

OUR LEADERSHIP

TECHNOLOGY ADVISORY PANEL

Sembcorp's Technology Advisory Panel advises the company on technological developments in line with its growth strategies.

The panel oversees the development and application of significant emerging and potentially disruptive technologies to enhance Sembcorp's position as a leading energy and water company, and ensures the appropriate management of specialised research and development projects and systems for intellectual property creation and protection.

In addition, the panel reviews and approves the vision and strategy for technology developments at Sembcorp, including projects or technologies identified for research and development, and advises Sembcorp's leadership on technological trends and opportunities. Members of the panel also introduce new and emerging technologies and companies to the Group and regularly advise on topical issues and technologies in their respective fields of interest and expertise.
