

Sams^onite

FEBRUARY 2016 PRODUCT RANGE

Samsonite

When Jesse Shwayder founded Samsonite in 1910, travel was reserved for only an exclusive few, those who had the means to see the world. Given this exclusiveness, travel was a high quality experience from the transportation, to the attention to service, to even the accessories used to carry one's belongings. As one of the original brands in travel, Samsonite has continued to leverage its craftsmanship and heritage as an innovator for the past 100 years, to create stylish and high quality solutions for the world traveller.

Today, Samsonite continues to lead the luggage category with the same core principles, further expanding Shwayder's vision globally with design and innovation into product categories and consumer targets.

By identifying trends and interpreting the continuing evolution of travellers' needs, Samsonite continues to lead the market with innovative, high quality and stylish designs.

LITE-SHOCK

THE LIGHTEST CURV EVER!

CURV TECHNOLOGY. EXCLUSIVE TO SAMSONITE FOR LUGGAGE.

reddot design award
winner 2015

LITE-LOCKED

A REVOLUTION IN LIGHTNESS, STRENGTH AND SECURITY.

Lite-Locked offers greater security along with the lightweight and shock impact resistance of Curv material. The three-point locking system, launched as a Samsonite patented innovation in 1986, has continuously evolved and been improved over the last 30 years, and offers greater security and practical travel use. Curv material, exclusive to Samsonite, has revolutionised the luggage industry enabling the lightest and strongest Samsonite ever. Made in Europe.

- Made with Curv material: extremely strong, incredibly light.
- Smooth rolling, sturdy frame.
- Three-point locking system: super secure and extremely easy to open/close the suitcase.
- Iconic, award winning Cosmolite design.
- Designed to match with Cosmolite items.

LITE-CUBE DELUXE *NEW*

A SOPHISTICATED TOUCH TO A TIMELESS SAMSONITE CASE

A new luxury version of Samsonite's classic, Lite-Cube. A rich, deluxe suitcase has been achieved through the use of sophisticated leather together with stitching details and a premium colour palette: metallised aluminium Curv with 'toffee' colour accents for a classic elegant look. With deluxe touchpoints, and a full option interior organisation system and leather soft touch handles. Lite-Cube DLX offers a highly stylish and effortless travel experience.

- Made with Curv material: extremely strong, incredibly light.
- Recessed carry handles, double wheels.
- Integrated ID-tag and soft touch ergonomically shaped pull handle.
- Highly featured interior.
- Leather trim.

LITE-CUBE

CURV, CREATING THE STRONGEST & LIGHTEST SAMSONITE CASES!

Lite-Cube is an ode to a Samsonite classic. Cubelite's highly commercial classic design-shape is in this version further emphasised by a completely new Curv look. This new look brings a more fine, structured weaving pattern and is completed by a very fine surface texture – creating an astonishing matt effect. Made in Europe.

- Made with Curv material: extremely strong, incredibly light.
- Recessed carry handles, double wheels.
- Integrated ID-tag and soft touch ergonomically shaped pull handle.
- Highly featured interior.
- Wide range of models.

LITE-SHOCK *NEW*

THE LIGHTEST SAMSONITE EVER!

The inspiration for Lite-Shock comes from nature. Its shock-absorbing shell design is based on the ripple-effect that appears when dropping a stone in water. This self-reinforced organic design gives extra strength to the case, especially in the corners, as the design wraps around the side of the case. Made with lightweight components, Lite-Shock is now the lightest of Samsonite's Curv cases.

- Made with Curv material: extremely strong, incredibly light.
- Unique, iconic design: Lite-Shock won the prestigious Reddot Design Award "Best of the Best 2015".
- Redesigned lightweight components.
- Recessed TSA lock.
- Functional interior.
- From only 1.7kg.

FIRELITE

CURV, CREATING THE STRONGEST & LIGHTEST SAMSONITE CASES!

Firelite's ultra-functional design and flexibility is made to measure, and its combination of minimal weight and maximal resistance is up to the challenge your thirst for adventure will provide. This unique, dynamic and strong design features a water resistant PU coated zipper and a functional interior with a bottom lowered elastic cross ribbons and a top fully lined divider. Finished with sporty, smooth and silent wheels, ID tag and three-digit TSA lock for secure travel to the USA. Made in Europe.

- Made with Curv material: extremely strong, incredibly light.

TRU-FRAME *NEW*

STYLE, SECURITY AND SPACE MEET IN THIS FULLY-FRAMED HARDSHELL

The Tru-Frame collection is Samsonite's brand new hard-shell frame luggage. The use of sleek aluminium frame ties in well with the modern design, yet offers high security with double recessed locks. Tru-Frame perfectly succeeds in combining security, optimised volume and strength, thanks to the self-reinforced boxy design made of 100% polycarbonate shell.

- TSA 3-dial combi recessed lock.
- Double locks for extra security.
- Ultra-slim sleek aluminium frame.
- Double wheels design to increase maneuverability.
- Y-Strap ribbon and divider for easy packing.
- PVC pocket for packing toiletries.

LIGHTEST POLYPROPYLENE RANGE!

Samsonite succeeded in creating an extremely lightweight three-point lock polypropylene collection, thanks to new revolutionary polypropylene material called Flowlite. This material enables us to inject very thin moulds whilst still keeping a strong shell, giving protection to personal belongings inside the suitcase.

- Seal to limit moisture penetration.
- Double wheels and dual tube wheel handle.
- Interior: lowered cross ribbons, zipped divider pad and large side pocket.
- Secure 3 point locking system.

STATE OF THE ART PROTECTION FROM IDENTITY THEFT

Radio-frequency identification (RFID) is the use of a wireless non-contact system that uses radio-frequency electromagnetic fields to transfer data from a tag attached to an object, for the purposes of automatic identification and tracking. It is the technology that lets you simply wave your credit card, passport or license in front of a nearby scanner instead of having to slide the magnetic stripe through it. Samsonite RFID blocking accessories are designed with an internal shielding layer of material and have an outer layer of Dupont Tyvek to strengthen each sleeve for extended use in any number of environments. Once inside a Samsonite RFID blocking accessory your cards become invisible to radio wave scanners effectively blocking any unwanted skimming of them.

- RFID protection
- Providing both data protection and transaction security

HISTORY

HISTORY

When Jesse Shwayder founded Samsonite® in 1910, travel was reserved for only an exclusive few, those who had the means to see the world. Given this exclusivity, travel was a high quality experience from the transportation, to the attention to service, to even the accessories used to carry one's belongings. As one of the original brands in travel, Samsonite has continued to leverage its craftsmanship and heritage as an innovator for the past 100 years, to create stylish and high quality solutions for the world traveller.

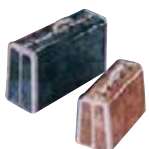

Today, Samsonite continues to lead the luggage category with the same core principles, further expanding Shwayder's vision globally with design and innovation into product categories and consumer targets.

By identifying trends and interpreting the continuing evolution of travellers' needs, Samsonite continues to lead the market with innovative, high quality and stylish designs. Now, thanks to the launch of Cosmolite® and 72 Hours the lightest Samsonite hardside and softside ranges ever, Samsonite establishes itself as the leader of lightness in the luggage industry.

MILESTONES

Ever since its earliest days, Samsonite has been the most innovative luggage manufacturer in the world. It has led the industry in using new materials and creating new designs. Here are just a few of the luggage landmarks that Samsonite has created over the years, as part of its tradition of innovation.

- 1910 The Shwayder Brothers, the company's original founders, manufacture robust wooden trunks.
- 1941 Introduction of a new type of luggage Streamlite™.
- 1956 Introduction of breakthrough products including Ultralite™, the first suitcase made of lightweight magnesium and ABS.
- 1958 Launch of Silhouette®, the most advanced luggage made up to that time, included a new, modern shape and recessed hardware to protect it from wear and tear.
- 1962 The first ABS attaché case is created for a new generation of executives.
- 1967 Introduction of the first polypropylene suitcase with recessed locks for more streamlined appearance and function.
- 1969 Launch of the new Saturn® suitcase, the first polypropylene case whose structure was fully supported by injection-moulded shells.
- 1973 Samsonite introduces an attaché case with 'right-side-up' feature, preventing it from being opened when the case is upside down.
- 1974 The first Samsonite wheeled suitcase is created - a true revolution in travel comfort and convenience.
- 1975 Samsonite launches a range of soft suitcases with a vinyl frame.
- 1978 The first polypropylene attaché case.
- 1986 The first suitcase with a three-point latching system Oyster®.
- 1991 Introduction of a revolutionary brake-equipped suitcase.
- 1994 Introduction of a range of polypropylene suitcases with zipper closure, hard and soft combination.
- 1997 The Ultra Transporter® the first Upright® case which can be pushed or pulled, and which has an organised interior.
- 1998 The first Big Wheel™ Upright case, offering perfect manoeuvrability and silent rolling.
- 2000 Introduction of Samsonite's first aluminium product.
- 2004 Samsonite markets the four-wheel Spinner®, making travellers' lives easier.
- 2006 Alexander McQueen designs a new eye-catching luggage collection for Samsonite Black Label.
- 2008 Launch of Cosmolite, the strongest and lightest Samsonite ever up till then, manufactured with new Curv® technology.
- 2010 Samsonite celebrates its 100th year, firmly established as the world leader in the travel goods field. Introduction of B'Lite®, the lightest Samsonite softside range ever up till then. Launch of Cubelite®.
- 2011 Samsonite launches Advanced Hybrid Technology within Cordoba Duo® and Sahara ReGeneration®, combining the lightness and packing flexibility of soft cases with the strength of hardside suitcases.
- 2012 Samsonite introduces Litesphere®, challenging gravity thanks to Advanced Hybrid Technology and PointShock® material. With an incredibly lightweight and abrasion resistant performance, this range has it all.
- 2013 Cosmolite. Now even lighter
- 2014 Launch of Lite-Locked™, the first Samsonite suitcase combining Curv technology with a 3-point lock.
- 2015 B'Lite 3 is released, now lighter than ever thanks to its unique design with integrated handles, which combines extreme lightness and incredible strength.

MEASUREMENTS & VOLUME

The dimensions shown in the tables are the exterior dimensions (including handles, wheels, bottom glides, side pockets and other external parts).

Measurements of volume, dimensions and weight are carried out in the Samsonite laboratories using procedures whereby tolerances up to 1,5 cm in dimensions and 5% in weight and volume cannot be excluded. Samsonite reserves the right to amend the specifications, colours, dimensions and weight of any product without prior warning. Colour deviation may occur due to the printing technique used.

Many luggage brands use a mathematical formula to calculate a bag's volume (Volume of bag = $(H \times W \times D) / 1000$ litres). While logically sound, this method always overestimates volume. That's why at Samsonite, we use the Pellets Method.

Compared to the mathematical formula, the Pellets Method provides the correct, realistic volume. We hope this information helps you make a more informed decision while shopping for luggage.

QUALITY

We deliver the quality. You conduct the test. Every journey. Every day. You might not have given it any thought, but each Samsonite product undergoes the most stringent controls and tests before it goes on the market. Of course, the ultimate test is conducted by you, the customer.

GLOBAL WARRANTY

Samsonite globally guarantees all its products against any manufacturing defects, covering materials and workmanship, for the length of time stated in the warranty. The benefits conferred by this warranty are in addition to other rights, conditions, guarantees and remedies available to you by law in relation to the supply of goods or services under consumer law. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law.

You are entitled to a replacement or refund for a major failure (as determined by a Samsonite Authorised Repair Agent) and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. Customer must keep their receipt as proof of purchase as this will authenticate this product warranty.

Samsonite, and **Samsonite** are trademarks or registered trademarks of Samsonite Corporation and are protected by trademark and unfair competition laws in many countries worldwide. All rights reserved.
