Pixel-perfect reports created with SAP Crystal Solutions for small to midsize business

SAP Solution Brief
SAP Solutions for Small, Midsize Businesses

THE BEST RUN SAP®

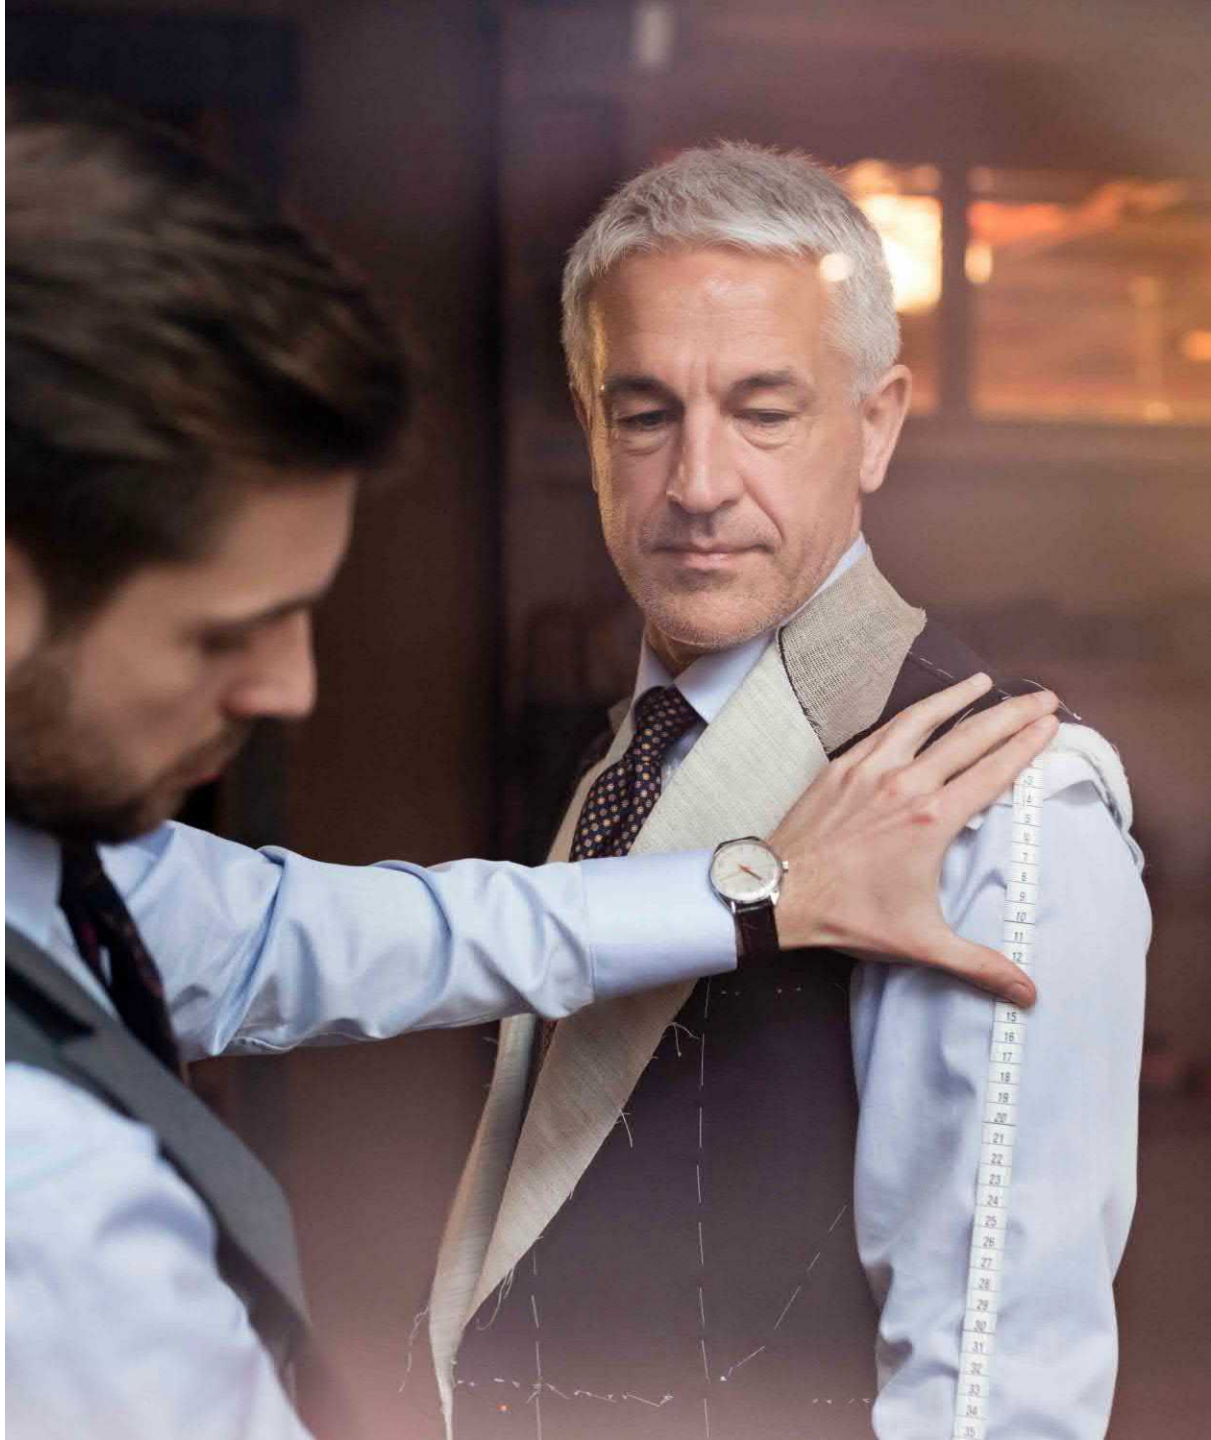
Create the exact report you need in a pixel-perfect format

Analyzing your business is getting more complex every day, as the quantity of data to process, the speed at which new data becomes available and the number of relevant data sources to consider has strongly increased.

At the same time, users have changed their expectation about the quality of the documents they receive. Reports need to look professional, fit company design standards and contain trusted data that can be shared in a secured way.

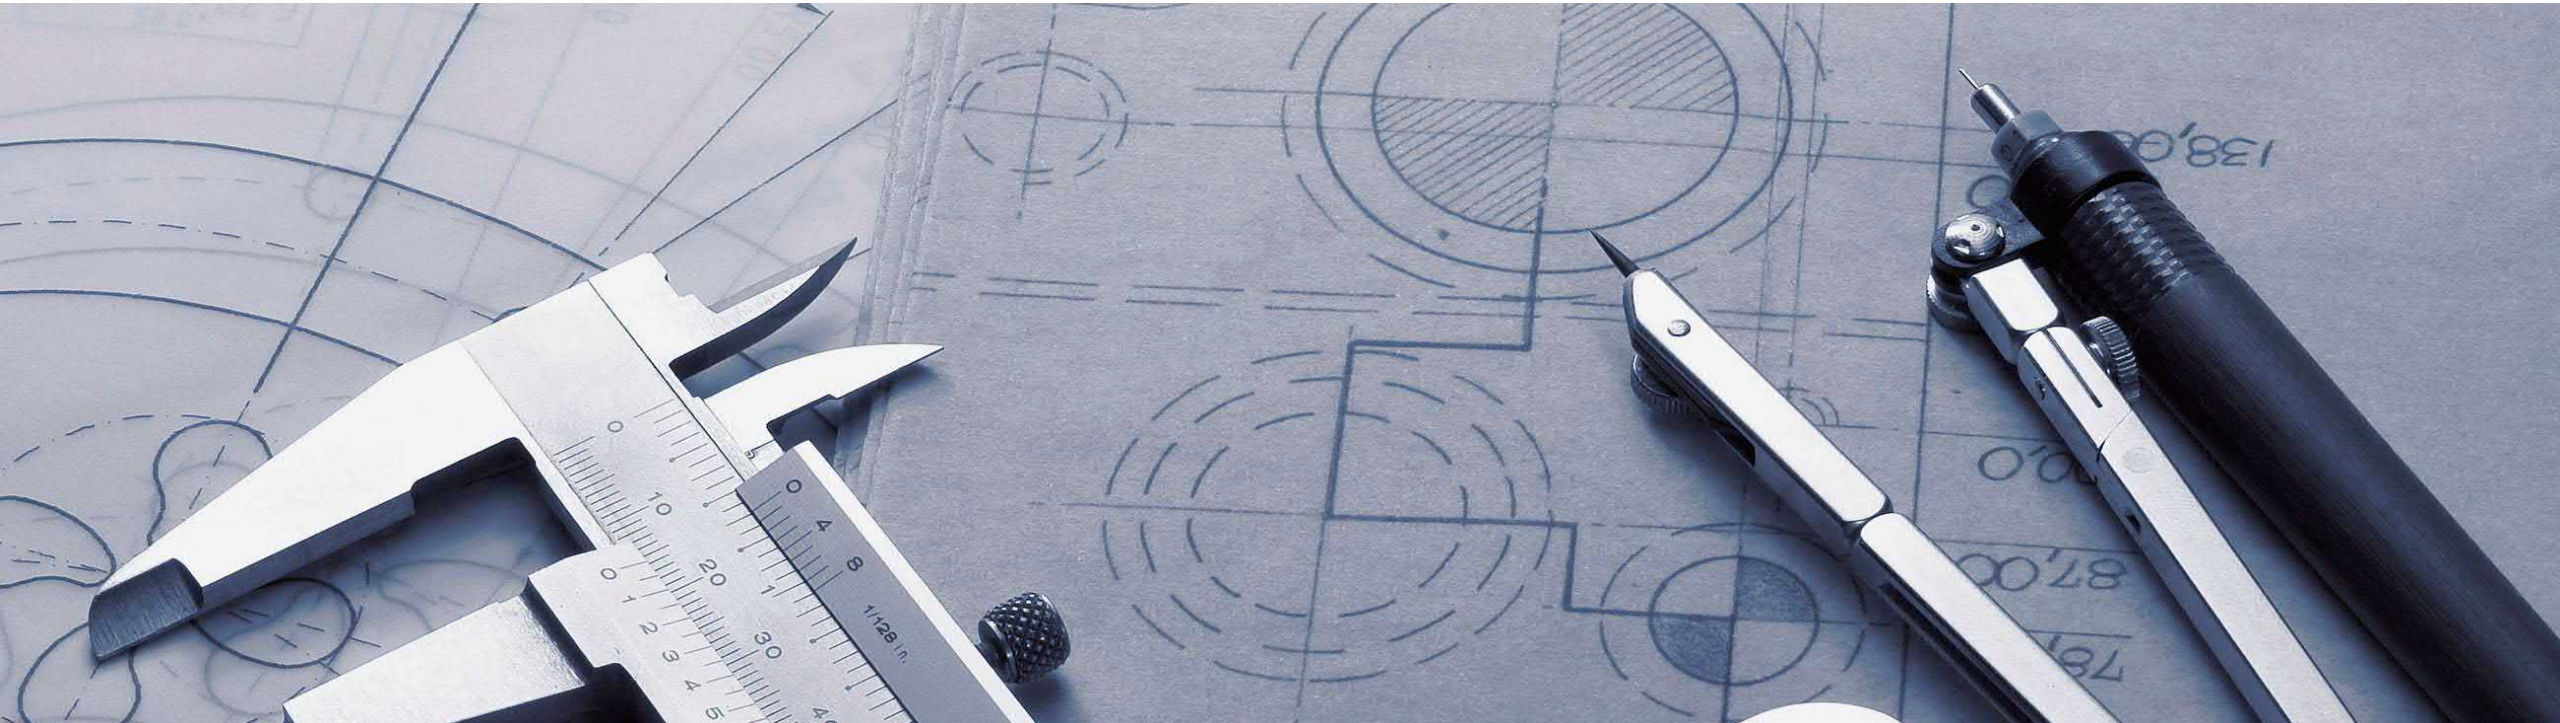
On top of that, each report recipient wants a more personalized experience in order to save time and focus on what is essential for him or her.

SAP Crystal Reports, the de facto standard in reporting can help you with it. This software continues a two-decade tradition of excellence in providing powerful, user-friendly, and dynamic reporting functionality.



SAP Crystal solutions are developed for the creation of pixel-perfect documents for small to midsize companies

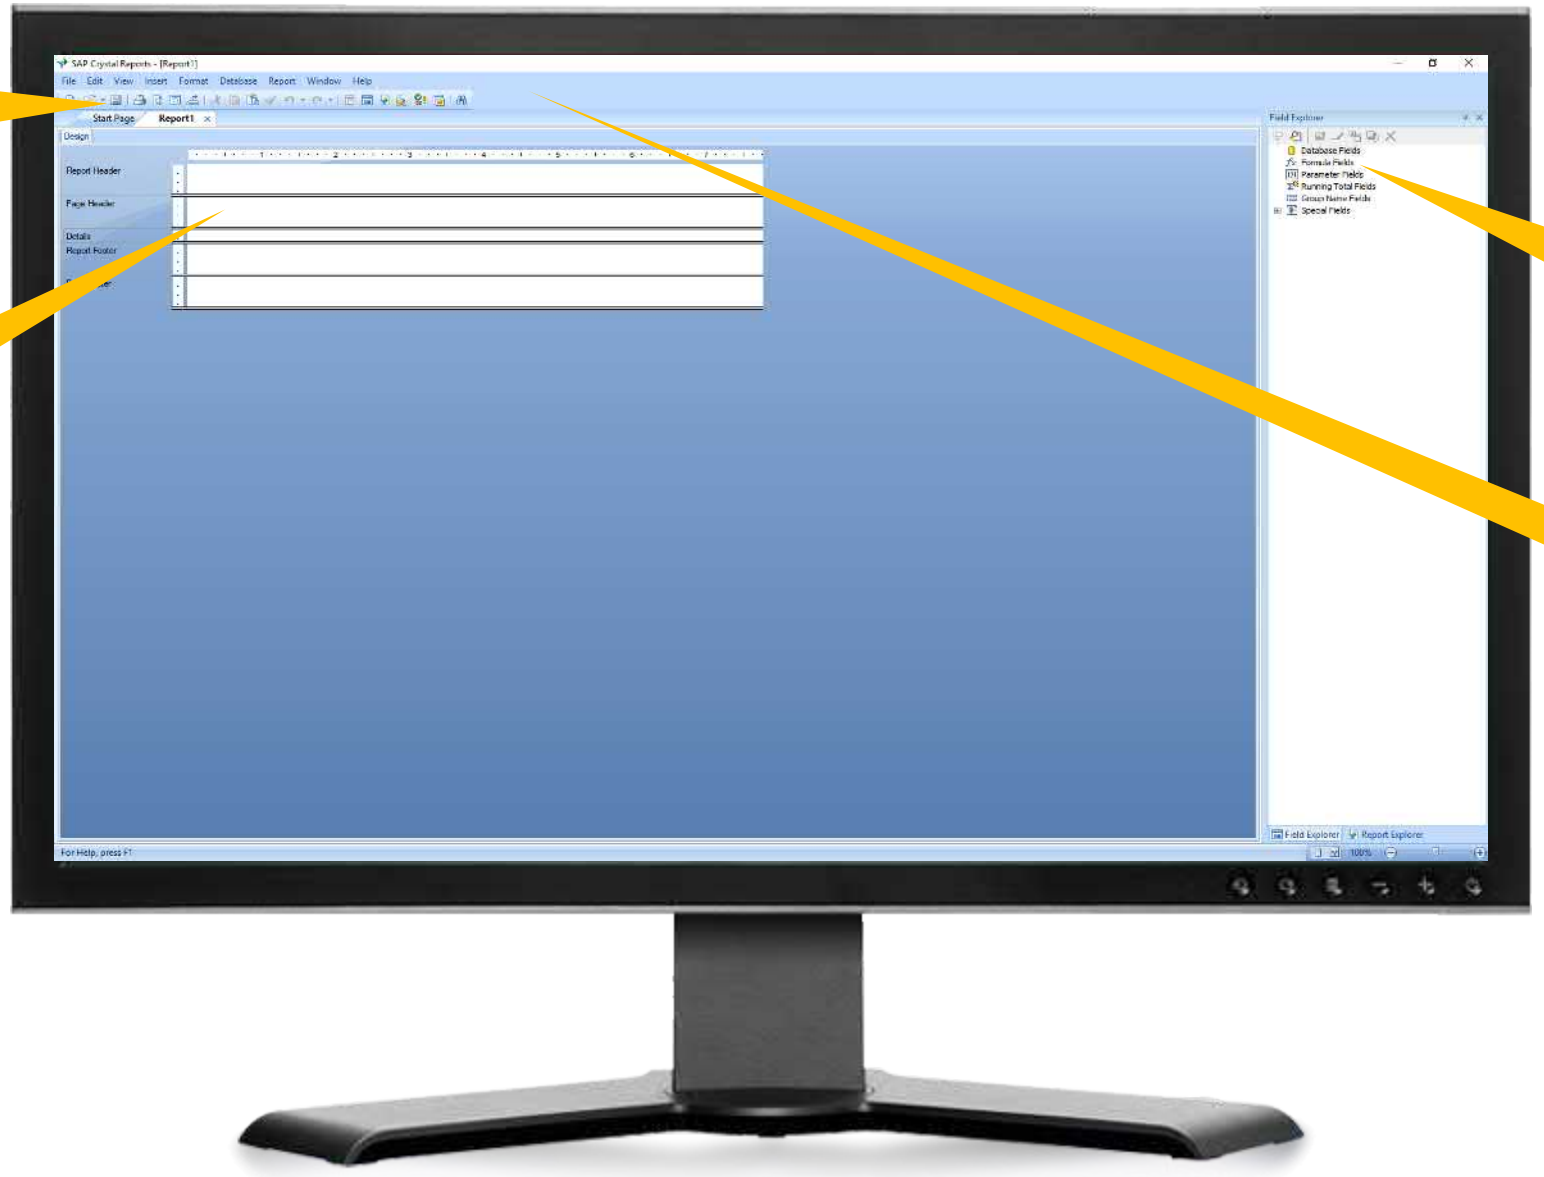
1. Design interface
2. External-facing documents
3. Pre-formatted reports
4. Financial documents
5. Published documents
6. Operational reports



1 Design interface

Standard icon design allows for quick learning

Create your report in sections, like for desktop publishing



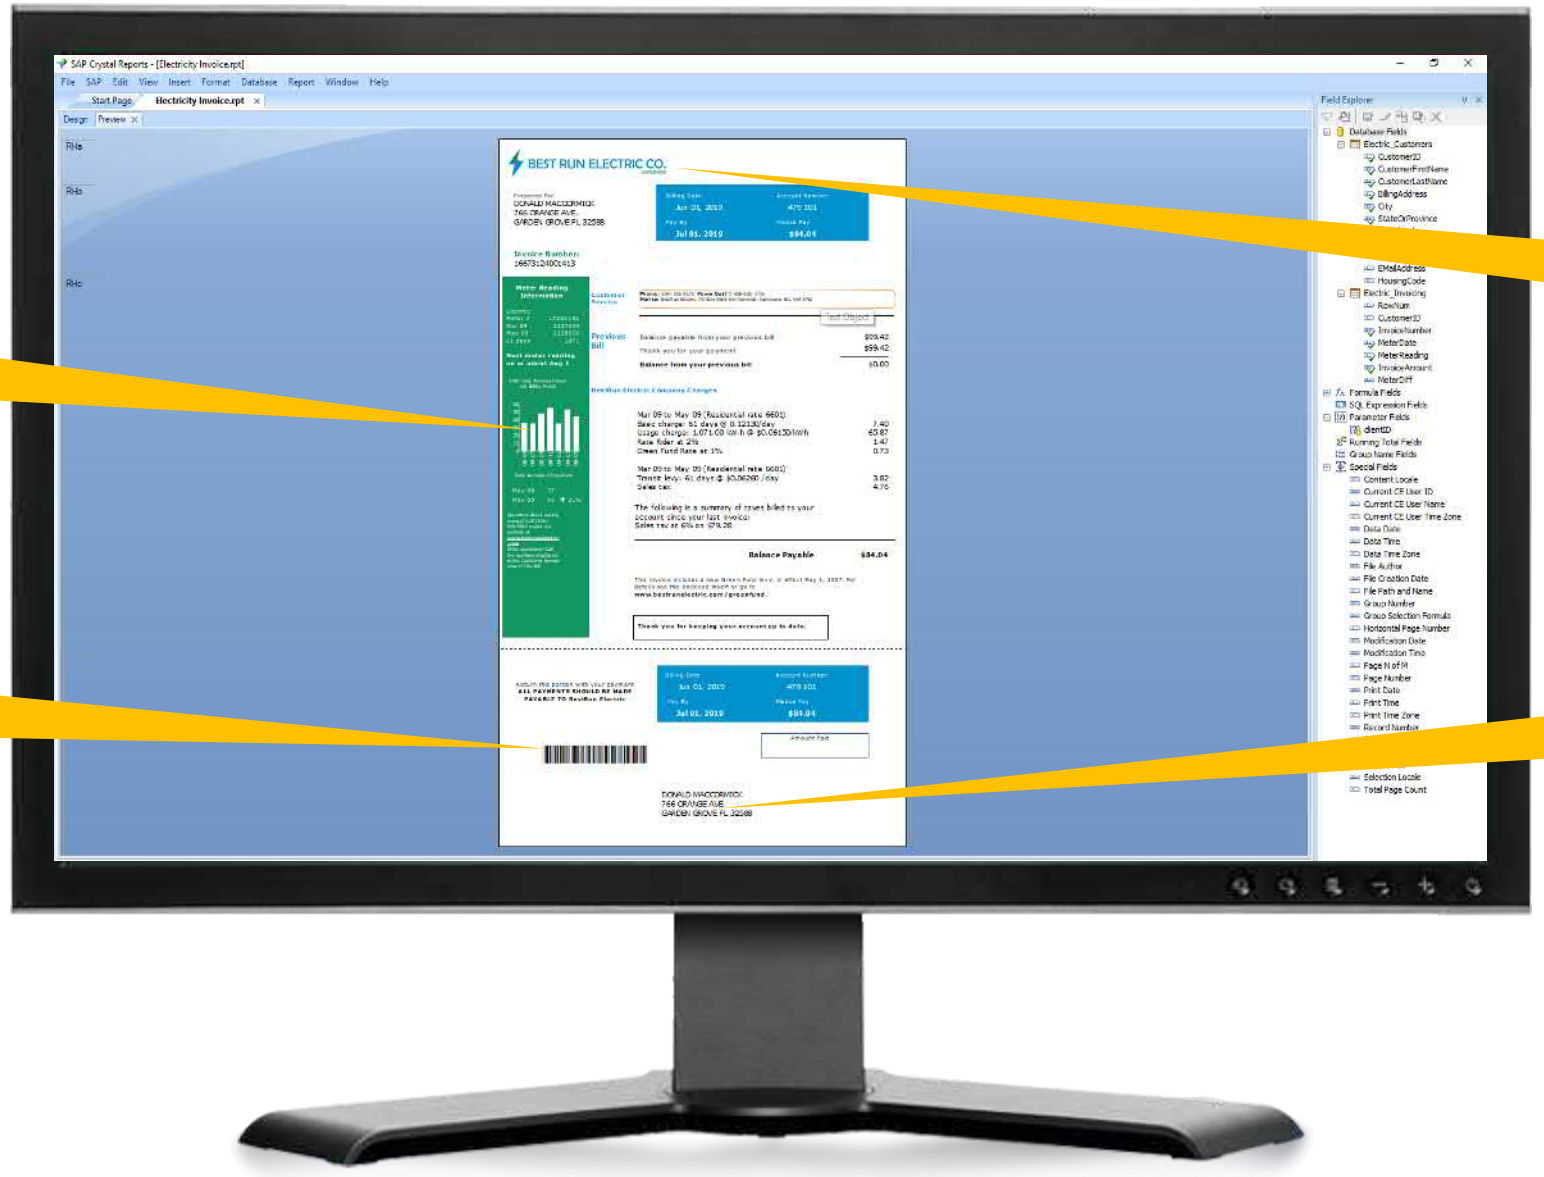
Report explorer permits easy navigation

User interface is available in 20 languages

2 External-facing documents

Add personalized charts for each individual recipient

Leverage barcode integration capabilities



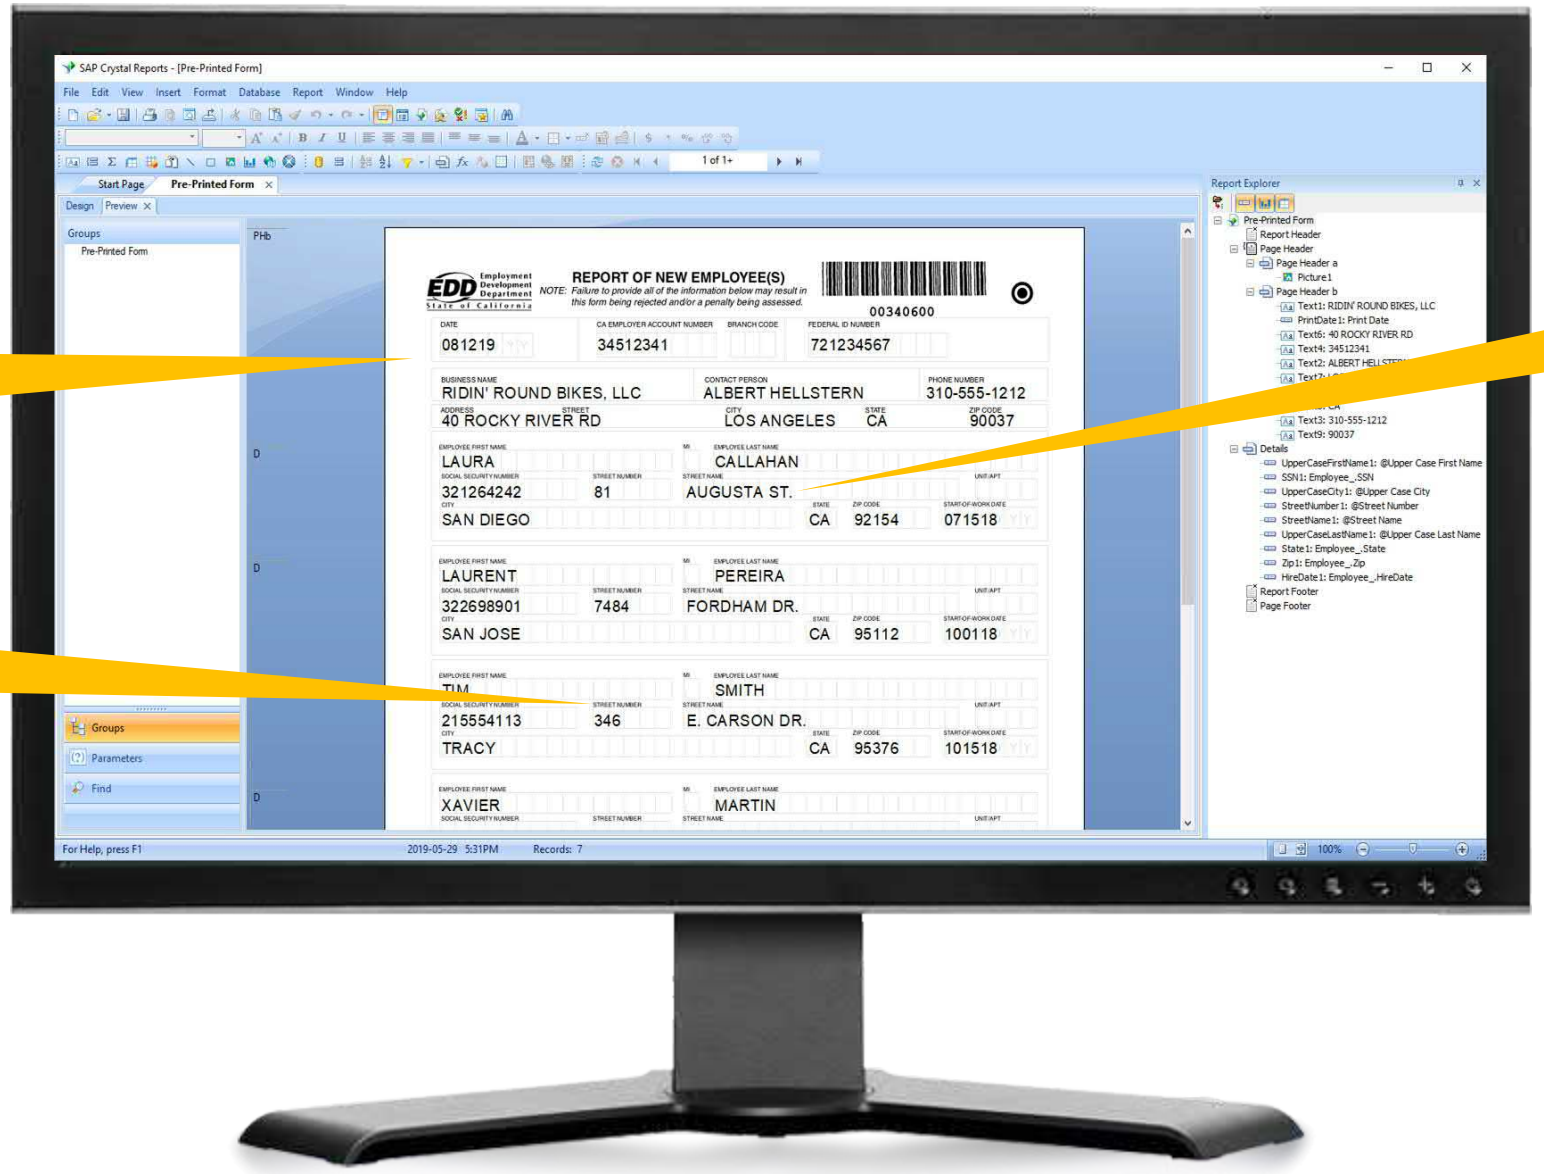
Use your corporate look and feel

Add shipping information from your database

3 Pre-formatted reports

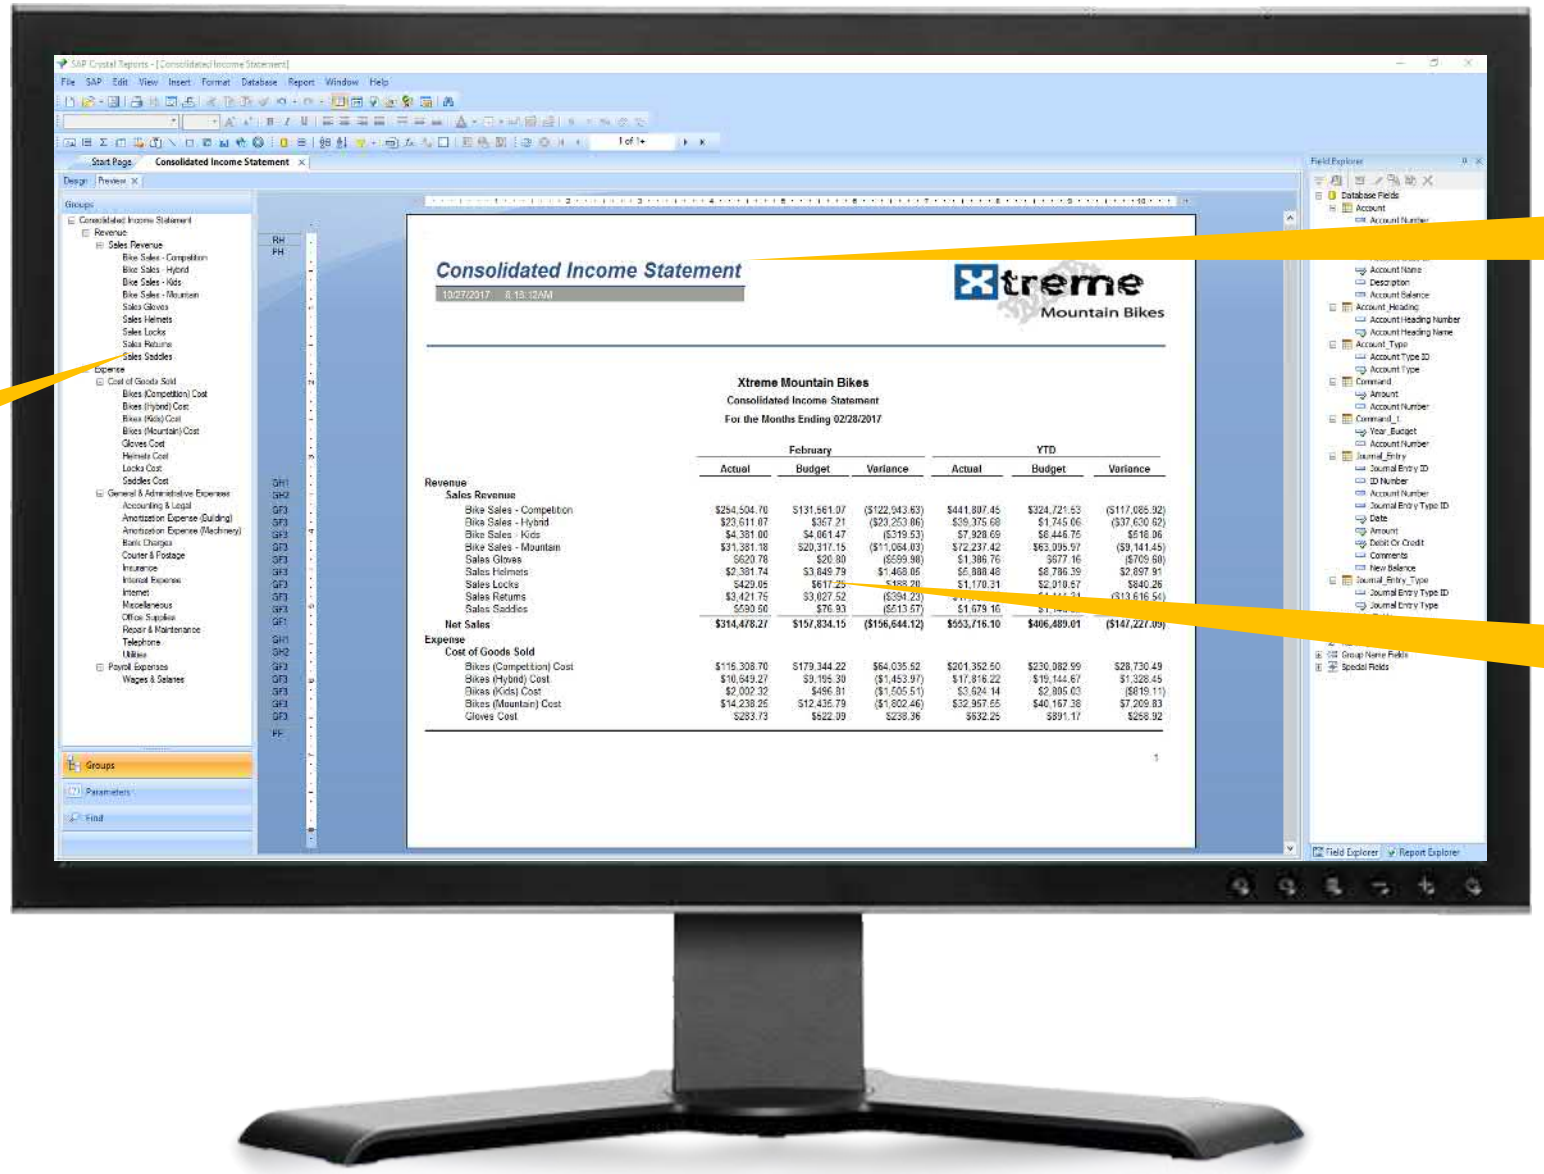
Recreate an official form in a pixel-perfect manner

Use parameters to save time and increase accuracy



Fill the data directly from your database

4 Financial documents



See all measures and dimensions used in the report

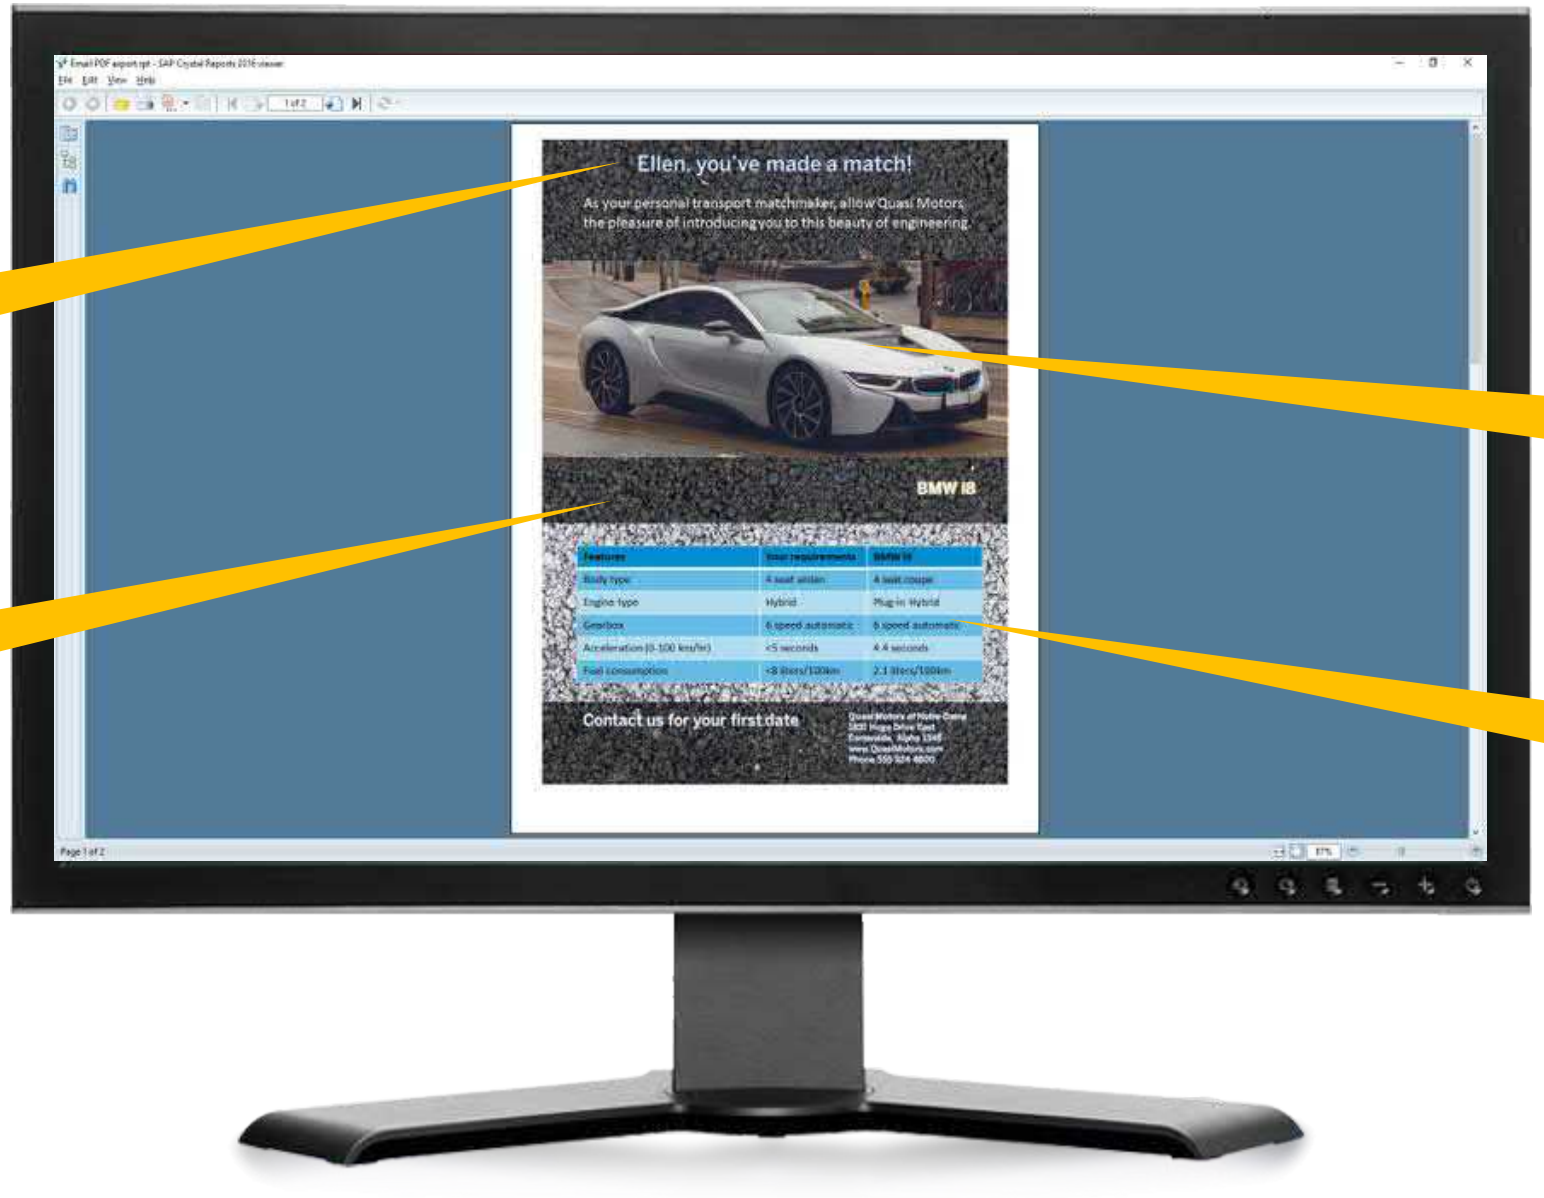
Create your monthly financial report with a click

Export reports to adobe PDF, MS Excel, .csv, or text

5 Published documents

Personalize your flyers directly from your database

Print documents from postcard to poster size



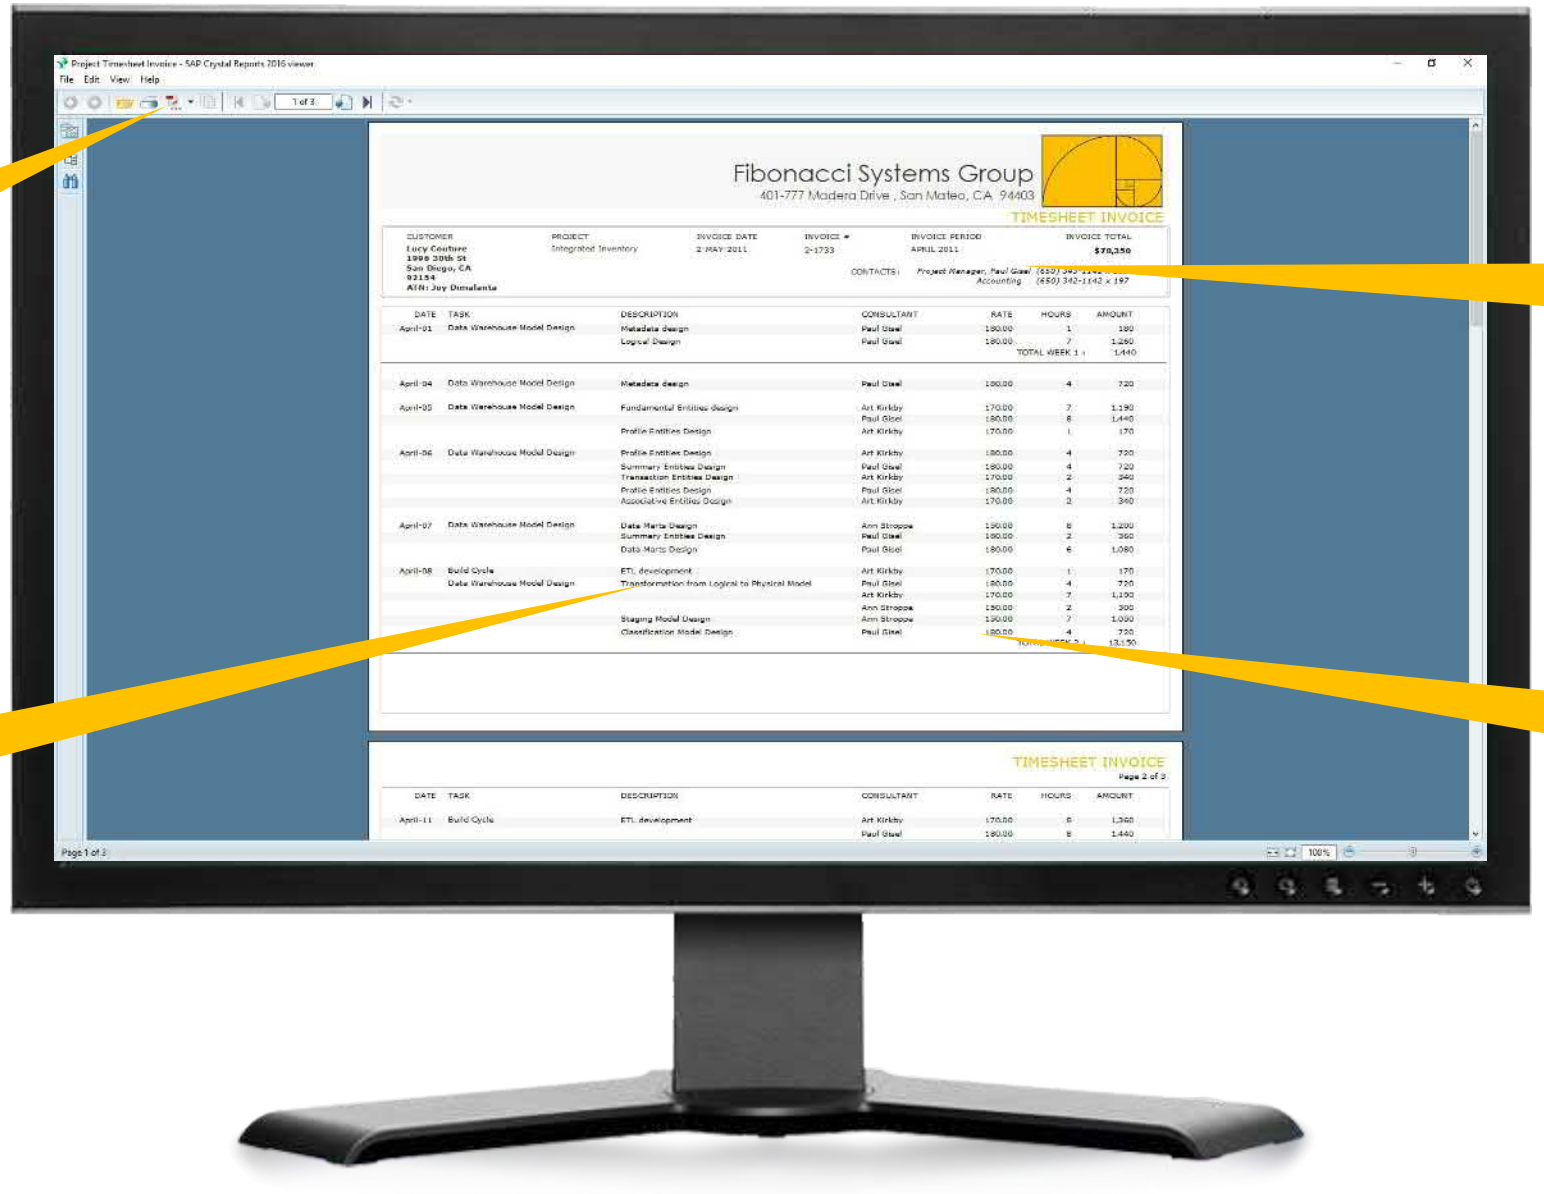
Display dynamic pictures in your reports

Add multiple tables or charts to a single document

6 Operational reports

Automate administrative tasks

Save instances for archiving, reference or distribution



Create your report with multiple pages in a single design

Schedule reports to run based on events
