Introduction

The university has a wide variety of sources of funds, each of which has its own spending characteristics. No set of guidelines can be written that addresses every possible expenditure decision which may arise. There are however, some basic rules, regulations, and precedents which are presented here, that can help to guide an employee, department and/or division in making wise spending decisions. These guidelines are provided to ensure that faculty and staff can carry out the university's mission effectively, while ensuring that fiscally responsible and legal spending practices are followed. At all times, employees are responsible for following basic purchasing guidelines for the procurement of all goods and services.

- **All Sources of Funds**

Appearance and Reasonableness Tests

For all potential expenditures from all sources of funds, the "appearance test" should be used, i.e., how would this purchase look to external constituents if placed on review. Another test that is useful is to ask the question "Is this expenditure necessary for a faculty or staff member to do his/her job or for the university to carry on its normal business?" The utilization of these tests should help to guide faculty and staff members in their decision-making. At all times, faculty and staff are encouraged to avoid the appearance of poor management of funds as well as the reality of poor management of funds.

Exceptions and Interpretations

Every attempt has been made to make these guidelines comprehensive. There may be cases, however, which would fall outside the guidelines and yet be legal expenditures and in the best interests of the university. If a case occurs in which an individual believes an exception should be made to the guidelines, he/she should request through the respective division's budget manager that an individual determination be made on a particular item. The Budget Director, or designee, will work with the division's budget manager to determine the latitude available on the request, the university business purpose of the request, and other options which may be available.

Principal Investigator Responsibilities (PI)

The principal investigator (individual responsible for the funds in a project) has the responsibility to ensure that proper documentation procedures are followed for projects that he/she controls and that only authorized expenditures are charged to a project. Further, the project custodian is responsible for ensuring that any projects which he/she may control are reviewed at least monthly and any transactions which are incorrect or do not belong on a project are reported to Contracts and Grants and/or the Comptroller's Office. Finally, a project custodian is responsible for ensuring that he/she maintains a positive or zero cash balance on projects unless specifically exempted from this requirement in writing by the Office of Sponsored Programs.

Payments to Employees

Regardless of funding source, payments to employees are limited to authorized reimbursements, authorized awards, or authorized salaries. Payments to employees for compensation for work must follow guidelines published by the Department of Human Resources and must be initiated through the payroll system. Any payments listed as supplemental pay should follow the supplemental pay guidelines. www.nccu.edu/formsdocs/proxy.cfm?file_id=2202

Personal reimbursements for items such as supplies, travel, or meals to an employee must be approved by an individual at a higher level of authority in the individual's department and it must be an allowable expenditure. Personal reimbursements for items and supplies should be for emergencies only, not for the daily operational needs of the department. These purchases should normally be made with prior planning and through the purchase card, or requisition process. Any such approved reimbursement must be documented appropriately for the expenditure. For example, the purchase of supplies would require following purchasing guidelines.

Adverse Weather Events and Other Emergency Conditions

In the event of emergency weather conditions, certain departments have personnel critical to the university for health/safety/welfare reasons and the care and handling of animals. Examples of personnel who might fit this criterion are key individuals from Facilities Operations, Dining Services, Housing Services, Transportation, Campus Police, IT, Biomedical/Biotechnology Research Institute (BBRI), and certain other support or research services. Under emergency circumstances, units which have such critical functions may make prudent and reasonable lodging and/or meal arrangements for critical employees who must be at the university and pay for the arrangements from their normal operating budgets, regardless of source of funding. For example, Facilities Operations might make arrangements with University Housing when local weather forecasts indicate a high probability that roads will be impassable and hazardous to traverse. Requests for payment for these expenses should be clearly documented including the nature of the emergency, names of personnel covered, date(s) and time(s) of the event, and any other relevant information which might serve to document the expenditures.

Penalties and Charges Resulting from Cancellations of Travel Reservations

Penalties and charges resulting from the cancellation of travel reservations (including airline or hotel reservations and conference registrations) may be paid by a department if the employee's travel has been approved in advance and the cancellation or change is made at the direction of and/or for the convenience of the department. If the cancellation or change is made for the personal benefit of the employee, it is the employee's obligation to pay the penalties and charges. In the event of accidents, a major disaster, a serious illness or death within the employee's immediate family, or other critical circumstances beyond the control of the employee, the department may pay the penalties and charges.

Long Distance Telephone Calls

Long distance telephone calls are allowable from university funds only for university business except in the event of emergency or certain situations allowable during travel status. Should *emergency circumstances* arise which necessitate a university employee to make a personal long distance or cellular phone call not covered in the above, the employee should immediately notify his or her supervisor and make arrangements to reimburse the university.

Moving Expenses

When authorized, moving expenses for *new* employees must be paid from discretionary or foundation funds. Moving expenses should be carefully documented and charged to the appropriate fund/org and account. Coding to the appropriate account code is very important because the code drives the tax reporting for the moving expense payments. Three vendor quotes are required for moving expenses under \$5,000. Moving expenses costing over \$5,000 or more must be handled on a purchase requisition or bid basis.

Expenditure Account Codes

Expenditure account codes are codes that must be used when processing financial transactions to identify various classes of expenditures, for example, salaries, travel, supplies, equipment, etc. The actual codes will provide even more detailed breakdowns of these groupings. This coding scheme gives the university the ability to create reports that include, or are broken down by, the various classes of expenditures.

State Budget Codes - General Operating Funds (100XXX)

This group of funds consists of state appropriated funds, federal appropriated funds, and receipt supported funds in the state budget code. These funds provide for expenditures for the normal activities necessary to operate the university. The nature of the purchases will depend upon the mission of the unit and the type of supplies, equipment, etc. necessary to accomplish that mission. To a certain degree, the appropriateness of expenditures will depend on that mission. For example, the purchase of a John Deere - GATOR might be appropriate from the Facilities Division budget, but inappropriate from the English department's instruction budget. Another note in determining appropriateness of an expenditure in a particular fund depends on the program code (purpose code) the fund is assigned to. The program (purpose) code is located in the first three digits of the Banner fund number as well as in the PROG code of your FOAP. The program codes for state funds are as follows:

- 101 Academic Instruction
- 102 Summer Term Instruction
- 103 Continuing Education/Extension Instruction
- 107 Distance Education
- 110 Organized Research
- 142 Community Services
- 151 Library Services

- 152 Academic Support Services
- 160 Student Support Services
- 170 Institutional Support
- 180 Facilities/Physical Plant

Miscellaneous State Budget Code Rules (100XXX)

The following provides information on many specific items as to their allowableness or prohibition for expenditure from state operating funds. This is not an exhaustive listing, however; these are some of the most frequent items that are encountered.

1. *Membership Dues* - Membership dues may not be paid for individual employees or for the benefit of an individual employee. Membership dues paid from state funds must be for the benefit of the university and not the individual. If the university is to benefit from an individual's membership in an organization, that benefit should derive not because of the individual, but because of the individual's position with the university, regardless of who is in the position. Although a membership may be in the name of an individual, his/her membership terminates at the same time he/she terminates employment with the university or moves to another department.
2. *Passports and Visas* - Reimbursements for costs incurred in obtaining or renewing a passport may be made to an employee who, in the regular course of his/her duties, is required to travel overseas in the furtherance of official university business. Passport expenses are chargeable to the same fund that supports the employee's trip. The university also interprets this to mean that similar related fees or expenses such as required visas may also be reimbursed.
3. *Immigration and Naturalization (INS) Fees* - Payment of INS fees is allowable if the fees are for paperwork required of the employer and not the employee. Allowable fees include payment for the I-129, the I-140, and the I-907. Payment for processing forms (for example, I-485, I-765, and I-539) required of the prospective employees are not allowable. The expediting fee for an H1B Visa may be paid from state funds if the salary source is state funds.
4. *Payments for Food/Refreshments for Continuing Education Classes/Workshops* - In the case of certain Continuing Education classes/workshops which are operated within state budget code and which are paid from participants' fees, there is an established procedure for payment of food/refreshments so long as it is part of the fee charged to participants. A trust fund must be used and the portion of the revenue which is to be used to pay for the food/refreshments must be deposited into the trust fund. Payments for the food/refreshments must then be made from the trust fund. Under no circumstances may these payments be made directly from the state budget code. *This applies to funds listed in program (purpose code) 103 only.*
5. *Scholarships* - Scholarships may be paid from state funds only if they are part of a legislatively approved and separately budgeted scholarship program.
6. *Promotional Items* - A promotional item is an item purchased for advertising purposes to be given to an employee or non-employee. Normally, the item would have the name of a department or program printed on it with a message or telephone number. Promotional items paid from state funds should be of minimal value and should be charged to the

advertising account code 73700. In the case of office supplies which may have the name of a department printed on them at nominal cost, these items would be coded to the supplies account code.

Examples of appropriate purchases of promotional items from state funds are as follows:

- Health/safety related - example, purchase of small refrigerator type magnets or pencils with the university's emergency telephone number on them, it being in the best interests of the university and the state to ensure that the emergency number is readily available.
- Mission and program related - example, purchases of pencils with North Carolina Central's name and admissions number on the pencils by the University Admission's Office.
- Office supplies with the name of a department or workshop printed on the materials so long as the cost of the printing is not excessive (e.g.: folders);

Examples of inappropriate purchases of promotional items from state funds would be the purchase of t-shirts, coffee cups, six-pack coolers, lunch bags, or other items that would primarily be used for personal purposes and/or would have more than a nominal value. Articles of clothing or meal related items generally fall in this category unless they are part of a required uniform (would not then be considered a promotional item).

Unallowable Purchases from State Budget Codes (100XXX)

There are some purchases that are **not allowable** from state funds. Listed below is information about unallowable purchases:

- The purchase of alcoholic beverages and "setups" is prohibited from state funds.
- The purchase of items for personal use is prohibited.
- The purchase of food, coffee, tea, drinks, candy, snacks, break refreshments, etc. for consumption by **employees, students or guests** is prohibited from state operating funds under all circumstances other than those provided for under university and state travel regulations. The travel regulations provide specific guidance as to allowable reimbursable expenses for meals when in travel status. State budget regulations do provide for the purchase of refreshments for coffee breaks not to exceed \$4/person for meetings/conferences which are planned in detail in advance, with a formal agenda or curriculum, where there is a formal written invitation to participants setting forth the calendar of events and the detailed schedule of costs, and there are twenty (20) or more participants per day. *It is recommended that a department wishing to utilize the coffee break snack allowance contact the Office of Budgets and Financial Planning for advance approval before the event.* Purchases of food, flowers, and plants are permissible when purchased for use in research, education, or for consumption by research animals rather than for decorative or personal use.
- The purchase of medications (pain relievers, aspirin, etc.) and/or medical supplies for staff/employees other than as may be required by federal or state regulations or for emergency first aid is not allowable.

- The purchase of microwave ovens, coffee pots, refrigerators, or related items for personal office use is not allowable. This prohibition does not extend to equipment or supplies utilized for educational or research purposes.
- The purchase of plants or flowers (live or artificial) for decorative use in an office is prohibited except purchases by the Facilities Division as part of campus maintenance.
- The purchase or framing of pictures, art, diplomas, etc. for use in a personal office for decorative purposes is not allowed.
- The purchase of party items or other decorative items to decorate an office for a holiday or party or general decorative use including the purchase of balloons and other like items is not allowable.
- The purchase of picnic tables for a department other than by the Facilities Division as part of the campus maintenance function is not allowable.
- The purchase of picnic items (paper plates, cups, napkins, forks, spoons, etc.) for office/employee use is not allowable.
- The rental of portable water dispensers and the purchase of bottled water from state funds is not normally (see exceptions below) allowable and is considered a personal expense. In the event that the quality of the water in a campus building is in question, the department should call Facilities Services to have the water tested. The Facilities Division may be contacted to determine if additional water fountains are needed in a campus building. A portable water dispenser can be rented or bottled water purchased from state appropriated only if there is a health/safety reason for the purchase.
- Examples would be if a temporary condition existed where water quality in a facility was below state standards or when university personnel (for example, Facilities' personnel) are working under weather or other conditions where water is not available otherwise.
- The purchase of gifts or flowers for an employee or non-employee is considered a personal expense and is not allowable on state funds.
- The purchase of get well cards, sympathy cards, birthday cards, Christmas cards, or other holiday cards is considered a personal expense and is not allowable on state funds.
- The purchase of personal clothing items or t-shirts which are not part of required uniforms, or safety related is not allowable.

State Appropriated Carry Forward Funds: (May be found in the same codes as State Budget Codes - General Operating Funds)

State appropriated carry forward funds are state operating funds which have not been expended as of June 30 of a fiscal year and have been approved to “carry forward” as budget in the next fiscal year. Expenditures of these funds follow the same guidelines as normal state appropriated operating funds except that, with the approval of the Dean or Vice Chancellor, and inclusion in the budget flexibility plan, funds may be transferred to capital improvement codes and used for renovation and/or new construction projects. Once transferred to a capital improvement code, the carry forward funds cannot be transferred back to an operating code.

Indirect (F&A) Trust Funds

Expenditures from facilities and administrative funds must follow the same guidelines as those for state appropriated operating funds except that the funds may be transferred to the capital improvement budgets for use in renovations or new construction.

Sales and Services Trust Funds

Expenditures from sales and services trust funds follow the same guidelines as those for state appropriated funds except that funds may be used to purchase meals and/or refreshments for *conferences or workshops when a fee charged to participants and deposited into the trust fund includes provision for the meals/refreshments*. The exception for food/refreshments is specifically limited as described above and must be included in the fund authority for the project.

Purchases from a sales and services trust fund must be for the purpose of supporting the activities for which the project was created and all costs of providing those services including salaries must be charged to trust fund.

Funds received from sales of baked goods, t-shirts, and other similar items by students or faculty as part of student fund raising efforts are exempt from the requirement to be treated as state funds. These funds are treated as gifts in determining how they may be expended.

Auxiliary and Related Trust Funds

Auxiliary and similar operations include the Bookstore, Student Center, University Dining, Housing, Student Health Service, Central Stores. Expenditures from auxiliary funds must follow the same guidelines used for state funds except when used for certain program related activities as noted in the individual auxiliary sections below. In all cases, state funds expenditure guidelines must be followed when using the funds for staffing an office (for example, Bookstore office personnel) or carrying on activities which are similar to state funded activities. No extra benefits, compensation, food, or any other item which could not be paid from state funds may be provided to university employees. The purchase of alcoholic beverages from auxiliary funds is prohibited except as noted below for University Dining.

Bookstore - Must use state appropriated fund guidelines for administrative related operations for university employees as noted above. May purchase items falling outside the state fund guidelines for seasonal retail display items (fall, winter, spring, and summer) used to enhance or promote product, and for promotional giveaways (may be food related) used exclusively for the intended customer base (students, faculty, and staff). (Also, see vending receipts section below for additional information regarding expenditures.)

Student Center - Must use state appropriated fund guidelines for administrative related operations for university employees. May purchase items falling outside the state fund guidelines for activities/programs for students sponsored by the Student Center(s) or for decorating the Student Center facilities.

University Dining - Must use state fund guidelines for administrative related operations for university employees. May purchase items falling outside the state fund guidelines for program activities relating to university dining services or for decorating the Dining Center facilities. May also purchase alcoholic beverages in the event they are part of a recipe used in the Dining Services catering operation. (See vending receipts section below for additional information regarding expenditures.)

Housing - Must use state appropriated fund guidelines for administrative related operations for university employees. May purchase items falling outside the state funds guideline for student activities/programs related to the housing program.

Receipts from Vending Facilities Trust Funds

The term “vending facilities” includes both of the following: (1) any mechanical or electronic device dispensing items or something of value or entertainment or services for a fee, regardless of the method of activation, and regardless of the means of payment, whether by coin, currency, tokens, or other means; and (2) a snack bar, cafeteria, restaurant, café, concession stand, vending stand, cart services, or other facilities at which food, drinks, novelties, newspapers, periodicals, confections, souvenirs, tobacco products or related items are regularly sold. [N.C.G.S. 143-12.1(g). N.C.G.S. 111-42(d)] North Carolina general statutes specifically restrict the use of vending receipts. The following uses of net proceeds from the operations of vending facilities are authorized:

- Scholarships and other direct student financial aid programs;
- Debt service on self-liquidating facilities;
- Any of the following student activities if specifically authorized by the Chancellor:
 - *Social and recreational activities for students residing in self-supporting University housing. However, expenditures for these purposes shall not exceed the amount of total net proceeds derived from vending facilities located in such housing facilities;*
 - *Special orientation programs for targeted groups of students (e.g.; peer mentor programs);*
 - *Operating expenses of scholarships and other student awards and honors programs.*
- Specified use of net proceeds as a condition of certain gifts, grants, or bequests. (For example, a condition of a gift of a vending facility to the university might be that proceeds are to support some specific segment of the university.)
- Retention to provide for working capital, replacement of facilities and equipment, and other purposes to support the continuing, orderly operation of the particular self-supporting service operation.
- Transfers to other self-supporting student service operations and authorized capital improvement projects, upon the written recommendation of the chancellor and subject to the written, advance approval of the president. [N.C.G.S. 116-36.4]

Contracts and Grants Funds

Contracts and grants must follow all state appropriated fund guidelines, sponsor specific terms, and conditions noted in the awards documents unless excepted as noted below. Exceptions to the state fund guidelines must be discussed with and approved by the Division of Research and/or the Office of Sponsored Research and Programs. An example of an exception would include a Federal or Federal flow through sponsor specifically allowing for the payment of travel expenses at a Federal per diem rate (for example, for foreign travel) or allowances for food costs for seminars or workshops associated with the objectives of the award. Contracts and grants may also be subject to Cost Accounting Standards (CAS) set forth in the Uniform Guidance 2 CFR 200 and OMB Circular A-21. Cost Accounting Standards and other guidance in Circular A-21 are applicable to Federal and Federal flow through awards as well as any other external funds referencing Circular A-21 and/or CAS in their terms and conditions.

Remaining Available Balances from “Fixed Price” Contracts Trust Funds

Expenditures of remaining balances available after all costs related to the contract have been paid for a “fixed price” contract must follow the guidelines for state appropriated funds.

Gift and Endowment Income Trust Funds

Expenditures from gift and endowment income funds must be made prudently with the intent of the donor in mind and follow the restrictions set by the donor. Expenditures for alcoholic beverages should be strictly limited and must have the approval of the appropriate Director, Dean, or Vice Chancellor. The primary purpose of an expenditure must be for the benefit of the university and, therefore, not for the direct benefit of an employee.

Endowment Principal Funds

Endowment principal funds are funds provided to the university, normally in the form of a trust or gift, for investment to generate income. The income may be unrestricted or restricted for a particular purpose. Expenditures are not allowable against these endowment principal funds. All endowment related expenditures must be made from *endowment income projects* (see above).

Student Activity Fee Trust Funds

Student activity fees may be expended for student activities including the purchase of items which may not be paid from state funds so long as a prescribed student budget allocation process is followed in the allocation of funds. The funds may not be used to fund activities for university staff or university staff offices which could not be purchased from state funds (see guidelines above). No extra benefits, compensation, food, gifts, or any other items which could not be paid from state funds may be provided to university employees except where food is incidentally served to employees attending a student function. Expenditures for alcoholic beverages are prohibited. Utilization of state term contracts or state purchasing regulations is not required for student activity funds; however, good business practices are encouraged in expending the funds.

Patent Royalty Trust Funds

Patent royalty funds are royalties derived from licensing of a patent. These funds must be used for support of research. They are flexible in nature and may be used like an unrestricted gift, including payment for events such as an Inventors' Awards Banquet and other items which could not normally be paid from state funds, so long as the funding is for the benefit of the university and not for the personal benefit of an individual.

Orientation Fees Trust Funds

Orientation fees are paid by students to fund the new students' orientation program. The fees may be used for payment of orientation expenses including food and refreshments for student orientees, orientation training (including retreats), and other expenses necessary to provide a full orientation experience for students. Expenditures for alcoholic beverages are prohibited. The funds may not be used for refreshments for university staff meetings or other business which is outside the confines of the retreat, orientation training programs, or orientation program.

Agency Trust Funds

This category includes funds held by the university as fiscal agent for student, faculty, and staff organizations where it has been deemed in the best interests of the university to provide an accounting service. These funds do not belong to the university and the university does not determine what they can be spent for except as follows:

- *The university requires a formal approval process to ensure, to the extent possible, that funds in these projects are not misused;*
- *The funds should not be spent for any purpose which would be detrimental to the image of the university.*

The university does not require the custodian of an agency fund to utilize university travel and/or purchasing regulations or guidelines for expenditures of funds except that adequate documentation is required to ensure that an authorized person is initiating an expenditure request.

The majority of agency projects are student organization projects or clearing accounts utilized by the Controller's Office.

Discretionary Trust Funds

Discretionary funds, *those funds that are not budgeted to be used for some specified purpose*, can be used to meet a broad range of university needs. The flexibility that is associated with discretionary funds is vitally important to the university. At the same time expenditures of discretionary funds must be consistent with a number of general guidelines as set out below.

- *Each expenditure of discretionary funds must be for a valid university purpose. These expenditures (whether for meals, travel, lodging, entertainment, official functions, gifts*

and awards, or memberships) must follow all university policies that apply to that type of expenditure and must be accompanied by appropriate documentation including receipt(s), purpose, date, location, and names of persons involved. The very flexibility associated with discretionary funds means that determining the propriety of some expenditures will require judgment. In these cases, the prudent person test applies. The individual making the decision about the expenditure must be comfortable with the prospect that the specific expenditure would come under the scrutiny of individuals outside the university.

- *Expenditures that confer a personal benefit upon the individual authorizing the expenditures are not allowable. Expenditures for items such as employee recognition awards that are authorized by one individual to be received by another are allowable.*

Use of discretionary funds for donations or contributions to non-profit organizations **is not permitted** unless a substantial university purpose can be demonstrated and the receipt of the donation by the organization does not threaten the tax exempt status of the university.

Sales and services projects may not be used to provide funds for discretionary use.

Other Information

Trust Funds Exempt from Selected Travel Rules (*Exempt Trust Funds*)

1. Certain trust funds may be exempted from selected travel regulations in the following ways:
 - Employees in travel status can be reimbursed for actual meal costs rather than at the state rate if they provide receipts for the meal. Discretion in the amounts spent and requested for reimbursement is expected. Must be approved by individual's supervisor if he/she is being reimbursed.
 - Employees not in travel status can be reimbursed for meals for themselves and/or other individuals provided that the business purpose of the meal, the date, receipt(s), the location, and the names and positions of other individuals involved are documented. Must be approved by individual's supervisor if he/she is being reimbursed. These funds would normally be discretionary funds, unrestricted or miscellaneous gift funds, certain endowment income and foundation funds, or patent royalty funds.
2. Sales and services funds may not normally be exempted from travel regulations except that funds may be used to purchase meals and/or refreshments for conferences or workshops when a fee charged to participants and deposited into the trust fund includes provision for the meals/refreshments. The exception for food/refreshments is specifically limited as described above.

Vehicle Acquisition Policy

The purchase or lease of all motor vehicles of whatever description (car, golf cart, personal mover, bus, van, etc.) must be determined to be in the best interests of North Carolina Central University (NCCU) as determined by the NCCU Vice Chancellor for Administration and Finance and coordinated through the NCCU Motor Fleet Office.

Major Acquisitions Policy

During periods of economic distress or exigency as determined by the President of the University of North Carolina System (UNC) and/or the Chancellor of North Carolina Central University (NCCU), all individual goods or services costing ten thousand dollars (\$10,000) each or total orders costing one hundred thousand dollars (\$100,000) in the aggregate must be reviewed and approved in advance by the NCCU Vice Chancellor for Administration and Finance or such other University official as the Chancellor may appoint.
