# SERVING THE RETAILER

Any customer that buys a flat screen gives you an opportunity for cross-selling. The best way to profit from that opportunity is to offer the customer a Vogel's support system. It is easy to do business with Vogel's, with the lowest rate of product returns, and the highest level of customer satisfaction. Now more than ever, Vogel's offers solutions for any customer, at any price point.

#### Good, Better and Best, all by Vogel's

Vogel's offers you a complete range of high quality products to satisfy any type of customer. The **GOOD** solution: The Vogel's Original product line is an excellent option for the price conscious customer. The **BETTER** solution: The Vogel's Evolution product line will be appropriate for the majority of your customers, and represents a slightly higher level of product. The 6000 Series flat screen and projector supports offer optimal functionality and excellent design. Finally the new line of electronic remote controlled supports will satisfy even the most demanding customers: the **BEST** solution. By choosing this complete range you will always have the right solution for whatever type of customer you face.

## We deliver quality products at affordable price points

Vogel's products are made of high quality materials, yet are affordable because we invest heavily in high volume production methods. Our industrial designs incorporate these production cost advantages and enable us to manufacture our products at affordable price points. So you are always sure to offer great value to your customers.

#### Vogel's EMO<sup>™</sup> – Next generation electronic supports, the BEST solution

Vogel's EMO™ (Electronic Motion) family is a full range of remote-controlled stands and wall supports. They make all the right moves for success. They offer consumers a whole new level of convenience and comfort by letting them move their TV screen from side to side, without getting out of their chair. These innovative products offer you a new alternative to manual supports.

## Vogel's Evolution – The BETTER solution

Vogel's Evolution offers a full range of the most sophisticated and innovative entertainment supports available. Based on the latest developments, they are designed to adapt to your space and made of durable materials. Vogel's Evolution is created for individuals who demand the very best and are looking for products that enhance the quality of their entertainment experience.

# CONTENT 3

# Vogel's Original – The GOOD solution

Vogel's Original provide a variety of practical solutions that help you fully enjoy your audio and video equipment. They are designed for price-conscious consumers who don't want to pay premium prices for their entertainment equipment, but do want to enjoy maximum convenience. Vogel's Original products are rugged and can stand up to intensive daily use.

For example, Vogel's VFW Series of LCD/TFT supports offers a secure, more flexible mount for your TV. It is constructed from the most durable materials available, including high quality, solid steel and aluminium alloy frames – all with scratch protection.

The birth of a new product

CAD models, mockups and prototypes are made to thoroughly test every aspect of the design

# EUROPEAN DESIGN By Vogel's

In today's highly competitive market, the most successful companies are those who can anticipate what on their customers want. That requires insight into new market and technology trends and an ability to design and develop products that will meet these new needs. From the very start, Vogel's has had a clear strategic focus on product design, development and engineering and we have always invested heavily in these areas. This has enabled us time and time again to identify new opportunities and quickly bring them to market.

## Winning designs

Vogel's has produced many award-winning products over the years. One of the latest highlights is the iF Award 2007 for the Click & Switch projector mounting system. A CES 2007 honoree was given to the Click & Switch system projector mounting system.

#### How does Vogel's produce these winners?

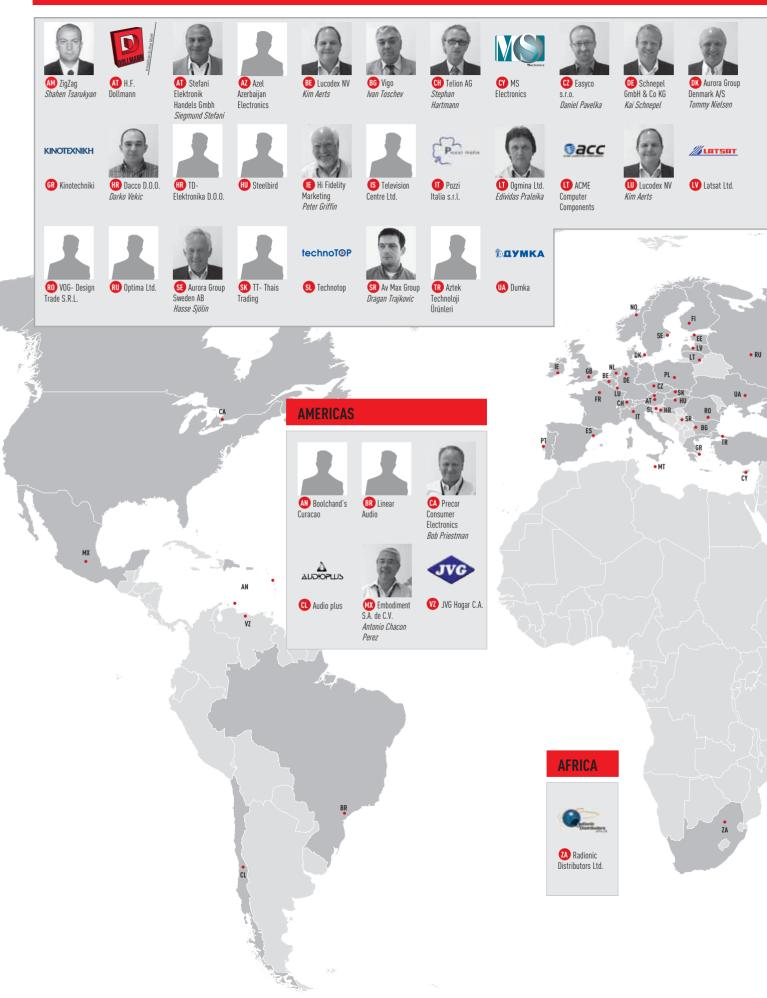

### We keep our pulse on market developments

Vogel's has a strong marketing department that has a close relationship with our business partners and end customers. They help keep us up-to-date on the latest developments and trends in our markets. In addition, we carry out independent research and visit all relevant trade shows and events to identify new market opportunities. This provides valuable input for our strategic product decisions.

#### Dedicated industrial design department

Over the last 35 years, our large team of industrial designers and engineers has built up highly specialised knowledge about consumer preferences, materials, functional requirements, ergonomics, and manufacturing processes for designing support products. Our experts provide valuable technical input on the feasibility of new designs before starting a project. They then use advanced tools to test and fine-tune key design aspects. This expertise helps us find new ways of doing things and helps us apply proven methods to new situations. Our specialists also work with an extensive network of suppliers to ensure the fastest and most cost-effective manufacturing methods.

## EUROPE

# PARTNERSHIP WITH VOGEL'S

Vogel's has chosen to work with an indirect and independent distribution channel that has exclusive representation in each country or region where Vogel's products are sold. We are committed to this business model and fully support our importers who represent us locally. As a dealer, you can always contact your local Vogel's importer directly for information about Vogel's products and applications. They can also provide you with sales and marketing support tools. See page 59 for more detailed information.

## **Screen Sizes EMEA**

Source: DTC Worldwide, 2007

# **GROW CONTINUES WITH THE FLAT SCREEN MARKET**

#### Flat panel continues to grow and diversify

The flat display market continues to grow and change. Medium-size and large screens are the fastest growing volume segments. And consumers want to turn and position their LCD/Plasma for better viewing. Flat displays are now being carried along to use in public transportation, cars and airplanes. Luckily, Vogel's is changing right alongside you.

## Take advantage of the flat display boom

Sales are booming. In fact, flat display sales are expected to account for 90% of all TV sales in 2008. At Vogel's, we anticipated this growth and the new consumer demands when we began developing the Evolution 6000 Series. Now we have just the products you need to take advantage of this dynamic market.

#### Innovative solutions

Vogel's recently launched the new age of electronic supports. Our new EMO<sup>™</sup> (Electronic Motion) family of remote-controlled stands and wall supports have all the right moves for success. It offers consumers a whole new level of convenience and comfort by letting them move their TV screen from side to side, without getting out of their chair. This innovative product offers a new alternative to the standard manual supports that are delivered with LCD/Plasma screens.

VESA is the worldwide standard for mounting LCD/Plasma screens. The VESA logo tells you, at a glance, which screen complies with the VESA standard so you always get a perfect match. All Vogel's mounts for LCD and plasma screens are VESA compatible.

A growing number of screens still do not have a truly VESA standard mounting. Vogel's has developed an additional interface (EFA 6875, suitable for EFW 6205, EFW 6225 and EFW 6245) for a majority of the screens which are not VESA compliant. Next to this additional service kits will be available for the most used brands.

Please check our website **www.flatscreenfitter.com** for information on the specific support that fits a screen.

VESA classification applicable to Vogel's products:

#### • VESA MIS-D:

 12-22.9" screen size
 mounting holes 75 x 75 / 100 x 100 mm

#### • VESA MIS-E:

23-30.9" screen size
 mounting holes
 200 x 100 mm /
 200 x 200 mm

## • VESA MIS-F:

- $\geq$  31" screen size
- mounting holes in variable pattern
- horizontal max. 1200 mm
   vertical max. 700 mm on flat back

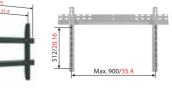

75/2 9

100/<mark>3.94</mark> 200/<mark>7.87</mark>

# WHAT DOES TÜV MEAN FOR YOU

For consumers, the 'GS' certification mark provides extra certainty about the safety of their Vogel's product. All Vogel's products have been thoroughly tested beforehand. The GS certification mark is handed out by the TÜV. TÜV is an independent certification institute for products and production processes. They carry out independent quality and safety tests.

Virtually all Vogel's products have the GS certification mark. Vogel's undergoes this voluntary certification to give consumers extra proof of the safety of their Vogel's product.

Vogel's products are put through an accelerated endurance test. This test simulates the daily cycle of normal use for a product that a consumer would carry out over a 10 year period. Consumer products are also put through an overload test. The overload test for Vogel's Professional products is extra heavy, because these products are used in public areas.

Test situations at Vogel's

# **SEGMENTATION & POSITIONING**

To meet the needs to the Retail and Consumer Electronic markets, Vogel's offers 2 product lines which have been sold successfully for years. Each line is designed with its own concept and target audience. Choose for yourself one or two lines depending on your own market demand and opportunities. Vogel's makes it easy for you to succeed on different levels.

#### Euro Evolution Original Turnover Time 2.5% 13 5% 34% 34% 16% Innovators Early Early Late Laggards adopters majority majority

**Vogel's Evolution Line** is the most sophisticated and innovative range of entertainment supports you will find today. Based on the latest developments and styling and made of durable materials, they are designed to adapt to your space. Vogel's Evolution is designed for individuals who are looking for outstanding easy to use products, that enhance the quality of their entertainment experience and favor modern design.

**Vogel's Original Line** is the most practical range of entertainment supports that enhance the daily use of your audio and video equipment. Vogel's Original is designed for people who enjoy their life and want to move to the next level of usability and comfort.

# **FLATSCREENFITTER - THE ULTIMATE SALES TOOL**

# Doing what it takes to make it fit

Vogel's goes the extra mile to make sure that our products fit the first time, every time. We have teamed up with third-party TV service companies, our so-called "fitter scouts", to get even more information about TVs that don't fit VESA hole patterns. All of this information is compiled in our searchable database, which you can find at **www.flatscreenfitter.com**. It contains almost all types of TVs, including all of the "A brands" of flat screen TVs that are available, making it the most extensive resource of its kind.

At **www.flatscreenfitter.com**, we will tell you the Vogel's supports that fit each brand of flat screen TV. Consumers can find the exact support that fits their favourite TV. And you as dealer can make sure that you sell the right support for the right TV. To keep this database up to date, we measure all hole patterns, whether they are VESA compatible or not. We also track all of the trends in the flat screen area (E.g. trend colors, connection locations etc.). With the FlatscreenFitter you can get access to the world to the worlds best flat screen TV database.

#### Interfaces

Some televisions are not VESA compatible. Models that do not fit the standard supports can be mounted using an interface. This allows the support and screen to be attached to each other.

# Customised FlatscreenFitter

Vogel's offers several tools for retailers to support sales of Vogel's solutions. One of these tools are customised versions of the Flatscreenfitter. They come in On-line and Off-line Flatscreenfitter versions, in printed publications and in e-tailer versions.

All versions of this product have been successfully implemented in several countries and in different languages. We have seen that it really drives sales. Customers leave the store much more satisfied and feel confident in having bought a support that fits.

Touch screen

**Custom Plus version** 

If you have a web shop, you can connect Vogel's

to the database and receive the information for

FlatscreenFitter database to it. When the customer is

looking for a screen, your server can send a request

representation within your web shop interface. This

is an effortless and seamless way for you to cross

sell support products that have a high margin.

#### General version

Anyone can access the general version of FlatscreenFitter at: www.flatscreenFitter.com. It can be accessed directly or via the Vogel's main website at: www.vogels.com. The logos of the main TV brands are displayed to help people quickly find the information they need. As a dealer, you can let customers access this information via internet in your store.

#### Custom version

Vogel's offers an on-line version of FlatscreenFitter that can be customised with your logo and housestyle. It can be edited to display only the brands and LCD/Plasma types that you sell and the Vogel's solutions that are available in your shops. Customers can search the database on your website or in your store before making their purchasing decision, without ever leaving your website!

#### Custom In-store material

You can print out sheets or posters for your brands from FlatscreenFitter and display them where needed in your store. This information can help customers quickly select the right support for their TV.

# **VOGEL'S INTERNET APPLICATIONS ARE WORKING FOR YOU**

# Vogel's new internet site ready for the future

The Vogels.com site has been completely restyled and restructured with better navigation and new features for Vogel's dealers and consumers. This takes our website to the next level of marketing sophistication that goes hand in hand with our professional marketing tools. It is an important tool to help you meet your future sales.

Major improvements have been achieved in consumer friendliness and search engine friendliness. Products are easier to find and the site will be easier to find on the web. The site is now constructed in such a way that we will get higher rankings in search engines, such as Google.

One of the most used features is the Flatscreenfitter which is now accessible in multiple ways to better serve customers and sales personnel. In the future it will be possible to introduce more languages to the site, and the new site is ready for double-byte languages.

Please pay particular attention to the **'Where to buy?'** section. Ask your local importer how you can get your dealer addresses featured on www.vogels.com.

# Customised Home Cinema Tips

When you are considering buying Home Cinema equipment, you can spend days surfing the web to find information about all the aspects of creating a Home Cinema experience. What flat screen technology is best for your situation? What size should you go for? Is projection an option? What are the most important ergonomics for TV viewing? Or you can go to one independent resource (sponsored by Vogel's) to find the answers to all of these questions and more: **www.homecinematips.com**. On demand it is possible to create a branded booklet.

Vogel's Home Cinema tips booklet can now be customised in your language and with your housestyle elements. Contact your local Vogel's importer for more information.

# Customised Home Cinema Planner

## Screen & Support advice application

Vogel's Home Cinema Planner can be customised in your own language and with your own housestyle elements. With this application, consumers can design their own living room layout using our standard graphic elements. They can try out different viewing positions, screen sizes and layouts for their room to see what screen and support work best for their situation. They can also ask for advice about screen size and features of support products.

# Information towards press

## Press site

A press portal is available, **press.vogels.com**, for members of the trade and general press. They can use it to access specific company and product information from Vogel's. Members of the press must first register before they can access all information.

# LET YOUR FINGERS DO THE WALKING

#### All the right moves for success

Vogel's new EMO<sup>™</sup> family of remote-controlled stands and wall supports has all the right moves for success. This BEST solution offers consumers a whole new level of convenience and comfort by letting them turn their TV screen from side to side, without getting out of their chair. This new product series is the best you can offer.

#### New: The intelligent Glider

With its sleek design and smooth and silent movement, the Glider is a joy to watch and use. The Glider glides and turns in a fluid and efficient motion. The Auto Move function automatically returns the television to its centred position against the wall when the TV is switched off, and the soft-start soft-stop movement protects screens.

#### New: The flexible TriMotor

The TriMotor with its multi-directional movement is an extremely flexible solution for customers and offers a remote controlled solution in the Original line.

### RC controlled stands building on a proven winner

The Vogel's EFF and EFT stands are a cross-over product between the manual wall mount and the A/V furniture market, their flexibility and stylish design appeal to a wide range of consumers. Now the remote-controlled EMO™ stands and wall support will take your sales even higher.

### Vogel's interesting partner

The EMO<sup>™</sup> family includes one floor stand version, two table stand versions as well as two wall supports to meet a wide range of customer needs. Each support is affordably priced compared to manual products.

#### Pure innovation

At the heart of the EMO<sup>TM</sup> line is an innovative breakthrough in motorised movement. The compact, brushless motor turns the stand with a powerful, yet silent movement. Our new production methods also make the EMO<sup>TM</sup> products very affordable.

# EMO<sup>™</sup> ELECTRONIC REMOTE-CONTROLLED LCD/PLASMA WALL SUPPORTS AND STANDS

LCD/Plasma wall support A wall mount that fits most large flat screen TVs from 42 - 60" at a maximum of 70 kg.

# **THE SUCCESSFUL 6000 SERIES**

The Evolution 6000 Series are a great success. It's the most produced, most copied and best sold support in its class. All this because it is the Better solution you can offer your customers. Excellent functionality, easy to install, great design and a clever way to tuck your cables away make this the product range of supports most customers want on their wall.

Because of the huge demand, we expanded the range to include larger sized TVs, up to 70". Two new models are available. The EFW 6405 is a fixed support and the EFW 6445 is an optimally adjustable support.

AMOUNT OF MOVEMENT

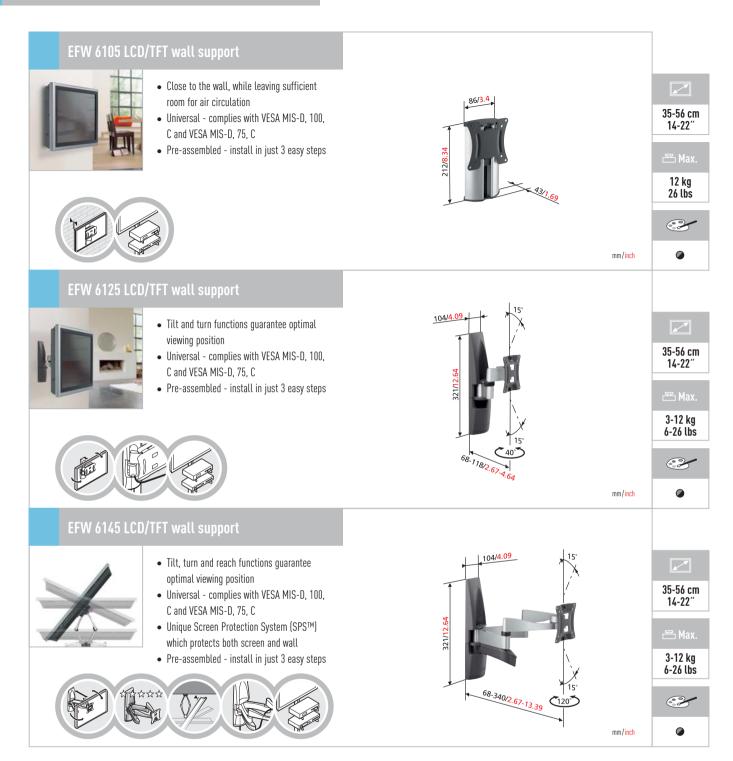

# HIGHLIGHTS

- Smart Range fits virtually every screen size and functionality
- Modular system to organise your flat screen, A/V equipment, speakers and cables

# **CLICK & SWITCH**

The Click & Switch system enables you to mount your projector on the ceiling, wall or on a table. Simply click your projector on to the universal connector and then attach it to the projector ceiling mount, wall or table mount. Easily store it when not in use by just unclicking it. No screwdriver is needed to detach it.

**EPW 6565** Projector wall solution

EPC 6545 Projector ceiling solution

**EPT 6525** Projector table solution

TABLE

International Award Winner

## **Table Solution**

The EPT 6525 lets you easily position your projector anywhere on a table or shelf without resorting to a wobbly stack of books. Once in place, you simply position the projected image on a screen or wall for viewing. The rubber anti-slip pads prevent sliding and protect your furniture from scratches. The Table Solution can also be permanently attached to prevent theft.

#### **Ceiling Solution**

The EPC 6545 lets you mount your projector to the ceiling. The Adjust & Secure feature enables you to lock the projector into position. When not in use, simply remove your projector and hide the cables and support from sight using the ceiling cover provided.

#### Wall Solution

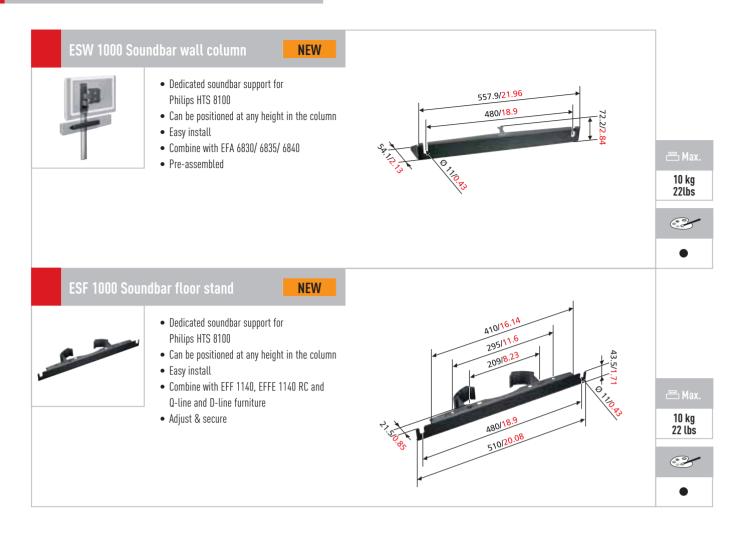

The EPW 6565 lets you mount your projector on the wall with style. The module can be combined with the column system (EFA 6830 / 6835 / 6840) and Audio/DVD support (EFA 6825) from the Vogel's 6000 Series. The Audio/DVD support keeps your audio/visual equipment out of the way. The Wall Solutions flexible horizontal arm can be reversed so that you can mount your projector facing either straight up or upside down for the best projection at any height.

# EXTEND YOUR RANGE WITH ORIGINAL REMOTE CONTROLLED SUPPORT

Vogel's helps you meet the growing demand for remote-controlled products. Our new TriMotor™ electronic remote-controlled LCD/plasma wall support is the latest addition to Vogel's successful EMO™ (Electronic Motion) range of stands and supports. This range offers consumers a whole new level of convenience and comfort by letting them move their TV screen in many directions with a remote control, without even getting out of their chair. Trimotor is also part of the Vogel's Original product line so it offers consumers the best value for their money.

## TriMotor™

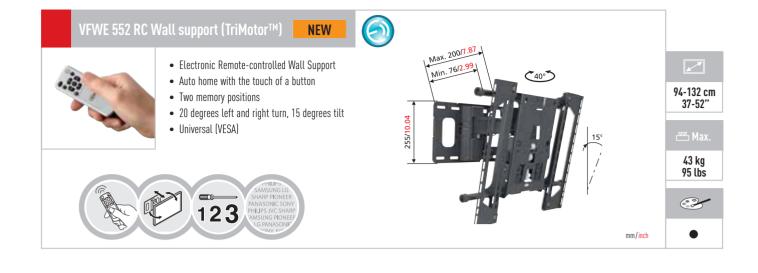

# Remote-controlled LCD/plasma wall support

- Multi-directional electronic movement
- 15 degrees tilt, 20 degrees turn left and right
- Universal for screens from 37-52"

# ELECTRONIC REMOTE-CONTROLLED LCD/PLASMA WALL SUPPORT

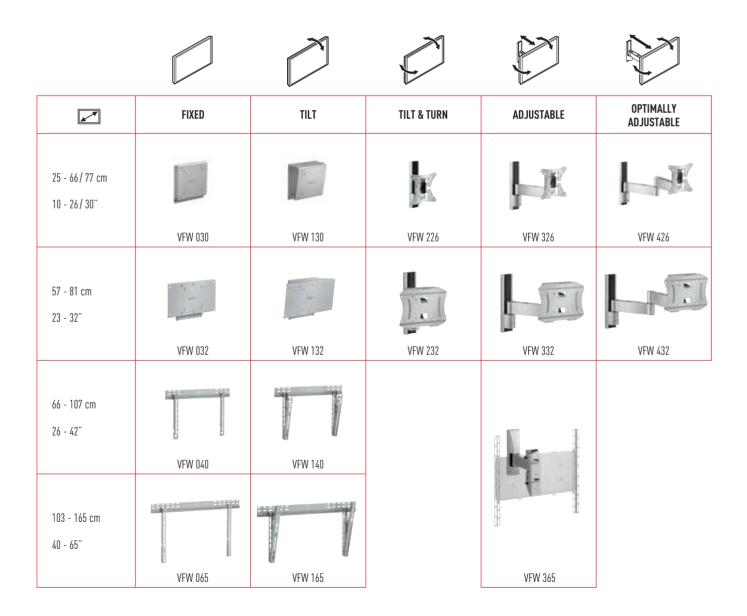

## **BEST VALUE FOR THE MONEY**

Vogel's Original product line offers consumers the best value for their money on a wide range of basic solutions that are practical and functional. All with Vogel's outstanding quality and durability.

This range of proven products enables you as a retailer to create more differentiation in your store. Plus, it gives you more cross-selling opportunities in a whole new customer segment, sensitive for a certain price point. The basic range of flat display supports fits most LCD/Plasma screens. This proposition should make it easier for you to satisfy every type of customer, while improving your margins.

All products from this economy line are included in the Flatscreen fitter website. See **www.flatscreenfitter.com** for more information.

- One pivot point

ORIGINAL

## **COMPOSE™ - AUDIO/VIDEO FURNITURE**

### **FLEXIBLE FURNITURE**

When it comes to entertainment equipment furniture, today's consumers want great functionality and an appealing design that blends well into their interior. Vogel's new Compose™ system meets all these criteria and more, featuring streamlined, connectable products that fit seamlessly together in terms of design and finishing. What's more, this unique new system can actually adapt and grow to meet changing needs, for instance when new audio/video equipment or a larger LCD/Plasma screen is purchased. The Compose™ line gives consumers maximum choice, allowing them to effectively organise their entertainment equipment exactly the way they want – today & tomorrow.

## **FLEXIBLE**

### MAXIMUM CHOICE - NOW AND IN THE FUTURE

With Compose<sup>TM</sup>, consumers can combine one or more modules and furniture units to create their perfect entertainment platform. Modules can be placed on the floor, but also hung on the wall to create a spacious, floating effect. The special LCD/Plasma accessory (optional) makes it possible to turn the screen to achieve the optimum viewing angle.

And when AV modules are placed vertically, they can also easily accommodate PCs, game consoles and more. Compose  $\ensuremath{^{\text{M}}}$  is really an all-round multi-media entertainment solution!

# ADAPTABLE

### FLOOR AND WALL FURNITURE

The Compose<sup>TM</sup> floor (CFF 140) and wall (CFW 140) furniture expands consumers' options even further, allowing them to adapt the width of the entertainment unit from 100cm up to 140cm to exactly match the size of their LCD or plasma screen.

### LCD/PLASMA ACCESSORY

The manual adaptor module (CFA 140) makes it possible to turn the screen up to 30° left and right, to achieve the optimal viewing angle. Even more convenient is the electronic module (CFAE 140 RC) which allows you to turn the screen via remote control from the comfort of your chair.

**SMART** CLEVER USE OF SPACE

#### Colours

Consumers even have a choice in finishes for the high-quality panels – they are available in both trendy Walnut and exotic Wenge.

Infrared-transparent covering on doors enables remote-control operation and allows air ventilation when doors are closed.

Cable Inlay System Cable Inlay System (CIS<sup>®</sup>) neatly organises and conceals cables from view.

## **FURNITURE COLLECTION**

Our versatile range of mounting solutions helps you place your audio and video components where they best fit your space and where they will look and sound great. Vogel's extensive line of sophisticated furniture offers even more possibilities. It is specially designed to support and enhance your costly LCD/Plasma, Hi-Fi and audio/video components. Only the highest quality materials are used in their construction. These stylish mounting solutions give you more placement flexibility and they outperform and outlast most standard products.

#### QUALITY - FROM START TO FINISH

Vogel's products are built to exact specifications from the most high quality, longlasting materials available. We offer a broad assortment of furniture and stands in virtually any material or style, including glass, wood and aluminium. Models are available with or without a built-in support.

For more information ask for our furniture brochure or visit www.vogels.com

### **ALUMINIUM AND GLASS**

Some models combine solid steel and high-grade polished aluminium alloy frames with crystallite safety glass to create a modern and open look. The transparent shelves are made of highly polished glass with rounded corners and are completely flat to provide more room for equipment. The shelves are securely and elegantly sealed with UV glue. Each shelf can hold up to 90 kg / 198 lbs of weight.

### WOOD AND GLASS

Other products in the Vogel's Furniture line are constructed of high quality MDF with a high gloss colour or real wood finish. The solid construction provides stable support for the largest TV screens and A/V equipment. A variety of colours and finishes are available to fit any interior or style. Self closing drawers offers space for CDs, DVDs and remote controls.

### **Q-SERIES**

- Side cupboards for CDs & DVDs with door stops for smooth closing
- Self-closing drawer
- Completely assembled
- Tempered safety glass
- Cable Inlay System (CIS<sup>®</sup>)

Self-closing drawer

- Extra features Q 6220 & Q 6250 • Perugia Column provides secure mounting for your flat screen TV

## **PROFESSIONAL SOLUTIONS**

Vogel's Professional offers a complete line of mounting solutions for the professional market. Over the years Vogel's products have found their way all over the world. We could not wish for a better endorsement of the quality and representative image of our products by the professional world. Vogel's supports for LCD and plasma displays and projectors have proved their worth over the years. At major airports, shopping centres, football stadiums and hospitals but also in filling stations, service organisations, department stores and in the hotel and catering industry.

For more information ask for our brochure or visit www.vogels.com/professional

Universal projector supports

has a solution. Ask for our special

projector lift system leaflet.

projector supports brochure and/or our

Vogel's offers a wide range of supports

### LCD/Plasma supports

Our range of modular universal flat display supports are internationally acknowledged as one of the best and most flexible systems on the market. They accommodate virtually all LCD and Plasma displays.

### LCD/Plasma trolley/stands The range AV trolleys come with useful

features, such as an extra large cable management system, flexible height adjustment and an optional backlight. And the first to receive TÜV safety approval. The front cover can be easily customized, such as with Vogel's TVskin™ to your flat screen.

### Lift system

Looking for a better way to access hard to reach projectors in large meeting rooms or lecture halls? Vogel's projector ceiling lift systems can be digitally operated and the lift, projector and screen can be controlled by pressing a single button. The system is available with two optional ceiling trims and a convenient IR wireless remote control.

### **TVSKIN™ - CUSTOMIZE YOUR DISPLAY**

TVskin<sup>™</sup> enhances your brand and your interior design.

It offers a complete solution for customizing digital signage in professional environments. With TVskin you can create an individual housing for flat displays that can include your company logo, colours and interior design theme.

TVskin lets you put your company's brand in the spotlight to reinforce your brand identity. Or you can choose a TVskin that makes your TVs blend seamlessly with the rest of your décor.

#### TVskin offers three models:

- Classic for a fresh and modern image
- Art for that classy touch of style
- Cubic for a clean, no-nonsense look and feel

Just about anything is possible with TVskin™. Tell us what you need and we will be happy to propose a solution that fits your needs.

## SUSTAINABLE PROFITABILITY

### Profitable support

The exceptional sales and marketing support from Vogel's makes it easy to grow sales. Highlights from our broad assortment of sales tools are shown on this page:

- Easy to sell: Sales information is clear and easy to understand, so you can quickly sell the product to consumers in just a few minutes.
- Improved self-selling packaging has an attractive design that clearly identifies the hardware group and gives an overview of all choices for consumers.
- Helpful internet information, including an easy guide to find matching supports for specific screens. See www.flatscreenfitter.com.
- Reliable distribution network ensures fast, accurate service that saves time and effort for retailers.
- Partnering with a leader in support equipment ensures a continuing stream of innovative solutions that satisfy the demanding consumer market.

**Counter demo display** (h x w x d) (0.88 x 0.49 x 0.43 m / 34.6 x 19.3 x 16.9")

**Tailor made display** (h x w x d) (0.88 x 0.49 x 0.43 m / 34.6 x 19.3 x 16.9")

For more information on customised shop-in-shop concepts, contact Vogel's.

### **EXPLANATION OF ICONS 6000 SERIES FLAT SCREEN**

### Spacesaving

Mount your LCD or Plasma TV to the wall to free up space and give your interior a stylish look. Truly the best way to fully enjoy the benefits of vour flat-screen TV.

#### Close-to-wall

The Evolution 6000 'fixed' support enables you to mount your LCD or Plasma screen close to the wall, while leaving sufficient room for air circulation.

### Tilt & turn

The Evolution 6000 'adjustable' support lets you tilt and turn your screen any way you want for an optimal viewing experience.

### Tilt, turn & reach

Flexibility and freedom of movement are the key benefits of Evolution 6000 optimally adjustable support: tilt and turn your screen any way you want for an optimal viewing experience.

### Solid, steady & easy

Your cherished LCD/Plasma TV deserves only the best possible wall mount. The Evolution 6000 Series optimally adjustable support combines high quality engineering and extreme strength, which brings you the benefit of many years of reliable and comfortable operation.

### Screen Protection System

Don't worry about damaging your screen or wall: the Evolution 6000 'optimally adjustable' support has Vogel's unique Screen Protection System (SPS™) which protects both screen and wall.

Get those unsightly cables out of sight using Vogel's unique Cable

### CIS®

**CIS**®

Get those unsightly cables out of sight using Vogel's unique Cable Inlay System (CIS<sup>®</sup>).

### Modular system

Inlay System (CIS<sup>®</sup>).

Combine supports of the Evolution 6000 Series with our modular column system and Audio/DVD support to store all your audio and video equipment in one single, sleek-looking solution.

### AdvanCIS™

The Column system features our flexible and unique AdvanCIS™, giving you the freedom to easily hide and guide cables at any height.

### Adjustable, fits all

The adjustable arms of the Audio/DVD support, which are equipped with an anti-slip edge, fit a wide range of audio and video equipment sizes.

### Adjustable height

The Audio/DVD support can be placed at any height in the column. You can also add up to three arms in a row.

### Strips 200 x 200

Strips included for 200 x 200 VESA mounting holes.

### **EXPLANATION OF ICONS EMO<sup>™</sup>**

Cable Inlay System All cables cleverly concealed

### Remote controlled

Easily turn to the optimal viewing position via remote  $(2 \times 30 \text{ degrees left and right} = 60 \text{ degrees})$ 

The glass plate of the EFFE 1140 RC can be adjusted

to different depths to fit different A/V equipment

The glass plate of the EFFE 1140 RC can be adjusted

## Modular system (max. 2 shelves)

Modular system to organise your flat screen, AV equipment and cables.

### **EXPLANATION OF ICONS HIDE-A-WIRE™**

#### Flexible length

Create the length you need. Simply cut the Hide-A-Wire™ cable cover to your desired length with a pair of scissors.

### Universal

The Hide-A-Wire<sup>™</sup> cable cover enables you to easily hide and guide different types of cables, such as flat screen, computer, etc.

### Easy install

Mounting is easy and takes just 3 simple steps. No drilling or tools required! (when used with Vogel's EFW 6000 or VFW x32 series)

#### Paintable cable cover

White version paintable in any colour you want

### EXPLANATION OF ICONS 6000 SERIES DVDOCK™

#### Quick release

Slide the DVD player in the DVDock and click it into place. To take the DVD player with you or change a disc, just press the button and slide it out. Its'quick and easy!

### Safety arms

Thanks to their unique design, our patented safety arms fold back upon impact.

### Tilt

The player can be tilted forward or backwards to eliminate reflections and get the best viewing angle.

### Easy install

Enjoy your DVDock™ in just three easy steps. All you need is a simple Allen key. It's stored on the back of the DVDock™ so you can always adjust the arms or remove the DVDock™ from the headrest.

Adjustable height to different heights

# Adjustable, fits all

### **EXPLANATION OF ICONS 6000 SERIES PROJECTOR**

#### Easy connect

Simply move your projector from room to room by clicking it on the table, ceiling or wall solution.

### Tilt. turn & roll

Easily position the projected image using the flexible tilt, turn and roll feature.

#### Adjust & secure

Your projector can be locked in position to maintain a stable image while viewing. Even after removing your projector and putting it back.

#### **Ceiling cover**

When your projector is not connected to the support, the cables and support can be hidden from sight using the ceiling cover.

#### Adjustable arm

No matter what size your projector is, with the adjustable arm you can easily position your projector horizontally (near to the wall) and vertically (for the ideal height).

#### **Reversible mounting**

Mount your projector facing either straight up or upside down for the best projection at any height.

#### Modular system

Store all your audio and video equipment in one single, sleek-looking solution with our modular column system (EFA 6830 / 6835 / 6840) and additional accessories.

### **EXPLANATION OF ICONS MOODVISION™**

### Smart button

Easy operation with just one button

#### Choice of 15 colours

Automatic colour show

Press the button to choose one of the 15 bright colours

In 1973 Vogel's, based in the Netherlands, introduced the world's first loudspeaker support. Now, 35 years later Vogel's is recognized worldwide as the industry's expert in the design, placement and manufacturing of mounts and furniture for audio and video equipment. Over the years Vogel's introduced many new and innovative products to the market.
