition features on HP RGS 7, you can easily do real work with workstation-class applications on your HP ZBook 14 or tablet.

For more information, visit hp.com/go/RGS

HP Z Turbo Drive

Shift into a higher gear.
Experience ultra-fast storage speeds with the revolutionary HP Z Turbo Drive, an innovative PCIe-based SSD storage solution that reduces system bottlenecks, boot up, calculation, and graphics response times—even with 4K video.

For more information, visit hp.com/go/zturbo

HP DreamColor Technology

Dream in color.
Leave no detail uncovered with the brilliance of HP DreamColor Technology.[6] Featuring a palette of over one billion colors, you'll get precise color accuracy and predictable color across your entire digital workflow.[7]

For more information, visit hp.com/go/dreamcolor

HP Z Workstation BIOS

Power up, bring costs down.
Reduce power consumption and increase workstation reliability through the innovative HP Z Workstation BIOS featuring preset sleep states, adjustable fan speeds to maximize operating efficiency, and power management features.

For more information, visit hp.com/go/zworkstations

HP Client Management

Take control.
Manage your workstation fleet with ease and lower your IT cost. HP Client Management Portfolio lets you activate, configure, patch, and update your fleet from a single console.

For more information, visit hp.com/go/zworkstations

3

Get the right Z Workstation for you

"HP Z Workstations allow us to move in and out of all the different models, platforms, and engines we use to optimize built environments—and to communicate in real time. We can now speed innovation to market in ways our competition hasn't been able to do yet."

- Kurt Karnatz, President,
  Environmental Systems Design

Ideal for architects, engineers, M&E professionals and more.

Create your perfect match of flexibility, functionality, computational power and visualization with HP's broad range of Z Workstations.

Work elegantly

Create brilliant projects with plenty of room to work on the elegant and innovative HP Z1 G2 All-in-One Workstation featuring a stunning touch optional 27-inch diagonal display.[6] The intuitive design of the HP Z1 allows for simple expansion, customization and connectivity.

HP Z1 Workstation

Spark creativity.
Take computing performance to another level with the HP Z1 G2 featuring the latest Intel® processors and a wide range of professional 3D graphics from NVIDIA®. Connect in a flash and increase productivity with optional, easily accessible Thunderbolt™ 2[8] ports.[6] And see your ideas shine on the brilliant next generation IPS display or the optional 10-point touchscreen.

- Windows 8.1 Pro 64-bit and other editions available[9]
  Windows 7 Professional[9]
  Linux® Operating Systems
- Intel® Xeon® processor E3-1200 v3 series or 4th Generation Intel® Core™ i3/i5 processor[3] options
- 27" diagonal IPS display with 2560 x 1440 resolution; optional 10-point touchscreen[6]
- Optional Thunderbolt™ 2[8] ports[6] for up to 4x the bandwidth of USB 3.0
- Professional 3D NVIDIA® Quadro® graphics
- Dual cone, front-facing speakers with DTS Studio Sound™

Fuel your creative vision

HP knows different tasks require different tools and that's why we offer a complete family of HP Desktop Z Workstations with scalability and performance to tackle your most complex tasks.

HP Z230 Workstations

Get more power than a PC can deliver.
The HP Z230 Workstation delivers reliable performance and scalability for your growing business needs—at PC-like prices. Designed for the demanding workloads of always on workstation applications, the Z230 Workstation is available in the impressively expandable compact Tower or the surprisingly capable Small Form Factor (SFF).

- Windows 8.1 Pro 64-bit and other editions available[9]
  Windows 7 Professional[9]
  Linux® Operating Systems
- Powered by the Intel® Xeon® processor E3-1200 series or Intel® Core™ i3/i5/i7 processor family[3]
- Optional Thunderbolt™ 2[6,8] technology for up to 4x the bandwidth of USB 3.0
- HP Z Turbo Drive PCIe SSD for double the performance of SATA SSDs
- Wide selection of professional graphics from NVIDIA®, AMD, and Intel®
- Wide array of USB ports and storage options let you expand
- 92% efficient power supplies standard and available ENERGY STAR® 6.0 configurations

A great solution for current PC users who need workstation performance and reliability at a PC-like price.

HP Z440 Workstation

Expand your power.
Take your business to the next level of performance, expandability, and no compromise reliability in one complete package. The HP Z440 Workstation, with its sleek 4U form factor, tool-less design, and built-in handles make it simple to expand even in a racked data center environment.

• Windows 8.1 Pro 64-bit and other editions available[9]
  Windows 7 Professional[9]
  Linux® Operating Systems

• Choice of Intel® Xeon® processor E5-1600 v3 and E5-2600 v3 families[3] supporting up to 8 cores of processing power

• Up to 128 GB DDR4-2133 MHz Registered ECC memory[10,15] (with 16 GB DIMMs)

• Optional Thunderbolt™ 2[6,8] technology for up to 4x the bandwidth of USB 3.0

• Fusion-io® (ioFX®) option for extreme storage performance[6]

• HP Z Turbo Drive PCIe SSD for double the performance of SATA SSDs

• Support for up to eight displays at peak HD resolutions[11] for maximum viewing area

Well suited for engineers, architects and creative professionals who use graphics-intensive applications

HP Z640 Workstation

Expand your capabilities.
Build the perfect workstation for your needs. Configure and reconfigure with ease on the HP Z640 Workstation. With up to 36 discrete processing cores, the dual-socket system packs massive computing power into a whisper-quiet compact design.

• Windows 8.1 Pro 64-bit and other editions available[9]
  Windows 7 Professional[9]
  Linux® Operating Systems

• Choice of Intel® Xeon® processor E5-2600 v3 and E5-1600 v3 families[3]

• Support for 145 W processors powering up to 36 cores in a dual processor configuration.[3]

• Optional Thunderbolt™ 2[6,8] technology for up to 4x the bandwidth of USB 3.0

• Up to 256 GB DDR4-2133 MHz Registered ECC memory[10,15]

• Fusion-io® (ioFX®) option for extreme storage performance[6]

• Five high-speed PCIe slots enable greater data throughput to multiple I/O devices

• HP Z Turbo Drive PCIe SSD for double the performance of SATA SSDs

• Up to 2x high-end 3D graphics cards supported, driving up to four displays for advanced 3D applications

• Up to 4x 2D graphics cards supported, driving up to 8 displays[11] for user environments with stacked displays

Ideal solution for environments where space is at a premium, including financial services, engineering and construction

HP Z840 Workstation

Take on the hardest projects.
Push your computing boundaries with the HP Z840 Workstation that helps you keep up with your biggest projects. Built for high-end computing and visualization, it delivers outstanding performance in one of the industry's most expandable chassis.

- Windows 8.1 Pro 64-bit and other editions available[9]
  Windows 7 Professional[9]
  Linux® Operating Systems

- Powered by Intel® Xeon® processor E5-2600 v3 family[3]

- Up to 512 GB DDR4-2133 MHz Registered ECC memory[10,15]

- High density storage: configure up to 10 internal SFF drives for performance, capacity, and security

- Optional Thunderbolt™ 2[6,8] technology for up to 4x the bandwidth of USB 3.0

- Seven high-speed PCIe slots enable greater data throughput to multiple I/O devices

- Fusion-io® (ioFX®) option for extreme storage performance[6]

- HP Z Turbo Drive PCIe SSD for double the performance of SATA SSDs

- Highest-performing GPU computing solutions available in the Z family

- Easy access to customize and maintain system components with a tool-less and visually cable-free chassis

For workstation tasks requiring maximum computing, graphics, memory, storage and I/O, such as simulation, computer-aided engineering. entertainment and financial services

Create anywhere

When inspiration strikes, the HP ZBook is there. These superb mobile workstations offer a choice of screen size and are packed with incredible power to take on intensive projects.

HP ZBook 14 Mobile Workstation

Redefine mobile computing.
HP's lightest mobile workstation—the HP ZBook 14 Mobile Workstation utilizes impressive professional 3D graphics. This exceptionally thin, customizable workstation is light enough to carry when you're on the go—and powerful and reliable enough to carry you through the workday.

- Windows 8.1 Pro 64-bit and other editions available[9]
  Windows 7 Professional[9]
  Linux® Operating Systems

- Powered by 4th generation Intel® Core™ i5 and i7 processors[3]

- 14.0" (35.6 cm) diagonal display and 3.57 lbs (1.62 kg) for easy mobility

- Latest AMD FirePro™ graphics feature ISV certifications

- Support for AMD Enduro™ Technology

- Intuitive 10-point multi-touch screen[6] option

- Optional secondary battery support (6-cell slice)[6]

The world's first workstation Ultrabook™[12]

HP ZBook 15 Mobile Workstation

Perform on the go.
Work anywhere and be confident the power you need is at your fingertips. Take advantage of the HP ZBook 15 G2's powerful processing and graphics, simple scalability, and blazing-fast connectivity to perform and collaborate at the speed of creativity.

- Windows 8.1 Pro 64-bit and other editions available[9]
  Windows 7 Professional[9]
  Ubuntu Linux®[19]

- Dual- and quad-core 4th generation Intel® Core™ i5 and i7 processors[3]

- 15.6" (39.6 cm) diagonal display in your choice of FHD or QHD+ resolutions[13]

- Drive up to five displays with NVIDIA® graphics[14]

- Support for NVIDIA® Optimus® and AMD Enduro™ Technology

- Up to 2.2 TB of storage[10] and up to four SODIMMS supporting up to 32 GB[15] of memory

- Thunderbolt™ 2[8] technology for up to 4x the bandwidth of USB 3.0

- HP Z Turbo Drive (PCIe SSD) for incredibly fast storage speeds

- Tool-less hard drive release via green touch point

- Two secondary external battery options[6]

- Common docking station options

HP's most versatile mobile workstation

HP ZBook 17 Mobile Workstation

Expand your creative capabilities.
On the go creativity knows no limits with a vivid 17.3" diagonal HP ZBook 17 G2. Showcase your best work in the office or on the go and take advantage of HP's most powerful processing, graphics, simple scalability, and blazing-fast connectivity to perform and collaborate at the speed of creativity.

- Windows 8.1 Pro 64-bit and other editions available[9]
  Windows 7 Professional[9]
  Ubuntu Linux®[19]

- Dual- and quad-core 4th generation Intel® Core™ i7 processors[3]

- 17.3" (43.9 cm) diagonal display in your choice of HD+, FHD resolutions[13] or HP DreamColor panel[6]

- Drive up to five displays with NVIDIA® graphics[14]

- Up to 3.2 TB of storage[10] and up to 32 GB[15] of memory

- HP Z Turbo Drive (PCIe SSD) for incredibly fast storage speeds

- Support for NVIDIA® Optimus®[16] and AMD Enduro™ Technology

- Thunderbolt™ 2[8] technology for up to 4x the bandwidth of USB 3.0

- Tool-less hard drive release via green touch point

- Two secondary external battery options[6]

- Common docking station options

HP's most powerful mobile workstation

Expand your horizons

Design a multiple monitor workspace with HP DreamColor and HP Z Displays and create a whole world view. Choose to connect multiple displays[11] and you're on your way to expanded productivity.

HP Z Displays

Say hello to your new power-smart IPS Gen 2 team players.
Get outstanding image accuracy, exceptional adjustability, and mission-critical reliability optimized for commercial environments. Built with IPS Gen 2 panels, HP Z Displays deliver power savings over first-generation IPS technology and extra-wide viewing angles that foster collaboration.

HP Z22i 21.5-inch, HP Z23i 23-inch, and HP Z24i 24-inch IPS Displays

• Choose a 21.5-inch diagonal or 23-inch diagonal display with 1920 x 1080 resolution or the 24-inch diagonal display with 1920 x 1200 resolution and 2.3 M pixels

• Legacy connectivity from a range of inputs that include DisplayPort 1.2, DVI, VGA, and an integrated USB hub

HP Z27i 27-inch IPS Display

• 27-inch diagonal display with narrow bezels and a high resolution of 2560 x 1440 and 3.7 M pixels for enhanced productivity

• Connectivity from a range of inputs that include DisplayPort 1.2, DVI, VGA, HDMI 1.4, audio output for an HP Speaker Bar,[6] and four USB 3.0 ports with speeds up to 10x faster than USB 2.0

HP Z30i 30-inch IPS Display

• 30-inch diagonal display with narrow bezels and an ultra-high resolution of 2560 x 1600 that provides 4.1 M pixels of ultimate visual power

• Enhance the dark regions of your onscreen images and see the smallest details even better with integrated HP Black Stretch technology

• Crisp, clear presentation from 350 cd/m^2 brightness, 1000:1 contrast ratio, 5 M:1 dynamic contrast ratio, and 8 ms response time[7]

Gold-standard color-critical displays

HP DreamColor Z24x Professional Display

Turn on your creativity with a premium display.
Enjoy pure, consistent 10-bit color accuracy from design to production with push-button color space selection and easy color calibration. The 24-inch diagonal DreamColor panel produces up to 1.07 billion colors from a massive color gamut covering 99% of Adobe® RGB.

• Pro-class color quality with 100% coverage of sRGB, BT.709 and 99% of Adobe RGB. Crisp and clear from 1000:1 contrast ratio[7] and high brightness on a 1920 x 1200 resolution wide-angle IPS panel.

- Create your own custom color space and calibrate any of the five color space presets—sRGB, Adobe RGB, BT.709, User and Native—with the optional HP DreamColor Calibration Solution.[6]
- Connect to a PC, workstation, and several digital video devices with DVI, DisplayPort, and HDMI inputs. A DisplayPort output supports daisy chaining of multiple displays.[6]

HP DreamColor Z27x Professional Display

Astonishing performance for the color professional.
Work in brilliant, trusted color and bring your ideas to life with the HP DreamColor Z27x Professional Display, featuring HP's unrivaled integrated calibration engine, 4K[17] input support, and 10-bit color that drives up to 1.07 billion onscreen colors.

- Consistently deliver rich, accurate colors and ultra-deep blacks with HP's custom-engineered 27-inch diagonal DreamColor panel. Get massive 2560 x 1440 resolution and crisp, clear presentation from 1000:1 typical, 800:1 minimum contrast ratio and high brightness.[7]
- Experience up to 1.07 billion colors with 1,024 tones per channel as the HP DreamColor Engine[7] powers through your 4K content[17] with 10-bit color accuracy and easily handles today's most demanding professional workflows.
- Deep, rich CRT-class blacks at any angle with custom-engineered, advanced Off-Axis Black and second-generation IPS technologies. 99% coverage of DCI-P3 and 100% coverage of sRGB and Adobe RGB.
- Instant push-button color accuracy with seven color space presets. The integrated calibration engine recalibrates with a professional color measurement device or the HP DreamColor Calibration Solution.[6]

Extended Services

Your HP Z Workstation experience doesn't end at the time of purchase, so why should our support? HP's Warranty along with a range of optional services ensures you have the right support at the right time.

HP Warranty
Every HP Z Workstation comes with a standard limited 3-3-3 warranty (three years parts, three years labor and three years next business day[18] onsite support). You may also benefit from account management and premium call center support.

HP Total Care
Behind every HP Z Workstation there's a whole infrastructure of service and support packages designed to ensure that you get maximum value and benefit over the full life of your product.

For more information, please visit: hp.com/go/totalcare

HP Care Pack Services[18]
Choose to expand upon your standard, limited warranty by taking advantage of our optional HP Care Pack Services, and you have the reassurance of knowing that, whatever's around the next corner, you're covered.

For more information, please visit: hp.com/go/cpc

Comparison chart notes

* After-Market Option

1. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows functionality. See microsoft.com.

2. This system is preinstalled with Windows® 7 Pro software and also comes with a license and media for Windows 8.1 Pro software. You may only use one version of the Windows software at a time. Switching between versions will require you to uninstall one version and install the other version. You must back up all data (files, photos, etc.) before uninstalling and installing operating systems to avoid loss of your data.

3. Not available with WWAN.

4. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

5. Intel® Turbo Boost technology requires a PC with a processor with Intel Turbo Boost capability. Intel Turbo Boost performance varies depending on hardware, software, and overall system configuration.

6. Each processor supports up to 2 channels (HP Z230 Tower/HP Z230 SFF) of DDR3 memory or 4 channels (HP Z440/HP Z640/HP Z840) of DDR4 memory. To realize full performance at least 1 DIMM must be inserted into each channel. To get full 8 channel support, 2 processors MUST be installed. Actual memory speeds dependent on processor capability.

7. Thunderbolt™ 2 is available via an optional add-in card on HP Z1 G2, HP Z230 SFF, HP Z230 Tower, HP Z440, HP Z640 and HP Z840 Workstations. It is standard on HP ZBook 15 G2 and HP ZBook 17 G2 Mobile Workstations. Thunderbolt cable and Thunderbolt device (sold separately) must be compatible with Windows. To determine whether your device is Thunderbolt Certified for Windows, see thunderbolttechnology.net/products.

8. If configured with the HP DreamColor display, NVIDIA® Optimus® graphics will not be enabled.

9. For hard drives, 1 GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 20 GB (for Windows 7) and up to 30 GB (For Windows 8.1) of hard drive (or system disk) is reserved for the system recovery software.

10. SATA hardware RAID is not supported on Linux® systems. The Linux® kernel, with built-in software RAID, provides excellent functionality and performance. It is a good alternative to hardware based RAID. Please visit h20000.www2.hp.com/bc/docs/support/SupportManual/c00060684/c00060684.pdf for RAID capabilities with Linux®.

11. Double Layer discs can store more data than single layer discs. However, double-layer discs burned with this drive may not be compatible with many existing single-layer DVD drives and players The DVD-RAM cannot read or write to 2.6 GB Single Sided/5.2 GB Double Sided – Version 1.0 media.

12. With Blu-Ray, certain disc, digital connection, compatibility and/or performance issues may arise, and do not constitute defects in the product. Flawless playback on all systems is not guaranteed. In order for some Blu-ray titles to play, they may require a DVI or HDMI digital connection and your display may require HDCP support. HD-DVD movies cannot be played.

13. The term "10/100/1000" or "Gigabit" Ethernet indicates compatibility with IEEE standard 802.3ab for Gigabit Ethernet, and does not connote actual operating speed of 1 Gb/s. For high-speed transmission, connection to a Gigabit Ethernet server and network infrastructure is required.

Notes

1. EPEAT® registered where applicable. EPEAT registration varies by country. See epeat.net for registration status by country.

2. Testing was not intended to demonstrate fitness for Department of Defense contracts requirements or for military use. Test results are not a guarantee of future performance under these test conditions.

3. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

4. HP Performance Advisor requires Windows and an internet connection.

5. Remote Graphics Software requires Windows and internet access.

6. Sold as an optional or add on feature.

7. All specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary either higher or lower.

8. Thunderbolt™ 2 is available via an optional add-in card on Z1, Z230 SFF, Z230 Tower, Z440, Z640 and Z840 Workstations. It is standard on ZBook 15 and 17 Mobile Workstations. Thunderbolt cable and Thunderbolt device (sold separately) must be compatible with Windows. To determine whether your device is Thunderbolt Certified for Windows, see thunderbolttechnology.net/products.

9. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows functionality. See microsoft.com.

10. For hard drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16 GB of system disk is reserved for system recovery software (for Windows 7) and up to 30 GB is reserved for Windows 8.

11. Support for external displays as a standard feature through integrated processor-based graphics is dependent upon the particular workstation configuration; the actual number of displays supported will vary. An optional graphics solution will be required for the support of additional displays. Additional cables required. HD (high-definition) content required to view HD images

12. Not all configurations qualify as an Ultrabook™.

13. High-definition content is required to view high-definition images.

14. Requires optional docking and hybrid graphics enabled.

15. Maximum memory capacities assume Windows 64-bit operating systems or Linux®. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.

16. If configured with the HP DreamColor display, NVIDIA® Optimus® graphics will not be enabled.

17. 4K content required to view 4K resolution.

18. HP Care Packs are optional. Service levels and response times for HP Care Packs may vary depending on your geographic location. Restrictions and limitations apply. Service starts at date of hardware purchase. For details, visit hp.com/go/cpc.

19. Not available with WWAN.
