

Supplemental insurance provides an additional layer of financial protection for yourself and your family in case of an unexpected injury, illness, or life event. While health insurance pays doctors and hospitals, **Aflac policies pay you directly - and you choose how to use the money** - whether it's to offset lost work time (and pay), or to help with out-of-pocket medical costs like deductibles, copays, etc., or to use on any other expenses. Most plans include a Wellness Benefit that pays you cash for a routine visit or annual checkup!

Aflac offers a wide range of affordable products with coverage options that flex to fit almost any budget.
