### MEETING YOUR REQUESTS:

We've made a few changes to this year's Tree and Shrub Program including:

- With 24 tree, shrub, and plant species offered as well as 6 variety packs; we have anything you need!

Are you interested in getting a quote for 500 plants (or more)? Contact our office for more information.

**This is your opportunity** to improve the value of your property while developing wildlife habitat, minimizing erosion, and enjoying the beauty of the natural world!

### **What are seedlings, transplants, rooted clumps and dormant plants?**

A seedling is a bare root tree or shrub. We carry one, two and three year seedlings, depending on if it's a conifer, hardwood or shrub. Seedlings are shipped while dormant, without a root ball or soil, but are covered in a moist material or root dipped to retain moisture. A transplant is a seedling grown for a year or two, then replanted to another bed to allow for development of a fibrous root system and more branching. A rooted clump is a dormant rooted plant without top growth. It may not have leafing but is ready to grow!

*Pictured above:  
A sample of what a  
2-3 year old  
seedling may look like.*

The 2020 Tree & Shrub Program Catalog is available through the Conservation District's website at:  
[www.monroecountyswcd.org](http://www.monroecountyswcd.org)

*Please help conserve paper and choose to print only when necessary.*

# TABLE OF CONTENTS

PLEASE NOTE: Sizes of stock may vary from year to year. Although we can not guarantee a size, be sure to check the sizes listed on the order form and within this catalog when making your selections.

## New Species Highlights .....3

### Conifers

Colorado Blue Spruce .....	4
Douglas Fir .....	4
Eastern White Pine.....	4
Fraser Fir.....	4
Norway Spruce .....	4
White Spruce .....	4

### Deciduous Shrubs

Black Elderberry.....	5
Buttonbush.....	5
Common Hoptree.....	5

### Deciduous Trees

American Hazelnut .....	5
American Sycamore .....	5
Black Cherry .....	5
Black Walnut.....	6
Eastern Redbud.....	6
Northern Catalpa.....	6
Persimmon.....	6
Red Oak .....	6
River Birch.....	6
Sugar Maple .....	6
Sweetgum.....	6
White Flowering Dogwood.....	7
White Oak.....	7

### Groundcovers

Black-eyed Susan.....	7
Blazing Star.....	7

### Conservation Plant Multi-Packs

Edible Fruit Multi-Pack .....	8
Fern Multi-Pack.....	9
Native Flowering Tree & Shrub Pack.....	10
Hosta Multi-Pack .....	11
Wildlife Pack.....	12
Wild Berry Pack.....	13

### Seed Packets

Fall Cover Crop Seed Mix .....	13
Wildflower Seed Mix (full sun) .....	14
Wildflower Seed Mix (partial shade) .....	14
Wildlife Food Plot Seed Mix.....	14

### Enhancement Items

Bat Box.....	14
Bluebird Nest Box .....	14
Fertilizer Tablets (Slow Release) .....	14
Flags.....	14
Tree Shelters.....	14

### Ordering Details..... 15

### Overstock Sale ..... 15

### ecopark Information ..... 16

#### **Distribution will be:**

April 23-24, 2020  
9:00 am until 5:00 pm  
at the **Monroe County ecopark**,  
10 Avion Drive, Rochester, NY 14624  
<http://monroecounty.gov/ecopark>

#### **Don't Miss Our Tree and Shrub Overstock Sale**

April 25, 2020 from 9:00 am - 11:00 am  
at the **Monroe County ecopark**.

This is a rain or shine event. Not all species may be available during the overstock sale. All remaining species, are first come, first serve.

*\*Note: Printed copies of the 2020 Tree and Shrub Program catalog are available through our office, upon request for a fee.*

## Eastern Redbud

Look for this tree to bring the first and most striking flowers of the season, showing off its bright pink color as early as March. This drought resistant tree is also quite tolerant of shade, meaning it does not need to grow in direct sunlight. (Page 6)

## Black Walnut

This species is great for providing food and habitat to wildlife on your property. This fast growing tree can reach up to 100 feet tall and does best in full to partial sun. (Page 6)

## Common Hoptree

A large shrub, hoptree is for those who want something a bit different. Hoptree is most famous for its unique wafer-like seeds. This tree is a generalist and can grow in both wet and dry soils. (Page 5)

## Northern Catalpa

A hard to miss tree, catalpa grows large white flowers that make it a perfect for attracting butterflies and other pollinators to your yard. This fast growing tree can reach 80 feet and does best in full sun. (Page 6)

## Blazing Star

Blazing Star can be a perfect perennial groundcover, most notably because it is well known for attracting dozens of pollinator species (including hummingbirds) and for generally being avoided by deer. Grows to 4.5' and is at home in full sun. (Page 7)

## Buttonbush

This deciduous shrub can grow up to 12 feet tall and produces unique, white flowers in early summer. This species is commonly used in raingardens as it does well in medium to wet soils. (Page 5)

## Wild Berry Pack

This multipack features 3 Elderberries, 3 Raspberries, 2 Shadblow (otherwise known as Downy) Serviceberries, and 2 Red Mulberries. These plants provide fruit that is great for wildlife and humans alike! (Page 13)

## Wildlife Pack

This multipack contains 2 Swamp White Oaks, 2 American Hazelnuts, 2 Ninebarks, 2 American Plums, and 2 Red Osier Dogwoods. Ideal for providing food and shelter to your local wildlife and game species. (Page 12)

# CONIFERS

## Colorado Blue Spruce

*(Picea pungens)* **Non-Native**  
Slow growth rate, up to 100 feet.  
Prefers moist, acidic, well-drained soils with partial to full sun.  
Primarily used for screens, windbreaks, and Christmas trees.  
Sharp needles with a bluish tint.  
15+” seedling.  
**Price: \$11/10 pack; \$45/50 pack; \$79/100 pack**

## Fraser Fir

*(Abies fraseri)* **Non-Native**  
This stately tree is commonly used for Christmas tree production and wildlife benefits. With a moderate growth rate reaching 50 feet., shiny dark-green needles, a distinctive bark and dense pyramidal shape it, is a popular choice. It grows best in cool moist soils.  
10-18” transplant\*.  
**Price: \$22/10 pack \$92/50 pack; \$172/100 pack.**

## Douglas Fir

*(Pseudotsuga menziesii)* **Non-Native**  
This conifer can grow up to 100 feet tall. It is commonly use for lumber and Christmas trees. This species grows best in medium to wet, well-drained soils with full sun.  
15+” seedling  
**Price: \$11/10 pack; \$45/50 pack; \$79/100 pack**

## Norway Spruce

*(Picea abies)* **Naturalized**  
Slow to moderate growth rate, up to 130 feet. Prefers moist, acidic, well-drained soils with partial to full sun (does not tolerate poorly drained soils). Primarily used for windbreaks, ornamental plantings, and sometimes Christmas trees dark green needles.  
15+” seedling.  
**Price: \$11/10 pack; \$45/50 pack; \$79/100 pack**

## Eastern White Pine

*(Pinus strobus)* **Native**  
This rapid growing conifer can reach up to 150 feet. It has long, soft needles and seeds that songbirds and squirrels love. This species is shade tolerant and can survive in a wide range of soil moisture conditions.  
6-14” seedlings  
**Price: \$15/10 pack; \$62/10 pack; \$109/100 pack**

## White Spruce

*(Picea glauca)* **Native**  
Slow to moderate growth rate, up to 100 feet. Prefers moist, well-drained soils and is shade tolerant. It is not tolerant of winter salt spray, dry soils, and heat. Primarily used for lumber, windbreaks, Christmas trees, screens and wildlife habitat. Green needles, with pungent odor when crushed.  
15+” seedling.  
**Price: \$11/10 pack; \$45/50 pack; \$79/100 pack**

**Compost mulch** will be available at the ecopark during both the Tree and Shrub pre-order distribution and overstock sale.

This is a great source for you to obtain excellent nutrients and cover for your plantings! However, mulch should not be used in vegetable gardens. Residents must bring their own containers and a shovel to collect and bring home compost mulch.

For more information, visit the ecopark website at:

<http://www.monroecounty.gov/ecopark>

\*A transplant is grown for a year or two in a bed, then replanted to allow for more branching and root development.

## DECIDUOUS SHRUBS

### Black Elderberry

*(Sambucus canadensis)* **Native**  
Deciduous shrub which grows to be about 10 feet tall and refers full sun to partial shade. Can grow in medium to wet soil conditions, produces beautiful, white blooms in the summer. Great for wildlife its as its deep, purple-black berries are a great food source.  
12-18" seedling.  
**Price: \$14/10 pack; \$59/50 pack**

### Buttonbush

*(Cephalanthus occidentalis)* **Native**  
Deciduous shrub growing up to 10 feet tall that produces unique flowers in early summer to attract butterflies. It does best in full to partial sun and medium to wet moisture.  
12-18" seedling.  
**Price: \$14/10 pack; \$59/50 pack**

### Common Hoptree *(Ptelea trifoliata)* **Native**

Slow growth rate, up to 25 feet. Does well in any soil type and in any amount of shade. Produces small white flowers and round, wafer-like seeds in the fall. This tree is typically avoided by deer. Its name derives from German immigrant attempts to make beer from its seeds!  
12-18" seedling.  
**Price: \$19/10 pack; \$85/50 pack**

## DECIDUOUS TREES

### American Hazelnut

*(Corylus americana)* **Native**  
Moderate growth rate, up to 10 feet. Prefers sun to partial shade and rich, moist, well-drained soils. Cultivated for nut production. Also provides habitat and food to wildlife. Broadly oval deciduous leaves.  
12-18" seedling.  
**Price: \$13/10 pack; \$60/50 pack**

### American Sycamore

*(Platanus occidentalis)* **Native**  
Rapid growth rate, up to 100 feet. Prefers moist, deep, rich soils with full sun, but is very adaptable to dry, wet, compacted, and poor soil conditions. Creates wildlife habitat. Has a large, broad, open crown, with crooked branches. Bark is attractively mottled.  
18-24" seedling.  
**Price: \$14/10 pack; \$66/50 pack**

### Black Cherry

*(Prunus serotina)* **Native**  
Rapid growth rate, up to 80 feet. Prefers moist, rich, moderately-well drained soils, but will tolerate a variety of soil types, textures, and drainages with partial or full sun. Provides habitat & food for wildlife. Flowers are small and white.  
18-24" seedling.  
**Price: \$14/10 pack; \$66/50 pack**

### Worried About Deer?

Here are some plants we offer that deer typically avoid or only eat as a last resort:

- ❖ Black eyed - Susan
- ❖ Blazing Star
- ❖ Colorado Blue Spruce
- ❖ Douglas Fir
- ❖ Norway Spruce
- ❖ White Spruce
- ❖ Common Hoptree
- ❖ Red Osier Dogood (Wildlife Pack Only)

**Black Walnut**

*(Juglans nigra)* **Native**  
Rapid growth rate up to 100 feet..  
Prefers full sun and most soil types.  
Large nuts provide habitat for  
wildlife and are edible, typically  
maturing in late September. This is  
the most valuable wood producing  
tree in all of North America. Should  
not be planted near other trees.  
18-24" seedling.

**Price: \$15/10 pack; \$69/50 pack**

**Eastern Redbud**

*(Cercis canadensis)* **Native**  
Slow growth rate, up to 40 feet.  
Does well in most amounts of  
shade and soil types. This tree  
provides great aesthetic value to  
your property with its bright pink  
flowers that bloom in early spring.  
10-18" Seedling.

**Price: \$14/10 pack; \$59/50 pack**

**Northern Catalpa**

*(Catalpa speciosa)* **Native**  
Fast growth rate, up to 80 feet  
Prefers full to partial sun.  
Produces very large heart shaped  
leaves that cast a good amount of  
shade. A common street tree,  
catalpa is most famous for its large  
white flowers that bloom in June,  
and its extremely long seed pods  
(up to 2 feet in length).  
18-24" seedling.

**Price: \$19/10 pack; \$84/50 pack**

**Persimmon**

*(Diospyros virginiana)* **Native**  
Slow growth rate, up to 55 feet..  
Prefers sun to partial shade and dry  
to medium soil moisture. Drought  
tolerant. Provides habitat and food  
to wildlife. Glossy, dark green, oval  
leaves that turn yellow in the fall.

12-18" seedling.

**Price: \$15/10 pack; \$70/50 pack**

**Red Oak**

*(Quercus rubra)* **Native**  
Moderate growth rate, up to 80  
feet. Prefers well drained soils,  
but is very adaptable to many  
different soil types and drainages.  
Prefers full to partial sun.  
Primarily used for lumber and  
providing habitat and a food  
resource for wildlife.  
12-24" seedling.

**Price: \$10/10 pack; \$43/50 pack**

**River Birch**

*(Betula nigra)* **Native**  
Rapid growth rate, up to 70 feet.  
Prefers full to partial sun and  
medium to wet soil moisture  
conditions. Tolerates poorly drained  
soils. Great for erosion control. Has  
diamond shaped, dark-green leaves  
that turn yellow in the fall. Bark on  
young trees is light brown in color  
and paper-like.

12-18" seedling.

**Price: \$13/10 pack; \$60/50 pack**

**Sweetgum**

*(Liquidambar styraciflua)* **Native**  
Rapid growth rate, up to 100 feet.  
Prefers medium moisture  
conditions and well-drained soils  
with full sun. Makes a great shade  
tree for sunny yards. Leaves turn  
bright red in fall.  
18-24" seedling.

**Price: \$15/10 pack; \$70/50 pack**

**Sugar Maple**

*(Acer saccharum)* **Native**  
The state tree of New York, it has a  
slow growth rate, up to 80 feet.  
Prefers full to partial sun but is  
heavy shade tolerant. Does well in  
medium moisture and well drained  
soils. This tree's leaves turns bright  
red in the fall.

12-18" seedling.

**Price: \$17/10 pack; \$80/50 pack**

### White Flowering Dogwood

(*Cornus florida*) **Native**

Moderate growth rate, up to 30 feet. Prefers moist, well drained soils and full to partial sun. Produces white showy flowers in late spring that attract pollinators such as butterflies. Bright red fruits provide food for birds. 12-18" seedling.

**Price: \$13/10 pack; \$60/50 pack**

### White Oak

(*Quercus alba*) **Native**

Slow growth rate, up to 100 feet. Prefers moist, well drained, slightly acidic soils with partial to full sunlight but is very adaptable to many different soil types and drainages. Provides habitat & food for wildlife.

12-18" seedling.

**Price: \$13/10 pack; \$60/50 pack**

## OTHER PLANTS

### Black-eyed Susan

(*Rudbeckia hirta*) **Native**

Perennial with a rapid growth rate, up to 3 feet. Prefers well drained to somewhat poorly drained soil in full sun. Yellow flowers with dark brown spherical centers bloom from June to September. It is planted to beautify landscaping and in critical area seedings for erosion control.

Dormant rooted clumps.

**Price: \$19/10 pack; \$81/50 pack**

### Dense Blazing Star

(*Liatris spicata*) **Native**

Slow growing perennial with tall, purple flowers up to 4 feet. Blooms in mid to late summer. Great choice for a groundcover and to attract pollinators.

Dormant Rooted Clumps.

**Price: \$13/10 pack; \$55/50 pack**

### Planting and Storage Tips

- ❖ If storage is necessary, be sure to store your seedlings in a dark, cool area.
- ❖ Once in storage, check the moisture content of each bundle and sprinkle with water if necessary.
- ❖ **DO NOT SOAK SEEDLINGS FOR MORE THAN 30 MINUTES.**
- ❖ Plant your seedlings as soon as possible (This reduces mortality rates).
- ❖ Use a site that's been properly prepared (All sod should be removed). Be sure to consider sun and shade preferences for each plant as well as soils, drainage and pH before planting.
- ❖ Plant your seedlings at the proper depth and cover with mulch or weed mats.
- ❖ Water your seedlings and plants often.

Following these tips can greatly increase plant survival rates!

## Edible Fruit Multi-Pack –

Plant pack contains 10 plants with two of each species. All of these plants produce fruit that is edible to humans and also enjoyed by wildlife. Blueberry, raspberry, and blackberry plants will be sold in dormant seedlings larger than 9 inches and strawberry plants sold as dormant rooted clumps.

**Price: \$35.00 per packet**

### Blackberry - 'Darrow'

(*Rubus darrow*) (*Eldorado x Brewer*) x *Hedrick* **Native**

Moderate growth rate, up to 5 feet. Prefers moist to well-drained, sandy loam soils with partial to full sun. Not tolerant to dry, hot conditions. Primarily used as a food resource by humans and wildlife (blackberries have record diameter of 1 inch). This hybrid bears its large fruit over a long season from late spring through early summer. Fruits are borne on second-year canes.

### Blueberry - 'Blue Crop'

(*Vaccinium corymbosum*)

'Bluecrop' **Native**

The most widely planted mid-season producing blueberry cultivar in the world. It can produce high yields of medium sized blueberries. It is a disease resistant and cold-hardy blueberry plant produced by selective breeding. The plant can grow to a height of 6-8 feet. Blue crop blueberries are enjoyed by both humans and animals.

### Blueberry - 'Jersey'

(*Vaccinium corymbosum*)

'Jersey' **Native**

A late season blueberry producing plant; It produces high yields of small blueberries. The plant is cold-hardy and can grow in a wide range of soils when compared to other blueberry cultivars. Jersey blueberries are also enjoyed by humans and animals.

### Raspberry - 'Latham'

(*Rubus latham*) **Native**

This plant requires full sun to grow well. It typically flowers in the late spring and produces bright and tasty berries mid summer that are enjoyed by birds as well as humans. It grows to approximately 3-5 feet in height and has dark green leaves.

### Strawberry - 'Jewel'

(*Fragaria ananassa*) **Native**

A common variety of strawberry that is widely grown and sold. Only reaching 12" in height, the berries are large and wedge shaped that are firm and abrasion resistant. This variety of strawberry is well known for its flavor and high quality berries. This plant also has longer yielding seasons than other strawberry plants. The flowers of the strawberry plant can attract pollinators while the plant and it's fruit are eaten by many animals.

## Fern Plant Multi Pack –

Plant pack contains 10 plants with two of each species. All of these ferns are protected plants in New York. Plants will be sold as dormant rooted clumps.

**Price: \$21.00 per packet**

### Maidenhair Fern

(*Adiantum pedatum*)

#### **Native**

Moderate growth rate, up to 2.5 feet in height and 1.5 feet in width. Prefers moist, acidic soils, but will tolerate medium well-drained soils in partial shade to full shade. This perennial fern is finely-textured, with somewhat frilly fronds which have curved stalks and are palmately-divided.

### Christmas Fern

(*Polystichum acrostichoides*)

#### **Native**

Moderate growth rate, up to 2 feet in height and 2 feet in width. Prefers moist, well-drained and acidic soils in partial to full shade. This perennial fern is evergreen, with dark-green characteristic "ear-like" lobes that point upwards. Most commonly found in woodlands.

### New York Fern

(*Thelypteris noveboracensis*)

#### **Native**

Moderate growth rate, up to 1.5 feet in height. Prefers well-drained to poorly-drained soils in partial to full shade. This fern is a bright yellow-green with reddish brown scales.

### Ostrich Fern

(*Athyrium pycnocarpon*)

#### **Native**

Moderate growth rate, up to 3 feet in height. Prefers moist soils with partial to full shade. This fern has a smooth, lance shaped pinnae and sharp pointed tips that are reduced at the base.

### Cinnamon Fern

(*Osmundastrum cinnamomeum*)

#### **Native**

Moderate growth rate, up to 5 feet in height. Prefers poorly drained, wet acidic soils and in partial to full shade. This perennial fern gets its name because of the cinnamon-colored hairs covering its leaf stalks and reproductive bodies.

## Native Flowering Tree & Shrub Multi-Pack –

Plant pack contains 10 plants with two of each species.

All plants in this pack will be sold in 18-24" dormant seedlings.

**Price: \$21 per packet**

### Black Chokeberry

(*Aronia melanocarpa*)

#### Native

Moderate growth rate, up to 12 feet. Prefers moderately drained soils with full sun. The berries are consumed by wildlife and humans. Flowers are white, blooming in May with fruit harvested in the fall.

### Elderberry

(*Sambucus canadensis*)

#### Native

Rapid growth rate up to 10 feet. Prefers well drained to poorly drained soils and sunlight to shade. Attracts pollinating insects. Blooms white flowers in June and July followed by dark purple berries that are great for wildlife.

### Silky Dogwood

(*Cornus amomum*)

#### Native

This deciduous shrub grows up to 12 feet and does best in medium to wet soil types. Growing well in full to partial sun light, this shrub produces white blooms from May through June.

### Eastern Redbud

(*Cercis canadensis*)

#### Native

This tree can grow up to 30 feet tall. It grows well in full to partial sunlight and medium moisture, well-drained soils. In early spring it produces beautiful pink blooms.

### White Flowering Dogwood

(*Cornus florida*)

#### Native

Moderate growth rate with a height up to 30 feet. Prefers well drained soil with partial sun. Striking display of white flowers when in full bloom in April and May.

## Hosta Plant Variety Multi-Pack –

Plant pack contains 10 plants with two of each plant. Plants will be sold as dormant rooted clumps.

**Price: \$21.00 per packet**

### Hosta

*(Fortunei-Hyacinthina)*

A selection great for mass plantings with broad, firm, heart-shaped leaves that are a deep gray-green on top and blue below. This Hosta has greater sun tolerance when compared to other Hosta varieties. Pale lavender flowers appear on 30" scapes in mid to late summer.

### Hosta

*(F. aureomarginata)*

This Hosta has large mounds of wavy, green, pointed leaves that are both sun and drought tolerant. Fragrant, white flowers appear on 35-40" scapes in late summer; fragrance is most pronounced in the evening.

### Variegated Hosta

*(Ventricosa)*

A Hosta with huge, glossy, leaves that are heart shaped with slightly twisted tips and a rich, green color. Medium-purple blooms with distinctive striping are shown atop 40" scapes in midsummer. This Hosta has numerous pods filled with fertile seeds that are produced after the flowers.

### Varietaged Hosta

*(Undulata albo)*

As one of the first hostas to come up in the spring it has medium green leaves with wavy, white margins and gray-green streaks at the junction of the margin and center. Note that this Hosta may lose its variegation temporarily if in a potted container, during the hottest part of the season. It has pale lavender flowers appearing on 31-45" scapes in midsummer.

### Variegated Hosta

*(Undulata varigata)*

This Hosta has wavy leaves with white centers and irregular green margins, twisted at the tips. It too may lose its variegation temporarily, if planted in a container, during the hottest part of the season. It has lilac flowers that appear on 38" scapes in midsummer.

## Wildlife Multi-Pack –

Plant pack contains 10 plants with two of each plant. Plants will be sold as dormant seedlings (6-12”).

**Price: \$21.00 per packet**

### Swamp White Oak

*(Quercus bicolor)* **Native**

A tree with an average growth rate that does best in sunny or at least partially shaded areas. Reaches 50 to 70 feet. As the name suggests, swamp white oak does best in poorly drained soils, but it can be planted on moderately well drained soils as well. Provides nut crop for wildlife.

### American Hazelnut

*(Corylus americana)* **Native**

Moderate growth rate, up to 10 feet. Prefers sun to partial shade and rich, moist, well-drained soils. Cultivated for nut production. Also provides habitat and food to wildlife. Broadly oval deciduous leaves.

### Ninebark

*(Physocarpus opulifolius)*

**Native**

This species can grow from 5 to 10 feet tall. It does well in a wide range of moisture conditions. It produces small white or pink flowers in late spring to early summer. Which are great for pollinators such as butterflies.

### American Plum

*(Prunus americana)* **Native**

Wild Plums can be eaten fresh, canned, and preserved in jams for human consumption. Turkeys, foxes, and songbirds eat the fruit as well. It is recommended as a drought resistance, erosion control plant and for creating wildlife habitat. Wild plum can grow to a height of 24 feet and has white flower clusters in April/May and fruit in August.

### Red Osier Dogwood

*(Cornus sericea)* **Native**

Moderate growth rate, but quick to establish, commonly grows from 3-10 feet. Is adapted to growing well in moist soils (especially along streams), and can grow in any amount of shade. White flowers bloom in March-May, and red branches retain their color throughout the year. Great for erosion control.

## Wild Berry Multi-Pack –

Plant pack contains 10 plants with two of each plant. Plants will be sold in dormant seedlings (6-12”).

**Price: \$23.00 per packet**

### Elderberry

*(Sambucus nigra)* **Native**  
Rapid growth rate up to 7 feet. Prefers well drained to poorly drained soils and sunlight to shade. Berries used by humans and wildlife. Attracts pollinating insects. Blooms white flowers in June and July followed by dark purple berries.

### Shadblow (Downy) Serviceberry

*(Amelanchier canadensis)* **Native**  
Slow growth rate, up to 25 feet. Prefers moderately drained to poorly drained soils in partial to full shade. At least 40 different song bird species are known to feed on its fruit. Blooms white flower in March-May.

### Native Raspberry

*(Rubus odoratus)* **Native**  
Rapid growth rate, up to 4 feet. Prefers moist, well-drained soils with full sun. The berries are primarily used as a food resource for humans and wildlife. White flowers bloom from May to July and the juicy red berries ripen around in July.

### Red Mulberry

*(Morus rubra)* **Native**  
Moderate growth rate up to about 50 feet. Can tolerate both well drained and somewhat poorly drained soils in shade or sun. This tree is a favorite of both large and small game for its distinctive red/purple berries that resemble blackberries.

## SEED PACKETS

### Cover Crop Fall Seed Mix:

The cover crop mix is a great fertilizer alternative for a small farm field or your garden! Sow these seeds after your harvest to keep your soil intact and prevent soil loss from erosion. The hairy vetch and winter rye in this mix will regrow in the spring (all other plants will winter kill) and provide nutrients to your crops! (Species include winter rye, field peas, ryegrass, crimson clover, and hairy vetch)

**Seeding rate: 5 lbs./0.1 acre. or ~4300 sq.ft**  
**\$33.00 per 5 lb. bag.**

## SEED PACKETS

**Wildflower Seed Mix (Part Shade):** This is a great mix to add color to partly shaded areas of your landscape. Includes annuals and perennials. A variety of flowers bloom throughout the season. (Species Include: *Sweet Alyssum, Dwarf Columbine, Clarkia, Cynoglossum, Coreopsis, Rocket Larkspur, Sweet William Pinks, Foxglove, Purple Coneflower, Baby's Breath, Dames Rocket, Candytuft, Baby Blue Eyes, Corn Poppy, Black-Eyed Susan*).

**Seeding Rate: 1 oz./300 sq. ft. \$11.00 per 4 oz. packet.**

**Wildflower Seed Mix (Full Sun):** The perfect colorful seed mix for sunny spots. This mix includes annuals and perennials. A variety of flowers bloom throughout the season. (Species Include: *Annual Mallow, Arroyo Lupine, Baby Blue Eyes, Baby Snapdragon, Black-Eyed Susan, Blanketflower, Blue Flax, Catchfly, Clarkia, Dame's Rocket, Evening Primrose, Farewell-to-Spring, Foxglove, Globe Gilia, Lance-Leaved Coreopsis, Phlox, Plains Coreopsis, Prairie Aster, Purple Coneflower, Scarlet Flax, Siberian Wallflower, Upright Prairie Coneflower, Yarrow*).

**Seeding rate: 1 oz./300 sq. ft. \$11.00 per 4 oz. packet.**

### **Wildlife Food Plot Seed Mix:**

The ideal high quality, specialty wildlife food plot mix of White Clover, Soy Bean, and Alfalfa will cover 1/4 of an acre per bag. This seed mix can be used to attract wildlife for hunting and/or wildlife viewing purposes. This mix will do well in a variety of soils, and will tolerate both sun and shade conditions. This seed mix is intended to be broadcast seeded for ease of planting.

**Seeding rate: 10 lbs./0.25 acre. \$60.00 per 10 lb. bag.**

## OTHER ENHANCEMENT ITEMS

### **Bat Box Roosting Housing**

Provide a home for a small brown bat or other species of bats. Little brown bats are insectivores, eating moths, wasps, beetles, gnats, mosquitoes, midges and mayflies, among others. Since many of their preferred meals are insects with an aquatic life stage (such as mosquitoes) they prefer to roost near water.

**\$15.00 each**

### **Bluebird Nest Box**

Provide a home for our state bird! Order with your spring plants or stop in anytime. Ask for mounting guidelines when you pick up your nest box.

**\$16.00 each**

### **Fertilizer: Slow Release Tablets**

Slow release fertilizer tablets last for approximately 2 years. Typically one tablet is used per tree/shrub planted.

**\$1.00/10 tablets**

### **Flags**

Use these brightly colored, 3 ft. wire flags to mark your planting site. Marked planting sites are less likely to be mowed over! Each bundle includes 100 flags.

**\$14.00/100 flags**

### **Tree Shelters**

Includes a 4 ft. bio-degradable tube, stake and bird net. These help to protect hardwood trees from wildlife damage while speeding up growth rate.

**\$9 each**

**\$75 (10 pk.)**

**\$356 (50 pk.)**

**\*Note: All items on this page include sales tax in the prices listed.**

Questions? Call Monroe County SWCD @ (585) 753-7380

## IMPORTANT ORDERING INFORMATION

Order may be placed traditionally way by mailing your order form with a check or via the credit card options listed bellow.

**To pay by credit card, you may choose from the following options:**

1. Order and pay online through our website: [www.monroecountyswcd.org](http://www.monroecountyswcd.org)
2. Complete the order form with credit card details and email/mail form
3. Complete the order form and send via email/mail and call the office to make payment at (585) 753-7380

**If emailing form, send to:** [mcswcd@monroecounty.gov](mailto:mcswcd@monroecounty.gov)

**If ordering by mail, complete and submit your order form and check to:**

Monroe County SWCD  
145 Paul Rd., Bldg. #5, Rochester, NY 14624.

***ALL ORDERS MUST BE RECEIVED BY MARCH 6, 2020***

**PLEASE REMEMBER - THE ORDER CONFIRMATION YOU RECIEVE WILL BE OUR ONLY COMMUNICATION WITH YOU UNTIL ORDER PICK-UP.**

*Distribution of all pre-orders will be:*

*April 23-24, 2020, from 9:00 a.m. – 5:00 p.m.*

*at the ecopark located at 10 Avion Drive, Rochester, NY 14624*

*For directions, please visit: <http://www.monroecounty.gov/ecopark>*

## TREE & SHRUB OVERSTOCK SALE

**April 25, 2020 9:00 a.m. – 11:00 a.m.:**

**Monroe County ecopark  
10 Avion Drive, Rochester, NY 14624**

**This is a rain or shine event! To ensure you can receive the selections you want we recommend pre-ordering. For those that miss the pre-order deadline visit the Overstock Sale, noting that not all species may be available at that time. We sell to our customers on a first come, first served basis.**

All seedlings are bare root. Stock may be used for wildlife habitat, erosion control, reforestation, windbreaks, landscaping, Christmas trees, etc. All trees and shrubs sold are to be used for the above conservation practices. All trees and shrubs are sold with the understanding that they will not be removed from the planted site with roots attached for resale. Orders are filled on a first-come, first-serve basis, while supplies last. The District reserves the right to refund payment on species and items if they should become unavailable. Because the District cannot check a planting location, nor guard against improper handling and planting procedures or weather related problems, the District will not be responsible for replacement or refunds of orders after distribution. Returned checks WILL NOT be reprocessed. Bounced checks will incur a \$20 fee.

In such situations, the only forms of payment accepted will be money order, cash, or credit card.

**\*Credit card refunds will be subject to a 5% administrative fee deducted from the total amount of purchase.**

The District's Annual Conservation Tree and Shrub Program distribution site will be at the Monroe County ecopark facility. The ecopark provides county residents with an innovative facility that serves as a "one-stop drop-off" to dispose of and recycle their items. This facility is a partnership between Monroe County and Waste Management of New York.

**Regular Collection Hours:**

Wednesdays 1:00 pm – 6:30 pm

Saturdays 7:30 am – 1:00 pm

Please note that there will not be collection hours available during our pre-order distribution (April 23-24); No ecopark staff will be available at that time. We encourage you to visit during their new hours listed above or come by during our Overstock Sale scheduled for Saturday, April 25.

Compost mulch will continue to be available at the ecopark during both the Tree and Shrub pre-order distribution and overstock sale. This is a great source for you to obtain excellent nutrients and cover for your plantings!

For more information, please visit the ecopark website at:

<http://www.monroecounty.gov/ecopark>
