THE JOURNEY HOME

HUNNIA RECORDS

Many great thoughts have been shared about traveling whether it is a physical or a spiritual journey. This album represents three types of journeys in my life.

First of all, as a session musician I've played the trombone on numerous albums, movie scores and incidental music. After playing with various performers for years, I'm finally at a point where I was able to record an album that features the music I love with the musicians I love to play with.

Thanks to music, I have had the opportunity to visit more than 90 countries from Australia to the United States. It was during this period that I felt like I'm always on the road but it never felt like I had arrived. Although I still love traveling, now I spend most of the year in the rich musical community of Budapest and it became my real base. It is great to have roots in the ground!

The third thought is more of a personal aspect. When I'm around my wife, Zsófi and our two beautiful children, Olivér and Hanna, I feel like I'm exactly where I'm supposed to be. It really feels like home and I'm forever thankful for that!
