# RFID Wristbands for Desktop Printers

Zebra's UHF RFID wristbands offer a durable direct thermal printable RFID wristband solution.

The Z-Band Direct SR (short range) wristband is ideal for applications within the Hospitality such as guest tracking, access control, cashless transactions

The Z-Band Ultrasoft LR (long range) wristband features an inlay specifically designed to work on the human body which flags away from the wrist enabling a much longer read range than standard wristbands. Ideal for Healthcare applications such as patient identification.

Due to the many variables that can affect read range, we always recommend testing in application.

# Specialist On-Metal Labels

## for tagging small metal items

Thermal transfer printable white Polyester RFID labels for use on small metal objects such as jewellery and pipes. These 'flag' style labels hold the antenna away from the metal object, reducing the interference of the metal and allowing the tag to be read. An excellent lower cost option for on-metal tagging where the durability of Silverline is not required

## **NEW Silverline II On-Metal Labels (Zebra Silverline RFID ZT410/ZT411 On-Metal Printers)** for tagging high value items & assets in demanding environments

The next generation of Silverline RFID on-metal labels build upon the printing and encoding performance many have relied on, with new materials and the latest chip technology, regionally tuned to offer up to **3X** longer read ranges on-metal and improved readability on non-metal surfaces.

Their durability, versatile all-surface application properties and readable range of up to **15 metres** makes them suitable for a wide range of demanding applications.

Typical uses include the tagging of IT equipment, medical equipment, firearms, high value tools, industrial equipment and returnable shipping containers.
